High School: Mrs Nola Bolch, Eng. and Spanish, Mrs Morene Cathey, History, J H Hatter, Math., Mrs Juanita Hatter, Commercial, W W King Band, Mrs Alta Line, Eng., Mrs Helen Reaves, Librarian, L R Reaves, Science, J W Reed, V A Ed Robertson, Coach and S S; Helen Stokes, H M, Frank Norton Counselor

GIN SELLS

W E Holcomb advised the Index this week that the Clawson and Holcomb Gin here had been sold to Howard C. Lankford of Hereford effective immediately.

The Clawson and Holcomb gin was established here 8 years ago and Mr. Holcomb has been the manager of the gin and grain business since that time.

Mr. Holcomb's many friends, including the Ed., will regret losing him as a fellow business man. He said his plans for the future were indefinite.

Mrs Joe Snellgrove is visiting her mother who is ill in an Abilene hospital

Mr and Mrs W R Kincaid of Ft Worth visited her father, Cap Boales and sisters Sunday and Sharon Kay Hays returned with them for a visit.

Mr and Mrs Guy Bradley visited their son and family at Midland Sunday and took Billy Guy, who had been in school here, home

Ed Dorsey of Tulla was here on business Monday

Mrs W E Huffines, Mrs B J McLaurin and Mrs Richard Bentley spent Saturday in Lubbock

Sky Juice Partly Covers Area

1.6 In. Rain Falls

A general area rain registered 1.6 inches here Wednesday night according to Ben Moore. However a large area missed getting enough to plant on The fall was heavier to the west with Mrs Taylor of New Moore reporting 2.8 inches. Generally west of the railroad cotton is going in the ground. Joe Bailey, Draw, Berry Flat, Mesquite and Harmony generally lack the 8 or 9 inches of moist soil need to plant. As we go to press Tuesday noon, rain signs are fair. The index maintains a general rain will fall from May 25th to 30th. Why? We're having the car washed on 25th. It never fails; we hope!!!!

Demented Latin Youth Is Taken Here

A Latin American youth said to be demented, was picked up here over week end for window peeping. He was taken to Lamesa where his parents live. Last week entry was made into Mrs Pat Gary's beauty shop and \$50 taken.

The Eastern Star will have a public installation of officers Thursday May 31st at 8 p m. The public is invited.

Don't forget the Silver Tea and book review Thursday at Fellowship hall of Baptist church at 4 p m sponsored by Martha Class. The money is for the church library

Please be reminded that there is a city law against keeping HOGS in town. This law WILL BE ENFORCED. Jimmy Hash, Mayor

J L Shoemaker, jr is in Dallas seeking a permit to build the proposed new bank building.

DAN BLOCKER WRITES FROM KOREA

(Ed. note: Dan Blocker's letter to his parents is continued from last week)

I am a little hungry at the present; the chow is good but just not enough of it, so far

We have been working pretty hard today. Getting our tents in shape. We dig dirt with our steel helmets and drop the dirt around our tents to keep the air out of them. While digging some old stumps up cleaning up our yard, we made an astonishing discovery: the good soil is only about 4 inches deep and directly under the soil is volcanic ash frozen solid (ice, real ice) and because of this the tree roots run out sideways instead of down and you can just chop around a great big tree about 4 inches deep and then just push it over all deep and then just push it over all deep by yourself. No kidding, it's really funny.

Monday, which is tomorrow, is the Communist's celebration day. One out of three people here are Communistically inclined, therefore we are expecting a few riots in the villages and towns around.

We have been issued an allotment of ammunition for controlling any riots. That is largely our duty in Japan now.

Dad, I'll tell you what I want when you send me a box: Mexican food and cakes; right now I think I crave sweets more than anything. I have a little pot belly stove in our tent and we are getting some bacon and eggs, coffee and cookies. Have to get a frying first, though.

Shower Honors Bride-Elect

A miscellaneous shower was given Saturday afternoon from 3 to 6 in the home of Mrs Rosa Gibbs honoring Miss Jeannine Smith of Tahoka, bride elect of Geno Jones. The home was attractively decorated in spring flowers. The color scheme was yellow and green. Co-hostesses were Mesdames Otis Harris, F M Jones, T M Pearce, R R Ballew, Clint Wright of Plainview, Joe Garner of Anton assisted Mrs Gibbs in serving green punch and yellow angel food squares to about 50 guests

Those, from out of town attending were Mrs W E Happy Smith, mother of the bride-elect, of Tahoka, Mesdames D J Whirley, Ralph Walker, J D Iglehart, J J Whirley and D M Smith of Colorado City, Mrs T B Berkerson of Semole

The wedding of Miss Smith and Geno Jones will be Sunday June 3 at Tahoka.

WANTS PEN PALS

9 year old Billy Wayne Rogers, a nephew of Mrs C J Beach, is ill with rheumatic fever and wants cards and letters to help fill in the long days in bed. So you boys and girls who are able to be up running and playing drop this lad a line to cheer him. The address: 407 E. Morland, Hobbs, N M

MOTHER - DAUGHTER BANQUET HELD

The Women's Society of Christian Service were hosts to a Mother - Daughter Banquet Tuesday night at the Methodist social hall.

