

O'DONNELL INDEX PRESS

40th year, No. 47

O'DONNELL, LYNN COUNTY, TEXAS, Wed. Aug. 1, 1962

\$2 And \$2.50 Per Year

Summertime is traditionally the season of vacation and traveling. Speaking of summer traveling and touring brings to a TRUE story relating to relatives of some O'Donnell people.

For identification call the touring family Mr and Mrs. Blank. The couple and their children left the Plains area to tour the west. In a western state they chanced to pass a middle-aged man who was hitching a ride. On impulse they stopped and picked the stranger up. It was their intention to let the man off at the next city but conversely the stranger turned out to be a quick friendship. The children grew attached to the stranger immediately.

Again on impulse Mr and Mrs. Blank proposed to the stranger to accompany them on the tour and they would pay the bills. Across the wide west the group toured visiting the places tourists visit. It was a memorial trip, one to remember.

When the family and the hitchhiker parted, the man took the address of his hosts.

The months of fall passed into the Christmas season with their new friend of the summer. The letter had no address. He wrote in part "when you picked me up I had planned to rob you, kill if necessary, and take your car and money. But you were so nice to me and I liked you and the children so well that I couldn't I am working and never again will be tempted."

More and more each summer our Plains people are finding the cool mountains of the west a most relaxing vacation place. Many from here have "discovered" the charm of Red River and vicinity in New Mexico - less than a day's drive from here.

The mountains cast a spell on one never to be forgotten. Many years in the past the ed. and his bride were stationed at Monticello, in southern Utah. Some 50 miles to the north the LaSalle Mountain towered to 12,000 from a valley elevation of 6,000 feet like the box of a giant sailing ship.

Over the years we have with friends, would drive up the mountain over logging roads to the timber line and a natural meadow dotted with beaver lakes. There we would gather snow from the shadow of trees, make ice cream, and fish for trout in the partly frozen lakes.

The mountains are charming except for deer flies. We declare they are as big as B-29 bombers and need a runway as long to take off. When a deer fly bites you in an exposed area you will jump over the tallest pine. How we envy our friends vacationing this year in the "balcony of heaven".

Following is a note from Rev. and Mrs. Billy Ferguson, the new pastor of the Church of Nazarene. "We have finely gotten moved, and it is wonderful to pastor a church in your city where the people are so friendly. A cordial invitation to all to attend our services."

Ina Mae Beal, 807 N. 4th st. Lamesa, has received an album containing her song, "Lonely Cowboy". The album is published by Starcrest Recording Co. of California. Mrs. Beal wrote the poem and had it set to music about two years ago and it can be heard over the Lamesa radio station.

Mr and Mrs. Ervin Jones visited relatives in Colorado City over the week end.

Mr and Mrs. Jeff White are visiting at Denver, Colo. and vicinity.

Mr and Mrs. A. D. Haney were host and hostess to a family get-together Sunday July 29th in their home. Present were: Mrs. John I. Dean, Spartanburg, S. C. Mrs. Pauline Vaughn, Dallas, Mrs. Raymond Rike and son, Ray, of Coleman, Mr and Mrs. H. A. Shipp of Andrews, Mr and Mrs. Jeff H. Shipp and granddaughters, Paula and Linda Stephens, Mr and Mrs. W. M. Shipp, of Lamesa. The day was spent in recalling experiences of earlier days.

Good Rains Brighten Crop Outlook Over Area

Fine rains last week netted 3 inches in a more or less general fall. Hall again hit north of here damaging about 1,000 acres of cotton and feed. In portions of Draw area and in vicinity of Mesquite the fall was lighter. The rains proved to be very beneficial and gave the crop a good start into August. The crop is generally normal for this season excepting for being about ten days later than last year.

The annual Page family reunion was held Sunday in the Lubbock park.

Mr and Mrs. Ronnie Middleton of Sundown are the proud parents of a fine daughter born last Wednesday weighing 7 lb 3 oz. She is named Ronda Denise.

