## Four-County Meeting Of Commissioners Set

Muleshoe Jaycee-Ettes reported that the second inoculation clinic last weekend totaled 300 shots given by the state health nurses. The third in the series is slated for May 14 from 1 until 5 p.m. in the courthouse.

Mr. and Mrs. Ben Cockrell are leaving today for a trip to the Bahama Islands. He is agency manager of the Bailey County Farm Bureau. They will join 30 other Farm Bureau agents and their wives from Texas on a chartered flight from Fort Worth International Airport. Trip is sponsored by Southern Farm Bureau Life Insurance Co. for agents and managers who set outstanding records in the sale of life insurance last year. The group will be staying at Nassau Beach Hotel in Nassau.

Melvin Dean Ethridge, Tech junior from Muleshoe and son of Mr. and Mrs. S. M. Ethridge, Pointe 5, Muleshoe, has been selected for membership May 5 in the Texas Tech chapter of Phi Kappa Phi, national academic honorary for students in the top 10 percent of their class for seniors and graduate students and for the top 20 for juniors.

Victor Cox, Muleshoe Appaloosa ranch, has purchased a son of the famous Jaker B, a 2-year-old stallion to replace Hi-Shot, electrified in a rain storm June 25 last year.

The Muleshoe Area Public Library announces "New Baby's Better Book-Building Fund." Parents of children and others are invited to send donations to the library when the new arrival makes his appearance. The donations should be marked "New Baby's Better Book Fund," and Ann

An enthusiastic group of library supporters from four counties heard reports on the recent Governor's Conference on Libraries, discussed the urgent need for good library service, and endorsed the continued operation of the High Plains Bookmobile at a meeting in Muleshoe this past week.

During the discussion period following the speeches, the group was told a joint meeting of commissioners' courts concerned with the bookmobile was in the making. To the obvious pleasure of the audience, County Judge Glen Williams stated that the Bailey County Court was inviting Lamb, Farmer, and Cochran County judges and commissioners to Muleshoe at an early date to discuss the continuation of the mobile library service.

This response to intense public interest in the matter was lauded from the floor of the

meeting, as was the earnest desire expressed by Ike Stinson and Lloyd Stephens, the Bailey County Commissioners present, for the opportunity to give careful study to the operating costs the county must assume if the service is to continue after this year.

A feature of National Library Week observance in this area, this "Post-Conference Meeting" was one of over 150 scheduled throughout the State of Texas to express the deep concern of Governor John Connally and bring back the message of his conference, which drew 2500 delegates to Austin March 23. The Rev. J. Frank Peery, pastor of Muleshoe's First Methodist Church and Muleshoe Area Library Board Chairman, summarized the Governor's Address, pointing out that Texas ranks 37th among the 50 states in library expenditures, devot-

ing only 84 cents per capita annually and providing public library resources of less than one whole book per person. Terry Blake, Bula Church of Christ Minister and school teacher, discussed "Librar Support, A Shared Responsibility," asserting that the city, county, state, and federal governments, along with private benefactors, must all share the responsibility for library service.

"Libraries Need Citizen Support" was the subject covered by Mrs. C. S. Silcott, Lamb

County Library Board Member from Olton. She said libraries need people support — business people, professional people, housewives, school children, and retired individuals. She went on to point out that at current levels of expenditure, Texans spend \$5100 to expose a child to education through the 12 grades and then spend only \$42 to provide this child, now grown, with materials to utilize the reading and studying

## Rufus is Back In Good Graces

Houston changed its mind — at the mayor's request (or command). He's happily roaming the downtown streets of Houston as the state Jaycee convention nears its finish.

High-flaunting Houston had not taken kindly to Rufus when he turned up with the Muleshoe delegation as their mascot. In fact, officers were downright rude to him; they ordered him out of the downtown section and cooped him up at a vet shop.

But Friday the mayor stepped in and issued a special "permit" to Rufus. Now everybody's happy!

## Schools Set Closing, Name New Teachers

Muleshoe school board has set dates for closing events for the 1965-66 year, and has named three teachers.

