## Leonard Luckett Lists Farm Safety Pointers

All persons and organizations interested in farm life and welfare are urged by Leonard Luckett, chairman of the Wichita county 4-H safety committee, to take part in observance of the 10th National Farm Safety Week, July 19-25.

In order to be specific, Leonard listed the National Safety Council ten commandments for farm safety as follows:

1. Keep machines in good repair. Make sure your equipment is in safe working condition. Keep all guards and safety devices in place.
2. Operate tractors safely: Start tractors smoothly and turn corners slowly. Avoid ditches, banks and soft ground.
3. Know and obey all traffic laws: Be a safe, careful driver and drive a safe car.
4. Speak to animals when approaching them: Animals may bolt if startled, so calmly assure them of your presence.
5. Be fire-sighted: Don't smoke around the barn. Don't start fires with kerosene. Be careful with all matches.
6. Be a good housekeeper: Keep things systematic in your home and on your farm. Have a place for everything and keep everything in its place.
7. Watch your step to prevent falls: Keep ladders in good repair. Make sure floors, have no treacherous holes. Watch your step.
8. Follow safety instructions: Following printed instructions can save your life. Read and heed them whether they are No Smoking signs in the barn, or labels on machinery.
9. Know and obey water safety rules: Don't swim alone. Know the depth of the water before diving in. Sit still in small boats.
10. Apply first aid promptly: Keep first aid kits in the home, in the barn, and on the tractor. Seconds count when infection may set in.

## SPOTLIGHT on SPORTS

In the Oilbelt league tournament the Iowa Park Independents took their first game with an 8-5 score over Windthorst. The locals surrendered a three run lead in the early stages of the game but rallied to a 3-3 tie before falling behind again 3-4. The Independents finally went ahead to stay in the fifth inning when they pushed over three runs to take a 6 to 4 lead.

Iowa Park managed to score two more and then choked off a Windthorst rally to end the game at 8-5.

Fred Blassingame and Jack Van-trease were the hitting stars, as Lee Roy Weiss picked up his 5th victory of the year against only 1 tie.

We were to play Nocona last Sunday afternoon, but officials of Spudder Park called the games because of wet grounds. The tourney will be resumed this Friday night in Spudder Park. The first game will be Midway and Burk at 6:00, and the second tie pits Iowa Park against Nocona at 8:30.

Jimmy Tate, who pitched a fine game against Burk in his last outing, will probably be on the mound for Iowa Park.

If the Independents fail to gain the Sunday afternoon finals, a game between Iowa Park and Archer City will be played at 2:30 Sunday at Iowa Park.

Honoring Jimmy Don Bates, who is due to leave next Tuesday for army service, Bill Weiler and Ben Huckaby entertained with a steak dinner for the three of them Thursday night of this week.

## Cong. Frank Ikard Gives Opinion on Government Drouth Relief Program

F. E. Hill, president of the State National Bank of Iowa Park, this week received a letter from Congressman Frank Ikard in Washington, D.C., in which our district representative stated his opinion on the drouth relief plans of the federal government. The letter said in part:

"The instructions to the county drouth committees as to how they must administer the emergency feed program have been sent out of the Department of Agriculture here. These instructions state that: 'To be eligible for feed at reduced prices a farmer or stockman must (1) have less than a 30-day supply of feed to supplement the roughage for the foundation herd to be maintained, except that such feed may be made available for cattle other than those in the foundation herd when such cattle, other than feeders in feed lots, will be marketed not later than September 30, 1953; (2) not have the financial ability to remain in business and maintain his herd in a relatively satisfactory condition in view of present drouth conditions, unless he can purchase feed at prices substantially below prevailing market prices. Feeders in feed lots are not eligible. To avoid any undue hardships, county committees should use reasonable discretion in carrying out these instructions.'

