

U. S. Rejects Soviet Union Move To Seat China in United Nations; Marines Start Offensive in Korea

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)

SECURITY COUNCIL: No Communist Deals

"So long as men are dying on the battlefield in defense of the United Nations this council will not wish to cheapen their suffering or sully their heroism by seeming to engage in the consideration of deals."

With these words, Warren Austin, the American chief delegate to the United Nations, rejected the Russian move to link the question of Red China's entrance in the U. N. with the Korean war.

It was a bitter exchange of words between Austin and Soviet delegate Jakob A. Malik, who became president of the security council Aug. 1.

Malik wanted the question of admitting Red China to the U. N. the first order of business on the agenda, with the Korean situation second. The Russians were defeated by a vote of eight to one.

No one believed the Russians had any formula for peace that was acceptable to the western powers when they ended their boycott of the security council. It soon became evident the Russians were interested in seating Red China and nothing else.

Some believed Malik's maneuvers were only delaying tactics in the belief the North Koreans would quickly shove United Nations troops off Korea and thus open the way for any demands the Soviet Union desired to make.

That belief became wide-spread when the Russians demanded American troops be withdrawn from Korea, under threat of use of the veto, and seat the North Koreans in security council deliberations.

On the other hand, it was just as evident that the United States would not agree to such a situation. The only outcome could be a deadlock, with the Russians resorting to the veto to kill any action the majority might sanction.

TRANSPORTATION: Truck Fleets Increase

A for hire fleet of 1,000,000 trucks—part of the 3,000,000 which roll America's highways—is available for transport of military supplies in case of a grave national emergency, the American Trucking association has estimated.

The figure was the chief finding of an industry-wide survey conducted by the transportation organization as the first step in preparing for a possible all-out mobilization. The for hire vehicles would be the first to be mobilized and would, the association said, carry the brunt of the military ton-mile load.

But an additional 4,500,000 privately operated trucks, 2,200,000 farm trucks and 335,000 trucks under public ownership, could ultimately be made available.

Taken as a whole, the association's survey revealed the trucking industry could provide 171,369,000 inter-city ton-miles of transport facilities during the next 12 months. In 1941—the year before Pearl Harbor—the industry clocked up 57,123,000 ton miles.

That difference—114,246,000 ton-miles per year—represents the increased load of guns, food, ammunition or other military supplies which American civilian trucking firms are able and ready to handle without relying on any other form of transportation and with the full advantage of point-to-point shipment without rehandling.

EUROPE: Steps Up Defense

The democratic nations of Europe with Communist aggression in Asia uppermost in mind formed plans for increased defense measures against invasion by Russia.

The United States and its North Atlantic allies mapped a three-year \$20 billion campaign of defense.

Britain offered to adopt a three-year \$9.4 billion defense budget, a heavy load for the already hard pressed British government, if the U. S. foots part of the bill.

Other members of the group agreed to recommend that all member governments take immediate steps to increase effective military forces for common defense.

France meanwhile asked that more American and British troops be sent to Europe and pledged to start a \$5.7 billion three-year rearmament program. The new program would be in addition to the 1950 military budget of \$1.2 billion.

H-BOMB: Work Continues

The United States has stepped up its work toward production of the hydrogen bomb. The government has assigned a major segment of the job to the du Pont company, already experts in making the plutonium which goes into the present atomic weapons.

The A. E. C. appointed the du Pont company to design, construct, and operate some new plants of advanced design.

Rebuke

The pent-up indignation felt by all who had heard Jacob Malik's scathing attack on the United States in the U. N. security council is registered and voiced by chief U. S. Delegate Warren Austin. Austin's usual cool, collected temperament has been put by the boards as he replied to Malik's statements. This closeup shows Austin fiercely rebuking the Russian delegate.

KOREA: A Limited Offensive

The Korean military picture appeared a little brighter for United Nations forces. A powerful American attack, the largest launched by the U. S. since the Korean war began, rolled slowly forward on the southern front.

The North Korean troops, evidently completely aware that an attack was coming, took advantage of every spot of cover and battled S. marines for every foot of ground.

In the central sector the Communists established one bridgehead across the Nakdong river behind which United Nations forces had established new defense positions. Military authorities reported immediate danger points were in the south and center sectors. In the center the Reds had three divisions and four of their finest in the south.

While U. N. forces attacked in the south, U. S. B-29's pounded military targets in North Korea, dropping as many as 540 tons of bombs in one day. One mass flight dropped 460 tons on railroad yards at Ppong-yang, North Korea capital, with "excellent results."

Air groups from two 27,000-ton U. S. carriers bombed scattered targets over southwestern Korea and gave close support to attacking troops in the southern sector.

Military authorities warned that the southern action was a "limited offensive" and not a "general offensive." It evidently was designed to block the Communist strategy of:

(1) Drive down the southern coastal plain, capture Pusan, seal off the U. N. port of entry and the only escape hatch; (2) smash through to Taegu in the Nakdong valley, encircle the defenders and cut them up.

Whether or not the Communists can execute this strategy hinges on the question: Have we the men and the materials to stop them? Until recently the outlook was grim.

BRIDGES: Jailed at Last

Harry Bridges, turbulent longshore labor leader, had gone to jail at last.

Federal Judge George B. Harris revoked the \$25,000 bail under which Bridges had been at liberty since his conviction last April on charges of perjury and conspiracy in connection with his 1945 naturalization, and ordered him jailed.

In delivering his opinion, Judge Harris assailed the C. I. O. labor leader as "an agent dedicated to the execution of the Communist program nationally and internationally," and a menace to United States security.

"This is not the time for divided loyalty," Judge Harris said. "This is not the time for Communist double talk."

The move to revoke Bridges' bail was started by F. Joseph Donohue, special assistant to the U. S. attorney general. Donohue argued that remarks by the labor leader at union meetings, to the effect that he opposed resolutions supporting American intervention in the Korean war, were against the best interest of the country.

Plane Crash

Nineteen persons were killed and 60 injured when a bomb laden B-29 crashed, burned and exploded near the Fairfield-Suisun air base in California.

The plane crashed near a trailer camp where 200 service families slept. The flaming explosion of the 10 or 12 500-pound demolition bombs the plane carried shattered more than half of 50 automobiles and trailers parked in the area.

FORMOSA: The Big Question

In the minds of many international observers, Formosa had become the big question in the battle against communism. And it presented the first split in policy among the western powers.

With the President's order to the U. S. seventh fleet to defend the island from Communist invasion, the split in policy first appeared. The split, or Russian trap as some are inclined to believe, became serious with the visit of General MacArthur to the island and the arrival of jet planes immediately after he returned to Japan.

Many observers point out that U. S. policy is now clear: defend Formosa and the Nationalist government. This, they believe, may involve the United States in a conflict with Red China, a fight which would almost be impossible for America to win.

