**GAME WITH ANDREWS ENDS  
WITH SCORELESS TIE**

The drive to Andrews and the  
gamely contested football session  
with the Andrews team last Friday  
found the local players right back  
where they started from, with only  
a good time to show for the trip—  
the game ending with a score of 0-0  
in favor of nobody.

Several fans accompanied the team  
on the trip, and they are unani-  
mous in reporting a good, clean  
game. The Andrews team and the  
Eagles have enjoyed some two or  
three tilts before, always with the  
friendliest of feelings between the  
boys, and the game last Friday was  
no exception to the rule.

The O'Donnell boys were accorded  
every courtesy, beginning with the  
supper at the home of our former  
citizens, Mr. and Mrs. W. H. Guthrie,  
and closing with a dance in their hon-  
or.

The game itself, according to those  
who saw it, was distinguished by no  
unusual features or spectacular  
plays. Neither team seemed to have  
the handicap of having lost strong  
men from last year's line, while O-  
Donnell team is plugging along as  
best it can without a coach.

However, with the opening date of  
school set for November 16, the boys  
are planning to make the best of the  
short season, but both are laboring  
with the handicap of having lost strong  
men from last year's line, while O-  
Donnell team is plugging along as  
best it can without a coach.

Line-up for O'Donnell Friday was  
as follows: McMillian LE; Holman,  
LT; DeBusk, LG; Beach, C; Pugh,  
RG; Foster, RT; Gibson, RE; Ev-  
erett, Vaughn, and Stephens in the  
Backfield. Line substituted for Fos-  
ter during the last quarter.

**PHILLIPS PETROLEUM CO.  
LOSSES IN THEFT MONDAY**  
The bulk plant of the Phillips Pe-  
troleum company was broken into  
sometime during Monday night, and  
a quantity of gas stolen. All locks  
were broken by the thieves, who were  
apparently driving a light make car.  
The loss was not great, reaching per-  
haps forty or fifty gallons of gaso-  
line.

Buddo Yandell, local agent, work-  
ing with officers, located the sus-  
picion that transients needed fuel  
for further transportation, and took  
this means of filling their needs. In  
view of the slight loss, this opinion  
seems to be about as good as any.

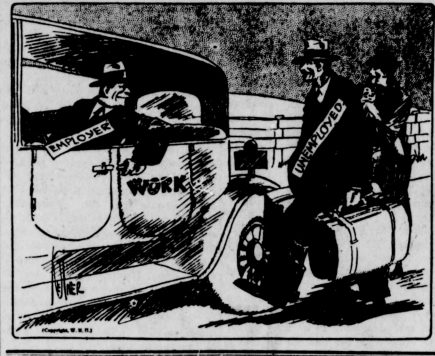

Phillips officials were down Tues-  
day from Lubbock assisting in the  
check-up, and seemed to agree with  
this theory. No loss of lubricants or  
other supplies was found.

This is the fourth or fifth break-in  
suffered by the company within the  
year.

**DISTRICT ATTORNEY PRICE  
HERE SATURDAY**  
District Attorney T. L. Price, ac-  
companied by Mrs. Price, spent a  
short time in the Index office, Sat-  
urday, a call which was much enjoyed  
by the force.

We are indebted to Mr. Price for  
the report of the grand jury which  
appears on the front page of this  
week's paper, and are also glad to  
tell our readers that he promised to  
send us all further news of court pro-  
ceedings.

**RAIN AND HAIL TUESDAY  
DAMAGE COTTON CROP**

Scattered showers of varying de-  
grees, mixed with hail, is reported to  
have materially damaged cotton in  
some parts of O'Donnell's trade ter-  
ritory Tuesday night. The western  
part of the territory seems to have  
suffered most, though hail was re-  
ported in practically every communi-  
ty.

Rains of last week, with persistent  
cloudy weather, had already tinged  
the cotton to a marked degree, so  
that the damage wrought by being  
knocked out on the ground will not  
be intensified, according to plant-  
ers. In those instances where the  
hail was not heavy enough to knock  
cotton from the bolls, the fleece has  
been strung out until picking or  
boll-pulling is rendered somewhat  
more tedious.

