'Truman Doctrine' Termed Preventive Against Conflict

By BAUKHAGE News Analyst and Commentator.

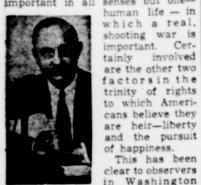

Washington, D. C.

WASHINGTON .- There is no imminent danger of war between the United States and Russia.

You've heard that before, and as far as I know, it is true. There is a diplomatic struggle go-

ing on between the two countr the scope and importance of which few people realize.

When I say "important," I mean important in all senses but one-

TION

ELEC

of happiness. This has been clear to observers in Washington merely look with their eyes at the external evidence, or scent with news-noses the currents which are wafted over transoms

human life - in

involved

and under the big oak doors of the sanctum sanctorum of the sanctis-Sharp words have tumbled over one another since the first verbal barrage, which was the Presidential message of March 12, 1947, some-

times described as embodying the "Truman Doctrine." May I remind you of a few of the barbed shafts in that message? "The very existence of the Greek state is today threatened by the terrorist activities of several thousand armed men, led by Communists,

who defy the government's author-

ity at a number of points, particularly along the northern boundaries said the President. "One of the primary objectives of the foreign policy of the United States is the creation of conditions in which we and other nations will be able to work out a way of life

free from coercion.

"We shall not realize our objectives, however, unless we are willing to help free peoples to maintain their free institutions and their national integrity against aggressive movements that seek to impose upon them totalitarian regimes. This is no more than a frank recognition that totalitarian regimes imposed on free peoples, by direct or indirect of communism in Europe (and elseaggression, undermine the foundations of international peace, and hence the security of the United

"The peoples of a number of countries of the world have recently had totalitarian regimes forced upon them against their will. The government of the United States has made frequent protests against coercion and intimidation, in violation of the Yalta agreement, in Poland, Romania, and Bulgaria. I must also state that in a number been similar developments. of other countries there have (He knew what was in the Hungarian cards.)

"One way of life is based upon the will of the majority, and is distinguished by free institutions, representative government, free elections, guarantees of individual liberty, freedom of speech and religion, and freedom from political oppression. . .

"The second way of life is based upon the will of a minority forcibly imposed upon the majority. It relies upon terror and oppression, a controlled press and radio, fixed elections and the suppression of personal freedoms.'

Strong words, those-all quoted from the Truman message.

Congress Follows Words With Action

Then came deeds. Congress implemented the President's message by authorizing the loan of three hundred millions to Greece and one hundred millions to Turkey Missions were sent at once to both

countries.

The United States concluded with Britain arrangements for an economic merger of their respective zones in Germany regardless of Russian (and French) failure to go

Then came the expected coup d'etat in which the Communists, with the Red army backing them and the aid of the Communist-controlled secret police, took over the anti-Communist government of

lowed these steps: support was sent to the Premier of last year, a record up to that time. > Hungarian credits here for surplus property supplies were There were indications that a loan earmarked for Hungary would be cancelled.

Hungarian-Russian transport company was told that its planes no longer could fly over the American zone in Germany.

Senator Vandenberg made his ringing speech in the senate declaring that Soviet pressure on Hungary demanded a trial before the forum of the United

The United States pressed for settlement of demands on Yugoslavia for planes shot down by Yugoslavia

These and other steps which undoubtedly will be taken before this article is in print, and still others in the making, are part of a vigorous foreign policy by which we mean to block Communist aggression wherever it appears in the world. In other words we have undertaken a form of positive activity in the foreign field, the scope of which has never been paralleled in our history.

Supporters of this policy (the majority of congress) believe it is a preventive, not an aggressive step.