At the same time, the British government has already recognized the Communist government of China. Several other western powers have been reported on the verge of recognition. This leaves the U. S. out on a limb and could involve the nation in a full fledged Asiatic war.

That, students of the present world situation say, is exactly what the Soviet Union desires. If such a thing should happen, Russia would, of course, materially aid the Chinese.

It has been pointed out that the American decision to defend Formosa is a direct act of aggression against Red China. It is a perfect excuse for the Reds to rush several divisions to the aid of the Koreans. Some observers believe such a move is already underway.

Within hours after MacArthur returned to Japan, American jets landed on Formosa—vanguard of air units assigned to defend the island.

A comment heard frequently after they landed was: "MacArthur certainly works fast."

That may be, observers pointed out, but it could also mean that MacArthur has fallen into the Russian trap. It was a serious situation that the United States now had to face.

ECONOMY: Control Bill Likely

The senate banking committee approved a home-front mobilization bill which would give full discretion to invoke wage-price rationing controls to President Truman.

Last month President Truman asked for limited economic controls. The bill approved by the committee, however, goes much further than Mr. Truman asked.

Those less-sweeping curbs included authority to:

1. Allocate scarce industrial materials.

2. Assign priorities to put defense production work at the head of any factory job sheet.

3. Let the government take over privately owned plants, if necessary.

4. Subsidize consumer credit and real-estate construction credit.

5. Grant \$2,000,000,000 in government loans and loan guarantees to spur defense production.

The measure gives the President the right to invoke general price control and rationing anytime he decided such a step was warranted. He could invoke general wage controls at the same time.

The only apparent restriction is a provision saying the resident would be compelled to put wage curbs in effect if price ceilings previously had been established "on materials, services, and property comprising a substantial part of all sales at retail and materially affecting the cost of living."

The house was expected to agree on a bill patterned principally after the senate committee's measure.

The Draft

Selective service officials at national headquarters in Washington get down to work on army's call for 100,000 men during September and October. Left to right: Col. Daniel O. Omer, general counsel; Selective Service Director Lewis B. Hershey, legislative officer.

ROBESON: Passport Voided

Paul Robeson, native-born Negro singer and a leader in left-wing movements, was asked by the state department to surrender his passport. He refused and the government voided the passport and ordered officials to stop him, if he tried to leave the country.

The state department said any trip abroad that Robeson would make would not be in the interest of the United States.

For the benefit of "panic buyers" as a result of the Korean war, the U. S. government released the above photograph of a warehouse in the New York area. The barrels contain powdered eggs and milk.

HOARDING HYSTERIA

U. S. Has Greatest Food Supply Of Any Country in World Today

A Michigan farmer drove up to his grocery store with 250 pounds of sugar in the back seat of his automobile. He told the merchant he had purchased the sugar before World War II and wanted to exchange it for a fresh supply. The merchant told him, not too politely, where to go.

That, perhaps, was an unusual incident, but throughout the nation the greedy have been rushing to purchase large supplies of sugar, nylon, cigarettes, liquor, sheets and even automobiles and household appliances. In some instances the scare buying has reached almost hysterical proportions.

The average citizen, who remembers the shortage of World War II, is not entirely to blame. Inclined to believe the hints and rumors that always prevail in time of national emergencies, the consumer has been listening and following the nudging of many retailers and manufacturers that there will be future shortages.

In one southern town, for instance, a shoe store called its regular customers and told them to come in and buy two or three pairs of shoes before leather became scarce.

Warehouses overflowing. One customer replied he had need for only one pair of shoes, a steel-toe pair with which to plant a swift kick to the merchant's posterior.

For every one of those persons who are hoarding, however, there are hundreds who listen to the voice of the government proclaiming there will be no shortages. And for every merchant that urges scare buying, there are hundreds who have advertised in newspapers telling consumers their stocks are adequate.

Some stores are offering large sacks with the word "hoarder" in large letters to their customers who they suspect of buying more than their immediate needs. Many others are refusing to sell in large quantities.

All this excess buying and shortage hysteria is about the silliest thing that has overtaken the American public since the wave of gold-fish gulping by college boys a number of years ago.

Food, for instance, is overflowing government warehouses. The department of agriculture has so much wheat, corn, eggs, milk, butter, and other farm commodities on hand it would like to give them away. The government actually doesn't have room to store all of its surplus stocks. On top of this, farm crops are expected to be near record peaks this year and meat production will top last year.

While the scare buying and hoarding appears ridiculous, it has a serious and almost tragic angle, too. Americans are undermining their own economy, forcing prices upward, and thus presenting the possibility of defeat from within.

Americans are remembering 1942 and trying to put the same coat of circumstances on 1950. It will not fit, however.

In 1942 this country took upon itself to feed most of the world, while today we have only ourselves to feed. Barring the kind of buying that brings on controls there will be enough of everything for every American.

In 1942 the United States had to build war plants. Today they are waiting to be reopened and retooled.

During the last war our supply lines reached in every direction, extending thousands of miles over the oceans of the world. Today they stretch across the Pacific ocean where there are no submarines to hinder shipment.

This country has stockpiles of

Sugar Stocks Adequate. The American people do not like rationing and price controls because it smacks of regimentation and dictatorship, but continued scare buying and hoarding will bring it about quicker than anything except total war.

Sugar buying is perhaps the silliest of all hoarding. Americans generally don't seem to think so.

The agriculture department reports the nation's primary distributors sold 37 per cent more sugar during the first three weeks of July than in the corresponding period a year ago. A total of 660,695 tons were distributed between July 1 and July 22, compared with 554,369 in the like period last year.

What makes this ridiculous is the fact the government has made arrangements to purchase Cuba's entire reserve stocks of sugar, totaling some 600,000 tons. This is on top of the largest stock of sugar this country has ever held.

The total available for consumption in 1950 is 8,450,000 tons, compared with the peak consumption of 7,500,000 tons of last year.

Sour Note for Sugar Hoarders

A Washington, D. C., grocer recently stacked sugar outside his store and put up a sign reading, "Special, Five Pounds Sugar, 98c." Lines formed, he said, and he sold about 800 pounds in four hours.

Grocers across the street continued selling sugar at five pounds for 59c and had no rush. "I just wanted to see the reaction," the grocer said. "I wanted to prove that the price doesn't mean a thing. If they want it they buy it."

THE BIBLE SPEAKS. International Lessons. Sunday School Lessons. By DR. KENNETH J. FOREMAN.

SCRIPTURE: Luke 1:46-55; 2:17-19; 4:38-42; Mark 3:33-35; John 2:1-12; 19:25-27; Acts 1:15-17.

