O'DONNELL, LYNN COUNTY, TEXAS, FRIDAY, JUNE 21, 1929

NUMBER 38

Widow Has Very Busy Week In O'Donnell

Wilder Weds Peerman Rogers Of Jefferson, Tex.

Evening at 8:00 Miss Wilder became the bride of Peerman Rogers of Jefferson, Tex. The bride and groom entered to the strains of the national anthem and took their places at the altar of ferns, Shasta dahlias, where they were officiated by Rev. C. A. Duncan, who gave the beautiful and impressive ceremony. The attendants were Miss Bessie McDonald, of Jefferson, who wore a model of green and white. Miss McDonald, college chum of the bride, is a life-long friend. Mr. and Mrs. A. M. Wilder, of Jefferson, acted as bridesmaids.

The wedding was given in a beautiful room at the home of Mrs. E. M. Wilder, with satin and lace, and carried the bouquet of roses and valley flowers.

After the ceremony Mrs. Rogers left for an extended tour through New Mexico, Kansas, Arkansas, and back to Jefferson, where she will make her home. Mrs. Rogers is the daughter of Mrs. E. M. Wilder, and is popular among the younger people having spent some months here. She has been in the college of industrial arts for the past two years and will graduate this year.

Mrs. Rogers is the son of Mr. and Mrs. A. M. Wilder, of Jefferson. He is a friend of the bride's father and is a well-to-do man. He has a strong interest in Jefferson.

The wedding was given at the home of Mrs. E. M. Wilder, with satin and lace, and carried the bouquet of roses and valley flowers.

The bride and groom entered to the strains of the national anthem and took their places at the altar of ferns, Shasta dahlias, where they were officiated by Rev. C. A. Duncan, who gave the beautiful and impressive ceremony.

The wedding was given in a beautiful room at the home of Mrs. E. M. Wilder, with satin and lace, and carried the bouquet of roses and valley flowers.

WEST-MIXON

According to the meager information available to us at this time, Miss Luella West and Mr. Otto Mison were quietly married Saturday evening. We were unable to learn where or at what time.

Miss Mison was a member of the class at Wells School this year, and has been one of the most popular young ladies in that community. Mr. Mison is well known to many of O'Donnell people.

The Index joins with their many friends in extending good wishes.

NOTICE

Van Bonneau, of the Church of Christ, Gunter, Texas, will begin a meeting at the Presbyterian church, beginning Saturday night, June 22, and continue over two Sundays. The public is invited to come out and hear the Gospel preached in its simplicity. "Without addition or subtraction." Bible students are invited to bring paper and pencils and also to ask any Bible question for information.

Officers For County Fair Are Elected

(Lynn County News)
The directors of the Lynn County Fair Association and numbers of other citizens from O'Donnell, Wilson and several of the rural communities of the county met in the county court room Monday night and perfected an organization of the body.

A constitution, which had been previously prepared by C. C. Williams, secretary of the Tahoka Chamber of Commerce, was adopted after the same had been read and discussed section by section and after having been amended in a few particulars.

The constitution provides that the board of directors shall consist of 1 member from each rural community in the county, to be selected by the people of these communities respectively, two members from Wilson, three members from O'Donnell, and eight members from Tahoka.

It is made the duty of the board of directors to annually elect an executive committee of seven members, who shall have active management of the fair to be held each year at the county seat.

In pursuance of the provisions of the constitution as adopted this executive committee and the officers were elected for the ensuing year on Tuesday night. A nominating committee consisting of J. E. Morgan of Magnolia, T. J. Vandell of O'Donnell, Mrs. A. L. Paulson of Wilson, and W. R. Neyland and S. R. Kemp of Tahoka recommended the election of the following as members of the executive committee and officers of the association: President, Claude Wells, Tahoka; Secretary-Treasurer, C. C. Williams, Tahoka; Manager, Taylor White, Tahoka; J. P. Aylor, Brewer, Carl Holden, Wilson; Tom O'Donnell; Carl Bailey; and L. H. Moore, Lakeview. Their report was adopted and the above named persons were elected as the officers and members of the executive committee.

O'DONNELL ELECTRIC HATCHERY CLOSES SUCCESSFUL SEASON

The O'Donnell Electric Hatchery under the management of Mr. and Mrs. H. J. Williams, closed a very successful season last week. During the three months operation of the hatchery, Mr. Williams turned out better than 70,000 baby chicks most of which were from custom hatches. The hatchery was a new experiment in O'Donnell, but Mr. Williams expressed himself as being highly pleased with the results obtained since his opening on February 20th of the year. He opened with one 18,000 egg Petersen Electric Incubator and in less than thirty days a second machine was installed, increasing his capacity to 36,000 eggs. Both of the machines run at full capacity until the close of the season.

Vaughn Home Is Destroyed by Fire

The lovely country home of Mr. and Mrs. F. M. Vaughn was totally destroyed by fire last Thursday evening, about eleven o'clock. The family had retired for the night when they were awakened by the smoke to find the very beds in flames. All the household furnishings were destroyed. The origin of the fire was not determined, and we do not know whether the loss was covered by insurance.

Mr. and Mrs. H. E. Stacey of O'Donnell, Mrs. Joe Stafady of Lubbock, returned Sunday from a week's visit with the ladies' parents at Hamilton.

Mr. and Mrs. C. A. Rayburn have moved to the new home recently completed by Mr. and Mrs. Naymon Everett in the east part of town.

Mrs. Eulala Ferguson of Fort Worth, Texas, returned to her home Wednesday after spending the past week the guest of her parents, Mr. and Mrs. R. E. Painter.

Mr. C. B. Martin and family, from Texas, spent last week and in O'Donnell visiting his brother and wife, Mr. and Mrs. Vernon Martin.

O'Donnell Wins Ball Game Wednesday

O'Donnell added another victory Wednesday afternoon when the fast Sparenburg nine engaged the locals on the home field. The game was loosely played but proved interesting to the large crowd that witnessed the good pitching of lefty Stephens. The final score was 10-11 in favor of the locals. The Sparenburg pitcher was touched for four home runs.

NEWLY-WEDS GET BUGGY RIDE

Thursday evening a jolly group of young people met at the home of the bride and groom, Mr. and Mrs. Harvey Line, Mr. and Mrs. Martin Line, also newly weds, were spending the night with Mr. and Mrs. Harvey Line, and the group took advantage of the occasion to visit them, and take the two couples for a joy-ride. Special preparation had been made for this and the two couples were placed upon the flat surface of an old buggy bed. Several cars followed them around the square in town driving slowly in order that they could view the sights, but during the last half of the night, Mr. and Mrs. Harvey Line "drove out of town about three miles east where they were betrayed by one who pretended to be assisting in making the joy ride a success. The brides and grooms escaped into the automobile of Mr. Calvin Fritz, who might get married some day.

Later when the newly weds returned to their home they found that the occasion had been interesting but the good sportmanship by the attitude they took in making their friends feel that they were appreciative of the interest shown them. All join in wishing the young couple well.

WORK BEGUN ON SINGLETON BUILDING FIRST OF WEEK

Work was begun Monday morning of this week on the new Singleton Building just west of the Singleton Hardware Co. Excavating under way within the next few days. The building will be 25x100 feet and of the most modern type, an exact duplication of the other two Singleton buildings which was completed a few months ago.

