O'DONNELL, LYNN COUNTY, TEXAS, FRIDAY, AUGUST 23, 1929

NUMBER 48

East And West Highway Is Planned First Bale 1929 Cotton Received Here Tuesday

nothing of bringing new traffic thru town.

O'Donnell citizens are among the most charitable on the South Plains and believe in helping their neighbors when possible, but the story carried by the Lubbock Journal is too much for our good citizens to stand. A big howl has been raised and was more than justified. The writer of the article in the Lubbock Journal was either drunk or having pipe dreams which will never come true.

The above article was published under the name of G. S. Dowell, secretary of the O'Donnell Chamber of Commerce, and Mr. Dowell states that he has been flooded with unfriendly inquiries concerning the story. He also states that the article was phoned in by long distance, but by some unknown cause, the Journal mentioned a new road that is being sponsored by Lubbock and Slaton instead of the new highway being sponsored by the citizens of Gail and O'Donnell. Mr. Dowell states that some conversation was had concerning the Lubbock highway which will branch off the Gail-O'Donnell road between Tredway and Draw, but the Journal staff suffered a lapse of memory and failed to mention the part of the story that was intended for publication. Just why this was done can be more easily explained by the Journal staff at Lubbock.

The main east and west highway will be built from Gail through Tredway, O'Donnell and Seagraves. Lubbock and Slaton may build the road mentioned in the Journal, but without the aid of O'Donnell folks.

O'Donnell Public Schools Open Sept. 2

It won't be long now until vacation days are over for the children of the O'Donnell territory. Preparations are being made by Supt. D. A. Edwards of the O'Donnell Independent School District, to begin work on the 1929-30 term of school on Monday, September 2nd.

The attendance bids fair to be larger than last year. Janitors are busy cleaning up the buildings and grounds in order that everything will be ready for the opening when the bell rings on Monday morning, September 2nd.

Business Houses Close 10 to 11, For Revival

An agreement was signed by the majority of the business firms of the city agreeing to close their places of business from 10 to 11 a. m. each day during the remaining days of the revival meetings which are in progress at the Methodist church and Church of Christ.

The following business firms signed the agreement:

- B. & O. Cash Store
- Singleton Hardware Co.
- Johnson Barber Shop
- W. M. Mask
- J. W. Chandler
- M-System Grocery
- M-System Market
- Ray Tailor Shop
- Thornhill Variety Store
- Everett Barber Shop
- The Popular Store
- City Grocery
- Modern Dry Cleaners
- B. M. Haynes
- Mansell Bros. Hardware
- Cicero-Smith Lumber Co.
- Higginbotham-Bartlett Co.
- W. E. Guey Dry Goods
- Painter and Marlin
- O'Donnell Index

SINGLETON BUILDING BEING COMPLETED THIS WEEK

The finishing touches are being given the Singleton building this week. Workmen expect to have everything completed by the end of the week ready for carpenters to begin installing fixtures for L. D. Tucker who expects to open a first class dry goods store. Mr. Tucker stated he expected to be open for business by the first of September.

O'DONNELL GOOD WILL TRIPPERS VISIT GAIL LAST WEEK

County Without Doctors, Lawyers or Preachers

The O'Donnell good will trippers of the Community Chamber of Commerce led by their secretary-manager, Mr. G. S. Dowell, visited the beautiful inland town of Gail, the county seat of Borden County on Wednesday evening. The trippers left O'Donnell at 4:30 P. M. and arrived at Gail at 6:00 p. m.

The visitors turned out to give the whole town a royal welcome. The crowd gathered on the street in front of the courthouse and on the courthouse square and for two hours old friends and acquaintances sat down together on a goods box or stood in old days, which they had spent on the street and talked over the good ranches, or having been introduced to some new comer to west Texas, heard the new comer tell how much he liked west Texas and in return the old settlers told stories of their historic old town of Gail and of the ranch life of an early day.

In groups of twos and threes they spent the time individuals shifting from group to group and meeting new people until every one had got to know the other and exchange some words of greeting.

It was in one of these group meetings that this reporter met W. C. Cathey, who conducts a general merchandise business at Gail. Mr. Cathey came to Gail in 1900 and has lived there since. He says that this is a county where the citizens obey the law, because they believe in the law. There is a man in jail at Gail at the present time and every one seemed to consider this a real bit of news. Mr. Cathey says this is the second man to be held in jail in Borden County in the last twelve years.

Only three felony cases have been tried in Borden County since it was organized. Two of these men were accused of stealing a calf and one was tried for perjury. One only was convicted and he was given a suspended sentence.

Mr. Cathey says that a good moral condition exists, although Borden County has no lawyers, doctors or preachers residing in the county unless some preacher has moved into the extreme north west part of the county. These people have very little need of courts. The birds rest in the district court room. Such were some of the interesting stories told by Mr. Cathey.

Oil Development

Recently considerable drilling for oil has been started near Gail and mingling with the crowd, were the oil field workers, apparently as enthusiastic about the advantages of the town and county as were the old timers these workers seemed to consider themselves citizens of Gail.

Among the oil field workers this reporter met Mr. W. A. Shidell, a tool dresser working at a well 8 miles south of Gail being drilled by the Green Production Co. He seemed glad to tell me about the work and said that the well is down 150 feet and that the company expects to go 3500 feet. He believes in the town of Gail, and its future he thinks is a bright one. Three other companies are drilling within 8 miles of Gail, one County Judge D. Dorward was a pleasant companion and he also called attention to the fact that only 2 men have been in jail in twelve years. Other old settlers told of the old cowmen who have made their start at Gail and later have moved to other Texas Cities and become the leaders there. Among these they mentioned J. A. Long whose residence is at Fort Worth who still owns his old ranch near Gail.

Dinner on Courthouse Lawn

This passed a couple of happy hours and then dinner was spread upon the courthouse lawn.

First Bale of Cotton Ginned in Lynn Co.

TAHOKA, Aug. 20.—Lynn County received the first bale of 1929 cotton today, brought in by J. A. Probst, of Grassland. It weighed 560 pounds and brought 20 cents. A premium of \$50 was given by Tahoka business firm. The bale was bought by C. A. Brassfield, manager of Forrest Lumber Company.

SMITH-SNOW

Mr. Carl Smith and Miss Lillian Snow were quietly married in Tahoka, April 20, 1929. Mr. Smith being the son of Mr. and Mrs. A. A. Smith and Miss Lillian being the daughter of Mr. and Mrs. W. A. Snow. The marriage has been kept secret until recently. Mr. Smith has gone to Goldthwaite, where his wife has been visiting friends and relatives for the past two months. They will make their home in Goldthwaite. Mr. Smith has a position in the Highway Garage. We are hoping the newly weds much happiness and success in their future.

