Green Announces As County Attorney

Harold Green, who was appointed County Attorney last June to fill the unexpired term of Mitchell Williams, who resigned to become District Attorney, has formally announced that he will be a candidate for the office of County Attorney of Lynn County, subject to the action of the Democratic Primary.

In making his announcement, Mr Green said that he sincerely appreciated the splendid cooperation given his office by the citizens of Lynn County and solicited their continued cooperation. He pledged that if elected, he would strive to continue the effective prosecution of all matters within the jurisdiction of his office and to fully cooperate with all of the law enforcement personnel in the County.

Recognizing the fact that all public offices are sacred trusts, he stated that he felt that any and all aspirants for public office should have a deep felt conviction that the preservation and upholding of such trust should be the prime and motivating factor to consider in carrying out the duties and responsibilities of the office.

Green is married to the former Betty Jane Richardson of Burk Burnett, a member of the Methodist Church, and has resided in Tahoka since 1951. He is a graduate of Baylor University Law School and is, of course, a member of the Texas State Bar Association.

PTA TO MEET

The O'Donnell P. T. A. will meet Tuesday Feb. 21st at 3:45 at the school cafeteria. Officers for 1955-57 will be elected.

F. T. A. Meets

The F. T. A. met Monday. All members were present. We discussed the constitution and corrected some parts of it. Now, any student who is interested in F. T. A. and the teaching profession, may join the F. T. A. if they had an average of a B for the first semester of school this year.

Also we are proud to announce that we have received our charter from the national organization.

After our business we had a short program on the research of the teaching profession by Katherine Farlow. Polly Etter is our program chairman.

Mrs. Vera Etter, School Census Director, said this week that the 1956 census of school age children showed 685 whites and 41 colored children. This number is 12 short of last year's total. The average daily attendance is running about 560. The census showed 48 first grade students to be enrolled next September. If you know of a child not counted in the census please call or write Mrs. Etter at the school as each person under 18 years of age means \$70 to the school. The person need not be enrolled in school.

Mrs. L. N. Nichols is visiting a daughter in Houston.

Lions, Baboons Enliven Africa Explorer Camp

WASHINGTON, D.C.—A hungry lion and a tribe of marauding monkeys have enlivened camp life for an American expedition studying wildlife and native culture in the more remote parts of French Equatorial Africa.

Both the lion and the monkeys—baboons—inhabited the camp of the expedition, the lion to steal the carcass of a hartebeest that had been killed as food for native bearers, and the baboons to upset plans made to photograph the lion.

The expedition is sponsored by the National Geographic Society, The American Museum of Natural History and Dr. and Mrs. Carnes Weeks of Midway Plantation, Mount Holly, South Carolina. Expedition members include Mrs. Weeks, well known as an explorer, Walter A. Weber and Volkmar K. Wentzel of The Society, and T. Donald Carter of the Museum.

Larcenous Lion
 The expedition had made camp on the Aouk River, east of Fort Archambault, French Equatorial Africa, in the midst of country heavy with game, when it encountered the lion and the baboons. The lion stole into camp about 3:30 p.m. to make off with the hartebeest carcass, which was found abandoned about 200 yards away.

Hoping to obtain pictures of a lion feeding at night, Mr. Wentzel retrieved the carcass and surrounded it with five cameras equipped with flash guns—all set up so that any movement would activate the shutters and lights.

Unfortunately, however, the baboons found the cameras fascinating playthings and knocked them all down.

Species Collected
 A full report of the scientific findings of the expedition will be made when it returns to the United States, but Mr. Carter has indicated successful progress in his collection of specimens for the Museum. He reported that "quite a lot" of "some very nice" material had been obtained on one 17-day, 600-mile field trip.

Wild animals did not provide all the trouble encountered by the travelers; some developed when the native cook mistook automobile brake fluid for cooking oil and fried steaks in it.

Cancer Killer That Spares Life Sought

BERKELEY, Calif.—What would be the ideal chemical to kill cancer cells and at the same time leave normal tissues of the body unharmed?

A new approach to this difficult question will be undertaken by a team of scientists in the University of California School of Medicine, San Francisco, with the aid of a \$10,000 grant from the Damon Runyon Fund.

At the present time the trial and error method usually guides the search for cancer-fighting chemicals. Chemicals are made in the laboratory, then tried on cancerous mice. If they have some effect on cancer, they are then tried on human patients.

There are at present two chief classes of cancer-fighting chemicals.

In each case the chemicals that inhibit cancer growth so far tried have not been able to make a sharp enough distinction between cancer cells and normal cells.

The scientists will study the basic chemical reactions that take place between the chemicals and both cancer and normal tissue.

