

Wet Dry Goods Robbed Early Monday Morning

E. Guye Dry Goods Store burglarized early Monday morning. Merchandise valued at \$1,000. The loot consisted of men's shoes, boots and hats, trunks and suit cases and ladies gloves and purses. The thieves succeeded in getting the bar from its position and held the doors secure. B. J. Guye, night watchman made his rounds at fifteen minutes before five and everything was in order. Guye opened the store for about 7:30 o'clock. The doors were found standing open. Boxes were scattered over the floor. The loot was evidently taken away in a car or truck. It is assumed that the thieves were Mr. Parker make his last round to the business houses and go home to the dirty work was begun. The robbery was promptly notified and was being at work on the case to the time of going to press has been made. This is the first robbery of any consequence here this fall and winter.

Wrestling Idol to Real Test Jan. 17

Black Gaston, local wrestling idol, will get a real test when he battles Hammerlock John of Borger, Tex., in a finish match for the best of three falls in 6 o'clock on Monday night, January 17. Under the wrestling match will be under the auspices of the O'Donnell high school and will begin promptly at 8 o'clock in the Curtis building on the corner. The high school will get fifty per cent of the proceeds, and the other fifty per cent will be divided on a fifty-fifty basis between the two combatants. The preliminary will be paid by the wrestlers. They are getting up a real card. Clyde Ash has been selected to referee the match, and all is capable, and the boys will work or get of the ring. He will not tolerate playing off. Black Gaston has won an advertisement in this section by his honest to goodness. He has been thrown into the ring by the so-called carnival promoters. Almost making some of the boys by his dashing speed. Black John is a real wrestler and has been one time thought to be the best of the middleweight class. He knows all the slaps and punches and promises to give our fans plenty of action. The boys weigh about the same. Black Gaston weighs 171 and Hammerlock John weighs 169.

MRS J. T. COFFETT PASSES AWAY SUNDAY MORNING

Mrs. J. T. Coffett, age 64, passed away at the family home on last Sunday morning at 9 A. M. Mrs. Coffett had been a resident of O'Donnell for the past two years, coming here from Johnson county where she has resided the past 32 years. She was a devoted member of the church of Christ having professed religion at the age of eight years. The deceased is survived by her husband, J. T. Coffett, three sons, and two daughters. Funeral services were conducted by Rev. J. C. Eubanks of Tahoka.

REWARD IS OFFERED FOR LONG LOST YOUNG COYOTE

Naymon Everett of the Everett Barber Shop is offering a reward for the return of his pet coyote which disappeared some time last week. The coyote is now about half grown and has been Mr. Everett's possession since a mere pup. He asks that the finder assist him in locating the pet and is willing to pay a liberal reward.

D. J. Bolch Announces For Public Weigher

The Index is authorized this week to announce the candidacy of Mr. D. J. Bolch for the office of Public Weigher of Precinct No. 4 subject to the action of the Democratic primary. Mr. Bolch has the following to say regarding his candidacy. "Assuring my many friends who so loyally supported me four years ago, in my race for Public Weigher that I have not forgotten to be thankful and appreciative. I am again announcing for the place hoping for their support as before, and for that of others who may know me better now than four years ago. "If elected, I promise to do my best to serve all alike, faithfully and fairly."

D. J. BOLCH.

Truett B. Smith Announces For Clerk

Truett B. Smith has authorized the Index to announce his candidacy for re-election to the office of County Clerk of Lynn county subject to the action of the Democratic primary in July. Mr. Smith is now serving his first term as clerk of Lynn county and has made for himself an enviable record, one that will justify the old Democratic custom, that of a second term. He has handled the affairs of the office in a very satisfactory manner and is very pleasing and accommodating to the public.

Mr. Smith will try and see every voter between now and the coming primary and present his claims personally. We ask that you give his candidacy due consideration before casting your ballot in the coming primary.

Daw Lynn Dairy Leased to Parties this Week

Messrs. Lewis Prather of west of town and Plsby Ponder of Fort Worth, Texas have leased the Daw Lynn Dairy from C. L. Tomlinson. The lease was completed and possession taken on Monday of this week. The lessees are experienced dairy men and will continue to serve the patrons with that good service the Daw Lynn has been noted for in the past. The new managers will handle both buttermilk, sweetmilk, butter, cream and other dairy products. Announcement will probably be made within the next few days.

Mr. Tomlinson has not made known his plans for the future.

Cumberland Presbyterians To Build Soon

Rev. Walter C. Parr who has only recently organized a Cumberland Presbyterian church here, announced Sunday during services that a new church building would be built within the very near future.

A committee was appointed Sunday for the purpose of securing a location and looking after other necessary details. Rev. Parr stated that plans were already being drawn which would be made public soon. The plans will call for a brick veneer building 50x70 feet with a splendid auditorium and ample room for Sunday school classes.

Rev. Parr is very much encouraged over the future prospects in O'Donnell, having started from the ground a few months ago in the increasing congregation.

Work will start on the new building just as soon as the necessary details can be worked out and the new location secured. Plans have already been discussed regarding a full time preacher and it is expected that within the next few weeks a full time man will be on the field.

Rev. Parr's next visit here will be on the fourth Sunday in January.

O'Donnell and South Plains Clothed In Winter Dress

The continuous fair weather since the holidays was interrupted Tuesday morning when Old Man Winter came down out of the north sending the thermometer down in quick order. Long before noon the thermometer was below the freezing point and late in the afternoon a slow mist began, freezing as it fell and by the time the curtain of night was drawn the country was covered in a sheet of ice. By midnight the thermometer dropped to the low mark of 18 degrees according to local weather prophets. Sleet fell throughout most of the day Wednesday and just as we go to press late Wednesday afternoon there is little indication of a let up.

Framers in this territory are hoping the moisture will be sufficient for early spring plowing.

T. W. (Will) Brown For Tax Assessor

In coming to you the second time and asking you for the office of Tax Assessor, I do this with a feeling of gratefulness for you for the support you gave me two years ago. Although I was defeated, no one has heard one complaint and should I go down in defeat again, I want it to be with the very best of feeling toward everyone. I tried two years ago to make a complete canvass of the county and to meet you all. Of course, I missed some of you, but it wasn't because I didn't try. This year I want to meet as many of you as I can. But owing to circumstances over which I have no control I will not be able to make a house to house canvass of the county and I hope you will not hold that against me. I have been in Dawson and Lynn counties for twenty-seven years. I want to ask each and every one of you for a fair consideration and if you believe me worthy of this office, I will appreciate your vote and influence in July. And if elected I will try to show you my appreciation by giving you the very best services that is in my power to give.

Thanking you in advance for any favors you may show me in this campaign, I am,
Yours for Tax Assessor,
T. W. (WILL) BROWN.

Secretaries To Save Money for W. T. C. C.

Special to the Index:

BIG SPRING, Jan. 8.—Secretaries for local chambers of commerce in West Texas will do a \$60,000 job for the West Texas Chamber of Commerce, according to plans outlined today at a meeting of the advisory committee to the regional chamber manager.

The chief business discussed was an economic survey of West Texas, compiled through local chambers, a task that would cost approximately \$60,000 if done under contract, according to Manager D. A. Bandeen.

Eight of the 10 members of the advisory committee were present. O. V. Vernon of Amrillo, Maury Hopkins, Plainview; C. T. Watson, Big Spring; Monte Owen, Sweetwater; Carl Blasing, Brady; Claude Wild, San Angelo; Victor Minter, Carlsbad, N. M. and A. F. Hamilton, Alpine.

