O'DONNELL, LYNN COUNTY, TEXAS, FRIDAY, NOVEMBER 1, 1929

NUMBER 6

and Cold Winds Halt Cotton Picking

General rains of the past the snappy, brisk north almost brought to a halt to pick in this section for there has been ginned of the city a total since our report of last week, very little picking since Friday of last week slower general rains being this section.

County Institute Is November 7 and 8

The County Institute to be held in Tahoka on November 7th and 8th is to be favored by the presence of two professors from the school of Education of the Texas Technological College. Dr. R. E. Garlin is to direct the section meetings of the high school division on Thursday and will also address the general assembly once during the day. Dr. Garlin is professor of Education at the college. Miss Bonnie K. Dysart, Associate Professor of Education, is to have charge of the primary section on Thursday. Both of these instructors are highly rated and will give some worthwhile lessons to the teachers. Dr. Garlin is conducting an extension class each Thursday evening at the high school building. Some eighteen or twenty teachers are taking advantage of this opportunity to improve their scholarship. Friday morning is set aside especially for members of the school boards of the county. A general discussion of matters of vital importance to school board members and the public in general is to be had. An effort is being made to get all school board members to attend this session. —Lynn County News.

LOOK OUT FOR THE SPOOKS TONIGHT—HALLOWEEN

Spooks of almost every description will no doubt roam the streets tonight (Thursday) as is the custom on Halloween. It is the one occasion when all the youngsters and a large part of the grown up get a big kick out of masquerading. Be careful or the spooks will get you.

High School Defeats All-Stars Tuesday

The High School Eagles battled the O'Donnell All-Stars to a 10 to 0 defeat here Tuesday afternoon. The Eagles displayed a marked improvement over the previous encounters with the All-Stars.

C. C. DRY GOODS CO. WISHES TO CORRECT WRONG IMPRESSION

Chas. Cabool, manager of the C. C. Dry Goods Co., has been questioned a lot the past few days by his friends and customers who are curious to know whether or not he is moving his store to Lamesa. The impression was on doubt created when the Index published an article last week stating Mr. Cabool had purchased the Style Shop in Lamesa and was selling the stock at greatly reduced to the stock at the building. It was Mr. Cabool's intention to move the Style Shop to O'Donnell at an early date instead of moving the dry goods store here to Lamesa. However, neither will be moved for the present, and Mr. Cabool emphatically states that the C. C. Dry Goods Co. will always be a fixture of O'Donnell where he has enjoyed a splendid patronage. He wishes the public to know that the store will always be operated in O'Donnell as it has in the past, giving the buying public the best in merchandise at the lowest possible price.

SPECIAL SERVICE AT FIRST BAPTIST CHURCH SUNDAY

Dr. and Mrs. B. L. Lockett of Ogbomoso, Africa, will speak at the morning hour. These good people have had years of experience in Missionary work among the Africans. They know their work, and are delightful speakers. We extend an earnest invitation to every one in O'Donnell to come and hear these Missionaries. It is hoped that every available seat in our church will be taken Sunday morning.

Joe Wilson, Pastor.

REXALL ONE CENT SALE at the Corner Drug Store, Thursday, Friday and Saturday, November 7, 8 and 9 Remember the dates.

Rev. Parr to Organize Cumberland Presbyterian Church Here

We will be in O'Donnell next Sunday to organize a Cumberland Presbyterian Church, we will preach on Saturday night at 7:15 every one is invited to be there and worship with us. We hope to reorganize the Sunday School, so if you are not already in a Sunday School some where, you will find a welcome waiting for you at the Presbyterian Church.

There is a difference in the Cumberland Presbyterian Church and the Presbyterian U. S. A. We will explain the difference Sunday morning. We also will preach on the doctrine of the Cumberland Church, if you want to know what we believe be at the Church at 11:00 a. m. Sunday morning, and we will do our best to tell you. We find in and around O'Donnell a number of Cumberlands and they are wanting a Church home, we hope to build a new Church soon, in our building and in all our preaching we aim to help each person that we come in contact with, we will preach just as we did in the revival, against Sin, and for a Spiritual Christian Living. We hope we will have the good will of all Christians in our efforts in the town, we hope by our coming to your little city that we will be able to help each one and make a better town in which to live. We are serving Saturday evening and Sunday morning and evening, be sure to come if you want to know what we believe and stand for as a church. Rev. Walter O. Parr.