Mr. Singleton states that work will be rushed as rapidly as possible in an effort to have the building ready for occupancy by the first of August. Mr. L. D. Tucker, a former O'Donnell business man will open a first class dry goods store in the building as soon as it is completed.

Mrs. W. L. Palmer and daughter, Irma D. returned Sunday from Hamilton where they have been visiting Mrs. Palmer's parents, Mr. and Mrs. D. M. Poe.

\$2,500 Will Be Given Winners at Abilene

ABILENE, Texas, June 20.—The automobile race program to be presented on the West Texas Fair Speedway in Abilene on July 4 will be the outstanding Independence Day sport event in the southwest.

A check of the American Automobile Association's 1929 racing schedule reveals that there will be only 7 speed car contests in the United States during this year that will be larger than the program to be given in this city on July 4. Only one of the seven is in the southwest and it is November 16 at Phoenix, Arizona. Guaranteed prizes totaling \$2,500 will be awarded to the winners in the five races that will make up the program to be held here on Independence Day. Of the 183 other races to be held in various parts of the United States during 1929, under sanction of the AAA, only seven of them will offer larger prizes. This, of course, does not take into consideration the eleven contests listed on the championship circuit.

The southwest area, in which is included Texas, Oklahoma, Arizona, California and Colorado will have thirty-five officially sanctioned AAA race contests during this year. The November 16 date at Phoenix is the only one that will offer larger prizes to winning drivers than is guaranteed here. The Phoenix prize totals \$2,750 and by the time the winners in the July 4 contest here get their cut on the gate receipts, which will be given in addition to the \$2,500 guarantee, it is likely that the total here will be more than the Phoenix race will pay.

Only two other race contests will be held in the southwest district on July 4, under AAA sanction, in addition to the contest to be offered here. One of them will be at Denver, Colorado, for a purse of \$1,800 for all winners in the various events and the other is to be in Banning, California, for total premiums of \$800.

There will be five events on the card presented here on Independence Day under direction of D. H. Jefferson, Texas supervisor of the American Automobile Association. The feature of the day will be a 15 mile contest for first money of \$650 and a percent of the receipts.

Informal Reception For Newly-Weds

The lovely country home of Mr. and Mrs. W. E. Simmons was the scene of an informal reception last Saturday evening, with Mr. and Mrs. Martin Line as the honorees. A number of interesting games of forty-two were played, after which homemade ice cream was served to Misses Era, Eva, and Mabel Harris, Alice and Jeanette Thomas, Messames J. N. Line and Mixson, Messrs. Ivan Line, Roy Line, Gwen Line, Otis Harris, Jesse Williams, Roy Lee DeBask, J. D. Echols, and Allen Williams.

Chamber of Commerce Planning Big Program

"HALF FEED, HALF COTTON IS BETTER IN THIS COUNTY

"Half feed and half cotton makes more cotton," J. E. Morgan declared the other day in talking with the county agent, Mr. Morgan farms 160 acres in the Magnolia community and has followed the practice of planting half his acres in feed and half in cotton for the last seven or eight years. "I had a few acres that I planted to cotton year after year and found that it didn't make near the yield that my cotton on old feed land did," he said. "I have found, too, that my land doesn't blow so much as it used to."

Mr. Morgan is experiencing with a number of crops including several varieties of cowpeas, and alfalfa. He planted two thirds of an acre of alfalfa in lake bottom land near the house last week. His main stays for feed crops are corn, maize and beggar. He says he likes to grow corn to finish off his hogs, of which he has some for sale every year. He recently sold 17 head of shoats from September litters for about \$300.00. Seven milk cows and a flock of chickens are the other kinds of livestock used on this farm through which he markets the feedstuff, very little of which he ever sells.

"It is interesting to know" says R. E. Shaver, county agent, that Mr. Morgan is a brother-in-law to W. F. Waldrip of Knox County, the farmer who has won wide recognition in West Texas for his system of planting half cotton and half feed. Last year Mr. Waldrip made 32 bales of cotton from 32 acres of land farmed on half-cotton-half-feed plan, while neighboring land across the fence made only 24 bales on 80 acres."

Carmon Morgan's pig was weighed at three months of age and topped the scales at 78 pounds, making a gain of 12 pounds in nine days and 40 pounds in 28 days. Carmon and his two brothers are club members at Magnolia. Carmon is feeding his pig one pound of ground maize, one half pound protein supplement and one gallon skim milk daily. The cost of gain at this weighing was about six cents per pound. There are a total of 44 pig club members in Lynn County this year, according to the county agent.

Johnnie Rochelle Sells Cafe to Geo. Stephens

Johnnie Rochelle, one of the oldest cafe men in O'Donnell in point of service, sold his cafe business to Geo. L. Stephens on Friday last week, and Mr. Stephens took charge of same immediately. Mr. Rochelle states he will devote his entire time to his hotel interests in the future.

MISS PALMER HOSTESS AT BREAKFAST FOR WEDDING

Members of Miss Mary Wilder's wedding party were guests at a beautifully appointed breakfast Monday morning at the home of Miss Thelma Palmer.

Roses deftly arranged in a low bowl formed the centerpiece for the table, which was already decorated with its silver and china. Place cards were miniature wedding slips with a Cupid leaning against the heel. The two-course breakfast was cantaloupe, decorated with cherries, with the main course of toast arranged in nest-form, filled with creamed chicken. Plate favors were rose baskets filled with nuts. Those present were the bride's parents, Mr. and Mrs. E. M. Wilder, Misses Bessie McDonald, Jeffie Mae Urquhart, and Mary Wilder, Messrs. Joe Hughes, and Freeman Rogers.

New Sec.-Mgr. of C. of C. Planning Much Work

The O'Donnell Community Chamber of Commerce under the secretaryship of Mr. G. S. Dowell, has begun to function in reality. Mr. Dowell arrived last week and assumed the position as secretary-manager, and since that time numerous plans have been discussed for the coming year's work. The reorganization of the chamber likes some of being completed as yet, but the officers and directors expect to have all necessary details completed and ready to submit at next Tuesday's regular weekly luncheon.

Plans for the coming year's work will be ready for publication in our next issue. At a recent meeting, the last Tuesday evening of the coming year was designated as public luncheon which will take the place of the regular noon luncheon on the last Tuesday in each month. No changes were made in the regular weekly luncheon on Tuesday except the one mentioned above.

A few of the directors of the local chamber met with a group of Lamesa business men on Tuesday night of this week at Lamesa for the purpose of discussing the possible location of a milk plant at Lamesa. Lamesa is asking the co-operation of O'Donnell folks in the project and at this week's regular luncheon Messrs. C. L. Davis, E. W. Hester and J. L. Shoemaker, Jr. were appointed as delegates to attend the opening of the Tyler milk plant so that local people may be given first hand information regarding such a project. The party will leave Friday returning the following Monday.

Mr. Vernon Martin who is head of the Community Fair reported that premium lists are almost completed and would possibly be announced within the next few days. Mr. Martin is working untiringly on the Community Fair plans and deserves more co-operation than has been given to date. He expects to have a much larger and more complete premium list than last year. Further announcements will be made later.

