He served four years in World War II and has served one year in the present emergency. John attended school in Iowa Park.

Park Area Club Will Entertain City Viewers

Park Area Home Demonstration club met July 1 with Mrs. A. E. Bailey at 2:00 p.m. Mrs. Bailey as president called the meeting to order for the devotional by Mrs. McMullin.

Members answered roll call with safety hints.

Plans were made for a brunch on July 15 in the home of Mrs. Lester Brooks, when members of the City View club will be guests.

Members present were Mesdames Gunn, Ruke, Estes, McMullin and Bailey. The hostess served a cooling refreshment plate.

Each summer as hot weather returns it brings with it a creeping menace to the anglers' plugs in the form of algae. The slimy green mass sometimes covers the entire pond or lake to a depth of several feet. At the worst it can make a pond impossible to fish with a lure and even a few clumps of it can give a fisherman some bad moments.

Various arguments for and against the desirability of algae in lake or pond water have been advanced. It is necessary in the cycle of food fish life, without which game fish cannot exist, but in the event of an excess of the slimy stuff can also be a menace to game fish.

Many methods of eradication have been developed. Few of them are effective for long and some are poisonous to fish. Even dragging the stuff out with wire netting is effective for only a few weeks at the most.

Probably the easiest, least dangerous and most effective treatment is the use of copper sulphate. This chemical in powder form can be purchased in most drug stores, though it is comparatively expensive when purchased in such purity. If a commercial source is available it can be had cheaply.

Copper sulphate treatment has been proved harmless to fish if used wisely. Recommended amount is three pounds per acre foot of water. If the pond is covered over a large area, only part to the extent of one half, should be treated at any one time. The second treatment should come a week or more later. Reason is that the decaying algae will consume so much oxygen that fish life will be endangered if an entire heavily laden pond is treated at one time.

Methods of application are varied. The chemical can be placed in a porous sack and dragged behind a boat until it is dissolved. It can be mixed with water and sprayed, or it can be scattered by hand.

Mrs. Dan Clark and children of Norman, Okla., returned home on Monday after a two weeks visit with her parents Mr. and Mrs. Carl Walsh.

Death Takes Mother Of Mrs. M. O. Cheves

Mrs. Joe Gregg, 84, of Willow Point, died Tuesday, June 30, at 9:00 p.m. after falling and breaking her hip about two months ago.

Mrs. Gregg was the mother of Mrs. M. O. Cheves and grandmother of Clifford Hestand of Iowa Park.

She had lived in Vineyard since childhood. Funeral services were conducted Thursday afternoon at the Methodist church and burial followed in the Willow Point cemetery.

Mrs. Gregg is survived by three sons: Joe of Willow Point, Claud and Henry of Jacksboro; three daughters: Mrs. A. D. Hestand of Wichita Falls; Mrs. Charles; and Mrs. Smith Hooten of Itasca; 17 grandchildren; 28 great grandchildren; and 2 great great grandchildren.

Temperance Man to Speak Here Sunday

"Working Together for Wholesome Living" is the sermon topic announced by Rev. Jesse W. Roberson, field secretary for the United Texas Drys, who will be guest preacher at the Iowa Park Methodist church next Sunday morning.

Mr. Roberson joined the staff of the state temperance organization June 1 after 19 years service as a pastor in the Texas conference of the Methodist church. He will be responsible for pastor-church relations and county organizations in 18 counties of north central Texas.

He will preach, teach, counsel and otherwise assist ministers and laymen of all denominations who desire his services, in alcohol and narcotics education.

Mr. Roberson is a graduate of McMurry college, Abilene, and Perkins school of theology, Southern Methodist university, Dallas. He and his family will live at 2218 Talunar Lane, Wichita Falls.

The public is invited by Rev. Guy Perdue, local minister, to hear Mr. Roberson, Sunday morning.

Rev. Johns, Lubbock, To Preach Sunday At Baptist Church

Rev. James N. Easterwood conducted midweek prayer service Wednesday evening as his final service to the local Baptist church as pastor.

