Vol. 13, No. 5

IOWA PARK, WICHITA COUNTY, TEXAS 76367

THURSDAY, OCTOBER 8, 1981

ZENO S. DEFOELDVAR is placed on a stretcher by Iowa Park firemen, EMT's and Plumlee Ambulance attendants to transport to Wichita General Hospital, where he was pronounced dead. Defoeldvar was electrocuted while constructing a chain-link fence in the Pleasant Valley Estates with two neighbors.

## Child care facilities on Monday's agenda

Iowa Park city council members are expected to take action Monday night on a proposed zoning ordinance amendment concerning child care facilities.

A capacity crowd is expected when the meeting commences at 7 p.m. in council chambers, because every time the child care topic has been on the agenda, it's been wall-to-wall people.

According to one member of the planning and zoning commission, which drafted the amendment over the past 12 months, no significant changes have been made since it was considered in a larger package of amendments earlier by the council.

Commission members have often told those opposing the amendment that it would provide for care facilities to be located in residential areas, with limitations, whereas they are specifically not allowed under the present zoning ordinance.

Aldermen will hear a report from city administrator Steve Morath that the three lots the council approved to purchase for a fire substation in the south part of town does not include the full three lots, as had been earlier indicated.

Morath said detailed paperwork indicated the tract is some 25 percent less than three full lots would have been. The land is at the intersection of Diamond and FM 368.

Aldermen will also be asked to approve a resolution to permit a Midwestern State Univ. student to serve his internship on the city administration staff.

Prior to the council's meeting, the board of adjustments is to meet at 6 p.m. to hear an application for a variance from the minimum front and side setback requirements at 411 E. Jefferson.

at the administration building at 7:00

p.m. Tuesday, will face the following agenda:

- \* consider vocational department trips for year;
- \* hear a request for a high school science class field trip to Dallas;
- \* consider board policy revisions;
- \* adopt school committees;
- \* appoint a representative to the county tax appraisal board;
- \* consider bids for sale of school buses;
- \* hear a report on progress at the high school gymnasium.

### Local merchants expand to west

Two Iowa Park businesses are expanding into communities to the west.

Ralph Beall last week announced purchasing Bristo Battery in Vernon, a wholesale distribution of automotive, truck and industrial parts. He is co-owner of Beall Auto Parts of Iowa Park.

Mr. and Mrs. Herman Rains

## Five tragic deaths stagger community

The Iowa Park community is still recovering from shock after having lost five citizens in a five-day period, each being killed in unrelated incidents.

Three of the victims, Jerry Wayne Moss, John Wayne Roach and Larry Paul Sampley, were students at Iowa Park High School. The other two were Ricky Alsop, a resident of Wichita Falls, and Zeno S. Defoeldvar, of 1005 Melanie in Pleasant Valley Estates.

All five lost their lives in tragic

asphyxiation.

Alsop, 27, whose father is Iowa Park Junior High principal Jimmy Alsop, was killed when he apparently lost control of his motorcycle Friday night.

He reportedly had been watching a softball game at Scotland Park in Wichita Falls and was leaving to return to his home. As he turned onto the northbound access road along Highway 287, he apparently hit a curb, was thrown from the vehicle and was killed by the impact.

months. He was the son of Mr. and Mrs. James C. Moss.

The youth was reportedly standing on the bed of a flat-bed truck driven on FM 367 Saturday evening by Thomas Scott Reid of Wichita Falls, when he fell beneath the truck's wheels.

Roach, also 16, was working with his father Monday evening, building a house at 705 S. Yosemite. He reportedly was in the garage portion of the structure, where the surface was wet, when he came into contact

Sampley, 17, was slain on an accident while working on an adjustment program of Iowa Park schools. He, Whitaker and Whitaker's son, Randy, were working Monday at a well site near Vernon when the incident occurred.

The older Whitaker had told the youths to take a break, and when they were to return to work, he noticed Sampley was not in sight. He was found in a metal holding tank by Randy, but did not respond to calls.