They do not believe it is a foreign policy which von Clausewitz, the German military authority, scribed as something the "exten-sion" of which is war. They believe it can stop, will not start, mili-

Possible War Of Extermination

The policy is based on this theory,

as nearly as I can absorb it from the people who know:

Unless economic conditions are restored to normal throughout the world, chaos will result, communism will engulf Europe, and eventually the clash between communism and democracy as we understand it, will mean war between Russia and the United States. Since it now is believed that Russia will have the atom bomb in from four to ten years (cf. report of the President's advisory commission on universal training), such a war would mean extermination, if not of the human race, certainly of civilization as we know it.

where) must be checked now because:

If either France or Italy goes Red, Russia will not co-operate in a joint peace agreement for Germany and Austria. Without such agreement, Europe cannot be restored to nor-Chaos and communism will

If Russia is stopped in her tracks if we can prevent her from moving south into Greece, Turkey and the Middle East, and west of the line she holds at present from her German zone south through the Balkans to Greece, she will be forced to stop aggression in Europe; forced to co-operate with the western powers for her own preservation.

That as I understand it, is what some people call the "Truman Doc-It isn't quite fair to give it such an exclusive label when it never could have been put into effect without the yeoman service of men like Vandenberg and the other bi-partisan support it has received.

This does not mean that we have 'lost faith in democracy" or its ability to compete in a fair field with communism. It means we are going to see that a fair field is maintained; that Russia will not be permitted to create chaos or to draw on the type of force and terror she has used so far (latterly in Hungary), to enforce her way of life upon the world.

SATIRE ON SCHOOL AID . . . Community groups of Springport, Mich., a village of 500 population, erected this display on the site of proposed new school, needed to relieve a 600-pupil load in facilities for 100, when they learned the state legislature had dropped plans for school building aid. Pictured in the "new school" is Mrs. William Porter teaching her class.

NEWS REVIEW

Sugar Rationing Halted; **Retail Meat Prices Soar**

IT'S OVER:

Sugar Is Back

For the first time since April 28, 1942, Americans, and especially housewives, could go shopping without ration coupons as the government called a halt to the rationing of sugar for households, restaurants and hotels.

Secretary of Agriculture Clinton Anderson announced the move, explaining that it was made possible by the appearance of larger supplies of sugar than previously had been thought available.

Price controls on sugar, as well as rationing of the product for industrial use will continue, however. All sugar controls are scheduled to expire October 31 unless congress dictates otherwise.

Three reasons which acted to bring about an end to sugar ration-

1. Allotment by the International Emergency food council to the United States of 350,000 tons of sugar from Cuba in addition to that which was allotted earlier in the year.

2. Presence of still more surplus sugar in Cuba, which will help cut down demands from other parts of the world.

nese sugar now will be offered to world users.

UP AGAIN:

Meat Prices

Rapid, and in some cases unexplained, advances in the retail prices of meat have been reported from many sections of the country. Some of the reasons offered for the price jumps were: Seasonal influences, higher feed costs, heavy foreign purchases. In a number of instances, however, packers admitted that they were puzzled over the sharp increase in retail prices.

Steak, which sold for 70 to 80 cents a pound six months ago, was being listed as high as \$1.25 in Scranton, Pa., and a dollar in New York. In Chicago, retail meat prices experienced a general increase of 10 cents or more on popular and

scarce cuts in mid-June. There was one bright prediction, however: When the autumn beef run begins, prices are expected to drop as much as 25 per cent.

HARSH WORDS:

Note to Russia

The United States has accused Russia of using threats and coercion to instigate the recent Com-munist coup d'etat in Hungary. A strongly worded note to the Soviet union charged the Soviet

commander in Hungary with violating terms of the Yalta agreement

which guaranteed that liberated nations would retain their sover-Implicit, but not specifically

stated, in the note was a warning that the United States will call for a United Nations investigation of the circumstances under which Hungary's democratic regime was overthrown and Communist rule in-Main proposal embodied in the

protest was that the United States, Great Britain and Russia make a joint investigation of the political situation in Hungary. Russia previously rejected two earlier American requests for such a probe.

The U. S. position is that Hun garian Premier Nagy was forced into exile and was compelled to resign in order to make way for the Communist seizure of power.