Their goal is to learn enough about the reactions to be able to write specifications for chemicals that would carry out the desired inhibiting reactions with cancer cells but not with normal cells.

Man Passes 100, Then Sows His Wild Oats

BROOKLYN—When he was 100 years old, Masha Byron was reprimanded for shooting craps.

When he was 102 he was arrested for practicing medicine illegally.

Recently, he was hauled into court again, this time for cursing a neighbor. He was ordered by a doubting judge to go home and get his birth certificate to prove that he was 108. The judge couldn't believe a fellow so old could stir so much trouble.

'School's Out' When It Should Be In

BOONVILLE, N.Y.—Community headaches of long duration sometimes arise from simple troubles—like delay in remodeling a school building which seemingly would cause only temporary inconvenience.

As 900 pupils of the Boonville central school district awaited "the first day of school," because the school building was not ready for use, the school district itself was awaiting possible loss of state aid payments, linked directly to school attendance and number of days of operation.

Remodeling work was done at the school during the summer, but B. E. Jackson, president of the Board of Education, said that about a week's work remained on the plumbing and heating systems the day school was scheduled to open. He added that because of a strike of Utica plumbers and steam fitters, there was no indication when the work could be completed.

Jackson said that the district would lose money in state aid if the school operated for fewer than 190 days. Based on 900 students, he estimated that the loss would amount to about \$1,100 a day for each day lost.

He also said the district faced a possible "permanent loss in enrollment" because some pupils were transferring to other schools and it was not known whether they would return to the Boonville school.

Opportunity Knocks Right in Home Town

LINDEN, Ala.—Teen-agers who feel like leaving their home town to seek better fields of opportunity should consider how Buddy Perry planted a few tomato seeds and harvested opportunity in his own backyard.

The tomato seeds cost him 8 cents. The hotbed cost him nothing but a little labor—he built it from materials salvaged from dumps and heated it with manure obtained for the asking.