Shower Compliments Mrs. Martin Line

Mrs. Martin Line, who before her marriage last Monday evening was Miss Golda Simmons was the honoree at a miscellaneous shower at the home of Mrs. Boss Johnson last Thursday afternoon. Messames J. N. and Harvey Line assisted Mrs. Johnson in entertaining.

About forty guests were busily engaged in handing cup-sets for the bride when a very dark brunette lady called to deliver her laundry. When opened, the "laundry" proved to be packages containing all sorts of lovely gifts, including silver, pens, glassware, kitchen utensils and toilet articles. Mrs. D. M. Estes played the part of the negro maids, and delivered the gifts with a running fire of comments which kept the guests in gales of laughter. When the last one had been presented, the little bride was too overcome to speak, so the brand new husband was obliged to make a speech of thanks, which she very meekly "dittoed."

The hostesses served angel food cake and punch to the guests.

Claude E. Kelley Dies In Dallas Sanitarium

Claude E. Kelley, aged 32, banker of Weslaco, formerly of O'Donnell, died in Dallas Sanitarium on Monday of this week according to word received here. Mr. Kelley had been operating on in an effort to restore his voice, which he lost after an attack which occurred last March while asleep in the home of his father-in-law, E. C. Couch, at Weslaco. Mr. Kelley has many friends here who are deeply grieved to learn of his death.

Mr. Carl Alexander, of the Rayburn Chevrolet Co., spent the weekend in Littlefield with his parents.

WIMONS-LINE

Evening Miss Golda Jeffie Mae Urquhart, of O'Donnell, was the bride at the Baptist Parsonage, with Rev. Shep-herd officiating at the ceremony. The bride's bridesmaids were Misses Thelma Palmer, and Mrs. W. E. Simmons, who united two young people, completely surprised to their friends. Mrs. Line is the daughter of Mr. and Mrs. W. E. Simmons north of town. She is the daughter of the local High School and has been one of the girls.

The son of Mr. and Mrs. W. E. Simmons is well known to everyone in the community. He has been employed in the past several years at the home of his father-in-law. He joins with a multitude of friends in wishing the young couple well.

Record Set in Sales of Used Cars

believed to be a new record in the sales of used cars in the United States was established in the nation-wide Chevrolet organization sold 157,824 used cars in addition to the same of new car business soared to a new level during the month.

menting on the achievement factory officials point out was made possible through the enormous amount of public confidence built up by dealers through the general offer of trade-in on used cars. They exchange through the wide-spread red tag "with an O. K. car" prospective used car can be assured that every of the car has been properly inspected and put in shape to stand of miles of unused road.

with the corresponding year ago, when 118,195 used cars were sold, the May 1929 record set a gain of more than 39 per cent.

It also outstripped the record of 133,88 used cars in 1928.

Accomplishing this feat, the dealer organization sold an average of 6,963 used cars a day in 26 business days of the month. This was at the rate of 600 cars an hour and 10 cars a minute.

The record demonstrates that the used car is not only dependable merchandise but also a profitable investment.

MEMBERS WILL MEET FOR WASHINGTON

Station, Texas, June 10.—The outstanding 4-H club workers, two girls and two boys, representing the Texas group, will meet at the National Encampment at Washington, June 19-25, are scheduled to leave June 16 for the National Encampment.

These Texas representatives, Mary Lou Harbour, of Mt. Titus County and Clarice Young, of Delta County, Cameron and Paul Robinson, Madison County. They will be accompanied by Miss Helen H. Swift, state demonstration agent, Smith, district farm agent, Extension Service, A. & M. College of Texas, who are located at Station, and Miss Abbie Severson, county home demonstrator, located at Colorado.

The boy representatives will be accompanied by the Texas group, acting through the national committee of which E. Holland, Houston, is president. The trip for the girls will

be financed by proceeds from refreshments stand operated by club members at the annual Farmers Short Course at the A. & M. College of Texas. The four Texas delegates will meet with similar representatives from every other state at the National Encampment for a week of lectures and discussions on the aims, ideals and conduct of club work from a national standpoint. Plans for extending boys and girls club work in more counties and communities will be formulated. There are now more than 600,000 4-H Club members in the United States.

Particular emphasis was placed on the ability to conduct money-making demonstrations in the selection of the representatives for the National Encampment. Mary Lou Harbour declared \$1642.32 in four years of club work from gardening, poultry, dairy and clothing projects while Clarice Young made \$1192.67 in much the same way. Isaac Corns made and saved \$2091.10 in three years, chiefly on poultry project, for his education at A. & M. College, where he has just completed his freshman year. Paul Robinson, of 154-bushels-of-corn-to-the-acre fame, showed club work profits of \$1474.49 from corn, cotton, hogs and dairy demonstrations in three years.

COUNTY SCHOOLS ARE MAIN ISSUE OF DISCUSSION

College Station, Texas, June 10.—Topics of vital bearing upon the problems of rural and county schools will come in for discussion at the sixth annual conference of county school superintendents of Texas to be held at the A. & M. College of Texas, July 29-August 2, program for the conference just issued shows, L. A. Woods, of Waco, McLennan county superintendent, is chairman, and Mrs. B. B. Sapp, of Liberty, Liberty county superintendent, is secretary.

The program for the opening day, July 29, will be given over to discussion of the organization of county schools. Other topics to be discussed during the conference include the grouping of rural schools for high school purposes, comparison of the

small and large school as to educational efficiency, professional qualifications necessary for the successful county superintendent, conserving school funds, items in a county-wide plan for improving the schools, what the county superintendent should know about his county and numerous other subjects.

Speakers on the program include President T. O. Walton, of the A. & M. College of Texas who will deliver an address the morning of July 31; T. H. Shelby, dean of extension, University of Texas, who will discuss "Ways and Means of Financing Our Educational Program"; President R. M. Caldwell, Dallas, of the Texas State Teachers Association, who will speak on the work of that association; S. M. N. Marrs, A. M. S., state superintendent of public instruction, who will deliver an address the morning of Aug. 2, and other outstanding educators of the state.

Makers of Roquefort cheese in the town of Roquefort, France, where almost the entire world supply comes from, don't have to worry about proper temperature, ventilation, and humidity for curing, as the cheese is cured in caves. These caves are of peculiar rock formation in which there are caves and grottoes connected with one another and with the outside by numerous channels. The temperature and humidity of the caves remain about constant the year round conditions being excellent for mold growth and ripening of the cheese.

If it is decided to renovate the strawberry bed and keep it for another year, first mow the tops, particularly if the matted row system is used, then clean out the bed, removing surplus plants, and cultivate the soil between the rows. In regions

where the growing season is long, the foliage need not be cut until sometime in August, but in the North the tops should be mowed and the bed renovated as soon as possible after fruiting. Some strawberry growers apply a small amount of fertilizer after renovating the bed.

Many poultrymen are building up a good trade by selling pullets of from 8 to 12 weeks of age. This offers a profitable outlet for surplus chicks and gets the pullets off the range before they crowd the birds that are being raised for laying stock. By the time pullets are 8 weeks old they are past the stage of greatest danger and can be kept in colony houses or in summer shelters on range at low cost and with a minimum amount of attention. They usually find a good market among farmers, backyard poultry keepers, and others who do not have broader equipment.

