STRANGE COINCIDENT  
An employee of the O'Donnell Index-Press was given a ride on the highway not long ago. It was down in the Hill Country. The driver asked me where I was going—I said up to O'Donnell, Texas. I rode with him several miles. He said he had kinfolk at O'Donnell and wondered if I would mention his name in the paper. "My relatives take the paper. It would be a surprise to them". The man's name is FRITZ SAYESER, box 44, Harper, Texas.  
Mr. and Mrs. Eldon Burleson of Los Angeles are visiting his sister, Mr. and Mrs. John Tidwell.

Need Birth Certificates For School  
Attention parents: It's later than you think.  
This comes from W. D. Carroll, state registrar, whose vital statistics staff at the State Department of Health is responsible for handling the flood of requests for birth certificates for children entering school for the first time this September.  
Carroll's problem is this. There is a tendency among parents to put off requesting copies of their youngsters' birth records until the last moment. When too many parents delay in this manner, the results are obvious: a work overload.  
The condition does not result from any lack of effort on the part of Carroll's staff. "Our limited Vital Statistics Division staff—despite long hours of night and week-end work—can process just so many requests before school begins," he explains.  
More than 262,000 children are expected to enter elementary schools of Texas for the first time this fall. The estimate is based on calculations made by the Texas Education Agency.  
A good many parents—some of whom may have waited too long in past years—have already requested and received birth records on this year's new scholars, but tens of thousands of additional records will have to be processed between now and the time that first school bell rings in September.  
More than one youngster has been forced to postpone his first days at school simply because his parents couldn't produce proof of his age when it came time to register him.  
Carroll's advice to parents: "Send in your request today to the local registrar, county clerks, or the State Department of Health."

## Co-Op Divides \$71,000 Saturday

Carl Sanders was renamed to the Board of Directors of O'Donnell Farm Co-Op Saturday at that group's annual meeting at the grade school cafeteria. A delicious meal was served at noon. 516 plates were served. About \$71,000 in dividends was distributed among the members.

## 3 Caught in Liquor Raids

Dep. Sheriff Frank Lindsley reported three local Negroes arrested Thursday afternoon and Saturday for illegal sale and possession. The cases were worked up by Liquor Control Agents. All were residents of the Plains and are out on bond. There has been a general increase in enforcement on the Plains.

## Revival Opens Sunday

Dr. Dallas D. Denison, superintendent of Brownfield District of the Methodist Church, will be the guest preacher for an Evangelistic Crusade at First Methodist Church O'Donnell.  
Services will be at 7:30 p. m. and 10:00 a. m. on week days. First services will be Sunday morning, August 28 and close on the following Sunday.  
This will be the first revival in the new Sanctuary and everyone is cordially invited to attend.

## SCATTERED SHOWERS

Scattered showers fell over the area during the past week. The amount of moisture which fell was extremely variable. However, the cloud cover and showers kept temperatures down over most of the area. These conditions were not the most favorable for cotton growth. Bacterial blight is alarmingly bad in many cotton plantings.  
Fleashoppers continue to be found in varying populations from light to heavy in the cotton fields of the area. Lack of damage continues to be common even where large numbers of fleashoppers are present. Before control measures are taken the estimated length of the remaining season should be considered to prevent protecting cotton forms forms which will not have time to mature.  
Bollworms and bollworm eggs were found in increasing numbers in cotton plantings over the area. Heaviest populations of eggs and bollworms were found in Dawson, Mitcheil and the northeastern part of Crosby counties. Medium infestations were reported in Martin, Dawson, Garza, Gaines, Reeves, Reagan, Mitchell, Crosby and Midland counties. Other counties reported an increase in bollworm miller activity and bollworm egg counts in cotton plantings. With these facts in mind cotton plantings should be checked closely and control measures taken when the population warrants it. Control is most satisfactory when the worms are small and active.

Cabbage loopers continue to build up in some areas and are causing considerable ragging of cotton plants. Control measures have been taken in Garza, Lynn, and Midland counties. Heavy to medium populations of loopers and looper eggs are reported in Reeves, Martin Midland, Lynn, Lubbock, Garza, and Terry counties. Reports of heavy egg mortality have been received.  
Cotton leafworms were found in light infestations in Yoakum, Floyd, Hall and Presidio counties. Light infestations of aphids, red spider mites, cotton square borer, grasshopper, and boll weevils were reported this past week.

The "Cotton Insect Situation Release" will continue its circulation this season until it is apparent that this area is "over-the-hump" as far as cotton insect pests are concerned. In order to accomplish this, we are asking that your reports continue to be sent in.

