**WEEK**  
Mrs. G. Smith, Sr. had major surgery Tuesday morning and was a chance to live by Dr. Price as she had little chance without surgery. This edition was put to bed late and of course news given Index Tuesday has been held until next week.

All you harvest crops or accident this year? Machine harvesting is extremely dangerous if it is in a hurry or if the equipment is in the best possible condition. Wear your seat, controls and safety guards in place. Wear your clothes for the job. Also children are definitely out of around harvesting machinery.

ESDA fire prevention specialists families to work out a simple emergency plan that is understood, even rehearsed periodically, by members of the family. They also recommend having fire fighting equipment such as rakes, axes and a fire extinguisher handy.

**Club Meeting**  
Monday night the "O" Club will have a film of this Friday night's game with Sundown. Coffee and doughnuts will be served. All members and parents of football players urged to attend. The meetings are every Monday night at 7:30 in the High School Auditorium.

**EAGLES DROP GAME TO COAHOMA**  
Coahoma stormed past the O'Donnell Eagles at Coahoma last Friday for a 42 to 8 decision in a non-conference tilt. The Eagles were out until the final quarter when QB Gary Bowles hit paydirt on a yard out and ran over the Eagle markers. For the Eagles marked the 5th victory of the season against one victory last week. Also marked the end of non-distinct play for the Eagles who open district play next Friday at Sundown. Plains, Friendship and Seagraves are the remaining Eagle opponents following the Sundown game.

**POINTS FOR HIGH SCHOOL PARENTS**  
Don't try to relieve your high school days thru your child. The other-daughter team that looks just like sisters may do wonders for mother's ego — but irreparable harm to daughter's self.

Don't be taken in by wild rumors about your high school or about the students, that may sweep your town like a flash fire.

Don't spread these rumors. Take them to the high school principal.

Don't just drop around when the motion strikes you to visit your student's classes — you are likely to embarrass him and make a problem for the teacher.

Don't ride roughshod over school regulations and practices — if you are going to a school event that will end at 11 o'clock — don't insist on her being home at 10.

Don't line up in your youngster's side against the school or the teacher. Learn the facts and think them over.

Don't be a drop-out parent when your child starts to high school — you need more than ever before.

## 10 Rules for Hunting Safety

The thrill of the hunt is exhilarating, and yet at the same time can be soothing. This paradox of emotions probably accounts for the tremendous popularity of the sport. But there is still another aspect—this one, not so attractive—the ever present possibility of an accident.

During 1959 there were 159 accidental deaths attributable to firearms. While a large number were children who had pulled a "toy" gun out of Dad's bureau most were outdoor hunting or allied "cleaning" accidents.

By October 1, 1960 — during dove hunting season — there were four deaths from hunting accidents.

However, death from firearms is not the only way to die during hunting season. A good many hunters slip and fall over precipices while gazing off into the distance instead of watching their steps on an unsure ground.

But the greatest danger is still the hunter's weapon. Here are the ten commandments of shooting safety, which if followed seriously may save your own or your partner's life.

1. Treat every gun with the respect due a loaded gun.
2. Watch that muzzle. Carry your gun safely — keep the safety on until ready to shoot.
3. Unload guns when not in use, take down or open breech — guns should be carried in cases — shooting area.
4. Be sure barrel is clear of obstructions and that you have ammunition only of the proper size for the gun you carry.
5. Be sure of the target before you pull the trigger — know identifying features of the game you hunt.
6. Never point a gun at anything you do not intend to shoot — avoid all horseplay.
7. Never climb a tree or fence or jump a ditch with a loaded gun — never pull a gun toward you by the muzzle.
8. Never shoot a bullet at a flat, hard surface or water — at target practice be sure your backstop is adequate.
9. Store ammunition and guns separately, beyond reach of children.
10. Avoid alcoholic beverages before or during shooting.

## VOTE FOR TEXAS

RICHARD M. NIXON, candidate for President, is a Californian, but he thinks the Texas way. Richard Nixon stands for:

- A strong national economy and defense so that America will not have to apologize to Khrushchev for anything;
- A sensible farm program that will attack and solve the present problems.
- Texas retaining its tidelands, and a tax policy favorable to Texas.
- Local control of our schools.

If you will read and compare Nixon's platform to that of his opponent, you will agree that a vote for Nixon is a vote for the best interests of Texas.

**NO WILL? . . . WHO INHERITS PROPERTY?**

What will happen if you should die without a legal and proper will? Who will inherit your property? Your husband, wife, mother, father, children, your wife's relatives? The best way you can say who will have it is to provide a will which will protect your rightful beneficiaries and dispose of your property in accordance with your wishes.

When a deceased has no will, or dies "intestate" as the law calls it, the property of that person is distributed according to a detailed formula fixed by law. In some cases this may be the way you yourself would divide it—but in many cases it is not.

The provisions of the law concerning the distribution of the prop-

erty of a person who dies without a will are rather complicated, and all of the possibilities cannot be covered by a general statement.

There are different rules for real estate and for personal property, for community property and for separate property, for homestead property, and for all of the many possible combinations of surviving relatives. Each situation must be carefully studied to determine the correct distribution of the property.

For example, here is a general idea of how the community property which you and your spouse have accumulated will be divided if you do not make a will prior to your death.

If your husband or wife survives and there are no children, the surviving spouse receives all of the property.

If, in addition, there are surviving children or descendants of deceased children, they would divide one-half of the property, while the surviving spouse would receive the other one-half.

Of course, grandchildren do not share in the estate unless their parent who would inherit is deceased. And when descendants of previously deceased children do inherit, they receive only the portion that the child would have received, regardless of the number of such descendants.