College Station—More than 1000 poultry flock management demonstrations are being conducted this year by members of farm families in 140 counties on the poultry flock calendar plan sponsored by the Extension

Service. These calendars, which contain practical forms for keeping records of production, receipts and expenses, are distributed in limited number by county and home demonstration agents to a few demonstrators who wish to handle their flocks thoroughly and completely in accordance with the best known methods. Results are checked monthly and reported locally, as well as to the Extension poultry specialist.

One of the best kind of sweet-clover hay comes from the seedling crop harvested with wheat or rye. This mixture of sweet clover and

straw cures well in the stack without much damage to the grain and makes fine feed after thrashing.

THE BANG

OF BURNED OUT BEARINGS YOUR MOTOR CAN ESCAPE IT

If you've ever listened to the anvil chorus under the hood when a bearing burns out, you realize the damage that poor oil can do to a motor. Replaced bearings cost real money—a great deal more, in fact, than the cost of a year's supply of good oil.

Isn't that reason enough why you should always insist upon a brand of oil which has stood the test—a brand backed up by an organization which has spent years specializing in the lubrication needs of every type of motor?

Such are the brands offered you by the Continental Oil Company. You may be sure that an oil sponsored and sold by this organization is the right oil for your car.

You protect the bearings—and your pocketbook, too—when you ask for these brands at service stations and garages.

Act of March 3, 1897.

Alfalfa hay should not be put in the barn too green, as it is likely to heat and in extreme cases to burn.

Eggs to be shipped to market should always be packed in the fillers small end down, as they carry better in transit and storage in that position.

A type of library recently introduced in rural communities is the county library, of which there are 245 in the country. They are generally adopted by popular county vote and are of two kinds: the county contracts with a city library or adjacent county library to give county service, or the county establishes a separate library and existing libraries are excluded from the county library and tax area if they prefer.

Serve small portions of food to children so that they can clear their plates without the feeling of being stuffed, or nagged into eating.

Grass stains will usually come out of washable materials with vigorous rubbing, hot water and soap, if treated while fresh. If traces of stain remain on white materials, they may be bleached out with Javelle water.

The waists of sun suits for children should be made of loosely woven fabrics, so that the ultra-violet rays of the sun can reach the body thru the large spaces in the material. All the common textile fibers stop most of the ultra-violet rays.

A horse may get "off feed" and be unfit for work because of musty, spoiled, or dirty feed. Trash and dirt should be removed from the grain box before each meal, and chaff and refuse cleaned from the manger before the night feeding.

The best time to thin late varieties of apple trees is just after the "June drop." This is not necessary in June, but a month or six weeks after blossoming, when the imperfectly fertilized and other weak fruits drop off. It is better to remove all the wormy and other imperfect fruit at this time than to handle it at harvest time.

TIRES Vulcanized at Foster's.

Mr. and Mrs. Hudson Bohannon were Sunday guests of Mr. and Mrs. D. M. Estes.

THURSDAY CLUB ENTER-TAINED BY MRS. BRADLEY

Mrs. Guy Bradley was the gracious hostess last Thursday afternoon when she entertained members of the Thursday Club and a number of guests with forty-two at her lovely home in the central part of town. Cut flowers were used throughout the entertaining rooms where there were three tables placed for games. During the games the hostess served delicious frozen punch. At the end of the afternoon she served cherry pie ala mode to Mesdames E. T. Wells, Sid Cathey, Ben Cowden, Irvin Street, Glen Allen, L. P. Hardy, Harvey Jordan, J. P. Bowlin, John Hardberger, Waldo McClaren, Mack Garner, and R. O. Stark.

Mr. and Mrs. Martin Line left Sunday for Brownfield, where they will make their home.

Mr. and Mrs. H. H. Johnson and daughter, Miss Camille, of Henrietta, who were guests of their brother and family, Mr. Boss Johnson and their sister, Mrs. J. N. Line and family, left last Wednesday for their home.

Mr. and Mrs. Gum Minton spent the week-end with her parents at Peacock.

Messrs. Bill Phillips and Mr. and Mrs. S. T. Price were in Lubbock on business, Saturday afternoon.

Mr. Roy D. Smith and his visitor, Mr. Elmo Robbins, of Abilene spent Saturday in Slaton.

Mr. and Mrs. Elmo Robbins, of Abilene, are the guests of his cousin, Mr. Roy D. Smith, and family.

Mrs. E. M. Wilder and daughter, Miss Mary were in Lubbock shopping, Friday.

Mr. and Mrs. Sam Eaton left Saturday morning for Ft. Smith, Ark., where they will visit his sister.

Mr. and Mrs. R. P. Stark spent Sunday in Slaton.

Calvin Fritz, who is now located at Wilson, as manager of a drug store, spent Sunday at home.

Mr. and Mrs. Gum Minton left Saturday for their vacation. We were informed that they went from here to Peacock for a few days visit with her family, and "goodness knows where they'll go then."

New Record Set in Sales of Used Cars

What is believed to be a new record for the sale of used cars in the United States was established in May when the nation-wide Chevrolet dealer organization sold 157,624 used cars. This was in addition to the record volume of new car business which also soared to a new level during the month.

In commenting on the achievement

CITY TRANSFER CO.

J. W. Kirkpatrick, Owner
O'Donnell, Texas
Drayage and Heavy Hauling

Chevrolet factory officials point out that it was made possible through the tremendous amount of public confidence that has been built up by Chevrolet dealers through the general policy of offering for sale only dependable merchandise. They explain that through the wide-spread use of the red tag "with an O. K. that counts," prospective used car buyers can be assured that every vital part of the car has been properly reconditioned and put in shape to offer thousands of miles of unused transportation.

Compared with the corresponding month of a year ago, when 118,195 used cars were sold, the May 1929 total showed a gain of more than 33 per cent. It also outstripped the April 1929 record of 133,88 used cars.

In accomplishing this feat, the Chevrolet dealer organization sold an average of 6,063 used cars a day during the 26 business days of the month. This was at the rate of more than 600 cars an hour and more than ten cars a minute.

The May record demonstrates that it pays to sell only dependable merchandise, officials point out.

Annual losses from fire on farms and in rural communities are estimated to be as high as 3,500 lives and \$150,000,000 worth of property. Farmers' Bulletin 1590-F, Fire-Protective Construction on the Farm, points out the fire hazards generally found in farm-building construction and suggests how they may be avoided in new buildings or repaired in existing ones. This bulletin may be obtained from the U. S. Department of Agriculture, Washington.

Modern Dry Cleaners

Sikes, and Beach, Props.

At home after June first - - -

Each year thousands upon thousand of those neat, white envelopes find their way through the mails. You know what they are before you open them—an inner envelope, and a trim card—“Mr. and Mrs. So-and-So announce the marriage of their daughter”—and another card—“At home after June 1st, at 101 Moonlight Ave.”

Everyone means a new home initiated, a new family begun—a new set of problems faced by “two-who-are-one.”

They've many a question to settle, and many a thing to buy. Furniture, kitchenware, linen and china—silverware, cereals, meat and potatoes. Familiar names will pass their lips as they buy—easily, naturally. Advertised products, quality merchandise—reliable—dependable. They've known them in their lives. But now they'll begin to read the advertisements in earnest—comparing values, budgeting expenses, choosing this, rejecting that, reserving the other till hubby gets his raise. They'll manage, all right—with the advertisements to help them.