Blessed Woman

A PROTESTANT Christian is essentially a Bible Christian. Among other things, this means he will form his ideas about Bible characters from the Bible itself and not from legends long afterwards invented.

Some Protestants seem not to realize that even a reverent book like "The Greatest Story Ever Told" is as much fiction as it is fact.

Y et Protestant Christians are sometimes inclined to go to the opposite extreme. In reacting against the tall tales, they overlook the facts.

If some Christians overdo reverence for Mary, offering prayers and incense before her statues and even going to the point of saying we cannot come to Jesus except through Mary—an idea totally false to the Christian gospel—other Christians make the mistake of neglecting her memory altogether.

Surely we ought not to forget or under-rate the woman who of all the women in the world was chosen of God to be the mother of our Lord Jesus Christ.

God Knew Her Heart

NAZARETH was a small village with no good reputation. Yet it was in that town that Mary grew to womanhood. Man looks on outward appearances, but God looks on the heart.

You might have not selected Mary for the mother of Jesus, or to put it in another way, you would hardly have expected Mary's child to be the person Jesus became.

She was very young, for girls were engaged early in that climate and country—perhaps no more than sixteen. She could have had no great education. She was poor, as the whole story shows.

Yet it was not for her education or her social standing or her experience or any such thing, but because of her heart, her character, herself, that the angel came to her that spring day in Nazareth.

Mary's Song

THERE IS no room to tell all that can be known of Mary from the Gospels. We can know or guess much from that one song, the "Magnificat" as it is called from its first word in the Latin translation. (Luke 1:46-55.)

We can tell from this that she was a woman who knew her Bible. Moffatt's translation of the New Testament uses italic type to indicate quotations from the Old Testament; and in this Song of Mary, of its sixteen lines all but two are printed in italics.

Words and phrases came to her in the familiar cadences of the book she knew and loved. Further, she was of a poetic turn of mind. This "Magnificat" has been set to music and sung in churches all over the world. Since Mary was herself a poet, it is not surprising to find that Jesus often spoke in words which sing with the beauty and rhythm of fine poetry.

Patriotism and the Poor

MARY WAS A woman who loved her country. We are so familiar with the "Magnificat" a church anthem that we overlook it actually and originally was; a hymn of praise to God for his mercies to Mary's nation, Israel.

Her people, so long enslaved, were to be set free. It is a revolutionary hymn, too. Princes are to be dethroned, the proud cast down, the rich made empty; but God will give his help to the hungry and the poor.

Mary and Jesus

LOVE OF HER Bible, love of beauty, love of her country; and most of all, love of God. You could miss this from the words of the angel, but you can see it plainly in this song. It is an outpouring of joy and thankfulness to a God who is very real and near and loved.

Every mother lives again in her sons; in Jesus we can see the manner of woman Mary must have been. When the boy Jesus called God his father, who had taught him that word? When the young man Jesus fought off temptation by using the Word of God, who had first guided him to do this? Where had Jesus learned Scripture except under his mother's roof?

Maddening
If ever there is a time when a woman should be entirely alone, it's when a line full of clothes comes down in the mud.

GRATEFUL RELIEF FROM CONSTIPATION

"How grateful I am for having heard about ALL-BRAN! Believe me, I was constipated for years. Eating this wonderful cereal for breakfast keeps me regular." Mrs. Kuntz, 2046 Eastview Ave., Louisville 5, Ky. Just one of many unsolicited letters from ALL-BRAN users. You, too, can expect amazing relief from constipation due to lack of dietary bulk. Eat an ounce of tasty Kellogg's ALL-BRAN daily, drink plenty of water! If not completely satisfied after 10 days, return empty carton to Kellogg's, Battle Creek, Mich. Get **DOUBLE YOUR MONEY BACK!**

Personal To Women With Nagging Backache

As we get older, stress and strain, over-exertion, excessive smoking or exposure to cold sometimes slows down kidney function. This may lead many folks to experience nagging backache, loss of pep and energy, headaches and dizziness. Getting up eight or ten times during the night for minor bladder irritations due to cold, dizziness or dietary indiscretions. If your discomforts are due to these causes, don't wait, try Doan's Pills, a mild diuretic. Used successfully by millions for over 40 years. While these symptoms may often otherwise occur, it's amazing how many times Doan's give happy relief—help the 15 million of kidney troubles and filters drain out waste. Get Doan's Pills today!

DOAN'S PILLS

Only Bad Health Can Get Irish Down

WACO, TEX.—Mrs. Tom C. Gaddy, 910 Washington Ave., claims the only thing that will get a good Irishman down is bad health—and that won't happen in the Gaddy home. She became Crazy Water Crystals are very much a part of the family.

Mrs. Gaddy

She says: "For twenty years, I haven't been without Crazy Water Crystals. Every morning I take a teaspoonful in a glass of warm water. I have had a lot of stomach trouble—and I believe Crazy Water Crystals has done more for me than all the rest of the medicines on the market. It stops heartburn, indigestion and stomach bloating right now! My husband and I both use Crazy Water Crystals when our systems are sluggish. There isn't enough that can be said about the wonderful results we get from them."

No matter how old you are or where you live—Crazy Water Crystals are good for you because they are nature's own product.

Many ailments that folks suffer with—upset stomach, gas pains, headaches, run-down, played-out feeling and many other body aches and pains can often be attributed to faulty elimination.

DON'T ENDURE THESE HARD-SHIPS any longer. Get effective, pleasant relief today from nature's own Crazy Water Crystals: buy them at your drug store today, half lb. 8c; full lb. \$1.25. **SATISFACTION GUARANTEED BY Crazy Water Co., Inc., Mineral Wells, Texas.—Adv.**

It's Always A PICNIC when you serve

Van Camp's Pork and Beans in Tomato Sauce

A picnic, for Van Camp's does all the work for you. Truly a picnic, when you make Van Camp's the main dish for outdoor meals. Easy to carry, quick to serve—hot or cold—a treat to eat. Stock up today, for quick, tasty meals—good picnic eating.

WOMAN'S WORLD

Hot Sun and Sand Cause Special Hair, Face Problems

By Erta Haley

HAS SUMMER weather played havoc with your nice complexion? Has it dried out and bleached your hair? Take a good look and get to work on hair and skin so that you'll be ready for new fall clothes.

There's no magic formula for ridding yourself of these problems unless that would be care. Yes, care is the ingredient which will smooth your skin and put luster back in your sun-dried tresses. It isn't something that can happen in a day or even two, but care for a week should show you at least the beginning of some wonderful results.

If you plan to get out in the sun for at least awhile longer, then protect yourself against summer elements which can play havoc with shiny hair and smooth, silky skin. Wear hair covering if you're going to be out in the sun for any length of time. It's a good idea to shade the face with a brim of some kind, too, while you protect hair.