A more detailed account will follow next week

Mrs Opal Rogers is going thru a San Angelo clinic

CITY HAS HOUSE CLEANING

Lions To Install Officers

Installation of the new officers of the O'Donnell Lions Club will be June 7th. President-elect C R Barlowson will be installed as president at that time. B B Foreman is the new secretary and Charles Cathey is treasurer. Installation officer will be Dr. Weston Petty of Lubbock. At the last meeting Lion Hervie Gardenhire presented perfect attendance awards to Harley Jolly and to Cleve Bairrington.

Borden Co. Election Is June 5th

The Borden County School Election has been set for June 5th according to Harlin Williams. The date was originally May 19th but the election was called off because of a technical wording in the election order. The election June 5th is to group the county and provide for the building of a central high school, probably at Gail. This election on June 5th is NOT a bond election but is an election to re-group the county for high school purposes. For additional details, the Index would advise you to talk with your trustees.

TO PREACH HERE

Rev. Floyd Haney of Lamesa will preach at the Calvary Baptist Church next Sunday morning and night, May 27th

SUMMER SCHOOL MONDAY

The high school summer school session will be from Monday May 28th to July 6th. Registration for all summer school students will be held Monday May 28th at 8:30 a m. in the high school library

Dorcas Class Meets

The Dorcas Class met Friday afternoon of last week with Mrs O. G. Smith, sr. Mrs Stubblefield brought the devotional and Mrs Haynie the prayer. Mrs Pose Mansell led the contests which were enjoyed by all. Refreshments of orange punch and cake were served to 15 members and a guest, Mrs Vaughn Gibson.

Mr and Mrs C L Taylor of Littlefield celebrated their 50 wedding anniversary May 17th; all their children and all her brothers and sisters attended; a niece Mrs W E Summers of here attended

Mr and Mrs Jack Reed and children visited Mr Reed's sister Mrs J C Walker over the week end

The Jewel Lunsford Circle met with Mrs Douglas Ballew Monday afternoon

Mrs U C Rains and Mrs John Eakers visited in Ft Worth and Neocoma last week

Mr and Mrs Douglas Ballew and son Mark left last Tuesday for a visit with Mr and Mrs Luther Ellis and got behind the high water having to stay longer than intended

FAMILY REUNION

Mr and Mrs Harman Hemsting and baby of Huntington, West Virginia, Mr and Mrs Arlee McDonald and family of Victoria Mrs Ed McKee and girls of Seminole, J L Proctor and wife of Brownfield, Mrs Fred Franks and boys of Quanico, Vir., John Proctor and family of Tahoka, Mr and Mrs C L Harris, all of the Joe Proctor children and grandchildren and all of John Proctor's children and grandchildren attended a family reunion at the Proctor home here Sunday

During the past two weeks the City of O'Donnell has laid and connected approximately three blocks of 4 inch sewer main in the north east and southeast sections of the town, according to City Supt. Rochell Howard.

The City is in the process of grading all the alleys of the city. There are still a few alleys, Mr Howard said, in which the main-tainer can not operate because the alley is closed by fencing or junk. He would appreciate your attention to opening your alley if it is closed.

As probably noted by many, the underground storage tank was thoroughly cleaned last week being scrubbed and mopped dry. At the same time the overhead tank was cleaned and the exterior and the framework was painted. The City has more than \$250,000 invested in the water system alone. Spraying in the city will probably begin the first week in June if water on the streets has drained off.

Tractor Fire

Thursday a m a tractor at the Jake Gates residence was slightly damaged by fire when it shorted out.

JACK HOUSTON WEDS

Mr and Mrs W A Henley of Welch announced the marriage of their daughter, Thelma Louise, to Pvt. Jack Houston, son of Mr and Mrs Tolbert Houston of here in a double ring ceremony May 19th in the Baptist parsonage at Portales, Wash. The groom is stationed at Seattle, Wash. Theo Fultz of here was best man.

Pattern No. 8588 is a new-rite perforated pattern in sizes 9, 11, 12, 13, 14, 15, 16, 18. Size 11, midriff, 1 1/2 yards of 39-inch; blouse 2 3/8 yards; skirt, 2 yards; shorts, 1 3/8 yards.

There's A Dift The trouble with people who drink like fishes is that they don't drink what fishes drink.

Can't Help Self "So, young man, you wish to become my son-in-law?" "No, but if I marry your daughter, I don't see how I can avoid it."

Why Re-Hash It? A pious housewife we know happens also to be a very thrifty one. She never wastes any food, but specializes in doing things with leftovers. One Sunday she baked a large ham, and for days after that her husband got it for dinner—minced, deviled, and with eggs. At the end of the week, as he started to dig into ham croquettes, his wife asked, "But dear, weren't you going to say grace before the meal?" The husband looked up hungrily. "I will, pet," he declared, "if you can name a single thing here that hasn't been blessed before."

ITCHING BURNING ATHLETE'S FOOT AND RINGWORM MISERY

It's agony when feet itch, sting, crack open, burn and pain constantly. It's misery from athlete's foot and ringworm infection. No wonder so many enthusiastically praise FUTSANA, the amazing liquid and powder combination treatment. Users say FUTSANA beats anything they've ever tried. Not only does it give immediate relief, it also acts to prevent recurrence of the trouble. That's because FUTSANA works two ways. FUTSANA liquid acts fast to relieve the condition. FUTSANA powder kills the germs that cause infection. The moment symptoms of athlete's foot and ringworm infection strike, act quickly! Apply FUTSANA at once. Sold on a positive money back guarantee. Ask your druggist for FUTSANA today.