The employer entered the tank and tied a rope around the youth's body, an effort which was said to be dangerous without a breathing apparatus. Sampley was lifted from the tank by the Whitakers.

No explanation has been given on how or why the youth, the son of Mr. and Mrs. Roger Dale Sampley Sr., was in the tank.

Defoeldvar, 49, with the aid of Hunt McKee and Troy Powell, was building a chain link fence between two homes in Pleasant Valley Estates Tuesday afternoon when he raised a section of pipe and came in contact with a 7,200 volt primary electric line.

He fell to his knees, but responded to a question from one of the other men that he was alright. However, he fell over soon afterward.

Emergency Medical Technicians

### Burglar strikes

#### Beall's Friday

Burglars took more than \$1,000 in cash and property sometime Friday night from Beall Auto Parts.

Police were told \$1,129.96 in cash, a digital electric watch and three small checks were taken in the break-in. Three checks were also found torn away from the north side of the building, the report stated.

## WIND GENERATORS

### Electricity can be produced by Mother Nature

At least a portion of America's growing need for electrical energy may be provided by an energy source older than fossil fuel: wind.

Wichita County Young Farmers were told at their meeting Tuesday night that residents of areas where adequate wind is available are, and will continue, to turn to wind generation of electricity.

Ben Little, representing a wind generating equipment manufacturing

firm from Dallas, not only explained the ability of equipment would pay for itself and earn dividends within a five-year period.

Harnessing the wind for energy is not new. Little said the earliest record of using wind for energy was found 3,000 B.C. in China, and at the turn of the present century, an estimated 6-million windmills for pumping water and grinding grain were in use in the United States.

Generating electricity by use of wind is not new, either. The old wind charger was popular, especially in rural areas where electrical transmission lines had not reached, were popular until the 1940s, he said.

But the difference in the new generators and those used earlier is that the older units charged batteries, whereas those in use today send the current directly into the wiring of the home and other type

structures.

This was made possible by a "contactor," which is hooked up to the wiring from the generator and the commercial lines from the utility company. When adequate electricity is being generated, current from the commercial line is shut out, but the opposite occurs when the generator is not providing enough electricity.

Any excess electricity generated is sent into the commercial line, through a meter, and the owner is credited for that amount by the utility company.

The amount the owner receives for the excess electricity from the utility company is "negotiable" in Texas, Little said.

This area has adequate wind to produce energy for a home. Little, using a chart of average winds for the state, said this area has an average yearly wind of 14.5 miles per hour. From Vernon westward into the Panhandle, the average is 16 mph.

Little gave a seven-point evaluation study for persons who are considering purchase of a wind generator:

1. Evaluate the year's energy requirements by totaling your kilowatts for a year, from the previous year's bills.
  2. Evaluate the wind resource; average annual wind speed should be 10-12 mph minimum.
  3. Evaluate natural wind blockage in the area where the generator tower would be located. Evaluate the winds during the day and evening, whenever the usage is greatest.
  4. Know energy requirements in order to calculate the size generator needed.
  5. Evaluate cost of a generating system, comparing initial cost and maintenance against cost of commercial energy.
  6. Evaluate the generator equipment's warranty and maintenance contracts.
- There are numerous wind genera-

tors on the market today, and their costs range from \$15,000 upward.

Little pointed out that there are federal and state tax credits which reduce the cost of the equipment, as well as depreciation.

Because of the tax credits, depreciation and savings on commercially-purchased electricity, Little said the generator could pay for itself in five years, and show a profit afterward.

While there is no question that the cost of commercially-produced electricity will continue to escalate in the future (based on price increases of the past 10 years), Little said wind generators would also continue to increase in costs.

He quoted a business man in Wichita Falls, who owns a generator located near Highway 287, as having paid \$11,000 for his unit, but the same equipment would cost \$25,000 today and could not be delivered within three years.

