County Insitute Will Meet Here Nov. 1-2

Drs. Horn and Gordon of Tech Will Be Principal Speakers On Program

The Lynn County Teachers Institute will be held on Thursday and Friday, November 1 and 2, according to Superintendent Baze. We have been unable to get a full program, but we understand that President Paul W. Horn and Dr. Gordon of the Texas Technological College are both on the program. Dr. Horn will speak Thursday afternoon and night and Dr. Gordon will speak Friday.

Every teacher in the county is expected to attend this institute. The program and work of the institute will doubtless be more profitable to the teachers than are the larger institutes, where many counties join in together.

Possibly County Superintendent Caveness will be able to furnish us a complete program next week.—Lynn County News.

Mr. and Mrs. Earls Hosts To Thurs. Club

One of the most enjoyable social events of the season occurred last Thursday evening when the charming home of Mr. and Mrs. John Earls was thrown open to members of the Thursday Club, a few guests "and the husbands."

The Halloween motif was everywhere in evidence. The tallies were ambitious pumpkins, who had been disappointed in life and failed to reach their goal in size. Five tables were soon filled and excitement ruzzed fast and furious, especially when husbands and wife were partners. However, no serious damages ensued from such partnership.

At the appropriate hour of 12:00, dainty Halloween covers were spread and pumpkin pie, topped with whipped cream and nuts, and apple cider was served to the following guests: Messrs and Mesdames A. A. House, John Hardberger, R. O. Stark, Mack Garner, S. G. French, E. L. Sorrelle, H. E. Gillispie, J. W. Campbell, Guy Bradley, and Paul Gooch.

Eagles Win Fast Game Here 20 to 13

In a fast and hard fought game on their home field, O'Donnell's Eagles won the big end of the score from Wilson High School last Friday afternoon. This was one of the cleanest, fastest games this season, the teams being more nearly evenly matched and every man on each team was on his toes and rarin' to go.

Supporters of both teams were loyal in their moral and vocal support, and good-feeling prevailed throughout the game.

We have a good team and a good coach, folks; let's all get together and boost them.

White Elephant Escapes Captivity

At the last rehearsal of the faculty play, the White Elephant fell through the stage and got away, so the play is impossible. Not the play, but the presentation at the date announced.

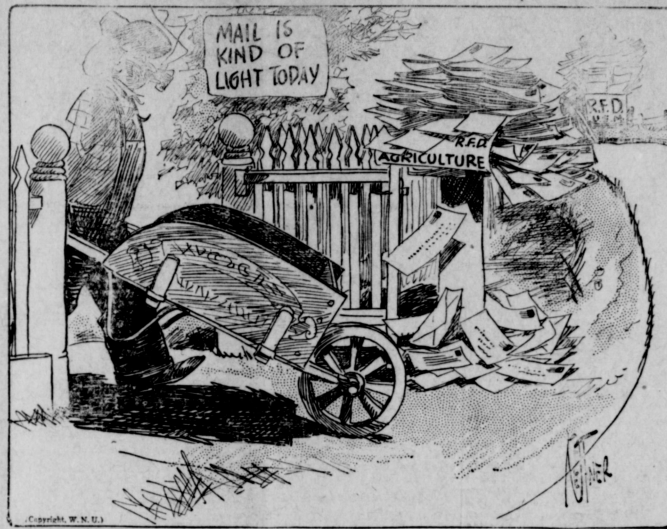

However, under the auspices of the Parent-Teachers Association, a program of mixed numbers will be presented Tuesday evening, October 30, in the High School Auditorium. Admission will be 10 and 20 cents. We won't tell what the program is by, but it will be good.

A Thanksgiving social is being planned by the P. T. A. Date will be announced definitely later, but will probably be on the Tuesday evening before Thanksgiving.

All members are requested to pay their dues within the next few days, as our state dues must be paid by November 1st.

Intermediate Section.

M. L. H. Baze, Conductor.

Harvesting the Campaign Mail

O'Donnell Invited To Hear Vardeman Speak

Wm. A. Wilson, secretary of the Lamesa Chamber of Commerce, called the Index man Wednesday afternoon and asked that we extend the church and business people of O'Donnell a special invitation to be present next Sunday afternoon at 3:00 o'clock at the Lamesa High School auditorium to hear Mr. Ben R. Vardeman of Chicago, on the subject of "Building the City Four-Square."

Mr. Vardeman is a nationally known business and community lecturer and is conducting a kind of institute at Lamesa for one week. The series of lectures will begin on next Sunday afternoon, October 28th, when Mr. Vardeman speaks on "Building the City Four-Square," at the Lamesa High School Auditorium, at which time all church and business people of this city have a special invitation. The remaining lectures will be held at the District Court room each evening.

The Chamber of Commerce of O'Donnell has been asked to secure a large attendance from here during one night next week and this night will be known as "O'Donnell evening." Efforts are being made by the local organization to secure a large attendance.

It would be well for all church and business people of this city to hear all of Mr. Vardeman's lectures. Any one of his programs will be well worth the drive to Lamesa. So if you can't attend all of them, hear as many as you possibly can. It is seldom the people of this section have the opportunity to hear such a nationally known speaker as Mr. Vardeman.

The lectures will be free to all who wish to hear him.

Wilson Pointer Now Published by Index

The Wilson Pointer, of which Mr. and Mrs. Carl Holden are editors, is now being printed in O'Donnell by the Roberts Printing Company. It was formerly printed by a Lubbock concern.

This is a neat four-page paper, filled to the last inch with news and advertising.

BRINSON HOME IS UNDER CONSTRUCTION

An attractive five-room bungalow in the south part of town will soon be the home of Mr. and Mrs. Jim Brinson. Building is being done under the direction of Lawlor & Campbell, and the best mechanics in town are now at work on it. It will be thoroughly modern and convenient in every respect and will add much to that part of town.

Install Nine Street Lights

Texas Utilities Company Crew Finish Reconstruction Work This Week

The Texas Utilities company will complete the work of reconstructing its lines in Tahoka by the last of this week, according to W. S. Anglin, the local manager. From here the construction crew will go to Lubbock to rebuild the high line between that city and Plainview, we understand. Longer and heavier poles have been erected here and new wiring strung where needed. The lines in this city are now in excellent condition and the services has been much improved.

The company is also installing some additional street lights here. A string of six lights have been placed on West North Third Street leading out to the High School building, and three additional lights on the Brownfield highway. This gives a continuous string of lights now from the Santa Fe Railway through town to the western limits of the city.—Lynn County News.