At the close of the prayer and meditation period, Lester Brooks, chairman of the board of deacons, conducted an appreciation session in behalf of the pastor and his family, after which a cash offering was presented. Cake and ice cream were served on the lawn to a large representation of the congregation and others of the community.

Mr. and Mrs. Easterwood and children Jimmy, Peggy and Gary and his mother Mrs. Nannie Easterwood, left Thursday for Anson, where on Sunday he will preach his first sermon as pastor and begin a revival.

Rev. Johnny Johns of Lubbock will occupy the Iowa Park Baptist pulpit Sunday for both services. He is a recently released army chaplain who served for three years as pastor at O'Donnell prior to going into the service.

Mr. Johns is a prospect for the pastorate here, coming highly recommended to the pulpit committee.

Baptist Girls at Camp

Nineteen members of the Junior G.A. of the Baptist church and their counselors attended the Joan James youth camp of District 11 at Vernon. They left Monday morning and returned Thursday afternoon.

Attending were Mrs. Jim Miller, counselor, Barbara Tatom, co-counselor, Patricia Paris, Betty Tatom, Lenora Brown, Patsy Blaylock, Barbara Young, Shirley Jones, Nancy Smith, Rebecca Holloway, Janice Miller, Peggy Miller, Peggy Easterwood, Brenda Watson, Linda McKenzie, Patsy Laxson, Phyllis Truett, Rose Mary Clark, June Thompson, Linda Smith, Paula Smith.

Former Parkans Injured in Automobile Upset

Word has been received here that Mrs. James Stevenson with her two children and her sister Linda Robertson, was in a car accident last Friday between Hooker, Okla., and her home at Liberal, Kans.

Mrs. Stevenson was driving the car when it hit loose gravel and turned over.

All received minor injuries except Linda. She had both legs, an arm and her left hand broken. Linda is the 10 year old daughter of Mr. and Mrs. Clyde Robertson, formerly of Iowa Park and now living at Liberal. Mrs. Stevenson is the former Cornelia Robertson.

Boy Scouts Entertain Perkins Camp Visitors

Recently a group of Boy Scouts of Iowa Park spent a week at Camp Perkins. They were accompanied by Miles Thompson, former scoutmaster.

On Parents' Night Burk Scott and R. E. Waters went to be with the boys. District scout officers Rollins Woodall, Chester Gleason and Buck Voyles also attended.

Fellow Ministers Honor Easterwoods at Party

Members of the Iowa Park Ministerial Alliance entertained Rev. and Mrs. James N. Easterwood at a breakfast Tuesday at the Presbyterian church. Meeting in the fellowship hall were Rev. and Mrs. M. C. Yeargan, serving as president of the alliance and hostess, Rev. and Mrs. Chester Gleason, Rev. Guy Perdue, Rev. Charles Dale, the Easterwoods and Rev. Jesse W. Roberson of Wichita Falls.

The Easterwoods were presented farewell gifts of a book by Clarence Marney and a nylon blouse.

Amid fellowship and prayer a menu of coffee and rolls was served on a lace covered table bright with a floral centerpiece and chains of ivy decorated by Mrs. Gleason and Mrs. Will Detlefs.

Richard Hill Installed As Lions President

Richard Hill was installed as president of Iowa Park Lions club at the luncheon meeting Tuesday, with Russell Willis of Wichita Falls making the charge as his last official act as deputy governor of District 2 E.

Mr. Willis introduced each new officer and reminded members that each individual should feel that he himself was also installed to carry out the ideals and purposes of the organization.

Installed with Mr. Hill were Alan W. Berry, Buck Voyles and Floyd May, first, second and third vice-presidents; Rollins Woodall, secretary; Robert R. Brubaker, treasurer; Thomas Pace Jr., tail twister; Fred Hays, Lion tamer; F. M. Wilson and Chester Gleason, directors.

Albert L. Reed, retiring president, made an oral report on activities of the club during the past year. The club voted \$100 to be given Bruce Hughes to help defray expenses to the Scout Jamboree in California. Bruce has passed all work required to become an Eagle scout and only awaits a court of honor to be called soon for that purpose.

