SWEET N' SOUR

By A. Dill

About the biggest news around these diggins is the arrival of the Headlight, school year book, which is slated for Tuesday. There will be a presentation program at High School to mark the occasion and Mrs. Clyde White and the Annual Staff are more than just a little excited over it. They believe they are handing over to the school the finest book in history, certainly the largest and most complete. A world of work has gone into making the book but if it measures up to expectations then the love and labor that have gone into it are justified.

Easter time was something very special to W. D. (Mr. Will) Boydston this year. The gentleman spent the weekend in Brownsville with his daughter and family, Mr. and Mrs. W. D. Furgason. Also present for the celebration was Mr. and Mrs. Sam Boydston Stokes and three youngsters of Corpus Christi. Mr. and Mrs. Donald David Furgason and two children of Brownsville were part of the house party. Mr. Will made the trip with Mr. and Mrs. Herman Harper of Abilene and he insists the gathering wouldn't have been complete without the Harper's pet pups who accompanied them. One of the highlights of the party was following an old Spanish custom of tossing confetti filled eggs at the guests and Mr. Boydston brought some of the delicately hand painted confetti egg shells home to share with his friends.

Mr. and Mrs. Roy D. Williams had special, very special guests for the holiday time—V. M. and Maxine Easter and young sons Bob and Jim were here from Midland. Its always a treat to have the children and grandbabies home and especially so at this glorious Spring celebration of Easter time.

Mr. and Mrs. Virgil Hughes were delighted last week with a visit from Mrs. Hughes brother, W. B. Crawford of Ft. Worth. Some more happy people were the G. H. Corns — Mrs. Corn's brother Ben Bradley of Downey, California was here for a visit, and to make things even nicer, son Ben Corn of Marshall came up for the weekend.

Things were gay at the Lonnie Ray home this Easter too—Bud and Ruth Etherly and the girls were here to see Lonnie and Bess and a visit from the Etherlys is always reason enough to celebrate.

John Bullock breezed in from Howard Payne University for Easter holidays.

A tin of the hat, please, to our FFA Livestock Judging team, Mike Odom, Taber Bearden, and David Schaffrina, who placed third in some mighty stiff competition at Stephenville this week. E. L. (Chief) Reese, head of the Baird V. A. department, would have you know that over fifty teams completed for honors and placing in the top three is terrific. He's justly proud of the youngsters and all of us feel sort of ditto—and by the way, it's wish the boys luck in the

have the opportunity to hear so distinguished a speaker as Judge Greenhill.

Judge Greenhill holds three degrees from the University of Texas, each of which he received with the highest honors—BA, BBA and LLB. He was selected to Phi Beta Kappa and to Beta Gamma Sigma honorary business fraternity. In the Law School he was selected to Phi Delta Phi and the Order of the Coif.

He received his license in 1938, and entered the practice of law in Houston in 1939. After two years of practice there, he was invited to become a briefing attorney to the Supreme Court in 1941.

He served in World War II as an Ensign in the U. S. Navy. He served in the Naval Intelligence during 1942. Thereafter, he was assigned to active duty and spent the rest of the war in the Pacific.

After World War II, he returned to the Supreme Court, as a briefing attorney. He was appointed Assistant Attorney General in 1947, and became First Assistant Attorney General in 1949-50. In August 1950, he returned to private practice as a partner in the Austin firm of Graves, Dougherty and Greenhill.

He was appointed Associate Justice of the Texas Supreme Court in 1957, to succeed the late Associate Justice, Few Brewster. In the primary, last July, he received the Democratic nomination for that post and was elected to it in the general elections last November.

Baird Little League Meets

Officers, managers and parents of the Baird Little League met Tuesday night, April 7, 1959 at 7:30 in the Baird School Cafeteria.

Plans were formulated for the coming baseball season which will begin shortly after school is out.

This year the Baird Little League is officially affiliated with National Little League and will be allowed to have an All Star Team and will also be allowed to enter tournament play.

It looks like it will be a good year for the League and as you all remember from last year it afforded many people entertainment and of course kept lots of little boys occupied.

The Baird Little League parents plan to hold a cooked food sale Thursday, April 30th—which will be the day of the Rodeo Parade. Everyone should remember that this sale will be held and if you are having company call up some of the officers and parents and place your order for either cakes or pies.

The managers and fathers plan a work day soon to work on the ball park. There is quite a lot of work to be done down there as this year we have to have dug outs for the boys and the field needs lots of work—so when the time is set for sure try to come on out and do your part. They plan to have the field smoothed off this year and thus eliminate possible accidents.

The treasury of the Little League showed a balance of \$38.45 up until last night at which time they received a contribution from the Junior Wednesday Club of \$25.00 which brought it up to \$63.45 so we will need to have a good turn out of the cooked food sale plus some more money for additional uniforms, new caps and other equipment which will need to be replaced this year.

