Mr. and Mrs. Roy Preston were in Lamesa Sunday. Their son, Buck, remained over until Wednesday for a visit with relatives and friends.

Taylor White of Odessa, formerly connected with the public schools at Tahoka, was here Saturday in the interests of his campaign for election to Congress.

WALTER C. WOODWARD
WALTER WOODWARD SPEAKS IN LAMESA TUESDAY

Walter Woodward of Coleman spoke in Lamesa on the courthouse lawn at 8 a. m. Tuesday, using his loudspeakers. A large crowd heard him. He is a candidate for attorney-general of Texas.

Accompanying Woodward here was his brother, Garland A. Woodward of Big Spring. The party left for Tahoka here he spoke Tuesday afternoon, reaching Lubbock that night. The speech in Lamesa was his third in West Texas on the present tour.

The Coleman candidate has been a state senator for 10 years, prior to that having been an assistant attorney general and having served four years as Coleman county attorney. He has been in the active practice of both civil and criminal law for more than 25 years.

Born at Coleman 52 years ago, this West Texas is making his first race for a state office. His home people have elected him to public office five times without a defeat. His two opponents are criminal lawyers without civil experience, Woodward said here.

"The attorney-general is the highest la officer and in many respects the most important official of our state government," Woodward said. "He should know the functions of the various departments of our government and will be called upon during the next few years to decide issues vital to the very foundations of our form of government."

"Criminal lawyers like my opponents do not know the intricate workings of the civil laws and never have been registered in the highest civil court of our state, where after all, the final decisions rest. I have been admitted to the Texas Supreme Court as a lawyer for many years. They have not."

"We do not need a backslapping, handshaking amateur actor in that high office. We need someone with a background of experience, able and willing to serve without having entanglements of special interests and without enemies to punish. I believe I am qualified."

"I do not expect to be elected,"

HANCOCK

We had a rather small attendance at Sunday School Sunday as so many of our community went to the singing at Lamesa.

Mrs. Edd Eoff left Tuesday after a six weeks visit here with relatives. Her brother, Jack Key, returned home with her.

5 Six-Footers...
and not a cramp in a Carload!

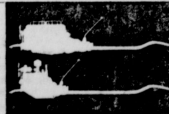

FIVE big men can relax in utter comfort on the deep cushions of the Ford V-8. Wide seats keep elbows out of ribs. Ample leg room keeps legs from being cramped.

Why? Because Ford measures roominess in terms of usable body room. Not in terms of the distance between bumpers, which means nothing when you come to analyze it.

The Ford V-8's very engine construction gives you more body room, as the diagram explains. Cylinders are "doubled-up" saving space, not strung along in a line to waste it.

See how much less space is occupied by the V-8 engine as compared with the ordinary "line" or "straight" type. Less space for the engine means more space for the passenger.

The Ford V-8 front seat is adjustable. It quickly and easily adapts itself to a six-foot-two husband or a five-foot-two wife. It ends forever that source of strife.

Before you buy any car at any price, drive the Ford V-8.

SEE YOUR NEAREST FORD DEALER and buy F.O.B. Detroit. Easy Terms through Universal Credit Company—the Authoritative Ford Finance Plan.

SERVANTS RESPONSIBLE FOR TRANSMITTING MANY DISEASES SAYS OFFICER

Austin, June 20.—Dr. John W. Brown, state health officer, while discussing the spread of disease, asserted that servants in the homes were responsible for transmitting many diseases. There is a State law requiring food handlers in public places to have a health certificate, but this does not include domestics. This is the responsibility of the employer.

any persons of all races are employed as cooks, nursemaids, laundresses, etc. As such they come in intimate contact with the grown-ups and children in the family. If these servants are harboring any communicable disease the employing family is very likely to contract it.

Some of the diseases that may be and are transmitted in such manner are: venereal diseases, tuberculosis, typhoid fever, and other acute contagious diseases. A typhoid carrier can easily infect an entire family. Recently a nurse-maid was discovered to have syphilis and she had charge of two small children. Another family discovered that their servant had active tuberculosis.