PUSHBUTTON:

Look, No Hands

"Pushbutton" automatic flight, a new field in aviation, was ushered in when a pilotless four-engine army transport plane landed at Wil-mington, Ohio, after a 2,000-mile trip from Long Beach, Calif., during which no member of the crew touched the controls.

It was the longest flight of its kind to be completed wholly by means of the pushbutton automatic system, not to be confused with drone planes or remote control flight.

In the automatic flight set-up, all necessary flight data was fed electrically into a master control panel from within the plane itself.

Advocates Training

Dr. Karl T. Compton, chairman of commission on universal milifor war."

tary training, told congress that plan for UMT was "conceived as a means of safeguarding liberty and not as a means of preparing

No estimate was made of the corn crop as it is too early in the season for a reasonable degree of accuracy, but the report said that the abnormally cool, wet weather of May caused 20 to 25 per cent of the corn acreage to remain unplanted on

An unequalled winter wheat crop is in prospect for all of the Great Plains area, and Texas, Oklahoma, said. While growth and develop- favorable moisture conditions.

cold wet spring in all but the Pa cific coast states, losses from wet weather have been slight to date.

In the earliest sections of Texas and Oklahoma harvest got under way around June 1, at least 10 days later than last year.

Major spring wheat states had fairly favorable weather conditions early in May, which enabled growers to plant close to their intended acreage, although seeding was somewhat later than usual. The crop went into the ground several weeks later than usual in the Dakotas and Minnesota, where about three-fourths of the acreage is grown, but the plantings were under

Big Toll Taken By Air Crashes

93 Lives Are Lost Within 24 Hours: Other Wrecks Bring Total to 174.

WASHINGTON.-Within 24 hours the two worst disasters in the commercial aviation history of the nation took 93 lives and five other plane crashes around the globe-in Japan, Iceland, the Netherlands, Alaska and Argentina-brought the total number of dead to about 174.

The most disastrous of the crashes occurred near Port Deposit, Md., when an Eastern Air Lines DC-4 transport cracked up, killing 53 aboard.

Less than 24 hours earlier 40 persons lost their lives when another DC-4, a United Air Lines transport crash-landed at LaGuardia field, New York.

Crash Probers See It.

In other plane mishaps around the world, 40 were killed in Japan, 25 in Iceland, 12 in the Netherlands, 4 in Argentina and 3 were missing in Alaska

The crash at Port Deposit took the same toll as the crash of a Colombian Avinca Airlines plane near Bogota, Colombia, last February 13. Two civil aeronautics board officials, who investigated the plane wreck that took 39 lives in New York, witnessed from the air the crash of an Eastern Air Lines plane near Port Deposit, Md., that killed 53 persons.

The two, Col. Robert Garrett, senior air carrier accident investigator, and John Chamberlain, assistant director of the safety bureau, with two other officials, aboard a government-owned DC-3 flying back to Washington from La-Guardia field, New York.

Worst Disasters.

Major civilian plane disasters since 1940 in which 25 or more persons were killed:

1940-August 31-25 killed, including U. S. Sen. Ernest Lundeen of Minnesota, in crash near Lovetts-

1946-March 3-27 killed when air-

liner crashed into mountain peak in 1946-March 19-26 killed in transport crash in northern California.

1946-May 16-27 killed in crash near Richmond, Va. 1946-July 18-32 killed in crash

of airliner in Ecuador. 1946-September 19-39 killed in crash of Belgian airliner near Gander, Newfoundland.

1946-September 28-25 killed in crash near Auto Rio Doce, Brazil. 1946-November 14-26 killed in crash of Dutch airliner at Amster-

1946-December 26-63 killed in three airliner crashes at or near

1946-January 5-43 killed in Chinese airliner crash at Tsingtao. 1947-February 15-53 killed

crash of airliner near Bogota, Colombia 1947-April 8-27 killed in crash near Caracas, Venezuela. 1947—May 29—39 killed in crash

of airliner at LaGuardia field, New 1947-May 29-25 killed in Icelandic Air Lines plane crash in Iceland.