Prizes Offered in Child Photo Contest

The time is almost here for the opening of this newspaper's Big Child Photograph Contest, and we're urging all of our readers to have their children ready for the big day.

Winston B. Lucas of Irving, Texas, will be in Baird, Friday, April 17th, 10 a. m. to 6 p. m. at The Baird Star office for the purpose of taking pictures in this vicinity.

In addition to having their pictures printed in this newspaper, the children will be competing for \$18.20 in prizes, which are being offered for the three best photographs made during the day.

The photographs will be made absolutely free of charge, and there is no charge for their publication in The Baird Star. Proofs will be shown and from these you may select the picture of your child which you would like to appear in this newspaper. If you wish extra photographs, they may be purchased, but no purchase is necessary in order to have your child's picture printed in this newspaper, or in order to compete for the prizes. It is entirely up to you, whether you buy pictures or not.

There is no age limit on the contests, and every child's photograph in this section is wanted so that they may all appear in The Baird Star. However, it is necessary that all pictures must be of uniform size, so they must be made by Winston B. Lucas on Friday, April 17th.

Don't wait until little Mary gets married or baby brother is elected to some political office to see their pictures in the paper—make plans now to have these photographs made on Friday, April 17th. Tell your friends and neighbors—the more, the merrier.

New Association Organized Here

Callahan County has just acquired a new organization, the Callahan County Predator Control Association. It was created at a meeting in the Courthouse at Baird on the night of April 2, 1959.

Twenty-seven ranchers representing every community in the county gathered to set up the new organization. Its purpose is to promote the control of all predatory animals with special emphasis on those varmints which prey on sheep and goats. The twenty-seven persons present represented ownership of 15,200 head of sheep and goats within the County.

As the first order of business, the group elected Ray Alderman of Baird its president. The group then voted to assess each member 30 per head for each goat or sheep owned. The response to this assessment was unanimous. With a treasury quickly established, the group agreed for this money to be used primarily to support the activities of the government trapper working in the County.

The group passed a resolution praising the work of the government trapper, Mr. J. R. Barron of Clyde. Mr. Barron was commended on the good work he has done in bringing several species of predatory animals under control.

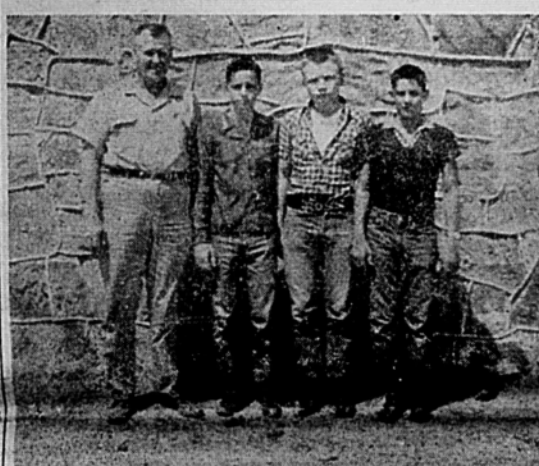

The group decided that each member would contact his neighbors who own sheep and goats and influence him to join the organization. It was felt that only through organization and pooling of funds could the mission of the group be accomplished. All sheep and goat owners in the county are urged to contact Mr. Alderman at Baird, if they wish to participate in the program.

Highlights of the State Capitol

AUSTIN—With just about a month left between now and May 12, automatic adjournment date, it's "now or never" time in the Texas Legislature.

Bill sponsors are challenging other members to "pass it or kill it." No more playing the waiting game. Less juggling of the parliamentary ball.

House Speaker Waggoner Carr gave this "get with it" mood a strong shove by taking a firm stand on tax goals. "There is no Santa Claus," Carr told House members. Texas must raise \$300,000,000 in new money to meet its obligations, he said. On "how to do it," the Speaker made these suggestions and observations:

1. A bill is needed "which will include a broad array of selective taxes — including, but not confined to — selective sales taxes."

2. A general sales tax is out. Lawmakers will—and should—keep their promises not to pass one.

3. "Broad" taxation would include upping levies in areas suggested by the governor—natural gas, liquor, cigarettes, corporations — but at lower rate than suggested by the governor.

In addition, many new items would be added, in keeping with the "spread thin, hurt little" principle.

4. "Piecemeal" taxation is unfair, inadequate to the present challenge. State government should not "reward political favorites." New taxes should be "spread across as much of the Texas economy as possible."

5. Likewise on appropriations. If college professors and state employees get a raise, public school teachers should, too.

Carr's speech was regarded as public announcement that he is taking the reins of leadership to get a tax program passed.

Gov. Price Daniel's comment on Carr's statement was in the vein of "why didn't you say so before?" Daniel said, "I am in agreement with much of it and only wish it had been made 30 days earlier."