Despite the injury to cotton, how-  
ever, farmers are for the most part  
glad to see the moisture. Numbers  
of them have already sowed winter  
pasture, and others plan to do so,  
while, even without this side of the  
question, the problem of bottom ses-  
sion is already being answered. Fall  
snow is already being reported. Fall  
snow is already being reported. Fall

**NEW MOORE COUPLE  
WED SATURDAY**

The marriage of Miss Gracie Nel-  
son, daughter of Mr. and Mrs. J.  
W. Nelson, and Mr. Clyde Rogers,  
prominent farmer of the New Moore  
community, was solemnized Sat-  
urday evening at the church there,  
Rev. Medley reading the rites.

Both young people are prominent  
in their community, and have scores  
of friends who wish for them much  
happiness and prosperity. It is ex-  
pected that they will continue to re-  
side at New Moore.

**ELDON BURLISON SUFFERING  
FROM KNIFE WOUND**

Bidon Burlison, farmer who lives  
twenty miles southwest of town, was  
in town Wednesday morning to re-  
ceive treatment for a knife wound  
on the back of his right hand.

The cut was accidently received  
Friday as the man attended to farm  
duties, and evidently became infected  
immediately, as swelling and pain  
were apparent in a few hours.

However, unless further compli-  
cations arise, the hand should be out  
of a sling soon.

**THEATRE TO SHOW ON  
SATURDAYS ONLY**

According to announcement made  
this week by C. A. Miller, manager  
of the O'Donnell Theatre, only Sat-  
urday matinees and Saturday even-  
ing shows will be shown.

**GRAND JURY REPORTS  
MUCH CRIME HERE**

In the District Court of Lynn  
County, Texas, September term, A.  
D., 1931.

To the Honorable Judge of Said  
Court:

We, your Grand Jury, in open  
Court, all members hereof being  
present, through our foreman most  
respectfully make the following re-  
port of our work as Grand Jurors:

We have spent during this term  
of court the larger part of two  
weeks as grand jurors during which  
time we have had occasion to in-  
quire into and investigate almost  
every phase of law violation on our  
Statute books, the most prevalent  
of which we might say has been that  
of burglary, theft, swindling in its  
various phases, and the liquor laws.

It is our opinion and we find  
from a careful investigation of  
same, that the burglar, the thief,  
the swindler, and the bootlegger are at  
work in our county to an unusual  
extent. In our efforts to run down  
and stop these dangerous crimes in  
our county, we wish to say we have  
spent much time and labor, and in  
find same in a sanitary condition and  
the prisoners therein report to us  
that they are courteously treated by  
those in charge of them.

We wish to thank our sheriff,  
county attorney, our bailiffs, our dis-  
trict judge and district attorney and  
all others in any way connected with  
our work for the faithful help and  
assistance shown us while we have  
spent much time and labor in an ef-  
fort to check the criminals until our  
next grand jury can take up our  
work.

We also thank all good citizens of  
this county who have assisted us by  
way of giving testimony and inform-  
ing us of law violations and we call  
on these same citizens together with  
all others to stand squarely behind  
our officers in their efforts to enforce  
our laws and stand out against the  
criminals and thus assist in every  
way possible in making this county  
a better place to live and to raise  
our boys and girls.

Having finally finished our work  
as grand jurors for the term, we  
most respectfully ask that we be  
discharged for the term.

JOHN HECK, Foreman of the  
Grand Jury.

P. S.—We ask that a copy of this  
report be handed our local paper for  
publication and also a copy to the  
paper at O'Donnell.

the expenditure of the public school  
moneys and the close observance of  
all laws governing the expenditure  
of same, and are warned hereby that  
if this request is not allowed then  
legal action will follow.

In this connection we wish to say  
that we have had the co-operation  
and assistance of our County Super-  
intendent and we have found that  
it has been through his careful su-  
pervision of the schools of the coun-  
ty that the ill-advised expenditure  
of school money in some instances  
has been saved, and we commend our  
Superintendent for his faithful and  
efficient work.

