As the official registration figures keep rolling in, they keep telling the same positive story about truck popularity and truck value: Again in 1953, for the twelfth straight production year, truck buyers show a clear-cut and decisive preference for Chevrolet trucks.

If you're a truck user, this fact is mighty

important to you. Why? Well, as you know, trucks are built and bought for just one reason-to do a job. So isn't it logical then that since Chevrolet trucks outsell all others, they must do a better job at lower cost?

That's why it will pay you to stop in and see us before you buy your next truck.

MORE CHEVROLET TRUCKS IN USE THAN ANY OTHER MAKE!
