

THE O'NEILL INDEX

VOLUME IX O'DONNELL, LYNN COUNTY, TEXAS, FRIDAY, JULY 22, 1932 NUMBER 42

MASSIVE RESPONSE TO COMMUNITY FAIR

Representative and decided group of business and farmers responded to a meeting Tuesday evening on the question of a community fair. While only twelve men present, practically all made a talk favoring the holding of such a fair, and their hearty approval was expressed.

Mr. J. B. Edwards, Jr., acted as chairman and opened the meeting with a brief introductory talk in which he mentioned that several men had suggested that such a fair would be of interest to the community.

Mr. Edwards voiced his endorsement and approval of the plan, after a number of pertinent questions concerning organization. Mr. Edwards were present, and they all added their support and promises of cooperation. Mr. H. Koeningger and T. R. Tuno attended the school board, under the impression that the school board would be held, and they mentioned the latter part of the fair or the first of August so that they would be in the hall and area may have a such ill chance those who had no such ill chance. The school board will meet on Friday and will name the date for the fair. The board of directors will then appoint heads for various departments, such as agriculture, dairy, agriculture, and every phase of farm and home products represented. The board will have a special meeting in the immediate future to name directors, after which active work will be started.

Plans for early plans, there is no expense for anyone. It is possible to secure the use of the fair, it is thought, and no cash is being planned. Ribbons for the winners of places will be given in recognition of any money toward this cutting down expenses to a great extent.

Though the Index went on record at the meeting as being much in favor of such an enterprise, it is further emphasized that the fact of a community fair is, in our opinion, one of the most worthwhile projects which can be featured. Times of stress should be those in which every person seeks to find the pleasant and hopeful outlook, when so many people who are down in the dumps it is always to forget many things for which we should feel pride, as well as to be thankful for what we have. Even though our cotton field and chickens and other products are not worth as much in a market as they have been in past years, we should not lose sight of the fact that little things, such as our own produce, taken in connection with something to occupy our time and thoughts are always advisable.

The Index is boosting the school and fair projects in no uncertain terms. We need a fair, and we are asking that all the people of community, rural and business get behind the movement.

RAIN HARVEST DRAWING TO CLOSE HERE THIS WEEK

It is estimated that under favorable weather conditions, harvest of wheat and oats in this territory this week will be practically completed. The end of the week's harvest has been uniformly fair, with some crops were ruined by a counterbalance for this year, other fields have averaged toward thirty bushels per acre, bringing the average for the territory up to fifteen bushels per acre. Some fields have been infested with harvest crows, but most of the grain has been bright and of good quality.

Threshing and combines have been working every day for the past two weeks, many of them continuing operations through Sunday so that sudden showers might have no chance to ruin the grain.

Eleven cars of grain have been shipped from the local office of the Santa Fe.

SATURDAY IS ELECTION DAY

Even though it hardly seems possible that any man, woman, or child could possibly forget that Saturday, July 23rd, is Democratic primary day, the Index hereby adds its voice to that of the multitude of candidates in urging each citizen to express his or her suffrage rights.

To the 527 candidates listed as seeking state offices, there will be added scores of district, county, and precinct candidates, so that the job of filling out this year's ballot will be a man's sized one.

The O'Donnell box will be located at the grade school building, and the poll will open promptly at eight o'clock Saturday morning, closing at seven in the evening. T. J. Yandell and Robert Cook have been appointed election judges. Mr. Cook taking the place of W. S. Cathy, who is away. Judges will be in the school building as in past years, and voters will retire to one of the classrooms to fill out their ballots.

All deaf or dumb persons, all persons over sixty years of age, and all who have reached the age of twenty-one years after January, 1931 are entitled to vote without payment of poll tax. O'Donnell has a number of citizens who will cast their first vote this year, and also a number of voters who reached the sixty year mark. It is reported that practically everyone of these is planning to take a hand in choosing lawmakers and enforcers.

It has been suggested that, if possible, all voters in the precinct itself be placed in the room to cast their votes, so that there will be no crowding on the school grounds and in the poll. Residents from Willis and T-Rar communities will come to O'Donnell to vote, and as they have a long drive into town, it will be courteous for local people to come early and get their cars out of the rush.

STREETS RECEIVE NEEDED ATTENTION THIS WEEK

A number of the formerly impassable chug-holes and gullies, which have been adding zest to motoring in this city, have been filled in this week, and driving to town down some streets has again dropped from the exciting phase of mountain driving to the humdrum routine of everyday life.

The chief improvement, according to popular sentiment, was the smoothing of the street crossing on the highway in front of the Phillips filling station. This place has been a danger to ravines and breaks for the duration of the recent rainy season, and its ironing out is indeed a well come relief. Now if we could just arrange to work the balance of the town, a lot of chronic griping would be silenced.

J. B. MILES FIRST MAN TO LAY BY 1932 CROP

J. B. Miles is, we believe, the first man in this territory to pronounce his crop as being laid by. He stated Wednesday shortly after noon that the crop of his crop was mowed over, and all he had to do now was to get ready for camp meeting.

Mr. Miles is one of the largest landowners in this part of Lubbock, and takes an active hand in many ways, and supervising the various farms.

STEEL IN MAN'S EYE NECESSITATES OPERATION

Robert Reagan, prominent farmer of the Joe Baigan community, almost lost a perfectly good left eye Monday last week when a small piece of steel lodged near the eyeball.

