IT'S MAILING TIME!! - There's some good news and some bad news for taxpayers who waited until now to file their federal tax returns. The good news is that the Internal Revenue Service is extending its deadline for returns from the traditional April 15th to the 17th. And the bad news? Last minute filers who expect refunds may have to wait up to 12 weeks for those refund checks.

Alderman alleges double standards

In his first regular meeting since re-election, Mayor Johnny Crawford expressed concern over whether Monday's meeting was an omen of what the next two years would be like.

Council chamber was filled to capacity, partially with irate citizens, and Crawford had to call them to order more than once.

standard, and therefore no standards to judge cleanliness, to his knowledge.

At the suggestion of Alderman Bud Adams, the city is having the proposed ordinance printed on page 10 of this issue of the Leader. He said citizens could read what is proposed, and could give council members their opinions by the next regular meeting, which is April 24.

Aldermen are to act on the proposed ordinance at that time either accepting or rejecting it.

mously.

J.H. King received permission to set up his own lift station to pump liquid sewage only into city sewer lines from the mobile home park on the east side of the city.

Aldermen approved purchase of Plectron equipment for the fire department, used to alert volunteers of a fire. Equipment includes an encoder, 10 permanent receivers and 10 mobile receiver/chargers, for \$4,516.75. The bid was some \$1,400 less than a Motorola bid.

ANOTHER COMPLAINT

Another issue came to a head Monday, also.

For several months, Virgil Woodfin has been appearing before the council, complaining that equipment and vehicles of Spruiell Drilling has been blocking his access on East Poe.

Woodfin had asked for time on the agenda, to have parking on East Poe prohibited, as it was on a section of Johnson Road near the football stadium.

WATER POLICY

Aldermen approved a resolution which establishes who is to receive water, with line laid at city expense, and who is to pay for installation. Principal parts of the resolution, sought by Britton for administrative purposes, are:

"In an area which is platted in lots and has been in the city limits for more than 25 years, the City will extend its service to the lot line at no cost to the property owner."

"In an unplatted area which has been within the city limits for more than 25 years, the City will extend the service to the property line. Any further extension will be at the property owners expense and no more than one water or one sewer service will be permitted unless the property is properly subdivided and platted in accordance with Ord. 138."

"Any other extensions will be at the property owner or developer's expense and they will be required to bring their lines to existing city facilities."

"All sewer extensions and water extensions must have Planning and Zoning Commission approval as to size of line to be laid. If the Planning and Zoning Commission requires a larger line because of expected city growth than required to service the property owners land, then the City will bear the additional cost imposed."

"The city reserves the right to refuse extension of service if, due to the distance or lift pump requirements, it is not in a financial position to extend the lines."

In other business, the council took the following action:

- * approved replacement of a two-inch water line on Clara, west of Pacific.
- * rejected a request to extend water service on Smith Street to the west city limits.
- * approved installation of 240 feet of sewer line on Emerald.
- * took no action on a request from Larry Fowler to allow him to park his tractor-trailer in the street in front of his home.
- * heard a complaint about police action from Bill Gilmore concerning a wreck a son, Kenny, was involved in recently.

The two got into it again later, when during a discussion on a proposed ordinance, Hicks attempted to make a motion without being recognized by the chair and accused Crawford of ignoring him.

Both exchanges came about when the council started on the fourth item on the agenda, "animal ordinance".

City Administrator Gene Britton pointed out to the council he had drafted an ordinance, at the request of Hicks, which would prohibit the keeping of any farm animals, such as cows, horses, pigs or sheep, in the city, and also require the licensing of all dogs and cats.

A neighbor of Walter Spruiell's had reportedly complained to Hicks, charging Spruiell was not legally maintaining a horse in his backyard, prompting the proposed new ordinance.

During the discussion, Spruiell pointed out that he had at one time not maintained the proper distance of his horse from the house, but it had been inspected numerous times since the complaint and had been ruled as legal and proper.

He later stated he would remove the animal to stop the complaint because "I don't want to be the cause of nobody in the city being able to keep an animal."

Crawford, who recognized that there are numerous situations over the city where people are keeping farm animals, legally, pointed out this was the only complaint of its nature in the two years he had been on the council.

Britton said he and others who have purchased property in Quail Valley, mostly five-acre tracts, located there in order to have adequate room to keep a horse. If Quail Valley is annexed into the city, as required in the deeds, those residents would have excess property for no purpose, he said.