Folks You Know

Mr and Mrs. E. T. Wells returned last week after visiting their daughter and family in Commerce.

Claude Morris attended a family reunion at Gainesville last week. He was accompanied by Walter Brusson who visited a brother at Chico.

Mr and Mrs. Ben Moore, Jr and family visited at Abilene Sunday.

Mr and Mrs. Donald Goolsby of Lamesa are the proud parents of a son weighing 8 and half pounds. Grandparents are Mr and Mrs. Charlie York.

Mr and Mrs. Fred Brookshire of Slaton are the parents of a fine daughter born at Rumbo clinic and named Sandra Dee born last Friday weighing 7 lb 9 oz.

Leonard Vety and family of Tulsa visited Mrs. Effie Bazar and mother over week end.

Mr and Mrs. J P Hale and Mr and Mrs. Jim Hale of Lubbock attended a family reunion at Christoval Sunday.

Mrs. T. A. Barrington and daughter, Judy of Houston are visiting home folks.

Mr and Mrs. Everett Herman were at Lake Stamford over the week end.

Gail Harris of Denver City is visiting James Guy Thompson this week.

Mr and Mrs. Joe Harris and family of Denver City and Mr and Mrs. W L Harris and family of Portales visited home folks here Sunday.

Harold Line of Amarillo is visiting his folks here this week.

Mr and Mrs. Geno Jones of Lubbock spent week end here.

Larry Allen of Odessa is visiting his grandparents, the Jesse Lanes and M. B. Allens.

Mr and Mrs. Rob Lane returned last week after visiting their son and family in Colorado.

Downtown...

It has been my privilege to watch the start of the Sabin Vaccine Program. Many of you have already read and heard a great deal about it from other sources. However, at risk of boring you, I want to tell you a little more about it.

The Medical Association in a five county area is sponsoring the program. The Sabin vaccine is an oral one and has recently been released to the public. The physicians in this five county area have underwritten the cost of the program with the expectation of receiving at least a part of it back from donations.

Their main concern, however, is that every person in the county will receive the vaccine. It will be taken in three doses six weeks apart.

The first dose is to be given Aug. 26th in the Community Center in O'Donnell and in the Legion Hall in Tahoka.

The recommendation is that even if you have had the Salk Vaccine, it would be well for you to take this one also. It will be given to everyone from three months of age up. You are asked to contribute at least 25c per dose for the vaccine, but if you can not afford this, come on anyway. The expense will be taken care of.

This is a giant step forward in the fight against polio and we would be foolish indeed to miss an opportunity like this. If we say "no" to this opportunity it would be like saying no to one to fifty years of additional life. Tell your friends about this program and if you have questions concerning it they will be answered by any doctor in the county or by some of the qualified people who have studied the program.

If you have a question about the program, and desire to, you may write to the "Downtown Editor" in care of this newspaper and we will be happy to answer them. If we don't have the answer, we will arrange to get it.

Mr and Mrs. Bill Yandell of Floydada spent week end with Mrs. Yandell and Mr and Mrs. Ed Allen. Mrs. Yandell returned with them for a visit.

Young Farmers To Meet

A representative of the W. P. Crawford Co. will speak to the O'Donnell chapter of Young Farmers Thursday night at 8 p. m. at the A.G. building. His topic will be drying and storing of grain as well as ensilage. Glenn Clark is in charge of the program.

Mrs. R R Ballew, Mrs. Wilbur Line and Miss Mabel Harris attended the School of Missions of the Woman's Society of Christian Service and Wesleyan Service Guild at St. John's Methodist Church in Lubbock last week.

Mrs. C B Morrison spent last two weeks in Kansas with relatives.

Mr and Mrs. Olin Davis of Hobbs spent week end here with her mother, Mrs. Warren.

Mrs. Bob Burdett is in Lamesa hospital.