In this further connection, how-  
ever, it is not the opinion of this  
body that any trustee or trustees  
have perhaps willfully and inten-  
tionally violated any school laws, but  
we are of the opinion and our in-  
vestigation so reveals that some have  
been extremely careless along this  
line and we feel that their atten-  
tion being once called to this matter,  
will serve to correct these irregulari-  
ties.

We have very carefully examined  
the condition of our county jail and  
find same in a sanitary condition and  
the prisoners therein report to us  
that they are courteously treated by  
those in charge of them.

We wish to thank our sheriff,  
county attorney, our bailiffs, our dis-  
trict judge and district attorney and  
all others in any way connected with  
our work for the faithful help and  
assistance shown us while we have  
spent much time and labor in an ef-  
fort to check the criminals until our  
next grand jury can take up our  
work.

We also thank all good citizens of  
this county who have assisted us by  
way of giving testimony and inform-  
ing us of law violations and we call  
on these same citizens together with  
all others to stand squarely behind  
our officers in their efforts to enforce  
our laws and stand out against the  
criminals and thus assist in every  
way possible in making this county  
a better place to live and to raise  
our boys and girls.

Having finally finished our work  
as grand jurors for the term, we  
most respectfully ask that we be  
discharged for the term.

JOHN HECK, Foreman of the  
Grand Jury.

P. S.—We ask that a copy of this  
report be handed our local paper for  
publication and also a copy to the  
paper at O'Donnell.

**"THIS AND THAT"**

By Jimmy  
About this fellow Murray: the man has a way. He's different, pleasingly different, from the ordinary run of governors. When he was campaigning for the governorship of Oklahoma he lived on cheese-cracker sandwiches and hitch-hiked over the state to deliver his speeches. People minkered and said he was just an old fossil trying to clown his way to the governor's chair. He was taken lightly by most people outside the borders of his own state. But he clicked and now he's the governor of Oklahoma, and has an eye on the president's seat—believe it or don't.  
He taught our own portly Governor Sterling a few things the well-informed governor should know. He has won the respect of editorial writers throughout the nation. The man has a way!

Last week when Governor Sterling by military order, closed down five oil wells in the East Texas oil fields in defiance of a Federal court injunction, he got his cue from Governor Murray. Alfalfa Bill knows his constitutional law—that much he has proven.

Instead of being the ignominy man credited him with being, he appears to be a man who has given much study and thought to governmental offices and duties. Obviously, he has had political ambitions for such offices as would afford him opportunity to put his theories into practice. Whether or not a public servant, who has given much study and thought to the duties of a public officeholder is better than one who has given no thought whatever to the office, other than the glory of the title, makes a better executive is open to question. But William H. Murray (Alfalfa Bill) is not doing a bad job of being governor of Oklahoma.

It's the custom of the Democratic party to put a candidate in the race for president every four years. The time for another candidate will soon roll around again. Alfalfa Bill Murray is a native son, a delightful American, a Democrat of the people and for the people. Why not lead him to the slaughter?

**QUARTER BILLION IN REVENUE FROM GAS TAXES**

Gasoline taxes provided, in the first six months of 1931, a net revenue of \$246,373,000 which is to be used principally for road purposes from State authorities by the Bureau of Public Roads of the U. S. Department of Agriculture. Nearly 7,118,000 gallons were taxed, an increase of 4 1/2 per cent over the same period last year.

Consumption of gasoline increased in 36 States and decreased in 12 States. On the basis of the figures for the half year it is estimated that the gasoline tax will yield a revenue exceeding a half-billion dollars for the full year.

The tax is now imposed in every State. Only 8 states increased the rate of tax within the six-months period. Two others made increases effective in July and August.

The total revenue derived was allocated as follows: Construction and maintenance of State highways, \$158,332,000 or 64 per cent; for local roads, \$48,417,000 or 20 per cent; State and county bond payments, \$18,860,000 or 7 1/2 per cent; city streets, \$10,157,000 or 4 per cent and the remainder of \$10,607,000 or 4 1/2 per cent for collection costs and miscellaneous items.

Peace advocates will rejoice that there is a lull in the fighting, in China. So will bootleggers and proof-readers.