## Information For Parents Of First Grade Pupils

Monday, August 29th, is registration day for first grade children. All grade children should be accompanied by a parent even though he is pre-registered.  
This is a regular school day and the children will remain in school until dismissal time.  
Be sure the child has a birth certificate on file or bring his birth certificate with him.  
Since the child will remain in school after registration, it would be well to have him bring along his crayons and a pencil — other supplies may be purchased later.

Mr. and Mrs. Shook and family of Wichita Falls visited their daughter, Mr. and Mrs. Bill Autry and Donna Jo over the week end.  
Mr. and Mrs. Roy Line and Becky Brunett are visiting relatives in Shreveport, La., Houston, Gatesville and Neocoma.

### Poison Control Centers--

A poison control center (PCC) is a place which helps family doctors keep patients from becoming statistics.

Each year a hundred or so Texans...mostly children...become statistics by virtue of being accidentally poisoned. In the last four years State Health Department record keepers have added 364 new names to the grim list of deaths by poisoning. PCC's undoubtedly have kept the list from being much longer.

Fifteen PCC's now operate in Texas under local physicians' guidance. The most recent one was set up in San Antonio July 18. Others are located in Abilene, Austin, Corpus Christi, Dallas, Fort Worth, Galveston, Grand Prairie, Houston, Tyler, Wichita Falls, Odessa, San Angelo, and Waco.

Hugh D. McGaw, a State Health Department occupational health engineer who works intimately with them, describes a PCC's round-the-clock operation like this:

"A curious youngster eats some of his mother's cosmetics and it makes him sick. His mother calls the doctor, but he doesn't know what toxic ingredients the cosmetic had in it. So he calls the nearest PCC, reports the brand name. A quick check of an index card reveals the toxic substance and the antidote."

Twelve of Texas' 15 PCC's are equipped to provide emergency treatment, in addition to supplying detailed information on antidotes on a moment's notice.

# NEW TRACTORS COMING!

Yes, the rumors are true that John Deere will soon be announcing a new line of tractors. We'll be previewing them at "Deere Day in Dallas" August 30. What's more, we've been told that these new tractors represent an amazing leap forward in power farming—an advance so progressive that it sets an all-new high in tractor performance, ease of handling, and operator comfort. Watch for our announcement date when we return from Dallas. We are looking forward to showing you firsthand what these tractors are going to mean to you in greater production, lower labor costs, and more leisure time.

"These trails would shake the cab off an ordinary truck...but not our Chevy"

Few trucks are subjected to the body-wracking beatings that are part of a day's work for this Chevrolet Series 60 pulpwood hauler. It's owned by J. E. Fox, North Carolina logging contractor. As Bobby Fox, a partner in the business says, "Loaded with pulpwood, we drive over stumps and potholes you'd think would tear the truck to pieces. These trails would shake the cab off an ordinary truck, but not our Chevy. We can average an extra load a day... make \$45 to \$50 a day more with this Chevy than we can with the others."

In every weight class these Chevies are doing more work at less expense than trucks have ever done before. Drive one at your Chevrolet dealer's. It's an experience that could pay you big dividends.

"That 6-cylinder engine really performs," says Bobby Fox. "It's got the lugging power we need in the woods and walks right along with a full load on the highway."

### Proposed CONSTITUTIONAL AMENDMENT NUMBER TWO ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1960.

SENATE JOINT RESOLUTION NO. 8 proposing an Amendment to Section 49-b, Article III of the Constitution of Texas, increasing to three and one-half percent (3-1/2%) the maximum permissible interest rate on bonds hereafter issued by the Veterans' Land Board; providing for an election and the issuance of a proclamation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 49-b, Article III of the Constitution of Texas, be amended by adding thereto the following:

"The foregoing notwithstanding, bonds hereafter issued by the Veterans' Land Board pursuant to the authority of this Section 49-b of the Constitution may bear a rate or rates of interest not to exceed three and one-half percent (3-1/2%) per annum.

"This Amendment shall become effective upon its adoption."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at an election to be held throughout the State of Texas on the first

Tuesday after the first Monday in November, 1960, at which election all ballots shall have printed thereon the following:

"FOR the Amendment to Section 49-b of Article III of the Constitution of Texas by adding thereto a provision authorizing the Veterans' Land Board to issue the bonds authorized under such Section to bear interest at a rate or rates not to exceed three and one-half percent (3-1/2%) per annum."