An odd note, perhaps, is that the surviving spouse already owns one-half of the community estate prior to your death, and the law adds nothing to this share where there are children surviving.

When there are only children and their descendants surviving, they divide the entire community estate between them.

(This newfeature, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law).

**NO DELAY SEEN IN GETTING FIRST RETIREMENT CHECK**

As human beings, we dislike having our plans disturbed. We are impatient of any kind of interruption. Understandably, we resent any delay in the delivery of our regular paycheck or dividend check. We have made certain plans committing ourselves to certain financial obligations. When the check is delayed we are forced to make excuses to our creditors. We just don't like it. "Why can't they get those checks out on time?" Isn't that familiar? Perhaps if someone had made a little more preparation there would have been no delay. But someone didn't. The checks were late.

There is one delay YOU can help to prevent. Any delay in receiving your first check for social security retirement benefits can be eliminated. Any interruption in shifting from a paycheck to a retirement check just isn't necessary. Perhaps this fact doesn't interest you. Maybe you have been lucky enough (or should we say, wise enough) to have been able to get so that getting neither paycheck nor retirement checks for a few months makes no difference. Most of us haven't been that lucky. We can't afford to be without a regular check whether it is a paycheck or a retirement check.

The first thing YOU can do to help prevent any delay in receiving your first check for social security retirement benefits is to "inquire before you retire". Look up the address of the nearest social security office in the telephone directory. If you live in a small town inquire from your postmaster where the nearest social security district office is located. Then call at the social security office even as much as three months before the time that you actually plan to retire. As a matter of fact you can file an application even while you are still employed. Men 65 or older, women 62 or older, who have already stopped working should call at their S. S. office immediately.

**NEW '61 CHEVY CORVAIR** More space . . . more spunk and wagons, too!

The newest car in America: the CORVAIR 700 LAKE-WOOD 4-DOOR STATION WAGON.

CORVAIR 700 CLUB COUPE. Like all coupes and sedans, it has a longer range fuel tank.

CORVAIR 700 4-DOOR SEDAN. Provisions for heating ducts are built right into its Body by Fisher.

Even middle-seat passengers sit pretty, thanks to Corvair's practically flat floor.

Now in production—the GREENBRIER SPORTS WAGON with up to twice as much room as ordinary wagons (third seat optional at extra cost).

Here's the new Chevy Corvair for '61 with a complete line of complete thrift cars.

To start with, every Corvair has a budget-pleasing price tag. And Corvair goes on from there to save you even more. With extra miles per gallon . . . quicker-than-ever cold-start warmup so you start saving sooner . . . a new extra-cost optional heater that warms everyone evenly. Riding along with this extra economy: more room inside for you, more room up front for your luggage (sedans and coupes have almost 12% more usable trunk space).

And our new wagons? You'll love them—think they're the greatest thing for families since houses. The Lakewood Station Wagon does a man-sized job with cargo, up to 68 cubic feet of it. The Greenbrier Sports Wagon you're going to have to see—it gives you up to 175.5 cubic feet of space for you and your things.

Corvair's whole thrifty lineup gets its pep from a spunkier 145-cu.-in. air-cooled rear engine. Same rear-engine traction, same smooth 4-wheel independent-suspension ride. See the polished and refined 1961 Corvair first chance you get at your Chevrolet dealer's.

Spare tire is in the rear in coupes and sedans—leaving more luggage space up front.

Even middle-seat passengers sit pretty, thanks to Corvair's practically flat floor.

Now in production—the GREENBRIER SPORTS WAGON with up to twice as much room as ordinary wagons (third seat optional at extra cost).

# Dad! give your boy an "oil well" mechanical toy--only \$2.00

This is one of the most remarkable new mechanical toys of the year -- so strong and easy to work that a three-year old can play with it... so interesting to operate that it appeals to boys in their early teens.

Plus coupon from any Humble Dealer

"Kids love this toy!"

Secure an "oil well" coupon from your neighbor under the Humble sign. Mail it with \$2.00 to the address indicated. Within a week or two, your boy will have his "oil well" and you'll have a happy little "oil man" in your home.

Publication B-177 "Freezing Poultry For Home Use" has recently been reprinted for the third time by the Texas Agricultural Extension Service. It is available from the offices of local county extension agents.

Donations of surplus foods by the U. S. Dept. of Agriculture at home and overseas totaled almost 2.8 billion pounds in the year ending June 30, 1960. This is down only slightly from the all time record set the previous year.

### Letters To Editor —

**TO THE EDITOR:**  
The Democratic Party, under the leadership of John Kennedy and L. B. J., now would initiate socialized medicine through welfareism. It's a cunning device preying on emotion-ism and stripping the very principles of our Constitution of these United States — making our aged mortgaged to the Federal Government. Where is the limit to political power?

Remember there are churches, private hospitals, individuals, families, religious service organizations and community charities to take of this. Why, then, must a compulsory machine be set up where our taxpayers must also pay an overhead charge for processing money through the federal bureaucracy. It's dangerous and unconstitutional.

What about the people who oppose such federal sponsorship? What about the people who are for purchasing private health insurance — What about the people who are in favor of their patient and physician relationship — And what about your state participation? Think on these things and hold to your God-given heritage of freedom. We still have time to think and not be deceived.

Let's return to the Constitution instead of departing from its wisdom. Be sure and go to the polls, but don't vote away your liberty.

I'll vote for Nixon and Lodge which is a vote for the preservation of our Constitution, insuring personal freedom.  
—MRS. W. E. SINGLETON, JR.  
(Paid Political Adv.)

During the cold, wet weather ahead, farmers and ranchmen should be on the alert for limping cattle. It could be the first signs of foot rot. Lots and areas around feed and water troughs should be kept clean, well drained and as dry as possible.