It seems that unemployment might be measurably relieved by putting the unemployed on unemployment commissions.

**A RIDER OF 1848**

As a change from the almost monotonous present day accounts of record-breaking airplane flights, the story of an old-time exploit on horseback is refreshing by way of contrast. Such a story was recently told by Prof. J. Frank Dobie in the New York Herald-Tribune, and deals with the famous ride of Felix Xavier Aubry, who covered the 800 miles between Santa Fe and Independence in less than six days.

This happened in September, 1848, when settlements in the Southwest were few and far between. Aubrey had already made the trip in eight days, and bet \$1,000 that he could make it in six.

With relay horses stationed along the route, he started alone. At one relay point he found no mount, but his keeper killed and scalped by Indians, so with his finished horse he pressed on. Toward the end of another leg of the trip his horse gave out and he trudged 20 miles on foot to the next stop.

With little to eat and only two hours' sleep except what he could catch while in the saddle, he finally reached Independence a few hours ahead of schedule, more dead than alive. Upon arrival Aubry had to be lifted from the saddle, which was caked with blood. But he had won

**PUBLIC SCHOOLS TO START MONDAY, NOVEMBER 16**

L. F. McAfee, Superintendent

The O'Donnell Public Schools will begin Monday, November 16, and will have an eight and one-half months term.

In times like these teamwork and co-operation on the part of everyone are necessary in any undertaking, if the greatest amount of good is to be obtained. Everyone is having to make a greater sacrifice this year than he has ever made in the past. If each one will share his part with a smile and a determination to use every opportunity to the best advantage we will all live and go through this crisis with our heads up and the satisfaction of having won the fight.

The School Board has been having special meetings for the purpose of working out, by considering every fellow's expressed wish, the best plan possible for the community, school, and the children. It is no easy thing or responsibility to be considered lightly for one to assume the responsibility of the whole community as school trustees have to do. It is the supreme desire of each of the board members to give the community the best school possible and at the same time to keep expenses within the paying ability of all.

If each will make his sacrifice and realize he is having to make no greater concession than anyone else and put his shoulders to the wheel and push with a determination to succeed and a willingness to frown upon any adverse criticism all will be well at the close of school next spring.

In order to have eight and one-half months school and get out by the middle of June it will be necessary to make up two or three weeks of the time on Saturday, using the Saturdays during the bad months of January, February and March and longer if it meets with your approval. This part will enable the school to hold its affiliation and the children to finish their grade. Let's everyone make the greatest possible effort to be ready to enter the first day with zeal and determination backed up by a willingness to work. Will you be one to help win? Nothing succeeds like success, an earnest desire is half the victory.

**NOBODY READS THE PAPER**

"Nobody reads the paper," is the answer we get occasionally from a man when he is asked to advertise. And other men live in town year after year without subscribing for

the paper. "There's nothing in it," they say. But let one of these men get into trouble with the law or let some scandal threaten his peace and immediately he rushes to the newspaper to be sure nothing is published about it. At a time like that he knows that "everybody reads the paper." It reminds us of the editor of a paper "that nobody reads" who put a notice in his paper advising the business man who had been kissing his stenographer to immediately discharge her or his name would be published in the next issue. Twenty-four hours later twenty stenographers were looking for jobs and the editor found out that "somebody did read his paper."—Rio Grande Farmer.

**HERE'S A HOT ONE**  
The wife of a western hardware dealer answered her doorbell and found a peddler on the front porch. He was selling the "greatest potato parer ever invented," and he gave a demonstration that convinced her at once, and she handed over a quarter. When her husband came home she showed him her bargain, and told

him what she paid for her consternation when she saw the sign that was fastened to the stove, and sell them when I find a purchaser. The woman always has word, and hers was to say "Then for goodness sake you let people know you for sale!"

