Letters To Editor ---

So John Kennedy, Lyndon Johnson and the Democratic pinkos want to wreck Texas' oil depletion al-lowance so they can get more taxes

for federal givaways. The oil companies pay an enor-mous share of the revenue needed for Texas schools, Texas roads and other purposes vital to our state. Obviously, the Northern liberals and their captive candidate, Lyndon-think it more important that this money go for Northern urban renewal and laundramats in the

Sahara Desert. I'm not an oll executive, just a loyal citizen who thinks Texas ought to keep some of its money.

After all, almost 70 per cent of the taxes paid by Texans already go to the Federal Government.
Here's the Democratic campaign

pitch this year: Sip liberal tea with Kennedy! Bowl them over with Bowles. Make socialism's entry smoother -Do your best for Walter Reuther! And get Lyndon Johnson to say, I'm pro-

Yankee, y'all."
MRS. W. E. SINGLETON, Jr.

Lynn Co. Republican Chairman.

OOTON INSECT INFESTATIONS
SPOTTED IN MOST AREAS

Cotton insect infestations are spotted according to reports from most areas. While an increasing number of fields have been treated for control of the insects during the past week, many plantings do not have sufficient infestations to require control. Bollworms and cabbage loopers are the pests caus-

ing most concern. Bollworms were reported in heavy infestations in some fields in Crosby, Dawson, Floyd, Lubbock and Ter ry counties. Reports from other counties were of light to medium infestations. Poor control was se-cured in many fields. Worms of all sizes were often present, with a majority of the population under dry bloom or in small shed bolls or in larger bolls or plants. Such in-

TEXAS RESIDENTS MAY OBTAIN PROOF OF AGE FROM CENSUS BUREAU

Last year, 10,610 residents of Texas turned to the U.S. Bureau of the Census for help in proving they were born. These persons were among an estimated 30 million United States residents who are with out proof of age or birth. The his-torical records of the Census Bureau provide the only source of this information for most of these 30 million people.

Proof of age or birth is needed to obtain passports. It is needed to qualify for jobs carrying certain age or citizenship requirements. It is needed for some forms of insurance.

Since 1920, the Census Bureau has provided more than three and one-half million persons with cop-ies of their Census records on age, place of birth, citizenship, or kin-ship, Persons seeking such records of facts about themselves should write to the Personal Census Service Branch, Bureau of the Census. Pittsburg, Kansas, for a Census Records Search Application Form. A fee of \$3.00 is charged for a search of role more than two consuses for festations require repeat applications at five day intervals if populations are to be satisfactorily reduced.

Cabbage looper infestations ranged from light to heavy. Disease has theeked the worms in some fields while few diseased loopers were observed in other plantings. Heavy dosages of insecticides have been required for satisfactory reductions of infestations where control was attempted.

Of not more than two censuses for one person and for one copy of the information found. Additional copies cost \$1.00 each. An expedited search costs \$4.00. Expedited search es usually completed within a few days while the routine \$3.00 search may take up to 30 days, depending upon the backlog of requests and the ease or difficulty in locating the information.

[The personal information in the of not more than two censuses for

festations where control was attempted.

Boll weevils were reported in light to medium infestations in irrigated fields in Childress County.

Leafworms were present in small numbers in many fields. No general infestations were reported.

Infestations were reported.

Information.

The personal information in the records of the 1900 and later Censuses is confidential by law and may be furnished only upon the written request of the person to whom it relates or, for a proper purpose, a legal representative such applications. Aphids populations increased in most plantings, with heaviest infestations on cotton which has been treated for control of other insects.

Aphids populations increased in estate. Information regarding a child who has not reached legal age may be obtained upon the written request of either parent.

