Rodeo Draws Big Crowd

O'DONNELL, LYNN COUNTY, TEXAS, Wed. June 15, 1960

Float Winners Named ---

O'Donnell is tired but pleased with the success of the parade, ro-deo and birthday celebration of the town. Everything went off without a hitch.

The 16th annual rodeo was the best of the current series, drawing capacity crowds each of the three nights. A reord number of entries in the various events caused the show to run "overtime" several nites.

This year's parade was excellent with some 12 floats. The floats showed more originality and effort spent in building than ever before. Mrs. Dallas Vaughn and her assistants did a very creditable job and the Community commends this group and all parade entries and behind-the-scenes workers. Good parades like ours are not accidents -they are the result of HARD

Women Outlive Men

results of a study by the Society of

Actuaries show. The study included the experi-ence of women aged 15-69 years

In the broad age range 15-69 years, the mortality for women percent or more overweight yas 18 percent in excess of that for standard female risks. For women 20 percent or more overweight, the excess was 25 percent.

The excess mortality rose stead-ily with increase in degree of overweight.....from nie percent for women 10 percent overyeight, to 30 percent for those 30 percent overweight. Excess deaths were 20 percent for

women 21 years of age.

The findings are probably lower than actual for the entire population because insurance companies only take persons who pass strict physical examinations and this study was based on those women. For any degree of overyeight

handworked

Women apparently withstand the effects of being overweight better than men do, recently released

Forexample, for women who at issue ages 15-39 years were 20 percent overweight, the mortality was 15 pecent aboe that fo all standard female risks. The comparable group of men had a mortality 24 percent higher than that for all standard

A major reason for this difference is that normal variation in weight is realitively greater for women than for men.

Letters To Editor ---

Dear Editor: O'Donnell is very fortunate this year. A group of interested cit-izens have cared enough about the goys in our town to work long and hard hours to form a Little League. These men and organizations are to be commended highly for all they have done, but their purpose is being defeated by the heartbreak of those boys who have spent their time in practice and then not being allowed to play for the should allowed to play. Each boy should have a part in each game, yet as a spectator, I have seen little boys come to the games proud and happy to be wearing their baseball suits, and go home sad and a little bit ashamed because they've spent the entire nite sitting on the sidelines never hearing "run in".

\$2 And \$2.50 Per Year

I have no children playing; wit shouldn't matter to me one way or the other, but my wife and I find that Little League has given us a lot of pleasure and entertainment, and I feel that something should be said concerning this problem. We all realize its important to win, and to win a player must be good. but how are these boys going to become good if they're never allowed to play? I've seen some of thes ghter of Mr and Mrs. Pete Hale was little boys rush to their cars after named Rodeo Queen here last a game so they can cry. askins a game so they can cry, asking their parenes for an answer, and there is none. Little League is actually to help a boy grow up with confidence, but our Little League has created in some of our boys the fear that is the most target. Thursday nite in a ceremony at the rodeo. She was sponsored by the Lynn Co. Sheriff Posse. children of Staunton, Ill. visited Mr and Mrs Bill Autry over the week fear that is the most terrible to children - to be left out.

Something has to be done. Our club can't fail because of this. An Older Fan

WORLD NEIGHBORHOOD

International Kids' Village Peace Inspired

TROGEN, Switzerland-In the Swiss canton of Appenzell, overlooking the Boden See (Lake of Constance) and the German shore across the lake, is a new kind of village, an experiment in bettering international relations through the minds of children.

The International Pestalozzi Children's Village, on the outskirts of the modest village of Trogen, is the temporary home of some 200 children of varying European nationalities. All of them were in need of help when they arrived, and many were war orphans.

The village is the outgrowth of the idealism and compassion of Walter Corti, an Italian-speaking Swiss, who not only deplored the ravages of war upon children in belligerent nations, but who did something about it.

Popular Subscription Corti first suggested a children's village in neutral Switzerland in 1944, while the war was still raging. The suggestion was received with enthusiasm by the Swiss.

Thus French children live in French homes, English children in English, and so on. They live much as they would in normal homes in their own countries, speaking their mother tongues and studying the subjects they would in their native schools, with teachers of their own nationality. Joint Activities

There is a difference, however. In some classes the entire group works together. Recreation and community duties are international. Italian, Greek, German and English children may be playing soccer together while French children teach Finns the French words to a German tune.

Mutual suspicion and distrust were problems when the school first opened. In the immediate postwar days Polish children rewith Germans and the Finns had a tendency to keep to themselves.

The 15th annual Rural Church FOLLOW SIMPLE RULES IN

-0-

Vacation time is here. Soon millions of people will be driving about the country and car mishaps will occur with increasing frequency. What should a person do when involved in an accident? Here are a few simple rules that every driver should commit to memory-

1. Stop. Failure to stop can result in serious criminal consequenc-

2. Render Aid. If anyone is injured — 1. Render first aid (2) Stop bleeding, (3) call a doctor or an ambulance or both (4) Do not move an injured person in any way that could add to his injury.

3. Protect the scene from further damage. You may be liable for damages to approaching drivers unless they are properly warned.

4. Call an officer. Policemen, Highway Patrolmen, sheriffs and their deputies are trained accident investigators whose testimony may be invaluable in establishing your civil claim to damages.

5. Gather information — write it down. Don't guess - be specific.

 Be careful what you say. Even if you feel you probably are to blame, it is best to make no admission.

See your doctor if there is the slighest chance you may be injured.

8. Consult your lawyer immediate ly. The sooner your lawyer is brought into the matter, the better he can advise you and protect your

9. Inform your insurance com-pany promptly. Failure to do so may void your policy.

Report the accident to the Department of Public Safety.