A Friend.

Mr. Chubby Coin of San Antonio is the guest of his brothers, Ben S., and Harry Coin of the Popular this week. Chubby is enroute to Lubbock where he has accepted a position with a large jewelry firm.

REVIVAL MEETINGS ATTRACTING LARGE CROWDS THIS WEEK

UNION MEETING AT M. E. CHURCH ATTRACTING CROWDS

The union meeting now in progress at the Methodist Church is attracting large crowds at each of the services. Rev. Walter O. Parr, pastor of the Cumberland Presbyterian Church of Petersburg, is doing the preaching, and is delivering some splendid sermons. All who are not attending are missing a religious treat.

The meeting is growing in interest and will continue through next week, closing Sunday night.

CHURCH OF CHRIST REVIVAL WILL CLOSE SUNDAY NIGHT

The revival now in progress at the Church of Christ is attracting large crowds and some splendid sermons are being done by T. W. Phillips, of Wewoka, Oklahoma. The meeting will close Sunday night of this week.

Everyone has a special invitation to attend these services.

Dawson Co. Baseball Tournament Ends

The second annual Dawson County Baseball tournament ended Tuesday of this week with first honors going to Sparenburg who defeated O. K. in the second game of a double header Tuesday afternoon. O. K. captured the opening game Tuesday afternoon by a score of 7 to 6. They lost the second by the same score. The battle was thrilling from start to finish according to those who witnessed the finals.

The three leading teams finished in the following order: Sparenburg, O. K. and Arista.

Lamesa Now Assured Of An Airport

LAMESA.—That Lamesa is assured of an Air Port was made possible Monday of this week when Philip Yonge, Chairman of the Aviation Department of the Local Chamber of Commerce closed lease contract with M. C. Lindsey for tract of land immediately South West and adjacent to the City Limits. Workmen started at once with grubbing and placing of the field in first class condition for plane landing. Field marking including Wing Bag, Arch Sign, bearing the inscription "Lamesa Air Port." The center of the field will be marked with a 100 foot circle according to standard requirements, states Yonge.

On the Air Port Committee with Yonge, L. E. Eager, assisted in completing this project, other members of the Committee are Carl Bentsen and J. H. Harp.

Fifty Business Men initiated the Air Port here by signing the contract and lease with the Chamber of Commerce.

TO WHOM IT MAY CONCERN

I have on this day, August 16th, 1929, made a test of practically 3,000 pounds on the Public Scales owned by Mell Pearce, and I find them absolutely correct. This scale has a sensibility reciprocal of less than two pounds, (i. e. the amount of weight that breaks beam from top of trig loop to bottom of same.) Scales in general will take from five to ten pounds even when found correct by test.

I do not hesitate in affixing the State Seal on these scales and put the Stat eWeights and Measures behind them.

Respectfully,
J. A. KINARD,
Inspector of Weights and Measures of the State of Texas.

The first bale of cotton from the 1929 crop was brought in Tuesday afternoon by Homer Hancock, farmer living 2 miles northwest of town. The bale was ginned by the Edwards Gin free of charge, as is customary each year for the first bale.

A premium of \$35.00 and a Stetson hat was made up by the business firms of the city and presented Mr. Hancock. The stetson hat was donated by Ben S. Coin of the Popular Dry Goods Store. The remainder of the premiums was donated by other business firms of the city and was solicited by G. S. Dowell, secretary-manager of the Chamber of Commerce.

The bale weighed 485 pounds and was auctioned to the highest bidder Wednesday afternoon by J. P. Aylor. Mr. Edwards of the Edwards Gin was highest bidder and paid 19 cents per pound.

The first bale of the 1928 crop was received in O'Donnell on September 13th almost a month later than this year's first bale.

This is the earliest O'Donnell has ginned a bale of cotton in the history of the country so far as we are able to learn. A number of farmers have already begun picking and it is believed the crop will begin moving in earnest at least three weeks earlier than usual. This is due to the extreme dry weather during the growing season which will no doubt cut down the yield below normal.

Carnival Attractions Have Been Signed

The concession committee of the O'Donnell Free Community Fair reports having signed the All American Carnival Co. for the week of the O'Donnell Free Community Fair.

It is one of the largest carnival attractions ever to visit O'Donnell. It consists of 25 concessions, five rides and seven shows and expects to arrive in O'Donnell on Tuesday, September 17th, playing the remainder of the week.

Plans Completed for Lynn County Fair

To The O'Donnell Index:

The Executive Committee of the Lynn County Fair Association have just about perfected plans for one of the best County Fairs ever held in Lynn County. Better interest has been taken by all connected with the organization, and several communities have given the management that they will not only have a large number of individual exhibits but will have a Community Exhibit and a School float in the parade of the first day.

The parade promises to be a great event, as much interest is being taken and information obtained by various individuals and business and any kind of an exhibit, decorated houses. The parade is open to all car, float will be welcomed to participate in it. Attractive prizes are offered for the best decorated School Floats. The business men of Lynn County are requested to have their business represented in the parade and no doubt they will have an interesting group of cars and floats.

The live stock department promises to be by far the largest and best exhibit of live stock ever exhibited in Lynn County. County Agent, Ray Shaver will have a comparative exhibit of hogs which he intends to use to show the advantage of proper feeding and also one to show the difference in large and small bone type of hogs.

SUFFERS BROKEN LEG

J. W. Franklin, Jr., aged 17, suffered a broken leg on Thursday of last week, while riding a wild steer. He was immediately rushed to Lubbock Sanitarium where he received treatment. Latest reports state he is doing nicely.

Mr. and Mrs. E. J. Tredway are visiting Carlsbad Cavern this week.

CHEVROLET TRUCK PLAYS IMPORTANT PART IN MAKING AVIATION HISTORY

The St. Louis Robin has already made aviation history, but were it not for the humble part played in its dramatic exploit by a specially equipped Chevrolet six cylinder truck, it is possible that the story might have been different.

A special brand of gasoline was being used in the Robin, and on Sunday, July 21, the flyer's second Sunday aloft, the supply was nearly diminished.

The nearest point where an additional supply could be obtained was Tulsa, Oklahoma, but the train which started forth immediately from that point with a new supply was unfortunately blocked off by a wreck ahead.

News of the mishap was sent on to St. Louis and the reply came back, "Send it by truck."

So a huge tank containing 800 gallons was placed on the sturdy Chevrolet, and the drivers were ordered to "give it the gun."