The closing series will start Sunday May 22, with bacalaureate services in the high school auditorium at 8 p.m. Last day of school will be Monday, May 23 with schools to dismiss at 3 p.m. Records day will be Tuesday, May 24 when grade cards will be passed out, and commencement is slated for that evening in the high school auditorium.

The board at its meeting this past week, named Mildred Tanner as a second-grade teacher at Richland Hills. She has a 15-year record and holds a B. A. degree in elementary education. She succeeds Margaret Stenmons who plans to retire. Jean Moore, who has taught for four years, was named to the staff at junior high. She is a graduate of Texas Tech with majors in English, art and physical education.

## Bookmobile Testimonials Are Pouring In

### Junior Now Makes Good Grades-- Bookmobile Did it!

The bookmobile pulled up in front of the grocery store and stopped for its usual two-hour visit at this particular stop. Almost immediately, a woman with a small boy, 8 or 9 years old, climbed aboard and began looking over the supply of books.

She was hardly the type you'd expect would be pawing through the shelves of a portable library looking for reading material, and the bookmobile librarian probably was a bit more curious than usual. "It's for my little boy here," the woman explained as if reading the mind of the librarian. "This bookmobile is wonderful!" she exclaimed. "My grades have climbed 10 percent since the bookmobile began coming to our little town."

Mrs. Pena sat down at the little counter at the front of the mobile library after the two women had gone happily back to their farm homes, and said, "well, I wish I had kept a diary; yes-sir, I surely do!" Like the teacher at Bula school, Mrs. Pena recalls. She told the bookmobile librarian that the school's debate team is on its way to regional competition, and she believes a part of their debate material was prepared from books obtained by the contestants from the High Plains mobile library.

And while she was sitting there thinking back over the past two years the bookmobile has operated, she recalled the woman in the south part of the county who walked two miles to pick up a supply of books — and to return the ones she had checked out on the bookmobile's previous visit.

Walking two miles to the bookmobile is not too unusual — but in the snow? Mrs. Pena said the wind was beating up a dither and the snow was blowing every which way. Two miles in that kind of weather to get reading material!

And there's a sophomore boy from Farwell, for instance, who meets the bookmobile every three weeks — every time it visits Farwell — and he checks out about 30 books for himself. The books run the entire range from fiction to non-fiction, and his sister says that if he runs out of books before the book-

mobile gets back for his next visit, then the lad starts re-reading the books he checked out last.

Ever try to get material or home green houses? Apparently it isn't just the sort of thing that can be found in any new stand.

So, there's this man in Lamb county (a school teacher) who became very much interested in a home greenhouse but he didn't know how to go about it — an finding material was not easy until he discovered the bookmobile could get him book material on the subject. They were ordered from the state library and three weeks later the green materials he needed, including complete construction plans.

Or take the case of the 5-year-old at Littlefield who came to check out his books one Saturday and proudly presented Mrs. Pena with a picture of bookmobile he had clipped from his little magazine, seems his home town has one, too.

And that's the way it goes day after day and week after week in this business of running a four-county, mobile library. It's a wonderfully rewarding work, Mrs. Pena says, and business is good — very good.

She says Three Way in March set some sort of a record, folks there checking out 247 books to individuals in a one-hour stop. And there were 24 new readers' cards issued during the same one-hour stop.

## Bookmobile

There's a whole new world for the taking, seems to be what Bookmobile Librarian Georgia Pena is saying as she wanders outside the Bookmobile for "customers." Accepting the offer are Mike Slayden, 11, and Sandra Sims, 12, who literally come running. (Journal Photos)

Readers . . . . . come running.

Altogether, the bookmobile has checked out 93,000 books since it started operating two years ago, and that's a lot of books in anybody's league! Incidentally, it started operating April 15, 1964, and every three weeks, it makes 43 stops, tra-

SAMPLES CANDY - Mrs. Darrell Kenemer, secretary-treasurer and on the finance committee of the Muleshoe Home Demonstration Club, is giving Mrs. Herb Ramage, member of the club, a sample of the Kathryn Beich candy the club is now selling for \$1.50 per box. ### Women of Farm Bureau Join Pornography War

Richland Hills and Mary De Shazo P-TA organizations are presenting a series of articles dealing with pornography, and this is the third in the series. The article below was written by Mrs. Ed Little and Vera Engelking for the Bailey County Farm Bureau Women's committee.

