WINS 2ND IN NATIONAL

Miss Marcheta Wood won second place in the Junior Division of the National Contest of "Make It Yourself — With Wool." She received a \$300 scholarship to any college of her choice. Grand prize went to a Clarendon girl. The two Texas girls Clarendon girl. The two Texas girls were hostesses at the San Antonio meeting to girls from 20 states. Mr and Mrs. Jack Wood, Mrs. H L Wood and Mrs. J. C. Swinney tended the contest.

-0-Abundant supplies of pork, oranges and orange products are in pro-spect for February and are featured tems on next month's plentiful coods list. Broiler-fryers, lamb, lard eggs and peanuts and peanut pro-

ducts are also on the list.

The use of liquid fertilizers is cecoming widespread and they are proving to be a good source of plant nutrients. Liquid or dry fertilizers are generally of equal value for im proving crop yields. The main considerations for making a determin-ation of which type of plant food to and application.

-0-Harlan Smith, extension patholo-gist, says he is often asked whether mistletoe will kill trees. He says a few mistletoe plants growing on a large healthy tree probably will cause little or no damage. But too many of the parasitic plants can cause trouble if they are not removed from the tree. Mistletoe obtains water from its host plant.

O'DONNELL INDEX PRESS

O'DONNELL, LYNN COUNTY, TEXAS, Wed. Jan. 27, 1960

Pictures Feb. 10th

It is an undisputed fact that the responsibilities of tomorrow's world our Nation and community will rest upon the shoulders of the children of today. Since this is true, the publisher of this newspaper would like to give you a good look at these future "World Builders."

The only way we can do this is by publishing pictures of them in a series. To assure the latest and best ited Mr and Mrs. Claude McKee at reproduction pictures - they must all be of uniform size and quality An expert children's photographer with all the necessary equipment for this specialized work will be here WEDNESDAY, FEB. 10th. Pictures will be taken at INDEX PRESS office froom 12 noon until

No Charge To Parents

There is no charge to the parents. There are absolutely no strings to this invitation. It is bonafide in every sense of the word. Parents do not have to be subscribers nor even readers of this newspaper to take advantage of this feature. Neither are they obligated to purchase pictures after they are taken. Those who want some additional prints may obtain a limited number arrangement with the Studio re-presentative when they select the pose they want printed in the paper. it is entirely up to them.

The More Pictures, the Better

The Index Press simply wants pictures of all the youngsters and the more, the better. So the Mothers and Fathers of the community in which this paper circulates should remember the date — Feb. 10th at Index Press and not fail to bring their children to the photographer.

You will be mighty glad, afterwards, if you did, and very sorry if you do not permit your children participate in this event. The kidd-ies will have much fun and both Mother and Dad — and the youngsters, too, will be very proud to see their pictures in print later.

Appointments may be made by calling Mrs. O. G. Smith, phone 15

A year end summary of conservation educational activities carried out during 1959 in Texas shows that real progress was made. Team work and understanding between the supervisors of the State's 177 Soil Conservation Districts and the county agents were largely responthe sible for the success. Educational meetings, tours and contests, educational exhibits and demonstrations ine stories, presentation of radio lor of Plains attending. and television programs, distributation of which type of plant food to ion of printed materials and meet-use are cost and ease of handling ings involving SCD supervisor and Sunday visiting relatives in Tulia county agents.

THE FFA CREED

I believe in the future of farming, with a faith born not of words but of deeds — achievements won by the present and past generations of farmers, in the promise of better days thru better ways, even as the better things we now enjoy have ome up to us from the struggle of former years.

I believe that to live and work on

a good farm is pleasant as well as challenging; for I know the joys and discomforts of farm life and hold an inborn fondness for those associations which, even in hours of discouragement, I cannot deny.
I believe in leadership from our-

selves and respect from others. I believe in my own ability to work efficiently and think clearly with such knowledge and skill as I can secure, and in the ability of organiz-ed farmers to serve our own and the public interest in marketing the pro duct of our toil. I believe we can safeguard those rivhts avainst practices and policies that are unfair.
I believe in less dependence on

begging and more power in barg-aining; in the life abundant and enough honest wealth to help make it so — for others as well as my-self; in less need for charity and more of it when needed; in being happy myself and playing square with those whose happiness depends upon me.

I believe that rural America can and will hold true to the best traditions in our national life and that I can influence in my home and community which will stand solid for my part in that inspiring task.

CENSUS TO START APRIL 1st

Establishment of a district of-fice for the 1960 Census of Population and Housing at Lubbock County Court House, Lubbock, was announce ed today by Director James W. Stroud of the Census Bureau's regional office at Dallas. Earl E. Kerr will be the supervisor of the district office. He will drect a force of 24 crew leaders and 376 census takers in this area. The field canvass begins April 1st. Prior to the start of the census, all households will re-ceive in the mail aa advance census report form, a new census taking device which is designed to speed up the field canvass and pro-vide more accurate statistics. Distribution of this form, which contains the basic population and housing questions, gives the family a chance to assemble information about each member in advance of the

Lott Pharmacy

Hugh Lott, Registered Pharmacist

FARMERS MAY CHOOSE A OR B SUPPORT PLAN

Now that marketing quotas have been approved for 1960 crop of up-land cotton, the next step for the farm operator will be to choose between the (A) and (B) allotment and price support programs for his farm, Charles G. Bragg of the Lynn County office said today.

Mr. Bragg emphasized that no election of such choice can be filed until after the farm operator receives a notice of the price support levels applicable for 1960 under the (A) and (B) allotments.