Infant Daughter of S. A. Billington Dies

On October 18, occurred the death of Baby Velma Jewel, three-months old daughter of Mr. and Mrs. S. A. Billington of this place.

Funeral services were conducted at the Nazarene Church by the Rev. Stevens of Lamesa, at 2:30 Saturday afternoon, interment following at the local cemetery.

During the three short months of her little life, though she was never strong and robust, the baby was a source of happiness and sunshine to her parents and their friends.

May they not grieve too long for their absent darling. She has only gone to wait awhile for them in a fairer, brighter land, where He who said "suffer the little children to come unto me" received her with a smile. His loving arms will protect her, and His love will lend comfort to the bereaved ones.

The Index joins in extending deepest sympathy to her grieving family.

FIFTH MONDAY SOCIAL TO BE GIVEN NEXT MONDAY

The ladies of the First Christian Church will be hostess at the regular Fifth Monday Social. The Christian ladies will entertain all the other churches of the city and everyone who wish to come. A special invitation is extended to all.

O'DONNELL EAGLES PLAY "ALL-STARS" HERE FRIDAY

This afternoon a squad of veteran football players will meet the O'Donnell High School Eagles on the town field, and if they don't take a game from them, they'll certainly make the Hi representatives work.

As the line-up stood just before publication, the All-Stars will have the following men at positions: E. C. Willis, L. E. Manuel Medley, R. E., and H. B. V. B. Hohn, L. T.; Ohrn Brewer, R. T.; J. D. Fairley, L. G.; Hoot Gibson, R. G.; Chester Horn, C.; Martin Line, L. H.; Thaddy Gardenhire, Q. B.; Desmond, Yandell, F. B.; Substitutes will be Naymon Everett, Paul Welch, Joe Whigham, Charlie Cathey, and Luther Wyatt.

The Eagles battle formation will be as usual. Now folks if you want to have lots of fun and see a rattling good game besides, just come to town a little earlier, get your shopping done and go to the football field. Coach Denison and his squad are doing some real work and will be several degrees better than the others on team work, signals, etc. But the other team is composed of old football men who have not forgotten all they knew about flying tackles, punts, and kicking goals. So remember the game this afternoon.

Rumors of Extending Road from Seagraves

SEAGRAVES, Gaines County, Oct. 22.—Beginning of a survey of a proposed extension of the Lubbock-Seagraves branch of the Santa Fe railway, from Seagraves toward the southwest oil strike, and the opening of a new townsite some 20 miles from here, were reported in this city today.

Twelve engineers of the Atchison, Topeka & Santa Fe railroad, headed by J. W. Stewart and J. T. Ervin, of the Chicago engineering department of the company, began the survey today of this proposed extension. If the Interstate Commerce commission allow the extension following the survey, and if the line extends to Hobbs, it will be between 36 and 40 miles in length. In addition to connecting Seagraves with the newly discovered New Mexico oil field, it will also give Lubbock a direct rail connection with Hobbs and the adjoining section.

NEW HOME OF P. O. TO BE FULLY EQUIPPED

Mechanics have been busy all the week building new equipment in the just-completed quarters of the Post Office, which will soon occupy one of the Singleton buildings. Tables, desks, racks and other things are being added so that O'Donnell will soon have a completely modern and convenient Post Office.

LOCAL MAN REPORTS PROFIT IN RAISING HOGS

E. W. Hester, local dairyman and livestock raiser living just south of the city limits, reported having purchased a Hampshire sow several months ago for which he paid \$87.75, the cost he considers small compared to the profit he has realized from the increase during the past few months.

On April 6 of this year the sow gave Mr. Hester 13 pigs which he sold at weaning time for \$15.00 each, and again on the 19th of this month she presented him with 12 more pigs which will also be worth \$15.00 at weaning time. The increase from this one sow since April 6 figured at \$15.00 each for the pigs would bring the neat sum of \$375.00. Not bad. Of course, the cost of feeding and raising the litters to the weaning age amounts to something, but is very small considering the amount realized from the sales.

It all goes to prove that there is money in the hog business in this country, if one puts a little time and effort in the business. There is never a year but what plenty of feed can be raised in this country and we see no reason why more people are not raising hogs for the market in the O'Donnell territory. Time is coming when there will be.

C. of C. Meets And Appoint Secretary

The directors of the newly organized Chamber of Commerce met at the home of C. H. Doak on Wednesday night of this week in a business meeting. Final plans were made in perfecting the new organization. Directors present were: C. H. Doak, J. P. Ayler, Ben S. Coin, Hal Singleton, Sr., and B. M. Haymes.

Motion was made and carried that J. W. Roberts be offered the position as secretary at a salary of \$40 per month. Messrs Ben S. Coin and J. W. Roberts were appointed to draft constitution and by-laws. The new organization was divided into six different departments as follows: C. H. Doak, chairman of Roads and Telephones; Hal Singleton, Sr., rail-roads; J. P. Ayler, Entertainment; B. M. Haymes, Agriculture; Ben S. Coin, New Industries; C. H. Mansell, Trades Promotion.

The new organization will work on the budget system in the future and is expected to accomplish great things for the future development of O'Donnell and surrounding territory.

Highway 9 Being Cleared of Nails

A giant magnet is being used today between Hale Center and Plainview to remove nails and other small metal particles from the highway. The Magnet was recently procured from the state highway department for use in this district and has undoubtedly saved the motorist many a punctured tire since it was put into service. The machine works out of Lubbock to the northern boundary of Hale county.

The magnet is set upon the back of a truck which is equipped with a special dynamo to furnish power. Two iron bars extend from the back close to the road surface to pick up the articles attracted by the magnet. These bars cover a space about one by eight feet.

The magnet is expected to be a permanent part of the district highway equipment.—Lynn County News.

H. D. CLUB TO DISCUSS LESS EXPENSIVE CLOTHING

At the meeting of the Home Demonstration Club, which will be November 7, the program will include such subjects as "Home Cleaning and Dyeing of Clothing. Does it pay?" "What I Do With Men's Discarded Clothing," "Is It Cheaper and more Satisfactory to make my Own Dress or Buy Ready-to-Wear?" And similar other discussions, which are of interest to home makers.

Due to the fact that there are five Wednesdays in this month one week will be skipped, there being regular meetings of neither H. D. Club nor P. T. A.

Leaders for the discussions will be published next week.

