YOU, KINDLY

come in a vast as- sizes, shapes, colors les. Some approach the humor, others with ire, m is one of their essays emotion. Their job is to a critic, whether the sub- e politics, education reli- economy or the arts. In at- at courageous soul I give the nt issues, they may come ss as a surly lot who speak y in negatives.

This Thanksgiving season I will turn the tables and praise a few people you all know.

First, the Brennan Award for bravery goes to the Huckabys for giving me a chance to prove either that I really can write after all or else to make an utter fool myself.

Next is the Brennan Golden Apple for two teachers who helped me in the right direction: Mrs. Carl McKinnon and Mrs. J. Roby. See, all those lessons do pay off!

To Miss Hazel Crites I humbly present the Golden Earplug Award in memory of all the sour notes I hit while she patiently sat at my desk counting beats. You will be pleased to learn that I've finally worked my way to John Schaum's grade three.

Then there's Mrs. Kathryn Jacart of terpsichorean fame, who spent an entire year trying to convince me that my right foot and my left foot could move in different directions at the same time. That courageous soul I give the Golden Slipper and a round of sincere applause! Bravo!

Attempting to wake people to indifference to me—there is a Golden Indebtar. She taught me how to be a bicycle, and I've enjoyed that skill ever since.

Finally, a posthumous award goes to Joseph Lindsey for teaching me that flowers should be left growing in a garden instead of being cut to wilt in a vase. One day I played his fiddle for me, and I never forget that either.

As for all my readers, I offer my heartfelt gratitude for a year of support, even when I've rapped on your toes without so much as a "pardon me." Without you I'd be out of business.

Thank you kindly, Iowa Park!

## Brooks Tells Australian About Guar

John Doughton, an agronomist with the Commonwealth of Australia, Darwin, North Territory, was here Monday as guest of Lester E. Brooks. He has been sent to Texas to learn about guar, and naturally the finest way to find out about guar is to associate with Lester.

Doughton revealed that guar is raised in Australia, having been introduced there in 1954. The guar is of good quality but the yields are not high.

The young agronomist is graduate of the University of Sydney. Mr. Brooks took him to Vernon for a visit with the guar operation in that area.

## Choir Workshop

John Chapman, Reporter

Sixty-five members of IPHS a cappella choir participated in the recent Midwestern university invitational workshop. Some 350 students from area high schools joined in the annual event.

Sponsored by MU's music department, the workshop began at 8:30 a.m. in Hardin auditorium and closed at noon.

Choirs performed at 25-minute intervals with IPHS singing at 11:10.

This year's clinician was William Boland, a voice instructor for MU. He discussed the singers' pronunciation and dynamics.

The song performed were "Ave Maria" in Russian and "Rejoice, Rejoice, Believers."

## Bird Lore

by Lafayette Stankewitz

Every person who enjoys birds should make an effort to help them survive. Now that winter is approaching their need is sufficient food. They migrate to the south in search of a more abundant food supply rather than a warmer climate. Bird feathers are the best form of insulation devised by Nature. Birds are not cold if they are well fed.

Feeders should be placed in sheltered and safe places from predators such as cats and the larger birds.

Here are some feeding suggestions:

**CARDINALS:** sunflower seeds, crushed corn, shelled and broken peanuts, scratchfeed, peanut butter mixed with corn meal, grapes, crumbled nut meats, berries and wild birdseed, rape, millet, hemp, canary seed.

**BLUEJAYS:** beef suet, pieces of white bread, sunflower seeds, peanut butter, scratch feed, crumbled nut meats, whole corn, finely crushed egg shells, roasted and unshelled peanuts, skins of baked potatoes, cheese.

**CHICKADEES:** cracked nuts, broken peanuts, sunflower seeds, bread crumbs. Also for Titmice, Nuthatches, etc.

**MOCKINGBIRDS:** peanut butter mixture, suet, apple, raisins, stale donuts, cake crumbs.

**WOODPECKERS:** suet, cracked nuts, corn, grapes, donuts (downy woodpeckers only) sunflower seed, and especially peanut butter (placed on branches of trees in large chunks) and the seeds of ripe melons, including watermelon.