Little said his generators, manufactured by Able Energy Systems, costs \$16,500 for a 10-KW generator

Continued on page 4

### Three homes to be built

Permits were issued during September for construction of three new residences in Iowa Park.

According to the monthly report issued by the city hall, two new homes will be constructed by Swan Const. and one by students of Iowa Park High School building trades class.

Total amount of permits issued during the month was \$83,941.

Permits issued during September were:  
Lewis Hedrick, 1316 Emma, conversion, \$1,000;  
L.A. Maple, 109 E. Garden, addition, \$3,800;

Swan Const. Co., 719 Park Plaza, new residence, \$25,000;

Swan Const. Co., 716 Mockingbird, new residence, \$25,000;

Murray L. Towns, 502 N. Wall, demolition, \$4;

Dennis Sorey, 405 E. Washington, addition, \$397;

Charles A. Whittingstall, 1010 Lincoln, addition, \$240;

Birthe Myers, 614 Rebecca, addition, \$1,500;

Iowa Park Schools, 708 W. Clara, new residence, \$25,000;

Lloyd L. Cress, 621 S. Park, addition, \$500;

Vern Mikkelsen, 908 Dosa, addition, \$1,500.

CLASS OF '31 held a 50-year reunion Saturday preceding the banquet for ex-students of Iowa Park High School. Pictured, seated, from left: Virginia Sanders Coffee, Arlington, Glenda Bevell Williams, Dallas, Josephine Ellis Patterson, Iowa Park, Virginia Beasley Sears, Ft. Worth,

and Anna Mary Bevell Mears, Wichita Falls. Standing: J.C. Cobb, Tishomingo, Ok., Maud Burnam Choat, Olney, Corliss Davis, Grapevine, and Euell Spruiell, Petrolia. Not pictured, Allie Goetze Ireland, Shallowater.

## Mrs. James hosts club

The 23 Study Club started the new club year Thursday morning at a breakfast in the home of Mrs. D.O. James. The co-hostess was Mrs. Travis Smith. Mrs. Homer Blalock offered the invocation.

Following the meal, Mrs. China B. Smith, president, conducted an impressive candlelight initiation ceremony for Mrs. Marvin Klinkerman and Mrs. John Rentschler, who were escorted to the interest center by Mrs. James and Mrs. Keith Aulds. Carrying out the club's colors of purple and gold, the table in the center was covered with gold metallic and appointed with a bouquet of purple and gold chrysanthemums and a three branched gold candelabrum which held gold candles used in the service.

Mrs. O.E. Lochridge presented an organ solo, "Arioso," for the art number.

During the business, officers and chairmen for the current year were introduced. Yearbooks were distributed by Mrs. James, who gave a resume of the programs.

The next meeting will be held at 2 p.m. next Thursday in Texas Electric Reddy Room.

RHONDA JOHNSON

## Announce engagement

Mr. and Mrs. H.C. Johnson announce the engagement and forthcoming marriage of their daughter, Rhonda Jean, and Kent Houston, son of Mr. and Mrs. H.G. Houston of Amarillo.

Miss Johnson was graduated from Iowa Park High School in 1975 and is employed as manager of Cheslea Street Restaurant in Amarillo. Her fiancé was graduated from Alamo Catholic High School in Amarillo and attended Amarillo College. He is self-employed.

The couple will be married Nov. 28 at the First United Methodist Church in Iowa Park.

## Couple weds

Mrs. Lynn De Bruler of Iowa Park and Ronald Hubert of Spokane, Wash., were married Sunday afternoon in a double-ring ceremony performed by Virgil Hill, justice of peace, at his home.

The bride wore a street-length floral print salmon-colored chiffon dress styled with a scoop neck and split sleeves. She complemented her dress with a silk corsage of blue and white sweetheart roses.

Following the wedding, a reception was held at the home of Mrs. T.M. Thaxton.

The refreshment table was covered with a white organdy cloth and centered with a basket arrangement of silk day lilies and hibiscus in autumnal and white shades.