EAGLES TO PLAY AT RALLS

-0-

Friday night at Ralls the O'Donnell Eagles try their second game of the season after dropping their opener with Crosbyton. Ralls and Idalou are rated to fight it for their diistrict nonors. During this week the Eagles have been training on passes, both offense and defense. The team is now improv-

ing vastly every day and very easily could upset Ralls—but it definitely would be an upset. Next week the Eagles play at Tahoka. W.M.U. OF THE FIRST BAPTIST CHURCH

Tuesday, August 30, the executive board of the W. M. U. of the First Baptist Church had a covered dish luncheon in the home of Mrs. Levi Gray. After the luncheon, Mrs. Gray, who is president, called the meeting to order. Great plans were made and high goals were set for advancement for the coming year. The watchword for the year—
"For the Love of Christ Constraineth Us." 2 Corinthians 5:11.
The luncheon and fellowship was

enjoyed by twelve ladies.

The W.M.U. will observe the week
of prayer for state missions September 12 through September 16. There will be a program at the church each day at 9:30 to 10:30 a.m. except Wednesday. The program for Wednesday will be given Wednesday night at 8:00 p.m. All ladies of the church should attend these programs.

Speaks At Rotary

The O'Donnell Rotary Club met Tuesday in its regular meeting. Visiting Rotarians were C. A. Hollingswort, Robert L. Wade, Paul oosetree, Owen Taylor, John Agee, and D. L. Adcock of Lamesa and Fred McGinty, Dean Taylor, Billy Russ and Keith Criner were Stu-dent guests Lee Littlepage of Ta-hoka was the speaker for the luncheon. He gave a Vocatonal Talk on the Dairy Industry. Harvey Line was program chairman for the month of August, Bernd Blank of Germany is the guest of Rotarian and Mrs. Homer Hardburger this

Snellgrove to Head "O" Club

A good crowd attended the first meeting of the "O" Club—an or-ganization of sports fans Monday night at the school auditorium. Bill Snellgrove was renamed pres-dent, Laleon Jordan is vice presi-dent and C. A. Moore is secretary. The group meets each Monday nite at the school at 7:30 p.m. Among

other business the group voted to—

1. Film six games this season. Serve the boys meals after

each of the home games.

3. To use the "O" Club as a booster for ALL Eagle athletic events—not just football. Each Monday nite will feature a scout's report of the team to be

uplayed the approaching Friday nite as well as a report by Coaches Blair and Brown of the past Friday nite's

Plans this year are to make this year's quartrback club so interesting that every member will attend each time. The aim is 150 members this year, Last year the group had 100 members.

O'DONNELL EDGED BY BY CROSBTON CHIEFS, 18 to 12

CROSBYTON. — A fourth period touchdown by a converted guard who filled in at fullback broke a 12-12 deadlock and gave the Crosbyton Chiefs an 18-12 decision over the O'Donnell Eagles here Friday night.

The victory was a come-from-be-hind success for the host squad and a pair of last quarter tallies proved the difference with Max Ratheal, who scored twice, and Jerry Jones, fullback, roaring into the end zone for the Chiefs.

Fernando Loppez, 120-pound half-back brought the crowd to their feet in the first quarter with a 53-yard romp that moved O'Donnell back into the game and tied the score at 6-6 in the first stanza. Buster Snellgrove, Eagle qurter-

terback, sneaked into paydirt from the two-yard stripe in the third period to put O'Donnell out in front momentarily. Run attempts for all extra points failed.

It was the first outing of the new grid compaign for both teams and the initial game for O'Donnell's new football coach—Clyde Blair who returned to the school after a four-year absence.

The tilt was a non-conference bat-

GAIL DEFEATS STERLING CITY

GAIL (Special. — The Borden County High School Coyotes started off the season on a winning note again Friday at Sterling City, knocking over the Eagles by 14-0.

Quarterback Steve Stephens threw touchdown passes in the second and third quarters to account for both Gail scores. One was a 15-yard scoring play to Carroll Ramsey and the other went to Steve Dennis. Stephens also passed to Edward Smith for two points after one touchdownn.

touchdownn The victory was Gail's 36th with-out a loss over a span of more than three seasons.