Make it a habit to read the advertisements regularly. The days of helter-skelter selection and blind-folded buying are over. For the sake of time, economy and convenience, have your mind made up when you start out to buy.

REGULAR READING OF THE ADVERTISE-
MENTS IS ONE OF THE ESSENTIALS
OF GOOD HOUSEKEEPING.

Entered as second class matter
September 28, 1923, at the post
office at O'Donnell, Texas, under the
Act of March 3, 1879.

Alfalfa hay should not be put in
the barn too green, as it is likely to
heat and in extreme cases to burn.

Eggs to be shipped to market
should always be packed in the fillers
small end down, as they carry
better in transit and storage in that
position.

A type of library recently intro-
duced in rural communities is the
county library, of which there are
245 in the country. They are gen-
erally adopted by popular county
vote and are of two kinds: the coun-
ty contracts with a city library or
adjacent county library to give coun-
ty service, or the county establishes
a separate library and existing li-
braries are excluded from the county
library and tax area if they prefer.

Serve small portions of food to
children so that they can clear their
plates without the feeling of being
stuffed, or nagged into eating.

Grass stains will usually come out
of washable materials with vigorous
rubbing, hot water and soap, if treat-
ed while fresh. If traces of stain re-
main on white materials, they may
be bleached out with Javelle water.

The waists of sun suits for chil-
dren should be made of loosely woven
fabrics, so that the ultra-violet rays
of the sun can reach the body thro-
ugh the large spaces in the material. All
the common textile fibers stop most
of the ultra-violet rays.

A horse may get "off feed" and
be unfit for work because of musty,
spoiled, or dirty feed. Trash and
dirt should be removed from the
grain box before each meal, and chaff,
and refuse cleaned from the manger
before the night feeding.

The best time to thin late varieties
of apple trees is just after the "June
drop." This is not necessary in
June, but a month or six weeks after
blossoming, when the imperfectly
fertilized and other weak fruits drop
off. It is better to remove all the
wormy and other imperfect fruit at
this time than to handle it at harvest
time.

TIRES Vulcanized at Foster's.

Mr. and Mrs. Hudson Bohannon
were Sunday guests of Mr. and Mrs.
D. M. Estes.

**THURSDAY CLUB ENTER-
TAINED BY MRS. BRADLEY**

Mrs. Guy Bradley was the gracious
hostess last Thursday afternoon when
she entertained members of the
Thursday Club and a number of
guests with forty-two at her lovely
home in the central part of town.

Cut flowers were used throughout
the entertaining rooms where there
were three tables placed for games.
During the games the hostess served
delicious frozen punch. At the end
of the afternoon she served cherry
pie ala mode to Mesdames E. T.
Wells, Sid Cathey, Ben Cowden, Ir-
vin Street, Glen Allen, L. P. Hardy,
Harvey Jordan, J. P. Bowlin, John
Harberger, Waido McLauren, Mack
Garner, and R. O. Stark.

Mr. and Mrs. Martin Line left Sun-
day for Brownfield, where they will
make their home.

Mr. and Mrs. H. H. Johnson and
daughter, Miss Camille, of Henrieta,
who were guests of their brother
and family, Mr. Boss Johnson and
their sister, Mrs. J. N. Line and fam-
ily, left last Wednesday for their
home.

Mr. and Mrs. Gum Minton spent
the week-end with her parents at
Peacock.

Messrs. Bill Phillips and Mr. and
Mrs. S. T. Price were in Lubbock on
business, Saturday afternoon.

Mr. Roy D. Smith and his visitor,
Mr. Elmo Robbins, of Abilene spent
Saturday in Slaton.

Mr. and Mrs. Elmo Robbins, of
Abilene, are the guests of his cousin,
Mr. Roy D. Smith, and family.

Mrs. E. M. Wilder and daughter,
Miss Mary were in Lubbock shopping,
Friday.

Mr. and Mrs. Sam Eaton left Sat-
urday morning for Ft. Smith, Ark.,
where they will visit his sister.

Mr. and Mrs. R. P. Stark spent
Sunday in Slaton.

Calvin Fritz, who is now located at
Wilson, as manager of a drug store,
spent Sunday at home.

Mr. and Mrs. Gum Minton left
Saturday for their vacation. We
were informed that they went from
here to Peacock for a few days visit
with her family, and "goodness knows
where they'll go then."

**New Record Set in
Sales of Used Cars**

What is believed to be a new re-
cord for the sale of used cars in the
United States was established in
May when the nation-wide Chevrolet
dealer organization sold 157,624 used
cars. This was in addition to the
record volume of new car business
which also soared to a new level dur-
ing the month.

In commenting on the achievement

CITY TRANSFER CO.

J. W. Kirkpatrick, Owner
O'Donnell, Texas
Drayage and Heavy Hauling

Chevrolet factory officials point out
that it was made possible through
the tremendous amount of public con-
fidence that has been built up by
Chevrolet dealers through the general
policy of offering for sale only de-
pendable merchandise. They ex-
plain that through the wide-spread
use of the red tag "with an O. K.
that counts," prospective used car
buyers can be assured that every
vital part of the car has been prop-
erly reconditioned and put in shape
to offer thousands of miles of unused
transportation.

Compared with the corresponding
month of a year ago, when 118,195
used cars were sold, the May 1929
total showed a gain of more than 33
per cent. It also outstripped the
April 1929 record of 135,88 used
cars.

In accomplishing this feat, the
Chevrolet dealer organization sold an
average of 6,063 used cars a day
during the 26 business days of the
month. This was at the rate of more
than 600 cars an hour and more
than ten cars a minute.

The May record demonstrates that
it pays to sell only dependable mer-
chandise, officials point out.

Annual losses from fire on farms
and in rural communities are esti-
mated to be as high as 3,500 lives
and \$150,000,000 worth of property.
Farmers' Bulletin 1590-F, Fire-Pro-
tective Construction on the Farm,
points out the fire hazards generally
found in farm-building construction
and suggests how they may be av-
oided in new buildings or located in
existing ones. This bulletin may
be obtained from the U. S. Depart-
ment of Agriculture, Washington.

REGULAR READING OF THE ADVERTISEMENTS IS ONE OF THE ESSENTIALS OF GOOD HOUSEKEEPING.

What's Doing in West Texas

ANSON is doing a great deal of building. A theatre with a capacity of 450 on the main floor and 100 in the balcony is to be erected by Knox Pittard. The plans call for a modern theatre front, three entrances, the foyer of tile. Floor will be of cement and tile. The dimensions will be 30 by 120 feet.

HEREFORD celebrated the opening of a new \$80,000 Baptist church by starting a revival in it. All precedents in church construction were broken in the decoration, seating and architecture of the distinctive church. One thousand auditorium or theatre chairs are in supply. The rose colored, roof, eaves, and circular-topped windows suggest the Spanish motif.

The DE LEON Free Press recently celebrated its 4th birthday. It was established late in June in 1889, eight years after the establishment of the town, and has been published continuously ever since.

