IOWA PARK LEADER ²⁵_{Cents}

Vol. 15, No. 17 IOWA PARK, WICHITA COUNTY, TEXAS 76367 THURSDAY, JANUARY 5, 1984

73-56

Hawkettes gun down Hirschi

Iowa Park's Hawkettes pulled out of a third-quarter slump Tuesday night and won their second Dist. 3-AAAA contest, 73-56 over Hirschi. But for the Hawks, their district

opener was a "character-builder" as Hirschi shot them down 76-47. Leading 34-26 at the half, the Hawkettes hit a cold spell early in the second half while the Lady Huskies

ran their fast break to perfection and tied the score at 34-34 only three and a half minutes into the third.

Beckie Whisnand broke the scoring ice for Iowa Park with 3:22 remaining in the third period to give the Hawkettes a 36-34 lead. And they never were pushed again.

Iowa Park had jumped out to a 20-9 lead by the first official rest stop.

As the second half started, the Hawkettes couldn't buy a basket, nor a rebound. Hirschi was kicking out the defensive rebounds to as many as three players fastbreaking down court. With seldom more than one defender, the Lady Huskies pretty well had their way through the first half of the third period.

Iowa Park built a 46-38 lead with 1:11 remaining in the period, which

ended 48-42.

Lisa Selby was hitting the basket well from outside and canned seven of 10 free shot attempts to lead Iowa Park with 15 points. Michelle Smith had 13 and Dana Trantham 12.

Iowa Park canned only 15 of 26 free shots while Hirschi sank 16 of 32. Each team was credited with 23 fouls.

In the boys' game, it was Hirschi all the way, leading 24-12 after the first quarter and 44-18 at the half.

Coach Earnie Reusch saw to it that his underclassmen got a lot of playing time, especially in the second half.

Senior Robert Harper and junior Stephen Biddy were the only Hawks finishing in double figures, scoring 15 and 12 points respectively.

BEAT WICHITA HIGH

In action Friday, the Hawkettes

handed Wichita Falls High's Lady Coyotes their only defeat in 13 games, with a 51-49 score.

After leading 28-25 at the half, the Hawkettes fell behind 35-39 in the third quarter, but a 16-10 final period pulled victory from the fire.

Lisa Holloway found the area under the basket to her liking and led the Hawkettes with 15 points, the only player in double figures.

The Lady Coyotes are coached by former IPHS football coach and athletic director, Grady Graves.

MORE DISTRICT GAMES

Iowa Park hosts Boswell Friday, with both junior varsity and varsity boys' and girls' games, starting at 3:30 p.m.

Tuesday they travel to Vernon and Jan. 13 host Gainesville.

paying issues which appear on each monthly agenda.

Trustees act on the superintendent's contract each January, other administrators and key personnel in February, and all teacher contracts are considered in March.

Four other topics are on the early agenda for the city council.