House Taxation Committee Chairman V. L. Ramsey of Beckville named a five-man committee to write a tax bill and have it ready early next week.

Given the task of Reps. Wesley Roberts of Lamesa, H. J. Blanchard of Lubbock, Joe Burkett of Kerrville, Ben Atwell of Dallas and Warren C. Cowen of Ft. Worth.

ABANDONED PROPERTY BILL — Governor's abandoned property bill has been reported favorably by the House Tax Committee, but sponsors claim it has been "gutted" by committee action.

As originally proposed, the bill would have allowed the state to take over bank accounts and money and property held by banks, insurance companies, oil and gas companies, etc., if unclaimed for seven years.

As amended, the measure cut out all holdings except bank accounts and upped the waiting period to 20 years.

Rep. Marshall O. Bell of San Antonio, sponsor, said this would take away 60 per cent of the revenue raising possibilities.

TEXAS IN 1980 — Creation of a vast "government center" that would cover most of an area seven blocks long and four blocks wide is the aim of the Capitol Hill Master Plan.

Legislators, whose assent will be needed to make the dream a reality, got a preview of the 20-year plan from architects and Building Commission members.

Governor Daniel said the \$37,000,000 project could be financed with no new taxes. Income, he said, would come from the Confederate pension fund, funds of state agencies now paying rent for privately owned buildings and funds now available to the Building Commission.

Recommended steps for 1960-61 are buying up several more blocks of land and remodeling the Capitol to provide offices for House members.

PARTY REGISTRATION FIGHT — A watered-down party registration bill is in line for House consideration after approval of the Elections Committee.

Original proposal by Rep. Jamie Clements of Crockett would have required that a voter state his party preference and have it stamped on his poll tax at time of purchase. Thereafter, the carrier of a "Republican receipt" could not vote in a Democratic primary and vice versa.

Attorney General Will Wilson ruled this unconstitutional. He said it set up requirements for voting not authorized in the constitution.

As amended, the measure provides that a voter would have his receipt stamped when he voted in a primary or participated in party conventions. This would prevent his participating in the convention of a different party until he bought a new poll tax.

Liberal Democrats, particularly DOT spokesmen, were very dissatisfied, even called the attorney general's opinion "dead wrong."

HELP FOR BUSES — In this two-car-in-every-garage age, public transportation companies say they've fallen into hard times, and need tax relief.

A bill to lower the license fees on motor buses to a rate equal to trucks of the same weight has Senate Transportation Committee approval. It is sponsored by Sen. George Parkhouse of Dallas.

City transit companies are asking to be relieved of motor fuel taxes. Rep. Warren C. Cowen of Fort Worth is sponsoring a measure to do this.

Transit companies are caught in a cost squeeze, say supporters, that makes it hard to continue serving working people at reasonable rates. San Antonio transit lines had to give up, were taken over by city government.

SUNDAY SALE BAN — Senate has given final approval to a measure that would prohibit selling, buying or trading motor vehicles on Sunday.

Exempted would be persons who observe some day other than Sunday as the Sabbath, such as Seventh Day Adventists.

IT'S THE LAW In Texas . . .

HOMESTEAD MAY BE SOLD FOR TAXES

Many Texans have the mistaken impression that their homestead cannot be seized and sold for delinquent taxes. In many cases, this idea has led to considerable grief and monetary loss which could have been avoided. A homestead should be rendered to tax assessors like any other property, and taxes assessed against it should be paid as faithfully as those on any other taxable property.

The deadline for rendering property for taxation is April 1, so far as most city taxing agencies are concerned. The last date for rendering real and personal property for state and county taxes is April 30. State taxes are collected by the County Tax Collector.

Under the Texas Constitution, each family is entitled to claim one piece of real property as their homestead. This claim must be established by an affidavit filed with the county tax assessor on or before April 30, each and every year. This affidavit must be filed by the owner himself. A lending agency cannot do so, even though it may actually pay the annual taxes thereon from a fund created by the owner's monthly installments.

When the homestead affidavit is properly filed, the owner becomes entitled to an exemption of State taxes up to the value of \$3,000 or 200-acres in the case of farm lands. This is an exemption from payment, not a complete exemption from rendition and assessment. There is no similar exemption with reference to city taxes, or to county taxes, except in certain counties levying a special 30 cents farm-to-market and lateral road tax.

The homestead claimed for tax purposes need not be the property which is actually occupied by the owner as his residence.

When the homestead affidavit is not filed by April 30, the taxpayer loses his right to the \$3,000 or 200-acre exemption, and consequently becomes liable for more taxes than he would otherwise be required to pay.

Property taxes are assessed against the person who is the record owner of each piece of personal property on the first day of January of each year. Individuals purchasing property during the year should make sure that the taxes for all previous years have been paid. Otherwise, the purchaser may be forced to pay hundreds of dollars in delinquent taxes to protect his property. Unpaid taxes create a lien against the property which can be enforced regardless of change of ownership.