"AGAINST the Amendment to Section 49-b of Article III of the Constitution of Texas by adding thereto a provision authorizing the Veterans' Land Board to issue the bonds authorized under such Section to bear interest at a rate or rates not to exceed three and one-half percent (3-1/2%) per annum."

If it appears from the returns of said election that a majority of all votes cast were in favor of said Amendment, the same shall become a part of the State Constitution and be effective from the date set forth in said Amendment, and the Governor shall issue a proclamation in keeping therewith.

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election, and shall have the same published as required by the Constitution and laws of the state.

### NUMBER FOUR ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1960.

HOUSE JOINT RESOLUTION NO. 8 proposing an Amendment to Section 11, Article XVI of the Constitution of the State of Texas, so as to give the Legislature authority to classify loans and lenders, license and regulate lenders, define interest, fix maximum rates of interest, and provide for a maximum rate of interest of ten per centum (10%) per annum in the absence of legislation setting maximum rates of interest; providing that the rate of interest shall not exceed six per cent (6%) per annum in contracts where no interest rate is agreed upon; providing for the right of appeal and trial de novo in the event any regulatory agency cancels or refuses to grant any permit; providing for the necessary election and the form of the ballot; and providing for the necessary proclamation and publication.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 11, Article XVI of the Constitution of the State of Texas be amended so as to hereafter read as follows:

"Section 11. The Legislature shall have authority to classify loans and lenders, license and regulate lenders, define interest and fix maximum rates of interest; provided, however, in the absence of legislation fixing maximum rates of interest all contracts for a greater rate of interest than ten per centum (10%) per annum shall be deemed usurious; provided, further, that in contracts where no rate of in-

terest is agreed upon, the rate shall not exceed six per centum (6%) per annum. Should any regulatory agency acting under the provisions of this Section, cancel or refuse to grant any permit under any law passed by the Legislature; then such applicant or holder shall have the right of appeal de novo as that term is used in appealing from the Justice of peace court to the county court."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Tuesday after the first Monday in November, 1960, at which election all ballots shall have printed thereon the following:

"FOR the Constitutional Amendment giving the Legislature authority to classify loans and lenders, license and regulate lenders, define interest and fix maximum rates of interest; and providing for a maximum rate of interest of ten per centum (10%) per annum in the absence of legislation fixing maximum rates of interest."

"AGAINST the Constitutional Amendment giving the Legislature authority to classify loans and lenders, license and regulate lenders, define interest and fix maximum rates of interest; and providing for a maximum rate of interest of ten per centum (10%) per annum in the absence of legislation fixing maximum rates of interest."

Sec. 3. The Governor shall issue the necessary proclamation for the said election and have the same published as required by the Constitution and laws of this State.

**TEETH REPAIR IS A FREQUENT NEED**

There's a one to five chance your youngster needs a major teeth straightening job, since an estimated one-fifth of the nation's children suffer from "malocclusion", or improperly alignment of teeth.

A generation ago, parents of young children with teeth which did not meet properly were usually advised to "let them alone and nature will correct the situation."

Today we know better. Malocclusion is a condition to be corrected by a dental specialist known as an "orthodontist." Nature by herself is a very poor straightener of crooked teeth.

Although the public is just now becoming aware of the health significance of malocclusion, experience has taught dentists that crooked teeth contribute to decay, faulty speech and malnutrition. One of the worst results of malocclusion is the psychological stress borne by a child singled out for ridicule by his friends because of "buck teeth."

A child with facial deformities such as those caused by misshapen teeth may develop traits in inde-

Nothing smells better on a soft summer evening than a steak or chicken cooking over a charcoal fire but an accident can easily spoil an otherwise pleasant occasion if the "grill-chef" becomes careless, says W. L. Ulrich, extension agricultural engineer and safety expert. Never use gasoline, paint thinner or any other highly combustible fluid to kindle charcoal and if lighting fluid is used, follow the manufacturer's recommendation, advises Ulrich.

(Composed and written by a friend—Mrs. L. R. McMillion)  
A loved one has gone from this earth to find a resting place. Her friends and loved ones here will miss her smiling face.

She was loved by everyone . . .  
There sits her vacant chair.  
God in Heaven called her home—  
To meet her loved ones there.  
Dear children as you journey on  
We know it's hard to bear,  
But be thankful you can say:  
Mother's a beautiful angel there.  
Don't grieve for her, Dear Sisters—  
As she lies beneath the sod,  
For all who knew and loved her,  
Knows Mother Simpson has gone to  
Meet God.

Cotton root rot losses can be reduced. A combination of practices carried on for a number of years is necessary for best results, says Harlan E. Smith, extension plant pathologist. He advises planning several years ahead.
