Prefer Natural Gas for Cooking"

FLAME COOKING IS FAST . . . The instant 1 turn on my modern gas burner, cooking begins.

FLAME BROILING DOESN'T SMOKE . . . I know from experience that the gas flame in my broiler actually eliminates the smoke. This, definitely, keeps my kitchen cleaner and more pleasant.

FLAME COOKING IS AUTOMATIC ... Modern gas range automatic controls make cooking easier, more exact - and actually fun!

FLAME COOKING IS ECONOMICAL . . . ! know from experience that natural gas cooking costs only a few cents per month in West Texas. The dependability of natural gas helps me prevent expensive food spoilage bills.