1947-May 30-53 killed in crash near Port Deposit, Md.

Princess Elizabeth Will Get Household of Her Own

LONDON. - Princess Elizabeth soon must leave her father and mother and her sister, Princess Margaret Rose, and set up a sep-arate household of her own.

King George VI and Queen Elizabeth have made the decision for their daughter. The affection and ties of the royal family probably are as deep as any in Britain, but living apart from her family is part of the price that Princess Elizabeth must pay for being a future queen.

Court speculation already is centered upon whether that announcement may precede or follow an announcement of her engagement to the former Prince Philip of Greece, now Lt. Philip Mountbatten of the Royal navy, a British citizen.

Buckingham palace sources said the engagement of the princess, just turned 21, to Philip would be discussed soon at a dinner party, which the royal family, the former prince and his mother, Princess Alice, will

At any rate, Princess Elizabeth will have time to get her new household going before her wedding. She will have two and probably three residences.

French Government Seizes All Flour Mills in Paris

PARIS. -- The government seized all flour mills in the Paris area. Premier Paul Ramadier said he would use troops if necessary to enforce the cabinet's decisions to hold the line on wages and prices.

At the same time, Ramadier personally took over the unpopular ministry of food supplies.

Antagonism between Minister of National Economy Andre Philip in her mouth until they hatch. and Georges Rastel of the food ministry had been jeopardizing the French food situation.

The cabinet approved the order to take over the mills only a few hours after workers at the Paris ally, but when danger threatens the Flour Milling company struck for quickly swim back into their moth a 121/2 cents an hour pay increase. er's mouth—until they get too big-

Inventors Tell of Latest in Gadgets

Women Found Percolating Brain Children.

CHICAGO. — The question What's New?" has more than 600 answers, according to a new digest. style magazine. They are contained among ideas listed in the Digest of New Inventions, published by Na. tional Foundation for Science and

Industry.
Alfred R. Babcock, who launched the foundation a year ago as a non profit clearing house to help bring inventor and manufacturer gether, reported inventions flowed in from every state, Canada, Panama Canal zone and Guam.

Women, Babcock noted, are percolating brain children just as are the men. Mrs. Ida Mae Price of Marked

Tree, Ark., submitted a combination ashtray and cuspidor for cigar smokers in the home. Mrs. Anna G. Besch, Bellwood, Neb., invented a lunch kit with a spiH-proof bowl so husband and

children could have hot soup with their lunch. As for the men, Charles Berwinkle, Raven Rock, W. Va., in-

vented a mobile worktable-chair unit for wounded veterans and invalids. W. G. Bolcom, Duluth, Minn., of fered an automatic somersaulter. It 'imparts to the user the benefits

inconvenience, the difficulty or the physical effort of the normal man-A new kind of shower bath attachment sent in by A. V. Richardson, Dorchester, Mass., would give the bather scented, softened, ready.

of turning somersaults without the

lathered or clear water as desired. Then there were a foolproof safety pin, a nail with a breakable head for simple removal of the nailed object, a rotary windshield wiper for automobiles and trucks, a plant vitamin hypodermic for use in the garden, a two-minute electric dishwasher, a new kind of camera for taking dimensional pictures, and hundreds of others.

Only patented items or those with patents applied for could be accepted for publication in the digest, Babcock said.

Dogs Allowed to Bite

Mailman Only Once

DETROIT. - Detroit's thou sands of pet dogs face a stern federal edict. They have been forbidden to bite the mailman more than once

Postmaster Roscoe B. Huston announced that mail delivery service would be cut off to any home whose canine pet exceeds the limit.

Perhaps unknowingly, the government reverted to an old principle of English common law, which holds that a dog cannot be penalized for his first bite.