Now, speeding a truck is alight under most conditions, but never so if it is a transport for gasoline. At a speed barely within the bounds of safety, however, the truck strated on its 450 mile trip late Sunday afternoon over a road that was mostly gravel.

Shortly after noon the next day the trip was completed without mishap. Amid cheers the Chevrolet pulled up alongside the refueling plane, and thus was obviated the necessity of switching brands of fuel—a step that was feared both by the pilots and the designer of the Robin's Engine.

An interesting point in the part played by the Chevrolet was that it had been run only 15 miles before it undertook its emergency mission. Nevertheless, according to the drivers, not once did the motor heat up, nor have there been any consequent engine difficulties.

LAMESA SCHOOLS WILL OPEN SEPTEMBER SECOND

LAMESA—The Lamesa Independent Schools will open the 1929-30 term September the second, according to V. Z. Rogers, superintendent. The School Board has announced the following personnel for the faculty during this term: V. Z. Rogers, Supt., F. T. McCollum, Prin. High School.

G. M. Roberts, Prin. Elementary School, Miss Commie Zell Barnes, A. G. Bearden, R. B. Carnes, Miss Carriewood Cleveland, Miss Una Earnest, Roger Elms, Miss Theima Merrick, D. W. Ogletree, Miss Mary Roach, Miss Bettye Travis, Miss Ethel Barron, Miss Pinkie Brack, Miss Verdine Brock, Miss Anna Laura Cannon, Mrs. R. B. Carnes, Mrs. Ruth Fry, Miss Mary Lockhart, Mrs. Louise McCall, Miss Helen Mesengale, Miss Mary Montgomery, Miss Lunelle Nix, Miss Lucile Pickett, Miss Patti Raiza, Miss Helen Roberts, Miss Grace Robertson, Miss Mesquerite Roy, Mrs. R. A. Stewart.

A significant thing about the above named faculty is that two thirds of them have attended colleges and universities during the summer especially preparing for their year's work. A majority of the high school faculty have been working toward masters degree in the cranking and leading universities of the nation and all have their A. B. Degrees according to V. Z. Rogers, Supt.

Many of the above named teachers have been on the Lamesa faculty a number of years, the policy of the board being to keep good and efficient teachers as long as possible for them to do so. V. Z. Rogers, Supt., is now entering his fifth term in this position. F. T. McCollum has been principal of the High School an equal number of years and is now entering his seventh term in the Lamesa Schools. G. M. Roberts of the Intermediate Schools is entering his third term. Other teachers have long held their positions.

Every automobile should be equipped with ash receivers for both front and rear seats, for the benefit of the smokers of the family. Many a

woods fire or grass fire is caused by burning cigarettes or matches tossed out of moving cars along the road.

Various experiments on the use of alfalfa meal for livestock show that the grinding of alfalfa hay into meal has little effect on the feeding value, the chief advantages of the meal being that it can be fed with less waste than hay, is in more convenient form, and can be shipped at less expense.

Have you figured out the amounts of various feeds the dairy cow will need for the coming year? A cow weighing 1,000 pounds and giving 25 pounds of milk a day testing 4 per cent will require in one year, when the pasture season lasts for six months, 5,400 pounds of silage, 2,500 pounds of hay, and 2,000 pounds of grain. Larger or high producing

cows will need a little more feed, and a smaller or low-producing cows a little less.

PLANS MADE TO ORGANIZE COUNTRY CLUB AT LAMESA

LAMESA—Plans are made here to organize a Country Club. A tentative organization has been formed and copies or charters and rules of country clubs in West Texas have been received from which it is hoped, according to the officials of the club, to frame a set of rules for the local club. Committees have been appointed on location, membership, plans etc., and it is hoped that in the next few weeks the organization will be perfected and work will start on the new club.

NOTICE

Binder Owners

Harvest time will soon be here. See to your binders are in good order now. Check over the parts you will need and bring with numbers to Palmer Implement Co. By doing so it may save you time and trouble. We carry as complete a list of parts as is possible, but if you check off the needed parts now, you will be sure to have just what you need when you want it thus saving us both time and trouble. A little co-operation now will be mutually beneficial.

We will also have a good supply of binder twine.

WE ARE HERE TO SERVE YOU

[THE NEW EMBLEM DEDICATED TO BETTER MOTORING]

What the MARLAND CONTINENTAL Merger MEANS TO MOTORISTS

THE consolidation of the resources and facilities of the Marland Companies and the Continental Oil Company, under the latter's name, is more than a corporate merger. It is a happy union of well balanced production, manufacturing and marketing operations from which will come a host of unusual advantages to the millions of customers and thousands of distributors.

Wide Field for Crude Selection
 Out of a total area of more than two and one quarter million acres in eight states, Continental selects the crudes best suited for its manufactured products. Raw materials for oils, greases and gasolines may often come from widely separated regions. Continental controls its own crude supply and chooses the best for each refining operation and thus assures a standard uniform output from year to year.

Strategic Location of Eight Refineries
 Economical and efficient operation of petroleum manufacture frequently depends upon the relative locations of the raw product, the refinery and the market. Continental is fortunate in that its eight modern manufacturing plants are well placed to afford prompt and economical delivery both before and after refinement. These properties are located at Baltimore, Maryland; Ponca City and Sapulpa, Oklahoma; Artesia and Farmington, New Mexico; Wichita Falls, Texas; Florence, Colorado; and Glenrock, Wyoming.

Exclusive Processes Insure High Quality
 Continental refinery engineers enjoy a national reputation in the oil business. Not only have they adopted the newest and most efficient mechanical equipment for these big refineries but they have designed machinery and developed processes which are exclusive to this company. Under centralized control, these facilities now are made available in the manufacture of petroleum products of exceptional quality.

ConocoLand Covers Tremendous Area
 More than forty years marketing experience has spread the distribution of Conoco products over an area which reaches from the western slope of the Rockies, far east to the Mississippi River. Practically half of the United States is dotted so closely with Conoco Stations that a motorist may drive anywhere in that tremendous area without introducing other than Conoco products to his car. The outposts of ConocoLand range from the Pacific Northwest to the shores of the Great Lakes and from the Atlantic Seaboard to the California boundary.

Prestige Established in Foreign Lands
 The Continental coastwise and export fleet operate from terminals at Texas City, Texas; Newark, New Jersey; Baltimore, Maryland; and Norfolk, Virginia; to a dozen foreign countries. Petrol pumps deliver Conoco gasoline to automobile motorists in the shires of England and Conoco motor oils lubricate industrial plants in north Europe, South America and the Orient.

In brief, the joined forces of these two great companies afford greater, better service to the users of motor fuels and lubricants wherever the sign of the Red Triangle is displayed.