The white sheet cake was decorated with frosting wedding bells rimmed in pink and "Lynn-Ronnie, Oct. 4, 1981." Mrs. A.L. Luques of Wichita Falls and Thomas M. Thaxton of Little Rock, Ark. served the cake and coffee.

Following a wedding trip to Washington, where the groom will be resigning his position at a bank in Bellevue, the couple will live in Iowa Park.

Mr. and Mrs. Allen Lindsay of Dallas announce the birth of their first child, Autumn Suzanne, a six pound, 10 ounce daughter, born September 28. Mrs. Lindsay is the former Sheri Shirley.

Grandparents are Mr. and Mrs. Mark Shirley Jr. of Iowa Park and Mrs. Howard A. Lindsay of Dallas, and the late Howard A. Lindsay. The great-grandmother is Mrs. Grace Shirley of Electra.

A son, Seth Douglas, was born at 7:35 a.m. Saturday in Wichita General Hospital to Mr. and Mrs. James Morris of Iowa Park. He weighed eight pounds and measured 21 inches in length.

## FIRST CHRISTIAN CHURCH

## 247 new members in Kidwell P-TA

The monthly meeting of Kidwell P-TA was held Tuesday night. The colors were posted by Girl Scout Troop 29.

Mrs. Jimmie Kasperek, president, directed the meeting. Mrs. Robert Goodnight, membership chairman, announced 247 new members with all of the faculty signing up.

The new officers were introduced and Bob Cole, principal, welcomed parents and introduced the teachers. A Halloween carnival for Oct. 31 was announced. Open house was held

following the business.

The next meeting will be at 7:30 p.m. Oct. 20 and the program will be presented by Mrs. Bauer's and Mrs. Schell's first grade classes.

## CARD OF THANKS

We wish to thank all the wonderful people who supported our booth at the Whoop-T-Do where the lovely heirloom quilt was displayed. In the drawing, Patsy Browning of Wichita Falls was the winner.

## BRECHEEN / FAULKNER

# Marriage Enrichment Film Series

### 1. MADE FOR EACH OTHER OCTOBER 21

Dr. Brecheen discusses the importance of the biblical basis for marriage, showing that healthy marriages result when mates diligently follow God's design for commitment.

### 2. THE TROUBLE WITH US IS ME OCTOBER 28

Dr. Faulkner explores Bible passages which contrast the attitudes of the natural man and the Christian, emphasizing scriptural solutions to the problem of selfishness.

### 3. WHAT HUSBANDS NEED TO KNOW NOVEMBER 4

Dr. Faulkner establishes the husband's role in the marriage relationship by defining the four major responsibilities of the husband and how they are vital to a healthy marriage.

### 4. WHAT WIVES NEED TO KNOW NOVEMBER 11

Dr. Brecheen describes the wife as the emotional hub of the family. He explains how marriage can be improved through four crucial times of the day.

### 5. HOW TO KILL COMMUNICATION NOVEMBER 18

Dr. Faulkner points out common barriers to good communication, with special emphasis on self-esteem and communication.

### 6. THE COMMUNICATION LIFELINE NOVEMBER 25

Dr. Faulkner concludes his discussion on communication by presenting Christian principles of good communication, and workable steps to improving communication.

### 7. SPEAKING FRANKLY ABOUT SEX DECEMBER 2

Dr. Brecheen candidly presents what the Bible says about intimacy and oneness—crucial aspects of the marriage relationship.

### 8. RENEWING ROMANCE IN MARRIAGE DECEMBER 9

Dr. Brecheen discusses how husbands and wives can express affection and makes specific suggestions on how to be considerate of each other's needs and feelings.

**DR. CARL BRECHEEN**, professor of Bible and family relations, Abilene Christian University, received his doctorate from Southwestern Baptist Theological Seminary. Co-author with Dr. Faulkner; What Every Family Needs, a best selling book on marriage and the family. Member, National Council on Family Relations. Staff, Power For Today. Dr. Brecheen regularly teaches Sunday School classes and serves as an elder in his church. He and his wife, "Smitty", have three children.