OPS Orders New Beef Price Control Plan Calling for 10 Cent Rollback

BEF PRICE CONTROLS—In one sweeping order that will touch nearly every family in the home towns of America as well as 300,000 meat retailers and 25,000 packers, slaughterers and other meat wholesalers, the OPS put into force a new beef price control program calling for almost a dime-a-pound roll-back at the butcher shop by October 1.

The order is expected to save the American housewife \$700 million in the butcher shops. Housewives cannot expect retail prices of beef to drop immediately, however, because the program provides for progressively reducing ceiling over a period of time that will allow livestock producers to reduce their high cost animals.

Livestock men have balked at controls over cattle prices and warned they would result in less meat production. Michael V. DiSalle, OPS director, will likely be severely criticized by the industry.

These are the steps in the new beef program:

1. A 10 per cent cut in prices which slaughterers may pay the farmer for cattle. This goes into effect for accounting periods beginning on or after May 20.
2. Dollar and cents ceilings are fixed for wholesaler and retailers for the first time. The wholesaler ceilings go into effect May 9, the retail ceilings on May 14. Butcher shops must post retail ceiling price charts, by grade and cut, by June 4.
3. Prices slaughterers may pay for cattle are to be reduced an additional four and one-half per cent on August 1 and by same amount on October 1.

On the same August 1 and October 1 dates, retail beef prices cuts of from four to five cents a pound will go into effect.

MORE CONTROLS—Main Street may feel a greater degree of the control pinch if President Truman's proposed legislation gets through congress. He has called for re-enactment, with some stiffening, of virtually everything in the defense production act of 1950. In view of Mr. Truman's recent troubles, it is doubtful if his suggestions will be accepted without considerable criticism.

He proposed:

1. Fixing the parity price for each farm commodity as of the beginning of its marketing season for price control to cover the entire season.
2. Establishing effective rent controls for both residential and commercial properties "wherever needed to stabilize the cost of living and the cost of doing business."
3. Strengthening machinery for the enforcement of price control regulations.

4. Authorizing the government "to build and operate defense plants, to produce essential materials and equipment.
5. Providing for controls over credit in the sale of existing housing.
6. Regulating speculative trading on commodity exchanges.

THINGS TO COME—If the man on Main Street thinks the Truman-MacArthur controversy is going to die, he is badly mistaken. The battle is just about to begin.

This was indicated in a long and extemporaneous speech by Sen. Robert Taft in which he attacked the U.S. joint chiefs of staff and demanded that the U.S. go "all-out" in Korea.

The senator said that he was willing to follow the MacArthur proposals for bombing military objectives in Communist China and for giving logistical support, meaning transport and cover, to Nationalist attack on China proper.

The senator's speech made it clear that the Republican plan to use the forthcoming investigations of the MacArthur dismissal to force an overturning of present far east policy.

A WARNING TO AMERICA—Robert A. Vogeler, shaky, pale and nervous was released from a Hungarian prison after 17 months imprisonment. He had a message for the Main Street of America.

"I want to warn every individual American that what happened to me can happen to them if we don't band together to destroy these enemies of individual freedom," he told newsmen after his release.

"I have a message for America—an important one.

"America must be made aware of what can happen to human rights—right of a person to go where he wants and say what he wants . . . or the right to be able to go to bed and no be afraid of being taken away from his family to prison in the middle of the night."

RETURN OF LABOR—With the return of organized labor to all defense-mobilization agencies, the man on Main Street can expect the unions to exert a greater influence over the administration's future defense proposals.

It was evident by labor's return to the defense agencies that the administration had surrendered on many points of conflict and is now willing to listen to the united labor policy committee.

Union leaders made known immediately their first campaign. As one expressed it, "We will now turn the heat on congress by undertaking a new campaign for tighter price-control laws and other legislation to insure equality of sacrifice in the defense effort."

Chinese Attack South of Parallel
A U.S. tank battalion lumbers into a defense position north of Seoul, prepared to take a heavy toll of advancing Chinese Communist forces.

SPRING IN KOREA—It is spring in Korea. But there is no peace and tranquility in the warm sun. The song birds can not be heard for the constant roar of artillery. The tender sprigs of grass and shrubs are trampled beneath the boots of invading Chinese and defending United Nations troops. It is time for war in Korea.

But the great Communist spring offensive is not doing so well. And the people in the home towns of America who are thinking of their sons and brothers and husbands have gained confidence from reports of allied victories.

The Reds approached Seoul, but came to a dead stop after allied naval, air and artillery bombardments. On other fronts the fighting had died down for the time being.

But as long as it is spring in Korea, the Communists will attack. This time, however, they are running into a meat grinder of fire power.

A SLIGHT DECLINE

Food Prices Down .3 of a Per Cent

The bureau of labor statistics reported that a survey of eight cities revealed that retail food prices declined slightly during the latter part of March.

It was the second time since the wage-price freeze of January 25 that there was a falling off in the retail food-price index kept by the bureau. The decline, however, was only .3 of a per cent.