Vocational Class of High School Have Been Organized

The F. F. T. which means the "Future Farmers of Texas" is a state as well as a national organization of agriculture students.

The following were elected officers of the chapter.

Grey Cook, president; Jake Burkett, vice president; Warren Smith, secretary; Benton Payne, treasurer; J. J. Dan Goddard, reporter; and L. J. Hohn, Woodrow Ables, Allen Yandell, executive committee.

The following is a list of objectives set up for 1930.

Help put on community fair. Each member starting a saving account. Promote the buying of pure bred seed. Meet and have a program each month. Go on a fishing and camping trip. Entertain high school in chapel. Have a father and son banquet. Send as many judging teams as possible to an A. & M. College, contest and have at least one team represented at the Plainview Dairy show, and Texas Tech contests.

The chapter gives an invitation to all the parents and others that might be interested in attending the regular meetings.

Fire Boys Hold Annual Banquet Tues. Night

The spacious dining room of the McClung Hotel was the scene of the local fire boys annual banquet on Tuesday night of this week. The decorations were beautiful in red and gold carrying out the colors of the fire department. Turkey and dressing with all necessary trimmings were used to appease the appetite of the thirty nine present which included eleven members of the fire department, their wives, the City Council and a few business men and their wives.

The newly elected Chief Cecil Hubbard acted as toastmaster and is reported to have made a very enthusiastic speech displaying his ability as an orator. Rev. C. A. Duncan was the principal speaker of the evening and spoke at length in the interest of the fire boys. Talks were also made by each member of the city council and Mr. M. J. Whitsett.

Despite the blizzard that was howling furiously from the north all present enjoyed the occasion and pronounced the fire boys splendid entertainers as well as fire fighters.

A. I. Thomas Makes His Announcement

The name of A. I. Thomas appears in our announcement column this week as a candidate for tax assessor of Lynn county. This is the first time that Mr. Thomas has offered for the office of any kind since he has been in Lynn county.

He came to Lynn county in 1907, twenty-two years ago, when this was strictly a cow country and with the exception of a short interval several years ago he has resided in the county ever since. Only a few of our citizens of today were here when Mr. Thomas came to the county. Among these were the Wells family, Elton George, W. A. Waller, J. B. Miles, J. V. Dyer, G. W. Small, W. B. Slaton, A. R. McGonagill, W. S. Swan, W. L. Tunnell, George Vaughn and a few others. There were two drug stores here then and Mr. Thomas purchased one of them and set up business for himself. His brothers, C. A. and W. O. Thomas, also had an interest in the business but they were not here at this time. This was the beginning of the big business now operated by Thomas Bros. Drug Co., but Mr. A. I. Thomas has not had any financial interest in this business for a number of years.

As a business man, Mr. Thomas has had much experience in bookkeeping and clerical work and is thoroughly competent to fill the position which he seeks. Having resided in the county so long he knows the property values of the county like a book which is an important consideration in the election of an assessor.

Mr. Thomas is a man of the strictest integrity and enjoys the confidence of all who know him. He has many friends throughout the county who will doubtless give him their enthusiastic support.

He will make an active canvass of the county and will attempt to see all voters personally before the July primaries. He assures the voters in the beginning that he will appreciate their assistance during the campaign and on election day.

T. H. MOORE'S BROTHER DIED IN STAMFORD

Mr. and Mrs. T. H. Moore west of town returned Friday of last week from Stamford where they had been visiting relatives for the past three weeks, going down before the Christmas holidays. Their Christmas was saddened by the death of Mr. Moore's brother, Bill Moore, age 26, of Stamford who died on Christmas day. Death resulted from an old wound received several years ago when he fell striking the back of his head on a piece of steel.

The deceased was engaged in the rent car business in Stamford where he has many friends who are deeply grieved by his passing. He is survived by his parents, Mr. and Mrs. W. P. Moore of Stamford and two brothers and one sister, all of Stamford except T. H. Moore who lives west of town. Interment was made in the Stamford cemetery.

MORRIS DAVIS ACCEPTS POSITION WITH THE WHITSETT DRUG CO.

Morris Davis of Post, Texas has accepted a position with the Whitsett Drug Co. of this city, beginning his duties on Saturday of last week. Mr. Davis comes to O'Donnell highly recommended as a splendid young business man. He has attended the Danforth School of Pharmacy at Fort Worth and is expected to pass the examination before the State Board of Pharmacy some time this month. He will be pleased to meet you—girls included, as we understand he is unmarried and has a pleasing disposition.

According to information given out by Postmaster Hal Singleton, Sr., the new bus line mail service will be inaugurated some time this week. Some delay has been caused due to the holiday rush, but Mr. Singleton states that everything is getting back to normal and that the new service will be put into effect one day this week. The new service will enable O'Donnell people to answer all mail received in the afternoon which will be carried by the bus lines, making connection at Lamesa for Big Spring, Fort Worth and Dallas and other points.

The new service will enable O'Donnell people to answer all mail received in the afternoon which will be carried by the bus lines, making connection at Lamesa for Big Spring, Fort Worth and Dallas and other points.

Bill To Refund Cotton Losses Is Introduced

Special to the Index:

WASHINGTON, Jan. 8.—Representative Jones today introduced a bill authorizing the Federal government to appropriate \$300,000 for reimbursement of losses sustained by cotton farmers in Dawson, Ector, Midland, Howard, Martin and Glasscock counties, comprising the regulated zone once there by discovery of pink boll worms three years ago. It is contemplated that the state of Texas will appropriate a like sum, which, it is estimated, would cover losses for the two years.

The Federal government last year made an appropriation to cover losses due to establishment of a non-cotton zone. This, however, never was established, since, under the Jones amendment, the government provided regulation instead. It has been estimated that the extra cost borne by the cotton farmers in those counties in having their seed and cotton fumigated was approximately \$2 a bale. The regulations are still in effect there, but Congressman Jones is hopeful of having them removed before the time comes to move the next cotton crop.

He points out that no pink boll worms have been found in that area during the past season, and only one was found during the preceding season.

Wells Won From Draw In Exciting Ball Game

In a game featured by the brilliant defensive play of both teams the Wells High School team won over Draw High School on the former court last Friday by the score of 11 to 10. This is probably the nearest two teams have played in this section for this season, and such a close score indicates in itself the battle that gave many exciting moments to the spectators.

The score stood 8 to 3 at the half in favor of Draw but Askew aided by the McLaurin Twins hit the basket for 8 points in the second stanza while the best the losers could do was one field goal.

The defensive play of Carpenter for the winners featured while Martin starred for the losers.

Wells Girls Win Also

The Wells girls also won from the Draw girls by the score of 56 to 6, which was considerably one sided and not so very interesting, on account of the winners having so much the advantage.

Mr. and Mrs. J. D. Scarbrough of Pride were O'Donnell visitors Monday.

Mr. and Mrs. Roy Gibson and family returned last Sunday from a weeks visit spent in Santa Anna, Miles and Brownwood.

Dallas Vaughn was a Lubbock visitor last Saturday.