When the topic got around to keeping animal pens clean, Britton said there are no EPA measures of

LENGTHY MEETING

Several other important issues developed during the lengthy meeting.

Britton received permission to try an old method of paving streets, by using a maintainer to spread asphalt, rather than a commercial applicator.

He said the cost would be about one-third, and was given permission to pave two blocks on North Colorado as a trial.

Aldermen approved a request from Rip Smith to purchase water for a new home site he plans to develop north of Quail Valley. Smith has sold his home on Johnson Road and plans to relocate.

Over the objection of Hicks, who said non-city residents had all the city services without paying city taxes and would never want to be annexed, Alderman Adams moved for approval, and it was passed unani-

ously.

J.H. King received permission to set up his own lift station to pump liquid sewage only into city sewer lines from the mobile home park on the east side of the city.

Aldermen approved purchase of Plectron equipment for the fire department, used to alert volunteers of a fire. Equipment includes an encoder, 10 permanent receivers and 10 mobile receiver/chargers, for \$4,516.75. The bid was some \$1,400 less than a Motorola bid.

Purchase of 42 traffic control signs, recommended by the Traffic Safety Council, was approved. Cost is \$1,653.

Trustees elect Spruiell as chairman of board

Bill Spruiell was elected president of the Iowa Park school board, when trustees held reorganization Tuesday night following a canvass of the April 1 election.

Spruiell, commencing his second year of office, succeeds C.E. Myers, who held the president's chair two years.

J.O. McCullough was voted vice president, and Martha Dudley was named secretary.

Spruiell made a brief statement after taking the chair, expressing confidence in electing him, and said the board's policy will continue to be open, and no closed (executive) meetings would be held unless the administration or personnel deemed it necessary.

Following canvassing of the voting, Myers administered the oath of office to Delbert Catlin and Dudley. The third trustee elected, Jerald Brown, was absent.

After the canvassing results were announced, Roy Boutwell, who was unsuccessful in his bid for re-election, retired from the board table and sat in the audience.

Once the reorganization process

was completed, board members quickly went through an agenda of mostly regular items.

One exception was the adjusting of salaries for maintenance and custodial personnel, and band directors.

With salaries effective next Sept., three maintenance men, Jack Blagg, C.E. Hopkins and Bill Peters, were raised from \$775 a month to \$850, and Ken Watts was raised from \$650 to \$900.

Salaries for custodians are hourly, but figures were computed for a 160-hour month, according to Harold Cowley. Their adjustments were: Dave Bridgers from \$440 to \$560; Ralph C-Miranda from \$461 to \$560; Ted Chester and Terry Fields from \$555 to \$616; and M.L. Hodges from \$609 to \$664.

An additional \$600 annual bonus was approved for the schools' two band directors, David Mooney and Mark Cartwright, bringing their above-state salaries to \$2,800 annually.

Trustees approved bids submitted on purchase of a pickup. Shaw Motor was low bidder with \$4,727. The other

bidder was Bates Chevrolet, \$4,748.

The school calendar for 1978-79 was approved, calling for school to begin Aug. 28 and dismiss May 28. Supt. Faris Howell pointed out the calendar has two extra days figured in for bad weather.

Also approved was a field trip for junior high annual staff members to Dallas, and sale of five lots in the Texas Addition for tax purposes, totaling \$1,709.74.

Trustees, approving a suggestion to hold an auction to sell unused school equipment, instructed Nowell and Cowley to set up a date for the sale.

The final hour and 15 minutes, which matched the time the rest of the board meeting lasted, was consumed by a report on the school's maintenance program, given by Cowley.

During his report, it was brought out that the junior high gymnasium's roof was in need of re-covering. Built in the late 1950s, the roof has not been touched since that time and is leaking badly. Cowley said some warping of the gym floor has already been detected.

Local residents slated for initiation at MSU

Dr. Erwin Soell of Iowa Park has been named a diplomate of the American Board of Family Practice (ABFP) as a result of passing a certification examination offered by the ABFP. He is now certified in the specialty of family practice.

The intensive two-day written examination taken by Dr. Soell is designed to prove his ability in the areas of internal medicine, surgery, obstetrics, gynecology, pediatrics, psychiatry and community medicine.

To qualify for the examination a physician must have completed either a three-year family practice residency or have been in family practice a minimum of six years and successfully completed 300 hours of continuing medical education approved by the

American Academy of Family Physicians.

ABFP diplomates also must continue to show proof of competency in the field of comprehensive, continuing care of the family by being recertified every six years. No other medical specialty requires diplomates to prove competence on a continuing basis.

