YOUNG DEMOCRATS TO MEET
IN AMARILLO

Young Democrats of West Texas held their annual convention in Amarillo Saturday, March 10, according to announcement made this week.

Speakers include: Col. Ernest O. Thompson, railroad commissioner; Bascom Giles, land commissioner; J. E. McDonald, Commissioner of Agriculture; Alvin R. Allison, of Levelland State Representative; Bryan Bradbury, state representative from Abilene; G. H. Nelson, state senator from Lubbock and George Moffett, Chillicothe, state senator.

Price Daniel of Liberty, president of the Texas Young Democrats, will discuss part of the Young Democrat in Texas politics.

COUNCILMEN TO BE SELECTED ON APRIL 2

Two councilmen are to be selected in the city election here April 2, according to Mayor B. M. Hayes.

The expired terms of Fred Henderson and Mr. Huff, who've served three terms, are the positions to be filled. Both men are up for re-election, according to Hayes.

Blocker's Grocery Purchased 3720 Dozen Eggs Saturday

If you think your hen nests have been robbed of the eggs which you think should have been there, you might complain, but the chances are they may have been brought to O'Donnell stores.

Eggs were brought into O'Donnell Saturday by the bucketfuls—or at least Shack Blocker thought so when he tallied the number of eggs purchased that day.

A total of 3720 dozen eggs were bought by Blocker's Saturday.

Mr. and Mrs. Joe Heare of Tahoka visited Mr. and Mrs. R. O. Stark Sunday afternoon.

Mr. and Mrs. B. J. Boyd left this week for Rockport and other cities on the coast for a vacation trip.

Mrs. Roy W. Gibson underwent minor surgery in a Lubbock hospital Sunday.

Dr. and Mrs. J. F. Campbell left this week for a vacation trip to Rockport.

Mr. and Mrs. J. W. Dines of Kress were guests in the home of Mr. and Mrs. R. O. Stark last week end.

Mr. and Mrs. C. L. Hafer visited in Tahoka Sunday.

S. O. NOWELL DIES FOLLOWING OPERATION

Last rites for S. O. Nowell, 48, O'Donnell MM tractor dealer and who also farmed near Lamesa, were held Monday afternoon at Lamesa from the Church of Christ with minister Ernest Harrison of Charlie, Texas, officiating. Minister T. H. Tarbet of Big Springs assisted. Death occurred Sunday in a Dallas hospital.

Burial was made in the Lamesa cemetery.

Survivors include his widow; two sons, Loyd Nowell of O'Donnell and Farris Nowell, Abilene Christian College; stepson, Frank Liddell of Dallas; brother, R. H. Nowell of Houston; sisters, Mrs. Gertrude Choate of DaQuena, Ark., and Mrs. Beulah Camp of Dallas; two half-sisters, Mrs. Etta Herndon and Mrs. Ben White, both of Anson.

Mr. Nowell, who entered business here with son Loyd last November, died following a major operation on the bladder. His death, even though his friends knew he was seriously ill, came as a shock.

Mr. Nowell was born in Franklin county, and moved to Dawson in 1924.

BOYS WARNED ON KITE FLYING NEAR LIGHT WIRES

Local kite flyers have been asked to seek wide open spaces in which to enjoy this pastime, to avoid any danger of getting their kites tangled in the electric wires. In addition to losing a kite, there is a possibility that someone may be injured, according to C. E. Cameron, manager of the Texas Electric Service Company. He declared that each year a number of children are injured, some fatally, by accidents resulting from flying kites into electric wires, and urged parents to see that their children fly kites away from wires. If a kite should become entangled, the electric company will send a trained man to remove it, if it is possible to do so.

Mr. C. E. Cameron listed four "don'ts" for kite flyers:

- Don't fly kites near electric wires.
- Don't fly kites with wire instead of string.
- Don't make kite frames of metal or wire.
- Don't use sticks or climb poles to get kites off the wires.

Electric company representatives will visit schools and give further information on how to use care in flying kites.

