Improvements To Start On Streets of O'Donnell

The late rains and heavy traffic have put the streets in such a condition that relief was demanded by the citizens and a special meeting of the City Council was held Wednesday afternoon to devise ways and means of placing the streets in better condition.

Since there were not sufficient funds in the treasury to make a showing, it was decided to start work grading the streets and providing drainage for the storm water and pay for the improvements by issuing warrants.

With a view of paving the streets at some future time by a bond issue, all grading will be under the supervision of a competent engineer and will be raised to a permanent grade.

The members of the council are to be congratulated upon making this wise move and the Index believes that their action in the matter will meet the approval of every taxpayer who wants to see the town advance.

Harvey Everette, who left for Tampico, Mex., a couple of weeks ago, writes that he will probably go to South America on a three years' contract as manager of a large cattle ranch in Brazil.

Robert Clements returned from a two-months visit to Emory this week. Bob has decided not to marry his Emory girl but will give some O'Donnell angel of mercy a chance to cook his biscuits.

After having been a valuable employee of the Index since its first issue, which was published nearly two years ago, Ward "Buck" Taylor took his dictionary and left Tuesday for his old home in Jefferson. Buck states that he will spend his time there boosting for O'Donnell and telling his old friends goodbye forever and will return soon.

Boy Scouts Return from Camp

The Boy Scouts returned last Saturday morning from their camping trip on the Ruidoso river, New Mexico. The boys were tired, sunburned and hungry to see their mamas and papas, but otherwise were in fine condition and bubbling over with enthusiasm over the fine time they had had while away.

Camp was broken on Thursday noon and the party started for home, spending the first night at Roswell at the Country Club and were the guests of the Boy Scouts. A fine hot supper put the boys eager for a swim in the large lake. After breakfast the next morning the return trip was continued and after many tire blowouts and other car mishaps, the boys reached home as above stated but the truck was left in Tahoka for repairs.

In the party returning were, T. J. Kellis, chaperone; Loftin McGill truck wrangler, and Boy Scouts Lee Vaughn, Sam Singleton, S. F. Singleton, Arthur Singleton, Cecil Foster, L. J. Hohn, Warren Smith, J. Y. Everett, Claude Tate and Lowell Pugh.

Ralph Beach, Cecil and Alvis Tredway, who accompanied the party on the outgoing trip, had previously returned with their parents. Charley Wagner also left camp before it broke to accompany his parents on a visit to El Paso. Scout Fritz is still out with his parents on a camping trip at Hot Springs, N. M.

Our boys compared favorably with the 174 boys comprising the party, Claude Tate and Cecil Foster receiving special merit badges for their efficient Boy Scout work.

Not a mishap occurred to mar the pleasure of the trip.

Tom Mix Heads Program at State

In keeping with the policy of the motion picture industry to make the coming months a greater movie season, Manager Sanders of the State Theatre has booked the best pictures on the market, and to start the season off right he has secured for Monday Tom Mix's latest picture entitled, "The Deadwood Coach." It is a story of the early days in the Dakotahills and it will please the most critical audience.

Tuesday and Wednesday, Leatrice Joy will be seen in one of the Paramount Famous Forty pictures entitled "Changing Husbands."

Thursday and Friday, none other than the lovable and unimitable glorious Gloria Swanson will be shown in one of the best pictures of her career entitled, "Manhandled."

On Saturday, an old favorite western star, Art Acord, will be seen in a fast and furious drama of the west entitled, "Fighting for Justice."

Fire Destroys Home of W. C. Sauls

Fire originating from the explosion of an oil stove destroyed the home of W. C. Sauls Sunday afternoon. Only a small amount of the furnishings was saved.

Mrs. Sauls was sick in bed and Mr. Sauls had lighted the stove to heat some water and left it for a few minutes. Upon returning to the kitchen he found it in flames. His first thought was of Mrs. Sauls and he carried her out of the burning building, later returning and saving all he could of the household goods. No insurance was carried.