Palace Theatre at Lamesa Invites O'Donnell Folks as Guest

Audrey Cox, owner and manager of the Palace Theatre of Lamesa was in O'Donnell Tuesday of this week and announced the installation of new talkie equipment for his show house. He has installed the latest in Western Electric equipment which is considered the best that can be had. A big gala opening has been advertised for next Sunday and Mr. Cox has extended an invitation to all O'Donnell folks to be his guest on that day. All he asks is that you register at the box office before enjoying the splendid talkie he has booked for Sunday. See his advertisement elsewhere in this issue of the Index and his program for Sunday and all next week.

LAMESA NOW HAS WESTERN UNION CLOCK SERVICE

LAMESA—This city now has Western Union clock service. Western Union Company has recently completed the installation of some 20 clocks which are set by a master clock central stand every time here. Heretofore, "No two watches had the same time in Lamesa," now one clock is the guide for all time pieces in Lamesa, it is pointed out.

J. W. Hastings and family moved to Lubbock on Monday of this week where Mr. Hastings has accepted a position with the Keltvator people. Mr. and Mrs. Hastings have many friends in O'Donnell who wish them every success in their new home.

Chamber of Commerce Still Very Active Body

Public Sentiment Is For Good Roads

LAMESA.—According to Henry J. Price, President of the Dawson county Good Roads Association, the public sentiment for the Hard Surfaced program outlined by the Association is fast turning in favor of the program. In a statement this week issued by Mr. Price he said, "If the election was now, I believe the issue would carry. We have from 300 to 400 people under the organization set up working for the project and we are working for 90 per cent of the voters." The petition now being circulated will be in the hands of the Commissioners Court Tuesday of next week and call for a bond issue of \$1,250,000 which if carried will be used to hardsurface six highways outlets from Lamesa including Highway Number Nine North and South Highway 83 East and West the Bessfield and Stanton roads with \$100,000 for natural road improvement in the county. The tax rate for the issue will be \$1.20 per \$100 valuation or ten cents per acre of average land in the county. Price so states.

BASKET BALL GIRLS BEGAN WORK MONDAY

If a person should take a glimpse on the north side of the school campus he would notice the new basket ball court that has recently been made. The girls have been working on the court for several days. Mr. Edwards, with the help of some boys, erected the goals Monday. They have prospects for a very good team this year. There were about twenty out for practice Tuesday, and they all seem interested in playing. Watch for the first match game.

Cards will be furnished the county home demonstration agent on which she will register the contestant, giving her full name and address, and indicating the class which she desires to enter. A registration card will be filed in the office of the home demonstration agent and one will be sent to the Chairman of the State Committee at the College, not later than December 1, 1929.

A county committee consisting of two members shall be appointed by the county home demonstration agent. It shall be the duty of this committee to assist the county home demonstration agent in conducting this contest. This committee shall grade the living rooms at the beginning of the contest, according to a score card which is sent out by the College.

At the end of the contest, the original committee shall make a final score of the living rooms. The final judging in the county must be done between April 15, 1930 and May 1, 1930.

Announcement of the state prize winners will be made, if possible, during the 1930 Farmer's Short Course at the A. & M. College.

No expense need be recorded for voluntary labor performed or the use of materials on hand, although itemized lists shall be made of each.

Gifts shall be valued and considered as that amount expended.

If a new living room is built during the contest period whether it is in a new house or a remodeled house, its score should be compared with that of the room actually used as a family living room at the beginning of the contest. Due to the difficulty of estimating what part of the cost of building was spent on the living room, the contestant may be allowed the following without considering the cost.

a. Bare Room. b. Bare unfinished floor. c. Unfinished wall. d. Any thing additional must be counted furnishings used previously. Any at exact cost.

The following information regarding each living room shall be filed in the office of the Home Demonstration Agent. Copies of these records and pictures shall be given to the

(Continued to page 8)

The Chamber of Commerce has gone on a part time basis temporarily, but there seems to be no let up in the activities of the organization. Two highway meetings have been held recently and the road work is progressing satisfactorily. The milk plant stock is practically all sold through the efforts of the committee this week. Trades Day is growing this week. Trades Day is growing popularity and support. The community meetings continue to be held, the last one at Mesquite with a big crowd present in spite of the cotton work being in full sway, and a conference of Chamber of Commerce secretaries, County Agents, Vocational Agriculture men, Bankers and editors have been called at O'Donnell by Secretary Dowell in connection with an eight o'clock breakfast Saturday morning of this week. Representatives from Lynn, Dawson, Terry and Gaines counties will be present.

