IOWA PARK HIGH SCHOOL CHOIR CONSIDERED BEST IN COMPETITION ... last weekend in Amarillo's Greater Southwest Music Festival.

AT AMARILLO

IPHS choir is tops

Iowa Park High hit the jackpot last weekend at the Greater Southwest Music Festival in Amarillo.

Named the Outstanding Choir among 4-A and 5-A classification schools competing in the multi-state event, the choir returned with a spectacular traveling trophy signifying the achievement.

In addition, trophies were earned for the Outstanding Men's Choir and Outstanding Sightreading for A Cappella Choirs.

Superior ratings were awarded the A Cappella Choir, Men's Choir and Women's Choir. Superior ratings were also awarded the Men's Choir and A Cappella Choir for sightreading.

"One of the better choirs anywhere," was written on a comment sheet by a judge from Cincinnati, Ohio.

The traveling trophy is designed to be retained only one year, unless the same choir receives it three consecutive years, according to Allan Andrews, director. Engraved on the trophy plate is Amarillo High School Bel Canto Choir, 1981 and 1982, so Iowa Park broke the hold of the host school.

The Hawk Band also earned honors, though failing to receive a superior rating. It was the only 4-A band to receive Division "II" in both

concert and sightreading and no band from Iowa Park's classification received a "I", according to Greg Miller, director.

Burglars take money, safe, drugs from clinic

Burglars gained entry to Park Clinic, 310 W. Alameda, sometime over the weekend, sacking it for narcotics and money.

Police were notified Monday morning that someone had apparently used a pry bar to force open the front door, on the west side, to gain entry.

The burglars took a 30x36-inch gray steel safe containing more than \$1,000 in cash and checks as well as

the accounts receivable records, an unknown quantity of narcotics and an undetermined number of prescription pads, according to the report filed at the police department.

More than one person was apparently involved because the safe weighed several hundred pounds and would have been difficult to load onto a vehicle.

The clinic was last burglarized during the first week of January in 1981. A quantity of narcotics was

The city council approved a proposal Monday night to purchase equipment which will electronically link the local police department with the Texas Department of Public Safety headquarters in Austin.

Approved was a proposal to match a \$5,308 grant from government funds to purchase the equipment which was referred to in the meeting as a "teletype" but which actually is a remote to the DPS computer.

The local department operated some four years with a teletype which requested and received information

primarily needed for vehicle and driver identification.

Both because the DPS was changing to present equipment and reportedly because of increased costs of operating the teletype, the council disposed of the equipment in the mid-1970s.

Since disposal of the teletype, whenever information was needed the police dispatcher would telephone DPS offices in Wichita Falls and DPS personnel and equipment were used to contact the state information center.

However, DPS recently informed the local department that greater demands on its personnel and equipment are making it impossible to continue the present procedure. This would effectively cut off the local police department from its needed source of information.

Administrator James Barrington told the council the local department filed 240 requests for routine checks with the DPS during April. Because the DPS was so busy, lengthy delays and in some cases no returns on the requests.

The equipment's total cost will be \$10,616. Maintenance cost will be approximately \$150 and anticipated cost of paper for printouts would be \$50 monthly, the council was told.

The DPS will pay for training of operators in Austin, other than a \$35 per person fee, it was explained. Chief Tom Fenley said he anticipates sending two persons to the training session and they would be responsible for training the remaining personnel locally.

Besides vehicle and individual information, the equipment is also useful for receiving weather bulletins and information on suspicious individuals who might be traveling toward this area.

Receipt of the equipment and training of personnel is expected to be completed by mid July.

Aldermen approved an ordinance which corrected the incorrect location of two yield signs on Bond.

Through a mixup, north and south yield signs on Bond at the Aldine intersection were erected some time in the past which should have been at Bond and Alameda. The ordinance in effect approved the mistaken location and allows for two more signs at the Alameda intersection.

Also approved was the highest of two bids for sale of an old pickup. E.L. French offered \$418, which was accepted. The other bid was for \$250.

Following a 35-minute executive session, the council voted to change a job classification in city hall from cashier to customer service clerk.

Additionally, the pay for municipal court judge G.A. Benesh was increased from \$75 per session to \$90. This is the first increase since Benesh took the position several years ago, it was reported.

Johnny Coker acknowledged a letter from two individuals requesting the city to provide facilities for softball play.

Coker said he was in favor and recognized the need, but admitted he was unaware of any land which is city owned that could provide the space required for such a facility. It would have to come from a private source, he said.

Brief discussions were also held on the need of a neighborhood watch program, historical marker for the Burnett home, a child-watch program, need of a pickup for the parks department, and dates planned for budget-preparation work sessions.

Two high school faculty members hired

Iowa Park's school board Tuesday night filled two vacancies on the high school faculty for the 1983-84 school year.

Judy Gwynn Spring will teach home economics and Jay Dean Kirkpatrick Jr. will coach and teach three physical education classes and one in health. Both replace recently-vacated positions.

Spring is currently teaching in the Clint district, near El Paso. Kirkpatrick is the head coach and athletic director at Archer City. Vote to hire came following an executive session which lasted more than an hour.

Trustees approved a bid to purchase an automobile for drivers education. Shaw Motor Co. was second lowest, offering an LTD Crown Victoria for \$10,642.93, but was accepted.

Lowest bid was by the local Chevrolet dealer (\$10,457.53), however in the bid the exact style of car

was not specified and therefore was rejected. One bid each was received from dealers in Wichita Falls and Electra, also.

The board also approved expenditures of up to \$10,000 for band instrument replacements. Three bids were submitted, but none will be accepted until the specific instruments are inspected and accepted. This is the second of a three-year instrument upgrading project.

Trustees also approved a list of 21 prospective transfer students, four of whom are not currently attending classes on a local campus.

Bill Steger, tax collector, reported 96.3 percent of current year school taxes have been received. He added that 95.6 percent of the city taxes are also collected (the school has a contract to collect city taxes).

Trustee appointments to eight committees were approved. They include: finance, Martha Dudley and Jimmy Howell; personnel, Howell

and Dudley; curriculum, Ray Hicks and Jerald Brown; transportation, insurance and cafeteria, Hicks and

Rusty Rusk; building and grounds, Rex Wells and Brown; athletics, Roy Boutwell and Dudley; vocational,

Howell and Wells; swimming pool, Rusk and faculty representative Richard Davis.

ACCIDENT SCENE - No serious injuries resulted from a two-car accident Monday afternoon on FM 367. Sandra Atchley, talking with DPS officer, was driving east and attempting to turn into the D.Z. Kingcade driveway when her car was struck in the rear by a pickup, partially hidden on left, driven by John Nelson Cole Jr. The Atchley car was

spun into the culvert while Cole's pickup flipped onto its left side and then upright in the ditch. Cole was taken to Bethania Hospital by ambulance where he was treated and released. Mrs. Atchley and her three children, ages one, three and five, were bruised but did not require medical attention.

Council gives approval for police equipment

◆ News in brief ◆

New convenience store doing business

After experiencing numerous delays during site preparation and construction, it didn't take long for Allsup's convenience store to open for business once the structure was completed.

The new store, located at the intersection of West Highway and

Yosemite, opened its doors Thursday and hasn't closed them since (they operate 24 hours a day).

Additional merchandise and displays are yet to be received before the store observes its grand opening, according to Jack Snow, of the home office in Clovis, N.M.

Weather Report

Weather reports are officially compiled for Iowa Park at the Texas Experiment Station, southeast of town.

Total last year.....	10.39

Kindergarten screening, registration dates set

The annual screening and registration program for kindergarten age children will be held May 23-24 at Kidwell Elementary, according to James Ward, principal.

Parents of children who will be five years of age on or before Sept. 1 and wish to enroll the children in kindergarten next year should have the children screened and registered.

Those who have not received an appointment time through the mail should contact the school at 592-4322.

A full-year special education early childhood program, for three and four-year-olds, is available if they have a physical or learning deficiency, as determined by sight, hearing, speech, mental or a physician's diagnosis.

UMW meets

The United Methodist Women met in separate groups for the Tuesday morning programs.

Mrs. Charlie Lee was hostess for the Mary Fellowship meeting, and Mrs. James Owens brought the devotion on "New Every Morning." Mrs. David Springer gave the program using an article by Harold S. Kushner, "When Bad Things Happen to Good People." Fourteen members were present.

Nine members attended the meeting of the Ruth Fellowship held in the church library. Mrs. George Trammell served as hostess, and Mrs. Travis Smith gave the program on "Things That Make for Peace."

The meeting of the Rebecca Fellowship took place in the home of Mrs. Dave Davis with 11 members and one new member, Katherine Brieker, in attendance. Mrs. M.L. Hines gave a program on "Challenge to Be Doers of the Faith."