Choice (A) will include regular farm allotments and price support to cooperators who comply with their farm allotments at not

CLAUDE'S

All Kinds Cowboy and Wellington BOOTS — WESTERN SHIRTS MOCCASINS — LOAFERS — ALL KINDS FINE LEATHER GOODS EXPERT REPAIR ON ALL SHOES AND BOOTS

less than 75 percent Choice (B) will include allotments

which are 40 percent larger and price support to cooperators at 15 percent of parity less than under Choice (A).

He said that the level of price sup port for the 1960 cotton crop will be announced by the Secretary of Agriculture not rater than Jan. 31. Each farm operator will then be informed of the support levels available on his crop under both pro-gram choices, and he will also be reminded of the deadline — March 16th — by which he must register his election of Choice (B) at his County ASC office.

If the operator decides to grow his crop in compliance with (A), no action is required. Failure to elect Choice (B) will automatically make Choice (A) effective on the farm for 1960.

LYNN IS LEADER IN BOND SALES

.A. C. Verner, chairman of the Lynn County Savings Bond Committee, announces that Savings Bonds sales for November totaled

"Sales for the first eleven mon-ths of 1959 were \$301,621.00 or 116.5 percent of the yearly goal," Verner said. The quota for the year was \$259,000.00. Series E and H Bond sales in Texas amounted to \$11,666,299.00 during November. Series E and H Savings bonds now earn 3 3-4 percent when held to maturity.

Average prices received by far ers during 1960 will show a furth slight decline while costs of far production and marketing will on tinue to rise, says John G. McHan extension economist. This situation adds, will mean a slightly low realized net farm income for 19 as compared to 1959.

Homeowning Can Be Hazardous Too! Just as the bullfighter may be-

come overconfident with success, so may the homeowner not stop to think of hazards he faces in owning a home. A fire, windstorm, or explosion

could destroy his home. An injury on his property could result in a crippling lawsuit.

If you are a homeowner, don't let trouble take you by surprise. Call your local independent insurance agent and let him protect your property with insurance placed in a Capital Stock Insurance Company, the standard bearers of reliable protection for more than a century.

Texas cotton producers saved an estimated \$55.5 million by harvesting about half of their 1959 crop

with machines. Aonther \$13.9 million was saved by using chemicals and machines for controlling grass weeds in their fields, reports Fred C. Elliott, extension cotton specialist. While these savings were being made, growers also posted the State's second highest yield of lint per acre — 337 pounds. Elliott cre-dits the county 7-Step Cotton Committees for these achievements.

The Texas Farm and Ranch Safety Council will present for the time in March, a Texas Rural Hero-

ism Award, It will go to a rural resident, who duuring the past year, has exhibited exceptional bravery at his or her local community. Dead-line for submitting nominations is February 15th. Local county agents can supply detailed information on the award. The Council plans to make the award annually,

A portable ELECTRIC heater

Wherever extra warmth is needed for comfort, a portable electric heater gives it to you instantly. Just plug it in, flip a switch and radiant, sun-like electric heat quickly chases away the chill.

You'll find today's electric heaters provide new features-like automatic temperature control and fan-forced circulation-that make them even more efficient and convenient to use than ever before. Select yours now and enjoy extra warmth wherever you need it-all winter long.

WORTH MORE BECAUSE THEY WORK MORE

Chevy's new torsion springs and Sturdi-Bilt design are changing everybody's ideas about how much work a truck can do. Last year's schedules are out-Chevrolet trucks ride faster over the rough runs to get in more trips a day! Big repair bills are no longer a problem—Chevrolet trucks soak up punishment that means downtime to other makes! And trade-in time's put off for extra thousands of miles - '60 Chevrolet trucks stay new like never before!

New Dollar-Saving Prices

Step-Vans, 4-Wheel Drives, many light-duty models with automatic transmissions-all are lower priced. Prices have also been reduced on all optional V8's.

New Torsion-Spring Suspension

Eliminates I-beam shimmy and wheel fight! With torsion springs up front there's a brand-new, smoother, easier handling feel behind the wheel. New rear suspensions include wide-based coil springs in most light-duty models; tougher variable-rate leaf springs in medium- and heavy-duty models.

Electronically Balanced Wheels Front wheels and tires are balanced at the factory. Helps make

that new ride revolutionary!

New Cabs—Wider, Safer, More Comfortable

Many models are a whole 7 inches lower (without sacrificing road clearance), so it's easier to hop in and out of cabs. Still there's more space inside: more room for hats and hips, more foot room with suspended pedals. Cabs are safer, too; new build makes them 67% more rigid.

Plus Improvements

All Through the Line A new steering linkage system that cuts vibration, means better control. There's new V8 efficiency. Sixes long famous for saving. New key-turn starting. Higher, wider visibility. Talk to your Chevrolet dealer about the world's most advanced trucks.

NOW-fast delivery, favorable deal! See your local authorized Chevrolet dealer.

Texas cotton producers saved an estimated \$55.5 million by harvesting about half of their 1959 crop with machines. Another \$13.9 million was saved by using chemicals and machines for controlling grass and wachines for controlling grass and weeds in their fields, reports Fred C. Elliott, extension cotton specialist. While these savings were being made, growers also posted the State's second highest yield of lint per acre — 337 pounds. Elliott credits the county 7-Step Cotton Committees for these achievements.

The Texas Farm and Ranch Safety Council will present for the first time in March, a Texas Rural Hero-ism Award. It will go to a rural res-ident, who duuring the past year, has exhibited exceptional bravery at the time of a crisis or disaster in his or her local community. Dead-

line for submitting nominations is February 15th, Local county agents can supply detailed information on the award. The Council plans to make the award annually.
