

Mahon Writes On Cotton Allotments

Congressman George Mahon reports that many cotton farmers expressed concern over the anticipated impact of the cotton acreage control program which is expected next year. Mahon has issued the following statement on the situation:

"I think the concern over the administration of the anticipated cotton acreage control program is well founded. The principal difficulty arises over the question of what weight should be given to the drought in making allotments. But aside from the drought many difficulties and inequities are in prospect.

Congress provided in the law that abnormal weather conditions must be taken into account in arriving at allotments. I joined with other Texans in urging that land prepared for planting to cotton this year should be measured on individual farms and fully considered. PMA officials in Washington rejected this request as being impractical but maintained that when state allotments were granted drought conditions would be taken into account. But my fear is that drought conditions will not be adequately taken into account. I feel that there ought to be an accurate record of all acreage planted to cotton, all acreage prepared for planting to cotton but not planted or which may have been subsequently planted to a cover crop of feed or otherwise. Upon that basis reasonably fair allotments could be made. Likewise it is important that the effect of the drought be considered for the previous dry years included in the base period.

It is true that cotton acreages in 1953 will not be considered in arriving at allotments for 1954 but the year 1953 will be taken into account fully in following years and the matter is of the greatest importance. If we have an acreage control program in 1954, the county allotments will be based upon the previous three year period, excluding 1953.

I am advised that the county PMA officials have considerable information on hand in regard to the facts of the situation and I have again addressed a further appeal to PMA officials in Washington and College Station urging that the true facts be ascertained and taken into consideration in any future control programs. I have pointed out that several hundred thousand acres of cotton land are involved in this problem and the welfare of thousands of cotton farmers.

Recently I have suggested to county officials of the PMA that if possible they take the initiative in certifying to the State office a figure which includes actual cotton acreage plus acreage which would have been planted except for abnormal weather conditions."

60 BOYS ON SAFETY PATROL

About sixty Junior High boys are on the Safety Patrol this year. This is about the same number as last year, but the type of operation is quite a bit better. Instead of being on for a week at a time, the boys are on duty only one day every three weeks. There are fifteen different patrols out this year. Instead of the 7-boy patrols of last year, only four boys are on each patrol this year. Two are on duty at the crossing to the Pelts School Store and two are stationed at the crossing going to the cafeteria.

NEW STUDENTS IN JR. HI

There are several new pupils in Junior High. J. D. Parker from Tahoka is in Mrs. Singleton's room. Nell Blair is from New Moore and is in Mrs. Gravitt's room. Patricia Crawford is from Brownfield and is also in Mrs. Gravitt's room. In Mrs. Doss' room is Margaret Hoskins from New Moore and Jerry Slaughter of Tolar.

FHA Installs New Officers

Monday the local chapter of F. H. A. had an impressive installation service. The newly elected officers for 1953-54 were seated behind a table covered with white. On each side of an attractive array of red roses, the Club's flowers, were 8 tall white candles.

Yvonne Sealy and Frances Vandivere, president of the previous year, installed the new officers. At the beginning of the service Yvonne and Frances Alternately lit the candles giving a purpose for each candle. Each of the new officers told of her duties of her particular office. Miss Vandivere presented Nancy Everett, the new president, the gavel. The club showed their appreciation for the fine work Frances has done the past year by presenting her with a red rose corsage. Nancy was given a pretty ivy plant.

A business meeting was held after the service and Maurice Jones was elected club father, Mrs. Naymon Everett, club mother, Mr and Mrs. Choyce Robertson, honorary members, Sarah and Jane Thompson, mascots, Arthur Jackson, chapter sweetheart.

Officers are: president, Nancy Everett, vice president, Helen Hoffman, secretary, Roddy Pelts, treasurer, Patsy Moore, historian, Polly Etter, parliamentarian, JoAnn Griffin, song leader, Carolyn Pearce, reporter, Carole Thompson.