Dr. Crawford Attends Convention, Clinical Session at Lubbock

Dr. L. A. Crawford of Iowa Park was among 200 Naturopathic Physicians attending the annual convention and clinical session of the Texas Naturopathic Physicians association at Lubbock last weekend.

He has been awarded a certificate for clinical studies completed while in attendance at the clinical session.

Dr. Stuart Kabnick of Philadelphia, Penna., headed the discussion on the subject "Normal Healing Is Natural Healing" which covered body chemistry and related matters. Dr. Wilce M. Garton of Houston presented a lecture on "Anatomy and the Body Structure."

Dr. M. W. Cook of Lubbock led a discussion into the "Treatment of Chronic Sinus."

Other subjects and a full entertainment program were also attended by Dr. Crawford.

Albert May Jr. to Head Iowa Park Masons

The Iowa Park AF&AM No. 713 Masonic lodge will install officers for the ensuing year Friday evening at 8:00.

District Deputy Grand Master Elton L. White of Wichita Falls will make his official visit and see installation of the following officers:

Albert May Jr., worshipful master, Harry Lee Mitchell, sr. warden, Gerald Walsh, junior warden. J. W. Thomas, treasurer. R. R. Brubaker, secretary. Carl Walsh, tiler.

Installing officers will be Elmo Traylor, worshipful master, and Taylor George, marshal.

Butch House Operated

Wendell "Butch" House, small son of Mr. and Mrs. Wayne House, underwent emergency surgery at Wichita General hospital Wednesday night. He had been in the hospital more than a week for treatment and observation. The Park Clinic reports he is recovering nicely today.

PMA Awaits Scoop

Bob Crocker, county PMA administrative officer, said Wednesday the Iowa Park office has not received information concerning the emergency fund for douth relief. Farmers have been contacting his office, Crocker said. He suggests they watch the newspaper for information as to how the fund will be handled here.

Supt. and Mrs. Swim Arrive; Work Continues On Home Ec Cottage

Iowa Park's school superintendent and family, Mr. and Mrs. Keith D. Swim and small daughter Sharon, moved to the superintendent's home on East Cash last Friday.

Mr. Swim is now busy filling vacancies and getting the school system ready for the opening day in September.

There have been some improvements at the home economics cottage. It has undergone remodeling inside and out. The home ec girls have bought a new rug for one room with funds they made selling candy.

The school board has authorized remodeling of the kitchen. It will be made into four complete kitchen units with one of them an electric unit. There will be new cabinets and other built-in features. Miss Oleta Curlee is the home economics instructor, and she has given freely of her time to the girls and the department.

Mr. Swim said a water well will be started this week at the football field to help keep the field in shape for next fall's games.

The stadium has been painted and many more improvements will be noticed by patrons and students when the term begins.

The new superintendent welcomes all to call on him and get acquainted.

Sheri Brooks and Jimmie Jeter Marry in Baptist Church Wednesday Eve

Sheri Ann Brooks became the bride of Jimmie Louis Jeter of Wichita Falls at 7:00 p.m. Wednesday, July 1, in a double ring ceremony performed in the parlor of the Iowa Park Baptist church by Rev. James N. Easterwood, pastor.

The bride, daughter of Mr. and Mrs. L. E. Brooks, is a senior in Iowa Park High School and plans to continue her studies. The groom is son of Mr. and Mrs. Jack Jeter of Wichita Falls. He is a senior in Wichita Falls high school.

For her wedding the bride was attired in a street length dress of embossed pique. With this she wore a half-hat of pique, illusion and lace. She carried a shower bouquet of white carnations and agapanthus atop a white Bible. A bit of family sentiment was inspiration for the bride's jewelry. Her necklace was an antique chain that has been in her mother's family many years and was worn by her mother in her wedding. A matching antique bracelet was also worn by the bride.

Miss June James of Iowa Park was maid of honor. She wore a street length dress of blue nylon with matching headress, and a shoulder corsage of pink carnations.