"Those instructions appear, in many respects, to defeat the whole purpose of the program. In the first place, it provides that feed may not be made available for cattle other than the foundation herd, after September 30, 1953, and according to the instructions, the foundation herd consists of cows, bulls, nursing calves and such heifers as may be kept to replace over-age and other undesirable cattle. This very obviously denies feed for steers after September 30. This, of course, will mean that unquestionably large numbers of steers will be sent to the market around September 30, if not sooner, which is the very thing that should be prevented. It is also apparent that this will work an undue hardship on the small cattleman who has a few cows and a few steers, for it will mean that he will be unable to get feed under the drouth relief program for his steers after September 30 if he keeps them, while he can get such feed for his cows. In many such instances, the only chance the stockman has for recovery is to be able to carry over his steers until next year in the hope that marketing conditions will be better. If he cannot do this, it will mean he will have to take additional losses and the market will be further glutted with unfinished cattle.

"Another provision of the regulations provides that the cowman, in order to get feed, must not have the financial ability to remain in business and maintain his herd in a relatively satisfactory condition. This, of course, is very broad and in many respects in meaningless language. If it is to be interpreted that in order to be eligible for feed, a person has to, in effect, take a 'pauper's oath' a great hardship will be worked. It could be interpreted that anyone with an equity or credit, no matter how small or meager it is, could not participate in the program. Such an interpretation could only lead to further economic disaster in the drouth area and to a greater marketing of cattle, which, I repeat, is the very thing this program is supposed to try to prevent.

"I am very fearful that the regulations as they now stand will defeat the whole purpose of the drouth relief program."

## Light Polio Attack Slows J. C. Parmer's Studies

## Open-Type Pleasure Horse Show Added to Texas-Oklahoma Fair

Additional features of the Silver Anniversary Texas-Oklahoma Fair as released by planning officers under direction of Dr. Gordon G. Clark, association president, are as follows:

For a Fair famous for "firsts"—for which the T-O Fair has gained a name in recent years—the 1953 Show will present for the first time an Open Pleasure-Type Horse show. Designed to appeal to the hundreds of fine horses whose interest lies in the appearance and ability of their animals, with breed-registry of minimum importance, the new department will present a ten-event program which will be a tribute to the horses and horsemanship of the Southwest.

With everything from a Grand Entry competition to a junior barrel race, the Pleasure-Type Horse show will appeal to every horse lover—and will provide a showplace for every horse owner. The Open show will occupy the first three days of the week-long program, with the traditional registered Quarter Horse show filling in the last three days.

A salute to our neighbors South of the Border will be another of the featured "firsts" for the Silver Anniversary Fair, as Republic of Mexico Day is added to the long list of special days for the event. Program details are in the hands of representatives of the Mexican government and area residents of Mexican extraction, with festivities scheduled to occupy Saturday of Fair Week.

**Two Trucks, Volunteer Firemen Give Holliday Good Protection**

The availability of fire-fighting facilities in case of fire should be of real concern to every property holder. Holliday citizens may well be proud of the fire department at its disposal. This department has built for itself an excellent record within the past year.  
A little background history might be of interest to area residents. The fire department was organized in 1927 following incorporation of the City in Sept. 1925.  
A partial list of fire chiefs since that date includes Earl Allen, Cleo Harrison, Carlton Reed, Frank Donahue and J. R. Franklin. The present fire chief is Orville King, the assistant chief is Paul King.  
These men along with Joe Martin, water superintendent, are shown with the city's fire fighting equipment in the accompanying picture.  
This equipment includes two trucks, one belonging to the City and the other to the Precinct. The precinct truck is the newer of the two having been purchased in the fall of 1951. A 5c tax was voted to make possible purchase of this truck. Four cents of this amount has already been paid, according to Cole Tidwell, county commissioner. The remaining 1 cent tax is to be paid off next year.  
The city truck is about four years old. Both were bought in parts and put together by local men in order to save expense.  
Both trucks are kept in excellent condition and ready for service at all times. Calls have been answered as far away as Windthorst by the local department.  
The precinct truck, which is one of four located in the county, is available for use anywhere in the county. It is equipped with a special 500 gallon water tank which operates under 400 to 600 pounds water pressure. This truck also has two hoses and a fog nozzle with which to fight gas or wild fires.  
All work with the fire department is on a voluntary basis. A list of firemen would include every man in town available when the whistle sounds. Some of the regulars are Darrell Whitehead, Shorty Riddles, W. E. Boozer, J. R. Franklin, J. D. Johnson, Joe Martin, Joe Holt, Aubrey Lawler, Boog Minnix, and C. A. Roberts, who answers every fire call in order to disconnect electrical current.  
In 1950 the state fire department inspector checked over the local situation and recommended that the fire insurance rates be lowered from the high rate that had been fixed following the disastrous fire at the school building in 1945. At that time fire fighting facilities were inadequate, thus causing the increased rate.  
This situation has since been improved to the extent that the state inspector recommended a lower rate provided certain conditions were met. One of them was that "No Parking" signs be placed at points specified by the inspector.  
Fire Chief King asks that area citizens watch their trash and grass fires and be sure to call the fire department before the blaze has spread too far. He also states that the fire department will be glad to burn anything that is risky for residents to burn by themselves.  
The local telephone office has direct connections with the fire siren, so in case of fire, citizens are asked to call the operator rather than the City office. When the dial signal is completed, other arrangements for turning in a fire alarm will be announced.