FSA LOANS AVAILABLE TO FARM AND CLUB BOYS

Farm boys and girls in Lynn county will be enabled to participate in 4-H club and Future Farmers of America (FFA) educational and demonstration farm projects during 1940 with loans advanced by the Farm Security Administration.

New regulations making such loans possible were announced by Mr. W. J. Welch, FSA rehabilitation supervisor in Lynn county.

"All young people enrolled in these junior farm groups, and whose parents are among the FSA borrowers," Mr. Welch said, "may secure loans of not more than \$75 for purchase of a calf, sow, poultry or other young livestock as well as seed, plants and fertilizer, for projects approved by the county extension agent or Smith-Hughes instructors in charge of the projects."

Mr. Welch said that by making loans available to young people with no other source of credit, the program is expected to bring the families more into normal community life, sponsor useful farm projects, and contribute to rehabilitation.

He explained the new loan plan will enable county agents and vocational agriculture teachers to broaden their activities and reach a larger number of rural young people. Heretofore, he said, the program is limited in such projects because of limited funds.

Loan application must be made to the county FSA supervisor and approved by the project leaders. Security on loans will include a note signed jointly with parents and chattel or crop mortgages with interest at five per cent.

"This is another case," Mr. Welch said, "where the Farm Security Administration is seeking to broaden its facilities to help low-income farm families in cooperation with other agencies. I am sure there are a number of boys and girls in Lynn county who will benefit from this plan."

ATTENDED FUNERAL IN LUBBOCK

Mr. and Mrs. Ora Blocker were in Lubbock Sunday to attend the funeral of Clara Gay Ryan.

The Ryan and Blocker families were neighbors in De Kalb for twelve years.

LEAVE FOR VALLEY

Mr. and Mrs. Fred Henderson departed Thursday for the valley where they will spend a month.

ATTEND DISTRICT MEETING

James Applewhite and Bedford Caldwell of the O'Donnell Implement Co. were in Brownfield Friday night to attend a district meeting for Farmal dealers.

WILL RETURN HOME

Mr. and Mrs. A. Emerson will return to home in Wichita Saturday.

She has been a guest in the home of her brother W. L. Palmer and Mrs. Palmer since Christmas.

Mr. J. K. Applewhite was a visitor in the city Friday.

THANKS

Our thanks to Miss Thelma Palmer, city, Mrs. L. M. Stephens Rt. one and Herbert McMillan Route three for their renewal and new subscriptions.

Mrs. Steve Analin has been receiving treatment in a Lamesa hospital this week, following an acute attack of appendicitis Sunday.

ATTEND DISTRICT MEETING

Along those attending the district meeting of W. M. U. in Tahoka Monday and Tuesday were Messrs. J. A. Edwards, W. A. Emerson, Geo. Pierce, Ed Goidard and Yandell.

FROM QUAHAN

Mr. and Mrs. Stansell Jones had as their guests Jones' mother, A. Jones' mother, and Yandell.

New Legislation Extends FHA-Insured Mortgage

Farmers may now use an insurance, barns, sheds, poultry houses, farm structures.

As much as 90% of appraised value land may be either bought or refinanced in such projects because of limited funds.

Construction or repair of buildings, including institutions, they are not governed by FHA.

The interest is 4 1/2 per cent, semi-annually or annually, in the distribution of the farmer's income.

At the discretion of the lender, 20 to 25 years.

This means that the responsibility with a modern attractive home value the cash—a tenant farmer farmer burdened with short-term loans, modernize his farm, and clear payment.

For Appraisals and Applications
HENRY RICKLE

NEW GROCERY FIRM OF LINE & LAMBERT TO HOLD FORMAL OPENING FRIDAY & SATURDAY

The formal opening of the new Line-Lambert Grocery is scheduled for Friday and Saturday, so the new owners, Harvey Line and Cliff Lambert, say.

In addition to food bargains for the thrifty, representatives of various food companies will be present to demonstrate popular brands. Coffee, cakes, potato chips and other products will be served free to those attending.

