Mr. and Mrs. North Find A Clue

"One taste is all the clue I need," says Richard Denning who is much better known as the amateur sleuth Jerry North. "This is the quickest case I've ever solved."

Jerry is sampling the proof of Barbara Britton's claim that she can cook.

Barbara Britton and Richard Denning star in the movie, radio and TV mystery drama "Mr. and Mrs. North."

You Can Do It, Too

Millions of housewives have also discovered the "clue" to delicious desserts such as this chocolate mint pie.

Even if you have no talent for solving mysteries you can take one package of Burnett's Instant Chocolate Pudding and mix it with two cups of milk, at room temperature.

Then add one teaspoon of Burnett's peppermint flavoring and pour into a prepared pie shell. Ahhh! You don't put it in the oven. Just let it set and you have a delicious pie.

No cooking, no fooling!

DETECTIVE IN THE KITCHEN - Mr. and Mrs. North solve a mystery - and really enjoy it at the same time.

Draft Law Explained

Young men of draft age who ask for and get deferments under certain conditions automatically extend the time during which they can be drafted by nine years. Brig. Gen. Paul L. Wakefield, state draft director, names the following types of deferred men, among others, who have their liability for service extended until age 35:

1. Members of ROTC and other officer training programs.

2. Students deferred to go to high school or college under requirements of law; college students deferred under authority of the local board.

3. Men left at home for civilian employment.

4. Men deferred to farm.

5. Married men deferred because of their children or because of extreme hardship and privation to dependents.

6. Men classified as mentally, physically, or morally deficient or defective.

"The regulations spell this out, so when a man gets the privilege of a deferment he is taking on a corresponding responsibility. The man who never receives a deferment like these cannot be drafted after he reaches his 26th birthday," Gen. Wakefield said.

The state draft director says that, under this provision of law, it is possible for a deferred man to lose his qualification for deferment at age 34, for example. Under such circumstances, he would again be eligible for draft.

Box Rent Goes Up July 1

Rent is going up on your post-office box.

Higher rates will become effective July 1 and the increase will range from 35 to \$1 per quarter. Acting Postmaster C. R. Burleson, Jr. said Monday.

A small postoffice box now costing 60 cent for a three month period will be hiked to 90 cents. Other rents will be as follows: current 75 cent boxes, up to \$1.10, current \$1.00 boxes raised to \$1.50 and current \$2.00 boxes up to \$3.00.

Burleson said the increase in box rates is the first basic schedule change in 46 years - since 1907. The higher rent - based on gross postal receipts of each individual postoffice - will be placed into effect thruout the nation.

Rent hikes are being made to meet with increase cost of providing equipment and maintenance service of the U. S. Postoffice Department, according to Burleson.

Payments must be made by July 1 to maintain box service. Box rent is handled only on a payment in advanced basis.

DeMolays Meet

The regular meeting of the DeMolay Mothers Circle was held in Lamesa last Tuesday. The meeting opened with a devotional followed by a prayer after which the group repeated the DeMolay's Mother's prayer in unison. Robes and the altar cloth recently made for the boys' chapter room were displayed. The chaplain's robe as well as several others are yet to be made by the mothers. Mrs. Whitlow was elected secretary after a letter of resignation was read from Mrs. Lucille Worthington, who will be away all summer.

A bake sale was planned for the last of June to be held at Piggy Wiggle store to raise funds for materials for other garments to be worn by the youths in their chapter work.

A most impressive reading was given to the Mothers of DeMolays by Dennis Lamphere. The circle closed with the group repeating the DeMolay's Mother's creed.

About 20 attended. Every mother with a son in the DeMolay's is urged to attend. Meetings are the second Tuesday of each month at 7:30 over the First National Bank in Lamesa.

Campaign Is On To Teach British How to Drink Tea

LONDON—A campaign is underway to teach the British how to make tea. Some tea producers think the British have lost the art.

The world's big tea producers are worried about this loss. They blame the niggardly use of their product for the lack of excellent cups of tea in Britain and for the drop in the tea business.

The tea moguls, owners of huge plantations in India, Ceylon, East Africa and Indonesia, say a dozen years of rationing have knocked the know-how out of British tea-making.

They say the art has become so lost that a whole generation of Britons has never had a decent cup of tea.

Through their London-based tea bureau the tea men have just finished a survey showing that a lot of British youngsters don't drink tea any more. The reason—British mothers just don't make it right.

The main trouble seems to be they don't put enough tea in the pot. And some don't even use a pot—they dip little bags of tea into the cup, American-fashion. To old-style tea-drinkers this is as horridifying as drinking it from the saucer.

To put things right the Tea Bureau has launched a king-sized campaign to put Britain back to these golden rules:

- (1)—Use a pot—china or earthenware and warm it—first.
- (2)—One spoonful of tea for each person plus one for the pot.
- (3)—Bring fresh cold water to the boil—but don't let it boil too long. Pour it on.
- (4)—Let the pot stand five minutes.