At the first of April the index was about 11 per cent above that of last June, before the Korean fighting began, and 14 per cent above a year ago.

The decline was due largely to a small drop in prices of fresh fruit and vegetables. Cabbage led the decline with a 19 per cent drop. Carrots were down 18 per cent and fresh tomatoes down 11.

Three-Point Program

ABLE ERIC JOHNSTON, boss of the economic stabilization administration, has announced a three-point program which he says must be placed in effect to hold down the high cost of living and inflation in the mobilization emergency.

These three points include: (1) Holding industrial profits to 85 per cent of the best three out of the four years, 1946 to 1949; (2) fixing June 30 as last date on which labor can expect increases due to cost-of-living and escalator clauses in labor contracts and (3) freezing agricultural parity prices as of January 15, 1951.

This last point of the program is the one which is causing such a bitter battle in the congress, for it will require congressional action to freeze the parity price by amendment of the Agricultural Act of 1949.

Secretary of Agriculture Charles F. Brannan, already is up in arms against any such program for the farmer and flatly declares that farm prices have little or nothing to do with causes of inflation or the high cost of food prices.

And he proceeds to prove his point: (1) By showing that farm prices are on the down grade while farmers' expenses are going up; (2) you can buy more food and services today with an hour's labor than even in the lush year of 1929; (3) that farmers are being paid less for their labor, less for their investment and less for their management ability than other segments of the economy; (4) that only a third of cost index goes for food, and of this, 10 per cent is for such items as coffee, tea, fish and other items which have no relation to American farms or farmers, and (5) if all farm commodities now below parity should immediately rise to the parity level it would have something less than a 5 per cent increase, which in turn would only mean about 1.5 per cent rise in the over-all consumer price index.

Brannan takes the 1950 farm income and reduces it to terms of wages and shows that the farmer today is getting only 69 cents an hour for his labor as compared to \$1.46 for manufacturing laborers; \$2.03 in the building industry and \$1.17 for retail trade workers.

Farm Income Lowest

He shows that the farmer is getting an allowance of 5 per cent on his investment as compared to 15 per cent for manufacturers in 1950 after taxes, and that while the farmers income is falling, the national income is on the up grade. For instance, he shows the net farm income in 1949 at \$14.1 billion as compared to a national income of \$216.8 billion; farm net income of \$13.0 in 1950 as compared to a national income of \$235.6 billion and the per capita farm and non-farm income as follows:

	Farm Income	Non-Farm Income
1947	\$922	\$1,393
1948	960	1,523
1949	816	1,494
1950	804	1,546

Purchasing Power

Scotching the oft-repeated demonstration that "a bill will buy so much less than it would two or three or 20 years ago." Mr. Brannan shows that an hour of factory labor will buy one-fourth more loaves of bread than it would in 1929, twice as many as in 1919 and two and a half times more than in 1914; that an hour's work will buy as much round steak as it did in 1949, only a sixth less than it did when steak was selling at bargain prices in 1939 and a fourth more than it did in 1929 or 1919.

Processing Costs More

And the secretary makes this point. In January of 1951 a typical market basket of food for a family of three was costing at the rate of \$709 per year. But of that \$709, marketing costs were taking \$352 and farmers were getting \$357.

The point being that we are getting better processing, better servicing and better packaging, all of which costs money. If we, Mr. Brannan said, had been satisfied with the same kinds and quantities of food we bought in 1935 to 1939 with 23 per cent of our disposable income, it would have cost us only 18 per cent of our 1950 disposable income.

Farm Bloc United

Mr Eric Johnston will find a united farm bloc opposed to his premise of freezing parity prices as of January 15, or of any other date, in this congress. It may be, however, that just as the government is paying industry a subsidy in increased prices for all-out production of defense goods, the government may have to pay the farmer a subsidy for all-out production of the food, for farmers are engaged in war production just as is the industrialist.

Bismarck Fray Is Described

INDIRECTLY, Herman Goering was responsible for the destruction of the German battleship, Bismarck, it has been revealed.

Rear Admiral D. V. Gallery, U.S.N. recently cited the reluctance—or refusal—of the Luftwaffe to come to the aid of the German battleship as one of the factors that led to her sinking by the British on May 21, 1941.

At the same time, Admiral Gallery, who interrogated survivors of the ill-fated dreadnaught, points out that the entire battle was virtually a comedy of errors on both sides, with luck and British mis-cues favoring the Nazis. The latter pulled several boners themselves, Gallery states.

"The Nazis committed a fatal blunder at the beginning. Concern with the fuel supplies completely dominated the plans of the admirals on both sides. Nevertheless, the Bismarck sailed from Norway 2,000 tons short of her full capacity of fuel!"

A serio-comic touch was lent to the entire "Battle of Blunders" the Admiral states, when the Germans without radar of their own kept accurate track of the British ships stalking the Bismarck by

means of excellent listening devices. The British employed radar for the same purpose. As a result of the tracking, each navy jumped to the conclusion that the other had stolen its technical secrets.

Admiral Gallery reveals that the British might have sent a boarding party aboard the floundering Bismarck but failed to do so. "She was a pushover to board, there was little to lose in trying, and there was a glorious page in naval history to gain, if the attempt succeeded." Had the Bismarck been towed to port, it would have given the greatest boost of the war to British morale.

