Most Drinking Starts Before College Days

NEW HAVEN, Conn .- Four out of every five college men who drink began their drinking before entering college, a researcher at Yale University's laboratory of applied physiology reported recently.

Robert Straus, research associate, disclosed for the first time preliminary results of a five-year study into the drinking habits of American college youth. This study was made by Mr. Straus and Selden D. Bacon, director of Yale's center of alcohol studies.

Of the American women students who drink, 65 per cent also started drinking before entering college, Mr. Straus said.

"The probability that a young person will drink at all," he continued, "is closely related to the practices of his or her parents.

"Of the men whose parents both drink, 90 per cent are themselves users. However, only half of the men (51 per cent) whose parents

Where both parents are users, 83 per cent of the women drink on occasion. However, when both parents abstain, only 19 per cent of the women students drink."

He declared that parental advice on abstinence seems to be much stronger than advice from either church leaders or teachers.

Family income is a large factor 'closely associated with the probability that one will use alcohol. Among those whose family income is under \$2,500, two thirds of the men and only 30 per cent of the men students drink.

Better living is ready and waiting in homes that display this MEDALLION

Right from the start, you'll enjoy electrical comforts and conveniences you've always wanted . . . in a Medallion Home. The Medallion identifies homes that are wired and equipped for modern electrical living with . . .

FULL HOUSEPOWER — properly planned wiring and plenty of outlets and circuits for the appliances you own now and those you may want to add later.

WORK-SAVING ELECTRIC APPLIANCES - including an electric range; electric bathroom heating and at least three additional major electric appliances.

LIGHT FOR LIVING - properly placed fixtures for beautiful, efficient, sight-saving light. Light for living is planned lighting, based on the needs of the home.

Only new or remodeled homes that meet modern high standards for electrical living can display the Medallion. Look for it when you choose your home!

In just five minutes, we Ford Dealers will show you how to save over one hundred dollars a year in operating costs with America's lowest-priced, full-size 6-passenger car (including the equipment most people want) and we'll give you a free copy of this folder to prove it!

AQUARENA, San Marcos, Texas — Lovely Aqua-miss Helen Schneider is shown above with her swimming partner "Missy". Both Helen and Missy take part in underwater shows conducted by the World's Only Submarine Theatre at AQUARENA. Yes, Missy is a pig and she really swims!

COSTS LEAST TO BUY

COSTS LEAST TO DRIVE

You can ride in this rich-looking '61 Fairlane ... with radio, heater and automatic transmission . . . for less than the price of any other full-size, 6-passenger car in the U.S.A.

In fact, this car is priced nearly \$100 below some of the compact cars.*

And mind you, this amazing low price brings you a car that's Beautifully Built to Take Care of Itself. That means you'll save plenty in operating costs-save more than with other 1961 full-size cars.

Figure it out for yourself with our FREE fact-filled folder, "Here's Proof—." At the same time, get our unbeatable SAVE-MOST DEAL on a '61 Ford Fairlane-for a limited time only. Don't waste another day or another dollar. Come test-drive a cost-cutting, new '61 Fairlane today!

HERE'S HOW THE '61 FORD TAKES CARE OF ITSELF

Lubricates Itself—You'll normally go 30,000 miles between chassis lubrications (which cost only about \$4.00 and take about 20 minutes) because Ford has replaced conventional grease fittings with a sealed-in lubrication

Cleans Its Own Oil—You'll go 4,000 miles between oil changes because Ford's Full-Flow oil filter gives you filtration through fibres . . . trapping more dirt than any other type of filter made.

Adjusts Its Own Brakes-New Truck Size brakes

Guards Its Own Muffler-Ford mufflers are double-wrapped and aluminized—to last three times as long as

Protects Its Own Body—All vital underbody parts are specially processed to resist rust and corrosion, even to galvanizing the body panels beneath the doors. Takes Care of Its Own Finish-New Diamond Lustre

When a comboy wanted to praise a man for his ability and honesty, he was appraised as having been "measured a full sixteen hand high"

A cowboy who was completely disgusted was described as "lookin' for a dog to kick."

The dreaded season in the cattle country, from the middle of Febru-ary to the middle of April, when the insects are at their worst is often called "neel fry time."

"Kidney pad" or "kidney plaster" was the contemptuous name the cowboy gave the small riding saddle often used by Easterners.

When a cowboy said that another man had "cut his picket pin and drifted." he meant that the man had left for parts unknown on his own free-will and under no compulsion.