Water is a must for birds! If you don't give them water, they will leave, for they cannot live without it.

## FEED THE BIRDS

Jenny Wren Berger

The birds will soon come by the dozens—

Bring movement, and color and song.

They'll even bring their uncles and cousins  
And grandmas and aunts along.

When winter comes and snowflakes fall,  
Please don't forget these words:  
Put scraps, seed, water, suet  
and all

Outside, and feed the wonderful birds.

Keep up this job long afterwards  
To relieve hunger's painful stress.  
It's much more fun to feed the birds  
Than to buy a new orange dress.

## School to Get Aid for Special Program

Features of the meeting Tuesday night of the local school board were:

Discussion of a mini-grant and career education, with Dean Miller present as advocate and consultant.

Decision to begin work on construction of an auto body building.

On the tennis court plan for the high school campus.

To start interviewing architectural firms with reference to renovating and adding to the junior high building.

Miller stated that all schools in the state will be expected to have a career education program as part of the curriculum by 1975. He reported an application which Iowa Park administrators have been working on has been sent in seeking a federal grant to support it. If approved it will mean an 18-month program providing for teaching personnel and curriculum planning paid for with federal funds amounting to approximately \$69,000. Career education will be integrated through regular class courses, grant or no grant: teaching the dignity of work, how to apply for a job, what am I best suited to do? and what courses will help me to qualify in my chosen field?

Construction of a 50x100-foot building onto the west of the present vocational building to house Auto Body Vocation classes was approved. It will be a project of the building and trades class and can be possibly constructed for \$15,000.

Eventual construction of six tennis courts on campus is in the planning, and approval was granted to begin work on two, with plans to be submitted at the next board meeting.

Stanley William urged that a start be made on remodeling the Junior High. Consensus is that it will require more than a year to interview architects and contractors before work is started. Invitations are being issued now for consultation with architects.

Buildings and grounds chairman Robert Wilcox was asked to get the roof and wall leaks at the high school repaired; roof repairs at Kidwell; scoreboard standards at Hawk Field straightened by reinforcing the concrete base.

Bill Steger reported the new 72-passenger bus has arrived; the

school cafeteria are having 70% participation; payments so far on the year's taxes is about 19%, the best ever.

Harold Cowley stated the cost of the fieldhouse has been \$45,305, which covers a few minor jobs yet to be done.

Mrs. Irene Witherspoon was elected to teach math and science in Junior High to replace Eldon Patterson who has been transferred to Vocational Department which is carried on in co-operation with Electra schools.

Approval was given whereby students who have studied under the General Education Development program in correctional institutions may be issued a high school diploma from their local school when discharged.

Approval was given for Jimmy Howell and the horticulture class to tour two big greenhouses at Brownwood. Permission was given for Young Homemakers of Texas to have a bake sale and for the OEA class to continue the Christmas candles project.

Supt. Faris Nowell had a communication Wednesday stating that Iowa Park, one of 8 schools in Texas of the 51 who had made application, has been selected, tentatively by Texas Education Agency, subject to approval by the U. S. Office of Education, for a \$60,000 grant for Career Education. The trustees optimistically await the final decision.

A visit to the high school greenhouse with members of the horticulture class as guides provided a program of interest and information for members of the Iowa Park Garden club Friday morning. Mrs. Faris Nowell introduced Jimmie Howell, teacher, who directed the tour. He also explained the fan and jet system used in the building.

Several students gave talks on various aspects of horticulture:

Wayne Hallford, propagation of plants

Wes Spruiell, fertilizers

Gary Sharp, the cooling system

Ricky Riley, tomato plants

Terry Pratt, soil mixtures

Gloria Merinda, landscaping

Steffenie Merrill and Donna Robertson, plant sales

During a short business session Miss Ethyle Kidwell reminded members of the project of bringing gifts for residents of the state hospital, to be presented at Christmas time.