Purchased two weeks ago from E. D. Holman, the grocery store has been rearranged throughout. A modern refrigeration unit has been installed. Both Mr. Line and Mr. Lambert are experienced grocers, and are well-known to the trade of this territory.

Local Scouts Win Pennant For Quick Mobilization

Local Boy Scouts literally "hurried" themselves into the winning of a pennant, presented by the South Plains district council, when they capped first prize for the quickest mobilization during Boy Scout Week.

Sealed orders as to starting time was handed Ben Moore, who in turn notified Scoutmaster Namon Exerett. Exerett quickly informed patrol leaders and 22 scouts were mobilized for duty within 30 minutes.

Should disaster strike O'Donnell, and should the services of the scouts be needed, a like order would go forth.

WIDE VARIETY OF BOWLING PLAY IS OFFERED FANS

Action in divers directions dominated the bowling scene here during the last week.

Match-play between two girl teams, with the school girls out-bowling the "town" five, an inter-city match with a Lubbock aggression in that city two more defeats by the slipping Whitsett team in the City league and an upset by the new C-C Dry Goods team in the re-highlighted the week.

For the first time this season, the Whitsett pin-rollers failed to chalk up at least one 800-so game out of three in match play. Their opponents, Blocker's Grocery, by just managing one game over that score, captured two of three games—mainly due to the improved playing of "Chief" Wimberley.

Misery in still further doses awaited the Whitsett crew, however, when they met the pace-setting Corner Drug five next Tuesday night. It has been so long since any team won a series from the Corner crowd that even Grandpa has forgotten the date, but Whitsett's rollers vow that a different story will be written Tuesday night and the bitter taste of defeat will be in the mouth of the Corner players. Yet, the latter crowd merely smile and say "wait and see."

Water Program Approved

Amarillo, Texas.—Development of small water resources for the benefit of agriculture in the Southern Great Plains has been approved by the water facilities board in Washington 37,639,200 acre in Kansas, eastern Colorado, eastern New Mexico and the Panhandle of Texas and Oklahoma, according to H. H. Fennell, regional conservator of the Soil Conservation Service.

Under provisions of the program the Bureau of Agricultural Economics plans the areas for such development, the Farm Security Administration provides technical assistance in planning and installing the facilities.

The program enables farmers and ranchers to install windmills, well, stock water ponds and dams, diversion structures, pumps, water spreading systems, small irrigation systems and other facilities that will assist in providing water that will place farms and ranches upon a more sound economic basis, Fennell explained.

In connection with water facilities, the Soil Conservation Service aids in the planning and establishment of a complete soil and water conservation program on the farms and ranches. Such programs now have been planned for a total of 365,632 acres and have been completed on 80,798 acres, reports show.

High Spots on Record-Breaking Run

Signs of the times in a motor age—these highway markers tell the story of a two-year, 100,000-mile truck test run recently completed by Chevrolet. In Canada, Mexico and every state of the Union, the truck operated on all types of highways and under every conceivable weather hazard, setting a new world mark for sustained and certified automotive operation, under the sanction and official observation of the American Automobile Association. The unit carried a 4,590-pound "payload." An average of 15.1 miles per gallon of fuel was maintained throughout the 100,000 miles, at an average operating speed of 33.07 miles per hour. Oil mileage was correspondingly high—1,072 miles per quart.

Brooks Again Named Safety Council Head.

Members of the Board of Directors of the Texas Safety Council, meeting in Dallas Wednesday, again elected Pierce Brooks president of the organization. Brooks was its

founder in 1933 and through all the years has been active in the promotion of its work.

At the same time George A. Davidson, Jr., of Abilene, former member of the Legislature from Eastland county, was reelected vice-president and M. E. Gregory of Dallas, secretary.

The Board of Directors is composed of responsible and representative business men from all sections of Texas, all of whom contribute to the

the unselfish work of Mr. Brooks for eight years, and pointed out that he had probably contributed more in individual funds and in time and energy to the educational work of Safety than any other Texas citizen.