**THE "HIDDEN QUART"**  
That Stays up in the Motor and Never Drains Away

OTHER OILS DRAIN AWAY FROM MOTOR PARTS BACK INTO THE CRANKCASE  
GERM PROCESSED OIL NEVER DRAINS AWAY FROM VITAL WORKING PARTS

**PROVES ANY OIL WOULD BE BETTER OIL IF GERM PROCESSED**

Other good oils lubricate working parts after the motor starts and oil is pumped from the crankcase through the motor, which takes several minutes. But GERM PROCESSED OIL stays up in your motor at all times and lubricates working parts safely during the starting period. When the motor starts, your motor takes place a "hidden quart" stays up in your motor and never drains away. Only GERM PROCESSED OIL can give you this sure protection at all times, because only GERM PROCESSED OIL can penetrate and combine with metal surfaces... an exclusive characteristic called "penetrative lubricity." So you can see... any oil would be better oil if GERM PROCESSED!

But only Conoco makes GERM PROCESSED OIL for Conoco owns exclusive patent rights for North America. Don't be contented with

oil that lacks the germ process. Stop at any station displaying the Conoco Red Triangle and fill with Conoco GERM PROCESSED MOTOR OIL. Save your motor from wear... keep it young and powerful!

## W. M. O'DONNELL PARTY MONDAY CARY SHOOKS

Mr. and Mrs. Cary Shook, who are leaving to make their trip to Longview, Mmes. Harvey and Guy McGill were hostesses Monday evening, entertaining at the home of the latter.

Party-two was the diversion of the evening, and several hotly contested games were enjoyed before close of the party.

Refreshments of pumpkin topped with whipped cream, and chocolate were served to guests and Mmes. Boss Johnson, the Johnson, W. J. Shook, B. M. Shook, Cary Shook, and Miss Lane.

## BRIDGE-DANCE ENJOYED TUESDAY EVENING

Mrs. Beverly Wells was the gracious hostess Monday evening to a small number of friends, entertaining at a bridge-dance at the home of her parents, Mr. and Mrs. E. T. Wells.

Three tables were arranged for cards in the early evening, and a number of spirited contests enjoyed, being was the amusement of the hour.

Those present for the occasion were Misses Hazel Burk, Maggie Wilson, Pauline Wheeler, Ethel Singleton, and Alice Joy Bowlin; Messrs. Jack Veazey, Howard Tredway, and Will Ed Tredway, Sumner Clayton, Belle Cather, Randall Gibson, John Beach, and Glenn Everett.

## MRS. RAMEY HOSTESS TUESDAY QUILTING PARTY

One of the cleverest and most original parties of the season was enjoyed Tuesday afternoon when Mrs. Ramey entertained with an old-fashioned quilting party. Whether quilting was present at the party could not be learned, but fashions and customs of her day were carried out in full detail.

Guests were received by a quaint little miss attired in the glory of hooped and hoop-skirts, and escorted to the reception rooms. Score cards were greeted with sales of daughter, they being old-fashioned high-top button shoes, drawn by Miss Frances Holdren, daughter of the hostess.

Appropriate prizes were awarded champions who completed the first quilt, and also to Mrs. Roy D. Smith, who quilted the greatest number of blocks.

Refreshments further carried out the theme of the day, cake taking the design of the old nine-patch quilt block. Chocolate was served with the cake. Misses Modene McLaughlin, Frances Holdren, and Annie Belle Estes, wearing old-fashioned costume, assisted the hostess in serving.

Those present were Mmes. Buck Hancock, W. W. Hancock, Smith, McKee, Yandell, T. J. Yandell, Nichols, Boss Johnson, Estes, Singleton, McLaughlin, Gates, Everett, Page and Hains, and John Johnson.

## MINES SCHOOL ATHLETES TO WEAR COTTON UNIFORMS

ALL PASO—College of Mines athletes will wear uniforms of cotton, rather than wool, this year.

Capt. Mack Saxon said jerseys, socks and sweat shirts would be of cotton in cooperation with movements to increase consumption of cotton and thereby of the raw product.

11:00 a. m. Morning Worship Service. We are planning and hoping and praying for a great service at this hour. The subject for the morning message will be "Service". We noted the absence of several of our people last Sunday. We hope that you can be back next Sunday.