There seems to be some misunderstanding about the present status of the Chamber of Commerce and the secretary's work. It has been reported that the secretary was on half time salary which is a mistake. Mr. Dowell is just drawing twenty-five dollars per month and his gas and oil bill. He is in the office which has been moved to Mansell's store on Tuesday and Thursday afternoons and all day Saturdays of each week, besides attending night meetings now and then. The part time basis should not be interpreted as half time because it is much less than that in salary. However, the work is progressing nicely and the Chamber of Commerce is a live organization that is doing things.

General Rains Accompanies Cold Wind

The general rains throughout this section have completely halted all cotton picking for the present. First of these rains fell Saturday afternoon and night and again on Sunday night moisture was recorded throughout the territory. Low heavy clouds continued to hide the sun during the day Monday and Tuesday and Tuesday night cold northerly winds brought gas stoves and overcoats into action. A low steady rain fell throughout most of Wednesday causing the total precipitation over the past week to amount to approximately two inches. The moisture will be of great benefit to the wheat that has been sown in this territory.

ALL FAIR PREMIUMS PAID

A Several reports has been made that the premiums of the O'Donnell Free Community Fair have not been paid. Due to insufficient funds some of the premiums were delayed and this may have caused some misunderstanding. All premiums were paid in all departments of the fair over two weeks ago. All checks amounting to one dollar and over were sent through the mail, also cash for less than one dollar was sent wrapped in envelopes.

Any one that has not received premiums should report same by letter to the fair manager and an adjustment will be made.

Checks due Wells, T-Bar and New Moore communities were sent to the county representative.

Vernon Martin.

M. S. SPONSORING IN OVATIONS IN BAZAAR

Ladies of the Methodist Missionary Society are making extensive plans for the Christmas bazaar, which will begin the first week in December. Lovely pillow cases, luncheon sets, all kinds of novelties in fancy work are some of the items to be on sale. Among other unusual things will be pot plants in textures, decorated pots. Keep this bazaar in mind when making out your Christmas list. You may find the very thing you've been looking for.

W. H. Crunk announces the opening of law offices at 304 Temple-Ellis Building, Lubbock, after November 1, at 412 Temple-Ellis Building.

Home Demonstration Living Room Contest Is Now Open

Again, the women of Lynn County have the opportunity of entering the State Living Room Contest. No matter how little you plan to do now, enter the contest and as your interest increases you will find more improving than you planned to do.

Do you remember the story of the lady at Lakeview who did so much with so little money last year? Wasn't it great? You can do the same thing by a little effort.

Read what this woman did:

History of My Living Room Improvement
When I entered the Living Room Contest last November, I hardly knew where I would get the money necessary for the improvement but by selling a few hens in February at a good price I obtained the money I used.

We were not out anything for hired labor since my daughter and one son helped me when not in school.

The paper on the ceiling was very badly torn and dark from coal smoke so we tore all that off, canvased and repapered with a light cream paper and added a new border. The wall paper was fairly good so we did not alter it. The woodwork was unpainted and dark from age, we painted it a buff, putting on three coats. The rug was very much worn so we replaced it with a tan lineoleum of a good grade.

Bought buff shades for the windows and hung white marquette curtains with a gold dot, used curtains with tie backs.

Since the room was very dark, the light color paint, paper, shades, curtains and lineoleum made it much lighter.

Now for the furniture—I had an old bureau that had been in the family forty-five years and was my mother's. We removed all the unnecessary parts, made a chest of drawers of it and hung the the mirror on the wall above.

We removed several coats of varnish by using a lye paste and by scraping and sand papering several times, we varnished, let it dry and sanded paper again and then put on a clear varnish.

An old secretary, equally as old was given a good scrubbing and treated to a coat of clear varnish. The picture frames were also treated to a coat of walnut varnish. An old wall pocket used long ago for holding papers was sandpapered and treated to a coat of walnut varnish.

The chairs were scrubbed and varnished. I have a bed in my room and it was given a coat of ivory paint.

I can't say I got very much thrill out of it while I was doing the work for it was no easy task, but when I look at it now and hear my children say, "Such an improvement, how pretty," I feel that I am repaid for my hard labor. My cost is as follows:

Wall paper and canvass	\$2.50
Two window shades	1.12
Two window curtains	2.15
Sand paper	.10
Canvas tacks	.20
Paint	2.25
Varnish	.80
Glass Drawer Knobs	.56
Three Searfs	.68
Lineoleum	18.00
Total	\$28.36

MRS. J. K. NOWLIN,
Edith Home Demonstration Club.