Claburn Lindley of Iowa Park was best man.

After a short wedding trip the couple will establish residence in Wichita Falls.

Highway Blacktopping Completed in I.P. Area

Commissioner Buck Voyles reports the highway to the Clara church and at the Y for 1 1/2 miles east to Burk Burnett has been completed with a blacktop surface by the state highway department.

Also the Experiment Farm road leading in to the south east corner of Iowa Park has been completed. This will connect the Farm to Market road through the Valley Farms and to Wichita Falls.

This new program has added about 18 miles of blacktopping in this area.

F. E. Hill and other leaders in the Iowa Park Chamber of Commerce have worked for years to toped getting these roads topped with all weather materials. They believe the better highways will be of great benefit to the farm folk in these areas, as well as to Iowa Park as a shopping center.

There are several road projects in this commissioner's precinct that will next receive the attention of the Chamber's road committee and Commissioner Voyles.

BUCK VOYLES

Your C. of C.

By Ruth Hill Yeargan

NEW MEMBERS

Twenty-three members for the Chamber of Commerce was the net result of a day and a half's effort on the part of volunteer salesmen to sell Iowa Park to prospect firms and individuals. With reports not all in, the committee feels that others will be added to this number before the week is over.

Directors are encouraging all new members, particularly, to attend any meeting of the board to familiarize themselves with the work of the Chamber and to make suggestions on whatever they think the community might need.

Next regular meeting of the directors will be Tuesday morning July 7 at 6:30. This will be a business-breakfast session at Al Smith's restaurant.

Directors meet each month on the first Tuesday—the early morning meetings are the more popular.

IOWA PARK HIGHWAY SIGN STOPS STAR-TELEGRAM MAN

To Presley Bryant of Fort Worth, Iowa Park was just another little town to go through as quickly as possible so he could get where he was going—until his eyes fell on the sign "Free Parking—No Meters"—and that got him.

When a man who faces parking problems every waking hour learns of a place where citizens have no parking pickle, he just naturally has to stop and see it.

That's why he had Bryant as an unexpected caller Wednesday afternoon.

He had no intention of stopping in Iowa Park and had no business to transact here, but he thought that highway sign was pretty clever and wanted to know something about a town that was alert enough to capitalize on something it doesn't even have—"no meters."

TOURIST INTEREST

Tourists interest us more and more as time goes by. (We hope to be one before the summer is over.)

At the West Texas C of C booth at the Southwestern Sports and Vacation show in Dallas, 3000 persons signed up for travel and vacation literature. Recently that list was sent to us. It represents 161 towns in Texas, 22 states and five foreign countries.

The US chamber of commerce estimates that 13 to 22 billion dollars are spent annually by Mom, Dad and the kids on vacations.

According to the American Auto association, travel is a major industry in all of the 48 states. 1951 shows that 26 states ranked travel as one of their top three sources of revenue, along with agriculture and manufacturing. New Jersey and New Mexico rated it as their chief source of revenue. In southern California, it is second only to aircraft manufacture as a dollar producer, and pushes petroleum and the motion picture industry to third and fourth places.

IOWA PARK'S TWO TOURIST ATTRACTIONS

Iowa Park's chief tourist attraction during the summer is the City Park and during the last week in September, the Texas-Oklahoma Fair.

During the month of June 100 persons have stopped in the park to eat a picnic meal and relax. The park offers good shade, well-built picnic tables and a first class barbecue pit amid clean surroundings.

The C of C courtesy card for a cold drink or coffee at cafes and drug stores was given each visitor, and after picnic kits were repacked and stowed away in the car, each group visited the town. Many of the tourists expressed their appreciation and were pleased with the idea for advertising the town. They say it sure makes them want to come back to Iowa Park.

And the tourist business in Iowa Park will really pick up when the Fair goes all out with its Silver Anniversary bigtime show. The dates are Sept. 28 through Oct. 3.

Walter Bedford is now employed at the General Motors plant in Grand Prairie.

SPOTLIGHT on SPORTS

Lee Roy Weiss pitched Iowa Park to a 3 to 0 victory over Windthorst last Sunday on the local diamond in an Oilbelt league contest.

