Scout Troop Is Formed

Some 15 fathers and a like number of boys met Thursday night at the Legion Hall for the initial organizational meeting of a Boy Scout troop for Big O, Ralph Beach and the Legion Commander, and a live wire youth worker, presided at the meeting. The Legion post here is sponsor of the troop.

A Good Troop Committee

Adults present named a troop committee as follows: Elvin Moore, chairman, Ralph Beach, Weldon Skinner, J. B. Billingsley, and Silas Russ. The committee will select a scout master and his assistants and generally govern the troop. The new troop meets each Tuesday night at the Legion hall at 7:30 p. m. All boys 11 thru 17 may join if their fathers signify his FULL CO-OPERATION when he is asked to work with the troop.

The committee contacted Donald Dingsus, a 7th grade teacher in Junior High, as being Scout Master, and chances are good that he will accept. It will be a happy choice if he does, as Mr. Dingsus has shown a real talent as a youth worker.

Former Scouts as Homer Vaughn, Charles Holcomb, and Wendell McClendon will be of much help in getting the troop on the "road." M. L. Kenley, local business man, is an area Scout official and is a former scout master and by having him here the work will be easier.

Fire Hits Ford Firm

\$35,000 Damage Estimate

Thursday morning at 6:30, fire at the Forbes Motor Co. did an estimated damage of \$35,000 to \$35,000 according to J. T. Forbes, owner of the local Ford and Mercury firm. Loss was mostly protected by insurance.

The alarm was given by Leroy Mensch, an employee of the Highway Garage, located across the street to the west. He had swept out the building after reporting for work, and was seated inside when he heard a loud pop-like noise. Going outside he discovered the fire.

Many New Cars Damaged

15 new cars were damaged and of this number a new Mercury was destroyed. Damage to most of the new cars was due to smoke.

The prompt arrival of the fire department and their efficient work kept the loss to a surprisingly small amount. Most severe damage to the large building was due to smoke.

Business As Usual
Mr. Forbes said Monday that the garage business was going on as usual in the body shop division of the garage which was undamaged by the fire. Redecorating will begin immediately, Jimmy said.

The fire apparently originated in the extreme southeast corner of the shop due to an electrical wiring defect.

On page 5 this week is a word of thanks from Mr. Forbes. He said he couldn't tell in words his appreciation to the fire boys and the folks who have offered him words of encouragement.

Here Since 1947
Mr. Forbes purchased the local car agency in 1947 and in that time he has proven to be one of the town's most progressive business men as well as a civic worker.

Anderson, Pirtle And Vestal File As School Candidates

Filing Deadline Mar. 30th

The names of three local men have been filed as candidates for school trustee.

Bart Anderson, who farms about 2 miles west of here, B. B. Shorty Vestal, who farms in O. K. area, and Julian Pirtle, who farms near Draw, have been filed on the ticket.

Previously Paul Mansell, a local businessman, filed for a place on the ballot. The election will be on Saturday, April 7th and Mrs. J. M. Noble is election judge.

Trustees whose terms expire this spring are Board President J. W. Gardenhire, who has had 6 years experience and Dave McMillan, vice chairman, also with 6 years experience. Earl Greenlee, who lives in O. K. community, was appointed to serve an unexpired term of Mr. Witte. Mr. Greenlee is recovering from a recent delicate eye operation. In the opinion of the Index, the above board members are capable, hard-working and sincere and the community certainly appreciate their labor of love for the school system. They have not as yet filed.

According to school secretary Tom Vandell, residents of the school district have until 5 p. m. March 30th to file, either by personal application or by petition.

Men elected for this three year term will doubtless have one of the hardest decisions to make that they have ever had to make - segregation.

MUCH COLORFUL HISTORY GOES WITH DEATH OF GAIL DRUGGIST

Funeral services were held at 3 p. m. Monday at Gail High School Auditorium for David Dorwood, pioneer druggist of Gail. Rev. Hawkins of Snyder officiated and Masonic graveside rites were held at the Gail Cemetery. He was a Methodist.

Born Dec. 15th, 1862 in Burleson County, he moved to Borden County in 1891 and was a chuckwagon cook on Borden ranches for nine years. In 1900 he opened a drug store in Gail and was the only druggist in the county for 55 years. Until two years ago, he had the only telephone in the county. In 1900 he was wed to the former Miss Minnie Russell who had moved to the county as a pioneer school teacher. Much of Borden County history and early western tradition was closely tied to this noble 87 year old pioneer.