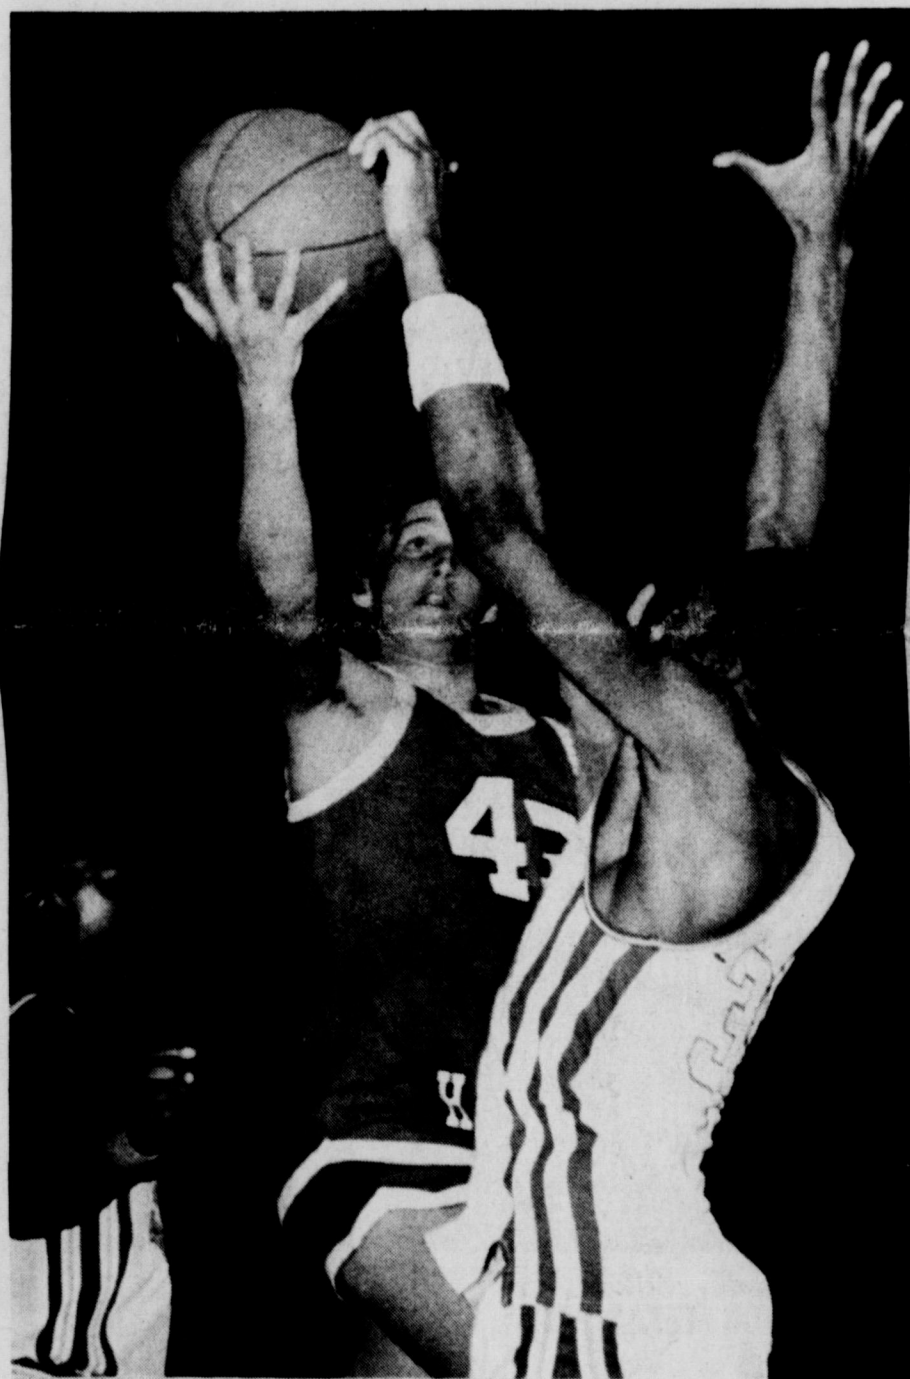

Back on the agenda is the topic of doors for the Recreational Activities Center. The double front doors do not conform to city fire codes, that exterior doors on public buildings are to open outward, which the RAC's do not.

Prices for converting the doors were considered too high at an earlier meeting, so the issue was tabled for later consideration while alternatives were sought.