**Presbyterians**

The Women of the Presbyterian church met at 9:30 Monday morning at the church for the combined program for July. Mrs. L. Shelton, president, called the meeting to order.

Mrs. J. B. Ridenour told about "The Home."  
Mrs. Shelton was leader for the general program entitled "My Church and the Nation." The purpose of this program was to re-examine as Christian Americans the roots of our national heritage, and to face our opportunity and responsibility for the preservation and extension of our privileges.  
Miss Mina Troutman read the following scripture: I Kings 18:20-24, 38-40; Isaiah 58:13, 14; II Chronicles 7:14.  
Assisting Mrs. Shelton were Mrs. L. Lovelace who told "Why They Came," Mrs. K. P. Abernathy, "What They Said," Mrs. C. E. Birk, "Citizenship." The leader closed the program with prayer.  
Present for the study were Mmes. Locke Lowrance, T. A. Uhrich, C. Birk, Charles Williams and Liz, Beverly Birk and William Louis Cooksey.

*It stands to reason...*

**Chevrolet trucks must be the best buy!**

Big truck users, small truck users, all truck users buy more Chevrolet trucks than any other make. It stands to reason Chevrolet trucks must offer more of what you want.

When you stop to think about it, the best proof of outstanding value in any product is continued public preference. That's the way it is with Chevrolet trucks. They're the top selling trucks in America today . . . for the twelfth straight production year.

This is a mighty important fact to consider before you buy your next truck. You'll also want to consider that, while Chevrolet trucks give you more features you want, it's the lowest-priced truck line of all! Come in and talk it over with us.

### Make A Hearty Salad And Build A Meal Around It

When you think of salads, you should often think of them in terms of main dishes—for variety, economy and sheer deliciousness! Let this Tongue Barbecue Salad be your inspiration. A hearty, satisfying salad, it brings a new, QUICK way to prepare tomato aspic with canned tomato sauce and lemon-flavored gelatin. Try it and enjoy it! This molded salad with soup, potato chips, dessert and beverage make a complete supper or company buffet.

#### TONGUE BARBECUE SALAD (Quick Tomato Aspic)

- 1 package lemon-flavored gelatin
- 1 cup hot water
- 1 can (ounces) tomato sauce
- 1 1/2 tablespoons vinegar
- 1/2 teaspoon salt
- Dash of pepper
- 1 cup diced cooked tongue\*
- 1 cup finely diced celery
- 2 tablespoons sweet pickle relish