#### BIG BUSINESS OF PORNOGRAPHY

"We are starting a new line paper-backs and need tough, hard hitting, sex-action filled books, geared to the demand of today's competitive market. What we seek is off beat sex, with emphasis on deviations. The sex must be strong and as off beat as possible."

The above statement was sent by a publisher to prospective writers in November of 1963. Destructive as it may seem, it offers only a glimpse into one phase of the huge, profitable business of pornography.

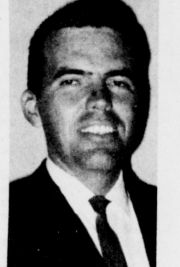

There is a law against selling obscene literature, but this is not an easy law to enforce, but they only have help from higher ups. One publisher in California was under indictment for selling this filth, but was able at the time, to continue publishing it. His total annual sale during this time, was approximately six million dollars.

The main problem for the pornography publishers is the distribution. They try to arrange for the wholesaler to handle their wares. Most generally distributors retails, they do not pressure retailers to take the obscene literature, but many retailers comment, "We have to take so many copies of the bad publications in order to get the good ones". When will the retailers realize that they could send the pornography publisher into bankruptcy if they would be strong enough to reject the pressure buying.

If this tide of obscenity is to be beaten back, citizens must recognize pornographic material as their public enemy. We must start by creating in us, as well as our children good reading habits, and these habits like all good or bad habits must start in early life, and could be

# Dear Editor:

Dear Editor: We were very interested in your picture Thursday of the county courthouse with your caption of explanation: "elimination of a number of 30 year old trees... giving way to provide parking space..." We would like to ask these questions:

1. Whose parking space is being provided? The parking areas on each of the four sides of the courthouse are very seldom filled completely as it is.
2. Why don't county and city fathers also consider the loss of beautification when authorizing the removal of the few 30 year old trees in this treeless part of the country? Pruning instead of cropping off tops of

trees is a recognized method, economical, as well as more artistic, also, for the other trees. A beautification program, as well as clean-up, could be an interesting discussion for officials as well as the city planning committee.

3. Couldn't the money (from what fund or funds did it come?) and equipment have been used more for the benefit of the whole county - by use in something else, like more money to support the area bookmobile as area library, programs, a public park?
4. And finally, why so much civic apathy - among the public as well as officials - in such matters? We all should be and most are concerned. The general public should be interested in answers to these questions. That is why we are writing this letter to the editor.

Sincerely yours,  
(Name withheld by request)

May 15-21 is Soil Conservation Stewardship week and the Hereford banquet is special emphasis for Soil Conservation Week. Local ministers will be invited to attend meeting at Hereford and this banquet will

take the place of breakfast held in former years. They reviewed applications to participate in great Plains program. Applications were from Gordon Duncan, Jack and T. C. Young, George Mullins, Oris Jones and W. B. Slayden. These individuals were applying to carry out such conservation practices as farm ponds for livestock water, irrigation pipe line, parallel terraces, control of mesquite and seeding grass. A. L. Dalrymple discussed with board the need for more local interests in soil and water conservation contests. Those present were: Chairman Inman, Lewis Scottgins, Willie Welch, E. N. McCall and Carl Pollard, Board members, Secretary Ruth Roberts, Jean Martin, Home Demonstration agent, A. L. Dalrymple, state Soil Conservation board of Lubbock. Others present were: George Sultemeir work unit Conservationist and C. J. Robertson Soil Conservation Service of Muleshoe.