Help Save Lives
To make travel safer for Americans, around 5,000,000 gallons of paint are used on streets and highways to mark traffic lanes, no-parking area and stop signals.

DO YOU HATE CHANGE OF LIFE?
and **HOT FLUSHES?**
Do you suffer from hot flushes, nervous tension, upset emotions due to functional 'change of life' (38-52 years)—that period when fertility ebbs away, when embarrassing symptoms of this nature may betray your age?
Then start taking Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. No other medicine of this type for women has such a long record of success. Taken regularly, Pinkham's Compound helps build up resistance against this annoying middle-age distress. Truly the woman's friend!
Note: Or you may prefer Lydia E. Pinkham's TABLETS with added iron. Any drugstore.
LYDIA E. PINKHAM'S VEGETABLE COMPOUND

3 Reasons Why HADACOL IS PRAISED BY THOUSANDS

HADACOL brings relief to folks troubled with Stomach Distress, Weak, Run-Down Conditions and Nervousness when due to deficiencies of Vitamins B1, B2, Niacin and Iron

Norman Christopher, 2344 Cumberland, Houston, Texas: "After I got out of the Army I was underweight, nervous, couldn't sleep and had a terrible time getting food to agree with me. When I would wake up in the morning I would always be sick at my stomach — I could never eat breakfast—imagine having to wait until noon before eating the first meal of the day. Even then just a few mouthfuls of food would fill me up. At night I couldn't sleep—I would just roll and toss all night. After the third bottle of HADACOL I could tell a difference in my eating and sleeping habits. Now after a year's time of taking HADACOL, I have gained almost 20 pounds. I sleep well—and the most wonderful thing—I can enjoy three full meals a day."

Mrs. John A. Feight, Jr., Rt. 1, Bedford, Pennsylvania: "Anything I ate made my stomach ache and churn all night. . . . My food never seemed to get digested and therefore I would wake frequently in the night with pains. I would be nervous and think over the day's nerve-racking experiences. Every little thing irritated me. I couldn't stand children around me. They made me nervous. I would holler at my two-year-old daughter, Vickie, for nothing at all. Since taking HADACOL all my nausea and nervousness have passed away. All I can say for HADACOL is that it's made me see that this is a beautiful world after all. I'm 20 years old and am a housewife. I really do feel as great as I look on the photograph."

Mrs. Maurice Bellard, P. O. Box 226, Church Point, Louisiana: says about her son, Archie Bellard: "Some friends of mine have been taking HADACOL and found that it had done them a lot of good, and they suggested that I start giving HADACOL to my 16-year-old son Archie Bellard. He has been taking HADACOL for about two months, and since taking it he feels much better. Before he started taking HADACOL he felt weak, and was rundown, and he didn't feel like playing or working. Since he is taking HADACOL he has more energy, and he has a good appetite. I owe the friends, who suggested HADACOL to me, many thanks, but I owe HADACOL many more thanks, and since it has done Archie so much good, I will never be without it again."

HADACOL CAN HELP YOU!

If your system is lacking in Vitamins B₁, B₂, Niacin and Iron, HADACOL can help you as it has helped thousands of other fine folks who had deficiencies of these important elements, which HADACOL contains.

HADACOL brings blessed relief to folks troubled with aches and pains, stomach disturbances (indigestion, gas, heartburn, "sour risings" after meals, bloating), a weak, run-down condition, poor appetite and nervousness when these troubles are due to a deficiency of Vitamins B₁, B₂, Niacin and Iron.

Don't go through life plagued with conditions caused by such deficiencies when relief may be as close as your hand.

Buy HADACOL today. Trial size bottle, only \$1.25. Large family economy size, \$3.50. There's only one true and genuine HADACOL. Refuse substitutes. Sold on a strict money-back guarantee—you'll feel great after the first few bottles you take or your money will be refunded. If your dealer does not sell HADACOL order direct from The LeBlanc Corporation, Lafayette, Louisiana.

Dairymen Are Worried Over Butter's Future Per Capita Consumption Continues to Decline

Dairy farmers throughout the nation, especially in the midwest, are giving serious thought to one phase of the industry—the future of butter. Long the economic foundation of the industry, butter has continued to decline in per capita consumption.

Since 1940 consumption has declined from 16.9 to 10.5 pounds per person per year, while margarine, with a per capita consumption of 2.4 pounds in 1940, has increased

1940

1945

1950

to 6.1 pounds during the past year. The war hurt the sale of butter more than anything in recent years. People learned to do without and then when ceilings were lifted the price jumped above \$1 a pound. The price was just too much for the average American family.

Shortly thereafter came the butter-oleo battle. Industry leaders now believe that was a serious mistake.

These are the reasons the industry is worried over their future.

Turkey Nests

To prevent fighting among
 hens and to check egg break-
 age, a movable section of
 nests has been devised by a
 number of turkey raisers. The
 entrance guards are carefully
 balanced and rotate on pipe.
 When a hen enters a nest, the
 guard closes, giving privacy
 until she leaves. The top is re-
 movable and the nests are
 sometimes built on low runners
 so they can be moved easily.