Below is given the various rules and regulations of the contest.

Aims of the Contest
1. To encourage interest in better living rooms by making them more comfortable and attractive.

2. To demonstrate the best use of what is on hand.

3. To demonstrate wise expenditures of money.

4. To demonstrate wise selection and arrangement of furnishings.

Contest Plans
Any farm woman (in a county having a home demonstration agent) may enter the contest by registering her name with the county home demonstration agent and working under her supervision.

The contestant may enter one of two classes, namely: Class 1. The Living Room making the greatest improvement in proportion to the expenditure (Cost not to exceed \$50.) Class 2. The Living Room making the greatest improvement in proportion to the expenditure. (Cost exceeding \$50.00.)

a. In both classes 1 and 2 the scoring shall be done on the basis of greatest accomplishment in proportion to the cash expenditure. b. A woman must register in Class 1 or Class 2 at the beginning of the contest. As her plan develops, if she finds that the expenditures will be greater or less than prescribed in the class in which she has registered she may be transferred to another class, provided she makes application to her county home demonstration

CHEVROLET ENGINEERS ADVISE TO CHECK YOUR CAR OVER BEFORE WINTER

DETROIT, Nov. 1.—To many automobile owners, "cold weather driving" and "hard starting" are synonymous.

It is true that an engine does not start as easily in winter as in summer, but a little care on part of the owner will go a long way toward minimizing the difficulty, Chevrolet Motor Company engineers point out.

Since the inception of the Chevrolet car more than eighteen years ago, company engineers have been applying themselves to the problem of easier starting.

Making use of the "cold room" facilities of the General Motors Research laboratories and working for hundreds of days in zero weather at the General Motors Proving Ground, Chevrolet technical men have been attacking the "cold motor" problem for many years.

In considering the case of the car that is difficult to start in cold weather, Chevrolet engineers call attention first to the rather obvious fact that an engine in good condition will perform all its functions, including the starting, more satisfactorily than one that is out of adjustment.

The principal parts which have a direct bearing on the starting of an engine are: Battery, starting motor, carburetor, spark plugs, ignition system and valves.

As the efficiency of the battery is materially reduced in cold weather, it should be given great consideration. If the electrical system is weak, complete combustion cannot be obtained, therefore, before the start of winter, it is good preventive insurance to have some reputable electrical service station check over the battery, spark plugs and entire ignition system.

The starting motor very seldom causes trouble.

The carburetor must be adjusted properly for the winter and choke and throttle controls connected properly.

The spark plugs are equipped with two electrodes set in such a manner that the electrical current must jump across a small gap from one to the other, not making this jump, a spark occurs. It is this spark that ignites the mixture of gasoline and air in the combustion chamber of the cylinder. The size of the gap between the electrodes affects the type of spark produced. It is therefore, important that this gap should be inspected for proper adjustment.

Obviously the spark plugs should be cleaned; and the terminals of the spark plug wires firmly attached. If the plugs have been in use 10,000 miles they should be replaced.

The ignition system, including all wiring and terminals should be checked at the beginning of winter, particular attention being paid to the distributor timing and to condition of the contact points.

If the valves do not seat properly, a leakage of compression occurs resulting in incomplete combustion, which hinders starting and also tends to foul the spark plugs.

Attention to these suggestions will eliminate your starting troubles this winter and cut down the wear and tear on your nerves as well, according to the Chevrolet engineering division.

Eighty-three game and bird reservations are now administered by the Department of Agriculture for the conservation of wild life. One of the largest of these is the Upper Mississippi River Wild Life and Fish Refuge.

Another important one was authorized by Congress in 1928, at Bear River Bay, Great Salt Lake, Utah. Important breeding, feeding, and resting grounds for migratory game birds are also provided at Big Lake, Ark., Malheur and Upper Klamath Lakes, Oreg., and Tule Lake, Cal.