## Budget

(Continued from page 1) states an increase in the city secretary tax budget. The street department budget increase in expenditures is due to appropriations for street seal-coating which was not included in the last budget year. The reduction in the refuse collection department expenditures was accomplished by not replacing a garbage truck as was required this past budget year. "3. Water and sewer fund increase in expenditures is due principally to appropriations for capital expenditures for new water pipe. "4. An increased expenditure proposed by this budget is the appropriation of a reserve for approximately 80% of the cost of a 'comprehensive plan' for the city of Muleshoe. "The proposed tax structure is based on the existing tax rate of \$1.10 for each \$100 of assessed valuation, and this budget proposes no change in

existing service charges. "It is the intention of this budget to estimate revenues conservatively and to appropriate expenses as accurately and intelligently as possible. "The budget foresees these revenues: Ad valorem taxes, \$106,257. Water and sewer funds should bring in \$118,000 of this amount. In paying for the year's operations, the budget expects \$127,178 for general operational costs to be paid out of the general funds. Water and sewer operational will cost \$56,321, contingencies in this department \$3,000 and capital \$13,400. General debt service will run to \$36,170. Water sales, always one of the top items on the city's income side of the ledger, are expected to run to \$86,500, sewer charges will bring in \$28,500, and water tap fees will be \$1700 and \$1200 for sewer tap fees. This is a pellet of Ammo-Phos fertilizer. So is this.

And this.

As a matter of fact, every single Ammo-Phos pellet shown here is exactly alike.

Which brings us to the main point of this message. Because Ammo-Phos is chemically compounded - instead of mechanically blended - every single pellet in every sack of Ammo-Phos contains every single ingredient you ordered. In exactly the proportion you order. So you never have to worry about parts of your crop getting too much Nitrogen. Phosphorus. Potash. Or not enough.

Which means that Ammo-Phos delivers more dependable nourishment to your crop - pellet for pellet - than other fertilizers. Period.

# Schools Studying Federal Aid Projects

Muleshoe schools may participate in Title I and Title II of the Elementary and Secondary Education Act, Public Law 89-10.

This was revealed at this past week's board meeting when two portions of the program were discussed at considerable length.

Under Title II, the schools are purchasing library books, periodicals and audio visual materials.

Another portion of the Title II program includes a pre-school program for children this summer. Also included is a six-weeks' college course for eighth teachers to be carried this summer. Still another would add equipment and supplies, but the program as yet has not been approved by the Texas Education Agency.

Many schools in the area, it was pointed out, are participating in the federal program.

More than 120 persons attended the dinner meeting in the country club Friday night to hear a sales program presented by Bill Leigh, sales specialist, for 35 Muleshoe firms and their employees participating in a Journal-sponsored sales program. First of a series of advertisements appears in this issue. (Journal Photo)

The board then organized and picked Joe Embry as president, Pool as vice-president, and John W. Smith as secretary.

It also was announced that the school's athletic budget in 1966-67 will be \$400 higher than during the current year. The board set the budget for all sports for boys and girls in grades 7 through 12 as follows:

Football, 7-12 boys, \$10,351; basketball, grades 7-12, boys and girls, \$214,800; Track, grades 7-12, boys \$1304.95; golf, grades 9-12, boys, \$150, and first-aid supplies, all sports, \$317.60. This makes a total of \$14,473.35.

## Chevrolet Presents Engine To Auto Mechanics Class Here

Automotive shop students in Muleshoe Independent School District, now will be trained in the maintenance and repair of the latest automotive parts and equipment, thanks to a recent gift from General Motors Corporation.

One new 1966 Chevrolet 6-cylinder 250 cu. in. engine, a powerglide transmission, and one Rochester carburetor together with an overhaul stand and special servicing tools were presented to Jim Beller, automotive mechanics instructor, by T. J. Bolf, area service manager, Chevrolet Motor Division.

In making the presentation to the Muleshoe school for use in its auto mechanics class, Bolf said such gifts of equipment in the past have been found of real value to instructors and students in their shops, classrooms and laboratories.

Others attending the ceremony included Mr. Neal B. Dillman, Superintendent of Muleshoe Independent School District.

## Water's Future is of Concern to All Texans; 50-Year Plan is Studied

By Vern Sanford Texas Press Association

AUSTIN - As State agencies charged with meeting the Federal deadline of submitting a Texas Water Plan by June, 1967, "wade" through all obstacles in the path of that plan, "water" is the topic at every turn in the capital city.