School's Safe Yields \$214 To Knob Knockers

Sometime late Friday nite or early Saturday morning knob knockers threw the O'Donnell Schools for a \$214 loss when they broke open a small safe in the superintendent's office. The job more likely was aimed at the gate receipts from the Slaton-O'Donnell game which amounted to about \$500 but this money had been deposited in the local bank after the game. The loss was discovered by Jones Pierce, custodian, about 8 a. m. Saturday. Entry was thru a library window and the door was forced into Mr. Morris' office. The safe was cracked by cutting of the hinges and knocking the knob. No explosives were used. Fingerprints were found on a chisel at the scene and on a hammer at a Tahoka burglary the same nite believed done by the same crew. Dep. Sheriff Loyd Bollin, Sheriff Booger Redwine and Texas Rangers investigated. A break down on the loss as supplied by Supt. Morris follows:

- \$50 (approx.) Readers Digests
- \$28 Junior Class
- \$15 Teachers' flower fund
- \$50 Stamp money
- \$33 Library Fund
- \$34 Athletic Fund
- \$18 personal check of Mr Morris
- \$16 personal check of Harold Sanders
- \$1 Coke money and \$3 book money.

No insurance was carried, Mr. Morris said, as usually there is little money in the safe.

Unique Party Idea Is Delightful

The home of Mrs. Hugh Lott was the scene of a "Hard Times" party last Thursday nite. Mrs. Joe Lehman was co-hostess. Guests arrived at 7:30 in their "hard-times" clothes. Most skirts were a good 19 inches from the floor, hats and bags were Paris originals (original, that is, in 1930). Mrs. C. N. Hoffman won first prize (a 5 lb. bag of beans) for her attire. Sack lunches which consisted of sandwiches, pickles, olives, potato chips and brownies, were served with coffee from tin cups.

Bridge was played and high prize was won by Mrs. J. W. Gardenhire and second prize by Mrs. Sam Singleton and Mrs. Chas. Cabool won bingo. Mrs. Paul Mansell and Mrs. Cabool won grand slam prizes. Other guests were Madams: James Bowlin, Mack Noble, Ralph Beach, Ed Robertson, L. L. Birdwell, C. R. Burleson, Jr. J. V. Burdett, Jr., Wayland Taylor Chas. Cabool, J. T. Forbes, Homer Hardberger, L. G. Schuessler, Gene Gardenhire, J. T. Middleton Jr., O. C. McBride, James Lemons W. E. Singleton, O. G. Smith, Jr., Jack Tichen of Amarillo. "Hard Times" or not, guests agreed this was one of the most delightful parties of the fall season.

Former Artillery Commander Congratulates New President

Brig. Gen. Walter E. Hess of Washington, wartime 36th Division Artillery Commander (left), congratulates Jim Taylor, present commander (right), on his election as President of Texas' famous 36th Division Association. Some 400 veterans of the Division attended the twenty-eighth reunion of present and former members of the Division at the Gunter Hotel in San Antonio last week end. General Taylor, whose home is in Kerens, is Executive Director of the Texas Motor Transportation Association in Austin and during World War II served, under General Hess as a field artillery battalion Commander.

Fordomatic leaves 'em all behind

It's the newest word in smooth, versatile automatic drives . . . and it does its job so well that the whole car industry is scampering to catch up.

Automatic Gears Plus Torque Converter

Quick on the draw

Step lightly on the accelerator—and response is terrific! With Fordomatic's versatile "getaway" gear, Fordomatic slips gently, automatically into high at just the right moment. If safety permits, you may go all the way up to 65 mph in "double-time" before the shift takes place.

50 Years Forward on the American Road

Does more things automatically

Fordomatic goes beyond the range of ordinary automatic transmissions to give you extra safety and convenience. You have at your command extra passing power all the way up to 58 miles per hour and extra engine braking at any speed. Only Fordomatic, in Ford's field, gives you these pluses.

It's one of 41 "Worth More" features that help make Ford worth more when you buy it . . . worth more when you sell it!