The building was owned by A. D. Brown, who recently purchased the Fuller gin, and was used as a home for the manager, which position Mr. Sauls occupied. No insurance was carried.

Luckily the wind was in the east or the ginning plant would have been destroyed, the building being situated just to the south of the gin.

Mr. and Mrs. J. R. Moses and daughters, Lola and Fannie, of Lampasas, have been the guests of their son, C. W. Moses and family this week. This being Mr. Moses first trip to the South Plains, he is agreeably surprised at the wonderful transformation that is taking place along agricultural lines. He believes that the country is only in its infancy and when the proper system of crop diversification is worked out it will support a great population.

Miss Mary Yeatts of Josephine, visited her uncle and aunt, Mr. and Mrs. E. D. Yeatts first of the week. She was on her return from a trip to California.

Great Revival For O'Donnell

Perhaps the greatest revival meeting ever held in O'Donnell has been under way during the past ten days under a large tent, the preaching being done by Evangelist L. C. Garrison, Baptist, and the song service under the direction of H. Ellis Ogden.

The tent has been well filled at each service and many manifestations of sinners turning a new leaf and embracing Christ had, with a large number joining the church.

Evangelist Garrison is a forceful preacher, expounding the gospel in a manner so simple that a child can grasp his teachings. His work in O'Donnell will live and bear fruit for years and years.

The meeting will close Sunday night.

Gentle Sky-juice Drips From Heavens

Skyjuice, good old wet skyjuice, has been dripping out of the heavens the past week upon the place beneath and the crops are jumping to maturity. The total precipitation in O'Donnell has not amounted to an inch, but in the outlying districts it was greater, giving all the moisture needed to fully mature the early cotton and feed.

Cotton on some of the farms is beginning to open and it is predicted that the first bale will be ginned about September 15.

Early feed is practically made in and some instances the harvest is under way.

Truly, the god of skyjuice has been kind to the South Plains country this season.

Scout Executive H. B. Palmer and 1st Vice-President K. N. Klapp of the South Plains Council of Boy Scouts, were visitors Wednesday in the interest of the O'Donnell Boy Scouts. These gentlemen were heartily gratified to find our boys so enthusiastic over their recent camping trip at Ruidoso Springs, N. M., each expressing himself as having had the best time of their lives while on the trip.

While here the executives arranged for a campfire circle to be held on next Tuesday night when a big time will be had. The affair will be staged on the vacant lots where the Baptist tent is spread and not only all Boy Scouts and their friends, but the public in general, are invited to be present and witness a real campfire program.

The band will play during the evening, and besides Mr. Palmer, other prominent leaders in the Boy Scout work, will be present and take part in the program. The Boy Scouts of Tahoka and Lamesa have been invited to attend.

Don't forget the date of this meeting—Tuesday night.

John R. Burkett sold his jewelry and watch repairing business to J. H. Ellis this week. Mr. Burkett will devote his entire time to his farming interests.

Mrs. S. V. Edwards and son, Albert, of Balmorhea, Mrs. Dr. N. C. Austin of Richland, Ga., and Mrs. M. N. Edwards of Americus, Ga., were the guests of the son and brother, A. F. Edwards, and family. They were charmed with the country.

O. M. Hurst of Strawn, was a business visitor Saturday.

Tom Nunally is home again.

Mr. and Mrs. Cranfield of Gail, visited John Smith Sunday.

Mr. Pierson and family left first of the week for Haskell county. Mr. Pierson's brother came up after them to have them help pick cotton. He reports crops fine down there.

G. W. T. Hightower and wife left Tuesday for Hopkins county to visit relatives, expecting to pick cotton on their return home.

Misses Floren and Gertrude Wilcox were the guests of Merle and Juanita Claburn Sunday.

The Methodist meeting is running overtime. Five conversions have been had to date. The meeting has been a spiritual uplift to this community.

Crops are looking better each day. Tredway is going to make a fair crop after all. We have cotton from half knee high to waist high. With a late frost we will never know we had a drought. Old feed is suffering out and will make pretty good feed. All young feed is fine as can be. I was over Lynn, Terry and Gaines counties last week and crops are better as a whole than at this time last year.