He went to a Lubbock hospital Wednesday, and the steel was speedily removed, but a patch still adorning Mr. Reagan's beauty.

He had been filling some part of his combine, and the fragments dropped on the machine in such a place that the next breeze lifted the sliver into the eye. He has made several trips to the hospital for treatment, but at last reports there was no further danger of losing sight.

REVIVAL TO BEGIN SUNDAY AT CHURCH OF THE NAZARENE

The annual summer revival of the local Church of the Nazarene will begin Sunday morning, July 24, with Rev. S. O. Pace of El Dorado, Ark., in charge of the preaching services. Rev. Pace conducted the meeting here last summer, and his work is favorably remembered by all who were fortunate enough to hear him.

Services will be held at the Baptist church, and every member of the church has expressed appreciation of the courtesy of the membership in so willingly offering its use. Open air meetings will be much more comfortable than if conducted in the church building.

Rev. W. G. Pool, pastor, will have charge of both services Sunday, and Rev. Pace will not arrive before Monday. Mr. Mack Ritchie of Grassland will lead the song services. Mr. Ritchie has the reputation of being a splendid singer as well as choir director, and his work is expected to add much to the success of the meeting.

In making the announcement concerning the opening of the meeting, a member of the church used the following words:

"Bro. Pace is a good preacher, and is being used in God in a wonderful way in the salvation of the lost. You will enjoy his messages from time to time. Everyone is asked to be with us throughout this series of services. Let's unite against the enemy in the salvation of the lost of our district and surrounding communities. Forget as far as possible the hard times and tests we are having. Come and let's work for the Lord. Everyone is cordially invited to come."

REV. HORN UNDERGOES OPERATION LAST WEEK

The many readers of the Index will be sorry to learn that Rev. W. K. Horn of Meadow, former pastor of the Baptist church here, last Friday underwent an appendicitis operation at a Lubbock hospital.

TEACHERS RETURN SATURDAY FROM SUMMER SCHOOL

Superintendent and Mrs. L. P. McAffee and their daughter, Pauline, returned Saturday afternoon from Lubbock, where Mr. and Mrs. McAffee have been doing special work during the summer at Texas Technological College.

They report a very pleasant summer. They had an apartment near the campus, and Mrs. McAffee reports that Miss Verda Ballew's housekeeping was splendid.

Both teachers were studying courses pertaining to their departments of the high school curriculum, and are making plans for a great school year.

LOCAL COTTON OFFICE TO OPEN NEXT MONTH

W. H. Clark, manager of the local cotton office, arrived in O'Donnell Thursday last week, and at once took up his duties. Clark will be favorably remembered by farmers and business men of this territory, he having been located here year before last.

C. N. Hoffman, manager during the past season, will be located at Memphis at the beginning of the season, according to information reaching us from the Dallas office of the Co-Op.

Both Mr. Clark and Mr. Hoffman are experienced cotton graders and buyers, and have been remarkably successful in their work here. Mr. Clark states that he hopes to improve even the remarkable record set last year by Mr. Hoffman, a statement which he expects he will soon be able to prove.

Mrs. Clark accompanied her husband here, and plans to remain with him for several weeks. They are making their home at the Palmer House during their stay here.

FAMILY REUNION HELD AT NEW HOME SUNDAY

Members of the Middleton family held a reunion Sunday at the New Home residence of Mr. and Mrs. Elmer Rice, with a chicken dinner and family gossip as the chief attractions of the day.

An unusual feature of the affair was that it was not planned. Mr. and Mrs. R. E. Middleton, parents of the clan, Mr. and Mrs. J. T. Middleton and family, Mr. and Mrs. Dewey Middleton and family, and Mr. and Mrs. J. M. McCarter and family all took a notion on the same day to visit Mrs. Rice, who is a daughter and sister. Each family was surprised when the others appeared on the scene.

Mrs. Rice is reputed to be a cook par excellence and with willing assistance of sister, mother, and sister-in-law, she supervised the banquet spread which put all talk of hard times to shame.

PEMBERTON MOVING GIN TO NEW LOCATION

Work of dismantling buildings and taking down machinery was begun this week at Pemberton's gin preparatory to moving the plant to Knott, eight miles north of Big Spring.

KIRBY CHILD IMPROVED AFTER SERIOUS ILLNESS

The fourteen-month old son of Mr. and Mrs. Ewell Kirby was brought home Sunday after a short stay in a Lubbock hospital where it was taken Thursday night in a serious condition.

Reports sent the local physician from the doctor in charge of the case at Lubbock indicated that the disorder was an unusually stubborn case of bowel impaction. It was first thought that the child had been bitten by a spider, and this was the general understanding of the community. A black spider was knocked from the baby's hand shortly before he was seized with convulsions, and Mrs. Kirby and other members of the family feared that the vicious-looking insect was responsible for the sudden and alarming illness of the little boy.

His mother brought him to the office of a local physician, where he was kept for several hours before he was taken to the hospital. An affecting circumstance rose from the situation in the anxiety and affection displayed by the baby's dog, a huge shaggy fellow appearing to have a strong strain of shepherd in his ancestry. The big fellow followed his small master to the doctor's office and remained at the door. When the baby was taken away, he was inconsolable, and he spun around and around, refused to leave his post, remaining on the walk near the door for two days until relatives of the family succeeded in taking him home.