CHANCES ARE GOOD FOR CANCER CURE

Ever since the first spark of life appeared on this earth, cancer has been one of the most menacing and intractable diseases mankind has had to contend with. But we know more about it than is generally realized. We know enough, in fact, that a diagnosis of cancer need not be considered a sentence of death.

We know that all types of cancer are different since they affect different tissues of the body. We know cancer has no respect whatsoever for age, although it does occur more frequently after 40. Conversely we know it ranks high as a cause of death among children.

Cancer is not inherited, although a tendency towards cancer sometimes occurs in families. We know that cancer is not contagious or communicable from one person to another. We know that certain agents or conditions will cause certain types of cancer or are factors in causing cancer. For example, exposure to sunlight over long periods of time (farmers, seamen) is known to cause skin cancer. Certain chemicals such as aniline dyes may cause cancer in experimental animals. An injury or a prolonged irritation of the mouth or lip area such as sometimes comes with habitual pipe smoking is also a factor in causing cancer. Prolonged exposure to x-ray or radium may also cause cancer. Perhaps the most important thing we know about cancer is that many cases can be cured by early removal by surgery or by irradiation with cobalt, x-ray, or radium or a combination of these techniques. Rapid strides are now being made in treatment of certain types of cases with chemical compounds.

Rotary Governor To Visit Here Next Week

Floyd Stark, of Seminole, governor of district 573 of Rotary International, world-wide service organization, will arrive here Monday, August 6 to visit the O'Donnell Rotary Club, one of 45 clubs in his district. In addition to addressing O'Donnell Rotarians at their meeting Tuesday, Aug. 7th, he will confer with Blaine Mitchell, president of Rotary Club of O'Donnell and other club officers on Rotary administrative matters and service activities.

Mr. Stark is a retired merchant in Seminole and is a member and past president of the Rotary club of Seminole. He was elected a district governor in 1962-63 at Rotary's 53rd annual convention in Los Angeles, Calif., last June. He is one of 271 district governors responsible for supervising the activities of more than 11,200 Rotary clubs with a total membership of 524,000 Rotarians in 128 countries around the globe.

Speaking of governor's visit, the president of the local club said, "He is coming here as a counselor and advisor. He has a broad experience in Rotary and is well qualified to assist club officers in solving whatever problems they may have and in organizing an effective program for achieving goals in community betterment, raising the standards of businesses and professions, and in furthering international understanding."

One of the responsibilities of a Rotary district governor is to supervise the organization of new clubs in his area. Last year more than 300 new Rotary clubs were formed in 48 countries.

MORMANS GIVE PROGRAM

The O'Donnell Rotary Club met Tuesday and visiting Rotarians were O. H. Nance, J. D. Hines, Bob Wilton, Owen Taylor, D. L. Adcock, Will Morris, and Perry Roberts of Lamesa, and Roy Edwards of Tahoka. Mrs. D. L. Adcock was a guest. Weldon Martin was in charge of the program which was a youth program entitled "How To Raise A Boy". It was presented by Mormon Missionaries Rollins and Jensen and assisted by Jack Hines. The club is planning a back yard supper honoring District Governor Floyd Stark and his Rotary Ann. Eunice who will visit here next Monday and Tuesday.

Rites Today For W. L. Gardenhire

Willie Lee Gardenhire, 77, a long time prominent farmer, died Monday morning at 8:05 at St. Mary's Hospital in Lubbock. A retired farmer, Mr. Gardenhire was a past president of the O'Donnell school board and also had served as president of O'Donnell Farmers Co-op Ass'n and was a member of the board of directors of Plains Co-op Mill at the time of his death.

Services will be today (Wednesday) at 2:30 p. m. at the O'Donnell Church of Christ with Ode Prescott, minister, officiating and assisted by Earl Danley of Lubbock. Burial will be in O'Donnell Cemetery under direction of Higginbotham Funeral Home.