The latest group of diplomates brings the total number to more than 14,000. Most are members of the Academy of Family Physicians, the national association of family doctors. In addition to being the only national M.D. group to require members to take continuing medical study, the Academy was chiefly responsible for securing specialty status for family practice.

Girlstown topic of program

"An Apron String to Tie To" described the way of life for 101 girls on the campuses of Girlstown, U.S.A. at Austin, Berger and Whiteface through a lecture and film presentation highlighting the 23 Study Club program Thursday afternoon. The meeting took place in the home of Mrs. D.O. James and Mrs. L.E. Brooks was co-hostess.

The program was presented by Marshall Cooper of Whiteface, executive director of Girlstown, U.S.A., who has been associated with the work for 14 years. The films showed the physical plants and girls in varied activities on the three campuses. The musical background, "Love Shines on Me", was written by one of the girls at Whiteface.

The speaker said that most of the girls were admitted to the homes through referrals but that some girls admitted themselves. He said that problems presented themselves and had to be dealt with like they did in any

family situation. He gave refreshing instances of girls having come from the most degrading home life rising above circumstances, graduating from high school, sometimes college, and taking their places as responsible citizens in the communities where they live. One girl that he referred to is a candidate for graduation at Texas A&M University this spring.

Following the executive director's lecture and film, Mrs. Joe Singer presented him with a check from the club for \$27 which was raised last spring from an auction within the club.

Mrs. E.F. Soell directed the program. The meditation was contributed by Miss Ethyle Kidwell who chose "Friends Are a Present That You Give to Yourself" for a theme. Larry Pressler and Scott Byrd, brother and cousin of the bride, carried the torches and lighted the candles.

Mrs. Glenn Schell, organ-

ist, and Mrs. Kenneth Flowers, vocalist, presented a program of traditional music. Mrs. Flowers sang "Oh, Promise Me" and "We've Only Just Begun". The prelude numbers and wedding marches were included in Mrs. Schell's offerings.

Miss Brenda Byrd of Oklahoma City, cousin of the bride, was bridesmaid. Their light blue gowns and bouquets were styled identically to those of the maid of honor.

Michelle Cannedy, the flower girl, was attired in a light blue frock trimmed with ruffles and lace and carried a blue wicker basket filled with tiny blue and white flowers.

Stephen Byrd of Oklahoma City, serving as ringbearer, was clad in a black and white tuxedo.

The groom's wedding attire was an all-white tuxedo and his attendants wore black tuxedos.

Joe Matusz, the best man, and Steve Shore and Steve Bremer, the groomsmen, were all from Sheppard AFB. Jimmy Pressler, brother of the bride, and Homer Stone of Troy, Missouri, brother of the groom, were ushers.

Mrs. Pressler wore a corsage of pink carnations with her long double knit aqua gown topped with a net cape and Mrs. Stone wore lavender carnations with her formal double knit green dress.

The bride's parents were hosts for the wedding reception held in Texas Electric Reddy Room where the soft colors of light blue and white lent distinction to decorations and appointments.

The long refreshment table and oval-shaped bride's book table holding the blue plume pen were draped gracefully to the floor with

white dotted swiss over blue. The cloths were set off prettily by narrow ruffles around the edges of the tops of the tables.

Garlands of smilax extended from extremity to extremity across the refreshment table centered with the bridal attendants' bouquets. The three-tiered white cake was decorated with graceful white frosting garlands, bows and scrolls, contrasting blue roses and a set of filigree dividers. The complimentary top ornament was a miniature bride and groom standing in front of a cathedral window trimmed with satin tubing and tiny blue flowers on a lace base.

The white napkins were lettered in gold with "Our Wedding Day, Nancy and Mike, April 8, 1978." Crystal serving pieces completed the table decor.

During the reception, Mrs. Richard Stone registered guests and the groom's sisters, Miss Cindy Stone and Miss Mimmie Stone served refreshments to them.

The groom's mother was hostess for the rehearsal dinner Friday evening at Underwood's.

The bride was graduated from Iowa Park High School and is employed at Sheppard AFB Dyneteria. The groom, a Sr. Airman stationed at

MRS. THOMAS MICHAEL STONE

Sheppard AFB, was graduated from Buchanan High School at Troy, Mo.

In addition to the groom's mother and members of the wedding party, other out-of-town guests were Mrs.