An unique statewide water plan of importance to all areas of Texas will be unveiled within the next few weeks.

In a brief preview, water experts revealed that the overall 50-year plan will cost more than \$2 billion. Joe M. Kilgore, chairman of the comprehensive water planning advisory committee, said the proposals are "broader than ever before attempted by any government."

Joe G. Moore Jr., executive director of the Texas Water Development Board, said the plan will propose redistribution of water from surplus areas of northeastern Texas. Recommended diversion would follow the Trinity River, the Brazos River and a canal down the Texas coast.

Moore estimated cost of waste treatment facilities alone to bring stream "return flow" (for reuse) to acceptable standards at \$740 million. Figures would include regional treatment systems for both municipal and industrial wastes.

No other state, said Chairman Kilgore, has attempted to include in one massive effort all aspects of water planning touching on its entire economic and cultural life.

Attorney General Speaks - State Savings and Loan Department has authority to decide whether a business not under its regulation may use the term "savings" as part of its name, Atty. Gen. Waggoner Carr ruled.

In other recent opinions, Carr concluded that:

- Newly authorized farm machinery exemption from motor vehicle inspection requirement does not necessarily include trucks and jeeps primarily used on farms.
- Board of Economic Opportunity of Laredo and Webb

## Dear Friends of El Monterrey:

As you have perhaps noticed, I am no longer associated with El Monterrey, as of April 1st, 1966.

To our kind friends everywhere -- especially of Clovis, Portales, Muleshoe, Hereford, Bovina, Friona, Sudan, Littlefield, etc., may I express my appreciation for your past patronage -- Not only for the past 8 years, during my ownership, but also for the previous 12 years when my father (Col. Weede) was associated with the Gray Reed's. As you know, my Aunt & Uncle (Sis & Gray Reed) were the original founders some 30 years ago.

Although I've sold all my interest in El Monterrey, I have retained the right to enter any business in any location -- even to direct competition to El Monterrey.

Sincerely  
James A. Weede Jr.

People who see and hear Rubinoff here will share one night out of the nine months which he spends each year touring the nation. The nine months will add up to some

**Fertilizer Reduced Plants, But Aided Size**

**HALFWAY** - Two-year research results from the High Plains Research Foundation show that placing nitrogen and phosphate fertilizers in contact with cotton seed at planting reduced plant stand, but increased plant size, boll size, and lint yield, according to Howard Malstrom, Associate Soil Scientist.

Data from many research centers have long indicated that the greatest need for nutrients is in the plant's first three weeks of growth. The major problem in using a starter fertilizer lies in placing it close enough to the seed in sufficient quantities for early uptake, and yet avoid the "burning" effect which reduces germination.

Research has pointed to nitrate-nitrogen as being less toxic than ammonium-nitrogen in inhibiting germination. How-  
Malstrom reported that two materials were applied in the 1965 test, 100 pounds per acre of 20-20-0 (nitric-phosphate) and 16-20-0 (ammonium phosphate), metered in with the

125 cities visited where 250 evening concerts are played with 1250 additional free appearances at service club luncheons, hospitals, radio and TV broadcasts and at student assemblies.

"Rubinoff and his violin" is a phrase fraught with magic of the mystical affections of the nation, words that radiate sheer tonal enchantment. As one critic put it, "The sikeka strains that emanate from Rubinoff's two-century-old Stradivarius over which he glides with caressing nuances, his unique arrangements and sparkling symphonic interpretation of popular music, bring a welcome warmth and vigor to the concert platform in the person of this electrifying artist."

After an open-air concert at the Chicago Grant Park that drew 225,000 listeners, one of the largest audiences to attend a concert in the United States, the Chicago Herald-Examiner, concluded its front page highly seed in order to compare the two nitrogen sources. A month after planting, all plots, including the check, received 70 pounds per acre of nitrogen from anhydrous ammonia.