THIEVES FINALLY SUCCEEDED IN OPENING SAFE

The Index was perfectly correct when it stated last week that if thieves just kept on trying they'd finally succeed in opening the safe at the Santa Fe depot.

In the story of the break-in, it was stated that though they broke the knob from the door, the thieves had not opened the safe. Agent R. O. Stark reports this week that they did open the safe, taking the sum of fifteen dollars in cash.

When they were ready to leave, the thieves slammed the door, and some of the lock mechanism jammed the lock so that the safe was not opened here until Saturday, when the lock was discovered.

SLIGHT BLAZE IN STREET HOME

The fire department was called out about eleven o'clock Saturday morning in answer to the call that the main street home of Dock was on fire. However, after a record run the boys found that nothing but a light cord was damaged. At the time the alarm was put in, two boys were in front of the house, and a few minutes later directed pans of water put out the blaze with little damage from the water or smoke.

The material damage was so small that no insurance claim was entered, and according to information from B. M. Haynes, agent for the company in which the building is insured.

SINGING SCHOOL THIS WEEK AT CHURCH OF CHRIST

We are asked to announce that Mr. Mell Pearce is conducting a singing school this week at the Church of Christ, and that everyone is invited to come and join the class. Work was begun Monday evening, and will continue into next week. Mr. Pearce is an experienced singer, and pupils are learning a lot of new wrinkles.

Anyway, you are invited to come to singing school each evening.

HOT WEATHER THIS WEEK FINE FOR GROWING CROPS

With the mercury hovering between 95 and 100 degrees most of this week, and with fresh crops are growing off in record style. The continued working weather has enabled farmers to clean weeds from their fields so that plants may take fullest advantage of recent rains and overcome the early setback due to hail rain, and sandstorms.

The first cotton blooms of the season were reported on the W. L. Walker farm four miles west of town some ten days or two weeks ago, and others are reporting squares and blooms. No holls have been reported as yet.

It was estimated recently that cotton acreage in this territory was reduced fully twenty-five per cent during the month of June, so that feed crops are more the subject of conversation this year than the formerly all-important fleecy staple.

So far as yet, everything would seem to be beginning to take their place on menus, and maize, sorghum, hedges are beginning to head. While the sandstorms west of town held the maize back for several days, suckers are beginning to present quite a respectable appearance. Wet fields kept many farmers out of the fields until weeds grew almost shoulder high, but fortunately there was plenty of moisture to sustain growing crops through the hoeing period without much injury.

The best farmers say that when the plants will be tried during the extreme heat of the day and then freshen up as coolness sets in, weath 27 is just right for growing. If that's the case, weather from Saturday morning to Tuesday was ideal.

Though no crops have begun to suffer as yet, everyone would welcome a good shower, for crops and gardens and grass as well. Many of the gardens in town are suffering for moisture, and farmers are beginning to look for "banks in the weeds". This is the year when O'Donnell comes back to prosperity. (Ask John D.)

ARREST MADE THURSDAY IN PHILLIPS ROBBERY

Two men were arrested last Thursday at Southland and are now in jail at Post for engineering the break-in of Phillips Petroleum bulk plant here some ten days ago.

The robbery took place on Wednesday, July 6, at which time approximately four hundred and fifty gallons were taken.

Officers and officials of the Phillips were called to the scene as soon as the loss was discovered by agent S. Yandell. Various clues were followed, and the result that the truck and the men were taken into custody.

One of the men, it was reported, was captured as the two were robbing the bulk plant at Southland, but the other escaped and succeeded in eluding captivity for several hours.

This is the fifth breaking here since the opening of the Phillips plant two weeks ago. The bulk station is located at some distance from the highway and lighting facilities are far from the best, so that thieves take it when they pass other plants by as being too "dangerous" situated.

BAPTIST REVIVAL SLATED AT EARLY AUGUST DATE

It was decided Sunday that the annual summer revival at the Baptist church will open the first Sunday in August, according to announcements this week from church officials. The time ago, but definite plans were begun Sunday to make this one of the most successful meetings held here in several years.

Miss Catherine Haidy of Dorger in the guest of her sister, Mrs. Charlie Caban, arriving Saturday for an indefinite stay.

Rev. and Mrs. Pickens of Lamesa were guests of her sister, Mrs. Charlie Caban, arriving Saturday for an indefinite stay.

Rev. and Mrs. Pickens of Lamesa were guests of her sister, Mrs. Charlie Caban, arriving Saturday for an indefinite stay.

Mrs. J. F. Campbell returned Monday from a vacation on the Spade ranch.

The O'Donnell Index

Published every Friday at O'Donnell, Texas. JOE ALEXANDER Owner

W. H. Ritzenthaler—Mgr. Mrs. J. W. Campbell—News Editor. \$1.50 PER YEAR—IN ADVANCE

Entered as second class matter September 28, 1923, at the post office at O'Donnell, Texas, under the Act of March 3, 1879.

SHORTEST WAY BACK TO NORMALCY

It is becoming increasingly evident that before there can be a return to normal conditions in business and industry there must be a reduction in working time to balance production and consumption.

Prosperity for all classes demands that the work-day and work-week be restricted to an extent that full use of manpower within the limits established will not produce more than that which can be purchased and consumed.

Wage-cutting is no solution for the present problem. No matter how cheaply articles can be produced unemploy men and women can not buy because they have nothing with which to purchase. It is patent that so long as these unemployed millions can not buy there can be no resumption of business and industry.