WEDDING DATE SET

Mr. and Mrs. Clyde Winans of here announce the approaching marriage of their daughter, Sue to David Bessire, son of Mr and Mrs. Odell Bessire of near here. The marriage vows will be exchanged on August 30th. The couple will reside in Levelland where the bridegroom will attend South Plains Junior College.

John I. Dean, Scout Executive, Spartanburg, S. C. visited Mr and Mrs. A. D. Haney, brother in law and sister in law, last week en route to Philmont Boy Scout Ranch, Cimarron, N. M. Mrs. Dean is visiting her sister and brother-in-law, the A. D. Haney's this week. She will join Mr. Dean on his return trip to Henrietta enroute to South Carolina.

Mr and Mrs. Jackie Wheat are the proud parents of a daughter born Saturday at Lamesa hospital weighing 8 lb 10 oz. She is named Shellie Rae.

Mrs. R. E. Hardberger has returned home.

Mr and Mrs. B. J. Witte of Long Beach, Calif. are visiting relatives here.

Mr and Mrs. Dick Harris spent week end in Almagorda.

Save up to 50 percent on Helena Rubinstein Annual Beauty Sale. Buy one and get a bonus free at Lott Pharmacy.

SWIMMING LESSONS SET HERE

Beginning and advanced swimming lessons, ages up to 12, will begin Aug. 6th at the City Pool.

Hours are 10:30 to 11:30 each morning Monday thru Friday. Fee is \$10 for 10 lessons.

Mrs. H. Y. Conrad was a patient in Lamesa hospital last week.

Mr and Mrs. C W Greenlee and daughter of Houston visited here last week.

Mr and Mrs. J B Crawford of Grandfalls visited here last week.

Roy Allen and Rita Joy Vaughn of Midland are visiting their grandparent Mr and Mrs. Lester Parker.

HORSE SHOW SET HERE SEPT. 2nd

Sept. 2nd at the O'Donnell Rod-co Arena will be held the first annual O'Donnell Appaloosa Horse Show beginning at 1 p. m. Halter and performance classes will be held. The horse show is limited to registered Appaloosa horses.

Judge is Clyde Miller of Fluvanna and Wendell Edwards is in charge of the entries. Several hundred horses and owners are expected.

Top row left to right, Brady Gass son of Mr and Mrs. Jerry Gass, Krist and Karla Thompson, children of Mr and Mrs. Wally Thompson. Bottom row, James D. Thompson, son of Mr and Mrs. James Thompson, Jelly Don Gass, son of Mr and Mrs. Don Gass, Mary Ann Sumrow, daughter of Mr and Mrs. Darius Sumrow.

Todd Gass, son of Mr and Mrs. Jerry Gass, Joey and Julene Dorman, children of Mr and Mrs. Bill Dorman. Prize winners, 1st, James Thompson, 2nd Brady Gass, 3rd Mary Ann Sumrow.

Party-Pretty Pie!

REFRESHING! That's the best way to describe this party-pie - it's refreshingly different, and refreshingly simple to make with lime flavor gelatin and melon balls. Try putting it in a Coconut Pie Shell for a delightful change... make the shell by mixing 1/2 cup of melted butter with 2 cups of packaged grated coconut. Press mixture evenly into pie pan and bake at 300° F. (slow oven) about 30 minutes. Delicious!

EMERALD MELON PIE

1 regular size package (3 ounces) 1/2 teaspoon almond extract
Jell-O Lime Gelatin 2 cups small honeydew melon balls
1 cup boiling water
8 to 12 large ice cubes 1 baked 9-inch pie shell

Dissolve lime flavor gelatin completely in boiling water. Add ice cubes and stir constantly 2 to 3 minutes, or until gelatin starts to thicken. Remove unmelted ice. Add almond extract and let stand 2 to 3 minutes. Then add melon balls. Stir. Pour into pie shell. Chill until set, about 3 hours. Garnish with whipped cream or prepared dessert topping mix if you wish.