Don Terry

Wanderlust carried Don Terry (real name Donald Loker) of Natick, Mass., to Hollywood and into a star role in the "movies." His first success was the male lead in "Ma Gangster." He is a former Harvard athlete. It was after touring Europe and the Far East that we were induced to sign his name to a motion picture contract.

Uncommon Sense

By John Blake

APOLOGIZING

A MAN'S first complete apology for a despicable act usually requires a great deal of moral courage. It is usually only after a hard struggle with himself that he can bring himself to admit he was at fault.

It is perhaps because it is so difficult to pronounce that an apology has such a marvelous effect. If the offense is forgivable any generous person will take an apology in full retribution for a friend again.

There is nothing humiliating about an apology. Everybody in the world has cause to apologize for his acts occasionally, whether or not he does so.

Some persons go through life without ever once admitting to another that they are at fault. They know, of course, that their conduct is occasionally contemptible. But they never think it worth while to admit this.

As a result they estrange a great many more people than they would if they acknowledge their shortcomings.

There are two factors that make an apology difficult. One is the fear that it will be mistaken for weakness. The other is the fear that it will be ungraciously received.

This first factor is very powerful when there is apparent ground for it. A physical weakness, for instance, will find it extremely difficult to apologize to an athlete, for he will think that the latter will consider the apology mere cowardice. A somewhat similar situation may exist when a person of average mentality feels that he ought to apologize to a genius.

The second factor is likewise powerful, though its strength disappears when it is logically examined. If we feel we ought to apologize to a person we should, of course, do so irrespective of how he may receive it. We apologize because we know it is the right thing to do and not merely because we want to win over a sorehead.

If any person receives a sincere apology for some forgivable offense in a surly and ungracious manner you may safely set him down as a second-rate individual. But give him a chance to show himself otherwise.

Many persons who are not afraid of apologizing to an "equal" never think of apologizing to a person of lower station. Yet anybody, if he has been offended, is entitled to an apology. And it is surprising how many people—in even the humblest walks of life—appreciate that an admission of fault shows moral courage.

Anyone who can bring himself to apologize seldom has cause to regret his courage.

And the thing comes easier with practice.

The price of \$27.000 was paid for an Oliver Goldsmith manuscript in London at auction recently.

Cold Weather Desserts

IN winter, we are accustomed to have the furnace lighted, and feel aggrieved if we are chilly and the radiators are not sizzling hot. Another thing we come to know, in strike years anyway, is that it takes coal to keep the furnace running. The body is much like a furnace, but it uses food for fuel. Interestingly enough, both coal and food are graded by calories, or the amount of heat given off by a certain weight when burned.

When the atmosphere is cold, the body is more rapidly cooled and so requires more fuel to maintain its constant temperature. If the extra fuel is not furnished in the diet, the body eats up first its fat and finally its muscle, until starvation, it burns itself out. This process of nature explains why we like certain foods in winter more than in summer.

Most people do not wish to eat a greater bulk of food, but get the calories by choosing foods richer in fat. It takes two and one-quarter ounces of sugar to give off as much heat as one ounce of fat.

Sugar, Spice and Everything Nice

Now is the season when pies come into their own, the succulent apple, the spicy squash or pumpkin, the rich, fruity mince, in crusts flaky and tender.

There are, of course, many other favorites, fruit pies of all kinds and lemon meringues.

These are no longer the burden to make that they used to be, for

the bulk of preparation has been taken out of the house. Canned fruits come ready to use, mincemeat, instead of being the labor of a week, also is put up in cans, and coconut grated and canned in its own bulk, needs only the service of the can opener.

The old favorites, steamed date, fig, plum puddings are now prepared in the same manner, taking the labor out of the home, and need only to be heated and served with whatever sauce is best liked. Some of the preferred sauces are a sweet Hollandaise, foamy sauce or hard sauce. Left-over canned fruit syrups, thickened with cornstarch and favored with salt and lemon juice, are very satisfactory sauces.

Fruit Desserts are Good

While hot desserts appeal at this season, they are not necessarily rich in calories. Following a heavy dinner, a fruit soufflé would be better than a suet pudding, pie, or roly-poly. Berrys may be made quite rich with butter and brown sugar and served with hard sauce, or else

served as simple as plain apple sauce, and served with "no sauce at all, or light cream. To make the latter variety, butter a pudding dish and cover sides and bottom with a layer of dried, ground bread crumbs. Fill the dish with apple sauce, (a medium sized can is about the right amount for the average family) or crushed pineapple, top with crumbs,

and bake until brown. The richer variety is put together in layers with plenty of butter, brown sugar and cinnamon, and emerges from the oven quite candy-like.

Winter shortcakes are just as good as the summer varieties and suit the requirements of the body better. Almost any of the canned fruits, drained from their juice, arranged on layers of tender, buttery shortcake, topped with whipped cream or spread with marshmallow cream are dishes to fill and satisfy the hungriest mortal and the most fastidious guest.

Strangely, our coldest desserts, with the exception of ices and sherbets, are also the richest in heat and energy producing elements. Ice cream, mousses, and parfaits rich in eggs and cream may temporarily chill the body, but will give out a supply of energy to more than make up for their temporary cooling effect. The simplest ice cream is the Philadelphia, a combination of light cream, sugar and flavoring. This type is most satisfactory for fruit flavors. To three cups of coffee cream add the contents of a can of fruit and three-quarters of a cup of sugar, which should be dissolved in the syrup. The fruit itself should either be put through a ricer previous to combining with the cream, or added in small pieces, before freezing process is completed.

Lester Burdine, who is a student at Texas Tech College at Lubbock, spent last week-end with home-folks and friends.

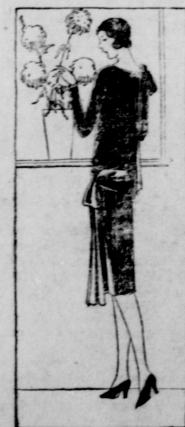

Miss Muriel Smith spent last week-end at Woodrow.

Mr. and Mrs. Morris Sanderson and family of Lcop, were visiting friends and relative here last week.

200-PIECE BAND BEING ORGANIZED FOR SOUTH PLAINS

Plans have been matured for the organization of a 200-piece band for the South Plains. Many towns in this section of the state will be represented on the membership. The first rehearsal will be held at Abernathy next Saturday, when the businessmen of that town will feed and entertain all the visiting musicians.

Several members of the Tahoka band are expecting to go up. The organization will meet at the different towns in this section for practice from time to time. The band expects to be ready for the big West Texas Chamber of Commerce meet in El Paso next year.—Lynn County News.