September Fair Date Nears

Final plans have been made for Big "O" second annual fair to be held here at the show barn Sept. 15th and 16th. In addition to what was featured here last year there will be a Quarter Horse show the opening day, Friday, Sept. 15th. Livestock classes include swine, cattle, sheep, poultry. The ladies division will be unusually good this year as much advanced planning is going ino that divisiion. General superintendent is Shag Garrett and his assistant is Ken Pearson. Com-

next weekend open to attend the Mr. and Mrs. E. C. Harris visited their daughier and family in Austin last week.

USDA PLANS NEW RESEARCH ON SCREWWORMS

College Station. — While some scientists are trying to send a rocket to the moon, others are trying to rid the Southwest of one of the worst hivestook posts. worst livestock pests . . . the screw

The USDA has announced that new research on means of eradicat-ing the screwworm will begin soon at Kerrville. This is the same USDA tation that was responsible for much of the basic research that led to the sterile-fly technique used suc-cessfuy against the screwworm in the Southwest.

One of the main projects of the USDA's entomologists will be to de-velop better methods of rearing screwworms, and also to find ways to produce strains of the insect bet-ter suited to sterilization by radiation. Another important aim of the Kerville research is to learn more about the nutriitonal requirements about the nutritional requirements of screwworm larvae so that an improved, inexpenisve rearing may be developed. Project scientists will also seek new methods by which flies can be erridicated with minimum effect on their life processes. In announcing the new project, the USDA reported that Dr. Raymond C. Bushland would head the researchers.

TAX-MAN SAM SEZ;

It has been a long, hot summer and there are probably no "blue northers" in sight for two or three months yet. When y u have moved to town you don't lay by the crops at this time of the year like Pa and Ma did a few years ago! However, if you are still turning the sod for a living you are probably glad to get an opportunity to sit on the front porch for a day now and then instead of riding a tractor in the sun. Most farmers break out in a cold sweat at the mention of insun. Most farmers break out in a cold sweat at the mention of income taxes, but the "Farmer's Tax Guide", that a lot of farmers picked up at the County Agent's office last winter, has a lot of cold facts for front porch study on a hot summer day. The "Farmer's Tax Guide" will save farmers dollars come payt Jansave farmers dollars come next Jan-

Soil testing is a tool you can use on your farm to help determine the level of fertility of your soil. The recommendations which you will re-ceive from the soil testing labora-tory, based on the analysis of the soil samples you submit, will give the amounts of fertilizer needed for the most profitable crop or pasture production. Local county agents can supply information on soil test-

Farmers and ranchers cannot afford to be dull and lazy during late summer and early fall. Extension range specialists say that winter is not very far away, and now is the time to make preparations for car-rying the livestock until next spring.

Mr. and Mrs. J. E. Shaw and family Mr. and Mrs. Robert Crain and family

-000 Fish hatcheries provide the right kinds and numbers of fish to pond owners for stocking purposes, says
Ed Cooper, extension wildlife specialist, and he strongly advises against
making any additions to the pond.
The addition of fish from rivers,
other ponds or the minnow bucket,
he says, is a mighty good way to
ruin fishing in a farm pond.

Last week Mrs. W. E. Tredway flew to Dallas to attend a conference of local presidents of Texas Teachers Association. She is presi-dent of the Lynn County group.

—oOo— Mr. and Mrs. W. E. Tredway vis-ited relatives at Lexington recently.

Mr. and Mrs. Charles Pickens spent the weekend with his par-ents, Mr. and Mrs C. D. Pickens.

Mr. and Mrs. C. D. Pickens.

—oOo—
Mr. and Mrs. Bud Ballew and family of Ft. Worth spent the weekend here with his parents, Mr. and Mrs. R. R. Ballew.

Miss Emily Pearce spent the week

Rev. James A. Lunsford, mssion-ary to Brazil, and former pastor here, spoke at the morning and evening services of First Baptist Church. He has been in Brazil 20 years. The Baptist revival is September 18-25 with Rev. Marvel Upton of Sunray as evangelist. The annual all-church fish fry was held

I wish to express my apprecia-tion to my friends for each act of kindness during my recent illness.

I am especially thankful for the flowers, gifts, cards, letters, and visits. May God's richest blessings rest on each of you is my prayer.