WILL IMPORT DAIRY CATTLE

C. of C. To Help Farmers of County Get Registered Jersey Milk Cows and Bulls
(By C. C. Williams)

The Board of Directors of the Tahoka Chamber of Commerce at their meeting last Monday decided that the organization would co-operate with the farmers for Lynn County in securing more and better Jersey cows...

It is the plan of the Committee to take orders for whatever animals the farmer may want and get them of the best stock possible...

There is great need of several bulls circles in Lynn County, and it is hoped that the people of this territory will see the need of such and will start this fall to building up their herds by placing among them only the best of bulls...

ANOTHER LETTER FROM CHINA

Dear Editor:

Here comes a letter from this land of intrigue, graft, warfare, famine, suffering, chaos, to tell you and the readers of your excellent paper about China's new woman who has a share in the "goings-on."

If a woman in China, twenty years ago, had been given a Rip Van Winkle sleep, she would be more surprised than he was, should awake to-day. Then women had to stay indoors and work something like domestic animals. Or, if a better family, be cooped up at home and stay there. She was allowed to be seen only by her husband or brothers.

Now what a change! The modern Chinese young woman skip around the streets with a spring, grace and freedom that's quite refreshing when one remembers the women formerly hobbling along on bound feet supported by amahs. Now girls bob, shingle, or permanent wave their hair. That's a sign of freedom! They ride bicycles, play tennis, basketball and engage in other athletics. Formerly the parents arranged their marriage. Now one often sees the young ladies walk in every affectionately arm in arm with their "best boys," and the young people often do the arranging. The dress used to be the most modest of any nationality. Now women are often seen with short sleeves and very low-necked frocks even at mid-day. Sometimes they're seen with the most up-to-date up-beyond-the-knee short frocks and flimsy silk hose and very high-heeled shoes. Indeed the Chinese girls are quite amusing flappers sometimes—shockingsometimes—so much so that the officials have felt it necessary to issue proclamations commanding them to dress modestly. The girls have even learned to flirt in the most up-to-date way. That's freedom! They dance in the latest style. They ride horses, astride, with boots and riding breeches. "That's English, you know."

Once the ideal for girls was that they be able to do beautiful needlework at home. Now they are doing other things. They are clerks in stores. Some are typists and stenographers. Some are bankers. They play the organ or piano or other musical instruments. Some are becoming movie artists or actresses. Some are lawyers and judges and doctors; are teachers and kindergartners. They even become soldiers and sometimes they become Generals' secretaries! Women also become street-corner politicians and scream the Revolutionary platitudes such as, "Down with imperialism," "Give the people freedom," to beat the most zealous men Revolutionaries. Rarely do you see meetings for propaganda or riots without seeing girls or women taking active part in them, urging on the riots. I am glad to say that some few of them are taking part in the Red Cross work in relieving the suffering of those wounded in battle. Women, too, occupy places of influence in the government in Nanking. Once women's faces lacked all hope and ambition, and there are still great hosts of women who are the same drudges at home or—worse—in great factories. But among the younger generation they have ambition—ambition that carries them to extremes.

I'm glad to say that there are many modest, motherly women who have gone through our mission schools who are making nice, clean, beautiful Christian homes where the children are brought up well and taught to be good useful members of society, children of whom they and missions can be proud and thankful. One can not expect great things from a nation in which the people have been brought up for ages in filth, physical and moral; but a new generation is coming on, born anew in the church of Christ and in these clean Christian homes. We are expecting much for China from such.

Things are out of joint in China; but we hope and pray that the comely planted power of the Gospel and sense of better Chinese and the

will gradually overcome the criminal peace, prosperity, and a place among influences and that China will find the great nations of the world.

Yours in Christ's glad service,
(Rev.) H. G. C. Hallock.

Know Texas

Texas has 253 organized and one unorganized county—Loving.

For taxation purposes realty and personality are rendered on an average basis of 33 1-3 per cent. The approximately \$4,000,000,000 total represents more than \$12,000,000,000 in actual wealth.

Texas leads all the states in variety of bird life with nearly 600 different species.

As railroad building bonuses Texas gave 35,000,000 acres of its public domain—roughly the equivalent of 43 counties of the average size of 900 square miles.

EDUCATION BOARD MEETING IS CALLED

AUSTIN, Texas, Aug. 13—Gov. Dan Moody has called the new State Board of Education to meet in Austin Monday to transact any business that may arise and especially to comply with the textbook law which contemplates opening of bids on that date and the adoption of books on which contracts are expiring.

The new law repeals the old text book act, which provided for a commission of seven appointing and two ex officio members. The new law vests the enlarged board

of nine members with power to adopt the books and to create and receive the recommendations of a committee of five experienced educators to examine the books offered in competition. The board is not bound by the committee's recommendation. It will be expected to create the committee when it first meets, which may be before Monday, in order that the committee may proceed with an examination of the books and be prepared later to make its recommendations for adoption.

The law under which the board is to operate will not become effective until Oct. 1. The original act with the defective caption goes into effect Aug. 21.

HELPING TO BUILD TEXAS

A new export from Texas is a shipment of 35 cases of insects from the Uvalde region. The shipment weighed 7,000 lbs. and was valued at \$3,500 with transportation charges of nearly \$600. The insects will be liberated in the purpose of destroying the prickly pear, which cover millions of acres of Australian land with a growth so dense that small animals cannot get through. The shipments was the second from Texas to Australia. The insects will eat nothing but the prickly pear.

TEXANS LET'S TALK TEXAS

As Surely

as the DAY follows the NIGHT

West Texans! let's talk about the opportunities of West Texas, agriculturally, industrially and commercially—and as a wonderful place in which to live.

AS SURELY as the day follows the night, West Texas stands upon the threshold of an era of industrial development which will be as thrilling and as picturesque as has been the past history of this remarkable empire.

Sometimes the most worthwhile things are the least obvious. It seems to have been so in the case of West Texas. In the outset it seemed to many people that there was very little to recommend this section as one peculiarly fitted for the building of a great industrial area. Men were attracted to this section of Texas, however, whose vision was far reaching. They foresaw that West Texas was destined to become a great center of industrial activity.

Accordingly they instituted a program of foundational industrial work which required the greatest courage and fortitude to carry

forward. These men pioneered West Texas. Today their efforts are gloriously in evidence. On every hand the force of their determined optimism is felt. National recognition of the correctness of their forecast, made a quarter of a century ago, is daily being given. They have laid the foundation of a mighty empire.

This heritage they are tendering to a new generation, whose capacity for going forward with it is reflected in today's sound developments.

