

MRS. BONHAM'S SISTER DIES IN ARK.

The following clipping was taken from a Fort Smith, Arkansas, paper of recent date, and tells of the death of Miss Fanny Chiles Erwin, sister of Mrs. V. E. Bonham who formerly resided in O'Donnell.

Miss Fanny Chiles Erwin, daughter of James C. Erwin, 418 North 6 street, died at 7 o'clock Monday morning at B. Buer Memorial Hospital.

Funeral services will be conducted at 3 o'clock Tuesday afternoon at the home of Mr. and Mrs. Joseph Irwin, 318 Lexington Avenue. Rev. Frank P. Anderson, pastor of First Presbyterian church will officiate. Burial will be in Forest Park. The body will lie in state at the Putnam funeral home until Tuesday morning when it will be taken to the residence of Mr. and Mrs. Joseph Irwin.

The death of Miss Erwin ended an illness which extended over many years, and which for the last five years had been acute and closed what might have been a brilliant business and literary career if she had not become ill. She spent the greater part of her adult life in Oklahoma and Western Texas, seeking health in hospital. She was born in Versailles, Va., only a short while before her parents came to Fort Smith to reside. She was reared and educated here.

Before her health failed she had made a record as a business woman. She was secretary of the late Jake Hamon, Ardmore, Okla., oil man for some time, and after she became ill wrote a story on the life of Hamon, which was sold and published after she was a patient at the hospital where her record as one of the most valiant fighters against death is unrivaled in the history of the institution. She lost her voice several months ago. She never lost her courage, and her brave spirit was an inspiration to other patients and to hospital attendants.

Surviving relatives are her father, J. C. Irwin, one brother, Joseph Irwin, and two sisters, Miss Julia Irwin of this city, and Mrs. V. E. Bonham of Dallas, Texas.

An abundance of building and construction materials of all kinds lies beneath the surface of Texas.

Texas produces about six to seven per cent of the total mineral values produced in the United States.

Texas is the leading gas producing and gas consuming state. The public utility plants use more gas for generating electricity than any other state.

Panhandle Dairy Show Will Be Discussed Saturday

LUBBOCK, March 29—A final check up and discussion of plans and details of the first annual Panhandle Plains Dairy Show will be made Saturday, March 31 when the board of directors, the executive committee and heads of all departments and all committees of the Panhandle Plains Show Association will meet at Plainview at two o'clock P. M.

D. F. Eaton, of Lubbock, president of the show, has issued an urgent call to all the above individuals as well as any interested citizens to attend the meeting.

Everything is in good shape for the show which will be held at Plainview April 3, 4, 5 and 6 and interest indicates that the first show will go over in much bigger proportions than was ever hoped when it was first proposed.

Entries are coming in nicely and all those who have not yet sent in their entries have been asked to send them to Maury Hopkins, Plainview, assistant manager of the show.

Details for the sale in connection with the show have been worked out and buyers are expected to attend from all over the Southwest.

Over \$4,000 in premiums in the pure breed classes, grade cattle classes and milk production contest are offered.

Fifty four counties in the Panhandle Plains and sub-Plains are included in the area that will draw entries to the show.

A call to everyone interested in helping build up the section to attend the show next week is being made by officials of the Association.

Officials of the show association point to the value of the dairy industry to this section and are trying to develop it to the highest possible point with this annual dairy show. Cooperation of all communities will probably be secured. Publicity Manager G. B. Reeves, Lubbock Chamber of Commerce.

Junior Missionary Society met with their superintendent Tuesday at 4 o'clock with eleven members present and Miss Jewell Horn as a visitor. A few minutes were devoted to business after which there was a sentence prayer led by Kathleen Wray and closed by Frances Scott. Several of the members were then appointed to solicit the church members for a contribution for the trees put out on the Methodist church lawn.

The value of Texas mineral production has risen from about \$1,000,000 a year in 1880 to about \$300,000,000 a year today.

One of the most remarkable developments in Texas in 1925 was the rapid extension of natural gas pipe lines. The state now has more than 8,000 miles of such lines.

FORT WORTH—West Texas and the West Texas Chamber of Commerce, through work of Exhibit manager B. M. Whiteker and cooperation of the entire section, won both first and second places on agricultural exhibits at the Fort Worth Fat Stock Show and Southwestern Exposition.