Weiss gave up only one hit and was complete master of the game at all times except in the seventh inning when two Independent errors put runners on first and third with only one out.

Weiss bore down and struck out Alvin Wolf and then got Schroeder to pop out to the shortstop to get out of the inning.

Iowa Park scored one run in the sixth on an error and 2 hits and then came back in the seventh to score two more when Vantress singled and Schenk tripped and Nolan singled.

Weiss struck out nine, hit one and walked two in chalking up his second league victory.

Next Saturday afternoon on the local diamond the Independents will play a team from Sheppard AFB at 2:30. Sunday at 2:30 the Nocona Legionnaires will be here for a league game.

John Parish Returns From Korean Duty

Sgt. John Parish arrived at San Francisco, Calif., Tuesday, June 22, from Korea.

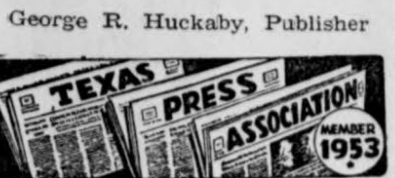

Mrs. Parish left Wednesday, June 23, to meet her husband and spend a week with him while he is waiting for information as to how the fund will be handled here.

"Just a Little Better"
We give S & H Green Stamp

by Marye Eckelcamp
The Texas grain farmer now for the first time has adequate protection for his crops held in storage, according to John C. White, commissioner of agriculture.
Because of the Public Grain Warehouse bill, passed during the recent legislative session, a depositor of grain in a public warehouse has his commodities insured against fire, theft, misappropriation, damage due to careless handling, acts of God, White stated.
Also for the first time, the farmer may use his stored grain receipts from state bonded warehouses as negotiable security.
In commenting on the bill White

said "This was a long needed piece of legislation. I am particularly grateful to J. Walter Hammond, president of the Texas Farm Bureau, C. H. DeVaney, vice-president; Loys Barbour, Farm Bureau director; and many others for their assistance in helping make this law a reality."

The state farm organization, representing more than 180 counties, maintained a legislative office in the state capital this year for the first time. This office was staffed by DeVaney and Barbour, both farmers.
The new warehouse law requires that all public warehousemen, not previously licensed by the federal government, secure a license from the Texas department of agriculture. Insurance to cover fully all grain in storage is required.
The warehouseman further protects his customers by obtaining a bond not less than \$5,000 nor more than \$50,000; the amount being at the discretion of the commissioner of agriculture.

Mr. and Mrs. Elvis Sunday and daughter Patrice of Hobbs, N.M., returned home last week after spending their vacation with relatives in Iowa Park.

Members of the women's class of the Christian church are to conduct a bake sale at Parker's Food Store, Friday morning, July 3, and the public is invited to buy cakes and pies for weekend use.

Mr. and Mrs. Lee Smith of Denver, Colo., returned home last week after visiting relatives here.

In May 1953 13,913 traffic accidents were reported to the state department of public safety. In these accidents 184 persons were killed and 2,772 were injured.

Mr. and Mrs. R. E. Van Horn, Mrs. L. D. Short and children, Mr. and Mrs. James A. Estes spent Wednesday in Dallas on business.

Mr. and Mrs. E. L. Bradford left Wednesday for a visit with their niece and husband Mr. and Mrs. Burton Coffman at Washington, D.C. They expect their son John Bradford to meet them at the airport. He is stationed at Ft. Belvoir, 30 miles from Washington.

CARD OF THANKS
I would like by this means to express my sincere thanks to the friends in Iowa Park who by their cards, letters and telegrams made my stay in the hospital more agreeable than it would have been without them.
Sincerely
Mrs. A. H. Estes

William F. Christian of Iowa Park became the newest member of the Air Force Reserve 8708th Pilot Training Wing at Hensley Field, Grand Prairie, by enlisting in the grade of technical sergeant July 1. A veteran of six years active and reserve service, he has been assigned to the organizational maintenance squadron.