The Texas Electric Service Company has had a part in West Texas development. And this Company feels that it partakes fully of the spirit of West Texas, that it has an understanding of the needs of this territory which enables it to plan its future along the most constructive lines of helpfulness to this great wealth producing area.

Texas Electric Service Co.

The Silent Partner of Progress

McLAUREN ENTER-TAINS WITH BIRTHDAY PARTY

Waldo McLauren entertained yesterday afternoon with a birthday party in honor of her daughter. This was a lawn party and the guests enjoyed playing outdoor games every kind.

Guest brought a gift which she had prepared. Of all presents Modene is especially popular. Her German Police dog, Alfred, was very tired and the hostess served a very refreshing of starberrry and Angel Food cake to the guests.

McLAUREN ENTER-TAINS WITH BRIDGE

Miss Thelma Palmer was hostess to a number of friends on Tuesday evening. Tables of bridge were enjoyed throughout the evening after which delicious refreshments consisting of ice cream and cake were served to the following:

Messrs and Mmes. Sid Cathey, Ferrell Farrington, Marshall Whitsett, A. H. House, W. H. Crunk, Benson, C. A. Westmoreland, Guy Bradley, Messrs Robt. Johnson and J. W. Roberts, and Mrs. Edgar Ellis.

McLAUREN ENTER-TAINS WITH BRIDGE

Miss Thelma Palmer was hostess to a number of friends on Tuesday evening. Tables of bridge were enjoyed throughout the evening after which delicious refreshments consisting of ice cream and cake were served to the following:

Messrs and Mmes. Sid Cathey, Ferrell Farrington, Marshall Whitsett, A. H. House, W. H. Crunk, Benson, C. A. Westmoreland, Guy Bradley, Messrs Robt. Johnson and J. W. Roberts, and Mrs. Edgar Ellis.

McLAUREN ENTER-TAINS WITH BIRTHDAY PARTY

Everett entertained last afternoon in honor of her daughter Elmo's tenth birthday.

Guests were served with a very kind, after which delicious refreshments consisting of sandwiches, sodas and pop to the following:

Westmoreland entertained Wednesday afternoon in honor of her daughter Yvonne's 6th birthday. Each guest came with a gift which the children enjoyed opening.

Various games were played after which the children cut the birthday cake and the date refreshments consisting of Ice Cream and cake were served to the following guests:

Mary Luella, Helen June and Shan Louise Etter, Lena Mae Singleton, Gant, Elsie Bernice Etter, Billie Hope Shook, Mary Louise Singleton, Shirley Mae Cohn, Billie Cathey, Charles Cathey, William Edward Singleton, Sonny Roy Bowlin. Attractive favors were given consisting of dolls for the girls and balls for the boys.

MISS THELMA PALMER ENTERTAINS WITH BRIDGE

Miss Thelma Palmer was hostess to a number of friends on Tuesday evening. Tables of bridge were enjoyed throughout the evening after which delicious refreshments consisting of ice cream and cake were served to the following:

Messrs and Mmes. Sid Cathey, Ferrell Farrington, Marshall Whitsett, A. H. House, W. H. Crunk, Benson, C. A. Westmoreland, Guy Bradley, Messrs Robt. Johnson and J. W. Roberts, and Mrs. Edgar Ellis.

RETURNS FROM VISIT TO COAST

Mrs. E. D. Yeatts and sons Alfred, and Cecil and daughters, Gladys and Lois, are back from a visit to the coast.

They went the mountain road thru Ruidosa Springs, N. M., to El Paso and spent a few days with a daughter Mrs. Geo. D. Wade. While there they were sight seeing in Juarez, Mexico. Mrs. Wade and her little son, accompanied them to Palacios, Texas, "The City by the Sea," where they spent two enjoyable weeks with another daughter, Mrs. Abel H. Pierce.

They spent a greater part of their time fishing, swimming and boat riding.

HELPING TO BUILD TEXAS

The United States imports 80,000,000 pounds of dates and produces 1,000,000. Mesopotamia has a date palm that is "rain-resistant," meaning thereby that the date can have any amount of rain without hurt except at the one season of the year when the fruit is maturing, and the United States Department of Agriculture recently has imported 1,350 cuttings from rain-resistant trees. Most of these cuttings will go to the Weslaco Experiment Farm in an effort to develop on a commercial basis the date industry in the Rio Grande Valley. If the experiment succeeds, experts believe the Valley can produce dates profitably and on a large scale, and those interested are seeking a small appropriation to conduct the experimentation necessary.

Growing interest in the production of pecans is indicated by the number of "pecan schools" being held. Brady, county sea of McClulloch, held a successful school in May, with experts giving instruction in pecan grafting and budding and putting on a demonstration of the work. J. F. Roseborough, A. & M. horticultural expert, who is devoting a lot of time to this work, was in charge.

The Williamson County Sun reports the close of a successful campaign

for raising the \$10,000 capital required for a cheese factory at Georgetown.

The Floydada Creamery, operated by the Hale County Dairy Association, is shipping a car of butter a week. It is one of several owned and operated by the Association.

Preliminary plans are reported underway for piping Texas natural gas to Chicago, indicating the belief on the part of the promoters that the Panhandle gas supply is ample for many years.

"Made in Abilene" is the inscription on an electric locomotive just put into use by the Roby & Northern Railroad. It was built in the shops of the West Texas Utilities Co., and will make 50 miles an hour.

Wilson County expects to ship 550 carloads of watermelons before the season ends; shipments to July 15 were 474 cars.

The advice of an agricultural specialist is often instrumental in saving large sums of money to a community. In a community in South Carolina plans were being made to sell stock and organize a cheese factory. A careful survey by a specialist from the Bureau of Dairy Industry, U. S. Department of Agriculture, showed that a sufficient volume of milk and other necessary requirements for successful operation were lacking and upon his advice the project was abandoned. The cost of the building and equipment as planned would have been at least \$10,000.

There is no "cure-all" for all types of worms that infest poultry and other animals. Labels on vermifuges, or "worm expellers," must state the name of the worm or worms for which the preparations are to be used and the proper dosage (if the dosage is given) for the type, weight, size, and age of the animal for which they are recommended, according to a ruling of the Food, Drug, and Insecticide Administration, U. S. Department of Agriculture.

INCREASINGLY IMPORTANT

COLGE STATION, Aug. 3.—Crop rotation is becoming of increasing importance on many Texas farms, not only because of its value in producing larger yields but for various other practical reasons also. E. A. Miller, agronomist of the Extension Service, A. & M. College of Texas, pointed out in addressing the farm crops division of the Farmers Short Course here Monday. Advantages of a good rotation or cropping system, in addition to increased yields to the acre, were cited by Mr. Miller as follows: Aid in the control of insect pests and plant diseases, help in keeping down weeds, use of a legume or soil building crop such

as cowpeas, soy beans, sweet clover and the like and better distribution of labor on the farm.