Restore your hair beauty . . .

Protect the skin against harmful sun rays with one of the many available preparations. It's possible to tan further, even in late summer, but don't let yourself in for a painful burn in the process.

It's a good idea to cream the face thoroughly after exposure to prevent scaling and drying out which coarsens pores. Use light or heavy cream depending upon your particular skin.

Don't forget that we have to make special efforts towards cleanliness during summer and that means plenty of tub baths, showers, and frequent soap and water cleansings for both face and hands. If you allow dirt accumulations, then you can expect a crop of blackheads that are not always so easy to remove.

Bring out Hairbrush If Hair Has Dried

Long exposures to the sun will bleach and dry hair. If you've allowed this to happen, you know that hair is not nearly as manageable as it can be. Curly hair can't take as well, and you're at your wit's end to know just what should be done.

Your hairbrush can do part of the job for you, not only in cleaning the hair, but in polishing it and stepping up circulation which will bring back natural oils to the hair. The latter is the trick, of course, which brings a normal oiliness back to hair, for putting oil on the hair is of very temporary help.

Women with really beautiful hair, actresses and models, rely on about a 15 minute daily brushing to make their locks shine. This may seem like a lot of time, but if you're at

Summer Shampoo Care

In the good old summertime, extra shampooing care is needed to keep hair lustrous and well-groomed. Frequent exposure to hot sunlight tends to make even the smartest hair-do look parched and lifeless. Bring back the silky softness with a summer shampoo that includes a water conditioner which helps you get extra lather from soap, then helps remove every trace of soap in rinsing.

all hair-conscious, then why not try giving yourself two minutes in the evening for brushing? Five minutes is still better, but you can work up to this after you see how much good two minutes daily can do.

Choose a brush with firm bristles, that are flexible. Also select one that's easy to clean, as the brush should be washed at least as often as you shampoo.

and rejuvenate your face.

Try carrying a small brush in your pocketbook so that you can brush your hair into place while out. It's a good stand-by for a quick shine, for fluffing and for smoothing stray ends wonderfully into place.

Brush with long, vigorous strokes, and don't be afraid of disturbing waves and curls. They'll spring into place better after brushing. Brush a section at a time, and then go over the whole head.

Straighten the hair after brushing and adjust to the way you want to wear it. Never go to bed with hair in disarray.

Scrupulous Cleanliness Is Essential to Hair

Whether hair is thick or fine, it must be kept clean. This is particularly important during hot weather as we perspire much more than when it's cold, and hair is apt to hold these odors unless shampooed frequently.

If the hair has been dried by sun and you encounter split ends place a few drops of oil on the ends for treatment. Let it remain for at least an hour before shampooing.

A good 15 minutes brushing before a shampoo will recondition hair which has been exposed to the elements. Brush vigorously with head bent towards floor and brush the hair out. This will remove much of the sand and surface dust on the hair, and make washing and rinsing so much easier.

If sun bathing and swimming have left the hair looking like a farmer's hay stack, then treat the water for a shampoo with a water normalizer which will help the tresses to return to their silken softness. A few teaspoons of water normalizer in the water you wash the hair, and then again in the first rinse water will do the trick. You'll get abundant lather in the washing, and in the rinse water, you'll be able to strip the hair free of every trace of soap, as well as any sand or chlorine from swimming pools.

A few drops of your favorite cologne may be used for setting the hair after a shampoo for an extra nice touch. Avoid anything heavy for setting as it will leave a film which dulls the natural brightness of the hair.

Though you may set the hair rigidly, brush and comb out thoroughly before emerging to the outside. Casual but neat, whether hair is long or short, is the rule.

KATHLEEN NORRIS

Time Helps Human Judgment

THE VERY SUREST cure for most of our troubles is so simple and so close that few of us have any faith in it. It is right in reach, all the time—in fact, that's what it is. Time.

We'll try anything else. We'll leap into the car and rush to Mother's, call up Walter and Washington and ask him what on earth his letter means, move from the old house, move from the familiar town, engage lawyers, appeal for divorces—all in a desperate hurry.

We forget that cures for everything—everything, lie in Time. Today's loss, anger, disillusionment, disappointment, pain, all must give way to Time. Our shortsighted human judgment leads us into mistake after mistake, but Time will straighten them out, if we give it a chance. The agonizing crisis, the apparent wreck of everything we worked for, hoped and dreamed are awaiting the moment when they will blend in with a larger pattern than we can see now. But we won't wait.

Hundreds of women write me every year for quick solutions of situations that have been years in the building. The laughter and joy of engagement days, the flower-

"... hundreds of women write ..."

scented wedding day, young wifehood, young motherhood, all these were building to something. All these grew through the years. But they must be thrown aside in a hurry, without the loss of a minute.

Time Makes Difference

Living with husband, mother-in-law, stepchild is "impossible." How they love that word impossible! Hats are impossible, children's manners are impossible, the weather is impossible, and endurance of conditions at home has become impossible. Any change would be better than this, and some change must be made instantly. Time? Why should Time make any difference?

It is hard to believe; it is impossible for some women to believe—but things do change. Everything changes, and quite differently from anything we can foresee. Personalities at the office change. Children begin to get dawns of sense and character. A winter comes without the incessant head colds, the wet cribs, the burned oatmeal saucers. The siren at the office marries and goes away, and George comes humbled and ashamed to his old loyalties. The burdensome old father and the insufferable mother-in-law drop out of the picture, and leave the way clear to buy that house in the suburbs, and expand a little and really enjoy life.

Unexpected good things do come to the man and woman who shoulder their responsibilities, endure what they don't like about each other or the situation, and develop all that is good and loving in the life they have decided to build.

Destroyed Life's Pattern

But good things and unforeseen

Be Fussy About Cleaning Face

The face, just like the scalp, will perspire heavily during hot weather and will require more strenuous efforts to keep in condition. Washing the face in soap and water several times during a hot day is one of the best ways to keep it clean.

There are, however, other tips, too. Are you being as fussy as you possibly can about powder puffs? With a face perspiring and numerous pores letting out their secretions, puffs can soon look like very sorry items to use on the face. If you continue to use a soiled puff, you push dirt into pores which will break out in blackheads, always difficult to extract.

Try using disposable devices which can be discarded after each use if you want the utmost in cleanliness. These include cotton squares or cotton balls, both of which are sterile. They're extra soft, too, for faces which have been touched with sunburn.

Cream cleansings should go hand in hand with water cleansings as they will return some of the beneficial oils baked out by sun and wind. These creams can be applied at night to be left on, or you might apply them just before stepping into the bath, so they can remain on the face for a little while.