J.W. Hicks, the bride's grandmother, Mr. and Mrs. Byrd and family of Oklahoma City, Mr. and Mrs. Homer Stone of Nebraska, the groom's brother and sister-in-law.

Cook of the Week

Gerri (Mrs. Bill) Rogers, who is co-owner with her husband of the Iowa Park U-Wash Laundromat on East Highway and the Neighborhood Laundromat in Wichita Falls has had opportunity to discover the abundance and richness of the culture, customs and cuisine in many of the states, Canada and Japan.

Born in Canada where she lived until she moved to Arlington, Mass. when she was 13 years of age, she also lived in Alaska and Japan when her husband was in the Air Force. In Massachusetts, Canada and Alaska, she enjoyed seafood at its finest, and in the province and 49th state she feasted on salmon, lobster, crab, hali-

but, etc. and caribou and moose.

She was exposed to the most excellent oriental cooking in Japan, and in the southern states where she has lived she found that cuisine traditions of the past are treasured and preserved. Having lived in Wichita Falls only four years, her recipes this week sound like smacking good old Texas recipes.

Why should you care about the race for County Clerk?

Of all the offices in county government, not one affects more people on a personal basis than the office of County Clerk.

This office provides more than 50 different filing and recording services...property deeds, real estate mortgages, marriage licenses...from birth certificates to wills, somewhere within the 2,000,000 pages of records in the clerk's office is a document that affects every person in this county.

And knowing the very complex and detailed procedures within the office requires experienced leadership and the only experienced candidate is Jerry Padgett.

Padgett has more than 14 year's experience in the County Clerk's office...nine of those years as Dora Davis' chief deputy clerk.

It would take many years to train a newcomer in the complex operations and vital responsibilities of the office.

To insure the offices' present level of service we must have experienced leadership in the County Clerk's office...we must have Jerry Padgett.

JOHN HILL BELIEVES...

- ★ Texas needs no personal or corporate income tax — he will veto any tax increase
- ★ Local property taxes should be reduced — he will provide property tax relief by increasing the state's share of public education costs
- ★ Farmers and ranchers pay more than their share of property taxes — he will work for using agricultural productivity, instead of market value, to set property taxes

As Attorney General, John Hill has blocked telephone rate increases. Now he wants to help you block tax increases. He can — and will — as your next governor.

REMEMBERING...

By BILL BROOKS

ELECTION RETURNS
It was the first election I have any recollection of, a presidential election, as I remember. I would be telling my age if I told you which one so I won't. Dad came in early from the fields and said we were all going to the election returns. I didn't know what they were but I was always ready to go.
We arrived at the county seat to find a huge throng of people jamming the courthouse square. Traffic was backed up for blocks as it seemed that everyone in the county had turned out. We finally found a place to park then made our way to the south side of the courthouse. At the top of the big steps were several dignified looking people standing in front of big blackboards. On the boards were lots of names separated by lines. There were squares by the names and some had numbers scrawled in them.

As it got dark, flood lights were turned on so that we could see the blackboards better. A man with a megaphone made booming announcements every so often. There seemed to be a lot of excitement among the grown-ups but it soon became boring to us kids so we started milling among the crowd. We soon met

other kids who were bored too. We played "tag" and "hide-n-seek" among the parked cars and hedges and trees on the dark side of the courthouse.
Then some tough kids came up to us and started pushing us around. They said that if our folks didn't vote "dimercratik" they were going to beat us up. We said

sure they voted "dimercratik", though I didn't really know who they voted for; I just knew I didn't want to get beat up.
We found Mom and she asked us if we were ready for supper. I was always ready for supper but I didn't know where we could possibly eat since all the cafes were closed. She had thought ahead and packed sandwiches, boiled eggs, potato salad and cookies. We spread a quilt out on the courthouse lawn and enjoyed our nighttime picnic.

Kerrville is not only doing tremendous retail business, as evidenced by all the new shopping centers that virtually buzz with activity, but industry is moving in, and homes are springing up all over the country.
They've really got something going for them in that area.

As I See It....

By BOB HAMILTON

I'd never been in Kerrville or Fredericksburg before last weekend, and thought all I had heard about those two towns were "Chamber of Commerce" type of brags.

They weren't. I'm impressed with their beauty, growth and ability to attract retail trade.

Fredericksburg has a high percentage of people with German heritage, and I've never seen a town more active at 3 p.m., without something special going on.

People travel from all over the country, just to shop and tour that beautiful community. It's a must if you're ever in the area.