The State Department of Health recommends that employers have their family physician examine their servants from time to time to eliminate any danger of contracting any of the diseases mentioned. The cost of this is negligible when compared to the cost of an illness and family death.

THE PRESIDENT GAINS

Latest tabulation of Literary Digest straw ballots on Roosevelt's New Deal shows the president leading in 47 of the 48 states, with 61.99 per cent of the poll favoring his policies. That is a gain of about four per cent over the tally of the preceding week.

The Digest is conducting a separate ballot for bankers, and the count is especially interesting. Only 47.12 per cent of the bankers who have voted in the special poll favor the president's policies. Curiously enough—the banker balloting follows political lines with unerring fidelity; that is, Democratic states go for the president's policies in a big way, while Republican state bankers thumb down with great enthusiasm. Among bankers voted 870 in favor of the president to 106 against. In Republican Illinois only 453 favored the president and 920 voted against him. This divergence of opinion can be explained on only one ground—the attitude of the banker is influenced by his political faith. For that reason, therefore, the special banker-ballot is worthless because of the extraneous prejudices involved. The same cannot be said of the general ballot, for it was distributed among people of all walks of life, none of diversified interests and loyalties, and of all political faiths.

Charles Cathen sent the seal and with his father at Denton, N. M.

FIGURES ON POPULATION

In the new Nineteenth District there are 58,947 citizens with poll taxes paid and thus entitled to vote in the forthcoming primaries for congressman of the district. The counties having greatest voting population are Lubbock, first with 8,500 polls paid; Haskell, second with 4,063; Hale, 4,045; Lamb, 3,980; Howard, 3,863; Lynn 3,206.

CHEVROLET SALES INCREASE AS PRICES DROP

Detroit, June 13.—Although it is only a week since Chevrolet announced drastic price reductions on its entire line of passenger cars and trucks, sales throughout the country have already increased substantially indicating that the company's objective—the prolonging of factory employment through the ordinarily quiet month of June—is likely to be attained.

The announcement was made today by W. E. Holler, general sales manager, based on dealer reports from all over the country. Concrete evidence of the effect of the reduction, Mr. Holler said, is the fact that Chevrolet's output projection for June is sharply increased over last year's June output, amounting to approximately 100,000 units, and there is every indication that June will exceed May in retail deliveries. Such a record for June is regarded as a distinct achievement, and is attributed largely to the new low price schedules, he said.

The effect of the price reduction, totalling as much as \$50 per unit, was probably accelerated by the fact that Chevrolet was in the public spot light at the General Motors Exhibit just concluded in 61 principal cities. But the improvement in business cannot be accounted for on that basis alone, since the influx of new orders is not confined to the cities in almost all states report a quickening of interest, due to the fact that Chevrolet's patented innovation is now available at the lowest price since the introduction of the 1934 line, and also to the company offering, in the new Standard series, the world's lowest priced car of six or more cylinders.

Mr. and Mrs. J. P. Bowlin and daughter, Miss Alice Joy, were in Littlefield on business Tuesday.

FOR ANNOUNCES PRICE REDUCTION

Detroit, Mich., June 20.—Reductions of \$10 to \$15 in list prices of 1934 Ford V-8 passenger cars and \$10 to \$20 in list prices of Ford V-8 commercial cars and trucks were announced last week by the Ford Motor Company effective, Friday, June 15. Ford prices have remained unchanged since the introduction of the 1934 Ford V-8 last December, the Ford Motor Company not having participated in the recent general automotive price increase. The reductions announced are, therefore a decrease in the original price.

AVIATION VACANCIES IN THE MARINES

It is announced by Major P. D. Cornell of the U. S. Marine Corps Headquarters, 535 St. Charles St., New Orleans, La., that men who have served in the Aviation departments of the Army, Navy, or Marine Corps, and who desire continued aviation duty, will be sent direct to an aviation unit of the Marine Corps upon re-enlistment. In the past it has been necessary to obtain specific authority from Washington for a transfer of this kind. This authority has been delegated to Major Cornell, who states that in addition to aviation, there are a few vacancies in the Marines for general service. Full information will be furnished on request.