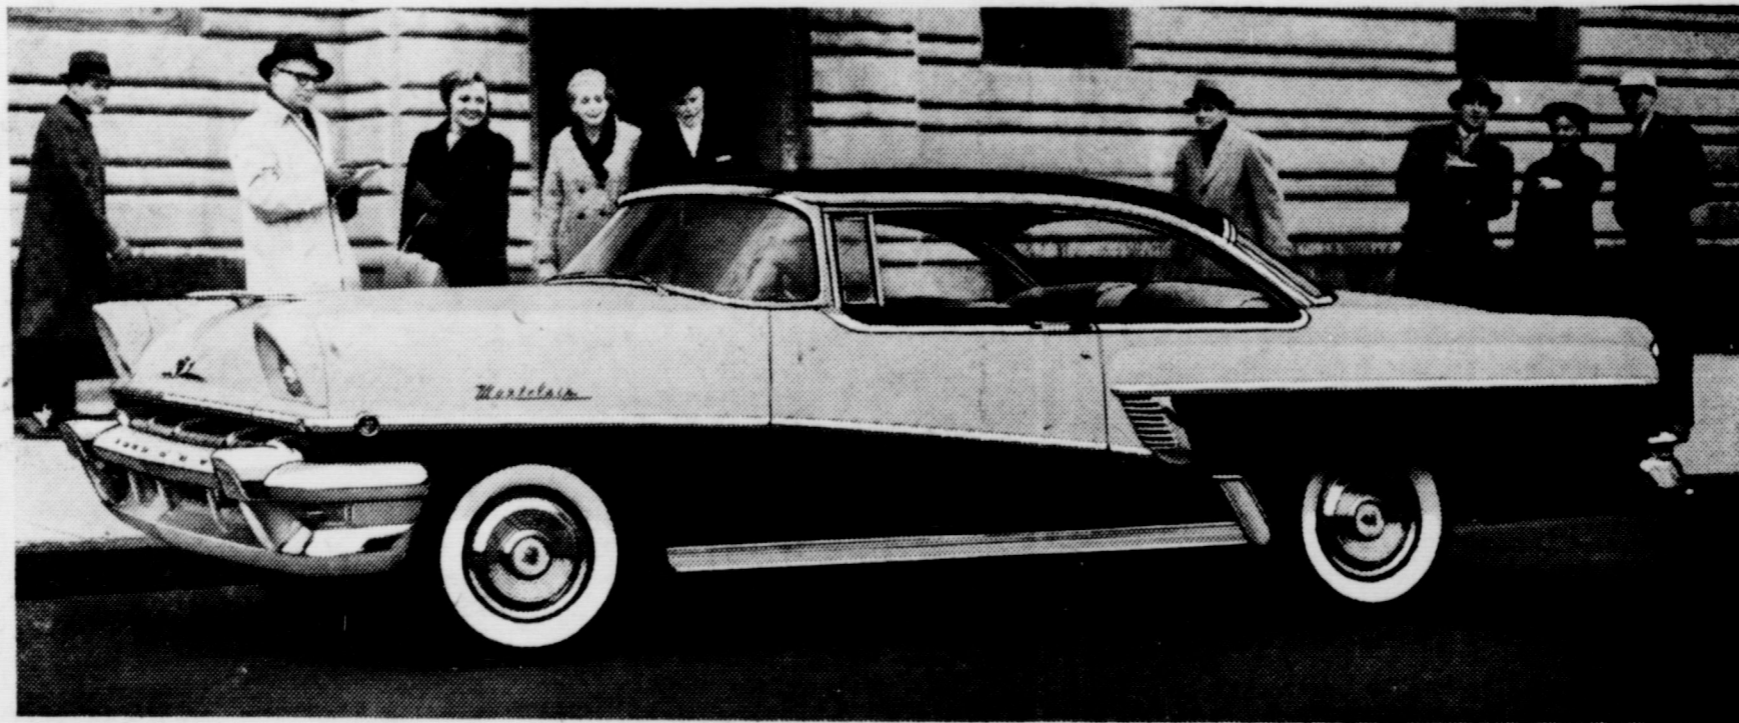

The tomato plants that the hotbed yielded he sold as fast as he could pick them. With the proceeds from the seeds he bought calves. From a small beginning, he has built a herd of four steers, three heifers and one cow.

That's a pretty fair realization from 80 cents, and we forgot to mention the two pigs he recently bought.

Young Perry goes to school and is a star pupil. Besides, he built scenery for the school shows and spends his shop periods turning out tables, screens and other furniture.

PUBLIC VOTES MERCURY "BEST VALUE IN ITS FIELD"

19th annual nationwide survey of car owners—by independent research organization*—shows Mercury leads its price class as "best value for the money." Whether you pick a Montclair, Monterey, or Custom, you get more car in four big ways!

1. NEW REFLEX-ACTION PERFORMANCE—Go, stop, pass, climb, turn. THE BIG M responds instantly to your every command, adjusts instantly to every road. We call it "reflex action"—a new kind of performance that makes all your driving easier, safer—and far more comfortable than ever before.

2. NEW BIG M BEAUTY—Here is fresh, clean, graceful beauty for the young-minded. Mercury's lines are long, sleek, road-hugging. New Flo-Tone color styling is radiant and dramatic. You enjoy a distinction in THE BIG M that is unmatched in Mercury's price class.

3. NEW SAFETY-FIRST DESIGN—You get the widest choice of safety features in the field. At no extra cost, there's an impact-absorbing safety steering wheel (an exclusive in Mercury's field) and triple-strength safety door locks. And optional features such as seat belts and padded instrument panel.

4. PROVABLE VALUE—Here's value you can see, and measure! Low first cost. Low operating costs. High resale value. And Mercury trade-in value has remained consistently high. No wonder Mercury was voted "best value in its field." Better see us soon.

For 1956—the big move is to THE BIG MERCURY

Coffee 'Sneak' Becomes 'Break' in Los Angeles

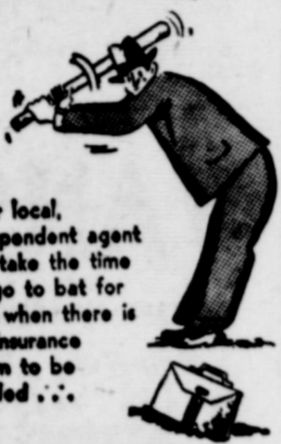

LOS ANGELES—The first municipal recognition of man's inalienable right to drink a cup of coffee during working hours on the bosses' time is working out fine for both the City of Los Angeles and its 15,000 employees, according to Samuel Leask, Jr., administrative officer.

Los Angeles became the first U.S. city to legalize coffee breaks for municipal workers when it passed an ordinance authorizing employees to take 15 minutes each morning and afternoon at no loss of pay or time to themselves. Previously, city workers had been permitted to take such breaks but the time was deducted from their lunch periods when—and if—employees reported it.

According to Leask, replacement of the coffee "sneak" with the regulated coffee break has been a decided "plus" operation for the city.

"The purpose of making the coffee breaks legal and regulated was to increase work output and thus promote efficiency and economy in the conduct of city business," he said. "After several months of observation, it certainly seems to be working out that way.