Wells Gin Runs 1800 Bales--Still Running

PHONE 30702
DAW-LYNN
DAIRY
C. L. TOMLINSON
Owner
O'Donnell, Texas

There have been more than 1800 bales of cotton ginned at the Wells gin and they are still ginning every day.
School took up again at 9:00 o'clock Monday morning with a good attendance, and several new pupils.
All enjoyed Christmas with several parties in the community. On Tuesday night, December 24, we had a party at the home of Mr. and Mrs. Virgil Phipps, which all enjoyed and on Thursday night, December 26th, Miss Johnnie Merl Smith gave a party which all enjoyed. Then on Saturday night, December 28, Mr. and Mrs. John McLaughlin gave a party at which there was a large crowd and a good time.

We had a good crowd at church Sunday morning but did not have any B. Y. P. U. Sunday night.
There is some illness in this community. Roy Askew has a case of flu.
Lee Waldrep, son of Mr. and Mrs. J. J. Waldrep has the bronchial pneumonia.
Miss Floy Phipps returned from the sanitarium on Tuesday December 24, and is getting along nicely.
D. L. Greenwood and Miss Mamie Jordan were married on Monday, December 23 in Lubbock, and are spending their honeymoon in Montague with his folks.
The boys and girls from Draw are coming over to play ball Friday, Jan-

uary 8. We are hoping on win, of course.
The singing convention will meet at 2: o'clock Sunday afternoon at the auditorium of Wells school. Every body come.
W. C. Jones and family have moved near Sweetwater and his son, Felix Jones, has moved on the old place.
W. J. Jordan and family took their Christmas dinner with his father and mother in Hamilton county.
Virgil Phipps and wife's Christmas dinner with his father and mother, Mr. and Mrs. D. G. Phipps.
L. A. Land has moved to this county from Harlingen, Texas.
We are starting in Wednesday on a New Year and are going to do our best to make it a good one.

The following pupils of Wells school have a perfect attendance record for December: Wanda Ash, Elsie Jewell Scott, Fannie Ruth Anderson, Blanton McLaughlin, Helen Marguerete Bohle, Nellie McClellan, Laleon Jordan, Winitred Tucker, Sphyl Showalter, Thebna Brendle, Bill Tucker and Mildred Ash.
Mr. and Mrs. E. E. Phillips and their youngest son went to Paducah, Texas last week to visit relatives here. They returned Sunday afternoon and report a very enjoyable trip.
Mr. and Mrs. E. Bayer, accompanied by their daughter, son in law and their children have gone to Crowell, Texas to visit relatives. They expect to return within a month.
H. A. Jones and his eldest son from Ralls, Texas, visited Mr. and Mrs. J. R. Jones and family of this community last week.
Miss Lois Yeatts spent the day with Miss Orene Goodin Sunday, December 29th.

AG TEACHERS OF 17 SCHOOLS MEET IN CITY SATURDAY
Vocational agriculture teachers from seventeen high schools of the South Plains met in Lubbock Saturday to plan for the annual judging contest to be held at Texas Tech college the later part of March. Exact date of the contest has not yet been set, but it will probably be March 22nd.
At these contests judging teams from vocational agriculture classes of the various high schools compete.

DAWSON COUNTY FARMERS TO STUDY PRETTY FEATHERS
LAMESA, Jan. 8.—Dawson's first short course in poultry, which will be held here during the week of January 20-24, will be one of the outstanding events on the education in agriculture program for Dawson county farmers for 1930. The course will bring to Lamesa many prominent authorities on poultry, including specialists from the A. & M. college at Bryan, from Amarillo and from St. Louis, according to County Agent W. W. Evans, who, with several progressive farmers in the county is supervising some of the arrangements for the course. Features of the week's educational program will be a banquet for over two hundred guests, lectures, moving pictures an actual demonstrations in poultry raising marketing culling, feeding and breeding. The banquet, which is being arranged by the entertainment committee of the Lamesa Chamber of Commerce, will be held Thursday, January 29, and an educational program has been arranged. The various committees have been busy all of this week making arrangements for the course, which is being sponsored by the farm men and women in the poultry interested in the poultry end of farming.

GOOD SOIL MANAGEMENT PAYS
Bastrop.—In a corn growing demonstration conducted by Fred Moore in Bastrop county this year a yield of 465 bushels of yellow dent corn was made in 12 acres of deep sand, or practically 39 bushels per acre. This is said by county agent, G. C. King, to be more than 18 bushels above the general average of the county this year. Mr. Moore planted the land late in 1928 to rye and wheat, plowed it under in the spring applied 300 pounds of 4 (Nit.), 12 (Phos.), 4 (Pot.), fertilizer, planted March 11th and gave two cultivations. The cost of production was \$143.55 and the net profit per acre was \$26.70.

White Presides.
Saturday's meeting was held at the Hotel Lubbock following a luncheon. President Taylor White, of Tahoka, held shrdu - shrdu emfwyr rodado head of the South Plains Teachers of Vocational Agriculture presiding.
Dean A. H. Leidigh, of the Texas Tech school of agriculture, told the gathering that the college desires to continue to fully cooperate with the program of vocational agriculture and commented on college credits allowed in home economics courses for girls in high schools of the state. He declared the same be done in vocational agriculture and stated he was doing all he could to secure funds in order that Tech can employ a teacher to offer courses to those who wish to prepare for the teaching of vocational agriculture.
With one exception, all of the teachers present were trained at the Texas A. & M. college. By the employment of one additional instructor Texas Tech will be qualified to offer identical courses to those at A. & M.
C. L. Davis, of Austin, state superintendent of vocational agriculture for the Texas department of public instruction, was present and addressed the meeting. He spoke upon the advantage of preparing an exhibit by teachers of the South Plains, to be shown at the Dallas Fair next fall. The object of such an exhibit will be to show the type of work accomplished by these instructors on the plains.
A committee of which Vernon Martin, of O'Donnell is chairman, was appointed to prepare detailed plans for this exhibit.
Upon invitation of O. T. Williams of Floydada it was voted to hold a grain judging contest at Floydada the first week in March. Next meeting of the association will be held during the contest here March 22, or whatever date is selected.
Those present at Saturday's gathering included the following:
J. E. Smith, Amherst; W. E. Jones, Crosbyton; T. W. Weaver, Dimmitt; O. T. Williams, Floydada; R. H. Maxwell, Hale Center; R. A. Pap, Littlefield; Donald Turner, Lockney; B. P. Tunnel, Matador; Vernon Martin, O'Donnell; J. M. Bird, Post; E. E. Young, Ralls; F. A. Buckley, Seagrav.

Decatur.—Twenty 4-H club girls on Wise county farms are improving their bedrooms by re-finishng their furniture; making rugs, draperies and pillows; building bookcases, tables and footstools; and re-papering the walls. Sixty-six other girls are adding bookcases, arranging furniture to conform to the lines of the room and improving the floors.

LIVING AT HOME PROFITABLE
Snyder.—Six of the 153 home demonstration club women in Scurry county growing gardens in 1929 are serving as special 4-H pantry demonstrators, and their records show that their gardens and orchards, including canned products, were worth a total of \$2316.65 to them last season, or almost \$400 each. Their families consumed 7953 pounds of fresh vegetables, and 1286 containers of vegetables and 3489 containers of fruit were canned for the winter months. Their entire garden, orchard and canning programs have been worked out with the aid of the home demonstration agent in the form of budgets to give the proper amounts of all essential foods and they are feeding their families completely balanced meals.