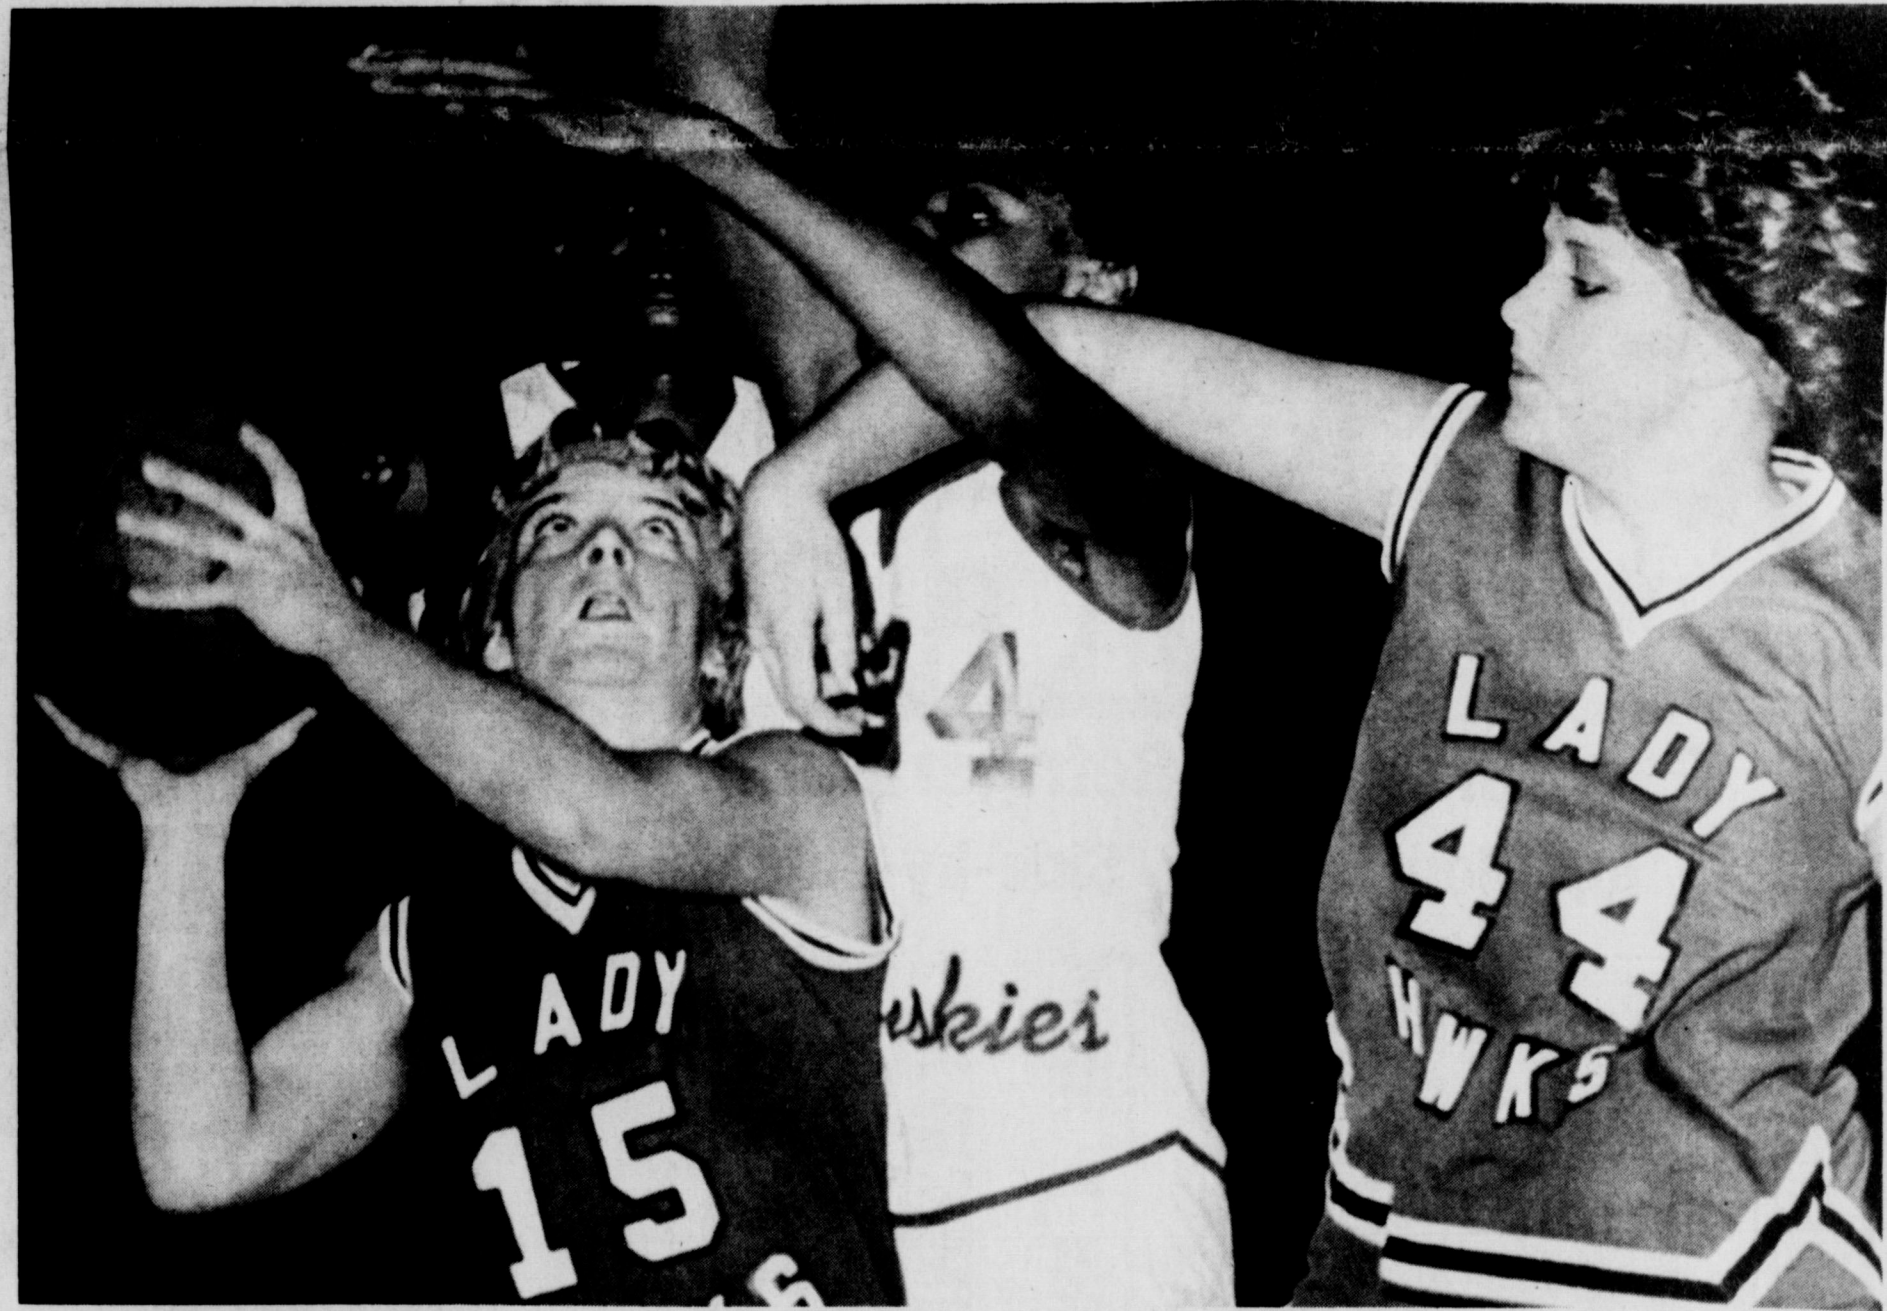

Barrington said some speed limit zone changes would be offered for consideration, primarily in school zones where by oversight in the past, signs were not posted for 20 MPH traffic.

Insurance for the city hall will also be considered. Barrington said he would point out the need to increase coverage of city hall now that a major renovation phase has been accomplished, and also to include coverage of the computer system installed last fall.

Additional funding for the fire department will also be discussed. Barrington said the volunteer department has already expended most of its budget for equipment maintenance, and that fund plus acquisition of new equipment needs to be considered by the council.

ROBERT HARPER SCORED 15 POINTS AGAINST HIRSCHI

LISA SELBY, LEFT, AIMS AT ONE OF HER FOUR GOALS AGAINST HIRSCHI, WHILE LISA HOLLOWAY GIVES WHATEVER HELP SHE CAN

Schools experience damage from frozen water pipes

Weather played some expensive tricks on the schools here, but it could have been worse and more expensive, according to Supt. Harold Cowley.

Damage from water after frozen pipes broke was found at the administration building, in the cosmetology laboratory and in the blue metal building at the junior high.

Additionally, despite the heaters going full blast, numerous tomato plants and one bench of flowers were killed in the school's horticulture class greenhouse.

Christmas night, a line break was discovered in the high school building that houses cosmetology, business machines and computer classes. Damage was described as light, primarily due to the all tile floor.

One of two central heaters failed to operate in the administration building, and an overhead waterline froze and burst. It was discovered Monday.

The four-year-old carpeting was thoroughly soaked, paneling in Cowley's office damaged and ceiling tile in the hall was knocked out in a small area.

While no records were damaged, Cowley said it was doubtful the carpet could be saved and will likely need to be replaced.

Frozen water pipes in the junior high blue building are common occurrence. Damage was said to be minor because the problem was discovered early.

Beginning Jan. 1, those persons who renew their driver license, qualify for their first license, or apply for a duplicate permit will receive licenses bearing new codes signifying class of license.

Colonel Jim Adams, director of the Texas Department of Public Safety, said the department is starting the conversion to a new classified driver licensing system in accordance with a law passed this year by the Texas Legislature.

"Licenses issued prior to 1984 will be valid until the expiration dates which appear on them," Adams said. "The new licenses will carry classifications designating the type and weight of vehicles which the holder may operate."

The new license classifications are "A", "B", "C" and "M".