With Troops for Five Years, Boy, Now 17, Ordered Home

FRANKFURT, GERMANY. - A 17-year-old Texas boy who ran away from home at the age of 12 and spent five years knocking about Europe and Africa as a mascot of American troops was ordered sent back to the United States. An American military govern-

ment court convicted Antonio Brandez of entering Germany illegally and wearing a United States army uniform without authority. Brandez's career began in 1942. when he left San Antonio and stowed away on a ship to England.

There he attached himself to Amer-

ican troops, and as their mascot

flew with them to Africa, then followed them across Europe all the way to Germany. He went home with the troops after V-E Day, stowing away on a troopship. But he found his mother dead and he soon tired of life in the United States, so back he came to Germany in 1946-again as a

stowaway. Once more he joined an American military unit as mascot. He was arrested at Munich, but escaped. Recaptured and sent to Bremen for deportation, he escaped again. He made his way to Frankfort and then headed for Paris. But the French arrested him in Strasbourg and returned him to the

American zone. The small, dark skinned youth said his father, Raymuno Brandez, now lives in Kingsville, Tex.

Mouth-Breeding Fish Is Main Attraction at Museum

SAN FRANCISCO. - The San Francisco aquarium is directing the attention of visitors to its female Egyptian mouth - breeding fish, whose mouth now is full of eggs be-

ing hatched. William B. Richardson, tropical fish expert at the California Academy of Science, explained that the fish picks up her eggs after they have been fertilized and holds them

During the 15-day incubation period, the little fish refuses all food. And after the young are hatched, the mother carries them he had mouth. They venture out occasion

A Public Relations Job

America's biggest public relations ssignment, perhaps the most sigficant of this kind in the history of the world, is gaining momentum. It's off to a good start. You may call it industrial statesmanship, if you want to, or you may call it sellthe American way of life. What amounts to is an all-out effort on the part of each one of us to temonstrate the faith we have in our economic system. So doing, we call weather any present or future

then we assert that never has any ther system given a people so nuch; nor has any other system a brighter future. We Americans are ot generally an emotional people. We can read history without weephe. Europeans think of us as more 'practical" and less idealistic. At my rate, we have been so busy that we have largely overlooked our sellof job, until time is later than we

Selling Ourselves

An industrialist recently indulged in a bit of analysis: "The simple fact tat our American-style processes of mance, production, distribution and selling actually produce more for more people than does any other set of processes ever devised by man, has never been planted deeply in the minds of our people—at least not to the extent that it becomes an ever present and active part of the pubconsciousness.'

I am afraid this is too true. If we had actually sold ourselves on America through the years, we would never have seen the phenomenon of certain of our public figures playing peek-a-boo with the Commu-There would be genuine appreciation of the accomplish-ments and potentialities of Amertea in every university chair in

Whooping Cough Is Above Average

A statement released this week y the State Health Department indicates that the incidence of whoop ing cough in Texas is at present alnost three times as high as the even year median.

"Prevention and control of whoop ing cough, especially amogn inf-ants and small children may be ac complished thru use of approved vaccine and convalescent serum. and it is important that such meas-ures be taken to protect them. Neg ecting to do so and allowing the young child to suffer an attack of this disease, may seriously impair his future health.

The infectious agent or germ of whooping cough, is transmitted by droplets expelled sneezing. or speaking. charges from the nose and throat are dangerous to suspectibe persons; the need for early recognition and careful isolation

whooping cough is obvious.

The first sign of this disease is usually a dry cough, which persists day and night and tends to become increasingly severe. The disease is

food and whooping accompany the that they will not come in contact paroxysm of cough. Dr Cox stress-with other children until three possible ed the fact that children who have weeks after the appearance of typwhooping cough should not attend ical signs of the disease. Alarm on Freezer

The symphony of the American farm, its cow bells, dinner bells and hog calling, soon will be joined by another sound, a distinct and notto-be-mistaken alarm which is being added to the home freezer.

An extensive series of tests conducted by the USDA has resulted in the Brown instrument company developing an audible signal which will warn if home freezers cease oper-ating. Electronic potentiometers retemperatures instantaneously and constantly at 16 points within each freezer.