Parents who feel their children would qualify for the early childhood program should also contact the school for an appointment.

Friendship class reports donations

Seventeen members of Friendship Sunday school class of First Baptist Church attended the monthly meeting held Monday evening at the church and hosted by Mrs. Leo Fletcher and Mrs. A.A. Simmons.

Mrs. Elmer Singleton conducted the business when Mrs. C.L. Metz, missions in action chairman, reported that the class gave \$75 to the music scholarship fund and approximately \$10 worth of groceries to the emergency food pantry during April. It was voted to make a monetary contribution toward purchasing new song books for the sanctuary for the May project.

Mrs. E.T. Patterson presented a devotional program on "A String and a Prayer" and Mrs. F.L. McCoy led a Bible quiz.

A may pole was the attractive decoration for the refreshment table. Attached to the ribbons that extended from the pole were novel crocheted hats designed for knob lifters that were distributed for favors.

JIM DOOLEY and VICKI WELLE

Couple sets June date

The engagement of Miss Vicki Jean Welle and Jim E. Dooley, former resident of Iowa Park, has been announced by the young lady's parents, Mr. and Mrs. Rie Welle, of Minden, La. The prospective groom's parents are Patsy Boone Dooley of Arroyo Grande, Calif. and Mr. and Mrs. Aubrey Dooley of Carrollton, Texas.

Miss Welle was graduated from Minden High School and is attending Louisiana Tech Univ. where she is a member of Alpha Chi Omega. The groom-elect was graduated from Iowa Park High School where he was senior class president, junior class favorite, pole vaulter on the track team, starting guard on the basketball team, and Who's Who in sports. He attended Cuesta Junior College and Louisiana Tech Univ.

Grandparents of the bride-elect are Mrs. Viola Welle of Truth or Consequences, N.M. and the late Mr. Glen Welle, and Mr. and Mrs. C. Roger Shugart of Bartlett, Okla. The groom-elect's grandparents are Sang and Frances Boone of Santa Margarita, Calif., formerly of Iowa Park, and Mrs. Opal Dooley of Edmond, Okla.

The couple will be married June 11 in Emmanuel Baptist Church at Minden.

FOR SAFETY SAKE

Pressure canner gauges should be tested

By Barbara Cornelius
County Agent

To insure proper processing in your pressure canner, the gauge should be tested. Barbara Cornelius, Wichita County Extension Agent will test gauges every Friday during May and June. Bring the lid only to the County Extension Office, 1626 Midwestern Parkway anytime during the week. Other maintenance procedures that should keep the canner in safe working order include:

- * Take off removable petcocks and safety valves and wash and dry thoroughly after each use. Occasionally soak these parts in vinegar to remove any corrosion. Follow manufacturer's direction for weighted gauges.
- * Use toothpick, pipe cleaner or string to clean openings in lid of the canner. Clean ball and socket with silver polish.
- * Wash kettle or bottom part of pressure canner thoroughly after each use. Use a fine steel and soap as

a cleaner except for enamel covered canners.

* Do not immerse lid in water. This may damage the dial gauge. Wipe with soapy cloth and then dry.

* To remove odors and stains, use one of the following mixtures and process at 5 lbs pressure for 5 minutes:

1. Juice of 1 lemon and 2 quarts of water.
2. Two tablespoons of vinegar and 2 quarts of water.
3. Handful of Irish potato peelings and 2 quarts of water.

* If the lid of a pressure canner that seals metal to metal is difficult to remove or steam escapes, grease the closing surfaces with saltfree fat such as vegetable oil.

* If the canner lid is equipped with a rubber gasket, keep lid and gasket clean and free from grease. If gasket leaks steam, turn gasket over, stretch gently and replace. If rubber has hardened, replace with a new gasket.

* Never add cold water to a hot canner. Guard against sudden cooling

that might cause it to warp or crack.
* Store a clean, dry canner with crumpled newspaper inside to absorb moisture and odors. Wrap cover in

paper and invert it on top of canner.

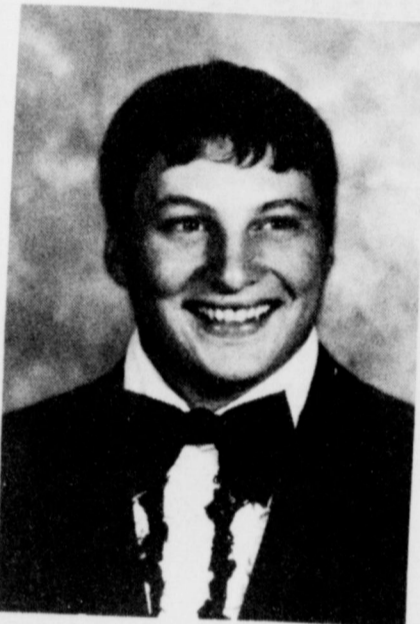

* Check the dial gauge on the pressure canner at least once each year and more often if canner is used frequently or if lid is dropped or receives a hard knock. If the gauge is not registering correctly, food might

be either underprocessed or overprocessed. A weighted gauge needs only to be cleaned thoroughly.

* When dial gauge has to be replaced, coat threads with an oil or graphite base plumbers paste to stop leaks.

Ben English recognized

Ben English, an outstanding agriculture student, has been named the Iowa Park High School Student-of-the-Month by the Opti-Mrs. Club. He is the son of Sandra English and the late Robert English.

BEN ENGLISH

His school activities have included: three-year member of the Student Council; three-year member of Future Farmers of America where he served as treasurer his junior year and vice president during the current year. He was on the land judging team and livestock judging team during his sophomore year. He was on the district and area farm skills team in both his sophomore and junior years.

Ben attended the district FFA banquet during his sophomore and junior years and the state convention during his last two years in high school. He participated in the FFA Show two years and received the outstanding crop employee at the local FFA banquet this year. He has also served as an office worker this year.

His awards include: chapter farmer

Youths complete over 103 miles

Four of the five Camp Fire groups of Iowa Park were represented at the Camp Fire Council's walk-a-jog-a-thon, held Saturday at Wichita Falls High School track.

Iowa Park had 10 percent of the participants, 35 of 350, which included girls and families.

Each participant had sponsors who made contributions to the Council, according to the number of quarter-mile laps completed. Iowa Parkans completed 415 laps, or 103 1/4 miles.

As I See It....

By BOB HAMILTON

Has Iowa Park grown so cosmopolitan that we as individuals could care less what goes on in our neighborhoods? I think not.

But at various times over the past decade, the suggestion that a "neighborhood watch program" should be developed has arisen. And the proposals have resulted for good reasons.

Such a program is nothing more than being good neighbors, there's just more formal organization.

Basically the idea behind it is to keep our homes and businesses from being stolen blind. It is to be aware of any suspicious vehicles, individuals, actions or noises taking place near us.

An individual is not expected to act as a law official and apprehend anyone. Actually that is just exactly what is not expected.

But what is needed is to report anything suspicious you may observe or hear, to the police. And don't think you are imposing on the department personnel, they welcome your cooperation. It's their job to investigate and apprehend, and I'm convinced our police are ready and willing to cooperate with any leads

and suspicious citizens may offer.

As an individual, I resent being forced into locking my home every time we leave. I just wasn't brought up that way. But it has become our lifestyle now. That, and having guard dogs.

The crooks have become more and more bold today. They were bad enough before the economy tightened, but it's even worse these days.

Read our weekly reports of homes being burglarized. Homes and businesses, as well. Read the daily reports of the same illegal activities in Wichita Falls. It's astounding.

While many crooks are satisfied to carry off small items worth considerable value in their pockets, they are just as willing to back a truck up to a home and carry away all the contents, refrigerators, beds, guns, televisions and even lawn mowers.

But awareness of suspicious sightings or noises, and reporting it, is a must. If we don't do it for our neighbors, how then can we expect them to do it for us.

I'm aware of a couple of burglaries here in the past which required

forced entry. I'm not talking about pushing in a door, but long periods of hammering on metal, sawing, tearing, loud activity. After the action was completed, comments were received "Oh, I heard the noise, but I just figured someone was working in the shop."

At four o'clock in the morning?

Our police department is busy, 24 hours a day. The officers can cruise, check doors, watch for activity and all that, but they can't be everywhere at once. They're the first to admit they need our help.

I want your help in my neighborhood, and offer the same to my neighbors. Are there any others willing to help?

LIBRARY TOPIC

Organization representatives to meet

Representatives of various service, social and fraternal organizations are to meet with officers from Friends of the Library at 7 this evening in city council chambers.

Each organization has been asked to have three representatives serve as members of the board.