O'Donnell will gin 3,000 more bales than last year. Jay Bird.

Mrs. Cull Hart and little daughters, Mavis and Sarah Ann, returned from a week's visit with relatives at Abernathy Wednesday.

Bosque County Man Locates

L. H. Allison is a new arrival from Bosque county. After giving the country the once over, he decided to locate and become a factor in its upbuilding. Mr. Allison has formed a partnership with G. F. Patterson and they will engage in the real estate business, having the entire Southplains as their territory, but will specialize in Lynn and Dawson county lands. They have already listed a number of farms for sale and with the extensive advertising campaign they will put on, they will be the means of bringing many prospective farmers to the country. Offices have been secured in the Warren building.

Mr. Allison's family is temporarily located in Lamesa but as soon as he can secure a home he will move here to reside permanently.

Style Shoppe Receiving Fall Stock of Goods

According to Mrs. S. D. Singleton, who has returned from market to purchase fall and winter stock for the O'Donnell Style Shoppe, there will be no need for any lady in the O'Donnell trade territory to send away for a thing this season, having purchased heavily and selectively of everything included in mi lady's wardrobe.

The Style Shoppe is daily receiving its new goods which includes the latest creations in dresses, hats, silk underwear and notions. The dresses on display are exceptionally pretty and are mostly of high grade material.

Tomlinson Making Improvements at Barbershop

C. L. Tomlinson has started extensive improvements on his barbershop. He will remove the adobe front and back of the building and replace the walls with brick. He will repaint the interior and install new furnishings, including individual lavatories for each of the five new chairs.

Mr. Tomlinson says the increased business of his shop demands this expansion and he intends to keep neck and neck with the growth of the town.

Guyes Return From Fall Buying Trip

Mr. and Mrs. W. D. Guye are home from Fort Worth and Dallas where they had been to buy their fall and winter stock of dry goods. They report that they found the market firm and consequently purchased heavily in all lines, especially in ladies ready-to-wear, hats and millinery.

The new stock is arriving and on account of everything being of the latest styles and fabrics, the goods are attracting much attention.

Mr. and Mrs. D. W. Harris went up to Canyon last week to bring home their daughter, Miss Mabel, who has been attending the State Teachers College. While away Mr. Harris attended the district meet of the farmers bureau at Plainview.

Ford Changes Policy of Dearborn Independent

A change in the policy of Henry Ford's publication, the Dearborn Independent, has been announced. Advertising will be accepted beginning with the October 3, 1925 issue of the Magazine.

The Dearborn Independent has not carried a line of paid advertising since it has been the property of Mr. Ford and the change in policy reflects a growing feeling on the part of the public to expect as a buying guide a certain amount of advertising in magazines of its choice.

However, advertising in the Dearborn Independent is to be kept within certain definite limits. Under the new policy the magazine is to be increased in size 32 pages to 48 pages but the amount of space available in each issue will be only thirty-three and a third per cent of the total space inside, or, in the 48 page magazine only 16 pages will carry advertisements, exclusive of covers. This rule is said to be unique in the publishing field. Other requirements are made

relative to the kind and nature of advertising which will be acceptable.

Archie, Chester and Claude and Miss Lola Landess, Kelly De Vore and Vey Crossland of the Pride community, left Tuesday for a few days visit with relatives and friends in Coleman county.

Donnell Defeats Loop In 10 Inning Game

Those attending the ball game at Pride last Saturday played by the O'Donnell and Loop teams, state that it was the best game ever played in the little city, the score standing 5 and 5 at the end of the 9th inning. However, in the 10th O'Donnell chalked up an additional score to its credit and won the game.

The Loop boys immediately issued a challenge to the winners which was accepted and the game will be played in O'Donnell Saturday afternoon at 3 o'clock. Loop boys are going to try to win the game and it is expected that some fast playing will be seen.