**DR. PAUL FAULKNER**, Director, Institute of Marriage and Family Studies and Professor of Bible and Psychology, ACU. Retains a private practice in marriage and family counseling. Approved supervisor, American Association of Marriage and Family Therapy. Member Christian Association for Psychological Studies and American Psychological Association. He and his wife, Gladys, have four children.

# Terry, Fickling nuptials are exchanged Saturday evening

Following a wedding trip to Acapulco, Mexico, Mr. and Mrs. Karl Frederick Fickling, who were married Saturday evening in a double ring ceremony performed at the City View Baptist Church, will live in Fort Worth.

The bride is the former Miss Dana Lori Terry, daughter of Rev. and Mrs. R. Dan Terry, Rt. 2, Iowa Park, and the groom is the son of Mr. and Mrs. Robert M. Fickling of Edwardsville, Ill.

Rev. Harvey McMurry, pastor of the church, officiated the traditional wedding ceremony after he had asked both sets of parents if they supported the marriage and they had responded in the affirmative. The bride and groom also recited vows to each other that they had written to enhance interest.

The bride gave her mother a white rose on her way to the altar and kissed her father when he gave her hand to the groom. After the couple had been joined in holy matrimony and were exiting from the church, she gave her mother-in-law a white rose and kissed her father-in-law.

The dignified altar decorations featured white cathedral candles aflame in fifteen-branched candelabra covered with white spider and dusty rose starburst mums, baby's breath and greenery. The setting was further illuminated by candles burning in flanking nine-branched candle trees. Dusty rose floral and candle arrangements decorated the church windows, and white bows backgrounded with greenery marked the family pews.

The musical setting was provided by James Green, organist, and Mrs. David Johnson of Fort Worth, soloist. The organist gave a prelude concert which included "Savior, Like a Shepherd Lead Us," "To a Wild Rose," "Traumeri," "Jesu, Joy of Man's Desiring," "Ave Maria" and other favorites of the bride and groom. He furnished accompaniment for Mrs. Johnson's solo numbers, "Make Us One Father," "My Treasure," and "The Greatest of These Is Love." The vocal call to worship was "Praise to the Lord the Almighty," and the time-honored wedding marches were chosen for the bridal party to enter and exit from the church.

The bride was a charming picture in her Priscilla design gown made by

her mother. The fitted bodice accented with a scalloped neckline encrusted with pearls and the long fitted sleeves that terminated in points over the wrists were fashioned of imported French Chantilly lace reembroidered with pearls. The A-line chiffon skirt extended to a chapel length train from a slightly raised waistline graced with scallops of lace dotted with pearls.

The bride's chapel length illusion veil enhanced with clusters of pearls cascaded from a circlet of French Chantilly lace, pearls and baby's breath. To complement her costume, she carried an arm bouquet of white glamelias encircled with pink roses, gladiolas, gypsophila and greenery.

In observing the bridal traditions, she carried a handkerchief that had belonged to her late paternal great-grandmother for "something old," and wore her late aunt's wedding band now in the possession of her mother for "something borrowed." She chose her gown and a garter for "something new" and "something blue" and wore the good luck penny in her shoe.

The bride's sister, Mrs. Dale Lay of Abilene, took part in the wedding as matron of honor. Bridesmaids were Mrs. Bruce Brown of Irmo, S.C., sister of the groom, Miss Sue Bartlett of Temple, and Miss Lynetta Bragg of San Antonio, cousin of the bride.

They wore identically-styled formal dusty rose imported cascade gowns designed with cowl necks, extended shoulders accented with button trim, long sleeves finished with buttoned cuffs, belted waists and four-gored skirts. Each carried a long stem white spider mum, baby's breath and greenery clutched to a white lace handkerchief.