MERTZON—Carlton H. Amcaker has been elected manager of Mertzson Chamber of Commerce.

DUBLIN—A strictly agricultural program will feature the WTCC Oil Belt District convention here March 28.

JACKSBORO—Works Potter has been elected secretary of the Jacksboro Chamber of Commerce.

Apple Cocktail.
Peel large apples and with a large potato scoop cut into small balls. Drop the balls into water with a bit of lemon juice to keep them from discoloring. Prepare a mixture of pineapple, banana, grapefruit and put into glasses. Decorate the top of each with a few apple balls. Pour over all a boiled cider slightly thickened by boiling—cool before using.

Carrot and Pineapple.
Grated carrot mixed with finely cut pineapple served on lettuce with a good mayonnaise is another good combination.
Salmon, coconut and celery with a good boiled dressing, using the fat from the salmon in making the dressing is another well-liked salad. Serve on lettuce and garnish with a spoonful of mayonnaise, sprinkled with minced olives.

28 BILLION CHESTER-FIELDS USED IN 1927

From seven billion smoked in 1922 to twenty eight billion smoked in 1927—sales doubled and redoubled all within five years. These are the startling figures announced by the Liggett & Myers Tobacco Company for their ever-popular Chesterfield Cigarette.

This amazing growth, representing a gain of 300 percent, signifies not only the universal preference for the cigarette as the smokers' choice, but the acceptance of this one particular brand as the popular favorite.

It is conservatively estimated that Chesterfield has acquired at least a million new users in a little over a year—certainly convincing proof that finer quality and better taste is substantially recognized by the cigarette smoking public.

This genuine testimonial for good tobaccos and good blending is based largely on Chesterfield's particularly pleasing flavor and taste. As it is stated in the advertisements, Chesterfields are "mild and yet they satisfy;" the flavor has been so skillfully balanced as to eliminate any suggestion of harshness or bite, and yet leave enough richness and body to "let a smoker know he's smoking."

Nor is Chesterfield's rapid growth limited to the boundaries of the United States. Sales reports have revealed that this brand is world-wide in its acceptance, as shown by the fact that in practically all the principal cities of the world it is found to be among the leading sellers.

In fact, Chesterfield's world-wide recognition has given rise to another new advertising slogan which truthfully asserts that "the sun never sets on Chesterfield's popularity—with the added distinction that "Such popularity must be deserved" because of a taste and quality which won smokers the world over and will continue to win them because it is what they want.

In current advertising Liggett & Myers is making strong use of their declaration over their signature tobacco used in Chesterfield Cigarettes that it is their honest belief "that the cigarettes are of the finer quality and hence of better taste than in any other cigarette at the price."

EX-SENIORS PRESENT FOUR ACT PLAY

The Ex-Seniors and their sponsors of the O'Donnell High School, presented a splendid four-act play in the High School Auditorium Thursday evening, showing to a full house.

Miss Alta Rogers, a graduate of 1926, as "Cyclone Sally" the leading lady, was indeed a veritable cyclone in wit and action. J. I. Shick, a graduate of the 1927 Class was the leading man and the sweetheart of Sally. David Chandler, a '26 graduate, as a dapper Englishman, and pat to the leading man, who was hard to beat. Miss Edna House, sponsor of the Class and Desmond Yandell, a graduate of 1927, were a splendid couple, each playing the part to perfection as a spinster and bachelor who did not remain in single blessedness long after meeting each other.

Clara Ruth Nichols, 1927 graduate, was a typical school marm and Frances Chandler was indeed the cute little girl across the way and played her part well, while V. B. Hohn, a graduate of the 1927 Class, as a country hick and in love with "Sally" played to perfection, getting much applause from the appreciative audience. Miss Winnie Sorrell, sponsor of the class was highly appreciated as she played the role of an aristocratic rich lady.

The play was complimented by all who saw it as being a splendid demonstration of home talent. Around fifty dollars was realized from the ticket sales.

The Ex-Seniors expect to restage the play at an early date in a nearby city.

MRS. N. A. GRAY DIES IN TAHOKA

Mrs. N. A. Gray died Wednesday at 8:30 o'clock p. m. in Tahoka at the home of her daughter, Mrs. F. E. Redwine.