THE FINE CAR
at half the fine car price

Duplicating America's costliest cars, feature after feature, Ford is worth
more when you buy it . . . worth more when you sell it!

A FEW MINUTES on the tele-
phone calling the dealers who
sell America's finest cars will
reveal there are at least eleven models
among four makes with price tags
over \$4,000!

Now the interesting thing is that
in feature after feature the Ford car
duplicates each of these fine cars, and
for less than half the fine car price!

Look under the hood of the most
expensive cars and what do you find?
A V-8 Engine!
Well, the Ford car has a V-8, too. In
fact, it has had a V-8 since 1932, and
since that time Ford has built more
V-8's — by millions — than all other
manufacturers combined. And there's
no other builder in Ford's price range
that's seen fit to offer one yet!

But the engine, as fine as it is, is
only one of many things that make
a fine car fine.

Automatic shifting, for example.
All the fine cars offer it in one form
or another because it's one of the
things that make a fine car fine. But
if you've never driven a Ford with
Fordomatic you've missed one of the
finer things of life. This amazing
transmission not only does away with
clutching and shifting forever — it

gives you exactly the amount of
power you want, when you want it
— automatically.

Fine car power steering, too. The
big, heavy costly cars offer it for the
same reason they offer power brakes.
It's a man-sized job for a 120 pound
woman to handle a car weighing two
tons or more without it — especially
when parking. Our "Master-Guide"
has two distinct benefits.

First, it gives a hydraulic power
assist right down at the wheels and
just enough to take out the work. You
don't relinquish one particle of con-
trol — rather your control is more com-
plete and far easier.

Second, being hydraulic, "Master-
Guide" power steering absorbs those
fatiguing steering wheel tremors
caused by ruts and roads in bad
repair. And you don't pay a fine car
price for "Master-Guide."

**But there is another fine car fea-
ture — the Ford ride.** Books have
been written on the subject of riding
quality in an automobile, but the
payoff comes on the pavement — or
lack of it! Many people associate a
comfortable ride with excess weight,
but it's not weight alone that makes
for comfort. If it were, those big five-
ton trucks which you see every day

would be the most comfortable ve-
hicles on the road.

Without being technical we can
tell you that what's been done with
the suspension and springing system
gives the Ford a softer ride, a
smoother ride than many cars which
tip the scales at better than an added
half ton.

What about room? Here's an inter-
esting point. If you've felt that only
a costly car offered enough room, you
just ought to sit down in a Ford even
if you're out-size and six feet four!
The so-called big car is bigger on the
outside, but unless you buy a limou-
sine with those little jump seats, it's
not one passenger bigger inside.

**Visibility is another fine car Ford
feature.** We say Ford cars offer "full-
circle" visibility because they all have
huge, curved one-piece windshields
and a huge rear window to match . . .
plus side windows that mean every
passenger gets room with a view!

How beautiful is a Ford? A great
English poet, John Keats, once wrote
"Beauty is Truth, Truth Beauty" —
well, he could have been writing
about our car for its beauty comes
from honest, clean lines in every
dimension. In fact, we think most
people agree — even our competitors

— that the appearance of a Ford car
leaves very little to be desired. It is
"at home" wherever it goes and it
goes everywhere.

But what about Ford quality?
Does it too match the fine car? Is the
sheet metal of the body panels as
thick? Is the finish as good? How
about the trim and things like that?
Well, as far as we can determine, the
sheet metal is identical in thickness
in practically all instances. As to
finish — we believe Ford's baked-on
enamel has no equal in any car. Ford
upholstery fabrics and trim are less
costly, but they're less delicate, too,
and if anything, more durable.

**How then is it possible to give you
this fine car at half the fine car price?**

Part of the answer lies in Ford
manufacturing skills and knowledge
as evidenced by the V-8 engine. Part
of it comes from the ever increasing
numbers of cars Ford produces and
the economies they make possible.
And, part of it comes from Ford's
willingness to give greater values
than might be expected in cars sell-
ing in Ford's price range. And that's
the Ford idea.