What Pink Bollworm Looks Like

Farmers sometimes find insects in cotton bolls and wonder they are pink bollworms. The worm stage of the insect shown in illustration is the only form that is likely to be found by a casual observer. The worm when full grown varies from about seven eighths of an inch to slightly more than one-half inch in length, and has a tinct pinkish color. The pink bollworms shown above are about half natural size.

COLOSSAL BEAST OF GOBI DESERT ATE SELF TO DEATH

Grew Larger With Each Generation Until It Could No Longer Navigate.

Poling.—That colossal beast, said to be about as long in body as the Woodworth building is high and whose bones were found by the Central Asiatic expedition led by Dr. Roy Chapman Andrews, died because he ate himself out of existence. This explanation was made by Dr. Walter Granger, chief paleontologist of the expedition, who said he had found evidence that the creature was a vegetarian, eating chiefly the smaller branches of trees. "The beast lived on the fat of the land of its birth," Doctor Granger said. "It grew larger and larger with each succeeding generation until after a million years it became so poly-poly that it could no longer navigate. It finally gave up the ghost, having eaten itself out of existence because it was too enormous for any earthly use." Doctor Andrews disclosed that the expedition had found that men armed with weapons of stone and women adorned by spoils of the hunt lived 20,000 years ago in what is now the Gobi desert. "The people were wonderfully clever," Doctor Andrews said. "They lived apparently in a transition period between the old and new Stone ages. The countryside was saturated with people." At the time they lived in the area it was a fertile land with trees and lakes and plentiful annual rainfall. Now the climate has changed and the country is not so thickly populated and the discovery of the new fossil area in ancient lake beds indicate the effect a change in climate had.

Suitors in Lima Have Rules on How to Court

Lima, Peru.—Youth in this part of the world is not flunting, and the courtly roles of society still prevail. Witness the following from the etiquette columns of a Lima newspaper: "On making his first visit, the young man will feel dismayed if he does not know exactly what to talk about, equally as the girl who finds herself in the same circumstances. To avoid the unpleasant moments these two young persons—referring to an uneasy looking couple in the illustration—are passing, remember that it is always more interesting to talk of other persons, and not about one's self. The girl will converse about matters which interest the man. If he has musical tastes, she might tell him about the girl who stands her mother by giving piano lessons. If really interested in him, she should talk of the last one she has read and narrate the situation, tragic or comic, in which one of the characters was placed. On his part, the youth should do all possible to make the conversation agreeable and entertaining. "On his first visit a boy should remain not more than half an hour. Tea may be served, but it should be very light. When he leaves, the young man should not ask permission to call again. If the people of the house want his friendship to continue, they will invite him to dinner or tea at the first opportunity."

Says "Deadly" Insects Are Really Harmless

Ithaca, N. Y.—Most of the insects which people believe to be deadly are in reality harmless, according to Dr. W. J. Baerg of the University of Arkansas, and he should know, he says, because he has been bitten by more of these "deadly" insects than any other living entomologist. Doctor Baerg included nearly all tarantulas in a thesis to that effect read here at the fourth International Congress of Entomology, and he bases his conclusions on personal encounters with scorpions and such reputedly poisonous insects during many years of study. Doctor Baerg told of having injected some scorpion poison into his own body. He experienced nothing but a "severe pain."

Mr. Ben Cowden, accompanied by his son Bob, made a trip to Midland, Sunday.

For the Coed Sweater With Colorful Stripes

The call of the schoolgirl sweater mode is to stripes, up and down, around and around, zig zag or on the diagonal. The sweater pictured is white, striped with blue, for to follow fashion the college girls simply must wear some one or more or many shades of blue this season.

ADVICE TO NEW VOTERS

No dearie! He is not one of the famous Smith Brothers. That is mere talk. Not a cross on the ballot does not stand for a kiss. There is nothing immodest in marking your ballot in this manner. A "straight party ticket" merely means that you make one mark for the party of your choice. The idea is not that the adjective "straight" is used in any moral sense. Lady voters leaving the booth need not accept a cigar when proffered. Merely smile, say "I thank you" and leave. If you find a piece of red crayon in the booth to which you have been directed, slip into another booth and use the usual black crayon.

Search the following carefully and you will find the name of the next American President:

"The sailor cried: 'Ho! Over with the life-line—and leaped himself. Verily his heroism it has merit.'"

Haney & Earls, Props

PROGRAM SPONSORED BY C. OF C. WAS SUCCESSFUL

(The Wilson Pointer) The program given at the school building Monday night and sponsored by the Chamber of Commerce was a success. Although the cold night no doubt kept many away there was quite a large number to enjoy the program and refreshments.

The musical numbers given by Miss Huffaker and Rev. Roth were highly enjoyed. The addresses made by Mr. J. L. Rainey and Rev. Roth put pep in the gathering.

Rev. Roth stressed civic improvement, he also told of the work the C. of C. was doing and what they contemplated doing in the near future.

No doubt but what Rev. Roth told us things that we had never thought of and things that will make us all think, would that we had more of his kind in the community.

Mr. Rainey's talk was on trees and their worth to a community. Mr. Rainey is a nurseryman and is fully competent to talk on this subject.

He outlined the worth of trees to a community, not only in beautifying the landscape, but in giving the town

Bill Der Says

"It is better to work and save than to spend and slave."

Good on Defense

Slightly swiping on, phrase of praise awarded Champion Gene Tunney by Dempsey's most partial admirers, we claim that we likewise are mighty good on defense. In fact our fence is so good that we can hardly keep enough to satisfy all the live stock (including humans) and chickens. It's the best, but cost no more.

HALLOWE'EN

This red-letter day, like many others was originally a pagan festival, which was taken over and incorporated into christian religious observances. Halloween in the beginning was a mark of homage to the sun. To the pagans the sun was the giver of heat, light, and life, and bounteous harvests, so that it was only natural that they should set aside a day of grief for the ending of summer when his beauty and splendor declined under the groats and winds of the coming winter, and mingled with this grief for the passing of summer was a thanksgiving to Pomona, goddess of the harvest. This festival was held on October 31.

The ancient druids also had this thanksgiving festival, and they believed that on this day Samon, lord of death, called together the wicked souls who had been condemned within the past year to inhabit the bodies of animals.

With the coming of Christianity this feast day became all saints' day. The leaders could not easily deny the existence of the pagan gods and convince new converts to the faith, but they explained them by saying they were children of evil and their power that of black magic. So it came to be the universal belief that these spirits of darkness, driven from their lod haunts, had taken refuge in caves and caverns where they held ghostly revelry all the year around but on Hallowe'en they came out to practice their magic and do harm to men.