One should also keep in mind to make some arrangement for the previous owner to pay his pro-rata share of taxes for the current year. Otherwise, the buyer may find it necessary to pay the entire taxes for that year.

When taxes are not paid by the deadline prescribed for the particular taxing unit (city, county, State or district). Monetary penalties and interest are added from month to month. In addition, the property becomes subject to seizure and sale to satisfy the tax lien. This lien applies to all property, whether home stead or not.

American Kite Man in Free China

TAIPEH, FORMOSA—The kite returns to land of honorable
ancestors—the Orient—carrying an American waterski. More
than a half-million persons on Formosa, Nationalist Free China's
off-shore stronghold, watch Tommy Bartlett's Mercury Outboard
Water Ski Show.

Underwritten by Mercury,
the show was co-sponsored by
the USO, Defense Department
and State Department. The
purpose of the 10-week tour of
the Far East was two-fold—
entertain servicemen and fur-
ther President Eisenhower's
person-to-person program. The
audiences and sponsors rated
the show as a tremendous suc-
cess on both counts.

"The show did not preach
Americanism or American pow-
er," Bartlett observed. "Instead,
it showed American progress to
Asians in terms that were easy
for them to digest.

"The members of the troupe
are all outstanding athletes and
fine American youths. The
show was a demonstration of

American leadership in a peace-
time recreational field—not
only in athletics, but in the
mechanical and engineering
leadership of American boats
and motors."

The skiers gave shows at
most of the service bases in the
Far East. Between perform-
ances, the troupe taught more
than a thousand servicemen to
ski with 22 horsepower Mer-
cury and helped organize wa-
terski clubs.

The GIs really appreciated a
show from home, Bartlett said,
and were eager to try water
skiing. At each site the troupe
built a regulation waterski
jump, which they left behind
for the servicemen to use.

**Safety is Keynote of
4-H Tractor Project**

Safety is in the driver's seat
as the 4-H Tractor program
rides into its 15th year of activity,
according to Humble Oil and
Refining Company, sponsor of
4-H awards in Texas and New
Mexico. The program is conduc-
ted by the Extension Service,
Texas A. & M. College.

More than 5,500 Texas 4-
H'ers are enrolled in the pro-
gram. Together with their local
leaders and county Extension
agents they are striving to re-
duce fatal tractor accidents
which last year across the na-
tion numbered 1200. Another
48,000 accidents resulting from
improper use of tractors were
reported.

Besides safe operation, club
members learn efficient opera-
tion and maintenance under the
guidance of Extension training.
As a matter of fact, success in
the project means money in the
bank to 4-H boys (and girls, too)
who follow the advice of tractor
experts.

Properly maintained tractors
cost "an average of \$100 to \$300
less per operating year," a re-
cent university survey points out.
So the tractor project also be-
comes a family affair because
it affects the family pocketbook.
In the course of their work club
members pass along to neigh-
bors the up-to-date practices
learned about using farm mach-
inery.

Particularly enthused over this
4-H project is last year's state
and national champion, William
Morton, 18, of Wichita Falls,
whose reward was a trip to the
National 4-H Club Congress in
Chicago, and a \$400 college schol-
arship.

The 1959 state 4-H tractor
champion will be announced
early next fall by the Extension
Service, and the winner will be
eligible for one of the 12 national
\$400 college scholarships offered
by Humble.

**Betty Ann Franklin - Robert John Hawk
Wed Friday in Hobbs, New Mexico**

The wedding of Miss Betty Ann
Franklin and Robert John Hawk
was consummated on Friday after-
noon at 4 p. m. in the First
Presbyterian church, Hobbs, New
Mexico.

The bride is the daughter of
Mr. and Mrs. Samuel Franklin,
Jr., 1016 W. Cedar.

Mr. Hawk is the son of Mrs.
Z. F. Hawk of Baird, Texas.

The Reverend R. Millard Mur-
phy officiated at the double
ring ceremony.

The altar was decorated with
baskets of lilies and white stock,
two seven branched candelabra
filled with stock flanked the
prayer bench.

Nuptial music was furnished
by Mrs. W. H. Vaughan, organ-
ist.

Given in marriage by her fath-
er, the bride was lovely in a
white lace street length dress,
featuring a bateau neckline, full
circular skirt with a large satin
bow at the right side of the
waist. She carried a Crescent
bouquet of white camellias and
hyacinth blossoms.

Mrs. Roland Shank was mat-
ron or honor. Her dress was a
pink cotton with matching lace
inserts in skirt. Her corsage was
pink Elf roses.

Roger Garrett of Lovington,
New Mexico, was best man.