TEN ACRES IN WILSON COUNTY IS PROFITABLE

Floresville—Forty two and one half tons of onions and three big bales of cotton from ten acres of land is F. F. Colenda's idea of profitable farming. His neighbors here in Wilson county have been making good with onions so he decided to try it. From a splendid stand, obtained from planting only nine pounds of seed per acre, he graded out 85,000 pounds of marketable onions last spring and sold them at one cent per pound in the field. In March he planted cotton down the onion middles and he has sold three bales from this ten-acre dry-land field for \$327, including seed. His total income from the field is \$1,177, according to E. D. Beck, county agent. The cotton required practically no cultivation due to the thorough preparation and culture of the soil in the onion

EGG AND CREAM MONEY PAYS ALL EXPENSES

Marlin—Atton Fuchs, a Westphalia farmer, hasn't had to draw on his cotton account to purchase any of his groceries for the last 15 months, the county agent states, because the egg and cream money has paid all living expenses and has left a credit of \$30 in local stores besides. Mr. Fuchs is milking four cows, and these, together with a farm flock of hens, furnish his family of ten five meals a day, he declares. He has 18 bales of cotton in the yard which the cows and hens have enabled him to hold for a higher price.

College Station—The highest per acre corn production thus far reported to the Extension Service this year comes from G. M. Morris, county agent in Harrison county where Milton Milford, Woodlawn 4-H club boy, made 110 bushels and 70 pounds on one demonstration acre.

FIRST STATE BANK TO BE OPENED HERE NEXT WEEK

"The First State Bank of Leveland" is the name of a new banking institution which is scheduled to begin business here next week. The new enterprise has been contemplated for some time, but was organized only a few days ago and was granted a charter Tuesday by the State Banking Department.

The new bank will occupy quarters in the House-Stroud building in the space now occupied by the House Grocery. The room was built especially for a financial institution, and the formation of a new bank was contemplated at the time the building was planned.

The officers selected are: W. A. Green, formerly cashier of the First National Bank of Paradise, President; D. N. House, who has been engaged in the grocery business here for the past several years, active Vice-President; and H. H. Mann, until recently cashier of the First National Bank of Bridgeport, Cashier. The above named officers together with C. E. Maedgen, President of the Lubbock National Bank, will constitute the Board of Directors.

As Mr. House will be actively connected with the bank and as it will occupy the space occupied by his store, he will close out his stock of goods at once. The fixtures have already been bought and the work of building a vault will begin immediately. It is proposed to open for business on Saturday, November 2, if possible to complete the arrangements.

The capital stock is given at \$20,000.00 with a \$5,000.00 surplus fund.—Hockley County Herald.

Pullets that are to lay well through the winter months should begin laying the middle of October or first of November.

You can **DO MORE**

in **Less Time**
with **Less Effort**

by using

**More
Electricity**

HOUSEKEEPING is a delightful game at which every housewife can play with equal pleasure. The cost of using electric appliances today is so low that every one can enjoy their conveniences to the fullest.

A few years ago before inventive genius brought the magic of electric appliances to their aid, housewives worked from early morning until late at night—and their work was seldom finished. Then there were few pleasures for her, and she found little time to enter into them, and was too tired from her work to enjoy them.

Today electricity has made possible an entirely new life for the modern housewife. By the use of electric appliances she does her work in far less time, with less effort—in fact, she can do more work than ever before and feel the strain of doing it scarcely at all. Consequently she has the time and the strength to enjoy many new hours with her family. Modern times have brought her countless new pleasures and diversions. And electricity has made it possible for her to enjoy these things completely.

This Company exercises a rigid policy of selecting and offering for sale to its customers only the most efficient and most economical electric appliances made in this country. It is our aim to give you the fullest measure of electric service possible for the least amount of cost to you.

GODDARD HAS RIGHT TO PUFF 25c CIGAR

(By R. E. Shaver)

Recently the editor of the O'Donnell Index printed an article in his paper in which he was "rubbing it in" on Jordan Goddard for smoking a 25c cigar. Doubtless the editor didn't know that Jordan owned the jersey heifer that took first prize at the O'Donnell fair, first place in the club and open classes and if she had been a little older would have been Grand Champion at the Lynn county fair. The heifer returned \$15.00 for Jordan's trouble in showing her and according to the judges was typical animal exhibited at the Lynn county fair but lacked a little maturity to be made Grand Champion.

The above article was published in the Lynn County News of last week and is self explanatory. The editor of the Index hastens to explain that it was not his intention to "rub it in" on Mr. Jordan Goddard as Mr. Shaver seems to infer. The editor of the Index did know the reason for Mr. Goddard's extravagance and we believe he was amply justified in celebrating his victory over the other contestants at the fairs when he won first money. We are proud of Jordan's efforts and hope that other O'Donnell boys will follow his example which will materially aid in raising the standard of dairy cattle in this section.