Organizations responding thus far are Garden Club, Epsilon Eta, Senior Citizens, Rotary Club, Noon and Evening Lions, Lioness Club, Volunteer Firemen, Chamber of Commerce, MuleSkinners, Optimist Club, Philia Study Club, Eastern Star, Masons, Arts and Crafts, Modern Music, Amity Club, TOPS and Parent-Teachers Associations of both Bradford and Kidwell. Also invited is Beta Sigma Psi of Holliday.

Tonight's meeting is for the purpose of adopting bylaws, electing

officers and discussing improvements to the Burnett house.

Donations and pledges toward renovation of the structure for use as a library have now risen to \$53,319

with recent donations from Mrs. M.G. Weeth, Mr. and Mrs. George Denny, Mrs. B.E. Saunders, Wal-Mart Discount Store and Texas Agriculture Products.

SOCIAL SECURITY TIPS

NEW HOSPITAL INSURANCE DEDUCTIBLE

Medicare hospital insurance increased the deductible to \$304 beginning January 1983. This is up from last year's \$260 stated John Bynum Social Security manager in Wichita Falls.

The hospital deductible is the amount that is paid each benefit period from the first through the 60th day of hospitalization.

A benefit period begins when a person enters a hospital and will end after the person is out of the hospital for 60 consecutive days.

There is no limit to the number of

benefit periods that a person may have. If your hospital stay lasts beyond 60 days, your medicare hospital insurance will pay all but \$76 a day for the 61st through the 90th day.

The 60-day life time reserve days can help pay your hospital bill past the 90th day. Medicare will pay all hospital costs, except \$152 a day for the 60-day reserve period. The reserve days are not renewable.

If you have any questions regarding your Medicare coverage please get in touch with your local Social Security office located at 1000 Burnett St., or you may call 322-5213.

It pays to know how much it costs to heat/cool the house.

With electric bills up these days, it'll pay you to know how much you're spending to use electricity all around the house. For example, how much does it cost

to cook a meal ... to dry a load of clothes ... and to heat and cool the house? It all adds up.

At Texas Electric, we're doing everything we can to hold down the cost of electricity. We use the cheapest generating fuels available to us — natural gas and lignite coal. And we're building a plant to use uranium, a

cheaper fuel.

You can help hold down your electric bill by conserving everywhere you can. For more information about the cost of using your household

appliances, look for the list of approximate operating costs enclosed with your April electric bill. Or call us, if you have questions.

And remember. It pays to know ... because it all adds up.

GLENN DUFFY and IRENE ARREDONDO

Announce engagement

Mr. and Mrs. Odilon Arredondo of Kamay announce the engagement and approaching marriage of their daughter, Irene, and Glenn Duffy, son of Mr. and Mrs. Peter Duffy of Iowa City, Iowa.

Miss Arredondo was graduated from Iowa Park High School and is

employed in account processing at the First National Bank in Iowa City. Her fiancé, a graduate of Clear Creek High School in Iowa, is a salesman for Winebrenner Ford.

June 11 is the date set by the couple for the wedding, which will take place at St. Patrick's Catholic Church in Iowa City.

Alathean class hears minister

Rusty Stowe, minister of music at First Baptist Church, spoke to the Alathean class of First Baptist Church Tuesday following the monthly covered dish luncheon.

His topic was "Not Growing Old" and he closed with a vocal solo by the same title. He was introduced by Mrs. Page Morgan.

Other guests were Mrs. Stowe, Rita and Robin, and Mrs. Mary Sue Duston of Denton. Twenty-three class members were present.

Student among H-SU graduates

Karen Ruth Arrington, was one of 240 students participating in commencement exercises at Hardin-Simmons Univ. in Abilene.

Arrington received a BBA degree. She is the daughter of Mr. and Mrs. A.N. Arrington, 1107 N. Second, Iowa Park.

Hardin-Simmons is a multi-purpose university, established in 1891, and is affiliated with the Baptist General Convention of Texas.

Cook of the Week

The versatile cookie has had a place in America's cuisine since its humble beginnings of sugar, shortening and flour in the frugal atmosphere of colonial days. The simple cookie, still popular, has been fancied up by imaginative cooks through the years to an extravagantly modern fruit and nut concoction; and it very often provides the dessert for both plain and fancy meals.

Cookies have been popular in Europe for a long time. They were once the exclusive delights of royalty and noble families. They were made from rare and costly ingredients and traditionally baked to celebrate religious holidays and special occasions. In recent years, European bakers have turned cookie-making into a social event, often involving a dozen families and several days work.

Most children have a never-ending delight for cookies and one of the happiest remembrances of their childhood will be that of helping their

Mrs. Ricky Duran

mothers bake the cookies, or even baking them without mother's supervision. Television commercials that glamorize the cookie and the delicate scent that fills the air when they are baking enhance interest in the doughy morsels.

Robin (Mrs. Ricky) Duran, a young mother, includes two cookie recipes among her's for the week. The former Robin Bolden, she attended Iowa Park High School and belongs to the Faith Baptist Church. Her hobbies are volleyball and swimming. She and her husband, Ricky, who works for Cryovac, have two children, Aaron, 20 months old, and Leanna, six weeks old.

WHEAT GERM OATMEAL COOKIES

1/2 cup butter
1 tsp. vanilla
1 cup brown sugar
1/2 cup sugar
1 egg
1/2 cup milk
1 cup flour
1/2 cup wheat germ
Pkg. spice oatmeal
1/2 tsp. soda

Put butter, vanilla, sugars, egg and milk into bowl. Beat well. Sift flour, salt, soda together and add to creamed mixture; mix well. Stir in wheat germ and oatmeal. Bake at 375 degrees 12-15 minutes. Yield: 2-3 dozen.

Church members to honor seniors

Two high school graduating seniors of the Church of God will be honored at the annual party Saturday at 7:30 p.m. in the Fellowship Hall. Bo Ridlehuber, son of Mr. and Mrs. Jim Ridlehuber, and Starla Hamilton, daughter of Mr. and Mrs. Sparky Hamilton, will be presented with gifts from church members.

Featured speaker for the occasion will be Rev. W.F. Williams of Denver, Colo. a former pastor. Mrs. Kenneth Watts has served as chairman of arrangements for this year's party. Refreshments will be served.

LOOK WHO'S NEW

Patrick Robert, a six pound 15 ounce son, was born to Mr. and Mrs. Bob Foley, 38 Surrey, May 2. He has one sister, Michal, eight years of age.

The grandparents are Mr. and Mrs. Bryan Jennings and Mr. and Mrs. Robert J. Foley, all of Atlanta, Ga. Great-grandparents are Grace V. Coogan of Atlanta, Mr. and Mrs. S.G. Jennings of Oklahoma City and Kathrine Kribbel of Beresford, South Dakota.

PINTO BEEF

1 lb. ground beef
Cook beef in skillet until brown. drain off grease. Add and cook until tender:

1/2 cup chopped onion
1/2 cup chopped green pepper
1 clove garlic, minced

Blend in:
1 (15 oz.) can tomato sauce
2 tsp. chili powder
1 tsp. salt

In greased 2-quart baking dish, arrange in layers beginning and ending with meat sauce below:

3 cups hot cooked rice
1 (15 oz.) can pinto beans, drained
1/4 cup shredded cheese.

Alternate layers of meat sauce and ground beef. Sprinkle with shredded cheese. Bake at 350 degrees 15 minutes.

Sprinkle sugar, spices and salt over apples; dot with butter. If apples are not tart, add 1 tsp. lemon juice and grated rind of 1 lemon, or if apples are dry, add 1 tbsp. of water.

Cut gashes in center of top crust. Moisten edges of top crust lightly. Press edges of top and bottom together and trim 1/2 inch beyond pan, using scissors. Top with butter and sprinkle sugar and flour over top. Bake in hot oven 15 minutes, then reduce heat and finish baking.

CORN FRITOS

1 cup flour
1 tsp. baking powder

1 egg
1 cup milk
1/2 cup oil
1 can corn
Mix ingredients and fry in oil.

CHERRY CHEESE CAKE

1 graham cracker crust
1 (8 oz.) pkg. cream cheese
1 (14 oz.) can sweetened condensed milk
1/2 cup lime juice

1 tsp. vanilla
1 can cherry pie filling

Let cream cheese set at room temperature, then beat until fluffy; add milk until smooth; stir in juice and vanilla. Pour into crust; chill 3 hours until firm, then top with cherry pie filling.

PEANUT BUTTER COOKIES

1 cup creamy peanut butter
1 egg
1 cup sugar
1 tsp. vanilla
1 1/2 cup flour

Preheat oven to 300 degrees.

In medium bowl, combine all ingredients. With electric mixer at medium speed, beat until smooth and blended. Using hands, roll dough into balls. Place on ungreased cookie sheet and press down with fork. Bake until brown. Yield: 24 cookies.