For her daughter's wedding
Mrs. Franklin chose a lace
sheath with matching satin hat
and bone accessories. Her
flowers were green Cymbidium
orchids.

The groom's mother wore a
navy sheath with matching ac-
cessories and her corsage was
pink Cymbidium orchids.

The reception was held in Fel-
lowship Hall. The bride's table
was covered with an imported
lace cloth and centered with the
cake and punch bowls. White
stock and appropriate spring
flowers decorated the hall.

Mrs. Ronald Spangler register-
ed the guests. Mrs. Glen Hous-
ton served cake and Mrs. Wayne
Wylie poured the punch. Assis-
ting in the house party were
Mmes. Lewis Boone, Richard
Landers and Thelma Walker.

For her wedding trip the
bride's ensemble was a Robin's
egg blue silk suit with black ac-
cessories and she carried a cor-
sage from her bridal bouquet.

The bride was graduated from
Durant high school. She attend-
ed Southeastern State College
and graduated from the Univer-
sity of Oklahoma. She was a
member of Pi Kappa Sigma so-
cial sorority, Kappa Delta Pi
and was listed on the Dean's
honor roll.

in Baird, Texas, and graduated
from North Texas State College,
Denton, Texas, where his social
fraternity was Lambda Chi Al-
pha. He is self-employed at the
Hawk Equipment Company.

After a short wedding trip to
El Paso and other points of in-
terest in Texas, they will estab-
lish their home at 2723 NW
Drive, Hobbs, New Mexico.

Low-cost Insulation Repels Water

A new low-cost water-repellent insulation fill which makes possible substantial savings in the cost of new homes and other types of construction is now available to the building industry. Developed in the laboratories of the Zonolite Company of Chicago, the new water-shedding material will enable architects and builders to use comparatively inexpensive masonry walls without additional insulation or costly finish materials. According to Zonolite engineers, the new material can be poured into a block or cavity brick wall at a cost of about 10 cents a square foot. This compares with a cost of as much as 25 to 32 cents a square foot for other insulation methods, they pointed out. Tests of identical homes, one with walls insulated and one without insulation, show that the water-repellent material can reduce heat loss by as much as 50 per cent. The Zonolite engineers said that because of the lack of an economical water-repellent insulation for concrete block and brick walls, many homes, schools, commercial and farm buildings, and other buildings of masonry construction have not been insulated. They said that the insulation opens up new horizons of design for architects because brick cavity walls and cement blocks offer a wide variety of interior wall finishes and design possibilities. Home builders can now take advantage of such features as textured or tinted cement blocks or bricks for interior wall finishes, confident that Water Repellent Fill Insulation will provide required heat retention.

Questions Answered On SS Disability

"The risk of disability hangs over all of us, and although it may strike only one in a every hundred, it may affect the family's financial security more than the retirement, or even the death of a worker," said R. R. Tuley, Abilene District Manager for the Social Security Administration. "In recent years the old-age and survivors insurance program has been enlarged to give protection also against loss of earnings because of severe, long-lasting disability. Part of our job at the social security office is to answer questions which people have about this protection under the social security program."

Mr. Tuley says that the questions most often asked about disability benefits under the social security law:

Q. How old do I have to be to be eligible for disability benefits?

A. Age 50 to 65. Disability benefits are automatically changed to old-age benefits at age 65. The amount remains the same. (However, a person disabled since childhood may get benefits regardless of age, if his parents get retirement or disability benefits under the law, or dies after working long enough under social security to become insured.)

Q. What if I become disabled before I am 50 years old?

A. You may have your social security earnings record "frozen" to protect your own and your family's rights to future benefits. When your earnings record is frozen, the period during which you are totally disabled for work is not counted, and does not lower your average earnings.

Q. How long must I have worked under social security to be eligible for disability payments, or to have my social security record frozen?

A. At least 5 years—or, since social security credits are counted in units of calendar quarters of the year, in any 20 calendar quarter in which you become disabled. After 1961 the amount of work required will start increasing gradually.

Q. How disabled do I have to be to meet the terms of the social security disability provisions?

A. You must have a disability which, in the words of the law, makes you "unable to engage in any substantial gainful activity." Your condition must have lasted for at least 6 months, and be expected to continue for an indefinite time. Your physical or mental condition must show up

in a medical examination or tests.

Q. Will my family receive any social security benefits if I become disabled for work?

A. The 1958 amendments provide for dependents benefits to be paid while you are receiving disability insurance benefits. Monthly payments can go to your unmarried children under age 18; your disabled, unmarried son or daughter 18 years of age or older, if disabled continuously since before his or her 18th birthday; your wife age 62 or older (or your dependent husband, age 65 or over); your wife under 62 if she has in her care a child under 18 (or a disabled child 18 or over) who is eligible for benefits.

