Changes Made In S. S. Law

Hutton, manager of the Lubbock Social Security office, said today. The new law makes the following

1. Men ow have an option of retiring at age 62 with lower binefits or of waiting until age 65 and coll-ecting higher benefits.

2. Widows' benefits are increased by about 10 percent.
3. Minimum benefits are raised

4. The amount of work under social security needed to get benefits is lowered.

 People who receive only part of their benefits for a year because they earn over \$1200 will have a smaller amount deducted 6. Social security taxes go up slightly beginning Jan. 1, 1962. Under the new provisions, men

can begin collecting benefits at age 62 if they choose just as women have been able to do since 1956. But workers who decide to take benefits before they are 65 will get less per month than they would if they waited until age 65, Hutton said The sooner a worker takes his

benefits after age 62 the greater the reduction in his benefits will be. However the reductions are figured so that on the average people may expect to receive about the same amount if they get reduced benefits beginning before age 65 or wait until they reach 65 and collect higher monthly amounts based on a normal life expectancy.

The new amendments raise the aged widow's benefit from the pre-

ent surviving.
minimum old age, survivors and

disability insusance benefits is due beginning with the benefit check for the month of August. The pre-

he reaches 65 (62 for women) This means that a man who reach ed 65 or a woman who reached 62 before 1958 will need credit for only and James attended a raminy to union for two days at Sweetwater. This was a gathering of Mrs. Gibbotts and has S. to qualify for retirement benefits. son's family, the Subletts, and has been an annual affair for about 40 Widows over age 62 (or with minor children) of workers who died in 1958 or later and who were not eligible for benefits before this change may now be eligible. These people

should inquire at their nearest social security office soon. Under both the old and the new law, a beneficiary can earn \$1200 a year and receive all of his monthly social security benefits. Under the new law, \$1 is withheld for each \$2 earned from \$200 to \$1700 and then \$1 for each \$1 earned over \$1700. Thus under the nev law only \$250 in benefits is deduct ed when the beneficiary earns \$1700

during the year.

To help finance the changes, the amendments call for an increase in social security taxes beginning Jan. 1, 1962. Employees and employers will each pay an additional one eighth of one perceot on earnings up to \$4800 a year — a total of three and one eighth percent in S. S. taxes. Self employer persons will pay 4.7 percent on net earnings up to \$4800 a year, instead of the former 4.5 percent rate

A representative of the Lubbock Social Security office will be in O' Donnell on Wednesday, July 26 in the Elementary School at 2 p. m. and will be glad to assist in all matters pertaining to S. S.

O'Donnell Bargain Store

The opening of the special session was accompanied by another blast from Governor Daniel about the "power of lobbists" in Austin.

He fears, according to his state-ment, that if lobbyists " have more influence for their selfish interests at the state level than in Washington, then this will lead to more national control and taxes will be centered more and more at the federal level."

Many here in Austin are wondering why the blast from the Govern-or at this particular time did not include more on the sales tax issue, a favorite topic of hi smany tele-vision and newspaper interviews in past months. Legislators, comparing notes on the "lobby problem" described by the Governor, have come up with these observations.

1. Regardless of how many lobbyists "flock into Austin" it is al-ways going to be up to the individual legislator to manage himself and his office to keep from being interfered with by lobbyists. Most legis ators agree that if lobbyists have the ability to create such confusion in any legislator's work, then that legislator is not very efficient in managing his office. Any legis-lator who is rendered inefficient by lobbyists is not worth his salt any

way.
2. The governor was apparently confidently when he approved the lobby registration legislation which we passed during the 56th Legis-lature that this legislation requiring lobbyists to register, would con-stitute proper regulation.

3. There may be, say Legislators, some weaknesses in the lobby registration laws just passed. If there are weaknesses, they need to be straightened out. But it needs to be done in an intelligent, legislative manner and not thru scare publicity. Gov. Daniel wants the law strtngthened to require lobbyists to report all their expenditures, includ ing living costs away from travel to and from Austin, office expense and other personal costs. That's all right with most legislators I know, brt how is this going to change anything?

Congratulations to Coach Mrs. James D. Thompson on arrival of a fine son born July 17 at Meth-odist hospital weighing 7 lb 4 og.

NOW'S THE TIME to save more truck dollars on the more-for-your-dollar trucks!

Your truck dollars are worth a whole lot more at your Chevrolet dealer's right now! First off, you get a head start on saving because summer's the saving season. Then, with a harder working, easier riding Chevy truck, you're set to save every mile you haul. And, finally, at trade-in time, you can expect an extra dividend because of Chevy's traditionally higher resale value. What could be better?

Summer's the season to get extra mileage from your dollars on the trucks built to give you extra miles of hauling. With Independent Front Suspension, Chevrolet trucks keep going thousands of miles longer because far less destructive jar and shake are transmitted through the truck. Chevy I.F.S. trucks work harder, too, in areas where other trucks have to be pampered. And, with Chevy's wide choice of thrifty 6 and hardy V8 power, you can tailor your truck exactly to your job. So how can you miss-especially now during the summer saving season?

ROVER'S LAST ROMP ----000-

Rover, a Great Dane 135 pounds, was owned by the peo-ple down the street. One evening Rover entered Mr. Brown's yard and savagely attacked his 35 pound Cocker Spaniel, It looked as if Rover was about to kill the smaller dog when a quick thinking neighbor frightened the larger dog away by firing a shotgun in the air. Mr. Brown put his badly injured

dog in the car to rush him to the veterinarian's office. He had just left his driveway when he noticed Rover heading toward a small child. Thinking that the dog was about to attack the child, Brown drove his car into Rover, killing

Rover had been an expensive dog and his owner sued Brown for damages for what he claimed was the wrongful killing of his pet. Did Mr. Brown have the right to

kill Rover? Yes, he did. The court held that a person can kill a dog for the purpose of defending himself or third person against harm threatened by the animal Rover's actions led Mr Brown to know, or reasonably be-lieve, that he could prevent an at-tark on the child only by killing the

dog.