The bee that gets the honey doesn't hang around the hive.

An old resident of Dime Box once told us he had been shaving himself with a straight-edge "for nigh on to five years, and I ain't cut myself neither time."

After the wife has had the last word, she is just dying to know what we are thinking about.

U. S. Airmen Crash British Air Show

FARNBOROUGH, Eng. — The U. S. air force recently confessed that American Sabre jet fighters gate-crashed a supposedly all-British air show of fancy flying and displayed some fancy flying themselves, although endangering all the other participants in the show by their unscheduled antics.

Ten F-86 Sabres, used in Britain only by United States and Canadian fliers, stunted over the show thrilling spectators but spreading consternation among British authorities.

United States Air Force headquarters at South Ruislip admitted Americans were guilty of the prank and said disciplinary action was being taken.

Hot weather means that swimming and other water sports will be on the increase and that means more deaths from drowning unless the strict rules of water safety are observed.

The less favorable price situation for agriculture currently is not the result of depressed domestic demand since the change came during a period of high employment and income. High over all production, reduced exports and the limited dollar exchange along with improved conditions in other countries are cited as major reasons for the drop in farm prices.

Chemically treating planting seed doesn't cost . . . it pays.

Chevrolet trucks must be the best buy!

Fleet operators, farmers, independent truckers—truck users everywhere—buy more Chevrolets than any other make. There can be only one reason for that: Chevrolet trucks offer more of what you want.

As the official registration figures keep rolling in, they keep telling the same positive story about truck popularity and truck value: Again in 1953, for the twelfth straight production year, truck buyers show a clear-cut and decisive preference for Chevrolet trucks. If you're a truck user, this fact is mighty important to you. Why? Well, as you know, trucks are built and bought for just one reason—to do a job. So isn't it logical then that since Chevrolet trucks outsell all others, they must do a better job at lower cost? That's why it will pay you to stop in and see us before you buy your next truck.

MORE CHEVROLET TRUCKS IN USE THAN ANY OTHER MAKE!

Politeness Is Cash in Till For Vendor

ST. LOUIS—"Twenty-five dollars in cash if I fail to thank you." That is the promise of Ted D. Gatlin, 47, news vendor here who believes it pays to be courteous. Whether it pays or not, it hasn't cost him anything. Despite practical jokes by his friends and customers to make him forget to say "thank you," Gatlin hasn't forgotten yet.

Faked a Faint

One woman faked a faint to shock Gatlin out of his courtesy. Her head hit a fire hydrant. "Thank you kindly," said Ted, as an ambulance hauled her off to the hospital for five scalp stitches. Gatlin learned courtesy was a business commodity when he was knee-high to streetcar conductors. His "thank you" once encouraged them to boost him aboard to sell his papers.

Gatlin began offering \$1.50 back in 1939 to any customer he didn't thank. Sales boomed and over the years he raised the offer. Gatlin says people try almost anything to get the \$25. Some, under the impression the offer is sponsored by a firm or newspaper, propose don't say-thanks-to-me-and-we'll-split-it deals.

Coy Young Woman

A coy young woman offered a telephone number, presumably hers, Gatlin said thanks but no thanks. Once a young couple stopped their car and asked for a paper. They began a quarrel about who had the family bankroll. The husband shook his wife. Gatlin wasn't fooled.

Two passing policemen pulled the man away and started to the police station with him. It took a bit of explaining to convince them he was only trying to fool the newsboy. Parents even send tots who can't talk for newspaper in the hope it will stump Gatlin. He just writes "thank you" on the newspaper. Gatlin would like to see a thank-you week where everybody is polite to everybody.

Brazil Is Sponsor Of Third Set Of Living Quints

RIO DE JANEIRO—The Brazilian government is boasting about the birth of the third set of living quintuplets in the world today—the Alban quint, five girls born recently to Mrs. Maria Aparecida Alban in a mud and bamboo shanty.

The startled father named all the girls after their mother—Maria Aparecida I, Maria Aparecida II, etc.

The government stepped in shortly after the birth and took the parents and a local midwife by surprise. Ambulances, with sirens screaming, were rushed to the shanty, near the metropolis of Sao Paulo, and took the babies and their mother to a maternity hospital, where the infants were placed in incubators.

The incubators had arrived recently from the United States and still were uncrated at the time of the multiple births. While the quintuplets were being sped to the hospital, workers succeeded in uncrating and assembling the incubators, and finished just as the ambulance arrived.

The midwife became panicky after the birth of the second child and called in an obstetrician, who completed the delivery of the remaining three.

The mother's age was not learned. The father's name was given as Joao Albano, 36, a handyman.

The quint varied in weight, but all were approximately two pounds, eight ounces. The last quintuplet was born about three hours and 15 minutes after the first baby was delivered.