Domestic demands can not be artificially increased by wage reductions based upon the theory that lower production costs will increase the volume of business. Each salary or wage cut reduces purchasing power of the nation by just as much as the aggregate of such reductions. What is needed is to increase the ability of the workers to buy and consume rather than further restriction.

It is recognized as an inescapable economic law that wages in any industry must be within the ability to pay. But to lower wages to maintain unjustified profits or meet financial burdens which result from unnecessary expansion and speculative excesses is false economy. Universal establishment of the shorter work-day and work-week appears to be the shortest route to travel back to Normalcy.

VOTE FOR THEM ON THEIR MERITS

According to press dispatches, 527 candidates are seeking state and district offices, subject to the will of voters next Saturday. Added to this, of course, are the thousands who are in the race for local offices in the 117 counties in Texas. The campaign is figured as one of the most extensive ever held in Texas.

One of the amusing things incident to the election is the manner in which some of the candidates hope to get elected. Every conceivable device is being worked to sway the voters. Attempts have been made to create issues where there are no issues. The depression has served as an excuse for a volume of oratory that is meaningless and has no bearing on the duties of the office being sought after.

For instance, a candidate for some county office may speak at length about the inequities of Wall Street bankers, the soldiers' bonus, whereas, if he were so inclined and so equipped, he might give a concrete plan for reduction of expenses of the office he seeks, or perhaps outline a comprehensive plan for improving the efficiency of the office.

Many candidates running for state offices are emphasizing their stand on prohibition. Yet national prohibition has no connection with the duties of a state officer. If any change is made in the Eighteenth Amendment it must originate in the Congress and pass that body by a two-thirds vote of both houses, whereas further action can be taken. Then it must be submitted to the state legislatures or state conventions for a three-fourths majority vote before it can be ratified. Many candidates prefer the convention method, which is looked upon favorably by congressmen. If congress decides to submit the question of repeal to the states, the chances are that conventions will pass on the proposition. In that event, not even the state legislatures will have a hand in settling the prohibition question.

In the election next Saturday a way has been provided for Democrats to express their attitude on prohibition. While the result can hardly be called an accurate one, it is nevertheless desirable that all qualified voters, where possible, go to the polls and declare themselves on this most perplexing problem.

In the meantime let us hope hungry office-seekers and thimble politicians will quit trying to befuddle the public mind with false issues that befog and make complicated the orderly process of government.

Mr. and Mrs. W. T. Huff and daughters, Misses Morene and Wynona, left Wednesday for a visit with friends and relatives in Comanche.

Jim Johnson of Gall spent Sunday with his brother, John Johnson, and family.

ARE WE COMING BACK?

As we scan the daily newspaper market reports, and read where wheat and cotton shows an advance, while exports are increasing for these commodities, we begin to think perhaps, the corner has been reached and we are treading slowly back to where we might possibly, say conditions are normal. Certainly everyone hopes this will be true.

Wheat has been bringing a better price of late, one load having brought 36 cents here this week. Recently we read where the Quannah market paid as much as 38 cents, and it is reported Paducah paid as high as 46 cents.

Let's hope things are gradually adjusting themselves to where life will be happier for everyone.

LET ROOSEVELT AND HOOVER WORRY

Keep cool during the hot, summer months says a noted medical authority. It has a direct bearing on your health says he, and he gives a few simple rules that might be of advantage to the most of us.

Get eight hours of sleep. Don't quarrel and bicker. Keep calm let Hoover and Roosevelt fight it out.

Be your age, and keep your mind occupied so that you won't be thinking constantly about "how hot it is."

Wear loose, lightweight clothing. Eat moderately. Avoid ice cold drinks. Avoid alcoholic drinks.

Exercise in moderation. Rest whenever you get a chance, sit or lie down and relax.

Close the house before the sun climbs high so the early morning temperature may be kept inside. And smile—remember that heat discomfort is to some extent a state of mind. Be pleasant.

METHODIST CHURCH SERVICES

W. R. BURNETT, Pastor 10:00 a. m. Sunday school, W. J. Shook, supt. Attendance last Sunday 136. We have a place for you in Sunday School. Come and meet with us next Sunday.

11:00 a. m. Morning Worship service. We are planning a splendid service at this time, and are looking forward to a large attendance. 7:30 p. m. Epworth leagues. Our league meetings are the best at this time that the pastor has ever seen. We invite all young people who are not in some other organization to come to the League.

8:30 p. m. The evening worship service will be dismissed and we will go to the Baptist tabernacle to worship with the Nazarene congregation in the revival meeting starting there Sunday.

The pastor of the Methodist church is indeed sorry that he forgot to make announcement last Sunday night of the Baptist Revival that is to start the first Sunday in August. It was simply an oversight and we are trusting that all who were present Sunday night will see this announcement.

4:00 p. m. Monday, Womens Missionary Society.

4:00 p. m. Tuesday, World Friendship Club.

8:30 p. m. Wednesday, Prayer Meeting.

Our meeting which closed Sunday night was in many respects a great success. There were nine conversions and rededications during the meeting. And many of us felt that we were drawn closer to the Lord as the result of the meeting. There were many more who felt that they should make the surrender to the Lord, and we are hoping and praying that they will give their lives to Him before the revival season of the summer closes.

The pastor appreciates the loyal cooperation of the many who had a part in making the meeting the success it was. Rev. Frank Beauchamp and wife who serve the circuit west of Lubbock, assisted in the meeting and rendered much valuable service.