The groom wore a black-vested stroller tuxedo, white tuxedo shirt with wing tip collar and gray striped ascot. His attendants, ushers and fathers were attired in gray-vested tuxedos and wore white shirts and ascots to match the groom's.

Joe Bailey of Fort Worth was the groom's best man. Groomsmen were Robert M. Fickling of Plano, brother

of the groom, Bruce Brown of Irmo, S.C. and Dale Lay of Abilene. Guests were ushered and seated by Todd Bragg of Waco, David Johnson of Fort Worth, David Francis of Dallas and Mike Clem of Austin.

White orchid shoulder corsages were pleasing additions to the formal gowns chosen by mothers of the bride and groom for the wedding. Mrs. Terry wore a long silver blue lunar stripe dress styled with blouson bodice gathered into shoulder seams, belted waistline and flared skirt. Mrs. Fickling was attired in a floor length sea blue sophisticated satin dress designed with blouson bodice, V-shaped notched collar, long sleeves with button-shaped turn-back cuffs and A-line skirt.

The bride was graduated from Hirschi High School and received a B.B.A. degree from Baylor Univ. At the university, she belonged to Alpha Lambda Delta, Omicron Delta Kappa, Alpha Kappa Psi, Gamma Beta Psi, Beta Gamma Sigma, Alpha Chi, Students Congress and was named to Who's Who Among American College Students. She is presently employed as a management information consultant with Arthur Andersen & Co. in Fort Worth.

The groom was graduated from Plano High School and received a B.A. degree from Baylor Univ. where he belonged to Alpha Kappa Delta and Baptist Student Union. He is presently a student at Southwestern Baptist Theological Seminary in Fort Worth where he is working toward a master of divinity degree.

Following the wedding, the bride's parents honored the couple at a postnuptial reception held at the Silver Square Room in Parker Square Bank where each table in the setting was a focal point of beauty and dignity.

The bride's table covered with a floor length white Qiana cloth overlaid with scalloped lace possessed the grace to please the most fastidious. The center attraction was a five-branched silver candelabrum filled with dusty rose candles. One table extremity was marked with a

MRS. KARL F. FICKLING

silver tray holding the traditional three-tiered white cake decorated with fresh dusty rose pompons, greenery and baby's breath, and the other side held fruit punch cooled by a floating ice heart in a silver tray encircled with the garniture on the cake. Silver dishes held rose-shaped mints and mixed nuts to complete the decor.

Serving at the bride's table were Mmes. Jack Hathaway, Tracy Bates, Mike Winn of Muskogee, Okla. and Howard Chipman of Dallas.

The cloth on the groom's table featured a full length silver Qiana cloth and a smoke gray square overlay. A silver tray held the two-layer chocolate cake featuring

white trim and a monogram. Other silver appointments were the coffee urn, trays filled with cheese, fruit, heart-shaped mints and nuts.

Miss Sheryl Cyrus, Miss Virginia Watkins of Dallas and Mrs. Robert M. Fickling of Plano presided at the table.

The registry table was draped to the floor with white Qiana overlaid with a white lace square. The appointments included the wedding book, white feather pen, a bud vase holding a long stem pink rose mingled with baby's breath and greenery. The book was attended by Mrs. Jeff Hardin of Wichita Falls.

The groom's parents hosted the rehearsal dinner at Holiday Inn Downtown on the eve of the wedding.

The new Mrs. Fickling chose a dusty rose ala creme street-length dress fashioned with a two-piece collar, tucked bodice and long sleeves, gathered skirt and belted waistline and completed it with a glameilia corsage lifted from her bridal bouquet for travel when the couple left on their wedding trip.

Mrs. Dale Lay, sister of the bride was hostess for a salad luncheon honoring the bridal attendants, hostesses and female relatives Saturday morning. The luncheon was held in the home of the bride's parents.

The bride was honored at a brunch and shower in Wichita Falls and a miscellaneous shower in the Southwestern Baptist Theological Seminary Student Center as prenuptial courtesies.