DO WE HAVE ANY?

Those citizens who stand on the street corners with their hands stuffed in their pockets, their shoulders stooped and sneers on their faces are of no value to any community.

One of them was the fellow who said the fire department didn't know how to fight fire, and told how it should be done. But he didn't lend a hand.

That was the same fellow who complained about the ruts in the street, but he hasn't paid any taxes for years and of course doesn't help keep them in condition.

He is the one who finds fault with our public schools and teachers but he never did anything in his life to improve the schools or assist the teachers.

He is the fellow who condemns and sees no good in anything. You all know him and his type. The sooner he leaves us, the sooner we will be able to move forward.

Contrast him with the citizen who is a booster and may be counted on to help every worthy cause. This type of citizen always pays his debts and taxes, stands for everything that is for the betterment of the place where he lives and never allows his enthusiasm for his home town to lag.

Classify yourself and see which class you belong to which type you can match. If you belong to the former, it's time for rejuvenation, if you belong to the latter, more power to you.

VOTING A DUTY

An inquiry was conducted recently by an organization interested in the subject into the causes for the decline in voting. One of the principal reasons disclosed was a widespread belief that the powers of corruption in politics are so invincible that it is wasted effort to attempt to defeat them.

In addition to those who admit that this was the reason for their failure to vote there are many more who were quided by the same thought but did not care to admit it. This same view is held by many who feel that politics is too corrupt. They do not recognize their obligation to help clean up.

A great many persons think that patriotism is only a war term. The very thought of an invasion of our rights, or an attack upon our institutions on the part of a foreign power will immediately arouse that love of country that exists in the heart of every true American. Not all invasions of our rights or attacks upon our institutions however, come

from foreign powers. History proves that more nations have been wrecked from within than from without. The downfall of Rome was the direct result of official inefficiency and corruption. A government necessarily functions through individuals as officers and agents, and their corruption constitutes a direct and menacing attack upon the governmental structure. Such an attack demands patriotic resistance as surely as does the attack of a foreign power.

The only available way to make such a patriotic resistance is by an intelligent use of the ballot. It is treasonable to admit that corruption in office exists and then not make an effort to eliminate it. And it is cowardly if prior efforts have not succeeded to say "What's the Use?" And quit trying.

STATEMENT OF THE OWNER-SHIP, MANAGEMENT, CIRCULATION, ETC., REQUIRED BY ACT OF CONGRESS OF AUGUST 24, 1912

Of the O'Donnell Index published weekly at O'Donnell, Texas for Oct. 26, 1922.

State of Texas, County of Lynn: Before me, a notary public in and for the State and county aforesaid personally appeared J. W. Roberts, who, having been duly sworn according to law, deposes and says that he is the editor and manager of the O'Donnell Index and that the following is, to the best of my knowledge and belief, a true statement of the aforesaid publication for the date shown above caption, required by the Act of August 24, 1912, embodied in Section 411, Postal Laws and Regulations, printed on the reverse of this form to-wit:

1. That the names and addresses of the publisher, editor, managing editor, and business managers are: O'Donnell, Texas. Editor, managing editor, and business manager, J. W. Roberts, O'Donnell, Texas. That the owner is: Roberts Printing Company, O'Donnell, Texas. J. W. Roberts, O'Donnell, Texas. Sam A. Roberts, Haskell, Texas.

3. That the known bondholders, mortgagees, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages or other securities are: Mergenthaler Linotype Company, Brooklyn, N. Y.

4. That the two paragraphs next above, giving the names of the owners, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company but also, in case where the stockholders or security holder appears upon the books of the company as trustees or any other fiduciary relation, the name of the person, or corporation for whom such trustee is acting, is given; and also that the said two paragraphs contain statements embracing affiant's full knowledge and belief as to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company as trustees, hold stocks and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association, or corporation has any interest direct or indirect in the said stock, bonds, or other securities than as so stated by him.

J. W. Roberts Sworn to and subscribed before me this 25th day of October, 1922. (SEAL) B. M. Haymes, Notary Public for Lynn County.

W. M. U. Hostess To Tahoka Ladies

The Women's Missionary Union of our Baptist Church was hostess Monday afternoon to the auxiliary from Tahoka.

The visitors put on the Royal Service program in a beautiful and impressive manner.

At the conclusion of the program a lovely refreshment plate of pumpkin pie topped with whipped cream, apple cheese, and coffee was served to each of the guests. Plate favors of glowing yellow chrysanthemums added a charming touch. About forty guests enjoyed the afternoon.

Donation by the Church of Christ at O'Donnell to Tipton Orphans Home of Tipton, Oklahoma: Merchandise value \$65.00. Cash donation, \$68.16. Total, \$133.91.

BORN—To Mr. and Mrs. Fred Alexander of OK Community a fine girl. All parties doing well. The babe arrived at 9:00 o'clock Sunday morning. They say she is a fine young lady and that she favors Mr. Alexander but he says he doesn't see how they get it that way.

Mr. M. J. Whitsett went to Dallas Monday to bring back his car.

Two Children Poisoned At Brownfield Tuesday

Brownfield, October 22.—Given an insecticide by their father, Bill Dorman, who thought the poison was salts, two children died on a farm a few miles from Brownfield Sunday night despite the efforts of 3 physicians to save them.

One of the children was not feeling well Sunday and the father gave the elder what he thought was salts. The younger then asked for some medicine and a dose of the same poison was given to him. Both became violently ill and died a few hours later.

The insecticide, it was said, was given to Mrs. Dorman by a neighbor. Mrs. Dorman put it into a box which had contained salts, and it was from this box that the father took the preparation.

Mrs. N. W. Gore, who has been visiting her sister, Mrs. W. S. Cathey, has returned to her home.

Mr. Curry, of Lamesa, was the guest of Messrs Henderson and Kindard at the Wilson-O'Donnell game, last Friday.

T-Bar Ranch Is Now Being Divided Up

Dave Childers, Manager of the big T-Bar Ranch, states that the big pasture is to be cut up into three compartments. It will require just 39 miles of fence to make the divisions. Material has been purchased and building of the fences was begun this week. Dave says this will be hard on wolf hunters, the end of petting parties, but mighty fine for the manager of the T-Bar.—Lynn County News.

TODD-ALDRIDGE

On last Saturday evening Miss Ozelle Aldridge was united in marriage, to Mr. Cecil Todd at the home of the officiating minister, Rev. W. L. Henderson, in this city.