Mrs. Gray was born June 18, 1865, and leaves the following children to grieve: Mesdames F. E. Redwine, Tahoka; Bert Bailey, Hot Springs, N. M.; Mrs. Dixie Chapman, Alamo, Calif.; Mrs. Della Arnett, Kansas City, Mo.; Mrs. Nellie Armsrongs, Sanger, Calif.; Charlie Gray, Tahoka, Hugh Gray, Magdalena, N. M.

Only the two children who lived in Tahoka were present at the funeral. The funeral services were held at the Nazarene Church, the services being conducted by Mrs. Minnie Nichols, pastor of the Nazarene church and Rev. R. T. Breedlove, pastor of the Methodist church.

Interment was made in the Tahoka

Cemetery. We extend sympathy to the bereaved.

COTTONSEED MEAL WORTH MORE AS A FEED THAN FERTILIZER

Cottonseed meal is selling at a higher price this year than it did last year, and it is worth much more as a feed than as a fertilizer. About 28 thousand tons of cottonseed meal were used as a fertilizer in Texas last year, and this use was justified at the price at which it was sold. This year other sources of nitrogen such as nitrate of soda or sulphate of ammonia, afford cheaper fertilizer than cottonseed meal. The cottonseed meal can be used for feeding purposes, for which it is very desirable, and if the droppings are saved, or by pasturing the animals on the land to be fertilized, a considerable portion of the fertility will be utilized in addition to the utilization of the feeding value.

Mixture corresponding to fertilizer made with cottonseed meal may be made. These mixtures are low in potash. A mixture of two hundred pounds superphosphate (acid phosphate) and 100 pounds nitrate of soda or 75 pounds sulphate of ammonia approximately corresponds to a mixture of two hundred pounds superphosphate (acid phosphate) and pounds cottonseed meal, though the 275 pounds or 300 pounds of the first mixture contains a little over a pound more nitrogen than the 400 pounds of the cottonseed meal mixture.

A mixture of 200 pounds superphosphate (acid phosphate) and 50

pounds of nitrate of soda or 87.5 pounds sulphate of ammonia would correspond to a mixture of 200 lbs acid phosphate (superphosphate) and 100 pounds cottonseed meal. Any mixture of superphosphate (acid phosphate) and sulphur of ammonia should be applied the same day it is made, otherwise it may become hard and become difficult to apply.

Ready mixed fertilizers could also be used, such as 9-3-0 or 9-5-0 when no potash is desired, or 12-4-4 or 8-4-4 if potash is desired.

SANDERSON FAMILY ARE CALLED TO BIG SPRINGS

W. R. Sanderson, wife and daughter, Mrs. Modesta Green, received a message Monday morning to come to Big Springs at once as Jake Good, son of Mr. and Mrs. Tom Good and a grandson of Mr. Sanderson, was ill with pneumonia and was not expected to live but a few hours. A doctor from Abilene was in attendance. The Sandersons left immediately for the scene of illness.

Dee Holman and family who left O'Donnell in the fall to go make their home in Haskell, returned last week. They sold their place in Haskell and are now living in north O'Donnell. The Holmans have friends here who will welcome them back to God's country.

Misses Leta Rogers and Roxie Hancock, who are attending Simmons College, Abilene, spent the week-end here with their parents, W. L. Rogers and family and W. H. Hancock and family.

CIVIC IMPROVEMENT ORDER OF THE DAY

Twelve or fifteen five-foot Chinese elm trees were put out on the yard of the Methodist church Monday afternoon by several of the laymen of the church and the pastor. With good care it won't be but a few years until these trees will be a thing of beauty. Adding to the improvement of the city as few things can.

These trees were purchased through our local nurseryman, Ben Moore, from the Austin Nursery. If any of the trees fail to live they will be replaced by the Nursery next fall.

Mrs. W. K. Horn, her daughter, Miss Jewel and nephew, Donald Newsome spent the week-end in Lamesa with Donald's parents, Mr. and Mrs. H. N. Newsome.

Mrs. R. P. Boyd of Panhandle is here for a several weeks visit with her son, B. J. Boyd and wife.

Boyd Fortner is on the sick list this week with an attack of the flu.

Rev. Steve Raines of Sweetwater arrived Monday for a visit with his brother, Riley Raines and family.

Mrs. Roy Gibson left Monday for Lubbock where she will be visiting with relatives several days.

Mrs. J. C. Beach and children spent Sunday at Draw, the guests of Mrs. Beach's sister, Mrs. Jno. Berry and family.