The Secretary reported to the Board that in the last year, nearly 100 Junior Patrols had been organized in the State. These do their work at the schools in the prevention of accidents, which have been reduced to a minimum. The Secretary also reported that in the last few months, 3 separate films had been produced in scores of Texas theatres which have co-operated and the demand for them is so great that the office is months behind in its bookings.

In accepting the Presidency again of the organization, Brooks said: "The results we have accomplished

would not have been possible save for the co-operation of the Civic Clubs and the newspapers of our State. And we do not want to overlook the Mayors who since January 1st, in more than 100 Texas cities and towns have named local safety committees which will co-operate with us throughout the year."

PUPPET SHOW HERE

The Morrey-Towse Dental Health Puppet Show will be given in the schools of Lynn County March 20 and 21 by the State Department of Health, with the cooperation of the State Department of Education and the Good Teeth Council for Children, of Chicago. This piece of visual health education has been arranged under the approval of nationally known leaders in the fields of dentistry, medicine, and elementary education. It is dramatized with music, voice, and humor, bringing out four fundamental points in dental health in such a way that it is not only entertaining, but makes lasting impressions on the minds of the school children as to the value of dental health. It is presented by two operators, a man and a woman, both of whom are highly trained in dramatics and puppetry.

The plot of the story concerns the trials and tribulations of little Jack who could not go to the circus with his sister, Joan, because he had toothache. Through the cooperation of his mother and the friendly family dentist, Jack's toothache was relieved and he was taught how to care for his teeth to prevent toothache; how dental disease affects the gen-

New Inexpensive Hats Defy Freckles

A new fad in lady's millinery is sweeping the Texas State College for Women campus. Designed with the practical idea of keeping freckles from marching across the wearer's nose when the hot Texas sun beams, the hats cost only slightly more than twenty-five cents each and were originated by Marian Gray of Little Rock, Ark., Jayne Ott of Fort Worth, and Josephine Kuykendall of Amarillo. A flexoco straw hat similar to the one worn by Mexican peons is soaked in water three or four minutes, shaped and cut to suit the wearer's personality, and then finished off with suitable decoration.

eral health of the body, as well as that of the mouth; he is told of the importance of the right foods, exercise, home care, and dental care. The supporting cast in addition to the dentist, Jack's mother, and sister, Joan, are Toni, the fruit peddler; the milkman; Toni's son; and the United States, and both pupils and teachers are loud in their ac-

claim of its value. While the show is arranged into the forty-minute act and primarily for elementary children, parents are invited with the children and it is considered one of the usual education projects arranged in Texas. The following is the schedule for Lynn county: March 20, 9:00 a. m. Draw; 11:15 a. m. Show; 2:15 p. m. March 21, 9:00 a. m. New Home; 11:15 a. m. Wilson; 2:00 p. m.

NEW LIFE

Change Winter-killed oil—and here's why to change to OIL-PLATING
It's Good! in the gutter is scarcely thinner and than Winter oil over-staying in your Drain now, warns your judgment—Manual. But get more than a re-filled Annual. Get cylinders, rings, bearings, and cious parts OIL-PLATED by making you change to Conoco Germ Processed patented. Mileage Merchant puts it in an ordinary way. But how expensive is the man-made extra substance in formulas, that sets Germ Processed

oil apart. For here is oil whose strong "power of attraction" makes engine parts draw glossy OIL-PLATING all over themselves and keep holding it close—as drain-proof as plating on hub caps. Not for one instant can OIL-PLATING go draining "down home" to the crankcase. Though you're speeding the limit or parking long hours, OIL-PLATING is always faithfully maintained. All in addition to the strong oil-film of Germ Processed oil, this drain-proof OIL-PLATING helps to keep down wear. And that's how to keep your engine nearest to the oil economy of its youth. Your correct Germ Processed oil for Spring, at Your Mileage Merchant's Conoco station today, will give you the change to an OIL-PLATED engine. Continental Oil Company

HERE'S WHAT IT TAKES FOR LEADERSHIP AND FORD'S GOT 'EM ALL!