It's not really true, what I said about not having been at Kerrville. I passed through on the highway in the summer of 1960, not stopping. Then, in the mid 1960s, I made several flights to the airport, escorting children from Plainview to the Lions Club Cripple Childrens Camp, again never going downtown.

Kerrville is not only doing tremendous retail business, as evidenced by all the new shopping centers that virtually buzz with activity, but industry is moving in, and homes are springing up all over the country.

They've really got something going for them in that area.

Editor Lewis Simmons and I made the trip to attend a two-day advertising and news writing seminar, sponsored by the Texas Press Association. The sites made an otherwise two-day work stay very entertaining.

Remember that burglary we had at the high school March 20? Well, they may have the culprit, but they'll have to interrogate the suspect on the island of Maui, Hawaii.

According to the Fort Stockton Pioneer, a 41-year-old man named Lee C. Olson, alias Lee C. Raper, allegedly hit Fort Stockton High's vault for \$700, Apache Elementary for \$24, and Royal Park Garment Plant for another \$600.

How did he get into the high school's vault? Well, he first tried to bust through the wall, like entry was made here. The wall was more solid than here, so he found a handy cutting torch, and burned his way through the vault's steel door.

He is also wanted for questioning in unsolved burglaries at Big Bend National Park headquarters, three on Padre Island, Del Rio and San Antonio.

Olson reportedly used a new Honda 350-XL to get around. He allegedly abandoned it, and his pup tent, when he left the Fort Stockton area.

Olson was arrested in Hawaii on a burglary charge. He had \$3,000 in cash on him when taken into custody. And when they started checking him out, found he had escaped from the Nebraska State Penitentiary, where he was serving a sentence for burglary convictions.

A check with the local police department yesterday indicated nothing new on the local burglary case. So we may have learned something we keep telling others: It sure pays to read your weekly newspapers!

That was intended as a compliment to my friends on the staff of the Fort Stockton Pioneer.

Humor 'n Whimsey

Joe Riordan

"Was that a squirrel?"
"No, that was a mongoose."
I was excited. I had never seen one of these ferretlike animals before. Then another mongoose darted across the path and into the undergrowth. I knew this was something I had to tell the Lifetime Helpmate about.

When I reached the top of the path she was waiting for me.

"Guess what I just saw."
"A real Japanese gardener. I saw him too -- from up here."

"No, I saw ..."
I stopped. What did I see? Two mongooses? Two mongooses? Then I hit upon an idea as she said, impatiently:

"Well, what did you see?"
"I saw a mongoose. And do you know what else I saw?"

"No."
"I saw another mongoose."

When the Lifetime Helpmate decided we should finally take a trip to Hawaii -- I agreed without argument. I am a born sightseer and amateur photographer and the island of Oahu offers plenty of opportunities for both.

On our third day in Honolulu we rented a car and drove out of the city to see other parts of the island. We stopped for lunch at a restaurant overlooking a beautiful Japanese garden. When we had finished our meal, I decided to tour the garden while she studied a map to see if we could find our way back to the hotel.

I strolled down a descending path to the haven of flowers below. At the bottom of the path I exchanged greetings with a gardener working there. Suddenly a small animal darted from a clump of bougainvillea into a dense forest that surrounded the garden.

Our Town

By Lita Watson

Aren't the flowers beautiful in our town? Lilies, wisteria, forsythia and red bud have been especially beautiful this spring.

The people who came here from Iowa and laid out our town must have envisioned just such beauty when they included several parks in the original plat dated October 22, 1888.

John Sibley and all the members of the Park Board are working hard to make Oscar Park at Lake Gordon a beauty spot. They have planted cedar elm and mulberry trees and crape

myrtle, and are in the process of constructing a large picnic pavilion.

The Garden Club has provided shrubs for Oscar Park, Pace Park and the Expressway and trees for Kidwell School grounds. The 23 Study Club has purchased trees for the Bradford campus.

Residents on North Park Street have planted trees, shrubs and bluebonnets in the boulevard. Iris will soon be in bloom over all the town.

Thanks to everyone who has brightened even one corner. Every beautiful thing that I see enriches my soul and our town.

Pecan grafting demonstration is today at Research Center

By Don D. Decker
County Agent

As a follow up to the pecan shortcourse, a pecan grafting field demonstration is scheduled for 6 p.m. today

at the Iowa Park Research Center.

Virgil Woodfin, chairman of the pecan growers, will demonstrate on the trees the technique of inlayed

bark grafting. Then the group can practice their grafting skills on other trees at the station.