"OLD TIMER" SENDS IN VARIED AND INTERESTING REPORT FROM HIS CAMP
Things are about as usual in the Pride community at this writing.
We had some few showers Monday.
People can finish hauling in their bundle feed with this damp weather as it was to dry before.
Several of our citizens visited in Tahoka this week an diast and had sessions with the tax collector.
Mr. and Mrs. Greer visited Mr. and Mrs. Tipton Sunday evening.
Some of our young people went to New Moore to church Sunday night.
Allen Bird is rounding up his belongings this week and moving them to Loop where he bought a farm from W. W. Hamcock of O'Donnell.
E. A. Roberts has gone to Jones and Comanche counties on business this week.
Some of our young folks went to the singing meet at Wells Sunday afternoon an depot a nice time.
Most ever one has a cold but no serious sickness at this writing that we know.
The people east of town are hauling quite a bit of feed out of our country now and there is a lot more to be hauled.
J. S. Golden was in our midst last week after feed he is hauling his rent feed to Snyder to use on his farms there.
Clarence Vance was in Lamesa Friday on business.
Geo. Lightfoot was in Lubbock this week on business.
Mr. and Mrs. Preston visited in O'Donnell this week.

Oyster Shells Now Make Lime Near Houston Thousand Of Other Things That Help To Make 1930 A Hummer

half million dollar lime plant at the Haden Co. has been located on the Houston ship channel. It is now making 100 tons of oyster shells a day. It has the largest lime plants in the United States and the only one using shells exclusively.

citizens voted \$400,000 for public improvements, work on it is soon to begin.

pecan marketing association is being organized under auspices of the West Texas Pecan Association.

hundred and eighty five thousand tons of cargo were moved through the Christi port in September, the total since the port was opened is 5,122,232 tons.

West Texas is indicated by the fact that the West Texas Oil Field, serving that section, has been necessary to construct more than 100 miles of high lines, bringing oil to 2,300 miles.

an inexhaustible supply of oil shales, there is increasing interest in the industries using those shales. Most of the shales used go into bricks, but there are several tile factories, a new one being built at Natalie, Medina county, recently completed at a cost of \$25,000.

the fast growing interest in the automobile industry in Texas, it will be estimated to note that the American cheese industry, doing a business of five billion dollars a year, ranks the automobile industry as its largest customer.

There are nearly 3,000 dairies, 5,000 creameries and 100 condenseries and evaporators in the United States, according to the National Dairy Council.

pecan grove is one of the best natural properties a man can own, an estate, in the opinion of the National Pecan Growers Association, and in the pecan industry, on a national scale, is increasing in parts of the state. A 25-year-old orchard is a dependable producer, as more and more are being found, and the amount of pecans being produced is increasing, top-working and planting new trees of improved varieties, almost amazing, looking at it as a whole.

interesting feature of the government's helium plant near Amarillo is the fact that the plant is being built to transport the gas to the oil fields. Each car will carry a huge cylinder firmly tied to the shape of the cars. They are filled under the pressure of 2,000 pounds to the square inch, and the cylinders will transport, at a pressure, 200,000 cubic feet of the gas. The cylinders are tested to 3,000 pounds of pressure before being put into service.

the impression that girls are unduly extravagant and come out in the records kept by the county 4-H club girls, that an average of only \$1.50 worth of clothes themselves last year, the highest cost recorded was \$16.70 by a girl who was forced to hire a dress due to the illness of her mother. The lowest was \$1.67 by a girl who made a dress of her own clothes.

girls' clothing is now being studied by the county 4-H club girls, that an average of only \$1.50 worth of clothes themselves last year, the highest cost recorded was \$16.70 by a girl who was forced to hire a dress due to the illness of her mother. The lowest was \$1.67 by a girl who made a dress of her own clothes.

girls are farm girls ranging from 12 to 17 years, and the records were kept at the instance of Ruth Bloodworth, home demonstration agent, who is using the records as a basis for demonstrations in budgeting clothing expenditures.

records show that the wearing of expensive clothes all day and every day is a girl's vanity but is an expensive habit, for it costs more to wear such clothes as it does to wear simple school and sport wear for dress occasions. Ten girls wore cotton hose for ordinary use an average of four pairs during the year, and two pairs of socks. The former cost 60

CREATION OF NEW CHEVIE MAKES BIG HIT HERE

Announcement last week of substantially reduced prices on the new 1930 Chevrolet six, at the same time that the car embodying many distinct improvements made its public bow, created a sensation in automotive circles here.

Reductions as announced by W. S. Knudsen, president and general manager of the Chevrolet Motor Company, range from \$25 to \$50 on 17 of the twelve models in the 1930 line, while three new body types introduced for the first time this year are priced to parallel the new low figure on models retained in the current series. The present base price of \$495 brings the six cylinder Chevrolet to within five dollars of the lowest price at which even the four cylinder Chevrolet was ever sold.

This is made possible, Mr. Knudsen explained, because 1929 was Chevrolet's greatest year, with an output of 1,350,000 sixes. Economies of precision manufacturing, plus savings effected by quantity purchase of raw materials, brought about lower production costs, which, consistent with the Chevrolet policy, are now being passed on to the consuming public.

The new range is from \$365 for the light delivery chassis to \$675 for the sedan, as against 1929 prices of \$400 for the light delivery chassis to \$725 for the convertible landau. All prices are f. o. b. the factory, at Flint, Michigan.

To meet the anticipated demand as a result of the lowered prices and the many improvements in the new car, the great chain of Chevrolet plants strung across the continent is now operating at capacity to assure immediate delivery of all models, Mr. Knudsen stated.

cents a pair and the latter an average of \$1.49 a pair, making the total cost for hose for the year \$5.36. The remainder of the girls wore silk hose conclusively and used an average of nine pairs last year, costing a total of \$13.32. The variation in number of pairs of silk hose varied from six to twenty-two.

In connection with this work the girls learned that the wise thing to do was in the selection of good material, choice of appropriate colors, good finishes and simple designs. They made money spent for clothing yield the greatest satisfaction. Fast colored prints, for instance, were found better than gingham for most every day purposes, because the prints do not shrink, have a finer finish, and launder more easily.

Shopping tours developed the fact that when it comes to buying silks, it pays to pass up silk substitutes in favor of pure silks, if one can afford the cost, and if not, to choose rayons.

Though rapid progress is being made in establishing an American potash industry, the United States still spends \$18,000,000 a year for potash imported from Europe.

DR. T. McILROY MOVING TO O'DONNELL THIS WEEK

Dr. T. McIlroy, chiropractor, is moving to O'Donnell this week and has his office in the rear of the First National Bank building.

He has purchased a large tract of land near here and a residence, and he will be here permanently, he says.

Dr. McIlroy says: "I have been fortunate in buying a beautiful section of land near O'Donnell and as this city seems to me to be the coming town in the South Plains it was decided to establish my permanent residence here, and move my entire office equipment here where my work will go." "And" he continues, "I have looked over considerable parts of Texas and other near by states but failed to find anything which had the appeal that O'Donnell and this particular section of the South Plains offered."

In our interview with Dr. McIlroy he was loath to discuss his profession but a bundle of testimonials showed plenty of proof that he had in many cases almost miracle cures. He did tell about his first typhoid case, he went on, "I was called on the case and given complete charge, but I went about it according to our scientific method of handling was taught. The patient seemed to get along all right and two medical doctors who were called in without my knowing, told the parents their boy was being treated in a way that was at least bringing back his health, and refused to offer any other advice, or subscribe any medicine and so well pleased were these good parents that they drove over thirty miles to tell me that they had faith in our methods of treatment. (The little wife called me to one side and related what the medical doctors had said) and how sorry they were now that they had ever doubted us." and he went on, "the boy got well, and it made me very happy to know that my first case of typhoid was successful."