WHERE FAMILIES OF ONE OR MORE ARE WELCOME

What picture comes to mind when you hear the word "family"? Do you see a mother, father, and 2-3 children? What does a family look like?

Every family is unique. There are families with children, some with no children, some are single-parent families, and there are blended families - where a new family is formed from former ones. Part-time families occur when a parent has custody on week-ends or during vacations. Families come in all sizes and in wide variation.

Your family - of one or more - is welcome with us. Though every family has its own specific set of problems and potentials, we all need Christ, His love, and human caring. Let us meet your family this week!

Pecan trees need zinc

By Don D. Decker
County Agent

Upland pecan trees need zinc because soil zinc is unavailable to the tree. Zinc as a foliage spray will probably help as much as anything in developing a healthy, fast growing tree. The zinc must be applied between bud break (mid-April), until the first of June. Foliage sprays are limited on the amount of zinc which gets inside the tree from a single spraying. For this reason, 2 or more applications is desirable, particularly, when people are spraying their own trees.

Ken McCoy of Wichita Falls is spraying his pecan trees with NZS at 2 week intervals until the final casebearer spraying, which is expected near June 1. He is using 3 teaspoons of NZS per gallon of water plus a surfactant sticking agent. The spray is directed to cover the leaf surface of the tree. Other recommended forms of zinc include ZN and zinc sulfate.

Zinc deficiency in pecan trees causes the foliage to develop a rosette appearance. This means the leaves

tend to grow in bunches. This bunching is caused by short node development or lack of growth of the terminal shoots. When adequate zinc is available, the pecan tree develops a dark green color and makes excellent terminal growth.

Powdery mildew is working full time on the Wichita Falls emblem - Crepe Myrtle. Weather conditions have been favorable for the development of this fungus disease. Capitola Blair and Thelma Wingo of Wichita Falls and Mrs. Dean Hawkins of Iowa Park report powdery mildew on their Crepe Myrtles.

This disease is evident when a white, powdery mass develops on the foliage of the plant. It can be wiped off of the leaves. Mildew is also being found on roses.

Blair, Wingo and Hawkins are controlling powdery mildew by spraying 2 or 3 times at weekly intervals using Benlate (Benomyl). This material is diluted in water at the rate of 1 teaspoon per gallon of water. It is sprayed onto the foliage. Benlate is very specific for powdery mildew and does a good job in controlling this tough-to-control disease.

Emerging May and June Beetles are leaving holes in home lawns causing considerable concern among home owners. These holes are about 1/8 inch in diameter. Ron Yandell and Dean Wood of Wichita Falls have discovered very large numbers of these exit holes in their yard. The beetles are the adult stage of the white grub.

This is not the season for grubworm control, even though they can be found in home lawns and their exit holes are being left in the soil by the emerging beetles. The beetles will be laying eggs, and a new hatch will occur the later part of July.

Yandell and Wood can successfully control grubs in the first 2 weeks in August. They will apply granular diazinon applied to the surface of the lawn. At that time, the grubs will be small and feeding near the surface.

White grubs cause their damage in late summer and into the fall and winter.

Gardeners digging in the yard now find white grubs which are inactive during the spring. They do not feed on plant material this late in the season. If they did any feeding, it would be on organic matter in the soil. For this reason, there is no reason for attempting spring control of white grubs. Besides, they are so large, so inactive, and so deep, control is not practical.

The holes left in the yard by the

emerging adults are of no consequence. The holes allow air and water to penetrate the soil.

Area oil, gas report

F.T. Johnson Jr. of Wichita Falls has revealed plans to drill a 4,700-foot developmental well in the Archer County Regular Field. The operator has 30-acres under lease, with drillsite in Wichita County's KWVFL Survey and has designated the venture as the No. 4 Kempner "B". Drillsite is two miles south of Kamay. The well is 330 feet from the north line and the west line of the lease. It is also 330 feet from the north line and 1,652 feet from the west line of the survey.

The No. 6 Rathke Deep, a developmental well in the Wichita Regular Field, is scheduled to be drilled two miles north of Holliday. Fennell Oil Co. of Wichita Falls is listed as the operator. Location is in a 40-acre lease in Wichita County's Denton County School Land Survey. Projected total depth is 4,890 feet. The well is 330 feet from the north line and 600 feet from the west line of the lease and survey.

Location has been staked by L.D. Cheatham of Wichita Falls for a 1,400-foot developmental probe in Wichita County's J. Scott Survey, within the city limits of Wichita Falls. The well is designated as the No. 1 Cheatham Fee. Drillsite will be in a 4-acre lease in the Wichita Regular Field.

The well is 150 feet from the north line and the east line of the lease. It is 2,150 feet from the north line and 525 feet from the east line of the survey.

A new oil producer in the Wichita Regular Field has been finalized by Don Dennis of Grady, Oklahoma. Designated as the No. 6 Mason, the well indicated capacity to produce 22 barrels of crude oil per day on an open choke.

The location is seven miles northwest of Burkburnett, in a 145-acre lease in the F. Huseman Survey, Wichita County.

Bottomed at 1,738 feet, the well will produce from an interval of perforations 1,654 to 1,697 feet into the hole. The pay formation was first encountered at 1,654 feet.

This well is 450 feet from the east line and 2,660 feet from the south line of the lease and survey.

Pumping at the rate of 16 barrels of crude oil per day on an open choke, the No. 5 Henderson was completed in the Wichita Regular Field by Blair-Lee Oil Inc. of Wichita Falls.

Drillsite is in an 80-acre lease in Wichita County's RRVL Survey, three miles northwest of Burkburnett.

After entering the pay zone at 1,782 feet, the well went to 1,832 foot bottomhole. It was perforated to produce from an interval 1,782 to 1,783 feet into the hole.

The well is 150 feet from the west line and 965 feet from the south line of the lease and survey.

Burkburnett-based F.T. Felty has turned in first production figures for its No. 53 S.M. Daniels, a successful developmental well in the Wichita Regular Field.

Pumping oil at the rate of 5 barrels per day, the well was tested on an open choke.

Drillsite was in a 250-acre lease in Wichita County's H. Hastie Survey, five miles southeast of Burkburnett. The well was taken to a total depth of 581 feet, after entering the pay zone at 544 feet. Production will be from perforations 544 to 552 feet into the hole.

The well is 150 feet from the south line and 475 feet from the east line of the lease and survey.

At a location two miles southeast of Iowa Park, Hale Supply Inc. of Wichita Falls has completed the No. 4 China Smith, new oil well in the KMA Field.

Drillsite was in a 160-acre lease in Wichita County's William M. Lloyd Survey.

The well showed daily potential for 7 barrels of oil on an open choke. Production will be from an interval 4,150 to 4,160 feet. Well's total depth was 4,160 feet, with top of pay logged at 4,150 feet.

The well is 330 feet from the west line and the south line of the lease and survey.

Location has been staked by NHS Petroleum & Investments Ltd. of Devol, Okla. for a 350 and a 450-foot Wilbarger County wildcat. The explorers will be known as the No. 2 and No. 3 White. They are in a 100-acre lease in the H&TC RR Survey, A-1066, eight miles southwest of Vernon.

The No. 2 well is 202 feet from the north line and 346 feet from the west line of the lease. It is 202 feet from the north line and 2,241 feet from the east line of the survey.

The No. 3 well is also 202 feet from the north line and 346 feet from the west line of the lease. This well is 202 feet from the north line and 2,436 feet from the east line of the survey.

Pumping at the rate of 16 barrels of oil per day, the No. 18 Cook-Throckmorton has been completed in the Wichita Regular Field by T.W.J. Co. of Iowa Park.

Located five miles southeast of Electra, the well is in a 160-acre lease block of Wichita County's J.F. Torrey Survey.

The well was drilled to a total depth of 1,935 feet, after entering the pay zone at 1,933 feet. It will produce from a perforated interval of 1,933 to 1,935 feet into the wellbore.

The well is 150 feet from the south line and 785 feet from the east line of the survey.

Jack Tillman Equipment Co. of Wichita Falls has turned in first production figures for its No. 2 Ashton-Cooper, a successful developmental well in the Wichita Regular Field.

Pumping oil at the rate of 16 barrels per day, the well was tested on an open choke.

Drillsite was in a 77-acre lease in Wichita County's Chris-Winters Survey, one mile south of Burkburnett. The well was taken to a total depth of 1,313 feet, after entering the pay strata at 621 feet. Production interval will be 620 to 622 feet into the hole.

The well is 620 feet from the south line and 730 feet from the east line of the survey.