When creaming the face, don't neglect the eyelids, for these will easily add age to the face if they become dried and lined.

satisfactions do come to the couples who break up at the first long strain, the first long series of disillusionments and storms. They have destroyed the pattern, the even flow of human events. They have packed the silver, scattered the children, and committed themselves to the dispersing to anyone who will listen, of long tales of injustices and sufferings. No matter with what cold reason they decide on a divorce, before they get it there is inevitable mud-slinging. From telling friends that she and Ned simply aren't compatible, Sylvia must go on hinting pretty openly that (1) there was mental cruelty, (2) Ned drank terribly, (3) he never gave her a cent, (4) there were other women, lots of them, and, (5) nobody knows this but Mama, but there was physical violence.

And having thus destroyed every last shred of her recently ivory-white, rose-scented, laughter-and-music-accompanied marriage, Sylvia sits back and waits for something immensely pleasant and exciting to come her way. It never does.

It can't be done. Sylvia has outraged nature, who wants parents to carry children up to years of self-dependence and reason, and she has outraged Time.

To Mary-Belle Mason, down in San Antonio, my message this morning is, leave something to Time. Mary-Belle's loved sister recently died, leaving a 3-months-old boy. Mary-Belle's husband argues that his two girls are raised, he's been through all that pabulum-and-sitting business, and he wants Mary-Belle to accompany him on sales trips next winter.

Starling Is Queer Bird

Often a Nuisance, It's in U. S. to Stay

A JEKYLL AND HYDE of the bird world is the widely detested starling. First introduced from England about 60 years ago, this bird has spread unimpeded over more than two million square miles of North America from New York City where it was first released. It still is spreading, and there is no end in sight. It already occurs north to Greenland, south into Mexico, and westward to the Pacific coast. The spread is spasmodic, apparently expanding whenever the pressure of starling population becomes too heavy for the birds' comfort.

Everywhere the starling has gone, especially in cities, it is regarded as a nuisance because of its objectionable flocking and roosting habits. But it seems nearly immune to most weapons used against it.

On the other hand, it is in some respects a highly beneficial species. It feeds largely on weevils that are the chief enemy of grass and forage crops—especially the clover leaf weevil. It is a major enemy of destructive beetles, including the Japanese beetle, and the potato beetle. It devours enormous numbers of destructive caterpillars. It is hated as a cherry eater, but stomach examinations indicate that in this respect it is no worse than some other birds. On the whole, it is concluded, its food habits are beneficial to man.

Improvement
Asked on an examination to "give an account of the creation of man," a small Los Angeles schoolgirl wrote:
"First God created Adam. He looked at him for a while and said, 'I think if I tried again I could do better.' Then He created Eve."

It's CRISPY!

New Ramp

A recent development at the Union Stock Yard in Chicago providing low, wide steps instead of a cleat ramp has proved highly successful not only in speedier handling but also in preventing costly bruises. The hogs ascend the steps at least twice as fast as when the old-time ramps were used, and injuries have become rare with this type of equipment.

U.S. Forests One-Fifth Original Size, Report

When Columbus discovered America, nearly half of the land area of what is now the United States was covered by dense primeval forests. Today these forests have been reduced to less than one-fifth their former size. Much of our standing timber today is poor quality second or third growth. We are still cutting saw timber faster than it grows, and further reducing our forests.

Self Serving Barn Great Labor Saver

Device Is Most Useful Developed in Years

One of the strangest, and possibly the most useful, agricultural devices developed in recent years is the cattle cafeteria.

The cafeteria is actually two steel Quonset huts, one built inside the other. Between the two, there is a space of about 1' feet. Hay brought in from the field is chopped and blown into the top of the larger

The cattle cafeteria was invented by Paul Masur, partner in a Wall street firm.

structure. It falls down on the other, settling between the two. When the space is filled, the cafeteria is ready for operation.

A series of gates, hinged at the top, may be raised to feed cattle inside or outside the barn. The slats are spaced just wide enough to admit a steer's nose and are also hinged at the top. As the cattle make pockets in the hay they push against the slats. The constant swinging dislodges more hay from the storage area above and it falls down.

The outside gates provide shelter for feeding animals in cold weather. According to reports from a farm where the "cafeteria" has been used, 44 beef steers have been fed through an entire winter with a total of four man-hours of labor. Once the storage area was filled, the farmer walked off, his job done for months.

The idea seems especially good for the northwest where winter feeding of relatively small herds is a constant, laborious chore.

Dimethyl Thallate Is Good Chigger Repellant

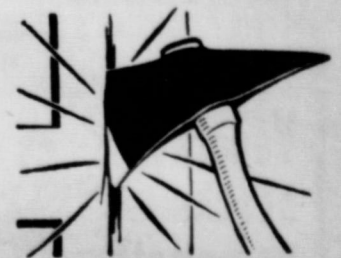

If you are bothered with chiggers—and most people have been this summer—extension entomologists suggest repellents containing dimethyl thallate as the most effective.

This solution should be applied around the tops of the stockings, or in a band around the ankles. They caution against indiscriminate use because the chemical stains some fabrics.

Once the chigger's got you, treating the affected portions of the skin with 5 to 10 percent solution of benzocaine in alcohol is recommended by T. H. Parks of Ohio State University.

There is no positive method yet devised for treating yards and lawns to eliminate chiggers, but many people have found dusting the lawn with powdered sulphur helps.

Parks suggests using the cheapest grade of sulphur available, and applying it generously to the lawn with a dust gun.

An Expensive Cut-

If Firemen have to fight their way thru to a blaze in your home, every swing of their axes will mean a hole in your pocketbook . . . unless you have adequate insurance.

IMPERIAL...is the word for it!

"Imperial," says Webster, means "superior excellence." IMPERIAL, says Chrysler, is this luxurious new car that excels anything on wheels in the sheer exquisiteness of its styling. Come look inside this reigning beauty . . . look at the lavish wool broadcloth fabrics, tastefully combined with topgrain leathers. Look at the lovely color harmonies, the soft sheen of the butler-finished chrome. Consider the advantages of Fluid Drive . . . exclusive new automatic transmission . . . Waterproof Ignition . . . Full Flow Oil Filter . . . High Compression Spitfire Engine . . . electric window lifts . . . the CLEARBAC rear window for exceptional driver vision . . . and dozens more. Surely, of all the world's fine automobiles, only the Chrysler CROWN IMPERIAL, this car's running mate, achieves the same aristocratic distinction. Come see the flawless workmanship, the fine materials, the superb Chrysler engineering . . . and you'll agree that no other car, at any price, compares with the Chrysler IMPERIAL. Inside or out, there is no finer car in America!