Important Announcement to every owner of a Model T Ford

ON MAY 25, 1927, when Henry Ford first announced his plans for making a new car, he announced also that he would continue to make parts for the Model T Ford. He said:

"The Model T Ford car was a pioneer. It blazed the way for the motor industry and started the movement for good roads everywhere. It broke down the barriers of distance in rural sections, brought people in these sections closer together, and placed education within the reach of everyone. We are still proud of the Model T Ford. If we were not, we would not have continued to make it so long."

For twenty years, the Model T Ford led the automobile industry and it still serves more people than any other automobile. Over one-third of all the automobiles in use today are Model T Fords — an indication of the sturdy worth of the car and its value to people in all walks of life the world over.

The Ford Motor Company will continue to make replacement parts for these cars "until the last Model T is off the road." That is a part of Ford service. That is what Henry Ford meant when he said: "We believe that when a man buys one of our cars we should keep it running for him as long as we can and at the lowest up-keep cost."

Because of this policy a considerable part of the Ford manufacturing plants is given over to the making of parts for the Model T Ford. These replacement parts are made of the same material and in the same way as those from which your car was originally assembled.

Make it a point, therefore, to see the nearest Ford dealer and have him look over your Model T Ford. You may find that a very small expenditure will enable you to get thousands of miles of additional service, and at the same time protect the money you have invested in your car.

BIG SHOW COMING TO O'DONNELL, APRIL 4TH

The Robinson-Schilder Combined Show will arrive in O'Donnell Wednesday morning, April 4th, and spread their thousands of yards of canvass and give two complete performances at 2 P. M. and again at 8 P. M. night. There will be free attractions and Band Concert on the Big Show grounds at 1 P. M. and 7:15 P. M. before the show doors open.

Manager Bert Robinson has spared neither time nor money in contracting some of the best acts and talent money could secure. The Mayers Duo Bauancers and Gymnasts, one of the features last year with Sells Floto shows. Flying McGinley's sensational trapeze and Roman rings last year with Christy's circus; that clown renown, Bones Hartzell, who has made millions laugh, will appear at each performance, assisted by his quartet of jesters; troupes of trained dogs doing tricks that seem unbelievable; educated ponies that do everything but talk, featuring Nero, the champion of champions, the pony with the human brain, and other horses in posing and dancing.

In the steel arena performing wild animals, the riding lions, a troupe of performing bears handled by Prof. J. Miller; monkeys in jockey stunts; Sunshine considered to be the smartest and funniest mule, will give you many laughs.

The big feature of the show this year will be Bert Robinson and his troupe of fighting African lions. This is considered to be one of the best wild animals acts of today. Duck, the largest and most ferocious lion now performing before the American public, will appear at each per-

formance. Music will be furnished by Prof. Lee Hinckley and his all-American band. Remember this is a real show. Quality, quantity and cleanliness is our motto.

There will be a special children's and ladies' matinee at 2 o'clock. Night show starts at 8 o'clock.

IMPERIAL GREATER SHOWS HERE ALL NEXT WEEK

Eddie Lynch, advertising manager for Imperial Greater Shows has been in O'Donnell all week completing arrangements for the week's engagement of this company. He advertises a wild west and rodeo with twenty head of bucking bronchos and steers \$2.50 to \$50.00 in prizes will be given at each riding he announces. There will also be trick riding and trick roping with lady performers. Of course they will carry all the rides, the merry mix-up, ferris wheel and merry-go-round, and many other midway attractions.

They are also featuring a mammoth athletic arena in which they will meet all comers in both boxing and wrestling.

DISTRICT CONVENTION OF FARM BUREAU APRIL 7TH

M. Mitchell, district manager of the Farm Bureau was in O'Donnell on Tuesday of this week in the interest of the association.

While here Mr. Mitchell stated to the Index man that the Association was expecting a large crowd at their next District Convention which will be held in Lamesa on Saturday, April 7th. He stated twenty-seven counties will be represented at this meeting and strongly urged that every citizen of Lynn county who can be present at the meeting.

TREDWAY ITEMS

The Berry Flat Baseball team came down last Friday and played us a game of ball. The game lasted eight and one-half innings and ended with the score 13 to 10 in favor of Mesquite. We are considering playing them another game next Friday. The 6th of April at the Berry Flat school house.