Both the contracting parties are very popular young people of the Wells Community and have a host of friends who join the Index in wishing them a long, happy and prosperous life together.

The small son of Mr. and Mrs. Henry Schooler is quite ill.

JOHNSON'S BARBER SHOP OCCUPIES NEW QUARTERS

Johnson's Barber Shop is now at home in the Singleton building, in more spacious and more convenient quarters. The addition of new equipment will add much to the already high standard of service.

Mrs. Brooks who has her own Beauty Shop at Lamesa has been here this week, giving permanent to the skin and hair. Many ladies have availed themselves of this opportunity and are now wearing beautifully waved hair. It would be a source of much satisfaction if Mrs. Brooks could make her arrangements to be here one or two days in each month. However, if she decides to do this, it will be announced later.

Mr. and Mrs. A. S. Graham spent Saturday and Sunday with Mrs. Graham's parents, Mr. and Mrs. M. Stacy of Snyder. Mr. Graham and Mr. Stacy attended church at Herring Sunday. Mr. Graham says he met some three to four hundred Mexicans at Saturday between Lamesa and Snyder.

"King of Kings" Be Show

Geo. B. Mullins, manager of the Lynn Theatre, stated that "King of Kings" which is at the Lynn Theatre, starts at 17 and 18. Mr. Mullins' picture was in such demand that he could not book it any other date.

"King of Kings" is the greatest Bible story ever shown and is now showing in the largest houses in the larger cities.

CARD OF THANKS

We wish to thank our neighbors for their kindness and words of cheering the recent illness of our beloved baby. Many of our sincere friends have expressed their sympathy on each of you is our debt. Mr. and Mrs. S. A. Children.

Mr. and Mrs. John were guests Sunday at Mrs. R. E. Speck at Lamesa.

Harvest Time Festival

Harvest Days have been, from time immemorial, a period of festal rejoicing and celebration for crops that have been safely garnered. To make this occasion doubly significant as a time of prosperity and thrift the undersigned merchants have united in declaring special displays of new fall and winter merchandise with many items priced at less than usual. It is an event which provident shoppers will patronize liberally, supplying both present and future needs, thus realizing remarkable savings on merchandise they must buy anyway.

When Gasoline Was

Dumped Into Ocean

In the process of distilling petroleum, the lighter oils, naphtha and gasoline are first obtained, and these were considered waste products for many years. Kerosene, the heavier oils and greases, constituted the greatest demand, and gasoline had only a limited use in exceedingly small quantities, such as the coating of lubricants. Not only was gasoline practically useless in the "good old days," but it was dangerous because of the attendant risk of fire which was ever present wherever quantities were stored. Millions of gallons were loaded into huge tanks on barges, transported far out to sea, and there dumped. Thus was the fire hazard averted.

The advent of the internal combustion engine changed all this, and gasoline in a few years became the primary product of the petroleum trade. Kerosene lost caste with the coming of the electric light. The development of the automobile made the petroleum industry one of the richest of the nation, and the "dangerous byproduct" became one of our principal articles of trade.

In the early days of the automobile, when fuel was cheap, few manufacturers paid much attention to operating costs of their cars. Automobiles were costly, and the men who purchased them were wealthy. Gasoline was comparatively scarce, and the early automobiles used plenty of it.

Modern times have changed all this, and economy of operation is one of the essential requirements of the present-day automobile. Exhaustive tests are made and every available scientific aid is used in this research.

Great Britain Noted

for Varieties of Cows

Recently a local contemporary informed its readers that a certain Siamese nobleman, whose interests in the dairying industry are well known and meritoriously popular, has Australian cows. He said that he had that his cows were Zebu, the Indian humped cow, or the purely native one.

Which leads us to remark that of all the lands on earth Great Britain presumably has the greatest number of breeds of cows. The Royal Agricultural society recognizes the Short-horn, Hereford, Sussex, Welsh, Long-horn, Aberdeen-Angus, Belted Galloway, Galloway Fries, Dairy Shorthorn, Lincolnshire, Red Shorthorn, Devon, South Devon, Red Foll, Blue Albion, British Friesian, Ayrshire, Guernsey, Kerry and Dexter, which would seem quite a lot for the small island that is their habitat.—Sun Observer

The Native Doctor

The native trained in medical work is becoming a main factor in bringing about the new day in Africa, states the Missionary Herald, an English Baptist monthly. It says further: "M. Louis Franck's humorous description of the native medical assistant confronting the witch doctor could be echoed by every missionary. 'Standing before the witch doctor he says to that ancient charlatan—'You are an ass,' and then proceeds to probe his 'Loo,' says he, 'through the lens of my microscope at the minute creature shown there. This is the cause of disease, not the entrance of an evil spirit. You know nothing at all about it. I am the one who knows.' Hence the end of the witch doctor's influence."

Primitive Counting

While enjoying a holiday in Finland, writes an English traveler, I flew across by airplane to spend a day in Rovaniemi, the capital of Lapland, and I was very interested to see that in all shops they still use the ancient and primitive abacus, the frame with colored balls, used in kindergarten, for purposes of adding. I went first to a bank to change a sovereign. They accepted the coin with some suspicion and checked the notes they gave me on one of these ball frames, and when I went to the post office to get a set of stamps as a souvenir they totaled the amount I had to pay by the same method. I am no mathematician, but I got my total first.

Danger in Transplanting

Trees, like people, lose adaptability with advancing age, and a comparatively minor change in their environments may be fatal.

Entomologists of the Department of Agriculture say that transplanting at most always is a severe test for trees of considerable size and many transplanted trees are attacked by insects. If most of the large trees in a grove are killed, leaving only a border of trees or small groups, the survivors often suffer serious damage and die.

This may be the result of a disturbance of moisture conditions and a change from general shade to large areas of sun-baked soil. Borers then may complete the deadly work.

Milky Way

The most stupendous of all celestial objects is the Milky Way, more commonly known as the Milky Way. In fact it is the whole universe, of which the sun with all its attendant family of planets, including asteroids and satellites, as well as comets, form a very humble member. It appears as a dark white band crossing the heavens to utterly a matter of perspective; that band marks the plane of great extension of the Milky Way—the direction in which the stars, in reality fairly uniformly distributed, appear compressed by the effect of distance. Many of these stars are intensely brighter than the sun.

WOMAN DRAWS PEN SENTENCE

Mrs. Mollie Turner Gets Twenty Years For Husband's Murder

Eight Years Ago

"We, the jury, find the defendant guilty as charged in the indictment and assess her punishment at confinement in the penitentiary for twenty years."