Courtney Steiner, 7 years old, of Ada, Okla., spent two weeks in the home of his grandmother Mrs. W. L. Hodges. His parents Mr. and Mrs. Bob Steiner spent Saturday night with her mother and took Courtney back with them.

Mr. and Mrs. Loyd Bell and son Malcolm of Nocona visited Mrs. Gertrude Bell and other relatives here this week.

Enjoy these dozens of conveniences in the quietest kitchen you ever had. Only Gas Servel makes ice and cools with tiny Gas flame. No compressor or motor to make noise!
This 10-Day Home Trial is limited. If you want to find out about your next refrigerator by trying it, come in or telephone today.

Lone Star Gas Company

Mr. and Mrs. Roy Maddox and children of Long Beach, Calif., Thomas Maddox of Jacksonville, Fla., and Roy L. Maddox sr. of Jacksonville visited Mr. and Mrs. T. M. Black this week.

Pvt. Don Lowrey wrote home recently he is in Sabasa, Japan and does not know where he will be sent next. Joe Chandler had been with him, but has been sent to some other base of operations.

Longhorn Cavern Near Burnet Has Attracted Tourists for 21 Years

Texas Longhorn Cavern, third largest cave in the world, is about to come of age as one of the state's prime tourist attractions, Hob Galloway, manager of the cavern, declared recently.

Cavern visitors will total more than 250,000 long before the cave's 21st anniversary as a public show-place, Mr. Galloway predicted after studying attendance figures for past years.

When the cavern was first opened for public inspection by the state in the fall of 1932 after four years of development, few people even knew about it except the folk who lived in the area around Burnet—like Galloway and his boyhood friends who used to play hide-and-seek in the dark reaches of the cave.

"We were off the beaten track," Galloway said, "and I am also president of a bank, former mayor and a director of the Burnet C of C."

But today heavy tourist traffic streams down U.S. Highway 281, a direct Canada to Mexico route. Many tourists take time out to visit the cavern, reached by a paved road which enters Longhorn Cavern state park at a point four miles south of Burnet.

"We're getting people from every state now, and you'd be surprised how many Texans visit the cavern and are amazed when they see what a spectacular natural wonder it is."

"We figure it's really unusual

when a Texan is amazed at something that's in Texas."

This summer Mr. Galloway estimates more than 5,000 a month will visit the cavern.

Two miles of the cavern have been developed and modern illumination installed to bring out all its natural subterranean beauty. Guides relate the cave's romantic legends of Indians, desperadoes and buried treasure.

Visitors are royally entertained and filled with cavern lore at the same time.

Mr. and Mrs. Paul Peterson are visiting Mr. and Mrs. Dan Spruiell and family on the T Bar ranch at Goodland, Kans.

Kamay Church Is Scene Of Bull-Laurick Rites

Miss Joy Bull, daughter of Mr. and Mrs. Ollie Bull of Valey View became the bride of Sgt. Bob Laurick, son of Mr. and Mrs. Rudy Dusek of Passaic, N.J., Sunday afternoon, June 28, in the Kamay Baptist church in a double ring ceremony. Rev. J. D. McDaniel, pastor, conducted the rites.

Mrs. J. D. McDaniel and Mrs. W. D. Collins provided wedding music. Miss Fern Graham, vocalist, sang "I Love You Truly," and "Because."

Miss Sue Boyd of route one Electra was maid of honor, and Kathy Bull, the bride's sister, was junior bridesmaid. The feminine attendants were attired in pink and white street length frocks, carrying semicascades of pink carnations.

Joe Bob Madera was best man with David McDaniel as junior best man. Ushers were Jimmie Madera and George Peetrasko.

The bride was given in marriage by her father. She wore a street length white eyelet organza dress with tight fitting bodice and full skirt. She completed her costume with a white half-hat and pink rim. She carried a white Bible topped with pink rosebuds.

The bride wore "something old, something new, something borrowed and something blue, and wore a sixpence in her shoe."

The nuptial space was marked off with aisle posts. The ceremony took place before an arch entwined with fern and flanked by pink

coloumdim plants. In the center background was an arrangement of pink gladiolas.