WELLS NEWS

Miss Gertrude Waldrop enrolled at the Tahoka High School Friday the 25th of October.

Mr. and Mrs. George Lang announced the birth of a daughter, on Saturday 19th.

Mr. Odie Stringer and Miss Thelma Bishop were married at Carlsbad, New Mexico Saturday October 28th. We join in wishing them well.

On account of the rains, there was no Sunday School or preaching Sunday morning, October 27th, but Rev. Shumake preached Sunday night and announced that he would be here next Sunday morning at 11:00 a. m. and possibly Sunday night.

A number of the men of this community met with Mr. Roy Shaver, the county agent, who was accompanied by Mr. Williams, the secretary of the Chamber of Commerce, for the purpose of getting registered dairy cattle in this community.

The Chamber of Commerce is paying the expenses of Mr. Shaver to go to East Texas to buy these cattle. He also announced that he would organize a 4-H club as early in November as possible.

It seems very probably that two registered bulls will be bought here. The pupils of the 3rd and 4th entertained the school Friday morning, October 25th. The visitors were Mrs. Bolch and Mrs. Showalter.

The following is the program to be given by the 5th and 6th grades on Friday morning, November 1.

1. Two songs, "My Old Kentucky Home" and "Old Black Joe."
2. Reading, "The Arrow and the Song."
3. Play, "Surplus Energy."
4. Song, "Carry Me Back to Old

Charms of Old Quebec Endure the Year Round

Quebec, the "Ancient Capital," which has been one of the most interesting and picturesque spots in North America since Champlain founded it in 1608, has a great charm for visitors throughout the year. Late in the season, before the winter sports start around Christmas-New Year's, the old walled city is a magnet for visitors from all over the United States and Canada. Quebec has so many attractions in the late fall that it is impossible to describe them in a

short article. Towering above the city is the old Citadel, three hundred feet above the St. Lawrence, which is visited by thousands each year. Dufferin Terrace, with its adjacent Chateau Frontenac, is one of the most wonderful promenades in the world running over 1900 feet above the historic Heights of Quebec some 200 feet above the St. Lawrence. Nearby are the Plains of Abraham, where Wolfe and Montcalm met and battled; the Quebec Bridge, one of the finest en-

Virginia." The following have had perfect attendance during the last month.

ORIGINAL REXALL ONE CENT SALE AT THE CORNER DRUG STORE

HALF AND HALF IS NOT BEST FOR PLAINS

(By R. E. Shaver)

Half and Half cotton is not the heaviest yielder, nor the earliest maturing cotton grown on the plains and its staple has no spinning value was the conclusion reached by the group of men that visited the experiment station and Tech college last Wednesday.

After walking over the farm and inspecting the 126 varieties of cotton that are growing there we asked Mr. Jones for data showing the comparative yields, length of staple and earliness of maturity. This data revealed the following facts:

Burnett or Westex cotton has out-yielded any other variety grown there for the past seven years with Mebane 804 a close second.

In 1925, the year of the unusually early freeze, the yields of six of the leading varieties was Mebane 804, 154 lbs. lint per acre, Burnett, 144 lbs. per acre, New Mebane, 136 lbs. per acre; Acala, 128 lbs.; Half and half 105 lbs. and Kash 70 lbs.

The average length of staple for the last four years has been Half and Half 3-4 inch, Burnett, 15-16ths inch, Kash, 15-16th inch, Mebane, 1 inch and Acala 1-16 inches.

The per cent of cotton pick 134 days after planting or the past four years has been: Burnett 25, Kash 25, Mebane 15, Acala 14, Half and Half 14, while in 147 days 66 per cent of the Burnett, 62 per cent of the Kash, 56 per cent of the Mebane, 50 per cent of the Half and Half, and 41 per cent of the Acala was picked."

After noon the group visited the Tech College and interviewed Mr. Nelson of the Textile department and learned that the standard American machine will not handle the short staples and that it either goes to foreign markets or used as waste cotton which puts it in the same class as linters.

KNOW TEXAS

During the first nine months of 1929 Texas automobile registrations totaled 1,109,700, or 51,000 more than the total for 1928.

One Texas pecan tree in San Saba County has yielded as high as 1,053 pounds of nuts in one season and has furnished 5,000,000 buds for improving other trees.

Texas expects to ship 1,200 carloads of dressed turkeys to Northern and Eastern markets this fall.

The Deepwater plant of the Houston Lighting and Power Co. is the largest single generating unit in Texas. It is rated at 100,000 kilowatts.