Experiments by the Texas Agricultural Experiment Station at Temple showed big increases in acre yield and the largest net profits in the rotation of cotton, corn and oats, Mr. Miller said. "In this rotation," he added, "The average yields to the acre over a period of ten years were 276 pounds of lint cotton, 34.3 bushels of corn and 32 bushels of oats as contrasted with 142 pounds of lint cotton, 19.3 bushels of corn and 27.3 bushels of oats with continuous cropping. Every acre in the rotation made an average profit of \$15.96 whereas continuous cotton made only \$7.33 profit an acre."

A four year rotation of cotton, cowpeas, corn and oats at the main station at College Station, produced an average annual yield over a period of thirteen years of 223 pounds of lint cotton, while cotton planted on the same land year after year made only 182 pounds to the acre, the speaker said. The results of these and other experiments cited prove conclusively that a farmer can well afford to establish a good cropping system, he added in conclusion.

Subscriptions for stock in a \$200,000 milk plant are being received at Paris and those interested have met with much encouragement.

An aggressive campaign to attract colonists to East Texas from the States of the South and Southeast is planned by East Texas Chambers of Commerce, more than 50 of which were represented at a meeting at Naacogoches recently for the purpose of organization. It is proposed to make agricultural exhibits of East Texas products at State and county fairs in Mississippi, Alabama, Tennessee, Georgia, and the Carolinas this fall, under supervision of the East Texas Chamber of Commerce.

Mr. and Mrs. Sim Sparkman and family accompanied by Mrs. Rosa Merritt were called to the bedside of their mother and aunt, Mrs. Sparkman of Sweetwater.

Mr. and Mrs. C. L. Davis, grandson Ernest and nephew John Kaiser left Wednesday for Olney, Texas.

Mr. and Mrs. E. O. Stark spent last weekend in Quitaque visiting relatives.

Mr. and Mrs. W. P. Parker and children, Mr. and Mrs. A. M. Parker have returned from a three weeks visit to Mississippi.

BIG SPRINGS TO DEDICATE ITS 230 ACRE AIRPORT

On September 11-12, the city of Big Springs will dedicate its 230 acre airport which is equipped with two steel hangars, 80x100, 60x80, machine shop 40x60, five room administration building built of tile and stucco, telephone, telegraph, and restaurant accommodations and is lighted with broder, flood and beacon lights.

A program that will be an aid in furthering aviation in Texas has been planned by the general arrangement committee representing the American Legion, Chamber of Commerce, City Commission, County Commissioners, Kiwanis Club, Business Men's Club, Rotary Club, Lions Club and Retail Merchants' Association represented by E. E. Fabrenkamp, R. V. Middleton, C. S. Blomshild, H. O. Timmons, F. R. King, McCall Gary, and Joyce Fisher.

One of the unique features of entertainment will be a parade to be staged on the morning of the second day illustrating the evolution of the transportation industry from the primitive modes of travel to the present day, the parade to be ended with decorated floats and automobiles of practically every business firm of the city. The Pathe News service has signified its desire to be here and produce a movie production of the event. Approximately \$2,000 will be given in premiums for aeronautical maneuvers such as stunt flying, balloon bursting, wing walking, parachute jumping, dummy bomb dropping, sport landing, dead stick landing, and races, the races to include provision for ships of ninety horsepower or less and free for all.

Among the invitations issued to air celebrities and people of national reputation to be present and participate in the program are Col. Lindbergh, Miss Amelia Earhart, Miss Ruth Elder, Capt. Ira Eager, Gov. Moody, Senator Tom Connolly, Representative Penrose Metcalf, Mayor Thompson, Mayor Flores of Juarez and others. The U. S. Army will have planes here to participate in the program of the air according to statements issued from Washington. Free entertainment features are being planned for the occasion such as receptions, teas, dances, barbecues, etc., by Shine Phillips, Chairman of the Entertainment Committee.

LARGEST CROWD EXPECTED TO ASSEMBLE AT LAMESA

LAMESA—On Monday evening, August the 26th, it is expected one of the largest crowds ever to assemble in Lamesa will gather here in preparation of forming a Motorcade over the Dal Paso Overn Highway from here to the Carlsbad Caverns in New Mexico. All the Young People of the Church of Christ in West Texas have been invited to make this tour and participate in the program that has been arranged for this annual event. Bro. J. D. Boren, Minister of the Church of Christ here will be in charge of the Motorcade and their program. Outstanding Church of Christ Ministers including Bro. Batsell Baxter, President of Abilene Christian College, Bro. Fred Tidwell and his quartet will have charge of all the song services and many other outstanding Ministers will respond on the arranged program. Services will be held in the Caverns it is planned and entertainment here and at other points will be featured. The local Chamber of Commerce is participating in the reception of this Church Group here.

Lamesa has been chosen as a point of concentration because it is now known as "The Gateway to Carlsbad Caverns" and because it is located on the Dal Paso Overn Highway being only 150 miles from Carlsbad, New Mexico, it is said by those in charge of the tour. More than 1,000 Young People are expected to gather according to Boren in charge.

EDITH COMMUNITY COW GIVING 50 LBS. MILK DAILY

(From Lynn County News)

TAHOKA—Mr. Geo. C. Lindsey, of the Edith Community, claims the milk production Championship of Lynn county and to back up his claims he is weighing the milk from his cow each time she is milked and is having the milk tested once each month. The cow is giving more than fifty pounds of milk per day and it is testing from 4 per cent to 4.5 per cent. This means 175 and one fourth pounds of butterfat per day or a total of sixty pounds per month. At the present price of cream the 67 lbs. of butter fat will be worth \$26.00 and according to Mr. Lindsey's record it is only costing him about seven dollars to feed the cow, leaving a net profit of \$19.00 per month, and the skin milk valued at 50c per hundred is worth about \$6.50. Ten cows of this kind will make a man more than \$200.00 per month, and still we hear cries of "Fare's Relief."

GENERAL MOTORS IS HOST TO MANY DEALERS

Having achieved another epochal milestone—the sale in less than 8 months time of one million six cylinder automobiles—Chevrolet Motor Company last week played the part of gracious host to its entire sales supervisory force during a five day convention at Detroit.

All the regional and zone sales managers and their staffs, and the representatives in full force were in the Motor Capitol from Monday to Friday. Business was combined with entertainment in a program that kept the visitors occupied until they left for their respective posts.