O'DONNELL Methodists are spending \$3,500 remodeling their church. Seven Sunday School rooms will be built, besides other improvements. When completed this will be a splendid edifice, and up-to-date in every respect.

TAWKA is to have a new business block. C. A. Hill of Lamesa, has announced that he will erect a brick building 50x125 in size to house a chain grocery store and an automobile agency. The old Howell building, one of the first garages erected in this section will be razed for the new structure.

A BIG SPRING building is nearing completion. It is the \$55,000 Reed building which contains seven stories on the ground floor, and a 25 room hotel on the second floor. It extends the business district one block on East Seventh. Other buildings nearing completion are the Alta Vista Apartment house, Studebaker plant and six-story Petroleum building.

SILVERTON'S new High School building will cost \$80,000, and will be completed by August 15. The school board will make plans to organize both a Junior and a Senior High School, according to C. D. Wright, president of the board.

BROWNFIELD is rushing its street paving. At a meeting of the city council recently, a Wichita Falls plant was employed as engineers on street paving with instructions to start actual construction as soon as possible. It is thought that the proceeds of the bonds recently voted will provide for the paving of several additional blocks.

The COLEMAN Chamber of Commerce recently elected Sim O'Neal to serve another year as secretary of the civic body. Elmo V. Cook head of the agricultural department and teacher of agriculture in Coleman High School, tendered his resignation to accept a position as agricultural agent in Bosque County.

BORGER, the worlds largest carbon black manufacturing center, has ten plants now operating or nearing completion, with 63 units consuming 315,000,000 cubic feet of residue gas daily. Four hundred and seventy five thousand pounds of carbon black for tires, etc., are made every day.

The WICHITA FALLS cheese factory is buying 2,000 pounds of milk a day from farmers and dairymen in the area, which means an income of \$600 daily and \$20,000 monthly from a source that was non-existent only a few months ago. Other creameries and purchasers of milk in that city swell the total considerably.

PERRYTON will soon have a modern three story hotel. It will contain 41 rooms and will supplement another good hotel under construction containing 26 rooms. Paving of 14 1-2 blocks in the business district is under way and a \$50,000 theatre, equipped with vitaphone is nearing completion.

USE PRESSURE COOKERS OR ADEQUATE CURING IN CANNING NON-ACID FOODS

Research and practical experience have demonstrated, says Dr. A. F.

Woods, Director of Scientific Work, U. S. Department of Agriculture, that non-acid food products, like asparagus, beans, corn, peas, beets, spinach, fish, and meats, except when adequately cured or adequately acidified, can not be safely canned by processing in boiling water, but must be sterilized under pressure with approved time and temperature.

Pressure cookers are now standard equipment and are readily available at small cost. The department does not recommend any particular make, although attention is called to the importance of having the pressure kettle equipped with thermometer and pressure gauge for proper control.

"There is now no excuse," says Dr. Woods, "for continuing to take risks involved in canning non-acid foods without adequate pressure cooking or curing or acidification. All recommendations by the Department of Agriculture will hereafter make this clear and emphatic."

CLEAN THE GRANARY

Meal worms cause much havoc if they get into stores of flour or meal, but periodic clean-ups of refuse in mills, warehouses, and granaries will prevent their becoming established, says the U. S. Department of Agriculture. They are found in largest numbers in accumulations of refuse meal, grain and sweepings in mills and under the litter of chicken houses. In commercial establishments material can be treated with heavier-than-air gases or by subjecting it to a temperature of 130 f, for an hour or longer. Often meal worms are reared and used as food for birds, fishes, and small animals.

BEEF IN SMALL PACKAGES

The present-day consumer wants his beef in a small, attractive package. To raise blocky, smooth young animals for such trade many farmers have adopted the system of full-feeding grain to beef calves during the suckling period. By this plan grain-finished beef is produced with a minimum use of grain, and the farmer is able to make a more rapid turnover of operating capital. The relative costs of feed necessary to produce equal gains in calves, yearlings, 2-year-olds, and 3-year-olds, according to a survey made in the Corn Belt by the U. S. Department of Agriculture, were: Calves, \$1; yearlings, \$1.05; 2-year-olds, \$1.26; and 3-year-olds, \$1.60.

FOR POISON IVY

After exposure to poison ivy or poison oak, thorough washing of the skin surface with strong kitchen or laundry soap having an excess of alkali, is a good precaution. Lather well, and rinse several times in running water. Pay especial attention to the finger nails and tender skin between the fingers. This treatment if carefully done may be tried even after inflammation has developed, to lessen the area affected, and the intensity of the poisoning. As a preventative a solution of 1 part of iron sulphate in 5 parts of water has been recommended. This solution should be freely applied to the parts likely to come in contact with the ivy and allowed to dry. By this means some measure of protection may be afforded to persons who are engaged in work that makes it difficult to avoid contact with the plant. A 5 per cent solution of potassium permanganate applied locally is reported to be a very good remedy. The brown stain caused by this solution will gradually wash off or it may be removed more rapidly with lemon juice. Solutions of cooking soda or Epsom salt are ordinarily as helpful as any local applications. In the early stages ointments are not recommended.

A "footprint" paper has been developed by the Bureau of Chemistry and Soils, U. S. Department of Agriculture, that promises to be of use to firms doing a mailorder business in shoes and to clinics and hospitals in making foot records. It is a treated paper that gives a contrasting print. The foot is moistened on the sole with a wet cake of soap and placed on the paper to make the print.

Don't put hot foods in the refrigerator. Cool them first to room temperature. Don't use ice to cool such things as the tops of carrots, the outside leaves of lettuce or thick paper on parcels from the market. Don't waste ice storing vegetables for a short time if you are going to use immediately. Opening and shutting the door frequently raises the temperature of the air in the refrigerator, so that more ice is required to cool it.

High-producing cows rarely if ever get enough feed for their requirements on first class pasture; furthermore very few pastures are first class; therefore such cows need grain in addition to pasture. Cows on pasture when producing more than 20 pounds of milk daily, should be given 1 pound of grain to each 4 to 6 pounds of milk produced. The grain may be a mixture of ordinary farm grains, such as corn, oats, wheat bran, or barley, and should always be ground. For cows producing more than 35 pounds of milk daily

the grain mixture should contain one high protein concentrate, such as an oil meal; otherwise the ration will be too low in protein in comparison with the carbohydrates and fats. Cows producing less than 20 pounds of milk do well on good pasture with no additional feed. They may produce a little more milk if fed some grain, but the increased flow of milk does not ordinarily pay for the grain.

LARE REAL ESTATE TRANS. FERS CLOSED HERE RECENTLY

LAMESA—One of the largest real estate transfers consummated this year in this section was closed here this week when D. Burns Et Al sold 15 sections of the Old Cross C. Ranch 15 miles east of here to Dan T. Watley for \$112,000.00. Watley plans to wolf fence the Ranch and stock it with sheep and cows. He also plans to build one of the most modern ranch homes on the Ranch in the near future. The Burns interest maintained 6 sections of this Old Ranch which lies above the Cap Rock, and

which will be developed into agricultural lands according to D. Burns, who has charge of these lands and who is credited with having made this deal. These lands lay in Dawson and Borden counties.