That was the verdict of the jury Tuesday night in the case of the State of Texas vs. Mrs. Mollie Turner, charged with the murder of her husband, M. B. Turner, near Wilson eight years ago.

The state was represented by District Attorney T. L. Price, County Attorney L. C. Heil, and Mr. Anderson of Post. The defendant was represented by J. E. Vickers of Lubbock, Judge Fritz R. Smith of Snyder tried the case. Judge McGuire being disqualified by reason of having been district attorney when the alleged crime was committed, and was investigated by the grand jury. The defendant filed a motion for a new trial, which was promptly overruled by Judge Smith, and the case will be appealed to the Court of Criminal Appeals.

The trial of this case attracted quite a bit of local interest, especially among the older residents of the county.

M. B. Turner was killed by a pistol shot at his residence near Wilson in August, 1926. He and the defendant Mollie Turner, who was his wife, and their daughter-in-law, Mrs. John Turner, were the only persons present at the time of the tragedy. Both the women were indicted for murder more afterwards but both of them claim that the killing was purely accidental, and the cases were finally dismissed for lack of evidence to convict.

But all did not go well in the Turner household. Mrs. John Turner and her husband did not live happily together. In 1926, a separation took place. About a year and a half after, in the latter part of 1927, Mrs. John Turner, who was then and still is living with her parents at Post, confided to them the killing of M. B. Turner 7 years before, was not ac-

cidental but was purposely done.

The grand jury which convened in Taloka last spring again investigated the case and returned an indictment against the elder Mrs. Turner, charging her again with the murder of her husband.

The evidence, for the state adduced on the trial, showed that there had been previous and frequent trouble between the deceased husband and his wife. Just prior to the homicide they had gone to Amarillo, called there by some serious trouble which a son-in-law had gotten into. While there, Mr. and Mrs. Turner had further trouble, and Mrs. Turner returned to her home near Wilson. Her husband returned a day or two later, and when he arrived Mrs. Turner locked the doors and refused to admit him into their home. The daughter-in-law testified that Mrs. Turner finally got a pistol and went outside, where a few hot words were between the two ensued, whereupon Mrs. Turner deliberately shot her husband. He turned and walked away, climbed over two plank fences, and went out into the public road. He died at a point in the road about 400 to 600 yards from his residence.

In the meantime, the defendant and her daughter-in-law, Mrs. John Turner, made their way to a field more than a mile away, where John and Claude Turner were heading maise. Both women reported that the killing was accidental, but the younger Mrs. Turner testified on the trial this week that she so stated and so testified to the grand jury that later investigated the case out of fear, claiming that defendant had repeatedly threatened to kill her if she ever divulged the true facts.

The defendant testified to the previous trouble between herself and husband and claimed that her husband had been very cruel and abusive in his conduct on the day of the killing her husband came and threatened to kill her and the whole family that he broke in a door with an axe, and that in a scuffle over a pistol a few minutes later the weapon was accidentally discharged, the ball penetrating her husband's body. Lynn County News.

SWEET POTATOES PAY

FARMER DIVIDENDS

(The Wilson Pointer)

Mr. Peter Hartman one of Wilson's prosperous farmers has found a crop that eclipses cotton by far. Mr. Hartman has 12 acres of sweet potatoes that will produce 1728 bushels and at the price of \$1.50 per bushel, (that is the retail price at this time) will net \$2,092.00.

Mr. Hartman goes on to explain that these potatoes were not arranged and taking into consideration the fact that this has been a dry fall he has secured, an excellent yield.

Taking the average yield of cotton for this year which will be about 3-4 bales per acre, this would allow 3 bales for the same amount of land. The price at the present time is a little below 20 cents, this would allow less than \$300.00 for cotton on the same amount of ground.

Mr. Hartman states that it requires 8 rows to make an acre on the

ground planted to these potatoes and one row produced 28 bushels or \$27.00 per row. Pinto beans produced 100 pounds per row worth \$6 per 100 pounds, cotton produced 25 pounds per row. Figure that out. Mr. Hartman is demonstrating what we have advocated all along, that in-

let cotton be a successful good farmer handled his bouquet before he chided it. He said that he had not worried sweet potatoes he could have sold several bushels worth at his door for long enough.

When Winter Comes

You use more Electricity

DAYLIGHT HOURS are longer from April to September. These are the outdoor months. Picnicking, driving, swimming—all kinds of outdoor sports claim your time during these longer days.

From September to March daylight hours are shorter and therefore electric light hours are longer. Less outdoor playtime and more indoor amusement. Electricity makes the indoor hours joyous. It furnishes light and heat, cooks the meals, operates the radio, the victrola, and performs dozens of jobs that would otherwise be a hardship.

Electricity is the boon companion of shorter days and longer nights. You use more of it in the winter and it gives you countless pleasures, conveniences and comforts.

This chart shows the average number of hours in which electric lights are used in the average home for each month in the year.

January	6 Hours, 32 Minutes
February	5 Hours, 38 Minutes
March	4 Hours, 10 Minutes
April	3 Hours, 48 Minutes
May	2 Hours, 57 Minutes
June	2 Hours, 53 Minutes
July	2 Hours, 36 Minutes
August	3 Hours, 9 Minutes
September	4 Hours, 00 Minutes
October	4 Hours, 54 Minutes
November	6 Hours, 11 Minutes
December	6 Hours, 51 Minutes

This chart shows why your light bill is higher for the winter months than it is for the summer months. It is higher simply because there are more hours of darkness in winter than there are in summer.

TEXAS ELECTRIC SERVICE COMPANY

The Silent Partner of Progress

PERSONAL MENTION

See us before you sell your Kaffir, Maize and other small grains. We pay the highest market prices at all times. Henderson and Koeninger. Phone 42.

Public wagon scales on Highway No. 9, on Southeast corner of Harrison-Williams Gin lot for convenience of the general public. Headquarters for all maize buyers. State inspected Mell Pearce. Public Weigher.

Mr. and Mrs. W. H. Veazey accompanied by W. R. Campbell and their grand-daughter, little Miss Wilda Gene Campbell, spent last week-end at Hamlin.

Mrs. J. W. Roberts was taken to the Stamford Sanitarium last Saturday where she underwent a major operation. Her many friends are anxiously awaiting news that she is recovering nicely.

Mesdames W. L. Palmer and W. A. Emerson and Miss Thelma Palmer, were in Lamesa Monday afternoon.