The Class "C" license permits operation of single, two-axle vehicles with a gross weight of 24,000 pounds or less excluding motorcycles and mopeds. This designation also allows the towing of a vehicle not exceeding 10,000 pounds gross vehicle weight (GVW) or a farm trailer not exceeding 20,000 pounds GVW. In addition, the Class "C" designation permits the operation of a bus with a maximum seating capacity of 23 passengers not including the driver. Standard operator licenses issued under the old law will be converted automatically to Class "C" permits upon renewal or issuance of a duplicate license.

The Class "B" license allows the holder to drive all Class "C" vehicles plus single vehicles with a GVW exceeding 24,000 pounds and buses with a capacity of 24 or more

passengers. Motorcycles and mopeds are excluded.

Class "A" permits allow operation of any vehicle or combination of vehicles including those listed for classes "B" and "C". Mopeds and motorcycles are excluded. Commercial and full chauffeur licenses issued under the old statute will be converted automatically to Class "A" permits upon renewal or issuance of a duplicate license.

The Class "M" designation allows the holder to operate motorcycles, motor-driven cycles and mopeds.

The road test must be taken with a vehicle which meets the specific requirements of the license class for which the person is applying.

"All classes of licenses including renewals will be valid for four years," Adams said. "The fee for obtaining or renewing all license classes will be

\$10. An examination fee of five dollars will be charged for those drivers seeking a higher license classification or a motorcycle endorsement for their current license."

Drivers who have no moving violation convictions over a four-year period and who also have no physical limitations are eligible to renew their licenses by mail. To qualify for mail-in renewal, a driver must first receive a DPS form in the mail. This application should be mailed back to the department within one week after it is received. When the license is renewed, the driver will be sent a validation card which must be carried with the old license. A vision test and new photograph will not be required for mail-in renewals. Drivers who receive mail-in renewal forms may also visit a driver license office and

renew their licenses according to the standard procedure which will require them to be photographed and have their vision tested.

The fee for a provisional license is computed at \$2.50 per year until the driver's 18th birthday with a minimum fee of four dollars. The cost of a duplicate license is \$30.

One lone permit during December

Only one building permit was issued by city hall during December.

Malcolm Karstetter took out a permit to add a garage and brick the house at 1008 S. Colorado, amounting to \$9,000.

That raised the year's total building permits to \$1,132,526.

State changes design of drivers licenses

Baston, Stephenson vows are solemnized Friday in Wichita Falls

Mr. and Mrs. Paul Gregory Stephenson, who were married Friday evening at Our Lady Queen of Peace Catholic Church in Wichita Falls are on a honeymoon ski trip to Purgatory, Colo. The bride is the former Miss Wendy Sue Baston, daughter of Mr. and Mrs. Frank Baston of Iowa Park, and the groom is the son of Dr. and Mrs. Philip L. Stephenson of Wichita Falls.

Father Kevin Keith officiated the double-ring ceremony at an altar illuminated with cathedral candles burning in two seven-branched candelabra and two heart-shaped candelabra, all traced with fresh greenery studded with flowers in various shades of blue. The outer candles in the unity candlestick, a part of the nuptial decorations, were lighted by parents of the couple, who later prepared the bread and wine for the communion service.

The organ and piano music for the wedding was provided by Mrs. Robert Jorgenson, who played the prelude numbers and traditional marches on the organ, used the piano to accompany Mrs. Jan McDaniels of Nocona for her vocal renditions and for the music for the bride's attendants to take their places in the nuptial setting.

For the prelude music, Mrs. Jorgenson presented various selec-

tions from English organ music. Mrs. McDaniels sang "Truly" and "Theme from Ice Castles" for pre-nuptial numbers. Mothers of the couple were seated to the tune of "Love Is a Many Splendored Thing," and the bridal attendants entered to "Air" from Handel's "Water Music." During the service, the vocalist offered "Hawaiian Love Song" during the offertory and "Endless Love" and "Wedding Song" during the communion, and "The Lord's Prayer."

The bride's wedding gown was made by her mother in winter bridal fashion for dreams come true. Simple elegance was the dress designed of white bridal satin featuring a wedding ring neckline, sheer yoke bordered with appliqued lace, tight sleeves accented with pearl buttons and lace trim at the wrists, and fitted waist that dipped to a point in front. The skirt hem and chapel train were bordered with the appliqued lace to enhance the dignified look of the gown. She was escorted to the altar by her father who gave her in marriage for her parents.

The bride's lace-trimmed chapel length illusion veil with blusher was attached to a camelot cap of lace and pearls. She carried a cascade silk bouquet with a fairylike look that excited wonder. It was formed of miniature white exotic orchids, tiger

MRS. PAUL STEPHENSON

lilies, stephanotis, pale blue morning glories, forget me nots and Boston fern for greenery. She wore the garter that her mother wore at her wedding for the "somethings old, borrowed and blue" traditions and her gown for "something new."