Growers are also reminded to make their first pecan scab and rosette control application between April 15 to April 20th. NZN or zinc

supphate is recommended for rosette and benlate (benomy) or Duter can be used for scab. The two materials are mixed together. This application should be completed before the catkins (male flowers) begin to form while the leaves are only 1/2 grown.

Allison announces county clerk candidate

Howard Allison, long-time Wichita Falls businessman, this week authorized the Iowa Park Leader to announce his candidacy for County Clerk of Wichita County, subject to the Democratic Party primary May 6.

Allison had announced earlier in Wichita Falls, but explained a lengthy hospital stay due to back surgery had delayed his announcing here.

In announcing his candidacy, Allison said his major concern is to provide the people of the county with dedicated responsible service in this important record-keeping office.

Allison stressed that any government office must be operated with maximum efficiency and economy. He praised retiring County Clerk Dora Davis and stated that he would continue her current policies.

A Wichita County resident the past 24 years, Allison has been self-employed in the insurance business 20 years as a local independent agent. His wife, Carolyn, is a teacher of language arts at Zundelwitz Junior High School and has taught in Wichita Falls public schools over 14 years. Their two children, Brian 17, and Lynn 14, are students at Rider High.

Allison, 46, is a graduate of Texas A&M Univ. where he received a B.B.A. degree in accounting. He was a member of the Cadet Corps and was commissioned an officer in the Air Force. He holds the rank of major in the USAF Reserve.

HOWARD ALLISON

He served on active duty at Sheppard in the early 1950s, and is now area representative to the Air Force Academy.

Allison is active in church and civic work, having served on the administrative board of the First United Methodist Church in Wichita Falls. He has served as chairman of the Visitation - Evangelism Commission and the usher committee, and as a member of the Pastor - Parish Relations Committee.

He is past president of the Independent Insurance Agents of Wichita Falls, and is past president of the University Kiwanis Club. He is a 32nd degree Scottish Rite Mason.

Allison, who served on the Wichita Falls planning board four years, said "The taxpayers of Wichita County deserve educated and widely experienced officials in whom they can take pride. My long time experience in the insurance agency business which requires accurate and detailed record keeping and my accounting degree qualify me for this office."

The sun heats and cools this home. Texas Electric does the rest.

This solar house at the University of Texas at Arlington is an experiment. It's one of many research projects Texas Electric is participating in to search for future energy sources.

These solar panels, powered by the sun, produce no electricity. But they do provide the heating and cooling for this home. The electricity for lighting, appliances and the backup heating and cooling system comes from generating plants fueled by natural gas and lignite coal.

Research offers us hope for new energy sources that will be dependable and economical. Until then, Texas Electric must continue to build lignite coal- and nuclear-fueled generating plants to supply you and our solar home customers the electricity needed now — and in the future.

Hawks drop one-pointers

The Hawks almost pulled a successful rally in the bottom of the final inning here Tuesday against Weatherford, but fell short, 5-4.

Trailing 5-3 after holding the Kangaroos scoreless the final two innings, Keith Hillard led off with an infield single. He advanced on a single by Chris Bowerman, and Jeff Martin's perfect bunt not only sent him to first safely, but scored Hillard.

Rusty price was allowed to first on an infield hit, but Bowerman, on a fielder's choice, was picked off at third. Blaine Horton put down a sacrifice bunt to get Martin on third, but Terry Daniels struck out, ending the game.

The Hawks collected six hits, while Bowerman, who went the distance on the mound, held the 'Roos to only three.

Iowa Park is now 1-4 in Dist. 4-AAA play, having lost 3-2 Friday to Stephenville in a game which saw all the scoring come in the third

Griffith third in WF Classic

Randall Griffith advanced all the way to the quarter-finals of the Wichita Falls Classic tennis tournament last weekend.

After drawing a bye in the first round, he defeated Joe Davis of Vernon 6-0, 6-2, then bested Hirschi's Lyn Holly 6-1, 6-2 and Bill Bibb of Wichita Falls High 6-3, 6-3. Bibb was fourth-seeded.

Griffith lost 6-4, 6-1 to Greg Wright of Lubbock Coronado.

Wright then was beaten by Brad Stoffe of St. Mark's, who is the top ranked player in the state for boys 16 years of age and under.

inning, Kelly Crush, Hawk pitcher, struck out seven batters.

The Hawks, 3-10 on the season, travel to Mineral Wells April 21 for their next game.