Improved construction of the freezer and the warning signal will result in better food protection.

Salt Speeds Gains In Hog Feeding Tests

Hogs receiving some selt in their daily rations can gain two and one-half times faster than those without it, tests at Purdue university indicate. Average daily gain of hogs which received salt was 1.71 pounds, while those receiving none gained only .67 pounds daily. For each pound of salt consumed there were 45 extra pounds of gain. Each pound of salt saved \$5.60 worth of feed -nosumed by hogs.

UDIA E. PINKHAM'S VEGETABLE

Summer Fruits and Berries Tell Us That It's Jam Time

To make jams or jellies, select ripe berries and pick them over carefully so you will have no sour or bitter taste in the jam. Wash the berries thoroughly before working with them.

Although it's the fruit or vegetable that keeps us going on the job from day to day with its vitamins and

minerals, it's the luscious fruit jams, butters or conserves that lift meals from the humdrum to the

elegant. So, homemakers, plan to add delight to next winter's meals.

If you need a further excuse to make them, you may consider them from an economy standpoint, for jam on the bread or roll will not take nearly as much of the expensive spreads. Fruits and berries, this season, are among the best, and are really very reasonable in price compared to what they have been previously.

When you make jam, jelly, butter or conserve, make a small batch. This takes less time and allows for less failure. Cooking in small quantity also saves the color of the fruit, and appearance is as important in jam as is its eating quality.

If you want some good spreads for next winter make fruit and berry butter, as these do not take as much sugar as some of the others. Blueberry-Apple Butter.

2 quarts blueberries 2 quarts apple pulp 2 quarts sugar

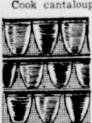

1 tablespoon ground spices Wash and slice tart apples. Add water to cover and cook until soft. Press through a sieve and measure Boil apple pulp, blueberries, sugar and spices until thick. Pour hot into sterile jars and process 10 minutes

in a hot water bath.

Cantaloupe-Peach Conserve. 4 cups diced cantaloupe

4 cups diced peaches 6 cups sugar 4 tablespoons lemon juice

1/2 teaspoon nutmeg 1/2 cup blanched almonds 14 teaspoon salt Cook cantaloupe and peaches to-

gether for 20 minutes. Add sugar and lemon juice; boil rapiduntil thick. Add nutmeg, nuts and salt. Pour, boiling hot, into sterilized jars and seal at once with paraffin.

Elderberry Jam. Wash, stem and measure, then slightly crush the berries. Add 2 tablespoons vinegar and 3 cups sugar to each quart of berries. Boil until thick and pour into hot

sterile jars. Seal at once. Concord Grape and Plum Jam. (Makes 10 6-ounce glasses) 4 cups prepared fruit

7 cups sugar 1/2 bottle fruit pectin

To prepare fruit, slip skins from 11/2 pounds fully ripe grapes. Bring pulp to a boil and simmer, covered, for 5 minutes. Remove seeds by putting through a sieve. Chop or grind skins and add to pulp. Pit, but do not peel, about 1½ pounds of fully ripe damson plums. Cut into small pieces and crush thoroughly. Add 1/4 cup water, bring to a boil, cover, and simmer 15 minutes.

Combine fruits. Measure sugar and prepared fruit into a large saucepan, filling up last

LYNN SAYS:

Keep on Your Toes

When Making Jelly How do you know when jelly meets specifications? It is clear, tender and sparkling. It has retained its fresh fruit or berry flavor; it holds its shape when turned from the glass, but is soft enough to be

spread with a knife. For jelly it's preferable to use containers that have a wide enough mouth from which to slip the jelly

LYNN CHAMBERS' MENU

Breaded Pork Chops Applesauce Candied Sweet Potatoes Vegetable Salad Butterscotch Pudding Beverage

cups with water, if necossary. Mix well. Bring to a full rolling boil over hottest fire. Stir constantly before and while boiling. Boil hard 1 minute.