Built in Toledo by Ford Motor

- 1 GOING POWER**
—the kind of power that only the V-8 engine can provide—the instant response, the lightning acceleration, the remarkable economy, the swift, smooth, faithful performance. 6,000,000 Ford V-8s—more than all other lights combined—say this is the power plant for you.
- 2 STOPPING POWER**
The hydraulic brakes of the Ford V-8 are far and away the biggest in the low-priced field—a safety factor you've got to have.
- 3 POWER TO HOLD THE ROAD**
No car in any price field excels Ford in roadability—in keeping "all four feet on the ground" under all driving conditions. This means safety plus comfort.
- 4 SMOOTHNESS**
- 5 STAMINA**
Not only in amazing power does the Ford V-8 engine excel, but in the smoothness that gives *valvet quiet*. Only cars costing hundreds more offer this supreme luxury of 8-cylinder smoothness.
- 6 STYLE**
In styling power, there is no car that can take the rough with the smoothlike Ford. There are more Fords on the highway than any other make of car. This sturdy Ford is made to take it!
- 7 COMPLETE ECONOMY**
Ford set the current modern trend in beauty of lines. And Ford's unequalled paint job makes its beauty permanent.

Grand Master Will Meet With Masons Of Southeast Texas

Leo Hart, Grand Master Grand Lodge of Texas, A. F. & A. M.

Several thousand Masons from southeast Texas will gather in Houston Thursday, April 4th, at 7:30 P. M. to attend a "Grand Master's Fellowship Meeting" to be held in the Scottish Rite Cathedral, Folk and Caroline Streets. According to R. A. Jordan, District Deputy Grand Master of the Houston District, this meeting, at which the Grand Master, Leo Hart of Gilmer, Texas, will deliver his message, will be the largest gathering of Master Masons ever assembled in the state of Texas with the exception of a Grand Lodge communication.

Following the address of the Grand Master, a Master Mason's Degree will be exemplified on the stage in the auditorium of the Scottish Rite Cathedral, using the scenery, lighting effects, robes and other properties of the Scottish Rite Bodies pertaining to the Degree. The Grand Master will confer this Degree, assisted by Past Grand Masters G. A. Brandt and John H. Crooker.

All Master Masons in southeast Texas are being urged to attend this meeting, and it is expected that members of the Fraternity within a radius of one hundred and fifty miles of Houston will be in attendance.

Freezer locker plants, or "safety deposit boxes for food" as they are called by the USDA Bureau of Home Economics, have increased from 1-269 in 1928 to 1,861 in 38 states on July 1, 1933, according to the producer-consumer leaflet, "Grow Your Own," recently published by the Agricultural Adjustment Administration.

Farm Purchase Loans Made In County

Two loans have been closed to purchase farms under the Tenant purchase act in Lynn County, and another loan has been approved. E. J. Hewlett purchased the Pat Swann farm 3 1-2 miles SE of Wilson and W. E. Dubree purchased the Parker farm near Redwine.

A loan will be closed in the near future for R. T. Moore who is purchasing the E. S. Pendleton farm 4 miles NE of Wilson.

Remodeling and rebuilding of improvements is expected to start in the near future.

Quality in hay really means feed value. The factors which affect quality include the maturity or ripeness, the percentage of leaves, and the color. It also includes amount of foreign material, such as weeds mixed with the hay, the size and pliability of the stems, and even the "smell."

In 1935 one-third of the tenant farmers in the United States moved to other farms. This involved movement of 5,000,000 people and cost an average of \$50 per family. In attempting to reduce the movement of tenant farmers, the Farm Security Administration is recommending flexible farm leases which are either automatically renewable or run for periods of more than one year.

Erosion has already cost United States agriculture around 10 billion dollars. If this waste is not stopped, the cumulative loss will be 25 billion dollars in another 50 years, or an average of \$4,000 per farm.