HEALTH CHECKS NEEDED BEFORE SCHOOL

Early this fall more than 238,000 young Texans will be entering both private and public schools for the first time. Even though the opening of school is still some weeks away, parents are busy making preparation to insure that their child makes a smooth adjustment to his new environment. The child's adjustment will be more rapid and satisfactory if he starts his school life in good, sound health.

Have your family physician or local clinic give your child a complete physical examination including an eye check. His teeth should also be checked by the family dentist. If these examinations show there are ailments or defects that can and should be looked after, then follow their advice and have them corrected before you enroll him in school.

It is likely that your child has already been immunized against certain of the childhood diseases such as diphtheria, whooping cough and smallpox. If not have it done immediately either by your doctor or by the local health clinic. If all immunizations have been done previously make sure your child gets the necessary booster dose.

Insist on your child getting regular and sufficient hours of sleep to help him enjoy school. He needs ten to twelve hours of sleep in a quiet, darkened room with an open window to build up his energy and offset his tiredness.

SUNLIGHT MAY CAUSE HARMFUL BURNS

It will arouse the wrath of sun worshippers, but this must be said: The healthful effects of a suntan aren't worth the time and trouble it takes to get one. After all, a sunburn like any other burn -- is a manifestation of a skin injury.

True, a sensible bask in the sun makes a fine mental pick-me-up and there is no denying the supple appeal of a tawny life-guard. But to overdo it can lead to trouble. In fact it can kill you. More than one person has succumbed to prolonged and unaccustomed exposure to the sun. Even at best, overexposure can mean two or three miserable days when a mere shirt or blouse is torture, and a friendly pat on the back can end in murder.

The medical term for sunburn is "erythema solaris". It is the ultraviolet light in sun rays which does the damage. And since clouds do not remove all ultra-violet rays, it is possible to get burned even on overcast days in mid-summer. Some people are physically unable to tan. Known medically as "heliophobes", they could spend the entire summer on Padre Island, and all they'd get would be blisters on their blisters. The reason: their skin lacks the pigment necessary to produce the tan tint. They never had a tan and they never will, so they ought never attempt one. Each new exposure will only mean a new burn.

Sunshine is a source of vitamin D as most people know. What is apparently misunderstood is that ordinarily healthy people can get all the vitamin D they need thru routine activities such as hanging out the family wash, mowing the lawn, or walking to the store. For persons suffering from pellagra, lung tuberculosis, high blood pressure or hyper-thyroidism sunlight may be definitely harmful.

In case you have wondered about the source of freckles, here is the answer: The color of everyone's skin is determined by the amount of pigment in skin cells. Dark-complexioned people have considerable, blondes very little. Under a microscope the pigment in skin cells looks like tiny flecks of brown paint. Sometimes, especially in the children, it is manufactured unevenly and collects in the spots we know as freckles.

Tennessee Bear Ruins Revenuers' Evidence

NASHVILLE—In the Tennessee hills there lives a bear which seems to know bad whisky when he tastes it. While Alcohol Tax Unit agents were waiting to trap the owner of a still they had just found, the bear lumbered out of the forest and decided to sample the product. He rolled it around his tongue and then smashed the still to pieces.

Town Lavishes Gifts On Boy Who Lost Hands

CENTERVILLE, Ala. — Everybody in this town is mighty friendly. James Allen Brewster, 5, thinks. His neighbors have lavished many gifts and toys upon him, things he often has wished for but which now he can't hold or fondle. He has lost both his hands.

His hands were caught in a saw-mill slab chain. He was treated in a hospital. When he returned home he gazed ruefully at the bandages where his arms ended and said, "Now I won't be able to play anymore."

Centerville folks had been too busy helping the boy's dad, S. A. Brewster, pay the hospital and the doctors to think about toys for the small lad. They had already raised about \$300 for medical expenses and \$40 to buy James some clothes.