Last Friday night a number of farmers from this and adjoining communities met at the school house in an effort to see what could be done toward having a gin built in this community. Practically all expressed a desire to gin with any one who would build a gin either in or near this community.

It was estimated that the produce from more than seventy two hundred acres of cotton would be ginned in this community if there was a gin to handle it.

The stork was rather busy in this community during Saturday and Sunday, leaving sweet baby girls at the homes of Mr. and Mrs. T. M. Cash, Mr. and Mrs. C. B. Hayes and Mr. and Mrs. Morris.

There was preaching Sunday morning and night by Rev. Henderson. There was a good crowd present at each service.

Everybody is invited to the Borden County track meet held at Gail Friday and Saturday, April 30 and 31. Black Bottom

Dale McKeehan, the new linotype from Bowie, is with the Index now. He spent the week-end in Lubbock visiting his uncle, D. M. Norwood and family.

Mr. and Mrs. Homer Hancock spent the week-end here the guests of their parents, Mr. and Mrs. W. H. Hancock.

SOMETHING TO THINK ABOUT

By F. A. WALKER

THE GREATST WONDERS

IF YOU had lived in the ancient times you would have journeyed, if you had had the time and money, to seven places on the shores of the eastern part of the Mediterranean in order that you might see the then Seven Wonders of the World.

You have doubtless heard them named many times. It is probable, too, that if you are past thirty you would have some trouble in repeating them offhand.

To save you the time of looking them up, they were the Pharos of Alexandria, the Colossus of Rhodes, the Temple of Diana at Ephesus, the Hanging Gardens of Babylon, the Pyramids, the Tomb of Mausolus and the Great Statue of Jupiter at Olympia.

Go to some library and look up the reasons why each one of these was built. There are interesting romances and excellent and entertaining reading about every one of these creations.

After you have done that sit down and write out what you think are the most marvelous results of genius.

So that you may have a good starting point we print below the selections of a thousand men of note in this country and Europe who were invited to make a similar list. Every man voted for the seven things he thought most wonderful and when the ballots were counted these were selected, receiving the greatest number of votes. In the order named: Radio, the telephone, the airplane, radium, spectrum analysis, the X-ray, the Panama canal.

These are indeed great wonders, but are they the greatest?

Poe in one of his poems refers to "the glory that was Greece and the grandeur that was Rome." A good many people delight to think that the world is going to the bow-wows, that the past is infinitely superior to the present and that they would have been much happier if they could have lived in another age and a better time.

A day's deprivation of modern conveniences of which the ancients knew nothing would be a good lesson for them. They would realize that this is, after all, a pretty good world to live in, that genius was never so active nor so productive, that every day sees its creations and its advancements and that we are far ahead of the ancients in the sources of happiness.

And now to go back to the beginning, what are the Seven Wonders of the modern world?

WHAT ARE THE NAMES OF THE SEASONS?

Spring is first—the trees turn green; Summer comes with sunny ways; Fall is third with ripening fruits; Winter last with "stay-at-home" days.

GOOD THINGS TO EAT

WHILE the fresh maple sugar is still toothsome, try using it and the sirup in various ways. Here are two:

Nut Sandwiches.

Brown walnuts in a little butter, season with salt and add to grated maple sugar. Chop the nuts and use on buttered whole wheat bread.

A most delicious omelet may be prepared by placing a half-cupful or less of blanched almonds in a buttered omelet pan, and stir until hot, but not brown; then pour in the omelet and cook. Fold as usual and serve with a hot maple sauce poured around the omelet. This makes a delicious dessert.

Golden Frozen Pudding.

Scald a pint of milk. Beat six egg yolks until thick, add one cupful of sugar and one-half teaspoonful of salt; beat again. Cook the two mixtures until smooth, cool, add a tablespoonful of vanilla and one and one-half cupfuls of cream. Freeze. In a ready one and one-half cupfuls of sultana raisins, candied cherries, pineapple and citron mixed, cover with lemon juice and let stand overnight. Stir this fruit mixture into the frozen custard and let stand for two hours to ripen. serve with whipped cream.

NEGRO MINSTREL GIVES GOOD ENTERTAINMENT

The Dramatic Club from the Weaver Community, gave a good clean entertainment in the High School Auditorium Friday night, under the auspices of the O'Donnell P. T. A.

Everyone present enjoyed the performance, although the attendance was not what was expected on account of so many being out of town to attend the Interscholastic League which was in session at that time.