ONLY THE CHRYSLER IMPERIAL offers you this absolutely unique system of window control! Each window has its own separate electric motor . . . each one can be raised and lowered independently from the driver's seat or at the window itself. And that's not all! So many other de luxe features . . . the kind you think of as being in the "special order, extra cost" category . . . are STANDARD EQUIPMENT on the Chrysler

Imperial. For example: armrests on all four doors . . . foam rubber seat cushions and seat backs . . . double-width center armrests in front as well as rear seats . . . stainless steel wheel covers . . . white sidewall low-pressure tires . . . carpeted luggage compartment! Full flow oil filter and many other engine features! Yes, you get all these extras at standard equipment with your beautiful new Chrysler Imperial.

New beautiful Chrysler Imperial . . . one of 21 lovely Chrysler body styles!

Inside and out . . . it has no equal at any price . . .

HOUSEHOLD MEMOS... by Lynn Chambers

Keep Vegetable Interest High (See Recipes Below)

Vary Your Vegetables
VEGETABLES appear on the menu so often, homemakers often find themselves at a loss as to how variety may be introduced in their service.

If you're doing some baking, why not bake the vegetable, too? If your menu plans include a meal prepared on top of the range, why not pan-fry the vegetables, or make a sauce to add sparkle to them?

Sauces do excellent things to vegetables which you've been used to serving in the same, old, boiled way with just salt and pepper as seasonings.

Then, too, there are combinations of vegetables that can be pleasing, like lima beans with corn, carrots and parsnips, green pepper and onions with limas and zucchini squash with tomatoes.

Vegetables can be varied simply by their treatment: carrots in timbales, potatoes in pancakes, molded asparagus.

IF YOU'RE serving two vegetables, pick them for flavor and color contrasts, like this combination of potatoes and green beans:

***Green Beans, Butter Herb Sauce (Serves 6)**
1 1/2 pounds beans
1/2 cup butter
1/4 cup finely minced onion
2 tablespoons minced parsley
1/2 teaspoon thyme
3 tablespoons lemon juice
1 teaspoon salt
1/4 teaspoon paprika

Cook beans in boiling salted water until tender. Fry onions in melted butter until tender but not brown, about 5 minutes. Add remaining ingredients and pour over hot, cooked beans.

Cheesed Potatoes (Serves 6)
8 medium new potatoes
1/2 cup butter
1/2 cup minced chives
1 teaspoon salt
1/2 teaspoon paprika
1/2 cup grated American cheese

Cook potatoes in jackets; drain and return to low heat, for 2 to 3 minutes, shaking gently until they are hot and mealy. Turn into a hot serving dish. Meanwhile, melt butter, add minced chives, seasonings and cheese. Pour hot cheese mixture over potatoes. Sprinkle with extra chives and a dash of paprika.

Baked Succotash (Serves 8)
2 cups dried lima beans
4 cups water
2 1/2 teaspoons salt
1/4 cup dark molasses
1/2 teaspoon dry mustard
1/4 teaspoon black pepper
1 teaspoon Worcestershire sauce
2 tablespoons minced onion
1 1/2 cups cooked (12-ounce can) whole kernel corn
4 strips bacon

Soak beans in water overnight. Add 1 teaspoon salt; bring to boiling point; simmer but do not boil about 45 minutes. Drain; save water.

LYNN SAYS:
Here's How to Get Most out of Vegetables
Baking is one of the best methods for preserving vitamins and minerals in vegetables. Simple baking until the skin can be pierced easily with a fork works best on the following: potatoes, sweet potatoes, squash, turnips, carrots, onions and parsnips.

Many cooked vegetables when served the second time can be more palatable if sautéed in butter and bread crumbs.

LYNN CHAMBERS' MENU
Oven Barbecued Chicken
Corn Pudding *Green Beans,
Butter Herb Sauce
Cucumber-Tomato Salad
Blueberry Pie Beverage
*Recipe Given

and measure; add water from corn to make 3/4 cup liquid. Mix liquid, molasses, mustard, Worcestershire sauce, onion, and remaining 1 1/4 teaspoons salt. Combine beans and corn. Pour into a 2-quart bean pot. Arrange strips of bacon over top. Cover and bake in a moderately slow oven (325° F.), 1 hour. Uncover and bake 30 minutes.

Lima Bean Casserole (Serves 6)

1 pound large lima beans
1/2 cup chopped green pepper
1/2 cup chopped onions
1/2 cup fat
3 tablespoons light corn syrup
1 can tomato soup
1/2 cup water

Soak clean beans several hours or overnight in water to cover. Simmer slowly until tender. Brown chopped peppers and onions in the fat and add the light corn syrup, tomato soup and half cup of water. Place drained limas in greased casserole and pour other mixture over them. Bake two hours in moderate oven.

Potato Pancakes (Serves 4-6)

6 medium-sized raw potatoes
2 tablespoons flour
2 eggs, beaten
1 1/2 teaspoons salt
2 teaspoons melted fat
1 tablespoon milk
1 teaspoon grated onion
4 tablespoons fat

Pare potatoes. Grate. Add flour, eggs, salt, 2 teaspoons melted fat, milk and onion and mix well. Heat remaining fat in heavy frying pan. Drop tablespoons of potato mixture into it. Fry, turning to brown on both sides.

Carrot Timbales (Serves 6)

2 tablespoons shortening
2 tablespoons flour
1/4 teaspoon salt
1 cup milk
5 large carrots, cut in pieces
2 tablespoons butter
2 cups soft bread cubes (1/4-inch size)
3 eggs, slightly beaten
1 tablespoon chopped onion
1 tablespoon chopped parsley
1/4 teaspoon nutmeg
1 1/2 teaspoons salt

Melt shortening in a small saucepan. Blend in flour and salt. Add milk and cook until thick. Clean and scrape carrots. Cut carrots in pieces and cook them in small amount of water until tender. Drain off remaining liquid. Add butter to carrots and mash them together. Combine mashed carrots and butter with bread cubes, beaten eggs, onion, parsley, nutmeg, salt and white sauce. Place mixture in 6 well-greased individual custard cups. Place cups in a shallow baking dish, partially filled with hot water. Bake in a moderate oven (350° F.) 35 minutes. Unmold and serve with sauce.

To freshen vegetables and remove insects, soak bud, head and fruit group vegetables in cold water to which salt has been added.

Yellow vegetables are among the most stable as to color and vitamin content. Use them often to get Vitamin A which will help you resist infections.

Cream sauce, either plain or with cheese added, will glorify many a vegetable when it's served as a leftover. Use this idea, too, when combining two small amounts of leftover vegetables.

WHEN SLEEP WON'T COME AND YOU FEEL GLUM

Use Chewing-Gum Laxative—REMOVES WASTE...NOT GOOD FOOD

When you can't sleep—feel just awful because you need a laxative—do as millions do—chew FEEN-A-MINT.

FEEN-A-MINT is wonderfully different! Doctors say many other laxatives start their "flushing" action too soon...right in the stomach. Large doses of such laxatives upset digestion, flush away nourishing food you need for health and energy, you feel weak, worn out.