Any further questions regarding social security benefits for disabled workers and their dependents should be directed to the social security office, which is located at 203 Fannin St., Abilene, Tex. A representative of that office will come to see you at your home if you are unable to come see him when he is in your hometown.

Mrs. Brice Jones will rate a special cake on the sixteenth and back on the 2nd, Mrs. Joe Alexander blew out candles and had a wonderful day.

We want to send birthday greetings way up to South Glasstonbury, Conn., to Mrs. Gertrude Patterson who celebrated on the fifth of April. Mrs. Patterson is the mother of N. H. "Pat" Patterson and she reads the Baird Star each week.

Trades Day in Baird simply grows better all the time and we believe you folks appreciate the effort your local merchants make to give you a special day of old fashioned fun each week. Shopping in Baird is not only a pleasure, it's profitable, and if you searched the entire country over you wouldn't find a better group of people to do business with than the Baird merchants—by the way, why don't you take just a little time to tell them you appreciate them and their interest in building Baird—here they are—Medford Walker, Steve Warren, Jones Franke Pontiac, Mayfields, City Pharmacy, Whites Auto, Pattersons Cafe, Baird Star, Lawrence Drug, A and P Store, Boydstuns Hardware, Caldwell's, Blacks Food Store, Bill Work, J. Gospel Campaign Plans Mapped

April 12-19 is the date set for the Key City Campaign for Christ in Abilene sponsored by the 5th and Highland Church of Christ there. Leroy Brownlow, minister with the Polytechnic Church of Christ in Ft. Worth, has been selected as the speaker for the eight-day campaign aimed at saving souls.

Assisting Brownlow will be Epps of Plainview, an outstanding evangelistic singer in the Church of Christ. Epps will direct the congregational singing.

Elders with the 5th and Highland Church hope that crowds of up to 2,000 will attend nightly services which begin at 7:30 p. m. The modern Highland Church building normally seats 1,500, but there is space for some 500 extra chairs.

Bailey G. Choate, coordinator of the planning committee, said: "The basic purpose of the Key City Campaign for Christ is of course to reach those outside of Christ, and in addition to bring those back who have fallen away. Many persons in our time think the gospel meeting is a thing of the past and has lost its power. We don't think this is true, and we think this meeting will prove it."

Planners have been busy on the meeting since the middle of January. An 11-man steering committee has been working under the eldership, and recently 65 workers began active participation in the campaign.

The public has been invited to attend the series. Special arrangements have been provided, such as a full-time nursery attendant, a class for pre-school children while the meeting is in progress, and a system of reserving certain seats for those who want them.

Special features will include a 30-minute musical program preceding the nightly service. Choruses will include: the A Cappella Chorus from Abilene Christian College, the ACC Men's Glee Club, the Southwestern Christian College (Terrell) A Cap-

ella Chorus, and the Lubbock Christian College A Cappella Chorus.

Groups from Churches of Christ in Abilene and surrounding towns are expected to attend en masse on various nights. Some bus caravans are planned.

Eula Baptist Revival Begins Sunday

Beginning Sunday, April 12, Eula Baptist Church will be in revival. The meeting will run through Sunday, April 19th.

Rev. Ira Harrison of Abilene will be the evangelist. Rev. Harrison is well known throughout this area. Rev. Charles Smith of Abilene will lead the singing and Mrs. Claude H. Rock Jr., will be the pianist.

There will be no morning services. Evening services will begin at 7:30 each night, except on Sunday nights when they will begin at 8:00 p. m. There will be prayer services at the church at 7:15 each night preceding the evening services.

The revival is being held in cooperation with the Southern Baptist Convention Simultaneous Evangelistic Campaigns being held throughout the South.

The church will also observe Youth Week. On Sunday morning, April 12, the youth of the church will be in charge of the Sunday School classes and offices, and certain positions in the worship services.

Low-cost Insulation Repels Water

A new low-cost water-repellent insulation fill which makes possible substantial savings in the cost of new homes and other types of construction is now available to the building industry. Developed in the laboratories of the Zonolite Company of Chicago, the new water-shedding material will enable architects and builders to use comparatively inexpensive masonry walls without additional insulation or costly finish materials. According to Zonolite engineers, the new material can be poured into a block or cavity brick wall at a cost of about 10 cents a square foot. This compares with a cost of as much as 25 to 32 cents a square foot for other insulation methods, they pointed out. Tests of identical homes, one with walls insulated and one without insulation, show that the water-repellent material can reduce heat loss by as much as 50 per cent. The Zonolite engineers said that because of the lack of an economical water-repellent insulation for concrete block and brick walls, many homes, schools, commercial and farm buildings, and other buildings of masonry construction have not been insulated. They said that the insulation opens up new horizons of design for architects because brick cavity walls and cement blocks offer a wide variety of interior wall finishes and design possibilities. Home builders can now take advantage of such features as textured or tinted cement blocks or bricks for interior wall finishes, confident that Water Repellent Fill Insulation will provide required heat retention.

