EAGLES VS. BUFFALOES

The O'Donnell Eagles traveled to Fluvanna last Friday night to play their last game with one of our favorite players, Bud White. Bud has been in Eagleland since his freshman year in High School, and has always been considered one of the best Eagles in all sports. The team and the fans watched him score 24 points in a close fought game with the Buffaloes. The final score was 49-47.

At the end of the game the score was 47-47. A 3-minute overtime playoff was allowed in which the Buffaloes lucked in two points.

The O'Donnell Eagles and fans consider Petersburg's gain our loss, but would like to take this opportunity to wish Bud the very best. —Tonia Beckham, reporter.

O'Donnell School Head Is Leaving

Charlie White, superintendent of the O'Donnell schools the past two and a half years, has resigned to accept a similar position as head of the Petersburg schools at mid-term in January.

Mr. White will succeed "Pete" Wilson, husband of the former Jimmie Lou Thomas of Grassland, who has resigned to enter the business field.

Dick Franklin, president of the O'Donnell school board, announced applications for the head job should be sent to him. These will be screened and then applicants will be interviewed by the board by appointment.

During White's administration at O'Donnell, a number of plant improvements have been made, and the school has been successfully integrated.

White began his teaching career as coach at Hermleigh, went from there to New Deal, and was in the Plainview system a number of years before coming to O'Donnell as superintendent. He served successively at Plainview as assistant football and track coach at high school, was assistant high school principal, then served eight years as principal of Coronado Junior High.

Our genial superintendent of schools recently resigned to accept a similar position at the Petersburg school. Charley White led the community in building a very attractive Junior High School and an addition to the gym. He was superintendent here for the past two and one-half years. He and his family leave a host of friends here.

Applications are currently being taken for a new superintendent here at the home of Dick Franklin, Rt. 3.

B. J. McLaurin suffered a heart attack last week. He remains in Methodist Hospital in Lubbock, but is much improved.

Need party with good credit in O'Donnell area to take over payments on late model Singer sewing machine in 5 drawer walnut cabinet. Will zig-zag, buttonholes, fancy stitches, etc. \$31.50 cash or \$4.95 a month. Write Credit Manager, 1115 19th Strete, Lubbock, Texas.

The Antipper family write to O'Donnell from beautiful Athens, Greece that the American Turkey or "Turk" as the Antippers call it, has become a tradition in Greece. The Greeks fill the "Turk" with rice, chestnuts and vines. It is baked in the oven with potatoes and the vines entwine over and around the "Turk."

Thought for the week: "If we get a good idea and fail to put it to work, it is like pouring water in a sifter."

Nitrogen Tests Grain Sorghums

A new series of off-station soil fertility tests conducted by Texas A&M University scientists should show if there are grain sorghum yield differences between fall or spring applications of nitrogen.

Test plots will be in Deaf Smith and Farmer Counties and on the Southwestern Great Plains Research Center, at Bushland. Each plot will receive three different rates of nitrogen applications and each rate will be applied at five different times.

The three rates are 80, 120 and 160 pounds of nitrogen per acre.

The scientists will be comparing the yield differences of applying the nitrogen before shredding, after plowing, after listing, after irrigation and in an early side dress. They also hope to learn how fall applications affect decomposition of crop residue.

Personnel at the Bushland Center and at the South Plains Research and Extension Center, near Lubbock, will conduct the study in cooperation with county agents and local farmers.

Harvey Walker, of the South Plains Center, says if there are insignificant yield differences between fall and spring applications, more nitrogen applications could be made in the fall. This would ease the spring rush for both farmers and fertilizer dealers.

The South Plains Research and Extension Center has been conducting off-station fertility tests for 12 years. This year they had plots in 20 locations representing every major soil type in the area.

Rural Aid On Water Offered

More than a million people in rural America may benefit from an expansion in financial support

for rural community facilities and family farms authorized by recent legislation, L. J. Cappleman, Farmers Home Administration State Director for Texas said today.

Private investors will provide the bulk of the funds on an insured basis through USDA's Farmers Home Administration.

The legislation signed into law by President Johnson on October 7,

Merry Christmas! Merry Christmas!
 The spirit conveyed by these words is the same in all countries, but the words themselves sometimes fall harshly on American ears.
 "Merry Christmas" in French has a soft and musical sound. It is "Joyeux Noel."
 In Spain the greeting is "Feliz Pascuas," and in Italy, "Buon Natale." For Sweden it is "God Jul" and Norway, "Gladig Jul."
 In Germany and Holland the greeting is a tongue-twister that will stump the average American, The Germans say "Froehliche Weihnachten" and the Dutch, "Plaisierig Kerstfeest."

STATE AND COUNTY TAX PAYMENTS GOOD

State and county tax payments have been unusually good, although very slightly behind last year, according to George McCracken, county tax assessor and collector. About 65 percent of the roll has already been collected.

December is the last month during which a discount will be given. Three percent discount was allowed for payment of taxes in October, two percent for November, and one percent for December. Taxes become delinquent after Jan. 31.

Total collections through November have been \$170,582.04, compared to \$171,701.97 for the same period last year. By early payment, taxpayers received discounts totaling \$5,157.08.

Payments dropped off considerably in November, however, only \$11,246.94 being paid during the month of the \$170,582.00 total.

Broken down, a total of \$27,174.73 has been paid in state taxes, \$137,718.26 in county taxes, \$1,062.81 in Water District taxes for a total of \$175,739.12 before discounts.