Remove from fire and stir in fruit pectin. Stir and skim by turns for minutes, to cool slightly and prevent floating fruit. Pour quickly and top with paraffin at once.

Blackberry Jam. 41/2 cups prepared fruit 61/2 cups sugar

1 box powdered fruit pectin To prepare the fruit: Crush comoletely, one layer at a time, about quarts of fully ripe blackberries. f desired, sieve half of pulp to renove some of the seeds. Measure berries into large saucepan.

To make the jam: Measure sugar and set aside. Place saucepan with fruit over hot fire. Add powdered fruit pectin and stir until mixture comes to a hard boil. At once stir in sugar. Bring to a full rolling boil and boil hard 1 minute, stirring constantly. Remove from heat, skim, ladle quickly into glasses. Paraffin at once.

True marmalades are really soft fruit jellies, and are wonderful to use for spreads when lunch box problems come up during fall and winter. Have a few choice jars on hand to take care of the situa-

Cherry-Raspberry Conserve. 3 cups pitted cherries 1 cup chopped pineapple 1 cup raspberry pulp 4 cups sugar

Run cherries and pineapple through food chopper. Add raspberries which have been thoroughly crushed, and sugar. Heat slowly until sugar dissolves, then boil rapidly until thick. Pour into hot, sterilized jars and seal at once.

When you make jam or jelly, it's a good idea to check and prepare the jars in advance. Get some help with the fruit or berries, if it's

at all possible.
Have all ingredients measured start cooking, as spot to watch out be right on the

for scorching. With these tips in mind, the preparation will take on a simplicity you never dreamed possible. Cherry Marmalade. 2 oranges quart pitted cherries

4 tablespoons lemon juice 31/2 cups sugar Run oranges through food chopper.

Cover with water and boil until soft. Cool. Add cherries, lemon juice

You can put jams and jellies to use this summer by making light sandwich refreshments from them to serve with cooling fruit juices. Fruit juices also may be canned for later use as jelly.

and sugar. Boil to jellying point. Pour into jars and top with paraffin at once.

Raspberry-Currant Marmalade. 2 quarts raspberries 1 quart currants 9 cups sugar

Measure berries and currants after stemming and cleaning. Crush currants. Cook slowly until juice flows freely. Add raspberries and heat slowly to boiling. Add sugar and stir until dissolved. Boil rapidly to jellying point. Pour quickly into hot, sterile jars and seal with paraffin at once.

Note: The currants are cooked longer than the raspberries because they are more firm and do not lose color as quickly as the more delicate fruit.

Released by Western Newspaper Union,

Test for acid by tasting. If it lacks, add some lemon juice.

Fully ripe fruits make the tastiest jellies, but most of these have insufficient pectin to make jelly. It is best to use one-half ripe berries and one-half not-so-ripe ones.

If you like a spiced jelly, drop a bag of mixed spices into the juice while it is first cooking. Use wide-bottomed pans for cook-

ing the jelly so that the juice will cook quickly and not lose too much of its color while cooking.

Our Heritage From Ancient Israel

LESSON TEXT FOR JUNE 29-Psalm 119:105; Iroiah 2:2-4; Micah 6:1-8. MEMO. SELECTION-He will teach us of his ways, and we will walk in his paths.— Isaiah 2:3.

EDITOR'S NOTE: Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Edu-cation; used by permission.

By HAROLD L. LUNDQUIST, D. D. Of The Moody Bible Institute, Chicago. AT THE end of the road the He brew nation may have-yes, should have-stopped to look back and see what it had accomplished. Israel was now in exile, to return only in part, and with greatly limit-

ed greatness and glory. What was God's purpose for Israel? It was threefold: (1) To be a repository for his

truth in the earth.
(2) To be a channel for the coming of the personal Redeemer to the earth.

(3) To be a national witness to the one true God to the other nations of the earth.