In appreciation of their service our people without any effort whatever, made up a nice contribution for them.

Everyone will find a hearty welcome at all the services of the Methodist Church. Come and worship with us.

VOTE FOR OLIN CULBERSON CANDIDATE FOR STATE RAILROAD COMMISSIONER

The O'Donnell Volunteer Fire Department, many members of which are personally acquainted with Mr. Culberson, are asking the people of O'Donnell to give this candidate their consideration and vote, if they find him qualified to fill the office.

In behalf of Mr. Culberson the Fire Department offers the following sketch of the candidate and his qualifications.

OLIN CULBERSON, Candidate for Railroad Commissioner to succeed Hon. Pat M. Neff, resigned, is a native Texan, 45 years of age, son of W. A. Culberson of Hill County, Texas, who conducted Culberson's Select School at Hillsboro for 35 years. Ex-service man and member of the American Legion; President of Rotary Club; Member of Chamber of Commerce; State Secretary for 12 years of Fireman's and Fire Marshals' Association, and formerly Secretary of County Judges' Association County Judge and County Clerk of Hill County, Texas, for eight years. While never having held State office has made an extensive study of public affairs; economy in government; of transportation facilities; of our natural resources and the various problems that come before the Railroad Commission.

HIS BUSINESS GEM

The late William Wrigley, Jr. who made millions through advertising was asked why he did not stop advertising after he had built up the world's largest chewing gum business. "Did you ever hear of trainmen taking off the locomotive after they got the train moving?" asked Wrigley.

ONE WAY TO REACH CRIME

Senator Glenn of Illinois had a happy inspiration the other day when he offered an amendment to the tax bill laying a hundred per cent tax upon all incomes obtained by crime. The amendment was promptly adopted and doubtless will be written into the law.

That certainly is one way to end the "partnership" between the government and crime—by giving all the profits to one of the partners and sending the other to jail! Hitmen and law violators have been able to render themselves immune to prosecution so far as the government was concerned merely by declaring their income to be internal revenue bureau and paying the tax. Al Capone got himself into trouble, not by the crimes thru which he derived his income, but by failing to declare that income and to pay tax on it. If the Glenn amendment had been the law a year ago, Capone would not be looking forward with complacency to a life of ease when he has served his prison term thru the enjoyment of his ill-gotten gains. In the future vigorous enforcement of the 100 per cent levy on crime revenues will certainly tend to discourage activity in that industry, since even the most hardened criminal would hardly care to work for nothing.—Lovington, (N. M.) Tribune.

"If I cut a beefsteak in two", said the teacher, "then cut the halves in two, what do I get?"

"Quarters," replied the boy.

"Good! And then again?"

"Eights."

"Correct! Again?"

"Sixteens."

"Exactly! And what then?"

"Thirty-seconds."

"And once more?"

"Hamburger," answered the boy.

IMPROVED UNIFORM INTERNATIONAL SUNDAY Lesson

(By REV. P. B. FITZWATER, D. D., Mem. of the Board of Christian Education, Institute of Chicago, (© 1932, Western Newlander Union)

Lesson for July 24

THE DELIVERANCE AT THE RED SEA

LESSON TEXT—Exodus 14:1-31. GOLDEN TEXT—The Lord is my strength and song, and he is become my salvation.—Exodus 15:2.

PRIMARY TOPIC—Walking Through the Sea.

JUNIOR TOPIC—A Dry Path Through the Sea. IMMEDIATE AND SENIOR TOPIC—How Israel Won Freedom. YOUNG PEOPLE AND ADULT TOPIC—How God Helps His People.

I. Israel in Straitened Circumstances (vv. 1-12).

1. Going out of the land of Egypt. "And the Lord said unto Moses, I will strengthen the hand of the Almighty maid Pharaoh willing to let Israel go. The tenth hour of the scrow of Omnipotence brought him to time. The Israelites were to die, but they were their way to the promised land with a high hand. The way of the wilderness was a longer route, but it had many valuable lessons for them. In this way they escaped the clutches of an army which would have come to them at the hand of the Philistines, but they learned the crookedness and perverseness of their own hearts (Deut. 8:12).

2. Hemmed in (vv. 13-17). At the Lord's direction they turned from their first course and were made to face a great difficulty. The Red sea was before them and mountains on either side. How, they should have been encouraged because the Lord went before them by day in a pillar of cloud to lead the way, and by night in a pillar of fire to give them light. He took not away the pillar of cloud by day, nor the pillar of fire by night (13:21).

3. Pursued by Pharaoh (vv. 4-12). The Egyptians, who had been driven away from their sorrow, and perceived the straitened circumstances of the Israelites they interpreted this to mean that Moses was unable to lead them across the desert. Therefore they went in pursuit, hoping yet to prevent their leaving the country.

II. The Miraculous Escape of the Israelites (vv. 13-22).

The sea opened and they were driven across in leading them in to this particular place.

1. To strengthen the faith of the people. To be delivered from such circumstances would impress upon them anew the reality of the love and power of God. The people, as usual, displayed their unbelief, and even censured Moses for leading them out of Egypt. Moses replied to their murmurs by saying, "Fear ye not, stand still and see the salvation of the Lord." Standing still in such a trial (faith taking hold on God's promises. God said, "Who were the first to say? Speak unto the children of Israel that they go forward." Having had his definite promise, to have prayed longer would have been unbelief. They were to go forward a step at a time without raising any question as to the outcome, for from the source from which came the command, came the power to obey. The presence of the Lord was adapted to their needs as they went forward. When the situation was such that the Lord's leadership was not necessary, the cloud passed to the rear and held the enemy at bay. The presence of God had a double effect—darkness and confusion to the enemy, and light and guidance to his people.