Others on the tour were Mmes Earl Crush, R. B. Faulkner, Bill Griffin, Deryl James, W. I. Lynn, D. O. James, Pete Koonce, Ida Parker, James Sewell, R. G. Warner, W. L. Yost, Paul Zink.

## Queen Entrant

Pioneer Bowl Queen contest for Iowa Park was held Monday evening at the Chamber of Commerce office with Mrs. D. O. James in charge.

Joni Carter, daughter of Mr. and Mrs. Billy Joe Carter, was winner. Dana Reaves, daughter of Mr. and Mrs. Buster Reaves, was named first runner-up. Marcie Stubbs, daughter of Mr. and Mrs. Ray Stubbs, received second runner-up rating. The girls were selected on personality, beauty and poise.

Other entries were Debbie Catlin, Debbie Cook, Connie Russum, Chrselda Thompson, Julie Woods. The girls commented on such things as what impressed them most about Iowa Park, what they did with their time the past summer, their most embarrassing moment, advice to girls entering contests of this kind, advice on going steady or not, and whether they were at ease.

Committee members were impressed with the mature comments of all the girls. Questions were asked of each girl who came before the group alone. They are to be commended for their poise, manners and appearance.

Joni will enter the queen contest in Wichita Falls on Dec. 8 and 9. She will be in the Pioneer Bowl parade, be entertained at the Wichita club, appear on national television, and attend the Pioneer Bowl game Dec. 9.

Members of the local committee were Miss Ethyle Kidwell, Mrs. E. F. Soell, Mrs. Grover L. Cleveland, Ralph Beall, Bob Hamilton, O. N. Newman.

Votes were counted by Mrs. Homer Blalock and Mrs. M. L. Hines.

Hundreds of scientists completed a computer with a master brain—one with the intellect to answer all questions and solve all the mysteries of the universe. The world waited as the machine was fed the big question.

With trembling one of the scientists put the problem to the computer: "How did the world start?"

Lights flashed, wheels whirred, tumblers clicked. Then the machine answered on the card — "See Genesis."

## SECOND QUARTER

By this time Iowa Park was on the Weatherford 45 with 34 yards to go. Ten were made on 3rd down, so the Hawks kicked.

The Kangaroos couldn't go and kicked to the Hawk 37. The Mean Green launched a drive which netted 3 first downs and ended with a fumble on the Weatherford 22.

Seven plays later the Kangaroos kicked and Iowa Park took possession on the 39. An 18-yard pass, 1 yard run, 2 yard run put us on their 24. From there we made the TD in one beautiful run. The PAT run was good and Iowa Park had the lead with 27 seconds left in the half.

## THIRD QUARTER

Hawks started the third quarter rather briskly. After three plays we kicked to Weatherford. We intercepted their first play and returned to the Weatherford 7. Two plays put Iowa Park on the score board. A run for PAT was no good and the score read: Iowa Park 14 to Weatherford 7. The remaining 10 minutes of the third stanza featured penalties and losses and kicks.

Weatherford opened the last 12 minutes with a punt. After making 14 yards, we lost 14 and had to kick.

Weatherford proceeded to make a 64-yard run on the next play. Their PAT attempt failed, and that ended Kangaroo scoring at 13 points.

## FOURTH QUARTER

In the final 10 minutes Iowa Park shattered the Weatherford fans' hopes for a victory, with a touchdown in less than four minutes and another in the final minute of play. Final score was Iowa Park 27, Weatherford 13.

## Hawks 27 K'ng's 13

Iowa Park Hawks had a rough time getting their game started last Friday when they were hosts to the Weatherford Kangaroos.

The visitors made a first down in three plays. Pushed back on the next three tries, Weatherford kicked. Iowa Park fumbled and the Kangaroos continued possession on the Hawk 37.

Again Weatherford made a first down and had to punt. This put Iowa Park with the ball on our own 9. After two plays netted 7 yards, our pass was intercepted.

Kangaroos were again in good position on our 75. A pass put them on the 15. Three plays put them on the 2 with four downs to make it. Only one was needed. A perfect PAT kick had Weatherford in the lead 7-0 with 4:02 remaining in the quarter.