Brown also could have legally kill ed Rover at the time that he was attacking his dog. A landowner has no right to kill a dog which is mere ly trespassing or even because it is engaged in a fight with his dog. However, if it reasonably appears that it is necessary to kill another death protect your dog from death. dog to protect your dog from death or serious harm, or to protect your-

self, your property or other persons from harm, then you may legally kill the dog.

The law will not permit you to kill a dog simply because you do not like its bark. Remember, a dog to still man's best friend. is still man's best friend.

I.R.S. REFUNDS BEING MADE

In response to recent inquiries District Director of Internal Revenue Ellis Campbell, Jr said this week there are a few individual income tax refunds still to be made to Dallas District taxpayers. Mr. Campbell said the vast majority of ie funds foi overpayment of 1960 income tax have already been sent to taxpayers.. He explained that some returns that show large refunds due and contain indications of error are audited before the refunds are made. This avoids the cost and inconvenience both to the taxpayer and the service resulting from refunding tax and then facing the possibility of collecting all or part of it back from the taxpayer. He said the proirity schedules are being met in this district for completing these audits and mailing tax refunds. He said that taxpayers who have been concerned about not having received their refunds can feel

a little better since IAS pays 6 pescent interest on refunds scheduled after June 1st. ,

Spiderweb Business **Proves Profitable** In California Town

YUCAIPA. Calif.-Such precision devices as gunsights, astro-nomical instruments and survey nstruments require crossed hairs." Mrs. Nan Songer supplies spider webs with which the "hairs"

Her business goes back to her childhood when, because of her frail health, her parents encouraged her to be out-of-doors as much as possible. She became interested in insect life-first moths and butterflies, then crickets, and

By 1939, when \$7, she had been experimenting with extracting the silken web from spiders for several years. The government was inquiring whether the web would be produced commercially.

Muman hairs had been utilized for years in gunsights, bombsights and periscopes, but were susceptfble to extreme temperatures. They contracted and broke in the subzero cold of the stratosphere-and sagged in high temperatures. An extremely fine, sturdy and elastic strand was needed-and the spider web was the answer.

Using fine needles, Mrs. Songer draws the silk from one of the spider's spinnerets and reels it on metal frame for shipment.

Half way measures will be adequate only if you double the dose

Pessimists are just average people who can't kid themselves. The head of the house may be a big gun at the office but at home he's just a pop gun.

There are substitutes in lines but none for practice. Many a youngster gets behind the eight ball by taking the wrong cue from his elders.

Kind words never die - they just become victims of ingratitude.

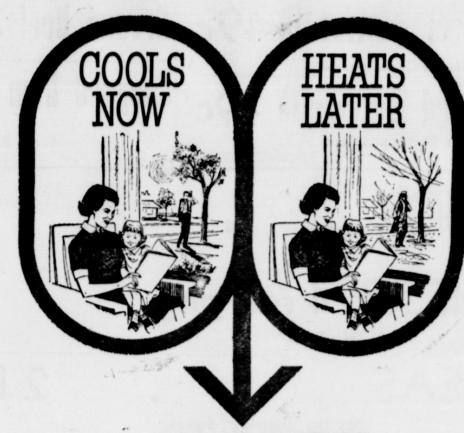

Don't impede progress — if you must kick, kick toward the goal. When it comes to home rule dad

Religion is a must for those who expect to make a happy landing. The only thing mother needs to save for a rainy day is patience. may be the chief executive but mother is usually speaker of the

Don't make the mistake of being afraid you'll make one.

Theories are worthless until they are harnessed to industry.

A good look at the family budget reduces the vacation fever.

THE ALL ELECTRIC HEAT PUMP

DOES BOTH JOBS AUTOMATICALLY ... WITH ONE SETTING OF THE THERMOSTATIC CONTROLS

Year-round indoor climate control is completely automatic with the All-Electric Heat Pump. The same central system unit that cools your home in summer also heats it in winter, using only air and electricity. In hot weather, the Heat Pump extracts heat from indoor air and pumps it outside. In cold weather, the Heat Pump automatically reverses itself. It extracts heat from outdoor air (even when it's below freezing) and pumps it into your home. And during changeable weather, the Heat Pump switches automatically from cooling to heating or back again, as needed, to maintain the temperature you like best. You just set the thermostatic controls once and enjoy perfect comfort the year round. See your air conditioning contractor soon . . . or call Texas Electric Service Company for complete information.

CASUAL TOWN We have here a town, et's not give it a name.

It's not to be pitied, It's not to be blamed

It's a casual town, Not huge nor tiny.

It's not so dirty, Yet it's not so shiny.

It's casual beauty makes no one

It's buildings grow older,

It's streets need repair.

It's population grows at a very

It never does hurry and it never

No one robs and no one kills, No one ever pays their bills.

No one cares and no one worries And as I said, no one hurries. This town has pride,

Yes, people of O'Donnell, You're sitting in it.

No one can dent it.

(Ed note — one of the refreshing things this summer has been to know and love 14 year old Tim Freer, a friend of our younger son. He is a grandson of Mr and Mrs. W R. Gibson. One day at the Index of-fice we teased him about writing a ditty about Big O. In a few minutes he has written "Casual Town" — a poem of haunting truth. Mark us Tim has a great literary future)