"Just like the coffee break in offices and factories, our city rest periods have ended time-wasting 'sneak outs' and other abuses which were costly to taxpayers."

PLAINS COTTON GROWERS, Inc.

LYNN COUNTY OFFICE
 P. O. Box 157
 TAHOKA, TEXAS

January 26, 1956

ATTENTION, All Lynn County COTTON GROWERS and LANDOWNERS:

For several years now the need of a voice for our West Texas cotton growers has been very much in evidence, and many of us have done much talking on this matter; this year the talk was turned into action by the East Texas and Central Texas farmers being given seven (7) percent of our cotton acreage by the Texas State ASC Committee. Fuel was thrown on the fire by the action of Senator Ellender of Louisiana, chairman of the Senate Agriculture Committee, proposing that base cotton price support be changed from 7-8" staple to one-inch (1"), which would instantly lower the price of our cotton grown here about three and one-half (3 1/2) cents per pound. This would mean an annual loss to LYNN COUNTY FARMERS of \$1,750,000.00 on a 100,000 bale crop. Senator Ellender also proposed to widen the basis on grades lower than middling, which would penalize us even more than a staple change.

The first action was taken with an organizational meeting held in Lubbock January 24th, and a subsequent Directors meeting held January 27th (yesterday). Mr. W. O. Fortenberry, prominent West Texas cotton grower and cotton farmer, was selected to lead this organization, and we stand to profit considerably by his experience and wisdom. At this meeting, in addition to appointing various committees, and discussing matters of importance to all Lynn County cotton farmers, the group went on record as endorsing the following:

1. Opposition to the above program as advocated by Senator Ellender.
2. Opposition to any cuts in cotton parity prices
3. Opposition to \$25,000.00 loan limit to any one farmer.
4. A speed-up in processing FHA loans, so that those concerned may get-on with their farming.
5. Opposition to curtailing cotton allotments and financing due to sandy soil.
6. Continued support of the present bill now before Congress to refund the two cents (2c) Federal gasoline tax for on-farm use estimated to man \$69,000,000.00 to Texas farmers yearly.

It is planned by the undersigned to hold farmers meetings in four Lynn County Communities in the immediate future (New Home, Wilson, O'Donnell, and Tahoka), for the purpose of discussing these and other points with you farmers, also to discuss the aims and objectives, some of which are outlined above and others which will be brought out at a more opportune moment.

One suggestion is that farmers at this time contribute ten cents (10c) per bale harvested during the 1955 season; this is the goal at this time, and those farmers who agree with this are asked to send their checks to this office now. (We plan to send one or more representatives to Washington immediately to give our opposition to the change in staple basis mentioned here earlier, so you can see there are going to be some expenses from the very outset.) A large segment of the South Plains businessmen are vitally interested in this movement, and will be contacted individually; however, it is planned to ask them in Lynn County to contribute \$50.00, \$25.00, or \$50.00, the businessmen (or business house or landowner) himself determining the amount he wishes to contribute (solely on his ability to pay, interest in the cotton problem, and desire to participate).

No doubt there are some very good ideas about this problem nesting in the brains of some of you, so please pass any ideas or thoughts along to the directors or the chairman so that we may truly represent you at the meetings and benefit by your ideas.

In the meantime, please give us your backing: (1) by talking this movement to those who are not aware of its existence; (2) by attending the community meetings when announced for your neighborhood; and (3) send a check in, based on your 1955 bale production.

Very truly yours,
 JOE D. UNFRED, Lynn County Chairman
 WILMER SMITH, Director (Farmer)
 A. C. VERNER, Director (Businessman)

Gulf Repeats a pledge to the motoring public

As the year 1956 begins, we feel it is time once again to restate an important promise we have made in the past to America's motorists...

The Gulf Pledge

We at Gulf make this promise to America's motorists. We will not permit a single competitor—no, not a single one—to offer a gasoline superior to our own superb No-Nox.

It is our sincere belief that No-Nox is the finest gasoline on the market today, and no matter what others do or say, we will keep it the finest—in power, in performance, in engine protection.

This is not a boast, not a claim. It is a pledge to you, the motoring public—a pledge backed by the resources—and the integrity—of the Gulf Oil Companies.

What the Gulf Pledge means to you

In the Gulf Pledge, you have our word that you are getting —not just a superior gasoline—but the finest product of its kind that is produced.

It is our way of assuring you that whenever or wherever you drive in to buy Gulf, you can buy with confidence.

ARCHIE HANEY, Distributor

S. S. Man Here Feb. 15th

Our representative will be in O'Donnell at the Post Office at 4 p. m. on Feb. 15th and will be glad to assist in all matters pertaining to social security.