Never before in the company's history were so many of its sales chiefs gathered together in the same place at the same time. The Chevrolet sales supervisory force is the largest in the industry, and when the last special train pulled into Detroit the total number of visitors was close to 2,000.

Because of the size of the delegation, the committee in charge divided the men into two groups, the sales managers' group and the representatives' group. Included in the former classification were the nine regional sales managers; zone sales managers from each of the 52 zones; zone sales promotion managers; city sales managers; accounting managers; the field assistant accounting managers; parts and service managers; used car managers; fleet managers and truck managers.

The representatives, whose function it is to contact Chevrolet's 11,000 dealers, were thus kept together throughout most of the convention in a single body.

The big day of the convention came on Wednesday when both groups were consolidated for an all day business program, presided over by H. J. Klingler, vice president and general sales manager.

Full cognizance was taken, and ample praise passed out to the visitors on their splendid work during the past two years and a half since the last National Convention, during which time Chevrolet has outsold every other manufacturer in the world.

W. S. Kundsens, Chevrolet's president, presided Wednesday evening at a banquet, which incidentally brought to Detroit the greatest assemblage of radio talent ever summoned there for an evening. When the millionth six cylinder Chevrolet was unveiled, enthusiasm broke forth so spontaneously that five minutes elapsed before the program could continue.

Other highlights of the convention were the separate trips of the two groups to the Flint assembly plant, which is one of Chevrolet's sixteen American plants, and to the General Motors Proving Ground. A lake ride on Friday concluded the gathering.

TAHOKA CHAMBER OF COMMERCE WILL CO-OPERATE WITH COUNTY FARMERS

(From Lynn County News)

The Board of Directors of the Tahoka Chamber of Commerce at their meeting last Monday decided that the organization would co-operate with the farmers of Lynn county in securing more and better Jersey cows this fall. It has been found that there are a great number of farmers who desire bulls, good grade and registered cows. The Chamber of Commerce Dairy Committee of which County Agent Ray Shaver is chairman will be glad to have anyone who is interested in securing dairy cattle get in touch with him.

It is the plan of the committee to take orders for whatever animals the farmer may want and get them of the best stock possible, and by buying in a greater number he will be able to save both on the stock and on the freight.

There is great need of several bull circles in Lynn County, and it is hoped that the people of this territory will see the need of such and will start this fall to building up the herds by placing among them only the best of bulls. The animals will not be bought until about the first of November, but anyone desiring to secure dairy animal about that time should get in touch with Mr. Shaver, and let him know about what you desire.

NEW MARK IS SET FOR CITY

Total Has Already Exceeded All Previous Building Records For Any Year in History

(From Lynn County News)

Building in Tahoka since January 1 has now reached a total of \$283,986.00, setting a record for this city over all previous years. Present indications are that before the year is over Tahoka will have expended at least a third of a million and possibly a half a million dollars for new buildings.

The new English Theatre and the improvements being made at Edwards and Lockhart gin are the two biggest items started recently. The gin is installing completely new equipment and making repairs and additions to the building at an approximate cost of \$25,000, according to Mr. Edwards; while the theatre building, exclusive of equipment, will cost \$30,000.

The Security State Bank is just completing a thorough renovation of their building at a cost of \$1,500, and the Robinson building was completed last week.

Other buildings erected this year in the business section are the two T. J. Bovell bricks, C. F. Shook's Carlos Courts tourist Camp, the West Texas Gas Company building, the W. L. Knight bakery and filling station building, the G. E. Jones building, and additions to the Craft and Hogan buildings. Thirty-seven residences have been erected at a cost of \$100,000.

The largest single item of improvement this year has been the installation of the sewer system, which cost \$60,000, including connections made by the company on private property.

Dr. L. E. Turrentine and Dr. Shook have started new work. The Turrentine home will be a veneer, and Shook's a station, are in the northwest part of town.

Students of the Industrial School inspected the Lake Upton plant of the West Texas Oil Co. during the day on the tour, which, according to the press release, was "in keeping with the line of work studied in classes the past year and will them a concrete knowledge of working of the plant."

"Runs Like a Top"

Man, it's a great feeling to hear that engine purr like a kitten with a saucer cream. I've just had the car repaired and overhauled at Rayburn Chevrolet Garage and it's the best investment I ever made. The old bus looks good enough for a parade and that motor works as smoothly as a new car.

48 hour service. Our experts will be glad to give you estimates in advance. Every job is guaranteed.

Mr. and Mrs. Roy Gibson, Mr. and Mrs. Mac Garner were Lubbock visitors last Sunday.

W. A. Wood of Morton, Mo. visiting Mr. J. H. B. Kyle and Estess, old acquaintances.

PERSONAL MENTION

Miss Allie Mae Hubbard of Hamlin is the guest of her brother, Mr. Cecil Hubbard and family.

TIRES VUNCANIZED at Foster's. Mr. Ben Moore and family have returned from a fishing trip along the Colorado River.

Mr. and Mrs. Claude Malone of Midland, spent last week-end in this city visiting relatives.

Miss Beulah Estes is spending the week with her parents, Mr. and Mrs. D. M. Estes of this city.

Miss Wilda Pippin of Haskell is the guest of Miss Erline, Irma and Lucia Mask of this city.

Mr. and Mrs. C. A. Rayburn and son, left Tuesday morning for the Cavern.

Miss Louise Miles, Hazel Burke, Eula Belle Miles, and Beulah Estes spent a few days in Big Springs visiting relatives and friends.

Mr. and Mrs. E. J. Brandon and family left Monday for Trenton, Texas, where they will visit their daughter, Mrs. Kaiser.

Mrs. Nola Ellis left Saturday for her home near Corpus. She was accompanied by her mother, Mrs. I. H. Parks of Draw.

TIRES VUNCANIZED at Foster's.

Mrs. W. H. Thornhill is spending the week in Fort Worth where she is buying fall stock and visiting relatives.

Editor J. W. Roberts and George Foster spent last week-end in Haskell, returning Sunday accompanied by Mrs. Roberts and daughter who have been visiting her parents, Dr. and Mrs. J. D. Smith, of that city.

Mr. and Mrs. Cecil Hubbard have as their guest of this week, Mr. Hubbard's sister, Miss Allie Mae Hubbard, of Hamlin.

R. V. O'Neal, who is connected with the R. J. Reynolds Tobacco Co., was a visitor in this city the first of the week.

Mr. and Mrs. Cecil Hubbard and family spent last week-end in Floydada, visiting relatives.

Mr. Eldon Hancock spent several days with his parents Mr. and Mrs. W. W. Hancock of this city.