Putting the ball in play on our 34, the Hawks reeled off three first downs to the Weatherford 21. Then trouble started: A penalty put the Green and White back 15 yards. Two plays went sour and the quarter ended.

## Read Books

Story Hour children talked of Thanksgiving and what they are thankful for, at this Wednesday's session. They talked about Indians and the First Thanksgiving. Refreshments were enjoyed by 21 children.

Our thanks to Mrs. James A. Sewell and Miss Ethyle Kidwell for books and Mrs. G. Martin for magazines.

"Shadow on the Alamo" by Harvey Katz has been given to Iowa Park Library by Modern Music Study club in loving memory of Mrs. Beth Lowrance Park. This book is the story of the most dramatic turning points in the history of any state legislature.

"The Story of the Trapp Family Singers" by Maria Augusta Trapp is the adventure story of one of the most distinguished musical families of the age. This is an interesting account of transplantation from the Old World to the New.

"Along the Early Trails of the Southwest" features six of our most noted authors who tell of six of the Southwest's most noted trails.

"A Sundae with Judy" by Frieda Friedman is a new Junior book which features making sundaes in Judy's father's candy store—and of eating them.

Weatherford opened the last 12 minutes with a punt. After making 14 yards, we lost 14 and had to kick.

Weatherford proceeded to make a 64-yard run on the next play. Their PAT attempt failed, and that ended Kangaroo scoring at 13 points.

In the final 10 minutes Iowa Park shattered the Weatherford fans' hopes for a victory, with a touchdown in less than four minutes and another in the final minute of play. Final score was Iowa Park 27, Weatherford 13.

## Parkans Make Trip to Ozarks

Last week Mrs. Gladys Thompson and Mrs. Myrtle Travis took a trip through the Southern Ozark Mountains. Mrs. Travis reported the trip somewhat as follows:

"We left Wednesday and drove through to Pleasant Hill, a small town 30 miles east of Kansas City, Mo. Thursday we left going to Joplin. Because it was raining we could not make pictures of the beautiful foliage.

"We spent the night there with my cousin and left Friday morning for Neosho, where I was mar-

ried 56 years ago. Our next visit was in the small town of Noel, nestled in the corner of Missouri in the Ozark Mountains, where large rock cliffs dripping with water hang over the highway.

"Our route cut across the corner of Arkansas and into Oklahoma. At Claremore is the home of Will Rogers and noted for its mineral water baths. The museum located on a hill overlooking the city presents a beautiful view. An interesting monument is a statue of Mr. Rogers on his horse Soap-suds. Below the museum is a beautiful sunken garden in the tomb of that noted entertainer. Below the crypt are the burial places of Mrs. Rogers and an infant son. Also there is a large steel room for others of the Rogers family.

"Inside the museum we viewed old manuscripts, paintings, photos and a roomful of saddles from all over the world. In another room are dioramas of miniature scenes from Will's life. We also heard Mr. Rogers on record talking of Mother's Day.

"After lunch we left for Muskogee and McAlester. The hills and the many large lakes were well worth the trip for their scenic beauty.

"We arrived home tired, but thankful for such a beautiful and safe trip."

## W S C S

"Higher Education and Today's Student" was study topic presented to Circles of United Methodist church WSCS, Tuesday morning. Students were described as "no group more important, no group more misunderstood, and as a group trying to find themselves through education, seeking an environment where they can make a contribution to humanity."

It was pointed out that communication was difficult; that the minority were the rabble rousers; and each generation makes its own frontiers.

Plans were completed for packing a box to be sent to Mickey George to use in her sewing class in Mrewa, Rhodesia. Donors for cakes to Sheppard AFB were solicited. Offerings were made to the World Bank for Missions.

## Study Clubs Meet Together

"Look to the past to find the future" was the general theme of the program when federated clubs of Iowa Park met Monday evening in the home of Mrs. Buddy Henderson. It was the annual Federation Day observance with Philia and 23 Study clubs in cooperation; and the tenth anniversary of organization by Philia. Assisting with hostess duties were Mmes. Pat Ratcliff, Lynn Compton and Bernie Wynn.