**Holstein Holds World's
 Record for Butterfat**

The world's record for butterfat
 production is held by a Holstein
 cow, Carnation Homestead Daisy
 Madcap. This animal produced
 34,553 pounds of milk, showing an
 average test for one year of 4.1 per
 cent. This is equivalent to 1,767
 pounds of butter and 16,071 quarts
 of milk. On one day of the test the
 animal produced 123.3 pounds of
 milk.

HOUSEHOLD HINTS

After searing less-tender cuts of meat such cooking methods as stewing, braising and pot-roasting should be used.

Protein foods require clean, covered, cool surroundings to keep them free of harmful bacteria.

Cook dried peas, beans and lentils in the water in which they have been soaked so that valuable nutrients may be saved.

Dried peas, beans and lentils need to be soaked several hours or overnight before using them to replace the moisture taken from them in drying.

Prevent flies from forming on the forehead or a furrow across the brow by applying strips of cellophane tape before going to bed at night. Also, it may be used during the daytime as a beauty aid if a heavy cream make-up case is applied directly over it.

Whatever method of cooking fish you use they should only be done until tender and flaky.

THE HOME TOWN REPORTER

IN WASHINGTON
WALTER SHEAD, WNU Correspondent

Fulbright Backs Truman

ODDLY ENOUGH it remained for Sen. William Fulbright of Arkansas, who only recently was in the limelight exposing irregularities in the reconstruction finance corporation, to take up the cudgel in behalf of President Truman in the MacArthur affair. For in a major speech, the senator went all-out in favor of the President's position on foreign policy and the ouster of General MacArthur and provoked the now notorious comment from Senator Taft that he thought the joint chiefs of staff nothing but stooges of the administration, a statement Senator Taft will live to regret.

It will be remembered that for the past three years Senator Fulbright has been in the so-called administration "dog-house" insofar as the President is concerned.

It was Fulbright, who, during the heat of the pre-convention fight of 1948, suggested that President Truman resign. Also, his exposures during the RFC probe brought to light some petty irregularities in the President's official family in the White House.

So members of the senate were amazed when the forthright Fulbright stated that he fully agreed with the foreign policy of our government and had complete faith in the military integrity of our joint chiefs of staff, as opposed to the MacArthur views on foreign policy and the general demand for an all-out aggressive war against Red China.

After pointing out that the MacArthur views were opposed both politically and militarily, not only by our own government, but by the governments of the entire free world, Senator Fulbright had this to say:

"I do not know what the verdict of history upon Mr. Truman will be. His contemporaries, such being the frailties of human nature, are more likely to exaggerate his faults than to enumerate his virtues, while he, as most men, has a full quota of both. I am not in his good graces. I have spoken with him on official business only once in several years. This, however, does not blind me to the fact that he has made decisions on a number of occasions that equal in imagination, courage and effectiveness any ever taken by an American President. Nearly all of these decisions are without precedent in our history. Some of them are: The dropping of the A-bomb on Japan, aid to Greece and Turkey, the Marshall Plan, the Berlin Airlift, the North Atlantic treaty, the sending of divisions of American troops to Europe in peacetime—troops under the command of General Eisenhower; the going into Korea, a decision that at the time had the approbation of the nation and of nearly the whole of the free world.

Asks Objective Judgment

"No doubt," Senator Fulbright continued, "that, in the absence of some of these stupendous decisions, much of the present free world would now be lost to us and our struggle against Russia would be the more difficult. These momentous decisions are the President's responsibility, taken though most of them were with the advice and consent of the congress and the people and the approbation of the military.

Mr. Truman remains the President, and in these terrible times, I submit that it is necessary for us to keep him in perspective. Let us not permit his occasional lapses of speech or temperament or his misguided loyalty to unworthy friends to endanger a calm and objective judgment on the present controversy."

Fulbright Is Baited

Throughout his speech, Senator Fulbright was continually baited by interruptions by the same senators who had opposed every step of the way the very acts of President Truman which Senator Fulbright declares are the products of a courage, imagination and effectiveness without precedent in the history of our nation. They were Senators Taft of Ohio, Hickenlooper of Iowa, Knowland of California, Capehart of Indiana, Kem of Missouri, and Jenner of Indiana.

Those coming to the defense of Senator Fulbright and, incidentally, the President, included Senators Kerr of Oklahoma, Maybank of South Carolina, McMahon of Connecticut, Long of Louisiana, Humphrey of Minnesota, and McFarland, the majority leader.

Paper Criticized Taft

Referring to Senator Taft's attack on the integrity of the joint chiefs, The Washington Star said: "One of these days Senator Taft will be ashamed of the attacks he has made on the joint chiefs of staff... It is not too much to insist that senators should not indulge in the reckless responsibility that characterized Taft's attack on the integrity of the joint chiefs."

THE READER'S DATE BOOK

National, State Parks Provide Vacations for Home-Towners

May 27-June 2 is Park and Recreation Week. During this week the eyes of all America will be centered on the millions of acres of national parks, U.S. forests and wild life areas and thousands of scattered state parks throughout the country.

The week gains added importance in the eyes of Main Street because state and national parks have become the favorite vacation-land for home town America. The home-towner likes the idea of getting into his automobile, piling in the family dog, and taking off for a tour of his own country to see its wonders.

For example, over 30,000,000 people visit the national parks, monuments areas and capital parks, annually. As for state parks, it has been estimated that 125,000,000 people use them annually.