Early and careful thinning of sugar beets goes a long way toward making a big crop, says the U. S. Department of Agriculture. The best time to thin is when the young plants show four well-developed leaves. The big, strong, healthy plants should be left to grow, and care should be taken to leave one vigorous plant every 10 to 12 inches in the rows. "Skips" should be made up by closer spacing of neighboring plants. Excess beet plants should be removed from the field, and the thinned beets should be cultivated promptly.

Feeding a supplemental grain ration to steers fattening on grass not only increases the gains made by the steers, but it improves the quality of the beef and increases the profits per steer, according to experimental work

carried on by the Bureau of Animal Industry of the U. S. Department of Agriculture at the West Texas Experiment Station. In a 2-year experiment conducted in West Texas steers getting grain in addition to grass sold for \$1.25 to \$1.40 per hundred-weight than steers getting grass only.

Annual losses from fire on farms and in rural communities are estimated to be as high as \$3,500,000 and \$150,000,000 worth of property. Farmers' Bulletin 1590-F, Protective Construction on the Farm, points out the fire hazards generally found in farm-building construction and suggests how they may be avoided in new buildings or repairs in existing ones. This bulletin may be obtained from the U. S. Department of Agriculture, Washington.

"The largest privately owned irrigation system in the world" is the claim for the system that irrigates the Mercedes and Wellsville sections of the Rio Grande Valley.

Be sure to get your Money's Worth

It's your money. You've earned it. It will be spent. For fuel, clothes, furniture, all sorts of necessities—and if there's any left, for luxuries.

The way to make the hard-earned money go farthest is to purchase products of CERTAIN VALUE. Products backed by well-known manufacturers. Products that are widely bought and used, that are carefully and painstakingly kept to high standards of quality, and that have been found over and over again to give full worth. ADVERTISED PRODUCTS!

When you buy a watch or a rake, a set of china or a radio set that is advertised in this paper, you are buying a product whose maker is willing to talk about it, tell about it, put what he knows about it in print and sign his name to it. When you buy advertised merchandise by name, you get the utmost of purchasing value from every dollar.

The Randall News

A small tornado which swept through our community last Wednesday evening blew away several barns and houses, also several windmills. It blew Mr. and Mrs. Allen's house off the blocks, but they were hurt. They knew what was coming and went to the storm cell.

Ball School closed Friday. They do not have any program, but had a lunch at the school house, where they enjoyed themselves. After Misses Jesse Gary and Estell went to Lamesa to turn in reports and receive their pay, they returned to their homes in O'Donnell and Lubbock.

The Home Brew boys played Ball Rough Necks, the score 15 to 15 in favor of the Home Rough Necks. The Randall Rough Necks are going to have to play just as hard as the next time.

Spencer spent Sunday with his boys and J. R. Allen.

J. V. Durham has been on a list for the past few days.

Doyle Birmingham spent with little Irene Smith.

The Randall young folks of the Theater in O'Donnell Saturday.

The Randall Rough Necks of Hackberry Tank to go in the Sunday.

All ice cream supper was given at home of Jesse Meares last night. Those that attended were Mr. and Mrs. Lee Meares, Misses and Sammie Durham, Mr. Elgie and Mr. Carl Smith.

They reported they had a nice party.

Davies spent last Friday with Earl and Paul Snow.

Mrs. Earl Lankford announced the arrival of a little daughter Tuesday (June 4).

The lady will answer to the name of Madeline.

The Randall boys went to town Monday night. They were Haskell and Arnold Davies, Paul Snow, Rubin Meares and Smith. After returning they showed their made a visit to Hank to go in swimming.

The crowd was out at Sunday. Brother McGuire for us and we heard a nice one. We are hoping that he will be here second Sunday and for us again.

VUNCANIZED at Foster's.

Swimming Expert Will Train "Y" Girls

Miss Tommie Sorrels, Former of Baylor, is Now Physical Education Secretary at 'Y'

The following article taken from a Waco paper will be of much interest to local people. Miss Tommie Sorrels is the daughter of Mr. and Mrs. E. L. Sorrels, and is well known to O'Donnell, where she has spent several summers. She began her career as a teacher in Baylor University three days after receiving her degree from that institution of learning. We extend hearty congratulations to her and to her parents.

Miss Tommie Sorrels, newly-elected physical education secretary to succeed Miss Mary Willet at the Y. W. C. A. is an A. B. graduate of Baylor University and is on the instructional staff of that institution now. Having studied swimming at the University of Colorado and general sports in various camps, Miss Sorrels is enthusiastic in her plans for her department at the Waco session of 1928 Miss Sorrels was head of the physical education department at Baylor and seasons previous at Hackberry and seasons previous had taught swimming at Camp Swannanon, Ridgecrest, N. C.

There will be Girl Reserve clubs from both South and West Junior highs and from Senior High who will spend three afternoons a week under the tutelage of Miss Sorrels. Tennis will be taught in Baylor park on South Fifth street and Friday night of each week will see camping parties installed overnight at the Y camp on the Bosque road. Bi-monthly trips of the Traylor club will also be sponsored by Miss Sorrels during her term of instruction at the Y. W. C. A. During the summer term she will be in Columbia university, New York city, and while there will have method and technical courses at the national Y. W. C. A. headquarters.

Some tomato growers allow diseases to destroy their crop on the belief that spraying delays maturity. Spraying experiments conducted by the U. S. Department of Agriculture over a period of seven years show

that there is no difference in the average earliness of sprayed and unsprayed tomatoes. Fluctuations in earliness probably due to differences in the soil.

One of the latest devices for saving man labor in handling hay is a combination baler, developed in Kansas, that might be called a three-in-one baler. This machine takes the hay directly from the windrow or swath, bales it, and delivers the baled hay to a wagon as the outfit travels through the field.

Hereford claims the largest single wheat field, under one fence in the State. It comprises 6,000 acres.

In March, 1929, Texas produced a daily average of 809,000 barrels of oil against 789,000 in February and 694,000 in March, 1928.

About half the commercial winter spinach crop of the United States is produced in Texas from 29,000 acres sown to that crop.

GALLOPING GUS THE HOTFOOT CUSS

Hooray!

If your vacation starts tomorrow,

Don't spend it all in dread and sorrow:

A thermos jug will keep you happy,

So buy one now, and don't be sappy!

WAITING for the coffee to boil and the food to cook is all right on a pleasant day, but what are you going to do on the camping trip when you find rain and mud? A hot-and-cold jug will solve this little problem, and you may take the word of Galloping Gus for it!

SINGLETON
Hardware Co.

Galloping Gus, the Hotfoot Cuss. Comes when you call without flurry or Fuss!

The Chevrolet Six offers all the Distinct Advantages of BODY by FISHER

Never in all the history of the automotive industry has a low-priced car provided coachwork of such outstanding style and quality as the new Chevrolet Six.

The smart new bodies are built by Fisher, with all the mastery in design and craftsmanship for which the Fisher name is famous. Lines are long, low and graceful—seats are deeply cushioned and luxuriously upholstered—interior hardware is fashioned by Ternstedt—and finishes are modishly smart and lustrous.

In construction, too, the new Fisher bodies represent a marked advance. Built of selected hardwood and steel—they provide a measure of strength, endurance, comfort and safety unapproached in any other low-priced automobile.