Featured was a film "The Story of Unity in Diversity." In 1868 a woman's club Sororis was organized in New York, in spite of protests and criticism. Its aim was to apply knowledge to problems, and such movements resulted as Child Labor Laws, Pure Food Bureau, Food and Drug Administration; library bookmobiles, compulsory education, and educational scholarships.

State federations were organized as early as 1892, with departments formed to emphasize conservation, education, home life, fine arts, and international affairs.

In 1889, General Federation of Women's clubs came into being, with 100 clubs united in interest and efforts for the betterment of society, which continues to this day.

The women feel their goal is not complete until through unity World Peace is realized. Federated clubs are on the front lines of this endeavor.

"Life is but an Echo" was the title of the meditation by Mrs. Austin Webb. She read Edgar A. Guest's poem "Myself" as the point of emphasis.

Mrs. E. F. Watson, president of 23 Study club, presented a silver tray to Philia Study club in observance of the anniversary. Mrs. Louis Sawyer, Philia president, accepted the gift and thanked the co-operating club for its interest and help through the past 10 years. Mrs. Robert Robinson and Mrs. John Ratcliff are the only charter members who are still active.

A trumpet solo by Darryl Harrison was the fine arts number. He was accompanied by Teri

Singer, pianist. They are IPHS students. The Federation Song was sung by the group.

Refreshments of cake, nuts, homemade candy with coffee and punch were served.

Others present were Mesdames C. E. Birk, Homer Blalock, Lester E. Brooks, T. M. Clark, Earle Denny, Sam Hill, M. L. Hines, D. O. James, O. E. Lochridge, N. E. ## The Gobbler Is Back

The Highway Gobbler is the driver who acts like he's the only one on the road. He always drives a little faster than the speed limit, passes to get a little further ahead or tailgates when he can't pass.

This Thanksgiving weekend, the Highway Gobbler is back. He really hasn't been gone. He's been there all along making his generous contribution to the toll of death and injury and

property damage on our highways. But he's recognizable for what he is during the Thanksgiving holiday season.

There's no room for the Highway Gobbler—this Thanksgiving or any time of the year.

**You're looking at one of the nice things about an electric dryer.**

Drying a wet teddy bear, or other stuffed toys labeled "washable," is just one of many things you can do with a flameless electric dryer.

There are plenty of others. Like dusting draperies. Airing bed covers. Fluffing pillows. And many, many more.

Your instruction booklet is your best guide to the many unique capabilities of your electric dryer. Read it carefully and file for ready reference.

One of the big advantages of electric dryers is that you can get control features which automatically determine the temperature and drying time needed for various fabrics.

This fabric selector is particularly helpful in this modern age of care-free polyesters and other permanent press fabrics.

Versatility is just one more reason why flameless electric dryers are America's favorite.

## Night WMS

"Communicating the Gospel" presented as a skit in four scenes, provided a challenging program at the meeting of Night Baptist Women, Monday of last week. Mrs. Lee Smith was program leader and Mrs. Joe Bell was hostess at her home.

The first scene depicted a plane landing at Lusaka in Zambia. The people who greeted the passengers were friendly and outgoing, similar to those in the United States.

A woman of Zambia explains the Bible Way Correspondence School in the second scene. People of all ages and walks of life study through this school and the current enrollment is around 20,000. Over 3,000 conversions have resulted from these courses.

The third scene tells of a missionary journeyman to Zambia. A journeyman is a lay person who goes overseas as an instructor.

A summary of the accomplishments of the school and its teachers featured the fourth scene.

Mrs. Carl McKinnon opened the meeting with thoughts from the prayer calendar, naming Chile & 10 missionaries who had birthdays on November 6 as the objects of prayer.