As for small town parks, with a real estate value of billions of dollars and with thousands of ball diamonds, recreation buildings, swimming pools, tennis courts, etc., it could not be estimated how many people use them. The home towns of America provide their citizens with more than 20,000 separate park units.

During the past 50 years parks and recreation properties, facilities and services have shown tremendous growth and influence. Today they make a major contribution to the welfare and happiness of the American people in every community in the land. The small town that has learned from experience that it has meant business to the community. And it is a wise community that advertises its facilities and beauties.

The whole story of the local parks is not even yet known statistically, but listed figures show that 1,465 cities, towns, and villages operate over 19,000 separate park and playground units, with an area of nearly 5,000 acres valued at well over \$2,000,000,000.

The man on Main Street should be sure that he gets his share of the benefits and joys that are his for the asking. National and state parks belong to him.

Foot Care in Focus For Foot Health Week

Summer is the toughest time of the year on your feet. So with National Foot Health Week (May 19-26) to remind you, it's a good idea to pay some attention to them.

Unfortunately, many people are less careful in summer about hygiene than during any other time. Outdoor activities and sports put unaccustomed strains on many persons who lead a sedentary existence during the rest of the year, and this results in burning, aching soles and toes that play havoc with posture, appearance and disposition.

Clinical records show that footwear of improper fit or material often is the principal cause of frustration and fretfulness during otherwise perfect summer days. Feet, like any other part of the body, breathe. Constant exchange and passage of air are essential for comfort, especially since feet tend to expand during physical activities in warm weather. That's why podiatrists and other foot specialists are unanimous in recommending roomy oxford-type shoes equipped with leather soles for all-around outdoor wear.

Shoes with leather soles are especially important in summer because leather's porous structure allows air to enter and maintain healthful foot temperatures.

The home town should take advantage of the years of experience has given his local shoe store salesmen and ask for their advice when they are purchasing summer footwear. It will eliminate many of a foot-ache.

A summer foot ailment that bedevils many Americans to an extent second only to the common cold is known as athlete's foot. The term is actually a misnomer for even persons whose most strenuous activity is lying in a hammock are as susceptible to it as professional ball players.

To prevent this pesky germ from getting a start and to remain on a sound footing, the American Foot Care Institute recommends the following basic foot rules which every home-towner will find helpful:

1. Wash Frequently!—Bath your feet frequently in tepid water, dry carefully and use powder afterwards.
2. Change Often!—Never wear the same shoes two days in succession, and change socks or stockings at least daily.
3. Wear Right!—For coolness and ventilation wear all-leather shoes, both soles and uppers. Save sneakers and playshoes for the beach or soft surfaces.
4. Fit Right!—Feet swell in summer. So be sure to wear the correct size shoes and stockings (a half inch longer than the longest toe). When buying shoes it is important to have the salesman fit you properly. Years of experience makes his advice worth listening to.
5. Exercise!—Linger up your feet at intervals—they have muscles, too. Wiggle your toes!
6. Prevent Athlete's Foot!—Ringworm of the foot thrives only in hot, soggy environment. Wear leather soles which absorb foot perspiration.
7. Take Care!—Don't be a "bathroom surgeon." If your feet need attention consult a podiatrist or chiropodist.

Illinois Legion to Sell Poppies to Aid Veterans

Since last November more than 12,000 wounded and disabled veterans of both world wars and Korea have been busily engaged in Illinois hospitals fashioning together pieces of cloth.

Their finished products—bright red poppies, the memorial flower of the nation's war dead—go on sale in Chicago and Cook county on May 25. Sales will be conducted for the rest of the state on May 29.

Proceeds from the street corner sales are earmarked for the aid of sick and disabled veterans and their families. Every penny taken in after expenses, goes directly into veterans' rehabilitation funds.

Some 15,000 volunteer workers will be at posts in Chicago from dawn to dusk, and additional 17,000 over other parts of Illinois.

Since 1931 poppy days have been held in Illinois under the auspices of the Veterans Poppy Day Association of Chicago, composed of the American Legion, Veterans of Foreign Wars and the Spanish-American War veterans.

COMMUNICATIONS

Western Union Begins Second Century of Service in the U.S.

On April 1 Western Union began its second century of service to the nation.

Organized April 1, 1851, as the New York and Mississippi Valley Printing Telegraph company in Rochester, N.Y., and changing its name to Western Union five years later, the nation's telegraph company observed its 100th anniversary through April.

Because of the world situation and the unusual load of business and responsibilities, the company did not have any elaborate celebration marking the anniversary.

Western Union's first executive office in Rochester, N.Y., back in 1851 was equipped with a single roll-top desk, a few chairs and a cast-iron cuspidor shaped like a plug hat. It was a modest beginning for a company that now has 43,000 employees.

Today, Western Union annually moves some 200,000,000 telegrams, 8,000,000 foreign and domestic telegraph money orders, and 5,000,000 cablegrams, many of a military and diplomatic nature. Additional billions of words are handled for the nation's press and over private wire systems leased to many leading industries.

The latest communications miracle developed by Western Union is the High-Speed Fax. It is the fastest overall communications method in the world.

Over the High-Speed Fax a message can be sent at the rate of 3,000 words a minute or 180,000 words an hour. It will transmit written, printed or picture matter, and there is no limit to the distance over which it may operate if a suitable circuit with electronic repeaters is provided.