Dr. McIlroy will occupy the office in the rear of the First National Bank building Friday. He is having this office specially fitted out for the use of all his electrical appliances which are used extensively in his methods, and he says at no extra cost to his patients. He said, "My first thought of a patient is to get them well, and at times, the money paid me by one patient will not pay the cost of the operation of the electrical equipment, however, there are other considerations in this world except money."

Dr. McIlroy is moving here from Slaton.

Watchmaker and Jeweler

Tahoka, Texas

FARMER FINDS PROFITABLE SIDE LINE TO WHEAT

Perryton.—Cows and chickens have proved a profitable side line for O. A. Gibson, Ochiltree county wheat farmer, who has sold a total of \$19,898.66 worth of milk, butter and eggs from January 20th to October 28th. Starting with three cows and 84 hens his income steadily increased, especially after adding seven cows to his dairy through the spring months. Aside from native pasture, wheat pasture and Sudan grass, his total feed cost was only \$230.

The Sudan pasture was an important item in Mr. Gibson's feeding program, so Guy R. Sheets, county agent points out, for the 10 cows were pastured on it for 25 days straight and then were alternated on it and native pasture for another 25 days. During this time the cows showed a decided increase in milk production.

HEAVY FERTILIZATION PAID THESE CLUB BOYS

Rusk.—Forty-six Cherokee county 4-H club boys made four times the state average in cotton production this year with yields averaging 440 pounds of lint per acre, and one of them, Wallace Hall, with a yield of 1203 pounds of lint on one acre, is claimed to be the champion boy cotton grower in East Texas. Last year he produced 1025 pounds of lint cotton on an acre.

These boys used an average of 406 pounds of commercial fertilizer per acre, according to W. L. Knapp, county agent, who states that the formulas most commonly used were 4 (nit.), 8 (phos.), 4 (pot.) Wallace Hall applied 500 pounds of 2-1-0-2 fertilizer and side dressed with 200 pounds of nitrate of soda.

In corn growing demonstrations 22 club boys averaged 42.4 bushels per acre and used an average of 294 pounds of fertilizer per acre. Both cotton and corn club boys showed that it pays to break early and deep, use good seed, and fertilize.

Don't throw away or junk your old battery set; install power tubes, reconnect, and use parts you now have. Why spend big money for what you already have connected up differently. We do it. Free estimate. Any radio made to operate off any electric system. Guaranteed repair work on any radio.

12 YEARS DOING ONE THING WELL
WILL BE OPEN FOR YOUR HEALTH FRIDAY, JANUARY 10, 1930 IN O'DONNELL AT THE FIRST NATIONAL BANK

SPECIAL SALE OF BUNDLE HAGARI AT 2½ Cents

I have about 15000 bundles of Hagari not good matured heads, but will make extra good feed, however, on account of my laziness I am going to sell all this feed at two and one half cents per bundle rather than gather it up from the field.

If you need feed, you will probably not again be able to get this kind of bargain

Every bundle will be sold. Drive to the field and get all you want at the above price.

**POLITICAL
ANNOUNCEMENTS**

The following candidates have
authorized the Index to place their
names in our announcement column
subject to the action of the Demo-
cratic Primary in July:

- For Sheriff and Tax Collector:
B. L. PARKER.
- For Tax Assessor:
T. W. (WILL) BROWN.
A. I. THOMAS.
- For Public Weigher, Precinct 4.
MELL PEARCE, (re-election.)
D. J. BOLCH.
- For County Clerk:
TRUETT B. SMITH, (Re-Election)

NEWS NOTES FROM LAMESA

Petitions are to be circulated
among the citizens of Dawson coun-
ty during February for presentation
to the county commissioners court
asking for another election to be called
on the \$1,250,000 hard surfaced
road for this county, if plans being
discussed by the Dawson County Good
Roads association culminate. A
meeting of the officers of the associa-
tion will be held soon to debate
the question of an educational cam-
paign for the next election, it is said.

A movement is on foot here for
more paved sidewalks for Lamesa.
Free city mail delivery in some parts
of the residence section, beginning in
February, will make it necessary for
paved sidewalks, it has been pointed
out by the civic department of the
local chamber of commerce. It is
hoped by the department that the
sidewalks will be laid as soon as possible
as a part of the street paving
program now under way here.

Mr. and Mrs. Jeff Musick, Mr. and
Mrs. Ralph Higgs and two daughters,
Virginia Ann and Betty Louise, motored
to Wells Sunday afternoon to
attend the singing. After the singing
they enjoyed a trip out through
the farming sections.

Austin.—A file of Cactus, univer-
sity of Texas yearbook, has been
presented to the Texas state library
by Dean T. U. Taylor of the univer-
sity of college engineering. This
file includes every annual since 1894,
the first year such a book was issued
Dean Taylor has achieved no little
reputation as a collector of copies of
the Cactus and has already completed
a number of files, including even the
rare volumes of the nineties and
early years of 1900.

**MISS THELMA PALMER HOS-
TESS TO DINNER PARTY GIVEN
IN THE GLORETTA HOTEL.**

On last Saturday evening Miss
Thelma Palmer gave a lovely dinner
party in the private Spanish dining
room of the Gloretta in Lubbock. The
ladies were all dressed in pretty din-
ner frocks of various colors and the
men in dark suits and colorful ties
and pocket handkerchiefs to match.
On entering the dining room the
guests saw a table with dainty place
cards for thirteen. In the center of
the table was a beautiful center de-
coration consisting of carnations with
sprays of lace fern and sweet peas. A
two-course dinner was served. The
first consisted of coffee, a plate con-
taining creamed peas, breast of
chicken and potato au gratin and hot
rolls.

The second course consisted of
fruit pie and punch. After the last
course dinner mints of pink and
green were passed. Those enjoying
this lovely dinner party were: Mes-
srs. and Mesdames Marshall Whitsett,
J. W. Roberts, Ben Cowden, Carl
Westmoreland, Burl Brewer, Messrs.
Schaulis, Monigan and the hostess
Miss Palmer.

**MRS J. W. ROBERTS HOSTESS
TO THURSDAY CLUB.**

On last Thursday afternoon Mrs.
J. W. Roberts entertained the Thurs-
day Club in her home from three
until six. A color scheme of red and
green was carried out in talkies, nap-
kins and refreshments.

Four tables of forty-two, were en-
joyed throughout the afternoon, after
which delicious refreshments consist-
ing of pale green rolled sandwiches
with red filling, macaroons, stuffed
olives and tea cooled with green cubes
of ice each containing a red cherry
were served to the following guests:
Mesdames, Robinson, Allen, Hal
Singleton, Jr., Hood Stark, Bowlin,
Earls, Sorrels, Whitsett, Cain, Wets-
moreland, Jourdan, Campbell, Garner
Hardy, Koesinger and Bradley.

Nacodoches.—The high winning
boy among 4-H cotton club members
in Nacodoches county this year is
Kyle Heath, 13 years old, of Cushing
who produced 1087 pounds of lint
on one acre. The 16 high ranking
club boys made 19 1-2 bales on 16
acres, so F. O. Montague, county
agent, reports.

