**THIS WEEK IN AUSTIN**

Sen. Preston Smith

The week opened here with much speculation on Gov. Daniel's possible veto of HB 727, a retail sales tax that is designed to raise from \$128 to \$150 million a year.

After passage by the Senate, the bill would go to the governor's office. If he did not return it to the Legislature within ten days it would become a law without his signature.

If the Governor returned the bill with a veto, it could be passed into law over his objection by a two thirds vote of each house.

If, however, the sales tax bill should be passed within the last 10 days of the session, Gov. Daniel could kill it with a veto proclamation filed with the Secretary of State within 20 days after adjournment of the Legislature.

The 120th day of the session falls on May 9th. The Legislature can stretch the session into a 29 day overtime period, sufficient time to accomplish what many thought was impossible in one session.

It was predicted by many capitol pessimists that one or more special sessions would be necessary before Texas' financial problems were solved.

And, even though things look good now, there are still many doubts in the picture that do not assure the Legislature that it can possibly within this single session —

1. Retire the general fund deficit
2. Balance the books on the two year appropriations with sufficient new revenue.
3. Vote school teachers an annual salary increase.

But the session thus far has progressed rapidly and effectively.

Honey prices will be supported in 1961 at a national average of 11.2 cents per pound. This reflects 75 percent of the March 1961 parity price adjusted to a 60 pound container basis.

**Homeowning Can Be Hazardous Too!**

No matter how long the bronco-buster has been riding, he can never be sure the next horse won't throw him.

Such is the case with the homeowner. No matter how careful he tries to be, an unnoticed frayed electric cord, overloaded circuit, or smoldering cigarette can leave his home in cinders.

It's too late then to realize his insurance is "too little—and the wrong kind."

Be sure when you insure. Call on your local independent agent for a thorough appraisal of your needs.