Another club girl whose poultry flock report to Miss Beulah Blackwell, home demonstration agent, is outstanding, is Lillian Hargis, of Liberty Hill. Starting in April with 21 Rhode Island Red hens she has made a profit above feed costs of \$33.28 and has \$104.30 worth of stock on hand.

Columbus—Farmers in the Colorado River bottoms are foolish to try to grow cotton without poisoning with calcium arsenate for Weevil control, so Charlie and Elbert Tate believe. June-planted cotton that was properly poisoned on their farm is producing half a bale to the acre, while unpoisoned cotton looks good for only one bale to ten acres.

While corn silage is an excellent feed for the dairy cow, it is not a balanced one, and some legume hay should be given to supply sufficient protein and mineral matter. From 6 to 12 or more pounds of alfalfa, soybean, cowpea, or red, crimson, or alsike clover hay, in addition to the silage, is a good ration. Hay from Canada field peas, sown with oats to prevent the peas from lodging, also makes excellent roughage.

It's a good plan to examine orchards regularly in fall and early in spring for signs of mouse injury. Mouse injury in orchards may be prevented in four ways: Removing cover around trees; treating trees with

washes to repel mice; inclosing trees with mechanical protectors; and killing the rodents. Poison-bait stations are probably the best way of controlling mice in orchards, according to the Biological Survey of the United States Department of Agriculture.

Vernon—By selling \$568.06 worth of produce from her garden and chickens thus far this year, Mrs. J. S. Roland of Fargo has made the best marketing report of any home demonstration club woman in Wilbarger county, according to Miss Doris Leggett, home agent. More than half this amount was profit. In addition she has sold \$616 worth of cream up to September 1st.

Pearsall—Frio county home demonstration club women are turning rapidly to the canning and marketing of garden stuff in local stores, seven of these members having disposed of \$103 worth in September and having 836 more cans to sell. Three Pearsall stores are regularly selling their products, finding ready sale for them even in the months when fresh vegetables are available. The products most commonly marketed are black eyed peas, cream peas, okra and tomato gumbo, corn, tomatoes, beans and spinach.

Spur—Every home demonstration club member in Dickens county is keeping household accounts according to a system suggested by Miss Jennie Osborne, home agent, and plans are being made for each family to confer together before January 1st to make out a budget for next year's expenditures.

Stamford—2 sweet cream routes established early last summer by

County Agent C. C. Jobson with the aid of Jones County business men proved their worth during September by collecting \$1080.50 worth of cream from 46 farmers. This represents a premium of 11 cents per pound over sour cream prices.

Texarkana—An average of \$1.12 per hen in five months is reported by Alma Martin, her 4-H club demonstration agent. Her 27 White Wyandotte broilers produced an average of more than 100 eggs monthly during this period.

LAMESA GETTING READY TO CALL BOND ELECTION

LAMESA—Petitions are being circulated in Dawson County to call an election for a million and two hundred and fifty thousand dollars road bond issue, according to Henry J. Pirce, President of the Dawson County Roads Association.

The plan of the Good Roads Association is to hard surface six highway outlets from Lamesa including Highway Nine North and south, Highway 83, East and West and the Brownfield and Stanton Highways to the Northwest and Southwest.

The petition will likely be in within the next two weeks according to Price, President of the Good Roads Association.

BANK DEPOSITS AT LAMESA SHOW LARGE INCREASE

LAMESA—Bank Deposits at this time showing an increase of 150,000 over the same period last year according to the records. Combined deposits in Lamesa \$1,200,000.00

DIVERSIFICATION NOTICED IN LATEST CROP REPORT

Dallas, Texas, October 31.—Unquestionable advance in Texas of the idea of crop diversification is more than ever noticeable in the crop reports gathered by the Department of Public Relations of the Southland Life Insurance Company up to October 15th.

In spite of a disappointing cotton crop, the situation has been more than offset by a profitable grain crop and extremely rapid development of dairy products.

A very large number of crop reports gathered from every section of the state contain statements similar to the following.

"Business conditions are holding up surprisingly well in view of disappointing cotton crops. Very few report poor business conditions and many normal or better."

North and Northeast Texas report cotton generally below normal with other crops normal or better.

East and Central Texas report cotton below normal with grain crops about normal.

South Texas with a cotton crop decidedly under normal reports optimistically because of other crops and diversification.

In almost every section of the state counties report the crop situation decidedly helped and in some cases actually saved by income from dairy products, cattle, chickens and hogs.