But gentle FEEN-A-MINT, taken as recommended, works chiefly in the lower bowel where it removes only waste, not good food! You avoid that weak, tired feeling. Use FEEN-A-MINT and feel fine, full of life! 25c, 50c, or only 10¢

And I will on the First Tuesday in the Month of September, 1950 the same being the 5th day of the September, 1950, proceed to sell all of the right, title, interest and equity of the Defendants in and to said property at the Court House door of said County in the City or town of Tahoka, between the hours of 10:00 o'clock A. M. and 4:00 o'clock P. M. to the highest bidder for cash, provided, however, that none of said property shall be sold to the owner of said property directly or indirectly or to anyone having an interest therein or to any party other than a taxing unit which is a party to said suit for less than the amount of the adjudged value of said property or the aggregate amount of the judgement against said property in each said suit whichever is lower, subject also to the right of the defendants to redeem said property in the time and manner provided by law and subject also to the right of the defendants to have said property divided and sold in less divisions than the whole.

Dated at Tahoka, Texas, this 28th day of July, 1950.

WNU-L 34-56

Mrs. Alma Kincaid, 2125 East Adelaide, St. Louis, Missouri, who was suffering from deficiencies of Vitamins B₁, B₂, Iron, and Niacin, has turned into a regular clock-watcher since she has been taking HADACOL. Yes, she keeps her eye on the clock all day long, just waiting for breakfast, dinner and supper time. Imagine how unbearable life can be without enjoying good, wholesome food.

Here is Mrs. Kincaid's statement: "I have been taking HADACOL for over a year. Before taking HADACOL, I had stomach distress for quite sometime. Imagine how awful hard it is to live a normal life when you can't eat such delicious things as tomatoes, oranges, grapefruit, etc., or drink milk without getting horrible cramps and upsetting your stomach. One day I took my husband's advice and got some HADACOL. A good friend of his told him of the fine results he had gotten from HADACOL. And now, since I have been taking HADACOL, I can eat anything I want and really enjoy it. I have a wonderful appetite, too—thanks to HADACOL. Naturally I recommend HADACOL to all my friends."

Yes, HADACOL is Truly Wonderful

In the way it has helped countless thousands of folks whose systems were deficient in Vitamins B₁, B₂, Iron, and Niacin. HADACOL can help you, too, if you will just give HADACOL a chance. If you suffer from stomach distress, nervousness, insomnia, constipation, aches and pains of neuritis, or a general run-down condition, caused by such deficiencies, let HADACOL help you as it has helped others all over the country. Even hundreds of doctors are now recommending HADACOL to their patients suffering from such deficiencies.

Give remarkable HADACOL a chance to benefit you. Remember, you have nothing to lose. HADACOL will make you feel great after the first few bottles you take, or your money will be refunded. Only \$1.25 for Trial Size; Large Family or Hospital Size, \$3.50.

If your druggist does not have HADACOL, order direct from The LeBlanc Corporation, Lafayette, Louisiana. Send no money. Just your name and address on a penny post card. Pay postman. State whether you want the \$3.50 hospital economy size or \$1.25 trial size. Remember money cheerfully refunded unless you are 100% satisfied.—Adv. © 1950, The LeBlanc Corporation.

Frosty Cold Foods Help Cheer Family During Hot Spell

"MOM, WHAT do you have that's really cold to eat," is the question that keeps Mother hopping during spells of hot weather. There's apparently nothing so lifting to spirits as something icy cold when the heat is at its highest.

Well, then, what do you have that's really cold? What about a chilling beverage that packs as much nourishment as it does eye and appetite appeal? Or, how about a cooling dessert like ice cream or a chilled chiffon pie that you can make while the morning is still cool?

Smart mothers will keep the fixings for cooling beverages right at hand where the family can reach them. When you want something deliciously different in beverages, try some of these nourishing, chilled drinks. Several contain milk in one form or another, just in case the milk is difficult to get into the young folk in its pure form.

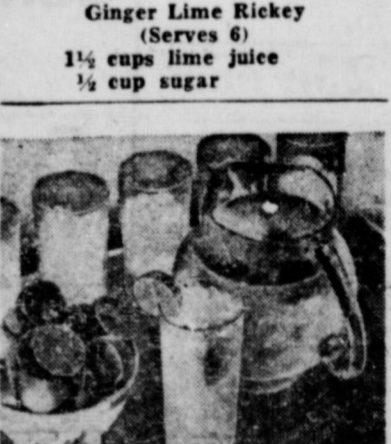

Orange Cooler
(Makes 5-6 glasses)
2 cups orange juice
1 cup lemon juice
1/4 cup maraschino cherry juice
1 cup ginger ale
2 tablespoons honey
1 pint vanilla ice cream
Mix fruit juices and ginger ale; add honey and mix well. Chill thoroughly. Add ice cream. Serve in chilled glasses and top with fresh orange slices.

Chocolate Mint Shake
(Makes 1 1/2 quarts)
1/2 cup cocoa malt
1 cup hot milk
3 cups cold milk
1/4 teaspoon salt
1 teaspoon vanilla
1/4 teaspoon peppermint extract
1/2 pint vanilla ice cream
Add cocoa malt to hot milk and stir until dissolved. Add cold milk, salt, vanilla and peppermint extract. Chill. Just before serving place in shaker or jar and add ice cream. Shake until smooth.

Pink Lemonade
(Makes 4-5 glasses)
1/4 cup lemon juice
1/4 cup sugar
4 cups water
1/4 cup berries, crushed, or
2 tablespoons cherry juice
8-10 ice cubes
Add sugar to lemon juice and stir until dissolved. Pour into pitcher with ice cubes and water. Stir in berries or cherry juice.

Chocolate Banana Milk Shake
(Serves 6-8)
4 large, ripe bananas
1 quart milk
1/2 to 1/4 cup chocolate syrup
Ice
Press bananas through a sieve, then add milk and chocolate syrup. Add ice and shake or mix thoroughly.

Ginger Lime Rickey
(Serves 6)
1 1/4 cups lime juice
1/4 cup sugar
Add sugar to lemon juice and stir until dissolved. Pour into pitcher with ice cubes and water. Stir in berries or cherry juice.

Nothing's cooler or easier to make when the temperature's soaring than a refreshing lime beverage. You may like a simple limeade of sugar, water and juice, with lime wedges and ice cubes, or you may prefer ginger ale with limeade for something different.

LYNN SAYS:

Try These Flavor Catching Ways With Your Foods

For biscuits that are a quick treat, make a drop biscuit dough, and stir in 2 teaspoons sugar and 1 teaspoon grated orange rind. Provide dressings to serve with cold meat platters to make them more interesting. You can start with mayonnaise, and then use it as a base with any of the following: chopped, hard-cooked eggs, chives, green stuffed olives and horseradish.