PLENTY OF MOISTURE ON PLAINS YET SOIL WILL BLOW

Winter snows have brought much-needed moisture to most of the Southern Great Plains region, but soil blowing may be expected this spring where crops failed last year or where fields are without sufficient protection from crop stubble and trash, warns E. R. Steen, technician of the Lamessa Soil Conservation Service.

JOHN GARNER LEADS PRESIDENTIAL RACE

Texas' distinguished favorite son—John N. Garner, the only Democrat to have announced unqualifiedly that he is a presidential candidate—is today the leading choice of his Party to succeed to the Presidency.

JOHN N. GARNER

Patriotic Texans will attend their own precinct conventions May 4 to record their support of their noted fellow Texan.

Past experiences show that the time to stop soil blowing is before it starts or as soon thereafter as possible rather than waiting until a large area has been damaged.

"Emergency or timely tillage is perhaps the only control measure against soil blowing that can be used at this season of the year," Steen says. "The purpose of such tillage operations is to check soil blowing after all other methods have failed."

"Soil moisture conditions for such tillage at this time. When the moist soil is turned up, rough clods are brought to the surface and produce an ideal condition to check the movement of soil."

Where tillage is on the contour, not only is soil movement checked, but the land also is placed in condition to catch and hold moisture. Emergency tillage operations are costly and afford only temporary control it is pointed out. Since this

is true, the furrows should be far enough apart to permit operations between them, yet close enough to prevent drifting between the ridges from spring rains which otherwise might be lost by run-off. "It takes moisture to produce crops, and it takes crops to stop soil blowing and dust storms," the Soil Conservation Service technician declares. "And in addition to stopping dust storms, farmers must produce crops if their farming activities are to be successful financially."

Many farmers have found that the growing of border strips of grain sorghums around their fields affords protection from blowing soil, Steen reports. "Where no such strips were grown last year, listing around the edge of the field may be done to check damage from soil blowing that starts on adjacent fields or roads. It is pointed out.

**KITE FLYING IS FUN—
BUT LET'S STAY AWAY
FROM THE ELECTRIC
WIRES!**

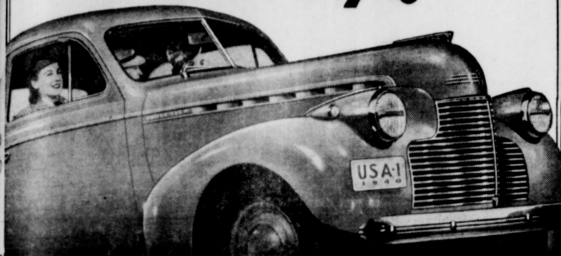

● Yes, youngsters, have all the fun you want flying kites, but pick out a nice open space to fly them... away from trees and electric wires that might tangle your kite.

But if your kite should get tangled in electric wires, DON'T try to get it down. You might get hurt. Call our office and a trained linemen will be sent to rescue the kite if it is possible to do so.

Another thing, NEVER use fine wire for a kite string as the wire might fall across an electric line and result in serious injury to you or someone else.

TEXAS ELECTRIC SERVICE COMPANY
C. E. CAMERON, Manager

YOU CAN PAY MORE -but why?

You can pay a lot more than the modest Chevrolet price for a motor

car. But you'll find yourself asking, "Where can I get any more beauty, driving and riding ease, road action, safety and all-round value than I get in Chevrolet for '40?" ... Particularly when you consider Chevrolet's extremely low prices and Chevrolet's exceptionally low cost of operation and upkeep!

The 1940 Chevrolet gives higher quality at low cost! . . . Low Prices . . . Low Operating Costs . . . Low Upkeep.

No other motor car can match its all-round dollar value

"A program of industrial development centers around the manufacture of raw materials into finished products"

Oil

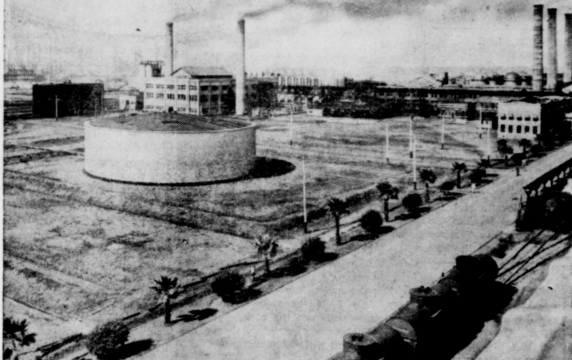

LOCATED in all sections of Texas, 141 refineries manufacture into finished petroleum products 80 per cent of the State's crude oil production.