2. To lay a snare for the overthrow of the Egyptians. Those who will not heed the warning judgments of God may be allowed to go to their destruction. "Who were the first to say? Speak unto the children of Israel that they go forward." Having had his definite promise, to have prayed longer would have been unbelief. They were to go forward a step at a time without raising any question as to the outcome, for from the source from which came the command, came the power to obey. The presence of the Lord was adapted to their needs as they went forward. When the situation was such that the Lord's leadership was not necessary, the cloud passed to the rear and held the enemy at bay. The presence of God had a double effect—darkness and confusion to the enemy, and light and guidance to his people.

III. The Overthrow of the Egyptians (vv. 23-27).

Having seen the Israelites go across the sea dryshod, Pharaoh and his people madly pursued them. They issued by thought that they in their unbelief, could follow in the wake of God's children. The Lord looked forth from the cloud and wrought confusion among the Egyptians. He not only looked upon them but took off their chariot wheels which caused them to realize that God was fighting against them. He then directed the wind to stretch forth his rod and bring destruction upon the Egyptians.

IV. The Song of Triumph (15:1-21).

Since the Lord had so graciously delivered the Red sea they could fittingly sing the song of triumph because of their miraculous deliverance and the overwhelming defeat of the Egyptians. They attributed it all to God. In a glad coming day, a similar but much larger company will sing the same song with an important addition, namely, "The Song of the Lamb" (Rev. 15:3).

GEMS OF THOUGHT

The question of duty is one of the most serious. On that pivot swings both usefulness and destiny.

We spend too much time ringing the doorbells of earth, and not enough the doorbell of heaven.—Quoted by Hanna.

The purpose firm is equal to the deed. Who does the best his circumstances allows, does well, acts nobly. Angels could do no more.—Young.

IN PART SETTLEMENT

The men who earn their living on the waters and in the marshes of the Great South Bay of Long Island are a race unto themselves. They are a sturdy independent lot, and, almost without exception, are endowed with a quaint native wit.

One winter's day a party of baymen sat around a red-hot stove in a little oyster shanty on one of the farthest bars. The talk veered this way and that until finally arose the ancient question:

"What would you do if you had a million dollars?"

One of the company allowed he'd buy himself an ocean-going yacht and tour the world. Another rather thought he'd adopt orphans and educate them. And so forth and so on.

All this time Old Man Banks, locally celebrated as the most shrewdest man in the country, had sat in silence, rolling his quid and staring reflectively into the hot coals.

"Say Banks," quoth one of the group, "you been keepin' pretty quiet while we're payin' very well, but you want to hand you a million in cash?"

The old man deftly spat in through the open stove door before he answered:

"Well," he said, "I don't know exactly, but I reckon I'd pay it on my debts ez far ez it went."

TURN ABOUT

The way back to prosperity, as we understand some of our economists, is to spend the dollar we haven't got in order that the man who gets it can spend it with us. Reminds us somebody of the old editor whose paper wasn't paying very well. Somebody asked him how he made it if he couldn't keep what was coming in equal to what was going out. "See that old man at the printing press? Well, he works for me until I owe him enough for him to take over the shop; then I work for him and get it back again."—Beverly Hills (California) Citizen.

visit with her parents, Mr. and Mrs. Walter Hancock. Miss Roxie is teaching in summer school there, and will also teach there again this term.

C. L. Davis made a business trip to McCamey, Ft. Stockton, Marathon, and other points the first of the week, returning Tuesday night.

Mr. and Mrs. H. R. Womack and daughter Miss Merle, left Friday on a vacation trip to Waco, Corsicana, and other eastern points.

J. M. Adams, who lives east of town, is improving rapidly from a recent sun stroke with partial paralysis.

JOHN N. THOMAS

John N. Thomas, of Tahoka, O'Donnell this week in the line of his candidacy for State Representative.

Very few people in this section had an introduction to John Thomas as he has been a resident of this county for the past twenty-six years. He has served six years as assessor from 1914 to 1920. Thomas knows the needs of South Plains of Texas as he has watched and participated in the development of this area from the ranches to the agricultural empire now is.

MONTE WARNER TALKS ON "BONUS AND BOND"

Monte Warner, broke owner of oil field, war aviator and former secretary to a Congressman who returned to college to prepare for Congress, will speak over 735 K. at 8:30 p. m. on Thursday and Friday on "Bonus and Beer."

DEFINED

Chole—"What you call it when gal gets married three times—trigony?"

Mose—"Bigrity? Lazzare no, when a gal gets married twice, she gets married three times trigonometry."

W. E. L. CLASS MEETING
WEDNESDAY WITH MRS. FORT
 (Delayed)

Members of the W. E. L. class of the Baptist church were enthusiastically participated in Wednesday afternoon Mrs. Boyd Fortner was hostess at the regular weekly meeting of the class.

Mrs. J. T. Middleton taught the lesson on "What Baptists Believe" and led the discussion which followed.

After a pleasant social hour, refreshments of cake and ice cream were served to Mmes. Lambert, Man-

bridge, Middleton, Frazier, Greenwood, Mathis, Line, Anderson and Hobdy.