During the business session directed by Mrs. Louis Quick plans were made for the tasting bee,

where foods from different countries of the world will be served. Others present were Mmes. Homer Blalock, J. C. Roby, Roy B. Smith, S. B. Reaves, Carroll Duke, D. O. James, J. A. Berg, Virgil Woodfin.

## Disciples Doings

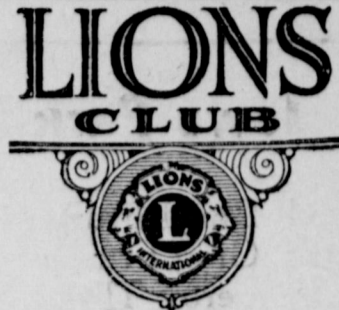

Women of the Christian church have been busy the past week or so on two projects. Some are repairing clothing to be sent to the Fowler Home in Wichita Falls. And some are cleaning and painting the church kitchen.

The kitchen work force has included Mmes. Keith Pierce, Bill Griffin, Ray Pittman, Rollin Roberts, Rollins Woodall, Pauline Steele, Emil Crettet, James Bowerman, Thomas Julian. They have also been assisted by Laura Bowerman and David Griffin.

Men of the church helped, but we don't have a complete list of them.

Busy with needles and thread have been Mmes. Fenton Dale, Earl Watson, Lucile Holm, P. H. Ford, T. M. Clark, Ralph Sisk.

Lisa Watson, 8th grade student, earned a place on the Double A honor roll but her name did not get on our list last week. We are proud of Lisa and congratulate Dr. and Mrs. Earl F. Watson on her achievement.

Mrs. Sherrie Walker of the Red Cross Blood Center in Wichita Falls ran a film Monday for Noon Lions which told the story of the need for blood. It brought out the reasons folk give for not donating blood, and made evident just how foolish those reasons can be.

Because of the great need for blood for operations and other emergencies, to give blood at least once a year is THE IN THING to do. Mrs. Walker pointed out that Iowa Park has not been giving its quota and needs to have many more REGULAR donors.

Keith Pierce of the local Christian church, Phil Altendorf and John Laukhuf of Wichita Falls, representing the Optimist club of Wichita Falls, were guests. They are planning to organize a club here and are asking co-operation of Iowa Park folk.

The Lions voted unanimously to welcome an Optimist club.

Mr. and Mrs. Joe Singer, Teri and Tony.

Kerry, Andrea, Carmi Jeter of Fort Towson, Okla., and Melicent Post of Ft. Towson, guests of Mr. and Mrs. Lester Brooks.

Virginia Leath, guest of Mrs. Nellie Leath.

Mrs. Emma Key, city. Lee Anne and Beverly Penn of Bowie with their grandmother Mrs. J. E. Penn.

## Luncheon Given for Bridesmaids

Mrs. C. A. Nipper, Diana Nipper and Mrs. Bessie Nipper were hostesses for bridesmaids' luncheon honoring Miss Debbie Kirkpatrick of Wichita Falls last Saturday. Miss Kirkpatrick is the bride-elect of C. H. Bradley jr. The couple will be married on Nov. 18.

An oriental atmosphere was created featuring the Chinese theme. Lanterns were placed at vantage points for lighting. Guests bowed and took off their shoes when they came to the door. All sat on pillows on the floor at low tables.

The menu included sweet and sour pork, rice, Chinese chicken, green salad, fortune cookies and fruit cups. Chopsticks were used in eating.

Special guests were the mothers Mrs. Ydell Kirkpatrick and Mrs. C. H. Bradley, both of Wichita Falls.

Other guests were Mary Johnson, Carolyn Hausler and Dede Kirkpatrick of Wichita Falls and Vickie Fennell of Holliday.

## Park Area

Park Area Home Demonstration met Wednesday in the home of Mrs. W. E. Karstetter.

Mrs. O. B. Nolen is out of town so Mrs. Joe Cope presided. Mrs. J. E. Penn gave the devotion and Mrs. Karstetter, the prayer.

Roll call was answered "What I plan for Christmas." The Council Christmas party is to be at Furr's in Parker Square Dec. 13. The local club will leave from the United Methodist church at 10:30.

