CHILI SUPPER PLANNED

FOR O.E.S. TUESDAY NIGHT To reverse things a bit, refreshments will be served before the meeting of the Iowa Park chapter,

meeting of the Iowa Park chapter, Order of the Eastern Star, next Tuesday night, Jan. 27. Beginning at 6:00, a chili supper will be served with Mrs. Robbie Smith in charge. Most folk like chili, but some refrain from eating it late in the evening, therefore it will be served before the meeting and it is hoped each and every member will come early, eat their fill and be ready for the meeting to begin at 7:30. Remember, chili will be ready by 6:00 and members are urged to be

that the Dallas shop windows carry ries for this coming spring, and pencil ekirts are The Thing. One ast fashion note-rhinestones are out. Throw yours away if style is that they made the most of their day away from mean little kids and dirty dishes

Mrs. Earle Denny presented a well planned talk on "Table Charm from Lawn to Dusk." Everyone enjoyed the pleasing manner in which it was delivered as well as Mrs. Denny's presence for the Eve-

dides of meetings held three years igo and through the Christmas party this past December. In every picture Claydene Bell had on the same purple sweater. Any contributlons to Claydene's wardrobe will be appreciated, and the rest of the members would prefer something with a little more color, if you

Co-hostess with Mrs. Mitchell vaa Mrs. Bryan Ferris. Mrs. Jerry Hunt, nee Helen Harbour, was a welcome guest from Chicago.

After refreshments were served the closing ritual was led by the president Mrs. Joe Chandler, With light hearts and new wrinkles from laughing, we said goodbye to Bobbye and turned toward home; this time without a guide.

Mombers present were Claydene Bell, Louise Berry, Raydean Brown, nan. Ferne Corder, Mary Guthrie, Annie Lee Hill, Bonnie Medlinger, Millared Mills, Bobbye Mitchell, Mary Mixon, Mauryne Overbey, Helen Roberts, Sue Sims, Noma Jo Clapp, Bernice Watson, Louise Clapp. June Crawford, Billie Mc-Cullough, Evelyn Ferris and Doris

Revival services will start next Fuesday evening, Jan. 27 at 7:30 in the Church of God, with Rev. J. M. Foshee, state evangelist, as preacher for the revival. Rev. Jack Gilbert, pastor, will assist.

Airman and Mrs. Bob Pennay of Fort Worth are announcing the birth of a son Thomas Robert, on Monday, Jan. 5. Mr. Pennay was stationed at Sheppard Air Force Base and Mrs. Pennay was employed at the Carroll Duke Insurance Agency while they lived here.

From where I sit ... by Joe Marsh

Pretty "Fovy" Terrier

Talking about dogs the other night-and Sandy Johnson topped everything off with a tall story about his fox terrier, "Boscum."

According to Sandy, "Comes bird season and that dog won't stir if I take down my rifle. Same if it's deer season and I go for my shotgun—he won't move, but he's scratching at the door if I so much as look at my rifle!"

One day, Sandy decided to fool him. He took down both his shotgun and his rifle - and swish, Boscum was on his way! So Sandy put the guns back and took out

his fishing rod. He went outside and there was Boscum-digging like crazy for worms!

From where I sit, a dog that can outguess humans is as rare as a human that can outgr other humans. For instar like a glass of beer with lun but I wouldn't think of pourir you one without first asking Everybody has preferences-and it's finding out what they are and respecting them that keeps freedom from "going to the dogs,"

A new type motor oil for the new cars

Your new car needs this new type oil

Prevents "4000-mile knock." Many 1952 and practically all the 1953 automobiles have high compression engines.

You've heard about these fine new engines.

You know, for example, that they require gasoline with extra anti-knock performance . . . a gasoline like Humble Now, Detroit's automotive engineers have discovered

that high compression engines need an entirely new type of motor oil. With conventional oils in the crankcase, the new engines have a tendency to ping, or knock, after four to eight thousand miles of driving.

This "4000-mile knock" is caused by combustion chamber deposits; these increase the compression ratio to a point where no commercial gasoline will give you anti-knock

Humble Esso Uniflo, an entirely new type motor oil, prevents the formation of deposits that cause "4000-mile knock" in high compression engines if you begin to use it regularly in the first 1000 miles of driving.

Protects against friction wear and acid corrosion. Second, the engineers discovered that friction is the chief cause of wear in automobile engines. Moving parts in the new engines are so carefully machined that they fit very closely. This gives you much better performance from your car, but it also requires superior lubrication. Heavy oils and oils that "thicken" in cold weather don't flow readily between such closely fitting parts. The result is excessive wear from friction, and expensive engine overhauls . . . To minimize friction wear . . . again you need Humble's new Esso Uniflo

Esso Uniflo has such an amazingly high viscosity index that it gives you the quick-flowing characteristics of an SAB 5W oil at 25° below zero Fahrenheit, and the tough, full body of an SAE 20 oil at 110° Fahrenheit.

Furthermore, the additives in Esso Uniflo are anti-acid -this new type oil cuts acid corrosion as much as 50%.

You Need Only One Grade of Humble Esso Unific You use it year 'round. Esso Unisto meets all the specifications for SAE viscosity classifications 5W, 10W. 20W and 20. It is a heavy duty, detergent oil, recommended for API service classifications ML (light duty). MM (medium duty), MS (severe duty) and DG (general diesel duty). Its viscosity index is amazingly high.

Premium Value - Premium Price

Humble Esso Uniflo costs something more than most motor oils. But you'll agree that the small extra costless than one-tenth of a cent for each mile of drivingis cheap insurance against "4000-mile knock," friction wear, and acid corrosion!

A Word to Owners of Older Automobiles

If you use an oil meeting SAE viscosity classifications up to 20-you will find it profitable to change to Humble's new type Esso Unifio. It will protect your car against friction wear and acid corrosion; reduce starting drag and extend battery life.

If your engine has just been rebuilt-change to Esso Unifio. It will prevent the deposits causing "4000-mile knock"; it will protect against wear from friction at corrosion, reduce starting drag and extend battery life.

If you use SAE 30 or SAE 40 oil-Humble continues to recommend Esso Extra Motor Oil No. 3, a high quality. heavy duty, detergent oil with a viscosity index second

only to that of Esso Uniflo.