Self-employed farmers will, for the first time, in 1956, pay social security tax on their farm income

for 1955 according to Mr. John G. Hutton, manager of the Social Security Office in Lubbock, Texas. If you are a self-employed farmer and have earnings of \$400 or more a year, you must file a report of your self-employment farm income at the same time you file your income tax return.

The social security tax is 3 per

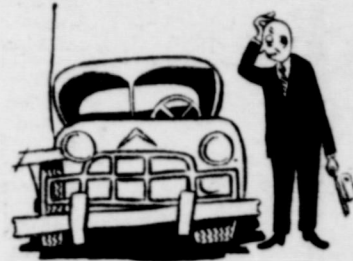

cent of the self-employed farmer's earnings, up to a total of \$4200 in earnings. If you work, or have other types of self-employment income, earnings from these sources may be combined with your farm earnings up to a combined total of \$4200 according to Mr. Hutton.

How To Live Longer Told

"Health examinations won't prevent old age, but many tens of thousands of persons, whose records of these examinations have been studied, have not only been helped to live longer but also be sturdier and healthier, and enjoy more comfort and happiness by following the advice of the physicians who have made such examinations," declared Dr. Henry A. Holte, Commissioner of Health.

Once the individual leaves school, he assumes the responsibility not only for his choice of work and method of living, but also for his continued good health. But he often fails to apply the available methods of preventing disease and prolonging life. Hardly a day passes in which our attention is not called to the untimely death of some prominent person or acquaintance, which may be attributed to a preventable disease. So something should be done in the way of educating the adult of the population, so they will voluntarily carry out those measures which prolong life and maintain good health.

It is our firm belief that if the diseases of the gastrointestinal tract which includes the lips, tongue, teeth, mouth, stomach and bowels, are recognized in their early stages, their progress may be curtailed, adequate treatment advised and many deaths prevented.

Muddled Model

A DOZEN designers. A dozen ideas. Combine them and you have chaos.

It could be the same with your property insurance unless one agency handles your protection. Let us be that agency. Let us give your protection program the attention it needs.

Liquor Board Issues Church Drink Permit

COLUMBUS, O.—The state liquor department issued a beer and wine permit to the St. John Cantius Catholic Church in Cleveland, it was learned recently.

Department officials said they could not remember that any church ever before obtained a permanent permit.

The permit to serve high-powered beer and wine by the drink was made out for the bar in the church recreation center.

William C. Bryant, state liquor director, explained that the permit was not illegal. The law merely specifies that if a permit is asked for within 500 feet of a church, school, library or playground the institution must be notified and given a chance to object, he said.

Liquor officials pointed out that it was not uncommon for an Ohio church to get an "F" permit, which runs up to five days for a specific event like a picnic or fair. This allows the holder to sell low-powered beer.

The permit will enable St. John Cantius Church to sell high-powered beer and wine to bowlers at 12 new alleys in the church recreation building when they reopen for the season.

Magr. Francis Duda, Pastor, said that only bowlers would be served by the bar. "It is not for the public, the Monsignor said.

Lowest Thieves Plunder Orphans' Home Larder

ASHLAND, Ky.—Nomination for the world's meanest thieves are hereby entered for the looters who raided the pantry of the Ramey children's home here. A group of children's home campers returned from a trip on the Little Sandy river to find the home's food-storage room had been looted.

Miss Gertrude Ramey, founder and superintendent of the home, which had been closed for a week, reported thieves forced the storage-room door facing an alley behind the home. They "practically cleaned out" the supplies of canned foods, soap, soap powders.

Miss Ramey said a large part of the supplies had been collected in a food drive for the home, in the schools here. She said a truck probably was needed to haul away the merchandise.

Miss Ramey fell and broke an arm while vacationing with the children on the Little Sandy.

The two bad-luck instances aren't bothering Miss Ramey particularly.

Cotton Babies Throng In Goldsmith, Ind.

GOLDSMITH, Ind.—Dr. S. M. Cotton was given a big day recently in this town of 300 population. He celebrated his 50th year as a "country doctor" with the aid of more than 3,000 persons.

Fifteen hundred of the celebrators wore cards on their lapels proudly proclaiming "I Am a Cotton Baby."

The slender, blue-eyed doctor thought he must have delivered "between four and five thousand" babies. Tipton county records show Cotton's name on 4,467 birth certificates.

Cotton was honored at a big dinner in the Methodist Church. Afterwards, the Jefferson Township band led a parade down Main St. to the Old Settlers' Grounds, where the doctor, his sandy hair shot with gray, presided over a picnic.