Ed Cooper, extension specialist, says trere is no sure way keep snakes from moving into the yard or even on occasion home. The best solution is to make the primises unattractive to snakes by removing the food and cover they

How much of your food dollar gets back to the farmer? Economists say it is about 38 cents. The remaining 62 cents goes for the costs of getting the food in the form you want it, at the time and place you want it. Food costs less now in terms of minutes of work necessary to buy what you need to eat than ever before in history.

Egg prices to producers for the last half of 1960 are expected to average considerably higher than for the same period a year ago, says John G. McHaney, extension economist.

Sec. of Agriculture Benson has proclaimed marketing quotas for 1961 wheat crop and has set July 21 as the date for a referendum to determine producer approval or disapproval of quotas.

The percentage of pigs vaccinated or hog cholera is not adequate to prevent widespread losses in the event of an epidemic. There is no cure for cholera which is the most serious of all swine infections. Dis-

Salinity problems, as they relate to agriculture, will be discussed at a Salinity Conference scheduled for

June 22 - 23 at College Station. All meetings will be held in the Mem-orial Student Center on the campus of the Texas A. and M. College. Persons interested in the problems to be discussed are invited to attend.

Studies of consumer t penditures show that 18 to cent of the family food bas

OUT WHERE THE COUNTRY CAN TEAR A TRUCK TO PIECES-

Chevy middleweights get $\frac{1}{3}$ more work done in a day!

Where they used to deliver 2,300 gallons of liquefied petroleum gas in other trucks, Petrolane Gas Service of Long Beach, California, can now deliver 3,500 gallons a day! That's 7 days a week usually, over back trails and up into high rock country with maximum GVW loads. And with Chevy's Torsion-Spring Ride paving every foot of the way! "You don't get any more jolting on washboard roads than you do in a passenger car, or any sidesway on curves," says driver Bernie Stone. "I used to take some rough roads at from 5 to 8 miles an hour. Now I can go 30 over them." Petrolane has over 200 Chevrolets hauling for them.

If you think we're excited about Chevy's independent front suspension, you ought to talk to the truck owners who are profiting by it. They'll tell you Chevy's torsionspring design is the hottest thing to hit the industry since trucks began. Drive one-that's the proof, short and sweet.

Safety

IS IMPORTANT IN SURANCE, TOO!

You buy insurance for only one reason - to safeguard your property. That's why it pays to get the best protection possible.

You get the best in protection and service when you insure with us. Insurance is our business, and we are trained to give you expert advice on your protection problems. And of course, we represent only Capital Stock Companies - the "Standard of Protection"

wherever insurance is sold. Be sure when you insure. The best costs less in the long

BIRTH RATE IN TEXAS IS UP

O'Donnell, Texas INDEX-PRESS Wednesday, June 8, 1960

Births outpaced deaths by a ratio of 3.5 to one in Texas last year, pro-visional State Department of Health figures show.

The Department's section on re cords and statistics counted a total of 248,700 births for 1959 as increase of 174.947 births deaths during the 12 month period

The 1959 births represent an in crease of 3,194 over the 245,606 births recorded during 1958.

-0-VACATION CAMPS ARE

The Division of Sanitary Engin-eering of the Texas State Department of Health has carried on a Vacation Camp Sanitation Program for many years. During 1959 an effort was made on the compilation of vacation camps into an up date directory. At present 140 camps have been located. Seventy of these camps were inspected. Tot al attendance at the camps was 140,000 children.

A safe, properly protected water supply is the major problem faced by camp directors. The director must know that the camp supply is bacteriologically safe.

James-Herrin Wedding -0-

Wedding Attendants Miss Ruthell Jackson, of here, was maid of honor. Misses Kay Franklin, of here, and Charlotte James, of Seagraves, sister of the bridegroom, were bridesmaids. Miss Debra James, Mewmoore

niece of the bridegroom, was flower girl. Ringbearer was Miss Elaine Herrin, of O'Donnell, sister of the

Darrell Dunn, O'Donnell, served as best man. Ushers were Ovis James, Colorado City, and Bobby James, Mewmoore, both brothers of the bridegroom.

Following the ceremony a re-ception was held in the Fellowship Hall of the church. The bride's table was adorned with a blue chiffon umbrella with blue and white carnations. Mrs. Wiley Brown of here presided over the guest book.

For a wedding trip to Colodado Springs, Colo., the bride wore a blue suit with white accessories. Both the bride and bridegroom are graduates of O'Donnell High School. he couple will make their home in Seagraves, where James is engaged in farming.

Mr. and Mrs. C. L. Tomlinson Jr. of Lubbock and Mrs. C. L. Tomlinson Sr. attended the wedding of her grand-daughter, Nacy Hamblen at Longview Friday. Terri Tomblinson was flower girl and her sister Kay was one of the canlle - lighters.

The 15th annual Rural Church Conference will honor the Mural Minister of the year on June 22. He will be named at a special Honor Luncheon. The Conference will be held at Texas A. and M. College.

Guar, a drouth resistant dual purpose summer legume, is well adapted to the climate of Texas. Three varieties, Texsel, Groehler and Mesa are recommended. Guar is resistant to cotton root rot, is a dependable producer of high yields of forage and seed and is a valuab-le livestock feed and soil condition-

Salinity problems, as they relate to agriculture, will be discussed at a Salinity Conference scheduled for June 22 - 23 at College Station. All meetings will be held in the Mem-orial Student Center on the cam-pus of the Texas A. and M. College. Persons interested in the problems to be discussed are invited to at-

Studies of consumer food ex-penditures show that 18 to 20 percent of the family food budget goes for milk and milk products. -0-