Visit your Chevrolet dealer today. See and inspect this sensational new Chevrolet Six.

AN ORDINANCE

AN ORDINANCE PROHIBITING THE KEEPING OF HOGS WITHIN THE CORPORATE LIMITS OF THE CITY OF O'DONNELL, TEXAS, PROVIDING PENALTY FOR VIOLATION, AND DECLARING AN EMERGENCY:

WHEREAS, by virtue of an election held in the City of O'Donnell, Texas, on the 11th day of June, A. D. 1929, at which the proposition as to whether or not the City Council should by ordinance prohibit the keeping of hogs within the corporate limits of said City, was submitted to the qualified voters of said city, and it appearing to the City Council that said election was legally held after proper order and notice thereof, and it also appearing to said Council that 106 votes were cast at said election, of which number, 67 votes were cast in favor of prohibiting the keeping of hogs in said city, and 39 votes were cast against the prohibiting the keeping of hogs in said City:

NOW THEREFORE, by virtue of the premises, and the expression of the will of the people of the said City of O'Donnell, it is hereby ordained that after passage and publication hereof, it shall be unlawful for any person, persons, firm, partnership, association or corporation, to keep, or permit the keeping upon their premises, or any premises over which they or any of them exercise control within the corporate limits of the City of O'Donnell, Texas, any hog or hogs.

That whoever shall violate the provisions hereof by keeping or permitting the keeping of a hog or hogs

upon their said premises as above described, shall be fined in any sum not to exceed one hundred (\$100.00) Dollars, and each day violation shall be deemed a separate and distinct offense and punishable as such.

The fact that the keeping of hogs within a city where the inhabitants are closely grouped together is recognized as a menace to public health, rendering the same in said city of O'Donnell, a nuisance, requiring the abatement thereof, and the fact that numerous hogs are now being kept in said city, and same is a menace to the public health, creates an imperative public necessity that the rule requiring Ordinances to be read at these separate meetings be and the same is hereby suspended, and this Ordinance shall be effective immediately after its passage and publication and it is so ordained.

Passed and approved, this 13th day of June, A. D. 1929.

E. M. WILDER,
Mayor, City of O'Donnell, Texas
ATTEST: W. A. Tredway, City Secretary.

C. A. Rayburn attended a meeting of Chevrolet dealers of this section which was held in Amarillo on Friday and Saturday of last week. He reported a splendid meeting and a pleasant trip.

Mr. and Mrs. E. L. Sorrels spent the week-end with Mr. and Mrs. Tom Mansell and family at Roby.

Mr. and Mrs. Hudson Bohannon, accompanied by Miss Bonish Estes, spent the week end in Slaton with relatives.

MRS. E. T. WELLS EN.
CERTAIN W. M. S.

Mrs. E. T. Wells was the gracious hostess Monday afternoon to members of the Woman's Missionary Society of the Methodist Church, when they met at four o'clock for the regular social meeting of the month.

Representatives of a cooking utensil company were present for a short demonstration of their wares after which the meeting became a business meeting.

Pews and other furnishings for the new church were discussed, plans for the play soon to be presented by the organization, and also the highly appreciated offer of the manager of the Lynn Theatre, Mr. L. P. Hardy, who made two interesting propositions to the ladies, one of which will be gratefully accepted.

The hostess, assisted by several of the younger guests and her daughter Miss Beverly, served ice cream and cake to Mesdames Geates, Garner, Johnson, Estes, Hardy, Veazey, Harris, Bowlin, Stark, John Johnson, Robison, Moore, Cook, and Misses Era and Mabel Harris and Jeanette Thomas.

T. E. L. CLASS ENTERS THE NEWSPAPER GAME

Members of the T. E. L. Class of the Baptist Church, who were guests of Mesdames Hinkle, Sutton and Sorrels last Friday afternoon, at the home of Mrs. Sorrels were introduced to a new and exciting business.

The lesson on Winning to Christ was taught by Mrs. Joe Wilson, and was a source of inspiration and

thought to all who heard it.

After the lesson, the hostesses announced that the guests were to publish a newspaper called "T-E-L-L." Mrs. Edgar Ellis was editor-in-chief, with an editorial staff that would be a joy to any newspaper man. The heads of the various departments were told that it was newspaper license to use the imagination, and the results of their efforts were read all agreed that the imaginations had been unmercifully used. For fear of being sued for libel, we refrain from quoting any of the "news."

Apricot ice and wafers, with plate favors of daisies and fern were served to Mesdames Witherspoon, McKay, Ellis, Yandell, Goddard, Brinson, Musiek, Harberger, Middleton, Wilson, Eaton, James, Howard, Mansell, Sutton, Mixson, Hinkle, Smith, Taylor, Cabiness, St. Clair, Lawler, and Vermillion.

JUNIOR B. Y. P. U. ENJOYS AUTOMOBILE SOCIAL

The Junior B. Y. P. U. boys and girls enjoyed an "Auto" social in the basement of the first Baptist church Friday evening, June 14th. Every one present had a howling good time and are anxious to have many more socials before the summer has past. Among some of the games played were: An auto race between a Ford and Chevrolet, Filling Station game, in which the girls fed the boys a cup of water with a spoon to see who could get through first. Changing "At-tire" was a game which gave them plenty of pep, each person had to exchange something as a shoe, tie, pin, etc and then change back. This was also a race.

Red lemonade and doughnuts were served to the following: Howard Scott, Joe Earl Wilson, James

Hamilton, Thornton and Wicks, Charles Martin, Jr., St. Clair, Alvira Lawler, Margaret Millon, Norma Ruth Vernon, Minnie Mae Williams, Wynell Johnnie Ruth Martin, Joyce Maxwell, Maudie McLauren, Williams, Rev. and Mrs. Johnson, Mrs. C. B. Martin, Mrs. Williams, and Mrs. Vernon.

Mrs. A. C. Lambert and left Saturday morning for where her father is very ill.

Mr. and Mrs. H. T. Chubbuck, were guests of Mr. and E. L. Sorrels Thursday and Friday.

To prevent horses from taking too rapidly, place a little clover hay or some whole corn in the feed box with the oats.

1268 acres would make a big farm

At Milford, Michigan, 1268 acres have been made—not into a farm—but into a Proving Ground for automobiles.

Long before your General Motors car is built, specimen models are sent to the Proving Ground. This fleet is tested in actual use. It has to meet every bad driving condition, from heart-breaking hills to slambang bumps.

But that isn't all. Other cars of American and European manufacture are brought and put through the same tests, so that General Motors always knows how its products compare with others.

The tests involve speed, power, endurance, braking, riding comfort, handling ease, fuel, oil and tire economy, body strength—every phase of car construction and performance.

When the specimen cars are finally able to meet every test, they are sent back to the factory. The car you buy is made exactly like them.

The next time you examine a General Motors car in your dealer's showroom, think of those 1268 acres. They would make a big farm. But they make a better promise of proved car value.

"A car for every purse and purpose"

CHEVROLET, 7 models, \$525-\$725. A six in the price range of the four. Smooth, powerful 6-cylinder valve-in-head engine. Beautiful new Fisher Bodies. 440 Light-duty chassis. Sedan delivery model, 1 1/2 ton chassis and 1 1/2 ton chassis with cab, both with four speeds forward.