BRIDGE-DANCE WEDNESDAY
HONORING WACO VISITOR
 (Delayed)

Honoring Miss Margaret Banks of Waco, Miss Merle Womack was hostess Wednesday evening at a lovely bridge-dance at the home of her parents, Mr. and Mrs. H. R. Womack.

Bowls of roses were used as decorations, and set the theme for the color scheme of pink.

After a number of interesting games of bridge, dancing was enjoyed until a late hour.

Refreshments of angel food squares and ice cream, with roses as plate favors were served. The Rose Marie planned further carrying out the chosen color.

Those enjoying the lovely affair were Misses Hazel Burk, Alice Busby, Beverly Wells, Margaret Banks; Messrs. Howard Tredway, Jack Ellis, Sam Singleton, Summer Clayton, Raymond Busby, Irvin Burdine, T. A. Greenwood, and Mr. and Mrs. Ed Singleton.

T. A. GREENWOOD HOST
AT PARTY TUESDAY

An old fashioned "play party" was enjoyed by a number of young people Tuesday evening when T. A. Greenwood entertained at the home of his parents, Mr. and Mrs. Clark Greenwood.

Instead of the usual forty-two, bridge, or other routine mode on entertainment, the host had planned a series of group games, and the change was heartily appreciated.

Delicious refreshments of ice cream and cake were served to Misses Alice Joy Bowlin, Hazel Burk, Beverly Wells, Kitty May Garner, Myrene Huff; Mmes. T. M. Garner and Ed Singleton; Messrs. Jimmy Milwee, Jack Ellis, and Charlie Cahey.

Six Years Ago

FRIDAY, JULY 22, 1926

C. C. McLaurin passed away at the family home.

Direct wire service from the election bureau at Dallas was announced, the service being secured through the co-operation of the Index and the chamber of commerce.

Notice that six additional credits were granted to the local high school had been received.

Mr. and Mrs. Roy Gibson announced the birth of a son.

Members of the fire department and their families enjoyed a moonlight picnic in the breaks.

A Cottrell printing press and a folder were added to the equipment of the Index.

of Musick and J. A. Cornett a business trip to Lamesa Tuesday.

Clark Greenwood was in Lubbock on business Saturday.

F. E. McGonagill of Ft. Worth, vice-president of the State Reserve Life Insurance Company, is the guest this week of his sister, Mrs. J. B. Miles.

Mrs. J. J. Pugh and sons, Joe and Red, are in Ft. Worth for a visit.

Mrs. Kate Wilmoth and daughters Hazel, and Donna, and Miss Maud Crossland were guests last Sunday of their sister, Mrs. Grady Gantt, and family, enroute from Lubbock to their home in Palo Pinto.

Mrs. W. S. Willis of Ft. Worth is visiting her parents Mr. and Mrs. J. B. Miles, and other relatives.

Mmes. C. H. Mansell and Grover Sutton were in Lubbock Tuesday.

DISTRICT ATTORNEY PRICE QUOTES HIS RECORD

My record as District Attorney is before the people and upon this record I submit my candidacy.

During my tenure of office as District Attorney, there has been disposed of in the District Courts of this District, 294 Felony cases, including pleas of guilty, and of this number as your official I have secured conviction of 278 of these cases and lost only 6. In each of these cases I personally directed the prosecution for the state.

In cases appealed, the Court of Criminal Appeals has up-held 85 per cent of these cases. I have prepared briefs and made oral argument before the Higher Courts in all of the heavier cases without additional cost to the Tax payers of this District.

This work is not required of a District Attorney as a part of his duties but I have done so that there might be less opportunity of a reversal thereby saving the tax payer this expense.

If you approve of this record and believe that I am in a better position by reason of this experience, and by reason of my knowledge of the records of this District, to serve you more efficiently and economically another term than one who has not had a similar experience, then I ask your support for re-election July 29, T. L. PRICE

HARD TO FIND NOW

There had been a bad accident and the doctor had to give first aid treatment. "Is there an old-fashioned woman in the crowd?" he called out. "What's the idea?" asked a bystander. "I want a petticoat to make some bandages," was the doctor's reply.

Local News

Mr. and Mrs. Herbert Roy of Palmer section west of town, has Levealand are spending the week with their parents, Mr. and Mrs. T. M. Wilson.

Miss Beverly Wells had as her guests last week-end; Misses Evelyn Wells, Dale McCoy, and Elsie Woolsey of Tahoka.

Mrs. A. J. Lamkins of Blackwell is the guest this week of Mr. and Mrs. W. L. Gardenhire and Dr. and Mrs. J. F. Campbell.

Mrs. Homer L. Dekins and little daughter, Yvonne, arrived Monday evening for a visit with her father, J. W. Chandler, and family.

Louie Weathers of Tahoka was in O'Donnell Tuesday in the interest of his candidacy for the office of county clerk.

Mr. and Mrs. Charlie Cabool and her sister, Miss Catherine Haidy of Borger were guests Sunday of Mr. and Mrs. Joe Safady of Lubbock.

Charles Hendricks, who farms the

Palmer section west of town, has been quite ill this week with tonsillitis and rheumatism.

Mrs. Oliver Thomas of Longview arrived Monday evening for a short visit with her parents, Mr. and Mrs. George D. Foster.

Mrs. J. A. Minor and little daughter were in Lubbock Tuesday.