Miss Roxie Hancock who has been visiting in Abilene returned home this week.

Mr. S. T. Price spent last week-end in Rotan visiting relatives.

Mr. Charles McConnell and family accompanied by Miss Leona Holman returned the first of the week from a two weeks visit in San Saba.

Mr. and Mrs. B. M. Haynes returned Tuesday from Knox, Haskell, and Baylor counties where they visited relatives and friends the past week-end. They report crop conditions in that section very poor as compared with the O'Donnell territory.

Miss Oleta Moore accompanied her grandparents, Mr. and Mrs. Baldrige from Clovis, N. M., to Abilene where they witnessed the presentation of Miss Cricket Baldrige's B. A. Degree diploma from A. C. C. on Tuesday afternoon. Miss Cricket is a former student of the O'Donnell schools. The party returned to O'Donnell Tuesday spending the night with Mr. and Mrs. Ben Moore, leaving Wednesday for their home in Clovis, N. M.

Establishment of a plant to handle by-products of that vegetable is being discussed following successful experiments with the growing of Jerusalem artichokes in Tarrant County. The artichoke is declared to be not only valuable stockfeed, but also for human foods and has some medicinal properties incident to its heavy content of lovelin usgar, believed to be helpful for diabetics. In Wisconsin is a plant producing artichoke chips, soups, etc. and the Texas plant would follow along those lines. The artichoke grows well in many parts of Texas.

South Texas, Inc., continuing its campaign for a \$200,000 fund with which to advertise that section of the State in the North and East, is getting a satisfactory response in \$2.00 contributions by which it plans to establish its fund.

O'Donnell Starts Annual Fair Work

Vernon Martin, Manager of Community Exposition, Return from A. & M. College to Start Plans.

Work on the community fair has begun by Vernon Martin, who has just returned from the A. & M. College of Texas, where he has been doing some special work in dairying and poultry. Mr. Martin, manager of the fair, together with the chamber of commerce, is putting on a program which will bring many dairy cattle into the country and will begin to push the poultry industry right away. The vocational agriculture work in O'Donnell has had the support of both the town and the country people since it was put into the school.

The demand for this work has been much greater than was anticipated at any time. Last year 38 enrolled in the course and in addition 33 were enrolled in a day unit course consisted of dairying as the chief enterprise, the improving of livestock and plants, feeding and retaining and maintaining of soil fertility.

50 Projects Undertaken
More than fifty projects were carried on during the year, judging teams went sent to the Panhandle Plains dairy show at Plainview, the vocational judging contests held at Texas Tech, and the state contests at A. & M. college. During the year Mr. Martin has made general trips to other parts of the state to locate dairy cows and bulls for the farmers of Lynn and Dawson counties, and has vaccinated about 500 cows against hemorrhagic septicemia which broke out during the year. A much larger number are expected to enroll for the course in September and the department will be overcrowded which is exceptional for the second year.

FOUND UNCONSCIOUS

BIG LAKE, Aug. 15.—Mr. and Mrs. W. H. Schooler and their one-year-old baby were injured near here last night when their automobile which was found in a pasture left the highway. All three were unconscious when passerby saw their machine off the road. The Schoolers reside in Big Lake.

NOVEMBER 7-8 IS DATE OF TEACHER'S INSTITUTE

(From Lynn County News)
The Lynn County Teachers' Institute will be held in Tahoka again this year at the High School building and the date has been set for Thursday and Friday, November 7 and 8th. This decision was reached at a meeting of the Lynn County School Board held in County Superintendent H. P. Caveness' office Tuesday afternoon.

The program will be worked out at a later date by Mr. Caveness and the superintendents and principals of the various schools.

TEXAS FARMERS ARE LOSING MILLIONS BY POOR SEED

COLLEGE STATION, Texas, Aug. 8.—"It cost Texas farmers millions of dollars annually to plant continually gin run or mongrelized cotton seed of many varieties, and such a practice is a mark of backward state in the cotton industry," according to E. A. Miller, Extension Service Agronomist, who told of the advantages of community cotton standardization before the farm crops section of the Farmers Short Course at the A. & M. College of Texas. "By growing many varieties the seed mixes at the gin and soon runs out, and even good seed is ruined in a few seasons," he said. "Spinners find much waste in spinning the uneven fibre that comes from mixed seed and are finding difficulty in locating large supplies of even running cotton. One variety communities have the opportunity of producing uniform cotton for which a special market may be obtained. The slowness of farmers to get together by communities on one variety is largely due to the 'hog round' buying system that buys on grade alone and ignores staple lengths.

"A start has been made on standardization of cotton in Texas, however, with forty county agents reporting 115 communities on such a basis this year. A survey last season showed that where such cotton was pooled or sold through a marketing organization it brought an average premium of \$6.85 per bale." The premium is only one of several advantages of community standardization, according to Mr.

Miller, who gives other advantages as follows. "It increases yields to the acre, reduces cost of production a pound of cotton, eliminates gin cut cotton, prevents planting of bales with inferior cotton, and gives a higher net profit an acre, often amounting to as much as 25 percent.

TRUSTEES MET HERE TUESDAY

Seventy-Five School Men Hear Lee Hensley of State Department of Education

(From Lynn County News)
Lee Hensley, Austin, rural school supervisor from the Department of Education was principal speaker at a meeting of Lynn County school trustees held in the county court room Tuesday. About 75 trustees were present.

Mr. Hensley spoke on questions of interest to trustees in rural schools and especially dealt with the new school laws passed by the recent legislature. County Superintendent H. P. Caveness and G. S. Dowell, secretary of the O'Donnell Chamber of Commerce, also made talks dealing with the advancement of rural school work in this county.

Due to the raise in the apportionment from \$15 to \$17 this year, every school in the county with the exception of two will have either an eight or nine month term this coming school year. Mr. Caveness states. Three Lakes, Dixie, Newmoore, Lakeview, Morgan, West Point, New Home, and possibly other districts will have nine month terms. The two latter schools had nine month terms last year. The raise in apportionment means that schools of the county will get over \$7,500 more this year than they would have otherwise received.

Trustees were present at the meeting from Newmoore, Walls, Three Lakes, T-Bar, O'Donnell, Joe Bailey, Draw, Redwine, Edith, Gordon, Dixie and Joe Stokes.

Mr. and Mrs. A. A. Tyler and family have returned from a visit to Carlsbad Caverns, El Paso and other interesting points in New Mexico.

Mr. and Mrs. C. H. Doak are planning to leave next Monday for the Ozark mountains. They will be accompanied by their nephew and niece Mr. and Mrs. Bill Doak of Snyder.