After his sighing remark about not playing again, James went uptown with his sister, Mary Dean, 12. He wore a neat sports shirt, blue jeans and new shoes. His sister bought him a soft drink and held the bottle while he sipped. Then they went home.

Upon arrival, they found the toys that the people of Centerville had been too busy to buy before. James was so happy that he declared he would learn how to play all over again.

Air Conditioning experts agree... WATER cooling is BEST!

Youngsters learn mighty early about the cooling effect of water when the weather's hot. And air conditioning engineers know that water cooling is far more efficient than air cooling. The reason is simple... 85° water can absorb more heat from your home than 100° air.

That's why ARKLA-SERVEL Sun Valley's GAS air conditioners are WATER cooled! Water cooling, plus Sun Valley's "no moving parts" principle, gives you two big advantages unavailable with other air conditioners. One, a Sun Valley gives you CONSTANT EFFICIENCY, while air cooled units lose as much as 15% efficiency. Two, Sun Valley operating COSTS REMAIN CONSTANT, while air cooled equipment operating costs rise as much as 23%.

KING-SIZED FILTER
double Sun Valley's double filtering capacity STOPS ALL HOUSEHOLD ODORS! It even tames cigar and fish odors, giving your home Spring-like freshness all year long.

NO MOVING PARTS
... in the heating or cooling cycles of the Sun Valley... nothing to wear out or break down! Sun Valley is year-around comfort for the mortgage life of your home!

CONSTANT EFFICIENCY
Sun Valley has no convection-robbing friction to run up your operating costs. It doesn't cost a penny more to operate the Sun Valley for an hour when it's 115° than it does when the temperature is 90°.

YOUR DEALER'S GOT AUGUST BUYS

ON NEW CHEVROLETS

TO PLEASE EVERYBODY

(WELL... ALMOST EVERYBODY) CHEVROLET

Even the most persnickety luxury-lover couldn't ask for very much more than a Jet-smooth Chevrolet (like that Impala Sport Coupe at the top). Yet it's all yours for a Chevrolet price. (And you know how low that is.)

Here's the best thing that's happened to make money go further since budgets—the lively low-cost Chevy II. It's got all kinds of room. And comes in 11 models, too—like the Nova 2-Door Sedan (second from top).

Want a roomy family car and a sporty driver's car for one low price? The rear-engine Corvair Monza (e.g., that Club Coupe, third from top) plays both roles to the hilt. Care to join the club—and get a buy, to boot?

JET-SMOOTH CHEVROLET

CHEVY II NOVA

SAFETY HAS TO BE CULTIVATED, TOO!

NATIONAL FARM SAFETY WEEK July 22-28, 1962

Santa Fe

Ship and travel Santa Fe

... always on the move toward a better way.

Here's why a **flameless**
ELECTRIC WATER HEATER

gives you **hotter water... faster**

In a flameless, quick recovery electric water heater, two super-fast heating elements are in the water, inside the tank, rather than just one heat source outside the tank bottom. Element at top heats water at the point of draw-off. Element at bottom heats incoming water. Notice, too, that heavy insulation completely surrounds the tank, including the bottom. Heat is sealed in, and none is wasted up a flue, since an electric water heater is flameless and needs no flue or vent. That's why an electric water heater gives you the hot water you need for dishes, laundry and other uses... as fast as you need it. See both round and table top models at your dealer's soon!

SAVE NOW... WITH TEXAS ELECTRIC'S \$50 INSTALLATION CERTIFICATE

Good for \$50 on the retail purchase and installation of a new electric 40-gallon (or larger) glass-lined, quick recovery water heater, replacing an existing water heater, in any home served by Texas Electric Service Company. This offer good only until August 31. See your appliance dealer, plumber or electrical contractor.

NEW LOW RATE FOR ELECTRIC WATER HEATING
Only 1 1/2c per kilowatt-hour for all electricity normally used for water heating by the average family. Call our office for full information.