Simple but pretty is this ice cream dessert that has a flavor-some grape sauce to go with it. The ice cream is scooped on a large platter and garnished with frosted grapes set on galax leaves. Dip grape clusters with egg white, then dip in granulated sugar to give them a frostlike look.

LYNN CHAMBERS' MENU
Molded Salmon Salad
Sliced Tomato-Cucumber Garnish
Soured Cream Dressing
Bran Muffins
Butter Beverage
*Lime Chiffon Pie
*Recipe Given

1 quart ginger ale
Lime Wedges
Ice
Combine sugar and lime juice. Shake with ice until very cold and frosty. Add ginger ale and mix well. Serve with floating lime wedges.

***Lime Chiffon Pie**
(Makes 1 9-inch pie)
Crust:
5 tablespoons melted butter
1 1/4 cup graham cracker crumbs (about 12 crackers)
Filling:
1 package lime-flavored gelatin
1 cup boiling water
1/2 cup sugar
Grated rind of 2 limes
Juice of 2 limes plus water to make 1/2 cup
1 tall can evaporated milk
Mix butter and crumbs thoroughly. Press evenly over bottom and sides of 9-inch pie plate to form crumb shell. Chill.

To make filling, dissolve gelatin in boiling water. Add sugar, grated rind and lime juice. Chill gelatin mixture until it has the consistency of unbeaten egg white. Whip chilled milk until stiff. Fold whipped milk into gelatin mixture quickly but thoroughly. Pour into crumb shell and chill until set, about 2 or 3 hours.

Ice Cream with Grape Sauce
(Serves 6)
1 cup sugar
1/4 cup water
1 tablespoon lemon juice
1 tablespoon grated lemon rind
2 cups white seedless grapes
1 quart vanilla ice cream
Make a syrup of sugar and water, cooking until mixture spins a thread, about 5 minutes. Add lemon juice, grated rind and stemmed grapes which have been washed and dried. Cook together over low heat until grapes are tender. Remove grapes and cook until thick. Pour over ice cream on plate and pass with sauce.

Peach Refrigerator Cake
(Serves 6-8)
1 cup canned cling peach halves
2 teaspoons plain gelatin
2 tablespoons cold water
1/4 cup hot water
1 cup whipping cream
1/4 cup sifted confectioner's sugar
1 teaspoon vanilla extract
1 8-inch loaf cake
1 pint vanilla ice cream
Peaches and maraschino cherries for garnish
Drain peaches and press through sieve. Soften gelatin in cold water and dissolve in hot water. Stir into peaches. Chill until slightly thickened. Whip cream; add sugar and vanilla. Fold in peach mixture. Cut cake into 2 layers and put together with ice cream. Spear top and sides with whipped peach mixture. Place in freezing compartment until frosting has set. Garnish with quartered peaches and cherries.

Here's a half an hour casserole for quick dinners: layer sliced, canned tongue in a casserole with thinly sliced potatoes. Pour a can of onion soup over all and bake in a moderate oven for about 30 minutes.

Make these interesting stirrers for iced tea: use canned or fresh pineapple spears, and skewer a maraschino cherry on top of each with a toothpick. It's not only pretty, but it gives the tea a lovely flavor.

MANY NEVER SUSPECT CAUSE OF BACKACHES

As we get older, stress and strain, over-exertion, excessive smoking or exposure to cold sometimes slows down kidney function. This may lead many folks to complain of nagging backache, loss of pep and energy, headaches and dizziness. Getting up nights or frequent passages may result from minor bladder irritations due to cold, dampness or dietary indiscretions.

If your discomforts are due to these causes, don't wait, try Doan's Pills, a mild diuretic. Used successfully by millions for over 60 years. While these symptoms may often otherwise occur, it's amazing how many times Doan's give happy relief—help the 15 miles of kidney tubes and filter flush out waste. Get Doan's Pills today.

DOAN'S PILLS

TO KILL Chicken Lice AND Mites

Apply Black Leaf 40 to roosts with handy Cap Brush. Fumes rise, killing lice and feather mites, while chickens perch. One ounce treats 60 feet of roosts—90 chickens. Directions on package. Ask for Black Leaf 40, the dependable insecticide of many uses.

WHEN SLEEP WON'T COME AND YOU FEEL GLUM

Use Chewing-Gum Laxative—REMOVES WASTE... NOT GOOD FOOD

When you can't sleep—feel just a whiff because you need a laxative—go on MILLIONS DO—CHEW FEEN-A-MINT.

FEEN-A-MINT is wonderfully different! Doctors say many other laxatives start their "flushing" action too soon... right in the stomach. Large doses of such laxatives upset digestion, flush away nourishing food you need for health and energy you feel weak, worn out.

But gentle FEEN-A-MINT, taken as recommended, works chiefly in the lower bowel where it removes only waste, not good food! You avoid that weak, tired feeling. Use FEEN-A-MINT and feel fine, full of life! 25c, 50c, or only 10¢

FEEN-A-MINT
FAMOUS CHEWING-GUM LAXATIVE

Amazing NEW AUTO-LITE Resistor SPARK PLUG

HELPS ENGINES 3 WAYS

- * A Smoother Engine Idle.
- * Improved Gasoline Economy.
- * Increased Electrode Life.

Because of its low rate of electrode erosion, the new Auto-Lite Resistor Spark Plug permits wider initial gap settings and makes these advantages possible.

Mr and Mrs Tom Landers and their week end guests, his sister Mr and Mrs J A Elliot of Bonham and the Elliot's daughter Mr and Mrs Fred Smithson and son of Sherman attended the annual Hall Co. reunion at Lubbock Sunday

MISS MARSHALL WEDS

Miss Billy Jean Marshall, daughter of Mr and Mrs Rex Marshall became the bride of John Edwin White, son of Mr and Mrs J R White of Floydada Saturday evening Aug. 5th in Clovis N. M. with Bro. Chandler performing the single ring ceremony. The bride chose a brown dress with white accessories and corsage of white carnations. The couple will be at home at Friona where both are working. Mrs White will be remembered by many in O'Donnell as she spent the first 13 years of her life here. She is the grand daughter of Mrs Betty Terry of here. Our congratulations.

AND MARKET

T. V. WOOLAM GIN

Will have their opening day Thursday August 31st. Everyone who is interested in better grade cotton is invited to be there as we have some very rough cotton to gin on our new machinery.

We have installed lots of new machinery including the Lint cleaners and expect to increase the grade at last one grade. We hope the grower will be as proud of this improvement as we are.

Again we invite you to visit us Aug. 31st between 10 a m and 3 p. m.