**Santa Fe Railway To
Open Office Building**

The new modern office building of
the Santa Fe Railway in Amarillo will
be officially opened on January 18th.
The public is cordially invited to in-
spect the new building and meet offi-
cials and employes during the after-
noon and evening.

The new building houses the offi-
cials and staffs of the Atchison, Tope-
ka and Santa Fe, Western Lines, also
the Panhandle and Santa Fe Railway,
the latter operating all of the Santa
Fe lines Northwest Texas and the old
Orient lines in Texas.

The new building is located on Polk
street and ninth avenue. It is four-
teen stories high, with two full base-
ments, and occupies all of lot 90x140
feet. The building is modern through-
out and equipped with the latest ap-
proved appliances and equipment.

This new building is a splendid
proof of the growth of the Santa Fe
railway. The first office building
moved to Amarillo from Roswell in
1903 had a floor space of 3,000
square feet of office space to provide
quarters for the general office force
of the Santa Fe in this section.

Among the department housed in
the new building are: J. R. Hitch-
cock, general manager; F. L. Myers,
assistant general manager; T. B.
Gallagher, general freight and pas-
senger agent; W. W. Kelly, chief en-
gineer; J. N. Freeman, secretary and
treasurer; A. E. Meyer, auditor; E. E.
Machovec, mechanical superintendent;
J. B. Briscoe, superintendent; J. D.
Sweeney, car accountant; Bowman
Jarrott, claim agent; W. H. Rife, sig-
nal engineer; Avery Turner, general
agent.

We Save for Those We Serve

**3 BIG JOBS
for an active
Organization**

Providing Electric Power Meeting Constant Changes

New electrical equip-
ment is added in homes,
offices, stores and facto-
ries each day. New homes
and factories are built,
new stores and offices
are opened, all demand-
ing more electric service.
It is a big job for electric
power companies to
keep up with this in-
creasing need.

Planning for Greater Needs

Power plants built to serve the needs of
today will not be equal to tomorrow's
demands. Construction of today must
be planned so that instant and
unlimited increases in electric power
can be made when needed. Cities
must have this type of electric
service or they can not grow
greatly.

The Texas Electric Service Company
does these three big jobs in a
manner unexcelled in any section
of the country. This Company's
service can not be equalled
by an isolated power plant.

CLASS OF HOME MAKERS TO BE ORGANIZED

State Supervisor of Home Economics was a visitor in the O'Donnell this week. The visit resulted in movement to organize an adult class of Home Makers. A meeting was called which will be held at the High School building on January 10 at 4:30 P. M. at which time organization is to be perfected. The purpose of this class will be to aid the Home Makers in solving the problems relating to the home and family in a more satisfactory manner. The class will meet on Monday, January 20 at 10 P. M. at the high school building in the Home Economics room. The first hour of the following meeting will be decided at this meeting.

AWSON TO ORGANIZE PERMANENT FAIR HEADS

Lamesa, Jan. 8.—The organization of a permanent Dawson county Fair Association will hold the attention of the Lamesa business men during the following their appointment of a committee during a recent meeting of the directors of the Lamesa Chamber of Commerce, to study and formulate a plan for a permanent association for each season. This committee will take the load of expense which details of the annual fair will place on the shoulders of a few citizens. It is pointed out by F. McCollum, chairman of the committee, Carl Rountree and W. B. Hines were put on the committee.

WE NOT DECIDED ABOUT NEW SCHOOL BUILDING

Trustees of the Fairview school are debating the question at present of building the school there, which was destroyed Monday by fire, with brick or wooden structure. Contest for a new building will be held in the next few days, according to W. T. Webb, county school superintendent, who has written to the state department of education for re-prints, suggestions and drawings of typical school buildings. Classes at Fairview were continued Monday afternoon following the fire in a school building near-by and in a smaller school building which escaped a blaze.

Mr. and Mrs. Edd Payne and family were O'Donnell visitors Monday of a week.

W. J. Lewis of Plainview was in O'Donnell on business Monday of this week.

W. M. S. TO MEET

The W. M. S. of the Baptist church will meet in circles next Monday afternoon at 3 o'clock. A study of the first three chapters of Matthew will be made. South circle will meet with Mrs. H. E. Lawler, and the North Circle with Mrs. Ed James.

FARMER FINDS PROFITABLE SIDE LINE TO WHEAT

Perryton.—Cows and chickens have proved a profitable side line for O. A. Gibson, Ochiltree county wheat farmer, who has sold a total of \$19,89.86 worth of milk, butter and eggs from January 20th to October 28th. Starting with three cows and 84 hens his income steadily increased, especially after adding seven cows to his dairy through the spring months. Aside from native pasture, wheat pasture and Sudan grass, his total feed cost was only \$230. The Sudan pasture was an important item in Mr. Gibson's feeding program, so Guy R. Sheets, county agent points out, for the 10 cows were pastured on it for 25 days straight and then were alternated on it and native pasture for another 25 days. During this time the cows showed a decided increase in milk production.

REPORT ON JUNIOR LEAGUE

The Junior League, met Sunday night, January 5, 1930. We had a very good program which we all enjoyed very much.

We had four new members and we were very glad to have them with us. They were Annie Mae and William Frost and Annie May and Ollie Cadell.

We have a star roll. Each Sunday you are in the league you get one star, and all the members are working hard to be on the star roll each time.

Corsicana citizens voted \$400,000 for public improvements, work on which is soon to begin.

A state pecan marketing association is being organized under auspices of the West Texas Pecan Association.

We are very interested in our league and hope it continues to grow. HOPE SHOOK, League Reporter.

ROPE THAT CALF, HOLD 'ER BOYS AT ABILENE CONTEST

ABILENE, Tex., Jan. 8.—The calf roping contest here January 18, under auspices of the West Texas Fair, with Bob Crosby, world champion cowboy, and Allen Holder, a roping expert of the first magnitude, as the principals promises to be one of championship calibre in every respect. It will decide an unofficial title in the event. Crosby holds the record in roping one calf, setting a mark of 11 1/5 seconds at San Angelo in May, 1928. Two months later, however, holder defeated Crosby eight seconds in a ten calf roping event at Fort Stock-

ton, placing himself in the position of a serious threat to Crosby's laurels.

Crosby has won the calf roping event in rodeo performances all over the United States, his latest victory being over Jake McClure of Lovington, N. M., at Del Rio in December. Holder, an official at that meet, challenged the winner to a match and the contest at Abilene is the result.

Crosby recognizes in Holder one of the toughest opponents he has ever met. He expressed that opinion in the declaration that "Holder has participated in more roping matches than any other two rodeo performers in the United States."

Holder's home is at Rankin. He won the calf roping event at the Fort Worth Fat Stock Show in 1926 and copped again at El Paso in 1929. For a number of years he was holder of

the national goat roping title. The contest will start at two o'clock at the West Texas Fair Park here on January 18.

DON'T GAMBLE WITH FATHER Time

The old boy may let you "get away with it" for a time, but sooner or later he'll catch you. It may be tomorrow. So forestall him by insuring TODAY against every contingency. This firm, noted for reliability will gladly underwrite all your policies.

The Red Fox Is Hard To Trap

Skim Milk Almost Good As Whole

The trapper who tries to outwit the red fox sharpens his wits, as this fox is keen scented kind suspicious and has a wholesome fear of man. Traps and the ground where they are set must be free from human odors. Steel traps may be cleaned by boiling them with twigs of spruce, fir, hemlock, birch, or sassafras, by burying them, or by leaving them in running water for a day or so. After being cleaned they should be handled only with leather or waxed cotton gloves and kept in a clean bag or basket until set. Gray and kit foxes are not particularly wary and are more readily caught than red foxes.