While returning from a professional call in the Tredway neighborhood last Saturday morning, Dr. and Mrs. C. P. Tate came near running over a man who had gone to sleep in the road. At first Dr. Tate thought that the man was a sack and paid little attention to the object until within a few feet, when Mrs. Tate screamed and he saw that it was a human being. He swerved the car sufficiently to miss the man's head but ran over the heel and sole of his shoe. They stopped the car and found that he had lain down to rest in the road and had fallen asleep and was not awakened until the car passed over his foot.

L. D. Tucker visited his farm southwest of town Monday and reported that a one-inch rain fell on Sunday night. He estimates that the section will produce 300 bales of cotton and that there is a splendid chance for even a greater yield if nothing happens to stop the growth of the plants.

Bill Jones, who says he has so many initials tied on the front end of his name that they have made his life a burden in trying to carry them, is back from old Williamson county and will soon live down the disgrace of having left O'Donnell. He is here to stay this time.

**Uneasy
Tight Feeling**

"I used Theodford's Black-Draught first for constipation," said Mrs. C. E. Buntin, of R. F. D. 5, Starkville, Miss. "I would feel dull, stupid, and have severe headaches, even feverish. I had an uneasy, tight feeling in my stomach. I read quite a bit about

BLACK-DRAUGHT

Liver Medicine

I began using it and soon my bowels acted regularly and I was greatly relieved. I used it every once in a while for about 18 years.

"About two years ago I found I was having indigestion, a tight smothering in my chest, then severe pain, especially after eating sweets. I commenced taking just a pinch of Black-Draught after meals, and by doing this I could eat anything.

"I gave Black-Draught to my children for colds and headaches. I can certainly recommend it."

Black-Draught is used, with satisfaction, by millions. Get Theodford's.

Another Store Opens For Business

Another store was added to the town's business district this week when Noret Bros. of Lamesa, leased the Brinson brick on Eighth street and opened with a stock of army goods, new and second hand furniture and variety goods. The store will be operated under the management of J. D. McElhanon, who has been a resident of O'Donnell for the past several months, having managed the Independent Market.

Mr. McElhanon states that he will soon have the store stocked with everything needed for the home and asks the public to pay him a visit.

Judge Wright of Dallas, is spending a few days at his ranch southeast of town.

O'Donnell Boy In News Picture

Those who attended the State Theatre last Friday night had the pleasure of seeing an O'Donnell boy in the person of Wyeth Wilson flashed on the screen in the Fox news reel. The picture showed Wyeth as a member of the guard of fifty-seven marines who are acting as a special guard to President Coolidge at Swampscott, Mass.

Wyeth Wilson is the son of Mrs. A. C. Wilson who lives east of town. Those who were acquainted with Wyeth easily recognized him and were delighted to know he had attained this high honor. You can always depend upon an O'Donnell boy to make good wherever he goes.

FEDERAL RESERVE HELPS FARMERS

How Its Aid to England's Return to a Gold Standard Benefits American Agriculture.

By M. A. TRAYLOR
Second Vice President American Bankers Association.

There has been no more important event for the American farmer and stock man since the Armistice than the recent return of Great Britain to a gold standard. It seems a long distance from the Montana farm to the gold vaults of the Bank of England, but the price the farmer gets for his wheat and cattle depends not a little on that gold.

The farmer sells his wheat to the elevator man and yet the real buyer, in many cases, is an Englishman, a Frenchman, a German, or an Italian. About one-third of the wheat crop is usually sold abroad and this part is a large factor in fixing the price of the entire crop. Between the farmer and the foreign buyer there are many steps. In recent years the most important step has been that at which the foreign buyer has to pay the American exporter, for the international mechanism of payment has been badly out of order because Europe was off the gold standard. It was just as though an English buyer drove up to your farm house, bargained for your wheat and drew up the contract. But when you discussed payment, he said: "I'm sorry I haven't any good United States money to pay you with; I'll have to pay you in my English paper money, which isn't worth its face value in gold. I don't know what it may be worth next week, but that is your risk."