Bohner Oil Co. of Wichita Falls has posted initial production figures for the No. 24 Roller 135 "B", the No. 25 Roller 135 "B", and the No. 17 Fresno Roller, new oil wells in the Wichita Regular Field, one mile south of Burkburnett.

The wells indicated potential for 7, 8, and 9 barrels of oil per day on open chokes, respectively. The No. 24 and No. 25 well are to be located in a 70-acre lease and the No. 17 well is situated in a 64-acre lease, all in Wichita County's W. Grady Survey.

The No. 24 well had total drilling depth of 1,331 feet. After entering the pay zone at 1,270 feet. It will produce from perforations 1,274 to 1,287 feet into the hole. It is 450 feet from the north line and 150 feet from the west line of the survey.

The No. 25 well entered the pay structure at 992 feet and is producing from a perforated interval 992 to 995 feet into the wellbore. Total drilling depth was 1,330 feet. It is 150 feet from the north line and 750 feet from the west line of the survey.

The No. 17 well is 150 feet from the north and east lines of the survey. After entering the pay structure at 1,278 feet the well had total drilling

depth of 1,332 feet. It is producing from perforations 1,278 to 1,282 feet.

Pumping 10 barrels of crude per day, a new producer has been finalized in the Wichita Regular Field by J.C. Wells of Iowa Park.

The location is in a 25-acre lease in Wichita County's Ward & Todd Survey, five miles east of Electra. Well's designation is the No. 4 Dutton.

Total drilling depth was 930 feet and the pay strata was entered at 838 feet. The well was perforated to produce from an interval 838 to 844 feet into the hole.

The well is 200 feet from the south

line and 300 feet from the west line of the survey.

S&J Operating Co. of Wichita Falls has recorded a successful developmental well in the Wichita Regular Field. It is the No. 49 Douglas C, showing potential for 5 barrels of oil per day on an open choke.

Drillsite was in a 96-acre lease in the L.M. Collins Survey, 2.5 miles southeast of Electra, in Wichita County.

The well was drilled to a total 1,010 foot bottom, after entering the pay structure at 786 feet. It was perforated to produce from an interval 786 to 792 feet.

This well is 200 feet from the east line and 1,095 feet from the south line of the survey.

Pumping at the rate of 23 barrels of crude oil per day on a 10/62 choke, the No. 145 Francis Sumner was completed in the West Electra Field by Mobil Producing TX & NM Inc. of Houston.

Drillsite is in a 1,099-acre lease in Wilbarger County's H&TC RR Survey, Sec. 17, Blk. 13, three miles northwest of Electra.

After entering the pay zone at 2,748 feet, the well went to 3,037 foot bottomhole. It was perforated to produce from an interval 2,748 to 3,030 feet into the hole.

The well is 1,500 feet from the south line and 3,650 feet from the west line of the survey.

TEXAS GARDENER TIPS

Spider Mites: A Texas Garden's Worst Enemy

Spider mites are a problem in almost every part of Texas. These tiny, usually red mites attack both vegetables and landscape plants. Be on the lookout for early detection and prompt treatment are your best weapons against them.

Spider mites, often called red spiders, most frequently attack vegetables like beans, corn, eggplants, and tomatoes, and ornamentals like boxwood and roses. They also damage cole crops, cucurbits, and onions. One of their favorite host plants is the marigold. Texans who interplant marigolds in their vegetable gardens may live to regret it, since spider mites often build up on marigolds and then spread throughout the garden.

Spider mites reproduce very rapidly. They prefer hot, dry weather, and under these conditions can multiply to unbelievable proportions. Mites are generally found on the underside of leaves. On heavily-infested plants, you will see very fine webs, with eggs and immature mites underneath them.

Mite damage first appears as small, white or gray stippling on the leaves. As damage increases, entire leaves become stippled and lose color, and eventually turn yellow and fall off.

Eventually, the plant loses many leaves and dies. To prevent infestations, inspect your plants weekly for spider mites. Examine the bottoms of leaves, especially on plants with a dull or off color. You can also shake leaves vigorously over a piece of white paper to dislodge and see the mites better.

If you find only a few mites, but see no damage as yet, reexamine the plants every 2 days. You need not immediately resort to miticides, because if beneficial insects are feeding on the mites, or if the weather conditions are not favorable for mite buildup, the mite population may stay below damaging levels and even decrease.

Light infestations can at times be controlled by spraying plants with water from a hose. Be careful not to damage tender foliage, however. If your infestation is confined to a few plants, you can try removing them, while keeping a watchful eye on the adjacent plants left in the garden.

If you have an infestation that is causing damage, you will probably need to use a miticide, like Kelthane. In choosing a pesticide, read the label carefully to ensure you are using the right chemical for your particular plants.

WARNING: dieting can be harmful to your health

Society's fascination with slimmness and the pressure to become slim may cause a greater health problem for the moderately obese person than the extra weight, according to a Baylor College of Medicine researcher.

John P. Foreyt, Ph.D., associate professor of medicine and psychiatry, says fewer than five percent of the individuals who begin diets—one person in 20—actually lose and maintain a significant weight loss.

"The chances that an obese person will lose to an ideal body weight and maintain it are much less than the cure rates for many types of cancer," Foreyt said.

Most dieters tend to lose weight, then regain it, and wind up trying to lose the same pounds over and over.

Foreyt said the major emotional and physical problems for the moderately obese person (not more than 120 percent of ideal body weight) often lie not with the obesity itself, but with the stress of dieting. The problem is more acute for women than men because women tend to diet more often.

"The process of dieting is a very punitive and negative experience," he explained. "Chronic dieting makes one crave certain foods, particularly carbohydrates and sugars. The only way most people in our society can lose and then maintain a significant amount of weight is to come to the realization that they must go through the rest of their lives in a state of semi-starvation. That's very sad."

"Moderate obesity is not a medical risk for many of us, provided we don't have high blood pressure or diabetes. It's a question of cosmetics. We want to look better."

The continuing loss-regain cycle, however, may stress the cardiovascular system and increase levels of fats in the blood.

"Dieting slows the body's metabolism (the rate at which nutrients are used) by as much as 30 percent," Foreyt said. "When you come off a diet, you tend to regain a much greater percentage of fat. This becomes more pronounced with each diet. What we end up with is a group of people who are obese, because of a

high percentage of body fat. They may, however, end up maintaining their weight on a diet that is so low in calories it would be restrictive for people with normal weight."

The emotional stress of obesity, rather than the condition itself, may also lead to apparent and real physical disorders.

"Too often obese people are denied attention because of the unattractiveness of obesity. If they develop physical symptoms, and those symptoms get attention from a spouse, friends, or a physician, it may serve only to reinforce the symptoms," Foreyt said.

Every decision to diet brings initial

Kerry Johnston earns master's

Kerry Johnston, son of Mr. and Mrs. Gene Johnston, will receive a master's degree in sacred music from Perkins School of Theology at Southern Methodist Univ. May 21.

He will then be moving to Houston where he has accepted the minister of music position at Kingwood Methodist Church.

Johnston was graduated from Iowa Park High School in 1976 and received a bachelor of music with summa cum laude honors from Midwestern State Univ. in 1979. He was organist two years at the First United Methodist Church in Wichita Falls and while he has been working on his master's degree, he has served as organist and minister of music at the W.C. Martin Methodist Church in Bedford.

Kerry and his wife, the former Angela Carter, have one daughter, Kirsten.

CARD OF THANKS

Many thanks for all your flowers, prayers, cards, visits and food during my recent surgery. God Bless Each of You!

Margie Faulkner

feelings of hope and elation that usually are followed by depression and possibly anxiety caused by the sense of failure, Foreyt explained. Then comes feelings of weakness, nervousness, irritability and patterns of eating at night, insomnia, and the lack of desire to eat in the mornings. For some the daily movement of the scale becomes the roulette wheel governing their lives. If they have gained, they're depressed or anxious. If they lose, it's a high.

"The sense of failure in weight loss is probably more damaging in women than in men, since the ability to control food may become an index of the ability to control life in general," Foreyt said. "They use that failure to view themselves as a failure psychologically. The fear of failure then pervades other areas of their lives."

The real problem, he said, lies in the overemphasis on slenderness in our society. Combatting that problem means accepting one's body size and recognizing that everyone doesn't have to be as slender as the ads and society expect. It means understanding that lifestyles today are built around labor-saving devices and much less physical work than that of our ancestors. That, coupled with an adequate supply of food, creates an environment in which nearly everyone is likely to gain weight.

Foreyt said it also helps to recognize that obesity is an extremely difficult disorder to treat.

"Obesity is much more difficult to deal with than we thought. Therefore, to come to grips with it, and to relieve the stress it carries, we must learn not to be so hard on ourselves," he said.