The couple knelt for the benediction on a white satin covered prie-dieu.

A reception followed immediately in the home of the bride's parents. The refreshment table was covered with a lace cloth with a centerpiece of yellow mums. Miss Jacquie Schwab, the bride's cousin, served the wedding cake, with Mrs. Foy Kirkpatrick presiding at the punch service. She was assisted by Mrs. Ruth Self.

Mrs. Homer Temple, aunt of the bride, presided at the bridesbook. About 50 close friends and relatives attended the reception.

The bridal couple departed for a wedding trip following the reception. On their return they will stay with her parents until his discharge from service at Sheppard Air Force Base.

TESCO Officials Visit

The Texas Electric Service company president and staff and several department heads of the general office at Fort Worth were in Iowa Park, Thursday morning.

There were about 30 in the party traveling by chartered bus.

This is an annual tour of the Wichita Falls district to meet all the TESCO employees and visit with them.

The visitors toured Iowa Park and stopped in many business places. They all praised Iowa Park and said they were impressed with Our Town.

The Texas Electric staff in Iowa Park includes Pat Pastusek, manager; Wayne House and Johnnie Rains, servicemen; Mrs. Ina Parker, bookkeeper and cashier.

Former Pastor Feted

Many old friends joined with the newer members of Iowa Park Methodist church in welcoming back to town a former pastor, Rev. and Mrs. J. Daniel Barron, Tuesday evening. The occasion was a special fellowship dinner at which the new district superintendent and his wife were honored guests.

Mr. and Mrs. Barron served the church here during the years of 1935-37.

Jeff Lindley and son Claburne and Robert Nolen left Thursday for Greeley, Colo., where they will be employed with the Douglas Johnson Drilling company. Mrs. Lindley and daughter Jo will join them August 1.

CARD OF THANKS
We wish to thank our many friends and the churches for the beautiful flowers, cards, prayers and all the kind deeds while Clifford was in the hospital.
Mary and Clifford Hestand

The OASIS on your route

The traveler of ancient times sought rest and refreshment at an oasis on his route.

So does the traveler of modern times... he stops at an oasis that prepares his automobile for another hundred miles or more of driving... at an oasis that provides ice water and a chance to stretch... at an oasis that offers clean and sanitary rest rooms... at an oasis where our traveler can give and get a friendly greeting.

Today's oasis is the service station on the American highway.

It makes your trip. It provides your contact with the country through which you're driving. On its driveway you feel at home; you get the impression wherever you stop, that this is your America.

Not one service station, but thousands of them. All along the highways you'll find them staffed and equipped to give your car the expert care it requires, to make your brief visits on their driveways comfortable and pleasant.

The service station where you buy gasoline and motor oil is your chief contact with the American oil industry. It is probably an individual enterprise; and it competes to give you better service and better products than another station down the street or on the other side of town. No small part of the oil industry's progress in the service of the motorist finds final expression on service station driveways.

An added service to vacationers

Let Humble Touring Service map your trip. Secure a Touring Service request card at the Humble sign in your neighborhood, and use it to tell Humble Touring Service where you want to go. Soon you receive clearly marked road maps to and from your destination, a trip log and other helpful information. Use this service for travel anywhere in the U. S., Canada or Mexico. Humble Touring Service, P. O. Box 2180, Houston, Texas. No cost, no obligation.

Farmers Union speaks

By L. B. Lovell

Secretary of Agriculture Ezra T. Benson, speaking to the Nebraska Stockgrowers in Omaha, June 11, again expressed his view that there is too much food being produced in the U.S. and implied that over-all farm production should be reduced. Benson cited two "disadvantages" of making government owned corn available to distressed stockmen at reduced prices, as has been urged by some congressmen to prevent the forced sale of cattle due to drought, feed shortages and unavailability of credit.

Admitting that this might improve the demand and price for feeder cattle this fall, Benson raised the objection that "the first disadvantage would be that the total output of beef would be increased." The second disadvantage would be in the difficulties of administering such a program.

