By E. M.

GUESS CRECIA HARDWICK and her 5-year old cousin, Gary Mitchell of Ozona, who was visiting in the Jon Hardwick home over the week end, are about the proudest fishermen you can find Crecia, who is four years old, and an ardent fisherman, and Cousin Gary, son of the Tom Mitchells of Ozona, started early Saturday afternoon begging to go fishing. Papa Jon usually takes Crecia and her sister out when they want to go, and has some special poles just for them. The family was busy visiting, so when it cooled off some, they sent the children down to the shallow creek above the dip on East Sixth Street. John assured the visitors that there were no fish there, at least nothing but minnows, small shad and a few crawdads in the shallow water.

THE KIDS GRANDAD, Betty Hardwick's father, stayed with them a short time and came back to the house. In a little while Gary rushed home and informed the grownups that he and Crecia had cornered a big fish and needed help in landing it. An uncle returned to the creek with Gary to see what was taking place. In a few minutes, the two children came in the house with a fish about as long as they are tall. It was a Buffalo, which weighed in at more than seven and a half pounds. Jon, whose face was getting redder by the minute, rushed out to borrow a camera to take pictures to prove and story and for Gary and Crecia to show their friends. The fish was returned to the creek. Possibly other boys and girls may get a thrill from catching him as Crecia and Gary did.

FURTHER CHECK ON the fish story revealed how it got in the shallow creek in the first place, and we feel sure that Gary's and Crecia's parents will never tell. Lynn Ault, production supt. at the Star, caught the Buffalo at T&P Lake, and brought it in to show his fishing buddies. He planned to turn it loose in the new lake at City Park in hopes that some young lad might catch it. He was afraid it would die before he got it that far, so he turned it loose in the creek. It make a couple of children very happy.

IF YOU HAVE SEEN a cloud of mist floating from the alleys and streets in Baird lately, it is coming from a new spraying machine purchased by the city recently. The machine is of the latest type. It is a dust mist spray, Model C.I.A. unit, trailer mounted. It will put out insecticide dust and liquid mist to control mosquitoes and flies. The machine, which cost slightly above \$1,500, was developed by Charles Martin and Associates of Dallas. It can be pulled behind a pickup or car, and it does a fine job. City employees have been spraying infested areas regularly, and there has been a noticeable drop in insect population.

SOMEONE FOUND A book entitled "The Little Lame Prince" on Market Street some time ago and left it at the Baird Star Office. Some child probably dropped it from a car. Owner may claim book at the Star office. If it is not claimed soon, it will be given to the library. Coach L. B. Howard and his girls track team deserve a lot of praise for a fine showing at the Abilene Recreational Department track and field meet Saturday. They won second place in a field of more than 60 teams. They were less than a point behind Fort Worth Castleberry. Abilene was in third place, 17 1/4 points behind Baird.

In naming Rep. Gibbens to the Council, Speaker Tunnell said, "In two terms of service in the House Rep. Gibbens has distinguished himself as an extremely capable, conscientious, and astute legislator. ACP Helps Get Conservation Job Done

Conservation work costs money. That's why we have an ACP, Tommie Harris, Chairman, Agricultural Stabilization and Conservation Callahan County Committee, said today. He pointed out that being convinced about the benefits of conservation is not enough, and expressed the belief that some farmers and ranchers still may not understand that they can obtain program help in getting the needed conservation job done on their farms.

"Just drive around the country," the Chairman declared, "and you can easily spot the farms where conservation farming is being practiced. In most cases, you would also find that the Agricultural Conservation Program is cooperating with the farmer or rancher in carrying out the conservation practice on the land."

For farmers who may not fully understand just how ACP works, Mr. Harris explained that the program's purpose is to encourage the establishment of soil, water, woodland and wildlife conservation practices needed in the public interest. The program, therefore, has an incentive type of approach to the problem — it "shares the cost" of sound conservation measures which the farmer would not carry out without such assistance.

Funds for this purpose are authorized by Congress in recognition of the fact that the Nation's natural resources are vital not only to the farmers and ranchers who operate the land but also to the health and well-being of each citizen, both now and in the future.

Mr. Harris states that a good example of cooperation between livestock producers of this county and the ASC Office is the amount of rangeland that was aerial sprayed in the past month. By forming a partnership in regard to the cost of this practice a total of 38 livestock producers had over 10,000 acres of mesquite aerial sprayed. This means that over \$15,000.00 in government cost-share plus another \$15,000.00 of the producers own money was used to improve pastures. The final benefit to be derived from this conservation practice will be realized by future generations to come.

Jimmy Barr of Abilene is spending the week with his grandparents, Mr. and Mrs. Tom South.