Trustees approve budgets

Budgets for athletics, band and vocational agriculture for the 1983-84 school year at Holliday were approved by Holliday School Board during Monday night's meeting, but trustees tackled a host of major issues on the agenda including:

- * A request by the Holliday Auxiliary Group to bring drug-sniffing dogs on campus;
- * discuss use of the Johnny Andrews Fund; and, named Jake Cottrell as assistant junior high principal for the newly-departmentalized middle grades in addition to hiring Patty Drake to fill a position in

the junior high level. Among the budgets approved during the meeting was a

trimmed-down vocational agriculture budget presented by advisors Cal Gaulden and Jim Bob Wallace which

will be 28-percent less than this year's

Continued on page 17

Eagles gun for title tomorrow

The Holliday Eagle baseball team assured itself a spot in the state playoffs with a 7-2 win Tuesday over Archer City in addition to avenging an earlier loss to Petrolia by defeating the Pirates 15-8 last Friday in Holliday.

Holliday, now 6-2 in District 11-AA, travels to Boyd tomorrow for a 4 p.m.

showdown with the district-leading 'Jackets. A win for the Big Red will force a tie with Boyd, and, according to coach Jake Cottrell, either a one-game playoff or coin toss will determine the seedings going into the playoffs.

The timely win over Petrolia came

with help from Holliday's reserves, namely Shannon West and Guy Gilmore, substituting for Kevin Blankenship and Mike A. Parker. The two starters were in Stephenville competing in the area track meet, and Cottrell was elated at the effort his subs turned in.

"All our young kids came through for us," Cottrell said. "It was a very important game."

Frosh pitcher Larry Krob turned in stellar performances against both Petrolia and Archer City, upping his personal record to 6-1.

Mike W. Parker sparked the Eagles with three hits in four trips to the plate and four RBI's. Teammate Jeff Belcher also had a hot bat, as did West. Belcher went two-for-four including a double while West recorded three hits and three RBI's.

Against the Wildcats, Blankenship and A. Parker found their old forms, with Blankenship going two-for-three at the plate with two RBI's while Parker also went two-for-three.

Band concert slated tonight

Holliday's school bands will perform in concert at 7:30 tonight in Erma Barton Auditorium, with Tom Woody and David Holcomb directing.

Featured will be the fifth and sixth grade bands, junior high band, and Eagle band.

Holliday News

Announce engagement

Miss Kim Duncan and Gary Chambers will be married June 18 at the First Baptist Church in Holliday, according to an announcement by the young lady's parents, Mr. and Mrs. Jimmie D. Duncan of Wichita Falls. The prospective groom is the son of Mr. and Mrs. Billy R. Chambers of Holliday.

A 1982 graduate of Rider High School, Miss Duncan is employed as secretary to Thomas M. Johnson, senior vice president of Mercury Savings. Her fiancé attended Holliday High School and works in the oil field for Herschell Wortham.

KIM DUNCAN

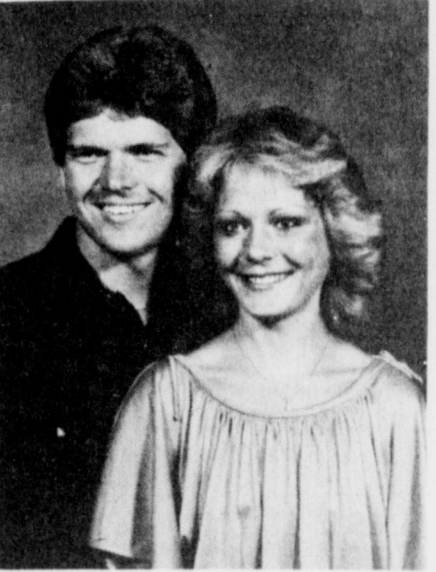

June wedding slated

Mr. and Mrs. Larry Darnell of Wichita Falls and Mr. and Mrs. Roy McAllister of Holliday are announcing the engagement and approaching marriage of their children, Kimberly Kay and Kevin Lane.

Miss Darnell was graduated from Rider High School in 1979, and will receive her associate degree of nursing, R.N. from Midwestern State Univ. this month. She will be employed by Bethania Hospital following graduation.

The groom-elect was graduated from Holliday High School in 1977. He has been attending Midwestern State Univ. and is a deputy sheriff for Wichita County.

The couple will exchange marital vows June 11 at the First Baptist Church in Holliday.

KEVIN McALLISTER and KIM DARNELL

Mankins places third at state

Holliday High School junior Leslie Mankins placed third in calculator application in her second trip to the state U.L.L. Literary Meet in Austin recently.

Mankins, daughter of Holliday School Board president and Mrs. Tommy Mankins, earned the repeat trip by placing first in regionals at Stephenville prior to the state meet.

JUNE FEST

Annual event scheduled to revive Settler's Reunion

In an effort to revive the old Settler's Reunion that Holliday hosted several years ago, the Holliday Chamber of Commerce is preparing for the first annual June Fest to be held June 17 through 19.

Several events are scheduled to take place during the three-day festivities, including a Miss Holliday Pageant, parade, arts and crafts exhibit, dance, and climaxed by a

barbecue on the high school grounds with an address from Rep. Charles Finnell. Old-fashioned games and activities for the entire family will be held in conjunction with the barbecue.

More information concerning the parade can be obtained by calling Greg Roberts at 586-1492, with deadline for entrants June 3.

Ethel Cook will coordinate the arts

and crafts exhibit, and persons wishing to enter can contact her at 586-1150. Rental for the booth is \$15, or \$25 for two booths.

Holliday High School teacher Martha Higgins is coordinating the beauty pageant, and entrants can contact the chamber office at 586-1174 for more information. Danny Parkerson will serve as master of ceremonies.

Veteran Capps returns to state

One year ago this weekend, a Holliday High School sophomore came face-to-face with the state's best in track at Austin, and he will personally admit that the awesome spectacle of Memorial Stadium in Austin didn't help the jitters one bit. Then-sophomore Patrick Capps failed to place in the top six in the Class AA high jump, and, to top that off, couldn't make the 6-4 jump he had made so easily one week before in regionals.

Capps' junior year started off with indications of being a repeat in humility for the tall, lanky blonde. Suffering a leg injury at the first of the track season, he was nowhere near the form he wanted to be. But wounds heal, however slowly.

Last Friday in Stephenville, Capps once again placed second, but with a 6-5 jump, his personal best for the year. And once again he will make the trek to Austin with hopes of entering UT's stadium Saturday morning with an air of confidence and hopefully a medal in the making.

Failing by .006 of a second to make

his first appearance in Austin was once again Kevin Blankenship, as he was edged out at the tape in the 110-meter high hurdles, despite a respectable 15.2 clocking.

Barry Hardin, also a senior, placed fourth in the pole vault at 12-6, well below his personal best of 13-3.

Graham cowboy tops

Seven members of the Holliday Rodeo Club earned prize money and Don Eddleman of Graham captured the all-around cowboy title recently at the second annual Holliday High School rodeo held at Bennett

Memorial Arena. Holliday Rodeo Club sponsored the event, with high school vocational advisors Cal Gaulden and Jim Bob Wallace serving as sponsoring advisers. CWT Rodeo Company furnished the stock, and total prize money of \$1,665 was paid in nine events.

Eddleman placed first in calf roping and second in both tie-down and chute dogging to earn the best all-around title.

Participants from Holliday placing were: **FIRST PLACE:** John Smyers, bareback riding; Shannon Shores, poles; **SECOND PLACE:** Joey Maxwell, Shannon West, Ricky Esco, and Todd Bearden; **THIRD PLACE:** Darin Hawley.

Honor rolls released

Holliday Elementary honor roll for the fifth six week period was released recently by principal Carol Magee. They are as follows:

SIXTH GRADE [A]: Tammy Beaves, Mary Jane Billingsley, Christy Edwards, Keri Lilley, LaShana Luke, Katha McAllister, Luci McIlhaney, Michael Richards, Lauri Styles, Candi Neidigh.

SIXTH GRADE [B]: Melissa Faver, Leslie Goodlett, Kelly Rippen.

FIFTH GRADE [A]: Ryan Menasco, Kim Whitsitt, Renee Wilson.

FIFTH GRADE [B]: Carla Carr, Michael Whaley.

FIFTH GRADE [C]: Schrondra Conyea.

FOURTH GRADE [A]: Scott Anderson, Mandy Bird, Brent Boyd, Jennifer Canafax, Stephanie Crumpton, Staci Finley, Sean Finnell, Jay Haas, Dawn Hamill, Colin O'Brien, Aniece Scholl, Albert Vaughn, Cheryl White, Jennifer Wylie.

FOURTH GRADE [B]: Lori Boyce, Chris Cribbs, Dena Drake, Scott Griffin, Kendra Kuykendall, Greg Lofland, Corley Potts, Lorel Wilhelm.