Benson made it clear that he feels some feeders should not be encouraged to go back into the market for feeder cattle. He did not say what he thought they ought to do in place of fattening cattle, but he observed that "surpluses" of dairy products, wheat,

corn and cotton are causing the department trouble too.

Benson bitterly condemned the legislation enacted by the last Congress providing for 90 per cent of parity of basic commodities thru 1954. "Our ability to manage agricultural surpluses is crippled by an amendment which compels us to support prices at rigid levels."

The secretary renewed his Administration's charge that present price support programs do not permit desirable adjustments to take place in our farm economy which will place agriculture on a sounder basis.

A month ago Benson's top aide, Undersecretary True Morse, made the same criticism of present price supports and advocated forcing small "inefficient" farmers out of agriculture, leaving the land to grow grass or trees. No provision or suggestions were offered as to the fate of these inefficient farmers and their families.

Apparently, most of us farmers are inefficient, if income is the yardstick. Farmers sold 5 per cent more stuff in the first five months of this year than last, but got 3 per cent less money for it, the department of agriculture reports.

Wichita Valley Farmers Union Local 101 will hold their regular monthly meeting Monday, July 6 at 8:00 p.m. at the Community Center. A fine program has been planned with movies and refreshments.

All members are urged to attend.

Soil Conservation

Terracing and contour farming are usually constructed on land to control washing of the soil. Many times gullies have formed to a size that when terracing unnecessary crooks in terrace lines and ponding of water takes place.

Charles T. Roessler of Electra is receiving benefits from his terracing and contour farming other than control of excess water. Roessler grew 19 bushels of wheat an acre on land that is terraced and on which his farming is with the terraces. Other land in the same field produced 12 to 14 bushels of wheat an acre.

Mr. Roessler said terraces saved his soil and helped him make a decent crop. Terraces hold water above each terrace and this added water produced more wheat.

Another farm pond has been enlarged on Foster farms of Electra. This makes three ponds that have been enlarged to an adequate depth and size by Foster during this year.

Mrs. Blanche Hall of Iowa Park had a pond staked for enlargement.

Buford Whiteside is subsoiling his wheat land and will follow this with stubble mulching.

Approximately 15 miles of terrace lines have been staked in the Iowa Park work unit area during the past week. Others are scheduled for staking.

Loss of Body Salt Is Dangerous to Workers, Health Officer Advises

If your work is such that it causes excessive perspiration, add a pinch of table salt to each drink of water you take, to help prevent heat cramps. This is advised by Dr. George W. Cox, state health officer, to prevent a possible increase in the number of heat victims as the thermometer hits 95 degrees and above.

Laborers, mechanics, farmers and white collar men whose work causes them to sweat profusely, are in danger of having their body salt content become deficient with resulting heat cramps or heat fag. Salt is a prominent constituent of sweat; the body may lose as high as 40 to 50 grams of salt during hot days.

In industry, a method of preventing heat cramps is to take a tablet of pure salt or a mixture of salt and dextrose with each drink of water. Workmen whose duties require muscular exertion should be especially careful to add more than the usual amount of salt to what they eat and drink.

Salt deficiency may be prevented by taking salt in various ways. Where prepared tablets are not available, table salt may be added to each drink of water. Milk is a source of salt and will help to make up for the deficiency caused by sweating. Alcoholic drinks should be avoided.

Heat cramp is characterized by pains (cramps) in the abdominal region, headache, and in severe cases, by nausea and vomiting. The body temperature remains about normal, likewise the pulse rate. Body salt losses occur without the knowledge of the individual until there is a deficiency; then the abdominal muscles begin to cramp.

Mr. and Mrs. Jim Frazier received word this week they have a new granddaughter Jackie Jo Kuhlman, weighing 6 lbs. 15 oz. She was born Wednesday, June 24 at St. Joseph hospital in Fort Worth. Her parents are Mr. and Mrs. J. W. Kuhlman jr., who formerly lived on the King oil lease at Kamay. The mother is the former Wanda Jo Frazier.