Village Flora's club and Park Area will have the program.

Our Christmas party will be at 2:00 p.m. Dec. 20 at the home of Mrs. Lee Turner.

Others present were Mmes. Grady Henderson, James Todd, Roy Fortner, Gena Estes, James Oliver, Allen Bennett, Ray Low, reporter.

Mr. and Mrs. George Edwards of Dallas visited Tuesday with his sister Mrs. Emma Phillips and brother Virgil Edwards. They also visited another brother M. Edwards in Bethania hospital.

## Winter Brings Danger of Asphyxiation

Death and taxes may be inevitable, but many persons are being killed or sickened by a preventable illness—carbon monoxide poisoning.

With a chill in the air, it is time for heaters and a time for caution because of the odorless, colorless and tasteless gas which is present in all combustible substances. This gas can kill a person into unconsciousness before he knows he's in trouble.

By now most Texans have fired up their heating systems—at least for short periods of time—with arrival of north winds. If members of your household come down with unexplained headaches or dizziness or nausea after the heaters were lighted, carbon monoxide could be the reason. All furnaces should undergo periodic checks to make certain they are safe.

Every time a person burns gasoline, kerosene, wood, natural or manufactured gas, coal, coke or oil in a heater, car, appliance, bonfire or grill, he has started a potential carbon monoxide factory.

A car engine running in an average-sized garage approximately five minutes can produce a lethal concentration of carbon monoxide. Leaky mufflers or tailpipes can allow the gas to accumulate in a car—particularly one that is not moving.

Many people go to bed at night and never wake up, victims of a faulty flue or unvented heating device. This summer carbon monoxide in a Lake Texoma pleasure cruiser claimed several victims... the fumes brought into the sleeping quarters by the air conditioner.

A newly-married couple checked into a motel on their marriage night. A faulty furnace improperly vented killed the young Marine veteran while he slept, and sent his bride to a hospital.

A person should always remember that anything which burns can give off death-dealing carbon monoxide and needs to be properly vented or not used.

## Farm Bureau

Wichita County Farm Bureau was scheduled to be represented by 10 voting delegates at the state Farm Bureau annual convention held Nov. 12-15 in Houston. They were:

Mr. and Mrs. Loys D. Barbour  
Mr. and Mrs. Leo B. Slaughter  
Mr. and Mrs. Bill Carnes  
Mrs. Anna Mae Emmert  
Wymore Downing  
Carl Moeller  
Raymond Schroeder  
Jerry Don Padgett

Also attending from Wichita county were to be Mrs. Ruth Gard, Mr. and Mrs. T. H. Stone and Debbie. The young lady was to participate in the Talent Find on Sunday night.

There were some 900 voting delegates to formulate TFB policies for 1973 and recommendations to American Farm Bureau Federation on national issues based on resolutions from county conventions over the state.

Governor-elect Dolph Briscoe was to be principal guest speaker. H. J. Weber of Zionsville delivered the sermon at the vesper service. Other speakers were the state president and the executive director; and Marvin McLellan of Lexington, Miss.

## Bowls of Red

A Chili Cookers' Pow-Wow has been planned as part of the Pioneer Bowl Week's activities on Dec. 1 and 2 in Wichita Falls. It is estimated this event will draw chiliheads from all over Texas—both out from places as far away as Texas and California.

Chili cooks will provide their own supplies: stove, table, miscellaneous supplies, secret ingredients, utensils and all that stuff.

Meat tastings will be present to certify the quality of meat used. Judges will describe cooking procedure and rate the chili to decide a winner.

The Pow-Wow will be held on Friday to determine five finalists who will cook again from scratch on Saturday morning. Trophies will be awarded to the top three chili chefs, who will be recognized on national television during the Pioneer Bowl football game.

Chili cooks are urged to contact P. O. Box 100, Wichita Falls 76797 or call 811-1111 for an application.

Mr. and Mrs. John Gorka of Longview spent Sunday here with her mother Mrs. W. F. Gorka. She returned home Monday for a visit.