In 1900 Gail was a town with much promise of growth. It was a trading center for 5 counties but the lack of water within the town caused the growth to stop.

Survivors include his wife, 3 sons, D. R. of Eagle Pass, Maurice of Dallas and Kelvin of Vienna, Va., and 5 grandchildren.

FIRST AID
Mining Town Is 'Safety-Wise' All the Year

ROCK SPRINGS, Wyo.—Three boys are walking down the main street. School is out and the prospect of the long summer vacation makes spirits soar. Playfully, a youngster shoves another. He stumbles, falls against the large glass window of a department store and crashes through it.

An instant later, a red fountain spurts from his right arm where a razor-edged piece of glass has slashed through the artery. For a second he stares dumbly at the fast-flowing blood, then runs down the street, crying hysterically.

Springs Into Action
 One of his two companions springs into action. He chases the panicked friend, catches him and knocks him to the pavement. Skilled fingers probe the arm above the wound and the flow of blood stops.

With his finger on the pressure point, the quick-witted youth orders the third boy to summon an ambulance. Had the youngster been ignorant of first aid, his friend could have bled to death in a minute and a half.

This is just one of several examples showing how knowledge of first aid has paid off in Rock Springs, a coal mining town in southwestern Wyoming.

The coal company has the nation's top mine safety record. Recognizing that first aid training is an essential part of any safety program, Union Pacific coal sponsors an annual first aid rally contest.

This Year's Contest
 This year's contest was held at the coal company's Old Times association building. The competing teams worked in tens of squares, laid out in a circle in the middle of the auditorium floor. A given signal, each team captain was handed a first aid problem in a sealed envelope.

Interest in the contest is keen and the awards ceremony late in the afternoon is attended by squeals from the girls and cheers from the boys. Wrist watches went to the winning junior girls, portable radios to the boys and \$40 to each member of the winning men's team. Lesser prizes went to all other competitors.

Tulip Time
 In Normal

NORMAL, Ill.—A large number of women were busy here recently getting more than 9,000 tulip bulbs ready for distribution among the pupils of the schools and the townspeople who ordered them. The tulips were ordered last spring during the drive to "make Normal a beauty spot of Illinois."

The bulbs came from Holland. They are Darwins in red, yellow and white colors. The price was eight cent a bulb.

Some children ordered one bulb of each color, some seven bulbs of one color; while grown-ups gave orders for from one to 100 of one color. Many homes and vacant spots here will be beauty spots next spring.

Heart Disease Not So Serious, Says Doctor

Optimistic state health officials don't think the picture of heart disease is as black as it has been painted.
 "True," says Dr. W. S. Brumage, director of the State Health Department's heart disease control activities. "It kills more people than any other disease. But chinks are appearing in its armor, and research scientists are widening those chinks daily."
 Or think about luetic heart disease, a deadly complication of syphilis. Modern penicillin therapy, Dr. Brumage says, has pulled its fangs.
 Perhaps the most impressive area of progress against heart killers is modern surgery to correct congenital heart defects. Many babies are hale and hardy today who, had they been born a few brief years ago, would have surely succumbed to heart malformation.
 Also, congenital heart deformities can be prevented today by the expedient of preventing expectant mothers from contracting German measles at a critical stage of pregnancy.
 "We cannot yet do anything to prevent other forms of heart disease," Dr. Brumage says, "but we can add long years to heart disease patient's life through patient education-teaching him to live usefully in spite of his heart impairment."

Take the old bugaboo of rheumatic fever. A few years ago it used to cripple or kill its victims like a relentless pirate. Today, inexpensive penicillin readily routs the causative organism, a malicious little speck of life known as "hemolytic streptococcus."

Perhaps the most impressive area of progress against heart killers is modern surgery to correct congenital heart defects. Many babies are hale and hardy today who, had they been born a few brief years ago, would have surely succumbed to heart malformation.

"Anyone now receiving a social security payment on his own earnings record may have his benefit refigured to exclude a disability, if he is now disabled and the disability was in existence for more than six months before he reached age 65," Mr. utton continued. "Of course, he must meet the work requirement of five years out of ten years and one and a half years out of three years as set out above."

"People who are now disabled and unable to work or anyone who becomes disabled in the future should contact his nearest social security office in order to learn how the 'disability freeze' may protect him," Mr. Hutton said.