Agronomic data such as plant stand, plant height, and boll counts were taken throughout the growing season. Little difference was observed between the nitric-phosphate and ammonium-phosphate, although they both varied significantly from the check in many aspects. Germination was reduced, compared to the check, in the case of both fertilizers, but the fertilized plants were larger all season, carried more bolls, and surpassed the check in yield, although not significantly.

Malstrom stated that this technique shows great promise and will be studied in more detail in 1966 at the Foundation. The effect on other crops, in-

laudatory criticism as follows: "He is a dynamic personality who sets audiences on fire!" His concert here will include such numbers as "Dance of the Peasant," "Clair Delune" (Claude Debussy), "Hora Staccato," (Dinicu-Heifetz); Warsaw Concerto (Richard Addin-sell); "Fly Me to the Moon" (Bart Howard); "Jalousie" (Jacob Gade) and his famous "TV special, And Now a word from our sponsor."

Also to be played are "Polonaise" (Chopin), "When Day is Done" (Robert Katscher), "Fiddlin' the Fiddle" (Rubinoff) "Ah, Sweet Mystery of Life," (Herbert) and "Square Dance Fiddlin'".

**ATTEND THE CHURCH OF YOUR CHOICE THIS SUNDAY**

**The Church PLANTS and WATERS...**

The church plants the seed of faith, waters and tills the soil. These are the things that a church can do, and no more... then God provides the love and life-giving essentials. The growth then depends on the type of soil... is it barren... mediocre... or fertile. Your life with God will grow according to your will and desire.

"Blessed is the man that walketh not in the counsel of the ungodly, nor standeth in the way of sinners, nor sitteth in the seat of the scornful. But his delight is in the law of the Lord; and in his law doth he meditate day and night. And he shall be like a tree planted by the rivers of water."

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

# Parcel Post 'Reform' Effects Big Savings

Residents of Muleshoe would save thousands of dollars annually on heavier packages under parcel post reform legislation pending in congress, Postmaster Spencer Beavers said Saturday.

The saving could be \$2 to \$3 on a package, or more he explained. Equally significant, Postmaster Beavers said, there are many instances where mailers decide not to send such parcels at all, with resulting losses of much business by the Muleshoe Post Office. Postmaster Beavers' report was based on a new analysis of parcel post reform legislation, H. R. 12367, sent to him from Washington, D. C., by President James O'Tool of the national association of Postmasters.

At the same time the postmaster reported the parcel post reform measure would help the Post Office Department reduce the postal fund deficiency to its lowest level since enactment of the Postal Policy Act in 1959 from the present \$376 million deficit to \$198 million.

On behalf of the Postmasters Association, which has thrown its full support behind legislation introduced at the request of Postmaster General Lawrence O'Brien, Postmaster Beavers made these points of particular interest to residents of Muleshoe:

As a first class Post Office, the local office cannot accept most parcels of more than 20 pounds or more than 72 inches dimensions if they are going to another first class post office 150 miles or more away.

Such parcels sent by private express, at much higher charges, often cost several dollars more than by parcel post. However, H. R. 12367 would provide new parcel post limits of 40 pounds and 100 inches, with resulting savings for mailers at the Muleshoe Post Office.

An increase of 14 cents a parcel would be needed to offset the parcel deficit, but, if H.R. 12367 is enacted into law, a much more moderate increase averaging 8 cents a parcel would be provided, Postmaster Beavers said.

More than 100 smaller post offices are raised each year

from second class to first class. When they are raised, parcel mailers under the present restrictions must often suffer added costs involved in private express company handling of the heavier parcels.

Residents of smaller post offices enjoy limits of 70 pounds and 100 inches for parcel post packages.

In a recent typical example, Roanoke, Alabama, a second class office was raised to a first class. A parcel of 21 pounds was formally sent to Bainbridge, Ga., about 155 miles away, for \$1.53. Now if it is sent at all, it is sent by a more expensive means, in case of Railway Express Agency, it would cost \$4.70.

Residents of small communities who do not have the limitations imposed on first class post office mailers suffer nevertheless as a result of the limitations on parcel post, provided 14 years ago under a law favoring R.E.A., the National Association of Postmasters report indicated.