Mesdames J. M. Wyatt, L. L. Wyatt and children, and Alvin Uhl and children, accompanied by Miss Viola Wyatt, returned Sunday from Oklahoma City, where they visited their daughter and sister, Mrs. Gerald Piper. Mrs. Piper will be remembered as Miss Hattie Wyatt.

See us before you sell your Kaffir, Maize and other small grains. We pay the highest market prices at all times. Henderson and Koeninger. Phone 42.

Public wagon scales on Highway No. 9, on Southeast corner of Harrison-Williams Gin lot for convenience of the general public. Headquarters for all maize buyers. State inspected Mell Pearce. Public Weigher.

Messrs and Mesdames W. E. Guey, C. H. Mansell, Rev. J. D. Johnson and Miss Alta Rodgers represented our Baptist Church at a B. Y. P. U. and Sunday School Rally at Tahoka, Sunday afternoon. They report a splendid service.

Public wagon scales on Highway No. 9, on Southeast corner of Harrison-Williams Gin lot for convenience of the general public. Headquarters for all maize buyers. State inspected Mell Pearce. Public Weigher.

Eugene Wilder needed a wagon sheet to blow his nose on several days this week, but is about to get back to normal again.

Mrs. J. C. Hardberger, who has become well known to people here during her visits in the home of her children, Mr. and Mrs. John Hardberger, left Lamesa Monday evening for Fort Worth, where she will spend the winter with her daughter, Mrs. C. B. Neals.

Mr. and Mrs. Ben Cowden and Mrs. C. H. Westmorland drove to Lubbock Monday evening where they saw Cecil B. De Mille's great picture "King of Kings."

Public wagon scales on Highway No. 9, on Southeast corner of Harrison-Williams Gin lot for convenience of the general public. Headquarters for all maize buyers. State inspected Mell Pearce. Public Weigher.

Mrs. C. H. Mansell has recently added the duties of janitor at the Baptist Church to her other activities. Or we suppose she has, since she spent most of Monday morning there with her head tied up in a towel, and brandishing a broom with much energy.

Mrs. M. A. Reeder and daughter Miss Mary, were guests Friday night of Mr. and Mrs. Sam Pfimmer. The families are friends of long standing the younger ladies having been school mates and later teachers in the public schools at Knox City. Several other old friends called during the evening and a real old talk-feast was enjoyed.

Mr. and Mrs. J. L. Keen of Hamlin were O'Donnell visitors Wednesday. Mr. Keen owns a farm near town and was well pleased with conditions in and around O'Donnell. While here they were guests of old friends, Mr. and Mrs. W. L. Palmer.

CHURCH NOTES

In the absence of the pastor, Rev. J. D. Johnson filled the pulpit at the Baptist Church Sunday. Bro. Johnson is Missionary for the Brownfield Association. He was re-elected to this position at the convention here this summer. He is a splendid preacher and a man of God, who is accomplishing much good.

During the afternoon several members went to Tahoka to attend the B. Y. P. U. and Sunday School Rally.

The W. M. U. members were indeed glad to have the Tahoka auxiliary as their guests Monday afternoon. Such visits keep alive our mutual interest and brotherly love. B. Y. P. U. programs were very interesting and were well attended in spite of the cold snap storm.

Fall-blooming flowers are making each of the churches more attractive, but this was especially evident Sunday at the Methodist Church. Bowls and vases filled with chrysanthemum of every hue, cosmos and roses were beautifully arranged on piano, pulpit stand, table, and altar.

An unusually good session of Sunday School was followed by a splen-

did sermon from the pastor. The W. M. U. met Monday afternoon, and Mrs. J. T. Weems, our Superintendent of Study led in a discussion of part of the book "The Way of Jesus." This is the last of the Jubilee Bookshelf. At the next meeting Monday afternoon at 3:00 at the parsonage the study will be completed. All members are urged to be present.

The Maurice Smith M. S. began regular work again Tuesday afternoon, after a lull of several weeks. Mrs. Pemberton is back at her post as leader, and great things are expected of these young ladies. They began their study of the Jubilee bookshelf, a member of the adult society presenting "Memories of Scarritt." At another time this month the "Life of Belle Bennett" will be presented in a like manner.

NEW MOORE HEADACHE

Cotton picking will soon be in full blast, in a few days the gin will be running day and night.

New Moore is coming to the front work has begun on the new School building and the truck has been running day and night hauling the material.

There has been a new addition to the store which improves the looks very much.

We welcome the new-comers to our community and think they could do much no worse choice.

Mr. Borton and family of Tahoka, has made New Moore their home, we are also glad to welcome Mr. Algi Andrews and family back home. He has made Oklahoma City his home for the past year.

Mr. Lon Light is going to Fort Worth after a load of cotton pickers Wednesday.

Our Sunday School and singings are progressing nicely, with large crowds. We want to urge everyone to attend, and let's don't forget prayer meeting on Wednesday night.

Rev. J. H. Taylor from Coleman, preached last Saturday night and Sunday night and Sunday and will be here again the third Sunday in next month.

Miss Eula Bullock, formerly of New Moore, who is attending school at Lubbock was the guest of Miss Eunice and Thelma Pendleton, Sunday.

Miss Loune Taylor of Lubbock was the guest of Mrs. Lola Mae Baxter Sunday.

Miss Eunice Pendleton was very much disappointed Sunday evening.

O. H. SHEPPARD, M. D. General Practice and Electro-Therapeutic. Piles cured without detention from work or business. Office half block Southeast Index Building, O'Donnell, Texas.

"Famous for Values"

Presbyterian Church

"A Church with a Message and Welcome" Sunday School at 10:30 a. m. A class for every member of the family.

We are creatures of habit, mostly. Get the Church habit. Our Preaching services commence at 11:00 a. m. Dr. Arnfild will have for his morning subject: "Types and Type Marks."

Who are you following? Who is your Pattern? And by the way someone is watching you. Have you ever stopped to think of the influence your life has upon the young generation?

At the Evening hour 7:30 we also invite you to hear a Message on "The Man Nobody Knows"

Does the Man on the Streets see the Christ beneath the debris of Church Rites and dogmas as presented in the modern Church?

What is the Magnitude of Christ as You See Him?

Is Christ being revealed in the life of the average Church member? You who are dissatisfied with conditions in your life, still carrying around with you an aching void which only the Matchless Personality of Christ can satisfy. Go to Church, if you are not affiliated with any other Church in town, drop around and be our guest, for after all it is said and done the Church is God's divinely appointed agency through which men are to be won to Christ.
