Pistols In Texas

Law Cited On Sale Of

Following is the report of the Lynn County Grand Jury concern-

Merchants are advised that strict

compliance with all requirements of the law concerning dealers will

be demanded. Article 489 a of the Penal Code provides that no per-son may purchase a pistol unless he

has secured a certificate of good character from a Justice of the Peace, County Judge or District Judge in the county of his or her residence. Strict adherence to this requirement will be expected.

Merchants are advised to familiar

ize themselves with certain pro-

visions concerning the licensing of

dealers in pistols and records re-

quired by law.

Due to the good crop prospects,

a great influx of people is expected in our county this fall and the Grand

Jury respectfully solicits the cooperation of all merchants and cit-

izens in regard to this matter and

expects to continue its investigation

of this matter at its next meeting. Attention is also directed to a new act by the legislature making it unlawful to carry certain types of knives in addition to others al-

ready prohibited. Wilbur Smith, Foreman of the

A new, easy, low-cost way to fatten hogs-**Purina Pig Parlors**

Purina Pig Parlors are designed to hold 50 feeder pigs, of 40 to 70 lbs., until they reach market weight. Parlors consist of a sloping concrete floor, fencing, a roof, three automatic waterers and a 10 to 16 hole self-feeder. That's all! Can be built for about \$400. Has many advantages over other feeding methods:

- 1. Easy to operate-little
- 2. Easy to keep records.
- 3. Small investment.
- 4. Fast turnover of

This is the modern way to raise hogs. You buy your hogs, put 'em in the Parlor, give 'em plenty of a good Purina ration and fresh water-then stand back and WATCH 'EM GROW! Almost before you know it you'll have a trailer load of sleek, fat hogs ready for market.

5. Regular cash crop.

6. High daily gains.

7. Few disease problems.

8. Produces a quality hog

fast-and at low cost.

On a \$17 hog market you should make from \$5 to \$8 per hog on the Purina Plan.

COME SEE US. Let us tell you more about Purina Pig Parlors. We have plans to show you how to build your parlor step-by-step. We can help you in locating pigs at the right price, too. Be among the first in this community to have Purina Pig Parlors.

CLARY POULTRY AND EGG AT NORTH "Y" IN O'DONNELL

GOT SOFT SPOTS IN THE HEAD?

One of our most important public health enemies in America today is tooth decay, a virtually incurable chronic disease which must be prevented if it is to be conquered at all. The ailment is so widespread that it involves 95 of every 100 persons and is still increasing.

It is estimated that there are now one billion cavities in the mouths of Americans, mostly childern of elementary school age. And for every cavity a dentist fills, six are left unfilled becouse of failure to visit a dentist.

Dental authorities say the situa-tion is now so acute that at its present rate of increase, within 10 years decay will have turned us into a nation of dental cripples.

Childern develop cavities at about the same ratio as do adults--approx-imately one per child per year. But whereas one-third of the adult need for fillings is being met, only one-fifth of the cavities in childern's teeth are being repaired.

Perhaps the reason is that so many parents still cling to the totally false notion that so-called "baby" teeth are unimportant becouse they are temporary. The frequent result is that good dental health for children is still a relative scarce commodity.

There is one positive step all parents can take to avoid a fate of toothlessness among their childern. It's a simple step, requiring only that the youngsters be taken to a dentist for tooth and gum inspection before being enrolled in school each fall.

The dentist will follow a careful routine in making the inspection. He will painlessly probe all tooth sur-faces, looking for signs of impending trouble. Using an ingeniously simple little mirror, he can check even the most difficult-to-get-to-carners, rethe name given to incrusted salivary mucous and food residue.

If spots of decay

If spots of decay are found, he will remove it and fill the cavity with a materal called "amalgam," a combination of mercury and bits of Or prehaps he will choose a porcelain cement, also in use as a filling materal.

Before the visit is concluded the dentist will have tutored the youngster in good dental hygine at homesuch things as when and how to brush his teeth, and how to make an excellent dentifrice from baking soda

When enough childern have received such instruction, and are encouraged by parent to follow them, we will be well on the way toward avoidingthe fate predicted for us: that within a decade we will be a nation of dental cripples.

Stock Up on Right-Sized Bulbs Today!

Light up for the longer evenings ahead! Get enough new bulbs to fill all your empty sockets . . . plus an extra carton or two to keep on hand for spares.

For easy seeing, make sure the bulbs you buy are the right size for their intended use. Bulbs that are too

small may result in eye fatigue, as well as dim and cheerless places in your home.

The list below shows recommended bulb sizes for some of the most commonly used lamps and fixtures. It's your guide to better light ... with the right bulb in the right place.

	150
Table and end table lamps	150 watt
Floor lamps	300 watt
Kitchen ceiling fixture	150 watt
Multiple socket ceiling fixtures (per socket)60 or 75 watt
Pin-to-wall lamps	100 or 150 watt
Vanity lamps	100 watt

For three-way lamps, use the following bulb sizes: Floor lamps, 100-200-300 watt three-light; table and end table lamps, 50-100-150 watt or 30-200-230 watt three-light; vanity lamps, 30-70-100 watt three-light; wall lamps, 50-100-150 watt three-

ECONOMY RUN PROVES IT-CHEVY COSTS

LESS TO DRIVE!

COAST-TO-COAST

Test run from Los Angeles to New York by the three leading low-priced cars showed Chevrolet costs less to operate, with up to 17% greater fuel economy!

When fuel and operating costs for cars are officially checked from Los Angeles to New York, that's an economy comparison! And what happened?

In certified NATA* findings, Chevy delivered up to 17% greater fuel economy, and lower total cost for the trip-proof that Chevrolet costs least to operate of the three leading lowpriced cars that were tested! But that's not surprising. You expect Chevrolet engines to wring extra miles out of a gallon of gas-just as you expect finer craftsmanship in the way a Chevy is built.