Because of lost volume in first class post offices - which today serve 140 million Americans, parcel post rates (taxes) for everyone have been raised about \$500 million since 1951. Overall increases in parcel rates have totaled about 130 percent.

Some postoffices more than 150 miles away from Muleshoe which are now affected by the limitation here include Abilene, Vernon, Big Spring, Midland, and Roswell, N.M.

The parcel post reform legislation would go a long way toward correcting parcel mailing problems and reducing expenses, the postmaster noted.

For parcel post going less than 150 miles the present 40 pound limit would be retained, but a new size liberalization to 100 inches from the present 72 inch limit would be beneficial for these parcels, the Postmaster explained.

Rep. George Hinson of Minnesota has proposed a state-supported orientation school for new school board members.

Texas Liquor Control Board will hear arguments on April 25 on a proposed regulation to allow telegraphing an alcohol gift.

Lance Puckett, troop 620 was awarded metal works merit badge. He lives at 122 Cedar, Muleshoe. Mike Duncan, Troop 620 was awarded Second Class badge and First Aid badge. He lives on Route 1, Muleshoe. Herbert Hunckley, Troop 620 was awarded Second Class badge. Herbert lives at 506 East Dallas, Muleshoe. Bill Elrod is Scout Master for Troop 620 and Bob Palmer is assistant Scout Master of this troop.

## Pipes, Cigars Also Linked To Cancer

MILWAUKEE, Wis. (AP) - "Heavy smokers who switch to cigars or pipes to avoid lung cancer may be courting oral cancer," says the president of the American Dental Association. In fact, said Dr. Maynard K. Hine, "scripts have found that there is a causal relationship between lip cancer and pipe smoking."

## COINCIDENCES IN THE AIR

LOUISVILLE (AP) - After Capt. J.D. Neubauer III, an Army pilot, took his seat on the airliner the stewardess came along and asked his name. "Capt. Neubauer," he replied. "Oh, you've moved your seat," she said. "No, ma'am, I haven't," he countered. "But this is Capt. Neubauer next to you," the stewardess continued. It was Capt. Edward Neubauer of the Air Force. In addition to holding the same rank, both were in the Air Force and both were en route to Texas bases. They were almost the same age, J.D. 29 and Edward 30. Adding to the coincidence, both were under orders to Vietnam to land at the same airport in Saigon and to operate out of the same airfield.

FLORAL DESIGNS - Some of the beautiful floral designs are pictured above at Beavers Flowerland, 520 South 1st Street, Muleshoe. This firm has a large stock of real and artificial flowers for all occasions.

## Beavers Flowerland Exotic Floral Designs

Some of the most beautiful arrangements to be found anywhere can be seen at Beavers' Flowerland, 520 S. First St., in Muleshoe. Cut flowers, pot plants and artificial flowers for weddings, homes, hospitals, funerals and churches are here in abundance. The artificial arrangements look so real you can hardly tell the difference between them and the live plants. Artificial flowers and pot plants have become very popular in recent years, and they are preferred by many people they can be made to order by Mrs. Spencer (Phyllis) Beavers whose artistic talent has created some of the loveliest floral arrangements ever seen.

A large stock of cut flowers, roses, mums, gladioli, carnations and many others can be found here at all times. Flowers for hospital patients can be delivered in a short time and brings great joy to the person receiving it. A corsage for a dance or high school graduation makes a lovely gift and is greatly appreciated by the young lady wearing it. Weddings get special treatment so that the home or church will be most beautiful and attractive. Bouquets carried by bride and bridesmaids are also given special attention and made according to the customer's order. Flowers can be wired anywhere in the world through Telefloral Wire Service to which this firm subscribes. Just call Muleshoe 272-3116 and tell them the kind of flowers you want sent and give the name and address.