In contrast, Texas processes only 3 per cent of its cotton production and none of its wool or mahar.

Petroleum refining now constitutes 41 per cent of the value of all Texas manufactures.

Of the 225,000 Texans regularly employed by the oil business of the State, 25,000 skilled workmen and 5,000 office employees (a \$50,000,000 annual payroll) are employed in this one division of our oil industry.

All of the Texas oil refined in our State, whether used in Texas or shipped to other states, paid last year in taxes an average of 9.8 cents per barrel.

This Advertisement Paid for by Various Units of the Industry and Sponsored by TEXAS MID-CONTINENT OIL AND GAS ASSOCIATION

Land Commissioner Giles Is Candidate for Re-election

W. M. Giles, State Land Commissioner, is one State official apparently firmly set for re-election during this year's political campaign as a result of the numerous achievements he has brought about during the first year of his administration: better Texas public schools and land owners.

Political observers report this is the way the Giles administration, during its initial year, has made improvements in the land

laws, has placed the operation of the Land Office on an efficient, business-like basis and restored confidence in the administration of this important State Department.

During his first year as Land Commissioner, Mr. Giles has succeeded in effecting major changes he

advocated to better safeguard the State public school land with its millions of dollars in revenue coming to the schools and to better protect land owners and the titles to their tracts.

Chief recommendations he made, urged and helped bring to enact-

ment by last year's Legislature, included creation of the new State School Land Board, revision of the land laws to give land owners a preference right to purchase or lease vacant land in or adjoining their holdings, and the strengthening of the law to curb vacancy racketeering and

land title clouding. Commissioner Giles won his sensational victory in the 1938 campaign with the promise to restore confidence in the administration of the Land Office and to sponsor needed legislation. After the election, he did not forget, political observers

point out, but immediately began working actively for the adoption of the recommendations at the 46th Legislature. Much of the credit for their adoption at last year's Legislature has been ascribed, by Legislative and State School leaders, to the work Commissioner Giles did

SOCIETY

MARRIAGE RITES FOR BEN MOORE JR. AND MISS WILLIAMS READ

Two pioneer families of two different states were joined when Ben Moore Jr., of O'Donnell, and Miss Deane Williams, of Caney, Kansas, were married by Dr. L. N. Lipscomb, pastor of the Lubbock First Methodist church, in that city Saturday night.

Mrs. Williams is the daughter of Mr. and Mrs. Lynne Williams, pioneer residents of Caney, while Mr. Moore's parents are early residents of this section.

The couple have secured an apartment in the Brock Apartments. Mr. Moore is employed by the Arizona Chemical company at the plant west of this city.

ENTRE NOUS CLUB MET MONDAY

Mrs. Charley Cathay was hostess Monday evening for the regular meeting of Entre Nous club. Easter appointments were used and refreshments of strawberry short cake and whipped cream were served.

Miss Ellen Wells won high score prize and Mrs. J. Mack Noble bingo. Present were Misses Claire Ruth Nichols and Beverly and Jim Ellen Wells, Mesdames Pauline Campbell, J. Mack Noble, Fay Westmoreland, Floyd Thompson and the hostess.

TUESDAY CLUB MET WITH MRS. FORGY

Additional guests at the Tuesday club this week were Mesdames Bedford Caldwell, George Harris, J. W. Davis and Fay Westmoreland when Mrs. William G. Forgy was hostess. Spring blossoms decorated the rooms, decorative appointments and colors on the refreshment plate stressed the St. Patrick motif.