The first two they fulfilled. They kept for us the Word of God as re-vealed in the Old Testament, and from their nation came most of the men through whom the Holy Spirit wrote the New Testament. It was through their nation that the Son of God came as Jesus of Nazareth, our Saviour and Lord.

But they failed to be the witness that God had meant them to beand for this they came under his judgment.

Were they then a complete fail-Certainly not-our lesson makes that clear in three ways. Teachers will find the scriptures not too well selected, but they do serve as a background for these thoughts. The nation Israel showed us:

I. The Enlightening Word of God (Ps. 119:105).

LET us never forget that the precious Word of God, which is our light on the way through this dark world, came to us through Jewish hands.

The Old Testament, which we come to appreciate more and more as we grow in grace and knowledge of the Lord, was committed to Israel by inspiration of the Holy Spirit, and preserved by the Jewish nation even at the cost of their own lives. Nothing was more precious to them than the sacred Scripture. We owe them a great debt of gratitude, and ought to honor them for their service to God and man.

We may say then that the Bible, unsurpassed in all the world of literature, and beyond comparison as the guiding light for man's heart and life, was given to us through Israel. We could well say a hearty "Thank you" for that right now if we have never done it before!

II. The Exalted Worship of God

(Isa. 2:2-4). THE prophet looks into the future to that glorious and blessed day when the nations shall have learned to live in peace and righteousness, when war shall be no more, and the worship of God shall be the desire and the joy of men.

When will that day come? Will it be brought in by the efforts of the church, or by conferences of national leaders? Not for a moment would we minimize the value of every true effort to spread peace and righteousness through the earth. We honor those who faithfully try to bring concord in the affairs of men.

But the clear teaching of Scripture, which has been so abundantly proved by experience, is that we can expect the delightful condition of which Isaiah speaks only when the Prince of Peace himself has returned to reign, namely, our Lord and Saviour and coming King, Jesus Christ. We look for that day!

In that blessed time Israel shall worship the Lord in the beauty of boliness, even as their history under the hand of God in days past was one of true worship of the Lord. Here again they made an enduring contribution to the life of the

world. Then note their witness to III. The Effective Work of God (Mic. 6:1-8).

WE HAVE here words of another Hebrew prophet. He speaks of God's plain dealings with his people, his judgment upon their sin. and the need of a careful and a worthy walk before him.

Back of all the admonition and appeal is the remembrance of how God had worked on behalf of Israel, delivering them from bondage, giving them effective leaders, going before them in battle, in fact, proving his goodness and love by his mighty works.

·Israel's service for God and man is an example of what God can and will do for those who obey him and walk with him. It is equally true that they thus reveal the inevitable judgment which comes upon a sinful and disobedient nation. Let us not miss that lesson, for we need it today. Released by Western Newspaper Union.

Ellis Chevrolet To Show New Line of Trucks

The new Advance-Design line of Chevrolet trucks and commercial cars will be shown to the public June 28th in O'Donnell, it was announced today by John Ellis.

"All over the nation on that date Chevrolet dealers will be exhibit-ing the new trucks," Mr. Ellis said. "We are having a special showing in O'Donnell and cordially invite truck owners, fleet operators and others interested in trucks to visit our showrooms."

Adance information trucks, Mr. Ellis said, indicates that the line will be the most com-prehensive in the history of Chevro let and will feature driver comforts and conveniences not heretofore available in motor trucks.

"For the first time in the histor; of the automobile industry, a truck has been designed which has as a basic concept the comfort and safety of the driver,' Mr. Ellis said. We predict that the resuult the complete endorsement of truck owners and drivers.

Re-styling and precision-engin-red, the Adanced-Design line of eered, the Adanced-Design line of trucks, Ellis declared, provides an efficient, dependable, safe and low cost unit for practically every type of hauling and transportation requir

The display at the Ellis Chevrolet will open at 8 p. m. and close at 7 p. m. daily. Trained truck men will be on hand to explain the feat ures of the vehicles.