W. T. Huff made a business trip to Lubbock Tuesday.

Miss Ruby Burdine spent last week in Lubbock, the guest of her brother Lester Burdine.

Miss Roxie Hancock returned to Mrs. J. J. Williams, who has been the guest several weeks of her daughter, Mrs. Irvin Wright, returned to Lamesa Sunday. Mr. and Mrs. Wright accompanied her and spent the day with friends and relatives.

TOM CARTER

Candidate for STATE REPRESENTATIVE 119 District

In asking the people of this district to elect me as their next representative, I do so with the feeling that I can be of much service to the district by striving to secure a more fair representation for West Texas and working for a rigid economy in our state government to the end that taxes can and must be reduced. I am 34 years of age, a home owner and a tax payer and an ex-service man and Legionnaire. I am a native West Texan and have lived in Lubbock 9 years.

It has been impossible for me to see all the voters in the nine counties in the district as I have had to campaign after work hours and at night but I will sincerely appreciate your vote and will serve the people of this district impartially and to the best of my ability.

NO SUBSTITUTE FOR WAGES AND EMPLOYMENT

Henry Ford always manages to stir up a lot of comment with ideas on economic problems. His latest plan, published in a series of advertisements, deals with two serious problems—agriculture and industry. To solve these problems he wants to make agriculture the partner of industry by dividing dependence between the machine and the soil. In other words, he wants every man who is fortunate enough to have a job to also have a garden plot. The job would provide an income, the garden plot to make it possible to spend the income for things other than the necessities of life.

Mr. Ford's proposal is all right, with one exception—he overlooks the fact that farming is also industry. He seems to have failed to take into consideration the fact that

farming and gardening are full-time occupations. A garden requires almost constant care. Weeds recognize no Sundays or holidays, they work 24 hours a day crowding out the vegetable plants. Bugs and insects do not know the difference between Good Friday and Blue Monday when working at their destructive task. And a garden can't always wait until Saturday night for a bath.

Nor could the inexperienced gardener depend upon his garden to supply food for his table. Gardening and farming are specialized industries, requiring special training. A garden can hardly be used as a substitute for wages or regular employment.

YOU NEVER CAN TELL

When the results of next Saturday's election are finally known there will be many very disappointed candidates. Many will be bitterly disappointed.

Many of the candidates are "certain" of the outcome of the races in which they are entered. Especially is this true with the beginners. But there are many uncertainties in politics, and the candidate who counts his votes before he gets them is frequently a subject for some good-natured bantering.

It recalls the case of a candidate for justice of the peace in one of the larger Texas counties two years ago. The candidate, who was a preacher, was overwhelmingly defeated. A week or two before the election was held he was around telling his friends that he had enough votes to assure his election. And he was sincere in his claims. A week or two after it was all over with a friend met him and asked him what he thought about it.

"You know," he said, "there's something funny about that. The same people who, before the election, told me they were going to vote for me now tell me they did vote for me. I can't understand it."

Man Lost 26 Pounds Looks 100 Per Cent Better

Feels Stronger Than Ever

Just to prove to any doubtful man or woman that Kruschen Salts is the SAFE way to reduce—let us tell the letter of Mr. F. J. Fritz of Cincinnati, Ohio, recently received.

He writes: "I've tried extreme dieting, setting up exercises very little result—but the result from Kruschen are almost incredible. In 3 months I reduced from 206 179 pounds and feel stronger the ever—no more wheezing or gasping for breath—friends say I look 100 per cent better."

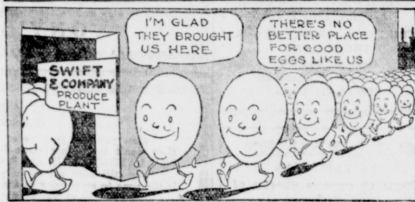

Bear in mind, you fat man, there is danger in too much fasting—the safe way to reduce—one-half teaspoonful of Kruschen Salts in a glass of hot water every morning—down on fatty meats and sweeten one bottle that lasts 4 weeks cost but a trifle—get it at any drug store in the world.

BORROWED—Will the party who borrowed my walking turning please return it at once, as I use it badly. W. L. Palmer. 42-2t

WHERE GOOD EGGS GET WHAT THEY DESERVE

Every day hundreds of thousands of eggs are delivered by farm patrons to more than 100 Swift & Company produce plants over the United States. Producers are paid cash for all they offer.

In these plants all eggs are carefully graded and packed in cases. Only the best, in size and quality, are destined eventually to go into cartons and be sold under the Brookfield label. Others, perhaps not so large or so even in color, are sorted to get the highest prices for their grades.

Under refrigeration and in carload lots Swift & Company ships the eggs to more than 400 branch houses, each the distributing center for a great population. Every retailer customer of every branch house is a possible customer for any eggs that arrive at a produce plant.

In these branch houses the best eggs are packed in cartons with the Brookfield label. Thousands of salesmen daily make their rounds, setting eggs, poultry and butter as they sell meat. This means economy in sales cost. Deliveries are so frequent the eggs reach the consumer in perfect condition just as they were when Swift & Company selected them.

With Swift & Company as a guide, every egg has the chance to make the most of itself. Demand is dug up by the sales force, and fostered by product advertising. Costs of service are as low as long experience and great volume can make them. Profits are low—over a period of years our profits from all sources have averaged only a fraction of a cent per pound.