A little rain early Sunday a.m. gave us a little relief from the heat. We only received one-quarter inch of rain, but I must say it was a welcome shower.
Late Sunday afternoon visitors in the home of Mr. and Mrs. Ira Crawford and Lynda were Kay Bellew, her brother, Ray Earl, Joe Crawford, Abilene; Larry Magill who is visiting his brother, Joe Crawford and friends in this area.
Oh yes, Mr. and Mrs. L. V. Harris came along too, when we decided to put our left over together and have a back yard supper. Earlier Mr. and Mrs. Hulon Crawford and children came out on a hurry up visit.
Speaking of visitors I found a very much unwanted visitor in the chicken house late Saturday afternoon. You might already suspect what it was. Yes, you guessed it, for it was a large rattlesnake. I came out with a dead snake and a bruised thumb. Luckily I had placed a five foot piece of iron out there just in case I found use for such. As it happened the weapon was only about two steps away, so your reporter, Lillian Crawford, hurriedly took the necessary steps and gripping the iron and hammering that rattler so hard that it resulted in a sore thumb, but I didn't mind, for it soon will be well again.

Just heard at the last minute, Tuesday morning, that John Jordan had an accident Sunday afternoon that resulted in hospitalization and surgery. The story goes that he was out entertaining his grandson, three year old Brand Jones, and was standing astride a shetland pony, but when he went to throw a leg over the shetland to quit playing the pony whirled, throwing John down, X-rays showed a bone chipped from the hip bone and John was to undergo surgery Tuesday morning. Sorry, John, hope you make a better ride next time.

Cisco Junior College Offers IBM Courses

Arrangements to obtain equipment to offer complete courses in data processing was announced this week by Cisco Junior College. President Grady C. Hogue said the college hopes to have the new electronics machines installed in time for the course to begin with the fall semester September 10. The course will be offered by the college's business education department. Five machines including sorter, collator, accounting machine and reproducing punch, have been ordered, Mr. Hogue said. Roy M. Benton of the college business faculty will enroll in a special IBM school in Dallas for six weeks this summer to study the machines. He will be the instructor for the new course, Mr. Hogue said. The college business department offers typing, shorthand, regular office machines, book-keeping, accounting and other subjects leading to complete secretarial training or to BBA degrees from senior schools, Mr. Hogue said.

AUSTIN — A growing toll of accidents on city streets and freeways, heavier damage claims and an act of the Legislature . . . all have combined to cause insured motorists in Texas a double-dip premium increase during the next five months. First boost for most drivers will come on policies renewed after August 1, when new auto insurance rates set by the State Board of Insurance go into effect. Many others face a second increase in liability insurance premiums after January 1. This is effective date of a new law requiring financial responsibility of \$10,000 per person and \$20,000 per accident. Present law requires \$5,000 - \$10,000. So those now carrying minimum insurance will pay an average of \$4 more after January 1. Increasing accident losses, mainly in urban areas, forced the Insurance Board to hike liability and collision rates in most sections of the state. Average premium boosts after August 1 will be 5.2% for bodily injury, 9.7% for property damage and 8.4% for collision. This will cost policyholders a total of \$12,000,000. Drivers in some rural areas, however, escaped the rate increase.

PHYSICAL EDUCATION — Atty. Gen. Waggoner Carr has been asked to come to the aid of hard-pressed physical education departments in the 20 state-supported universities and colleges. Commission on Higher Education asked Carr for an opinion on the legality of the "rider" in the new appropriation bill, which goes into effect on September 1. Rider declares that state funds for physical education can be used only for mass calisthenics unless the students are majoring in PE. Net effect would be special fees charged by the schools if they wanted to give instruction in games. Some schools have protested that the rider would seriously curtail physical education programs.

JOBS ASSIGNED — Speaker Byron Tunnell has more than 60 appointments to make on interim study committees. He is making them at the rate of one or two a week. Reps. George Cook, Odessa; J. Collier Adams, Lubbock; Maurice Duke, Wichita Falls; George Hinson, Mineola; and Ben Jarvis, Tyler, will study the oil and gas industry. Their assignment is no small chore . . . how to restore prosperity to the Texas oil industry. Reps. Ben Atwell, Dallas; Dick

Cory, Victoria; and David Crews, Conroe, will take up membership on the Committee on State and Local Tax Policy. Lt. Gov. Preston Smith has named Senators George Parkhouse, Dallas; W. T. Moore, Bryan; and Jack Strong, Longview. Balance of the committee will be composed of three citizens to be named by Governor Connally. Reps. W. H. Miller, Houston; Myra Banfield, Rosenberg, Raleigh Brown, Abilene; Charles Scoggins, Corpus Christi; and John Traeger, Seguin, will investigate public school testing. Rep. Bob Fairchild of Center has been named chairman of the House General Investigating Committee by Speaker Byron Tunnell. Other new members are Reps. Ben Barnes of DeLeon, Hudson Moyer of Amarillo, Bill Parsley of Lubbock and James Slider of Naples. Previous investigating committee's probes ranged from alleged basketball game fixes to the East Texas slant-hole scandal.