10:00 a. m. Sunday school, W. J. Shook, superintendent. Attendance last Sunday 98. Those who were absent last Sunday were greatly missed. We shall be eagerly looking for you back next Sunday.  
6:30 p. m. Epworth Leagues are both planning splendid programs for next Sunday. We invite all young folk to come and join the League.  
7:30 Evening Worship service.

We had a splendid stewards' meeting after church last Sunday evening. Most of the officials of the church were present and showed that they were willing to give their best toward the carrying on of the work of the church in a fine way. With the utmost co-operation on the part of our entire membership we shall be able to move forward in a splendid way. May we not ask of every one that you give this wholehearted co-operation that will mean so much to the Kingdom of God.

The Missionary Society meets every Monday afternoon at 14:00. Prayer Meeting every Wednesday evening at 7:30.  
Everyone will find a hearty welcome at all services of the Methodist church. Come and worship with us.

## TEXAS' WATERWAYS

By water the first white man came to Texas—quite by accident, it is true, but by water nevertheless. There are no figures to tell us how many thousands of men and women, how many billions of tons of cargo, have followed his path across the Gulf of Mexico. Undoubtedly the totals would stagger the comprehension of human minds.

In 1929 Texas exported to foreign countries through its deepwater ports some ten million tons of basic raw materials and manufactured, or semi-manufactured, products. These exports were valued at more than seven hundred millions of dollars. Texas is now, and for a long time has been, the second export state of the Union, being preceded only by New York. In the same year (1929) Texas imported from foreign countries one and a half million tons of cargo valued at thirty-two million dollars. At the same time, thirty-five million tons of cargo moved in and out of Texas ports, coastwise, carrying the stupendous value of three-quarter billion dollars. More than half million people live in the state's principal port cities.

These are inspiring figures, but they do not mark the apex of achievement. Rather they are forerunners of accomplishments that are to come. The era of waterway development in Texas has only begun. Canalization of the Trinity River alone will more than double—indeed, it may treble—the population concentrated on navigable Texas water-

ways. Completion of the Intercoastal Canal, than which no single project promises more to Texas, will double and treble the volume and value of coastwise shipping. But even these prospects do not complete the picture.

Industries—the great industries that employ men by the thousands—have a habit of locating upon navigable waterways. It is no far cry to a day when the banks of the Trinity, from Trinity Bay to Dallas and Ft. Worth will be lined by industries that move great cargoes of Texas raw materials to their plants by barge and send out the finished products to the four corners of the world in ships.

The dredging of deep-water ports, the canalization of Texas' great rivers, the construction of connecting, land-locked canals: these are not the dreams of dreamers, they are the projects of empire-builders.

## NAMING AMERICA

Modern science and research are revealing so much of what the older generation was taught in school that we may well conclude with John Billings that "it is just as well not to know so much as to know so much that ain't so".

The old text books told us for example, that America was named for Amerigo (or Americus) Vesputri, an Italian explorer who closely fol-

lowed Columbus and stole Christopher's thunder.

Now comes an ancient document unearthed in Prague, which is said to be a report of his adventures by Vesputri himself, in which the navigator signed his first name as Alberico. Thus, if he were to have been honored in naming the new continent, it should have been called Alberica.

But a further complication has arisen through the assertion of another authority that an Indian tribe of Columbus's time called themselves by a name which sounded very much like "America," and that perhaps the New World got a legitimate name after all.

Anyway, at this late day it prob-

ably doesn't make much difference, except to those who like to argue about such things.

**PAUL IN CORINTH**  
GOLDEN TEXT—And now abethleth faith, hope, charity, these three; but the greatest of these is charity.  
LESSON TEXT—Acts 18:1-17.  
PRIMARY TOPIC—Paul Working for Jesus in a Great City.  
JUNIOR TOPIC—Paul Working and Teaching in a Great City.  
INTERMEDIATE AND SENIOR TOPIC—Working for Christ in a Great City.  
YOUNG PEOPLE AND ADULT TOPIC—Christianity in a Cosmopolitan City.

The establishment of the church at Corinth is an example of missionary endeavor for all ages.