A Deadly Foe of Trade
How many would be willing to sign contracts on this basis? Yet that is the way most of the world's trade has had to be carried on since the Armistice. In practically all countries except the United States the currencies have had no fixed value in gold, but have changed in value from day to day. Whenever one country sold anything to another country, somebody had to take the risk of loss because the value of the money might change before payment was made. Such uncertainty of payment is a deadly foe of trade, and people were afraid to do any larger international business than they had to.

Exports of food stuffs from the United States fell from two and a half billion dollars in 1919 to eight hundred millions in 1923, and the difficulties of European buyers in making satisfactory payment for American farm products was one of the large factors in the drop in the prices of farm products. But now the recent action of Great Britain in declaring that it will again redeem its paper money in gold means that British buyers of American products can pay for them with money which is accepted the world over at its face value in gold. With the return of Great Britain to the gold standard, a majority of the countries of Europe have paper currencies equal to gold.

How Reserve Banks Helped
American bankers have assisted in the British return to the gold standard by giving a \$100,000,000 credit to the British government. But more important than this was the action of the Federal Reserve Banks in granting the Bank of England material co-operation. They placed \$200,000,000 gold at the disposal of the Bank of England for two years, to be used by it, if necessary, in maintaining the gold standard. The readiness of the Reserve Banks thus to co-operate was an important influence in the willingness of the British to take this all important step.

This action of the Reserve Banks was a most constructive step in aid of American farmers and producers who will benefit greatly by the removal of this element of uncertainty from their export transactions. If all the sins of omission and commission charged against the Federal Reserve System by banker, business man, live stock man or political blatherskite in the last five years were true, and practically none of them are, the service rendered commerce and industry by the System in connection with the restoration of the gold standard in so large a part of the world would far outweigh any mistakes that those in charge of the System may have made. No banker, business man or farmer should permit any self serving declaration by favor seeking demagogue to swerve him from a determination to see that the System is maintained for the future welfare of the country.

Fundamentally conditions are very sound and we are doing a very large volume of business, no little part of which is due to the equalizing and stabilizing effect exercised by the Fed-

M. A. Traylor

and Reserve system on the credits of the country. Throughout all the stress of the last five years there have been no times of either stringency or plethora of bank credit. Rates have run along on a rather level keel and in my judgment have had much to do with the stable volume of business which we have enjoyed, and which is quite contrary to the old experience of the aftermath of panics. With a credit structure such as only the Federal Reserve System can guarantee, I feel we need have no apprehension but on the contrary sound optimism for the future.

INTERNATIONAL SYSTEM
LONE STAR
PORTLAND CEMENT

Consistent Growth—

A Real Test of Supremacy

From a small mill operating on half-time to two modern mills operating twenty-four hours daily throughout the year—
From a yearly production of 800,000 sacks to one of 9,000,000 sacks annually—an increase of over one thousand per cent—is a record of the growth of the Texas Portland Cement Company.

This permanent, steady growth—an infallible guide to supremacy—is a direct result of the silent tribute which discriminating contractors and builders pay to a super-grade product.

The famous International Wet-Blending Process used in the mills of this company is regarded as the last word in production efficiency. Under this system, the chief chemist and mill superintendent can always come within 1/10 of 1% of the quality at which they aim.

LONE STAR Cement has a quality 50% above that required by U. S. Standard Specifications. Cement manufacture, as these mills are operated, is an exact science.

Yet LONE STAR Cement costs no more.
We give it our unqualified endorsement.

Another Brick Under Construction on North Side

Another frame shack was dragged from "Itat Row" Monday to make way for a modern brick and tile business house.

R. O. Miles has commenced the construction of a building 25x70 feet in dimensions on the site of his old barbershop and the work will be rushed to completion. It will have a plate glass front and will be divided into two compartments, one of which will be used as a barbershop and the other will be leased for other purposes.

Mr. Miles will install six chairs in the new shop and will have individual lavatories for each chair. Three bath rooms will also be placed in the building.

Until the brick is completed Mr. Miles will conduct his barber business in the old shop which has been moved across the street.

One does not have to watch to see O'Donnell grow.