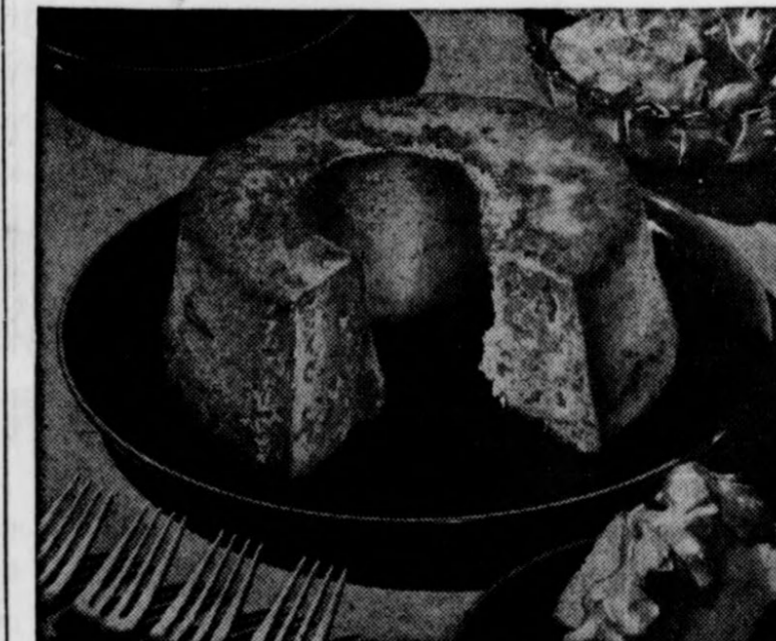

Dissolve gelatin in hot water. Add tomato sauce, vinegar, salt, and pepper. Blend. Chill until slightly thickened. Then fold in tongue, celery, and pickle relish. Pour into 1-quart mold or individual molds. Chill until firm. Unmold. Garnish with crisp salad greens. Serve with mayonnaise, seasoned with horse-radish or dry mustard. Makes 4 to 6 servings.

### Pink Topping for Angel Cake

Versatile angel cake, so adaptable to all summer occasions, and so easily available from your grocer's ready-to-eat cake department can wear a heavenly pink topping or icing that is cool, light, and fruity as the red raspberries that give it flavor.

You will not believe that one egg white plus sugar and berries will make two quarts of fluffy pink topping. But it does. Try it and see. This is enough to completely and generously ice an eight-ounce angel cake made from a cook book recipe, with some left over to serve with additional whole berries as a raspberry whip. Strawberries, bananas or grated raw apple may be used instead of raspberries.

#### Pink Raspberry Topping

- 1 cup mashed red raspberries
- 1 egg white, unbeaten
- 1 cup granulated sugar
- 3/4 teaspoon salt

Put all ingredients into a 3-quart mixing bowl. Beat or whip until topping does not move when bowl is slowly inverted (20 to 25 minutes by hand; 12 to 15 minutes with electric mixer). Topping is best when used within 1 to 2 hours, but may be kept as long as a day.

**Tennis Exhibition Set Monday Evening at Holliday's New Court**

Charles W. (Chuck) Avera, well known in this area and in adjoining states as a highly successful tennis player and coach, is scheduled to appear in an exhibition match on the local tennis courts Monday evening between 6:00 and 7:30.

This exhibition which will feature tops in tennis playing skill, has been designed as a formal opener for the school's new tennis court.

The new court with a concrete surface was constructed this summer. The school has two such courts which make it now possible to schedule play-off matches.

Purpose of the exhibition by Mr. Avera is to arouse local interest in tennis as a good, wholesome sport. Parents as well as school students are invited to come out and witness the demonstration.

Local tennis enthusiasts hope to arouse enough interest that a class of students may be worked up to take lessons from Avera. A group has already arranged to go into Wichita Falls next Saturday to begin instructions. Among those are Jo Frances Yarbrough, Georgia Lou Cox, Norma Ferguson, Billie Spradlin, Don and Van Hubbard, Jimmie Harrison and Carol Magee. It is hoped others will become interested in taking the lessons.

Coach Avera is serving as full-time tennis instructor at Wichita Falls high school. He also gives private lessons and supervises the tennis program at Wichita Falls parks.

Avera has had years of experience as a tennis player and instructor. While a student at Central State college, Edmond, Okla., Avera was rated as the school's No. 1 player for three years. In 1948 he captured the collegiate conference

crowns in both singles and doubles. The past year one of his students, Billy Gowan of Wichita Falls high school, won first place at the state interscholastic meet.