MENTAL HEALTH — National Institute for Mental Health has awarded a \$302,000 grant to the State Hospital Board for research and training in mental health. Houston State Psychiatric Institute received a grant of \$114,878 for research in early clinical drug evaluation. Remainder of the funds went to Baylor University College of Medicine for various research projects.

POLL TAXES — Folks who are past 60 and living in towns with 10,000 or more population should get their poll tax exemptions on October 1 or as soon as possible thereafter. Exemptions for those over 60 are free under the old law, which will be in effect at least until November 9. That's the date for the vote on repeal of the poll tax as a voting requirement. If Texans vote FOR the repeal, those over 60 who live in towns above 10,000 population then will have to pay a 25-cent registration fee. Ditto for all voters under 60. Those past 60 who live in rural areas or in towns under 10,000 population will not be effected by the changes. They can vote without paying under both the old and the new law. The attorney general informed tax assessor-collectors that they must accept the \$1.75 poll tax payments, starting on October 1 from those who insist on paying rather than waiting to see if the charge will be cut to 25 cents by the November 9 vote.

**Union Usuals
And Unusuals
By Veda Yarbrough**

Hi neighbor. We had a little shower of rain Saturday night cooled the air for a while but did not last long, hope we soon get more. This blistering hot weather we are having is terrible.

We are glad to say Mr. Grady Pruet is back home from a stay in the hospital and doing fair.

Think he has to take it easy and get a lot of rest.

We just now heard that Mr. Graves of Cisco has passed away. Mr. Graves is Mrs. Hollis McKinney's father. We extend our deepest sympathy to all the family.

We are sorry to have to say Mr. Oma Wagley passed away Saturday about noon in Moran. He and his wife were in the cafe and had finished their lunch and he fell dead. Several out this way attended his funeral Monday afternoon in Moran. Our deepest sympathy to his family and loved ones.

Grandpa and Grandma Burnam are by themselves this week as all their grandchildren and children left last week, not all at once, just during the week. I know they sure miss them and get kinda lonesome.

I spent last Thursday afternoon until Saturday afternoon in Cisco with my sister and her husband, Fay and Emmitt Wood.

Also visited a while with uncle Lige and aunt Annie May Burnam, glad to see them looking so well. You know they have a new grandson and that would make anyone feel better. It is the son of Mr. and Mrs. Allen Burnam, the young man is a month old or maybe a little more. Fay and Emmitt Wood and I visited a while Friday night with Dock and Lula Isenhower, glad to see Lula looking so well after her sick spell she had a while back.

Stella May Hughes and family visited part of last week with Burette and Johnny May Ramsey. Their daughters, Jeanie and Linda, stayed for a longer visit with their grandmother and granddad.

Joan and E. C. Collinsworth of Jacksboro also visited with the Ramseys over the week end, their daughter Edna Ann, who had been visiting with them and her grandparents in Moran for

two weeks or more returned home with them.

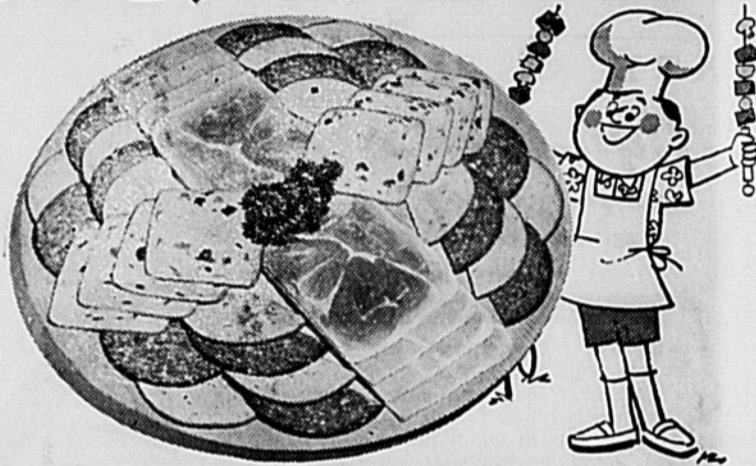

Two of John McIntyre's bulls decided to have a fight the other day or night, which ever it was, one was in one pasture and one in another, they flattened the fence and went round and round and if we had known we could have had a ring side seat and felt like we were in Old Mexico maybe. Anyway John's new bull,

HAVE NEW SON