Special wedding guests were Mr. and Mrs. Loyd Wall of Quanah, Mrs. H.N. Terry of Fort Worth, grandparents of the bride, and Mrs. James Lewis Fickling of Sherman, grandmother of the groom.

Other out-of-town relatives attending were Messrs. and Mmes. Wayland Terry of Arlington, Dudley Bragg of Pecos, Floyd L. Mitchell and Wade W. Wall of Dallas, Howard Mitchell of Bartlesville, Okla., John E. Reddick of Denison; Mrs. Edward Rich of Denison, Miss Mary E. Fickling of Waco and Miss Donna Fickling of Garland.

# Army culinary arts team demonstration

Iowa Park High School has been scheduled for a Culinary Arts demonstration all day next Thursday in the homemaking laboratory.

Conducted by a team from the U.S. Army Quartermaster School at Fort Lee, Va., the demonstrations have been scheduled for eight schools in West Texas in October. The two-week tour is sponsored by the Dallas District Recruiting Command.

Army culinary arts teams have won honors in local, national and international shows. Each member

strives to become certified by the American Culinary Federation

## Iowa Park School Menu

**Friday, Oct. 9** - Bar-B-Q on a bun w/sweet relish, meat or cheese sandwich, soup, vegetable sticks, sliced peaches, chocolate & plain milk, dessert.

**Mon., Oct. 12** - Chicken fried steak, meat or cheese sandwich, soup, mashed potatoes & gravy, green beans, hot rolls & butter, chocolate & plain milk, dessert.

(ACF).

Types of presentations include fruit carvings, vegetable carvings, cake decorating, marzipan works and ice carvings.

Following the two-week tour in West Texas, the team will make a two-week tour in the Northeast in November. Then it is on to the Southeast area of the United States in December.

High schools which have scheduled the demonstration include Burkburnett, Vernon, Iowa Park, Hirschi, Rider, Wichita Falls, Graham and Mineral Wells.

"We are delighted to be able to make this demonstration team available to high schools in our area," explained Maj. Larry L. Raab, Dallas DRC commander. "The Army's culinary arts teams are in demand in high schools across the country. They draw raves from both the students and teachers."

# As I See It....

By BOB HAMILTON

Since this column was last written, our community has experienced the extremes in morale. Last weekend's homecoming activities had everyone at the peak of happiness and enthusiasm. But, with the news of numerous deaths, including five tragic events, coupled with the assassination of the president of Egypt, we are at the utter depths of depression.

To all those who have lost their loved ones, the staff of the Leader extend heartfelt sympathy. We have each suffered similar losses and, therefore, share in your mourning.

Homecoming and Whoop-T-Do were both successful, due to the work and efforts of a lot of people. Key workers in the homecoming activities were the Student Council officers and

Kenneth Via and his volunteers from the Alumni and Ex-Students Association. Whoop-T-Do chairman Linda Merrick and Chamber secretary Mrs. Ray Pittman worked their hearts out on Saturday's activities.

The parade Friday was a whopper and well-viewed by an oversized crowd. The crowd at Saturday's Whoop-T-Do was possibly a record, despite a late start due to misty weather.

And what can I say about Friday night's homecoming football game? We had what was by far the largest crowd in the stands... they were yelling, chanting and applauding... and the football team came through as everyone had hoped: winning! Speaking of crowds, the banquet for

former students Saturday night was well-attended, and everyone appeared to have a good time.

Activities of the two-day period, hopefully, will give us a lift which will carry us beyond the sorrow we have experienced.

Tuesday's news of the assassination of Egyptian president Anwar Sadat was as much a shock locally as it was around the free world. It shows that forces are everywhere, not just in the United States, that do not recognize civilized standards.

Though the clouds which covered our area yesterday morning lent to the gloominess of our attitudes, hopefully the needed rainfall will remind us that life must still go on, and there is hope of happiness and life for the future.

### Schedule for:

## Recreational Activities Center

Because this is an open date for the Hawk football team, the RAC will sponsor a dance Friday night, starting at 8 and lasting until midnight.