It's a good idea to figure out the dairy herd's needs for feed for next year well in advance of planting time. Though of course the quantity of feed varies with the cow's size and production, the average sized cow that is on pasture in summer will need almost 2 tons of hay, or 1 ton of hay and 3 tons of silage yearly. High producing cows require annually from 1 to 2 tons of grain, or even more, according to their production. The yearling heifer needs small quantities of grain and about one half as much pasture and roughage feeds as a mature cow. It is well to plan for a little surplus of roughage feeds, as any not consumed can be carried over to next season.

Bred sows and pigs need some calcium and phosphorus in their ration. Any combination of minerals which contains sufficient lime and phosphoric acid and is palatable enough to be eaten freely will be satisfactory. The following mixture, which is recommended by the U. S. Department of Agriculture, is palatable, contains the elements for supplementing the grain feeds, and may be fed to hogs on pasture or in a dry lot. 50 pounds steamed bone meal, 25 pounds ground limestone or airslacked lime, 25 pounds 16 per cent acid phosphate, and 5 pounds common salt. If wood ashes are available, they may be added to the mineral mixture with advantage, at the rate of one-third of the mixture by weight. The mineral mixture should be kept where it will be dry and available at all times.

Daily livestock reports of the bureau of agriculture economics are now broadcast to South America and Porto Rico from Station DKA at Pittsburgh. The report includes the Pittsburgh, Jersey City, Lancaster, Chicago, St. Louis, and Kansas City markets, and the Boston wool market.

A free dental clinic for Lamesa school pupils will be held sometime this month, if plans of Mrs. Erwin T. Bailey, R. N., culminate. Mrs. Bailey was recently appointed food and milk inspector for the city as well as being connected with the city health department.

SOUTHWESTERN SEWER COMPANY TO SECURE LOCAL MAN FOR MANAGER

Mr. Ralph McLaughlin of the South Western Sewer Co., of Dallas is here this week in the interest of the company. His business is to secure additional connections and secure a local manager, one who will be on the field at all times. Since installing the local system the company has been without a manager, but only last

week they started an advertising campaign in the Index and this week Mr. McLaughlin expects to secure a local manager and make a drive for new connections.

O'Donnell has a splendid sewer system and it is the opinion of the Index that every business house and residence in the city should be connected.

E. W. HESTER MAKE HISTORY IN PRODUCTIVE FARMING

LAMESA, Jan. 8.—An unusual record in the sale of farm products during the year of 1929 was made by E. W. Hester, farmer near O'Donnell, Texas. Hester realized \$3,501.31 during the twelve months on poultry, hogs and dairy products, which is above the money he made on his cotton and feed crops during the year. By keeping an itemized account of each month he was able to see which of these twelve months was most profitable for him.

April was the outstanding month, according to his account, for in that month he made \$691.90, of which amount \$57.50 was realized in show winnings. April was also a close second in the butter sales for him. He made \$119.25 from butter during that month.

July saw the lagrest sale of butter, for during that month he sold \$134.55 worth of butter at 45 cents per lb.

On his itemized account may be seen profit from butter, eggs, cream, hogs, poultry, beans, mules and show winnings. During the year he managed to clear a total of \$1,228.40 on butter and \$1,320.00 on livestock.

The money he made during each month is given below: January, \$427.12; February, \$140.64; March, \$128.71; April, \$691.90; May, \$512.35; June, \$97.80; July, \$381.69; August, \$131.36; September, \$124.50; October, \$95.75; November, \$251.00; December, \$518.49. He states that by keeping his records he can better his monthly income during the new year by observing which products sell most in each month.

County Agent W. W. Evans points out that progressive farmers in Dawson county can double their yearly income by using their spare moments to specialize in the smaller industries of farming, such as poultry, hogs and dairy products. Proof of the agent's statement may be seen in Hester's unusual record.

Reports of committees that are arranging Dawson county's first short course in poultry raising was the main business this afternoon during a call meeting of the members of the poultry raisers club here. Plans for an

outstanding course were discussed and it was assured by the county agent, W. I. Evans, that the educational week will be one of great benefit to the poultry raisers in the county. The short course will be held during the week of January 20-24.

Lamesa's heavy traffic took advantage of the opening of the first block of the new city paving which was begun during December. One block of Houston street has been completed and the brick paving saw heavy duty today. Fourteen blocks more have yet to be completed before the \$80,000 paving program for Lamesa is complete.

Skim milk contains practically all the nutrients of whole milk except the butterfat and is an excellent feed for growing calves, growing and fattening pigs when used as a supplement to corn, growing chicks, fattening poultry, and laying hens. The cash value of skim milk fed on the farm in well balanced rations is equal to the market value of such amounts of other feeds as have the same feeding value. For calves, about 10 pounds of dry skim milk or 10 to 12 pounds of commercial or home mixed calf meals will take the place of 100 pounds of fluid skim milk. For pork production, when fed as a supplement, 100 pounds of skim milk has a feeding value equal to about 11 pounds of corn plus 7 pounds of tankage. For laying hens, 100 pounds of skim milk will take the place of about 15 pounds of meat scrap. Only sweet milk should be fed to calves, but either sweet or sour skim milk may be fed to hogs and poultry.

Before the time comes for putting the incubator into service for hatching, it should be balanced and thoroughly disinfected to destroy disease organisms before eggs are put in it. Be sure that all down and dirt have been removed from the incubator. Disinfect the interior of the machine as well as the egg trays and nursery drawers with an effective disinfectant such as a spoonful of cresol solution.

The Joy of Achievement

Is beyond question the greatest and most laudable of human emotions. The joy is doubly great, when achievement is the result of honest, conscientious and sustained effort to accomplish a worthy goal.

During the year now gone, we have been delighted in our efforts to give you as nearly as completely satisfactory Gas Service as possible, and to accompany that service with a uniform courtesy to all.

In beginning a new year we renew our resolve to merit your good will, your patronage and, we hope your friendship, by a constant effort on our part to ever keep before our minds the idea of a "100 per cent service and courteous treatment to all."

WEST TEXAS GAS CO.

I have you seen the sensational new CHEVROLET

Those who seek the utmost in motoring satisfaction—at sensationally low prices—should see and drive the Greatest Chevrolet in Chevrolet History . . . now on display in our showrooms!

An improved 50-horsepower six-cylinder valve-in-head engine! Four Delco-Lovejoy hydraulic shock absorbers! Fully-enclosed, internal-expanding, weather-proof brakes! Heavier and stronger rear axle! New non-glare windshield! New dash gasoline gauge! And scores of other features!

Come in today and see this car. Drive it. Note how comfortable it is—how easy to handle—how flexible in traffic. And remember that it is now available—

July 26 Is Primary Election Day; November 4 General Election

VERY FEW OFFICIALS WHO DO NOT HAVE TO ASK VOTERS FOR ANOTHER TERM WITH INDICATIONS OF PLENTY COMPETITION

Voters will elect a new set of officials this year. United States Senator Tom Conally, who was chosen in 1926 for a six-year term; a few state senators and district judges to be elected for four-year terms; three or four state officials also to be elected for four-year terms, will be on "easy street" inasmuch as campaigning for re-election is discouraged but everyone else, including the 18 congressmen, will be required to stand for re-election. It will be an "off year" only for presidential candidates.