Mrs. J. Mack Noble won high score prize and slam prizes were presented Mrs. Noble and Mrs. C. L. Hafer. Other than the guests were Mesdames Fred Henderson, Newell Hughes, Harvie Jordan, Guy Bradley, C. L. Hafer, J. Mack Noble, L. E. Robinson and E. T. Wells.

ACE-HI CLUB MET WEDNESDAY

Mrs. Homer Hardberger entertained Ace-Hi club members and guests at her home Wednesday. High score prize was won by Mrs.

J. W. Davis second by Mrs. Earl Howard and bingo to Miss Jim Ellen Wells.

A delicious salad course was served to Mesdames Bedford Caldwell, Hervey Gardenhire, Floyd Thompson, Geo. Oates, Earl Howard, Johnnie Billingsley, J. W. Davis and Miss Wells.

SEW AND CHATTER CLUB NEWS

Members of the Sew and Chatter Needle Club met Thursday afternoon at the home of Mrs. O. D. Harris with Mrs. Otis Harris acting as hostess. A former member, Mrs. Hollis Hunt of Lubbock was a guest. An attractive refreshment plate holding chicken sandwiches and frosted cakes was at the close of the afternoon to Mesdames: Cheairs, Conger, Treadway, Shumake, Miles, Middleton, Huff, Line, Hunt and the hostess.

The club adjourned to meet Thursday March 14 with Mrs. Fletcher Johnson.

MRS. McLAURIN HOSTESS FOR 1939 STUDY CLUB

For a very enjoyable meeting, members of the 1939 Study Club met in the home of Mrs. Waldo McLaurin Thursday March 7.

Mrs. John Earles, presided during the business session. Director for the program was Mrs. Burley Brewer, who very interestingly reviewed the book "Death Comes to the Archbishop" by Willa Cather.

Mrs. L. N. Nichols read an interesting paper on the book. The hostess served a dainty refreshment plate of punch, salad and cake.

Those present were Mesdames Earles, Carroll, Goddard, Koeninger, Middleton Moore Shoemaker, Blocker, Howard, Brewer, Nichols, Lambert, Wells and Higginbotham.

HARMONY H D CLUB

The Harmony Home Demonstration club met Thursday afternoon in the home of Mrs. Bob Austin. The subject of our meeting was "Foods our bodies require each day." Miss Phenix gave a food demonstration using canned beef, vegetables, cooked the vitamin rich modern way, and simple wholesome desserts. Plans for a frame garden were also discussed, a garden you can grow vegetables in almost the year around.

The meeting was enjoyed by several members and one visitor from Station. The club meets Thursday March 28 at 2:00 p. m. in the home of Mrs. J. H. Isaac. We urge all you ladies to come and learn with us.

CHURCH OF THE NAZARENE

The W. F. M. Society of the local church of the Nazarene met on Tuesday afternoon March 12 with Mrs. Fred Buchanan, president presiding.

Mrs. Jennings had charge of the study period.

Five members were present. Three visitors and children. Our next meeting to be March 26 in the home of Mrs. W. L. Fleming. We plan to quilt on that day.

The gracious hostess assisted by Mrs. Fleming served delicious doughnuts coffee and hot chocolate. Come be with us.

S. L. Henderson, Tech student spent the week end here with his uncle and aunt. Mr. and Mrs. Fred Henderson.

Mr. and Mrs. Raymond Busby of Brownfield visited relatives here Sunday.

Mr. and Mrs. Marshall Whitsett and Miss Thelma Palmer spent the fore part of the week in Ft. Worth attending the Fat Stock Show.

Mr. and Mrs. Bedford Caldwell and Philip visited their parents in Lubbock the past week end.

Mr. and Mrs. Guy Bradley attended the show "Grapes of Wrath" in Lubbock Saturday night.

CARD OF THANKS

We want to extend our thanks to all those who have been so good and kind to us in our hour of sorrow. We feel that the Golden Rule has been fulfilled. May each of you have such kindness and friendship expressed to you in your trying hours and may life's richest blessings be yours.

Mrs. S. O. Nowell and children