Jimmy Via's band will be playing a variety of music for the dancers.

"The RAC has not had a dance in some time now, and we will try to make this a special one," commented Mrs. Betty Merriman, RAC director.

All high school students are invited and admission will be \$2 each.

### Deaths

Continued from page 1

from the volunteer fire department and a local physician responded and applied CPR on the victim until Plumlee Ambulance personnel arrived to take him to Wichita General, where he was pronounced dead.

A measurement of the electric line, the highest of three lines under which the men were working, found it to be over 20 feet high, according to Wayne House, Texas Electric Service manager.

The incident took place approximately 4 p.m.

### Wind

Continued from page 1

and \$25,700 for a 25-KW unit.

An article in last Thursday's issue of the Vernon Daily Record reported H.L. Ayers has purchased two 32-foot blade generators for his farm 14 miles northwest of Council Bluffs. Ayers figured his \$35,665 loan from the Farmer's Home Administration would be repaid within eight years. He figures to cut last year's electric bill of \$4,100 by some \$3,500 the first year, according to the article.

### Dwyer re-elected

Fred Dwyer was re-elected a director of Wichita County Soil and Water Conservation District at a meeting Monday. He will represent zone three.

Other members of the board are Ray Hicks, Bill Brockriede, Roy D. Thompson and Barry Mahler. Directors are elected to five-year terms.

Dwyer was re-elected chairman of the board; Hicks, vice chairman; and Brockriede, secretary.

## Letter to the Editor

Dear Editor,

In your column, as I see it, you talked about the way the fans were towards the team. I was raised in this town, and can tell you that until the Hawks get on winning streak, they will not get very much support from the fans of this town. History shows

that Iowa Park only supports winners.

This feeling of winning is even affecting the smaller kids. These kids are taught from the time they start sports, that they have to win no matter what the cost. Kids have lost the chance to play because the coach had to win the game. A kid goes to practice every day, and then only gets to play one or two plays, if that, while one that misses a practice or two gets to start and play the whole game.

Last year I complained to an official of the Top of Texas Football, about boys not getting to play, and was told that if a boy had to sit on the bench while his team won, he learned something; but if a boy got to play, and his team lost, he did not learn anything. These boys are taught to do things against the rules, and the parents do nothing, so they must approve of their child cheating. As long as this goes on, there will be no support for the loser, because if you are not a winner you are nothing. That is in this town you are nothing.

Jimmy C. Denton

### Municipal Court Records

Results of municipal court held here Thursday were:

- Donna Meador Simon, expired dealers license, \$31;
- David John Hertzog, speeding, \$45;
- Robert Emile Richard Jr., speeding, \$31;
- David LaGunas, disorderly conduct, \$31;
- David LaGunas, public intoxication, \$31.

### New Meter Connections

- Bill Vanek - 600 Coleman
- Larry Skinner - 105 Westview
- Douglas Jacobson - 306 E. Magnolia

# Even if you're unhandy, you can do something to help hold down electric bills.

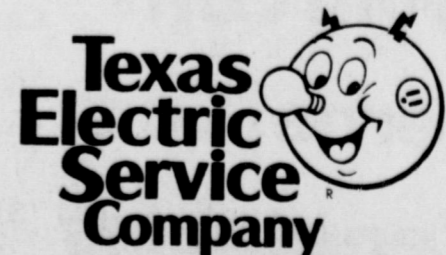

Save energy and money at home by learning how to insulate, caulk and weatherstrip — it's easy when you know how. Just call us, or ask for our "Unhandy Person's Guides" on the comments portion of your bill.

It's important to learn ways to conserve energy, especially since the cost of electricity must continue to increase, partly because all fuel used to make electricity continues to cost more.

For example, a contract for low-cost natural gas expires at the end of this year, and we'll have to use more high-priced gas next year.

You can conserve and help hold down your bill by using the "Unhandy Person's Guides" from Texas Electric.