Prospective kindergarden students should register

Parents in the Holliday School District with a child five years of age on or before Sept. 1, who missed the kindergarden round-up Mar. 29, should contact Holliday Elementary principal Carol Magee at 586-1986.

The prospective students also need to be at the elementary school May 19 for screening and to record birth certificates and shot records.

A full-year "Special Education Early Childhood" program for children ages three and four is available if they have a physical or learning deficiency as determined by

sight, hearing, speech, mental maturity or a physicians diagnosis, according to Magee. Parents who feel their child may be eligible for this program should call the school and make an appointment for the May 19th screening.

Junior band earns honors

The Holliday Junior High Band earned division "1" ratings from each of the four judges at the Jacksboro Band Festival April 30, according to director David Holcomb.

"We were one of a few to receive straight '1's" from the judges," Holcomb said, "I am very proud of the band's effort and performance."

Students receiving a division "1" rating in either solo or ensemble competition at Jacksboro include Jamie Murphy, Christean Echols, Stephanie Fleming, Dwayne Jackson, Darren Carlton and Tommy Berend. Also receiving a top rating were C.R. O'Brien, Seretha Finnell, Lynda Jackson, and Shannon O'Brien.

Women's softball tournament slated

Texas State Teachers Association (TSTA) is sponsoring a women's softball tournament beginning today at the Holliday High School baseball field, according to coordinator Cherry Ferguson.

The tournament, which will feature teams from Olney, Newcastle, Graham and Wichita Falls, will benefit the YWCA Blazer softball team, a scholarship fund, and the professional teacher's association.

Games start at 6 p.m. Thursday and Friday, with finals set for Saturday. Concessions will be available.

- Friday, May 13**
Breakfast: Pancakes, syrup, milk, sausage.
Lunch: Enchiladas, beans, salad, fruit, milk.
- Monday, May 16**

The Eyes Of Texans

JAMES EDWARDS Optometrist

CONTACT LENS SCARE STORY UNTRUE

There have been some reports circulating around the country that electrical sparks and arcs are causing serious eye damage to workers wearing contact lenses. The false safety alert [whose source has not been determined] describes two workers who supposedly had contact lenses adhere to their cornea as a result of exposure to electrical sparks and arcs. The sparks were supposed to have generated microwaves that dried up the tear fluid and caused the contact to be bonded to the cornea.

One expert, an optometrist, said of this false safety alert that it is physically impossible to dry up the fluid in your eyes unless you stuck your head in a blast furnace. Another expert, an ophthalmologist, stated that light caused by sparks from electricity would not be sufficient to cause any harm.

Of course welders should wear appropriate goggles over their eyes whether they wear contacts or not as the U.V. light can cause corneal burns and a welding flash could harm the eye. The eye protection required by Occupational Safety and Health Act for welding, brazing and soldering is the same with or without contacts.

CHECKING WHEAT FIELDS

First armyworm flight arrives

By Don D. Decker
County Agent

The first flight of armyworms has arrived and growers will want to start checking their fields for armyworm damage during the first week of May. The presence of armyworms can be determined by examining the lower levels on the wheat. Foliar feeding on the lower levels will indicate their presence.

Armyworms are primarily night feeders returning to the soil during the day, making it difficult to find the worms. Checking the fields late in the evening or early morning will make it easier.

An early warning system of light traps have been stationed with Larry McAlister at Punkin Center, Bill Bunton and James Garrett of A-1 Flying Service at Thornberry, and Mac McGregor of Texoma Flying Service near Iowa Park. Larry McAlister has been catching about two armyworm moths per night. These numbers jumped up drastically to 15-16 moths per night beginning on April 26 and 27. Emory Boring, Extension area entomologist at Vernon, observed the peak number of armyworm moths on April 21 and 22.

This data indicates the first flight of armyworm moths have blown into the North Texas area from the south. Eggs are being laid, and the worms should be hatching out by this time. The moths will be attracted to the

more lush areas of the field, which is the best place to make inspections. This is the first year for trapping armyworm moths. At this point, we do not have the experience to determine the extent of field infestation based on the number of moths caught in light traps.

To date, there has been no armyworm damage observed. We're only aware of the arrival of the armyworm moths. These new arrivals should produce worms during the first week of May.

The economic threshold is four to five larvae per square foot. Some foliar feeding causes little damage, but the top flag leaf must be protected at all cost. In the later stages of development, armyworms begin to cut the heads off. Fred Dwyer of Bacon Switch Road uses another economic threshold. He says, "If you can find them, you better spray."

The recommended materials include Methyl Parathion - 1 pint per acre, Parathion - 1/2 pint per acre, and Dylox - 1 pint per acre. The parathion's have a 15 day harvest restriction while Dylox has a 21 day restriction.

This is the year for fertilizer on wheat. Robert Wilcox has a demonstration showing a comparison of wheat fertilized with nitrogen compared to very little nitrogen. Wilcox was fertilizing a field last fall

with 100 pounds of anhydrous ammonia followed with 65 pounds of 18-46-0 applied to the seed through the grain drill. He ran out of anhydrous and decided to go ahead and finish.

Right now there is a tremendous difference in the yield potential of these two plots. The portion of the field receiving an adequate supply of nitrogen is nearly a foot taller, and the heads within the boot are considerably larger than the portion of the field receiving a deficient amount of fertilizer.

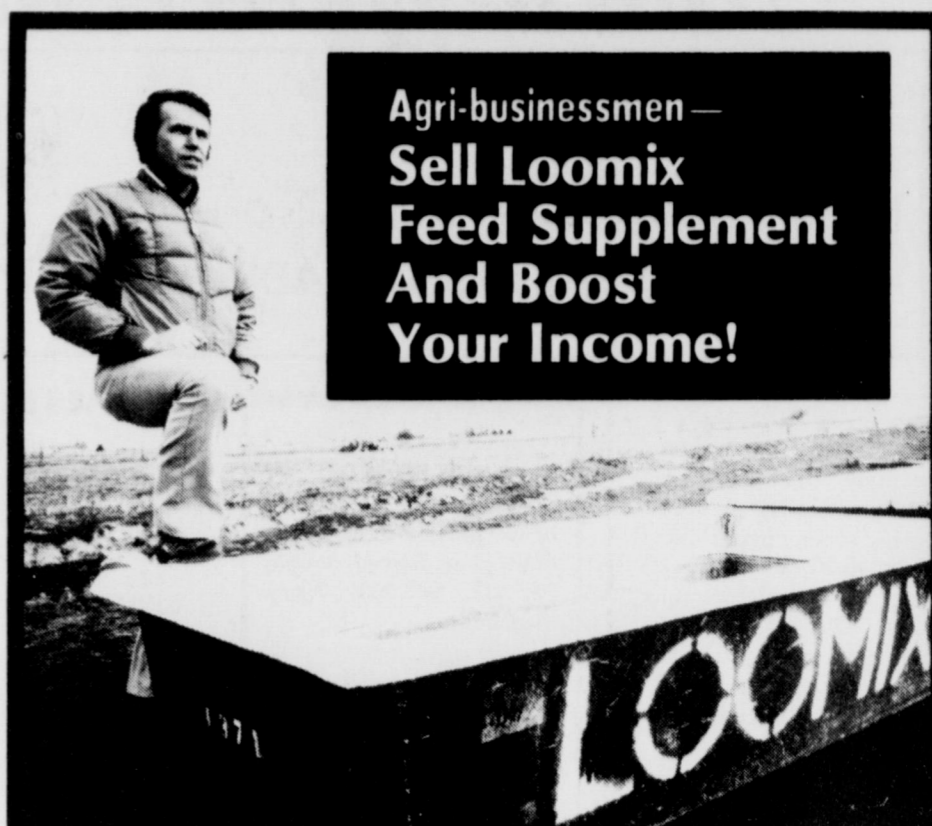

Wilcox plans to bale the field for hay, however, he will leave a portion

of the field so a grain yield determination can be made. This striking demonstration will be viewed on the upcoming wheat tour.

Wheat growers are invited to the annual wheat tour scheduled for May 17, 7 a.m., starting from the Lone Star Truck Stop Restaurant. There is a lot to see in the way of wheat herbicides, fertilization, weed control, seeding rates, and new varieties.

I am sure all of the serious wheat growers will want to make this tour. This is an early announcement so growers can get this tour on their calendar.

Budget

Continued from page 14

budget, or 36-percent lower if federal and state aid is taken into consideration.

The ag department's total budget calls for expenditures of \$13,200, including \$7,000 in expendable supplies.