Questions Answered On SS Disability

"The risk of disability hangs over all of us, and although it may strike only one in a every hundred, it may affect the family's financial security more than the retirement, or even the death of a worker," said R. E. Tuley, Abilene District Manager for the Social Security Administration.

"In recent years the old-age and survivors' insurance program has been enlarged to give protection also against loss of earnings because of severe, long-lasting disability.

Part of our job at the social security office is to answer questions which people have about this protection under the social security program."

Mr. Tuley says that the questions most often asked about disability benefits under the social security law:

Q. How old do I have to be to be eligible for disability benefits?

A. Age 50 to 65. Disability benefits are automatically changed to old-age benefits at age 65. The amount remains the same. (However, a person disabled since childhood may get benefits regardless of age, if his parents get retirement or disability benefits under the law, or dies after working long enough under social security to become insured.)

Q. What if I become disabled before I am 50 years old?

A. You may have your social security earnings record "frozen" to protect your own and your family's rights to future benefits. When your earnings record is frozen, the period during which you are totally disabled for work is not counted, and does not lower your average earnings.

Q. How long must I have worked under social security to be eligible for disability payments, or to have my social security record frozen?

A. At least 5 years—or, since social security credits are counted in units of calendar quarters of the year, in any 20 calendar quarter in which you become disabled. After 1961 the amount of work required will start increasing gradually.

Q. How disabled do I have to be to meet the terms of the social security disability provisions?

A. You must have a disability which, in the words of the law, makes you "unable to engage in any substantial gainful activity." Your condition must have lasted for at least 6 months, and be expected to continue for an indefinite time. Your physical or mental condition must show up

in a medical examination or tests.

Q. Will my family receive any social security benefits if I become disabled for work?

A. The 1958 amendments provide for dependents benefits to be paid while you are receiving disability insurance benefits. Monthly payments can go to your unmarried children under age 18; your disabled, unmarried son or daughter 18 years of age or older, if disabled continuously since before his or her 18th birthday; your wife age 62 or older (or your dependent husband, age 65 or over); your wife under 62 if she has in her care a child under 18 (or a disabled child 18 or over) who is eligible for benefits.

Any further questions regarding social security benefits for disabled workers and their dependents should be directed to the social security office, which is located at 203 Fannin St., Abilene, Tex. A representative of that office will come to see you at your home if you are unable to come see him when he is in your hometown.

Gospel Campaign Plans Mapped

April 12-19 is the date set for the Key City Campaign for Christ in Abilene sponsored by the 5th and Highland Church of Christ there. Leroy Brownlow, minister with the Polytechnic Church of Christ in Ft. Worth, has been selected as the speaker for the eight-day campaign aimed at saving souls.

Assisting Brownlow will be Pops of Plainview, an outstanding evangelistic singer in the Church of Christ. Epps will direct the congregational singing.

Elders with the 5th and Highland Church hope that crowds of up to 2,000 will attend nightly services which begin at 7:30 p. m. The modern Highland Church building normally seats 1,500, but there is space for some 500 extra chairs.

Bailey G. Choate, coordinator of the planning committee, said: "The basic purpose of the Key City Campaign for Christ is of course to reach those outside of Christ, and in addition to bring those back who have fallen away. Many persons in our time think the gospel meeting is a thing of the past and has lost its power. We don't think this is true, and we think this meeting will prove it."

Planners have been busy on the meeting since the middle of January. An 11-man steering committee has been working under the eldership, and recently 65 workers began active participation in the campaign.

The public has been invited to attend the series. Special arrangements have been provided, such as a full-time nursery attendant, a class for pre-school children while the meeting is in progress, and a system of reserving certain seats for those who want them.

Special features will include a 30-minute musical program preceding the nightly service. Choruses will include: the A Cappella Chorus from Abilene Christian College, the ACC Men's Glee Club, the Southwestern Christian College (Terrell) A Cap-

pella Chorus, and the Lubbock Christian College A Cappella Chorus.

Groups from Churches of Christ in Abilene and surrounding towns are expected to attend en masse on various nights. Some bus caravans are planned.

Eula Baptist Revival Begins Sunday

Beginning Sunday, April 12, Eula Baptist Church will be in revival. The meeting will run through Sunday, April 19th.

Rev. Ira Harrison of Abilene will be the evangelist. Rev. Harrison is well known throughout this area. Rev. Charles Smith of Abilene will lead the singing and Mrs. Claude H. Rock Jr., will be the pianist.

There will be no morning services. Evening services will begin at 7:30 each night, except on Sunday nights when they will begin at 8:00 p. m. There will be prayer services at the church at 7:15 each night preceding the evening services.

The revival is being held in cooperation with the Southern Baptist Convention Simultaneous Evangelistic Campaigns being held throughout the South.