On days of low humidity and high winds, fires are easily started and hard to stop. This is a season when many persons take advantage of the drouth and slack times to burn off the accumulation of weeds, rubbish, and bugs.

FOARD COUNTY BOY DOES FINE RAISING HOGS

Crowell—Making two pigs weigh a total of 441 pounds in 142 days of feeding and producing pork thereby for a feed cost of 5 2-3 cents per pound is the achievement of Daniel Callaway, 4-H club boy in Foard County.

They were put on wheat pasture at the start and fed all the ground wheat and corn they would eat mixed up with one pound of protein supplement per pig per day.

daily. The cost of the feed as given by Fred Bennels, county agent, was \$28.05, the selling price was \$55.20, and after deducting the original cost of the pigs Daniel had \$19 left for his labor.

Beef usually becomes more palatable and tender if allowed to ripen or age for two or three weeks before being cut up. The quarters or wholesale cuts are ordinarily aged in a dry cooler carrying a temperature around 36 F.

The Economical Transportation

-have you driven a Chevrolet Six?

Have you felt the thrill of its six-cylinder performance—so smooth, quiet and vibrationless that you almost forget there's a motor?

Have you known the satisfaction of its six-cylinder reserve power—ready to shoot you ahead at the traffic light, to carry you over the steepest hills, or to speed you along the highway?

And do you know that anyone who can afford any car can own a Chevrolet Six?

If you have never driven a six-cylinder car, it is impossible for you to form any idea of Chevrolet performance from your imagination alone.

Smoothness! No rumble in the body—no tremble in the steering wheel—no vibration to loosen windows and doors!

Flexibility! Power that flows in a silken stream—and never a trace of "lugging"!

Quiet! Hardly a whisper from the motor. You can drive it for hours without the slightest noise fatigue! But why try to tell you the story when only a ride can give you the facts? Come in. There's a car waiting for you . . . Now!

The Roadster, \$525; The Phantom, \$525; The Coach, \$595; The Coupe, \$595; The Sport Coupe, \$645; The Sedan, \$695; The Imperial Sedan, \$895; The Sedan Delivery, \$795; Light Delivery (Chassis only), \$400; 1 1/2-Ton Truck (Chassis only), \$545; 1 1/2-Ton Truck (Chassis with Cab), \$650.

All prices f. o. b. factory, Flint, Michigan. Consider the delivered price as well as the list (f. o. b.) price when comparing automobile values. Chevrolet delivered prices include complete accessories and optional equipment. Chevrolet dealers include complete accessories and optional equipment. Chevrolet dealers include complete accessories and optional equipment.

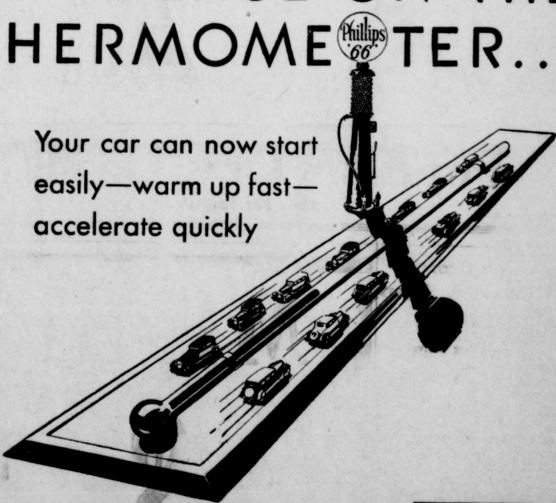

A Ride tells a Wonderful Story!

ANY PLACE ON THE THERMOMETER...

Your car can now start easily—warm up fast—accelerate quickly

The weather never changes for the car that's fueled with Phillips 66. This gasoline makes starting easy on even the coldest nights; its volatility is controlled to fit the season and the climatic conditions of the locality in which you buy it. You'll find it always quick in action. Flexible, too, at all engine speeds—no more stutter or miss when you step on it. You get these results at no extra cost. For best results try a full tank of Phillips 66 or 66 Ethyl.

Phill-up with Phillips 66

CONTROLLED VOLATILITY

WHEN THE THERMOMETER GOES DOWN THE VOLATILITY GOES UP. Gasoline most volatile before it can be fired in the cylinders of your motor. Volatility refers to the ability of gasoline to vaporize. With volatility controlled, Phillips 66 vaporizes as quickly in cold as in warm weather.