"We won't be buying any new equipment for next year, so what you see is what we consider the bare necessities," Gaulden told trustees. Gaulden said the school will actually only pay \$8,373 of the total budget, with \$2,250 in state funding expected for expendable supplies, and \$2,577 in federal aid for teacher travel. Asked how many students he anticipated in the vocational program next year, Gaulden responded by saying approximately 100 students would participate, although an accurate figure was not available.

Athletic director Don Lucy's proposed budget totalling \$57,401 in expenditures for next year also received approval. When asked how he could determine what supplies would be needed for the seven sports at HHS, Lucy said, "I have been through enough of these budget procedures to where I pretty well know what to put down as far as what is needed initially, and some of what can be expected."

A breakdown in the athletic budget for each sport includes: Football, \$26,952; basketball, \$10,935; track, \$7,787; tennis, \$2,630; golf, \$1,396; volleyball, \$2,661; and, baseball, \$5,040.

The band budget totalling \$19,835 was approved with band director Tom Woody fielding questions from the board. Asked why the figure was approximately \$642 over the previous budget, Woody explained that he held off on the purchase of some new equipment at the request of the board last year with a verbal understanding the equipment would be purchased at a later date.

Trustees asked Woody to look into the possibility of charging a maintenance fee for use of the school-owned instruments in an effort to both curb costs and maintain the present equipment. \$6,257 is budgeted for nine new instruments for next year, and \$3,463 for replacement of equipment.

DRUG PROBLEM ALLEGED
Approximately 26 visitors, most of them members of the auxiliary group and their husbands, asked the board to consider bringing drug-sniffing dogs to the HHS campus next year to

curb what they alleged was an increasing drug problem.

Responding to a comment that any drug problem in Holliday was both a school and community problem, high school principal Bill Lee said, "I can see how a program such as the drug-sniffing dogs would be beneficial inside school, but I don't think it would help once the kid leaves the school grounds."

Board president Tommy Mankins said, "We all on the board are also parents, and we are also just as concerned about any drug problem as you, and we will discuss your proposal further in the near future."

A committee consisting of board members Larry Lilley, Mankins, Alice Carver, and administrators Dan Owen, Lee, and Carol Magee was appointed to look into the group's proposal.

Trustees were presented a proposal by Gaulden for use of the Johnny Andrews Memorial Fund with the approval of the boy's father, which includes the construction of a barn on the high school campus to house livestock owned by vocational agriculture students that have no facilities of their own to maintain care.

According to Gaulden, the barn would be approximately 60x42 feet with eight 16x8-foot pens, concrete walks, and an adequate drainage system. Gaulden said students using the barn would enter into contract with him stating they would be responsible for upkeep of the pen and animal, and any violation would mean forfeiture of the space.

Holliday Mayor James Cook, present at the meeting, informed the board an ordinance restricting the housing of a farm animal in Holliday had been repealed some years ago, and the only legal matter would be to seek a variance from the city for the placement of the barn, which tentatively will be situated just east of the vocational building. Cook also asked if Gaulden could drain the excess waste into a sewer line instead of the city lake, which he said could

possibly serve as an alternate water source for the city in case of an emergency. Gaulden responded by saying the sewer line runs directly in front of the vocational building, and would be no problem to tap the barn's drainage system to it.

PERSONNEL

Cottrell will assist Lee and Magee in the sixth, seventh and eighth grades while continuing his present duties as coach, and social studies teacher in the high school. Lee will maintain grades seven through 12, while Magee will maintain kindergarten through sixth grade. Owen said the move would strengthen supervision in the middle-grade area with the current move to departmentalize the junior high level.

Drake, currently teaching fourth graders at Holliday Elementary, will be re-assigned next year to the junior high level to fill a vacancy caused by a reduction in force. According to Owen, the move will not add a personnel unit to the school budget.

In addition, assistant band director David Holcomb's contract for next year was renewed, although, due to a technical error, the action was not recorded in the minutes of the meeting.

NEW INSURANCE APPROVED

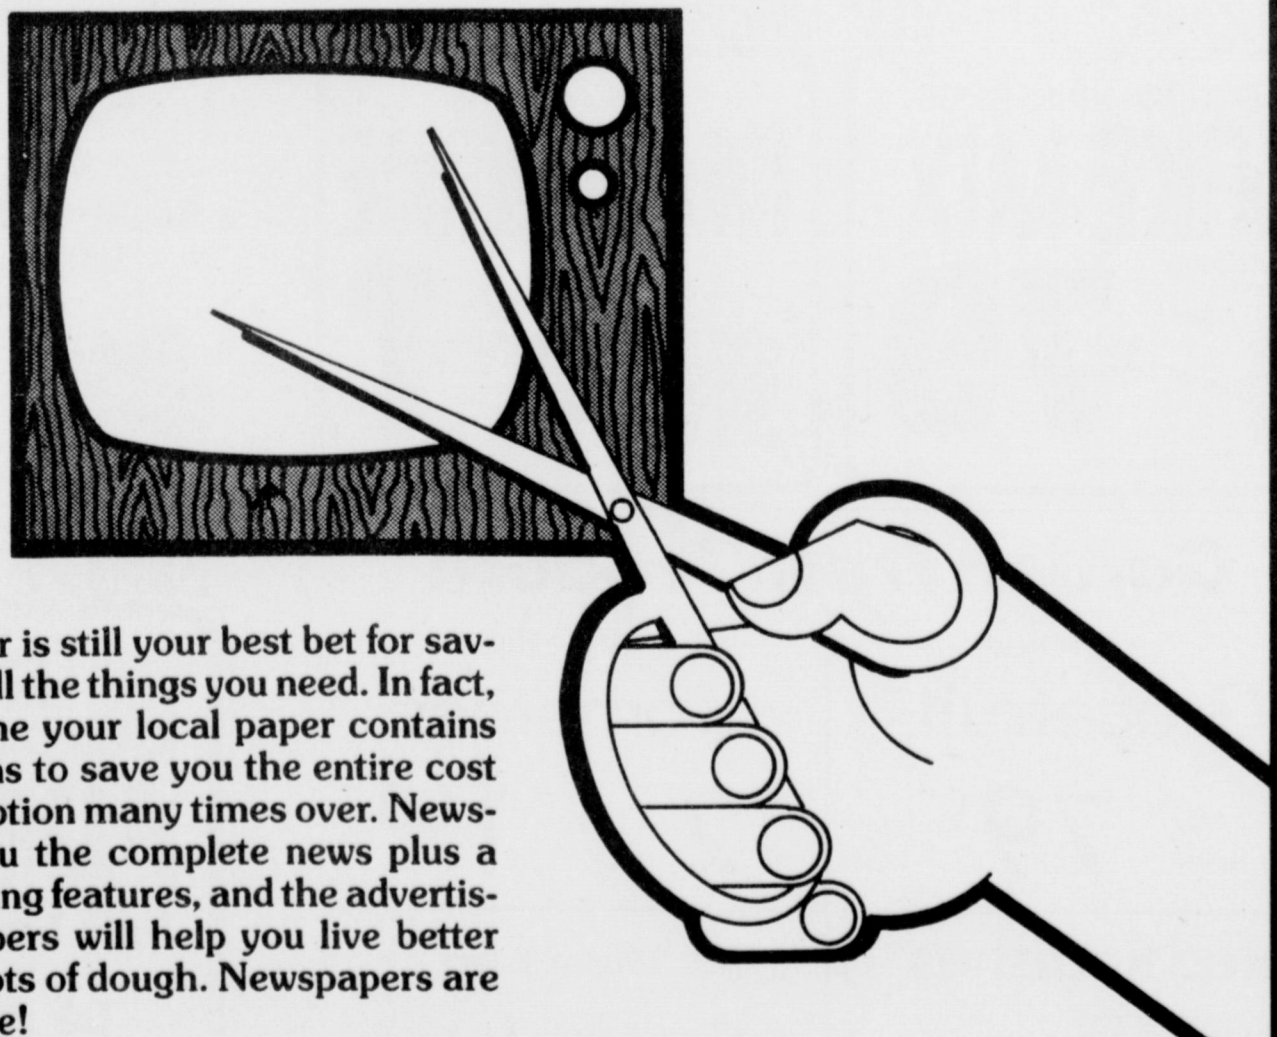

Trustees approved a new insurance coverage for next year from Tax Sheltered Investments at a considerably lower premium than Heritage Insurance, which has covered student and football insurance the past five years. For example, Tax Sheltered Investments' bid for football coverage was \$31.50 per player, while Heritage's bid was for \$59 per player.

In addition, trustees also approved an additional coverage from the U.I.L. entitled U.I.L. Catastrophe Medical Plan, which, at a cost of \$1 per athlete participating at Holliday, will cover claims over \$5,000, and liability claims and court costs. Cost to Holliday Schools will be approximately \$130.