Company Linked the East to the West

A part of the history of Western Union that fascinates most Americans today was the linking of the east and the Pacific coast by telegraph wire.

California was virtually isolated from the rest of the country. The wilderness west of the Mississippi was spanned only by pony express riders who galloped on relays of ponies from St. Joseph, Mo., to Sacramento in 10 days.

When the company planned to span the nation with wire, experts warned it would take 10 years. President Lincoln was skeptical. He didn't think it could be done; there were no poles on the treeless plains and too many hostile Indians.

But the wire was strung in three months and 20 days. On October 24, 1861, the job was completed and the first telegram over the line was from California to President Lincoln pledging loyalty of that state to the union cause.

THE BIBLE SPEAKS

International Uniform Sunday School Lessons
BY DR. KENNETH J. FOREMAN

SCRIPTURE: II Chronicles 36:11-21; Psalm 137; Jeremiah 29:1-14; Ezekiel 1:1-3; 11:14-21; Daniel 1:1-6
DEVOTIONAL READING: Psalm 137:1-6

Displaced Persons

Lesson for May 27, 1951

"D. P.'s" are no 20th-century novelty. This displaced person has for centuries dotted the international landscape. We can define a displaced person as one who, unwillingly or unintentionally, is a long way from a home which no longer exists. A D. P. would usually go home if he could, but he can't. His home has been bombed out, or perhaps his whole home town destroyed. Perhaps he and his neighbors have been forcibly moved out by a government that wants some one else in their places.

The D.P. is usually at first poor, in the nature of the case; a foreigner where he is, sometimes without even a native land to go back to, to say nothing of a home town. Perhaps the most tremendous uprooting of people in recent times has been in Korea, where war victims have had to move out by the million.

The Innocent With the Guilty

BUT THE story is of a new one. Back in Bible times many of the Hebrews became D.P.'s. After the downfall of Israel and Judah, thousands of Jews were taken to the country along the Euphrates and Tigris rivers, there to fend for themselves as best they could.

The Bible writers always looked on that experience as a punishment of the nation, and so it was. But the experience illustrates a number of things. One is that the innocent often suffer with the guilty.

Not all those who were forced into those long death-marches had been to blame for their country's wrong-doings. Bad decisions of king and council resulted in personal disasters to thousands who had had nothing to do with their king's bad policies or their aristocrats' debauched lives.

D.P.'s Taking Root

ANOTHER thing to be noticed in the Bible story of these Hebrew D.P.'s is the way they took hold, wherever they were, and helped to build up the country and help themselves at the same time. They took root, in short, and even when later on their descendants were free to go "home," relatively few ever went back to Palestine.

From that time to this, the Jews have been scattered over the wide world, living (where it has been possible) as local citizens of whatever lands they call their own. We can still read Jeremiah's letter (ch. 29) to the D.P.'s from Judah, urging them to buy land, to lay out vineyards and plan houses and generally make themselves at home in Babylon.

We read of an Ezekiel, owning a home and settling down in Babylonia. We find Daniel the boy as a page in the royal household of Nebuchadnezzar, and as a man rising to prominence and power. Many of the D.P.'s took their places among the best citizens of their perforce adopted lands.

D.P.'s In American History

SO it has often been since. The United States alone owes a great deal to D.P.'s. The famous statue of Liberty is a welcome-sign to such people. The Pilgrims who came over in the Mayflower were D.P.'s, already twice uprooted. The Huguenot protestants, driven from France by official persecution, became top-level, successful citizens in England and America.

Revolutionary troubles in Europe a hundred years ago brought to America shores Carl Schurz, for example, a fugitive from then police of two countries because he was a revolutionist; here in America becoming a top success in many fields; general of the army, minister to Spain, Secretary of the Interior, prosperous business executive, editor of great city newspapers, writer and orator of international fame.

Not all D.P.'s become famous; but many thousands of them, throughout the troubled ages, have been a blessing to the lands that sheltered them.

So it may be in our time, that as God has before now brought good out of evil, he may in our troubled world bring even from the cruelties of deportation and homelessness again new understandings, fresh beginning, and an interweaving of many strands of humanity into a stronger fabric than before.

It's Wonderful the Way

Chewing-Gum Laxative Acts Chiefly to REMOVE WASTE -NOT GOOD FOOD

Here's the secret millions of folks have discovered about FEEN-A-MINT, the modern chewing-gum laxative. Yes, here is why FEEN-A-MINT'S action is so wonderfully different!

Doctors say that many other laxatives start their "flushing" action too soon... right in the stomach where food is being digested. Large doses of such laxatives upset digestion, flush away nourishing food you need for health and energy. You feel weak, worn out.

But gentle FEEN-A-MINT, taken as recommended, works chiefly in the lower bowel where it removes only waste, not good food! You avoid that typical weak, tired, worn-out feeling. Use FEEN-A-MINT and feel your "peppy," energetic self! Get FEEN-A-MINT! No increase in price—still 25c, 50c or only 10c.

LET'S MODERNIZE YOUR FAVORITE RECIPE

Bake the Clabber Girl Way...

Whether you plan to bake that extra-special cake or just hurry-up biscuits or quickbreads, Clabber Girl's balanced double-action will mean more prouderful results.