The church will also observe Youth Week. On Sunday morning, April 12, the youth of the church will be in charge of the Sunday School classes and offices, and certain positions in the worship services.

Union Usuals and Unusuals

By Veda Yarbrough

Hi Neighbor! Today is Monday. Not quite as warm as Sunday was. The temperature Sunday was in the 90s. Nearly melted me. I just wonder what the weather will be in July and August, so hot now.
Gerald Carter of Vernon spent the weekend with John and Roma McIntyre, Jim and I. We really enjoyed the visit. Gerald said was still dry up around Vernon.
Our pinto beans finally came up. They look like baked beans after that hot sun Sunday.
We are sorry to say, Mrs. Bertie Hornsby passed away last Tuesday. She was at her son's, B. H. Hornsby's in Dallas. She had been sick about six months, and seriously ill the past two months. Her home was at Rowden where she had lived all her married life. Our sympathy to all the family.
Burette and Johnny Ramsey, Mark and Ollie Burnam, Jim and I attended the funeral last Thursday in Baird for Aunt Bertie Hornsby. The remains were taken to Belle Plain cemetery for burial. It is a very pretty cemetery now. There has been so much improvement done since I was there last.
Roma and John McIntyre visited with us awhile Saturday evening.
We enjoyed a get-together and singing in the home of Mark

and Ollie Burnam, Saturday evening. Those who were there were Mrs. Mary Shackelford, Thomson of Pico, Calif., Mr. Ben Bradley of Downey, Calif., Mr. and Mrs. John Holder of Cisco, Clayton and Flossie Burnam of Stanton, Dovie Pruet and Venna Shackelford of Putnam, and myself. We really had a good time. The get-together was in honor of Mrs. Mary and Ben. It is always so good to see them and be with them.

Head of Clyde School Retires

School Supt. Bailey Johnson has announced his retirement after 19 years in the Clyde public school, four years of it as principal and 15 years as superintendent.

Johnson, who had a three-year contract when he resigned will continue to live in Clyde and devote himself to his ranching interests.

His wife, who has taught here for 15 years, will continue her work in the Clyde school.

During his years as superintendent, the Clyde school district has grown from 43 to more than 200 square miles in area, extending now completely across Callahan County. Tax valuations have increased from \$672,000 to over \$2.5 million.

When he took over as superintendent the school plant consisted of one building. There were no recreational or vocational facilities. In the last four years, a modern high school building, a vocational agriculture building and an adequate cafeteria have been constructed. Earlier, a brick gymnasium was added, two lighted tennis courts were provided and a football stadium was built. Twelve acres of adjoining land have been added to the school site for future development.

Johnson has coached tennis for 20 years, in addition to his regular work, has sent 18 teams into state competition, winning six state championships.

A native of Alabama, Johnson moved as a youngster with his family to the Opalin community. He has been a resident of this county for more than 47 years. He received his bachelor's degree from Abilene Christian College.

He and his wife the former Modena Pair of Strawn, have three children, Mrs. J. W. Newton of Abilene, Mrs. Freddie Kniffen of Lubbock and Tommy Johnson of Ft. Belvoir, Va.

About Your HEALTH
A weekly public service feature from HENRY A. HOLLE, M. D., Commissioner of Health.
Since 1954, when there were 3,037 cases of polio, Texas has seen a gradual decline in the number of polio cases. Credit for the decline is generally attributed to the advent of the Salk vaccine.
Last year there were only 610 cases of paralytic and non-paralytic polio reported to the Communicable Disease Control Division of the Texas State Department of Health.
The sad fact of the matter is that 76 percent of the paralytic polio cases occurred in persons who had not received any of the Salk inoculations.
Equally shocking is the fact that almost nine out of ten of the paralytic polio cases had not completed the basic series of three prescribed shots of the anti-polio vaccine.
A large segment of the school age children and young adults have taken advantage of the protection afforded by three-shot series.
However, many older people have been lax. But worse still is the number of families who have neglected to have their pre-school age children inoculated.
Last year, 65 percent of the cases of paralytic polio struck at small children in the birth-to-four age group.
These victims couldn't do anything about receiving the Salk shots themselves.
The burden of responsibility falls on those parents with pre-school age children who either don't care, don't know or don't believe that paralytic polio is still striking down victims—mostly tiny children.
A steady decline in all forms of polio has been the reward received from the thousands of dollars spent for research to develop the Salk vaccine.
So much so has been the success of the vaccine that the principal private foundation which sponsored its development has shifted its activities of research to other diseases. There could be no better commentary than that.
But even more important are the thousands of victims who have been spared the pain, heartache and crippling after effects of paralytic polio.
Summer is coming with its usual rise in the number of polio cases. See your physician immediately so that he may start the series of three shots as soon as possible.