Mrs. Beavers has three employees assisting her in running this business, Rheata White, Willie Hail and Jewel Pool, and customers are assured of prompt service at all times. When you say it with flowers from Beavers' Flowerland, it is beautifully and promptly said. Why not beautify your home or office with some lovely blossoms from this shop. They will give your spirit a "lift" and make the day seem more cheerful. Mr. and Mrs. Spencer Beavers started this business in 1958 and have enjoyed a large volume of business since that time. The business has shown a steady growth and handles

## Student Council Officials Named

Student council representatives from the following classes were elected Thursday at Muleshoe High School: Senior class, Jeannie King, Carol Haire, and Billy Kelley. Junior representatives are Kathy Williams, Vina Bass and Linda Kerr. Ann Phelps, senior representative; John Gulley, junior representative and Cindi Smith, sophomore representative also were in the run-off. The entire student body votes on these members by secret ballot and the students elected must have a good grade average.

## Budget

(Continued from page 4) Other minor items will run the water and sewer fund revenues to \$118,000. The city has bond issues outstanding as of April 1 of \$676,000 and total authorized and issued runs to \$896,000. Under the heading, "Estimate of current ad valorem tax revenues and proposed distribution of collections," the new budget sets out the following tax estimate:

"Estimated total valuation, \$10,140,000; proposed tax rate per \$100 valuation, \$1.10. Total estimated tax levy, \$11,154. Estimated percent of collections, 93%. Estimated funds available from current taxes, \$103,732.

Here is the general fund summary: 1966-67: \$151,353. Last year (estimated) \$121,564; 1965-66 (actual) \$126,017. New items in this division this year include reserve for comprehensive plan, \$2840 and contingencies, \$4000.

Salaries and wages this year will run to \$71,081 as compared with an estimated \$66,785 last year. Supplies will cost \$8,440 and maintenance \$24,135. Sundry charges and miscellaneous services will bring the total for this division to \$127,178 as compared with \$100,365 (estimated) for 1965-66 and \$122,975 (actual) the previous year.

As much business as many floral shops in larger towns. Mr. Beavers is the local Post Master and well known throughout this area.

The latest victim of traffic temper, according to newspaper reports, was a policeman in the northern city of Tripoli who was rushed to hospital with head injuries and a broken jaw after he tried to stop a truck.  
 The newspaper said the policeman stopped a car driving the wrong way on a one-way street and pulled out his ticket book, when the car door opened. The driver and three or four passengers jumped out and beat him unmercifully.  
 Sitting in the back seat, the papers charged, was a member of Parliament, who watched the beating "with apparent approval."  
 A military court began an investigation of the case.

ing to a G. A. Queens Court. Girls making the trip were Dolores Mc Call, Patricia Grundenford, and Pamela Layton. They returned home Saturday.  
 Mr. and Mrs. P. L. Wells of Amarillo spent the weekend visiting her sister and family, Mrs. Jerome Cash.  
 Mrs. Alma Altman spent the Easter holidays with her daughter and family, Mr. and Mrs. Kenneth Millsap of Fort Worth. They returned home Saturday.  
 Mrs. Myrna Turney, Dennis, Shaton Carlyn and Penny, Mrs. J. E. Aulry all spent the weekend in Burkumett visiting their grandfather and father, Grandpa Chambers, who has been very ill.  
 Mr. and Mrs. E. C. Gilliam visited their son and family, Gilbert of West Camp. Other visitors were Jim brothers, Wayne and family of Morton, Jimmie and family of Hereford, Jerry and family of Three Way.  
 Those visiting in the Jerome Cash home Sunday were their daughter and family, Mr. and Mrs. Norvell Roberts, Jerry and Sheryl of Goodland, Mrs. Donna Chirsier, Donna and Tommie of Littlefield.  
 Mr. and Mrs. Carl Hall are visiting their sons and families this week. Cleo of Glendale, Ariz. and Larence of Vacilla, Calif.

The brotherhood at the Baptist Church were hosts to a fish fry Monday night at the church.  
 Donald Grundenford and Dale Nichols furnished the fish. A large crowd attended and enjoyed eating the fish.  
 It's a girl for Mr. and Mrs. Donny McCall of Mulshoe, born April 7th at University Hospital at Lubbock. She tipped the scales at 6 lbs. and 4 1/2 oz. She was given the name La Tanya Karen. She has one brother, Kelly, age 3.