**I. The True Missionary Method (vs. 1-3).**

Paul came to Corinth a stranger. He did not have an advance agent to do his advertising, neither did he have his photograph put in the daily paper with a sensational announcement upon his arrival at Corinth. His method of gaining a foothold in Corinth was:

1. Finding a home (v. 2). This he found with Aquila and Priscilla, Jews who were recently expelled from Rome by the cruel edict of Claudius.
2. He tolled for his daily bread (v. 3). He was of the same craft with his hosts, who were tent makers. Every child among the Jews would laugh some trade by means of which he could gain a livelihood should occasion require.

**11. Preaching in the Synagogue at Corinth (vs. 4-8).**

1. Though compelled to toll for a living while getting a foothold in Corinth, he did not lose sight of his main work (v. 4). He reasoned in the synagogue every Sabbath, persuading the Jews and the Greeks.

2. His activity was increased when Silas and Timothy came (v. 5), which resulted from three causes:

- a. They brought good news from the church at Thessalonica (I Thess. 3:6). To hear of the steadfastness of one who had confessed Christ under his ministry put new vigor into his labors.
- b. They brought pecuniary gifts from the Macedonian church (Phil. 4:15; II Cor. 11:9). Being relieved from the necessity of tolling for a living, he could now devote more time to the preaching of the gospel.
- c. Silas and Timothy became assistants to Paul in the work.
3. Paul opposed (v. 6). His increased activity was met with increased opposition. As the Lord's ministers become more aggressive in their work, the ministers of Satan put forth corresponding efforts in opposition.
4. Paul announces his purpose to turn to the Gentiles (v. 6), because of the blasphemy and opposition of the Jews.
5. He did not go far away (v. 7). He remained sincerely near those whose hearts God had touched so that they could easily find him.
6. His success (v. 8). Crispus, the chief ruler of the synagogue, was converted. Perhaps Paul's severity in turning away from them urged Crispus to act. Pressure to an immediate decision is helpful to some. They realize that it is now or never. Many others following the example of Crispus, Paul varied from his usual custom and baptized Crispus, who was an important man (I Cor. 1:14).

**111. Paul's Vision (vs. 9-11).**

His experiences since coming to Europe were very trying. He needed encouragement at this time. It is just like the Lord in come at the time of the servant's greatest need. Note the Lord's words to him:

1. "Be not afraid." When one is executing the commission of the Lord he need not be afraid.
2. "Speak and hold not thy peace." The one who has heard the voice of God cannot refrain from speaking.
3. "I am with thee." The Lord is with everyone who faithfully carries out his command.
4. "No man shall set on thee to hurt thee." The one sent by the Lord to do a work is immune from harm until his work is done.
5. "I have much people in this city." It is most encouraging to know that in the great cities the Lord has his own people and that the one who goes in his name shall have fruit for his service.

**IV. Paul Before Gallio (vs. 12-17).**

1. The charge against him (v. 13). They accused him of persuading men to worship God contrary to the law.

2. Gallio's decision (vs. 14-16). He decided that it was not his concern to settle disputes concerning matters of the Jewish law.

3. Sosthenes beaten (v. 17). In all probability he was leading the attack upon Paul. The Greeks seemed to have sympathized with Paul. Therefore, they turned against his enemy.

**The Will of Christ**

If, then, the will of Christ is not being fulfilled through us, if there is good that it belongs to us to do, but which remains undone, then the point of juncture with Christ is the point that needs looking to—the reason of our fruitlessness is in the sin one, that we are not closely enough attached to Christ.—Marcus Dodds.

**Results From Prayer**

More things are wrought by prayer than this world dreams of.—Tennyson.

**Lost 20 Lbs. of Fat In Just 4 Weeks**

Mrs. Mae West of St. Louis, Mo., writes: "I'm only 28 yrs. old and weighed 170 lbs. until taking one box of your Kruschen Salts just 4 weeks ago. I now weigh 150 lbs. I also have more energy and furthermore I've never had a hungry moment." Fat folks should take one half teaspoonful of Kruschen Salts in a glass of hot water every morning before breakfast—an 85 cent bottle lasts 4 weeks—you can get Kruschen at the Corner Drug or any drug store in America. If not joyfully satisfied after the first bottle—money back.