The political calendar for the year follows:

Jan. 31—Last day for payment of tax or otherwise qualify by signing voting credentials.

June 2—Last day for candidates to state offices and district offices, districts containing more than one county, to file requests to have their names placed on the ballot.

June 9—Last day for county and district candidates and district candidates, in districts composed of only one county, to file requests to have their names placed on ballots.

June 16—County executive committee meets to determine the order of names on ballot and estimate expenses for election.

June 23—Last day for candidates to pay assessments for their share of

expenses incident to holding election.

June 26 to July 1—Candidates must file their first report of campaign expenses not more than 30 nor less than 25 days prior to date of the primary.

June 26 to July 1—Time for voters who are absent from county to appear before a notary public and request ballot.

July 14—Primary committee meets to prepare ballot.

July 14 to 18—Candidates must file second statement of campaign expenses.

July 16 to 23—Time for voters who intend to be absent from county on date of election to appear before clerk and vote an absentee ballot.

July 22—Four days prior to day of election all voters living in a city of 10,000 inhabitants or more, who have moved their residence within the city or from without the city to the city, must report to the tax collector.

July 24—Day upon which county clerk shall send absentee votes to the presiding judges of the respective voting precincts.

July 26—Primary election day polls open at 8 a. m. and close at 7 p. m. Precinct conventions are held to elect delegates to county convention.

Aug. 2—County executive committee meets to canvass results. County conventions are held.

Aug. 5—Last day for candidates to file third reports of expense.

Aug. 11—State executive committee meets to canvass returns.

Aug. 23—Date of second primary. District convention meets to canvass returns for district candidates.

Sept. 1—Meeting of state executive committee.

Sept. 2—Meeting of state convention.

Nov. 4—General election.

Nov. 14—Candidates should file report of expenses with the county judge.

LAMESA OFFICIAL VOTE IS ANNOUNCED BY C. OF C.

LAMESA, Jan. 8.—The final count of the votes cast during the recent election here for a \$1,250,000 paved program for Dawson county was announced yesterday by the county commissioners court after it had made a canvass of the seventeen precincts in the county. The count shows 755 for and 646 against. 1,401 votes of the voting strength of 2,500 were cast, it is said. A two thirds majority was necessary before the road program could carry. The Dawson county good roads association announced immediately after it was learned the bonds were defeated that another election will be called sometime during the middle of 1930. A petition will be filed with the commissioners court asking for another election as soon as possible, it is said. The education program for the next election will embrace a larger campaign than before, officers of the good roads association announced.

DAWSON TO ORGANIZE PERMANENT FAIR HEADS

Lamesa, Jan. 8.—The organization of a permanent Dawson county Fair association will hold the attention of three Lamesa business men during spring, following their appointment as a committee during a recent meeting of the directors of the Lamesa Chamber of Commerce, to study and recommend a plan for a permanent fair association for each season. This plan will take the load of expense and main details of the annual fair off of the shoulders of a few citizens and place them in the hands of one responsible body composed of the entire county, it is pointed out by F. T. McCollum, chairman of the committee, Carl Rountree and W. B. Collins were put on the committee.

HAVE NOT DECIDED ABOUT NEW SCHOOL BUILDING

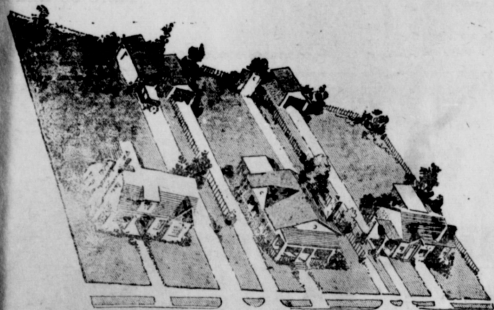

Trustees of the Fairview school are debating the question at present of re-building the school there, which was destroyed Monday by fire, with a brick or wooden structure. Contract for a new building will be let within the next few days, according to W. T. Webb, county school superintendent, who has written to the state department of education for blue-prints, suggestions and drawings of typical school buildings. Classes at Fairview were continued Monday afternoon following the fire in a church building nearby and in a smaller school building which escaped the blaze.

LAMESA HOTEL SOLD TO A. A. HUTTON JAN. 1

LAMESA, Jan. 8.—Announcement was made here yesterday of the sale of the Dal-Paso hotel here for \$104,000 to A. A. Hutton of Lubbock. The transaction was handled by a Lubbock real estate firm for Reuben Usher of that city who formerly owned the hotel. W. A. Wallace, lessee, will continue to operate the hotel under their new management.

Your Best Neighbor Will Not Tell You

But they all wish you would provide your home with a sewer connection and proper fixtures for sewerage disposal. This modern method of sanitation increases the value of your property and all the property in your neighborhood. It lessens the possibility of disease, because it removes the necessity of an outhouse, which is a breeder of disease germs often responsible for epidemics of contagious diseases.

Your best neighbors will not tell you about their wish to have you get rid of an unsightly outhouse, because it is one of those delicate subjects which people do not like to discuss. You owe it to your family to make immediate arrangements to have a sewer connection. They need the convenience, protection and the pride of possession which goes along with it.

Ask your neighbors about the advantages of proper sewer connections with the right sort of fixtures—they will gladly tell you when you ask them. But they will hesitate to mention it to you. Then see our local representative who will explain the simple things necessary to get immediate service.

"FAMOUS FOR VALUES"

Members Farm Board Ask Texas farmers aid

Special to the Index:

AUSTIN, Jan. 8.—How to organize the Texas farmers into a cooperative body so they can take advantage of farm relief offered through the Federal Farm Board developed into a troublesome problem here today, when Alexander Legge, chairman, and Carl Williams, cotton member of the board, conferred with Governor Moody, heads of Texas colleges and representatives of farmers and bankers' associations.

The Farm Board representatives made it clear the farmers must approach "collectively" and cease competing with one another by disorganized marketing of their cotton.

Plan Super Co-op.

Williams explained it is planned to handle cotton loans through a super co-operative organization to be set up with a capital of \$30,000,000. He said the charter probably would be passed after a conference in Washington this week end.

Leidigh Named

A committee to work out details and organization plans, was appointed as follows: Dr. T. O. Walton, College Station, chairman; O. B. Martin, College Station; Harry Williams, Dallas; Lawrence Westbrook, Waco, and A. H. Liedigh, Lubbock.

It was agreed that the national sales agency now being formed is "a necessary link in the chain of co-operative marketing and that all organizations now existing in Texas, or hereafter to be formed, should become parts of the national movement.

It was arranged that Williams, cotton member of the Federal Board return to Texas in 10 days or two weeks and stay until preliminary organization plans have been drafted. As soon as details are agreed upon a series of sectional meetings, not less than four in number will be called.

The only policy to be followed will be one of helping those who help themselves, Legge and Williams made plain.

Legge said that farmers should take a few pointers from industry and let "supply and demand" control their output. He said the steel industry was producing only 63 per cent of capacity.

"In contrast to this we find the cotton farmer when the price of his

product is low working harder than ever in an effort to produce quantity in order to make up for the decline in price" Legge said.

Dr. T. McLroy, wife and son, Haskell were in O'Donnell the latter part of last week. Dr. McLroy and his family are to move here soon and he has bought a residence and a large tract of land near O'Donnell. He is a well known Texas Chiropractor, and will open offices here Friday in the First National Bank Building.