The bridal attendants' dresses were also made by the bride's mother. Miss Janet Sue Stone of Houston participated in the wedding as maid of honor. She wore a floor length gown of royal blue crepe designed with fitted waist, long sleeves trimmed in delicate lace and A-line skirt. She wore a halo of small white roses and orange blossoms and carried a white fur muff touched with blue velvet and tiny forget me nots.

Mrs. Craig White of Denver, Colo. served as matron of honor. The bridesmaids were Mrs. Eddie Kieren Jr., sister of the bride, Mrs. Doug Fulfer, Mrs. Ricky Brown, all of Wichita Falls, and Mrs. Wayne Schroeder of Iowa Park. Their gowns, halos and muffs were identical to those of the maid of honor.

D'Ann Schroeder, the flower girl, was attired in a royal blue crepe frock designed with gathered front and back yokes trimmed in white lace threaded with blue ribbon, long sleeves and skirt. She wore a halo of white flowers and scattered petals from a white basket trimmed with blue ribbon and flowers.

Jonathan Kieren, nephew of the bride, carried the white satin ring pillow and wore a silver tuxedo modified for his age.

The groom wore an all-white tuxedo with tails, cummerbund and bow tie. He wore a boutonniere formed of white roses, blue carnations and baby's breath.

Dr. Stephenson served as best man for his son. Groomsman were Mike Dean of Cockeyville, Md., Bob Steed, Barry Stephenson, Scott Stephenson, Tim Cluley, all of Wichita Falls. The ushers were Doug Fulfer, Frank Baston Jr., Eddie Kieren Jr., Ricky Widenfeller, Ricky Brown and Louis Pastusek. The altar and candle boy was Douglas Berend. The male participants wore silver tuxedos and matching cummerbunds. The bride's father wore a silver vested tuxedo.

The bride's mother was attired in a sleeveless blue polyester long dress with modified A-line skirt accented with a scalloped edged medallion lace short jacket. Her corsage consisted of blue silk roses and miniature forget me nots, white and blue ribbon and blue chenille background.

The groom's mother wore a corsage of blue exotic orchids accented with ice blue ribbon with her royal blue chiffon gown defined with a V neck that plunged to a rosette, and A-line skirt. She complemented her gown by wearing long white gloves.

Mrs. Barry Stephenson presided at the registry table at the church and later at the reception. The table at the church was laid with white satin and attractively decorated with a brandy snifter banked with ice blue forget me nots and topped with miniature orchids, forget me nots and sheer ice blue ribbon. Inside the snifter were kissing angels standing on a cloud of crushed glass. Other appointments were a crystal cylinder lamp filled with blue oil, picture of the bride and groom, book and white plume pen.

Following the wedding, guests

went immediately to the Silver Square Room at Parker Square Bank for a reception hosted by the bride's parents where Mrs. Bob Steed the hostess, planned and designed every part of it.

When they arrived, they signed the wedding book with a white plume pen at a round table covered with white nylon cloth with ruffled skirt decorated with crystal candlesticks holding ice blue candles in a circular ring, a framed picture of the bride and groom and their wedding scrolls.

The bride's table, highlighted with the cake, held a wonderland of beauty. It was draped with white nylon featuring a ruffled skirt and an ice blue sheer cord around the top accented at the center and corners with cascades of blue exotic orchids, forget me nots and ribbon.

The heavily-draped white cake of three tiers was raised with tall cherub columns over a fountain splashing blue water and decorated with silk blue orchids, forget me nots and ribbon. The top was ornamented with a cross suspended from a crystal heart topped with love birds. From the top tier raised with Grecian pillars, ice blue ribbons dropped to five small cakes decorated like the large cake around the fountain.

The other table adornments included the silver punch service, twelve branched candelabra decorated in the florid style of the cake, royal blue napkins with silver roses imprinted with "And This Our Life Our Beginning" and names of the bride and groom and their wedding date. Refreshments were served by Mrs. Waylon Brown, Mrs. Terry Wirmel and Miss Holly Snook.

The groom's table was covered with a silver gray silk cloth headed with dark silver cording. The

chocolate cake in the shape of a football field depicted the football interest of the groom in decorations of a football, helmet lettered with "Paul and Wendy No. 1." The first place trophy that the Leathernecks, a team coached by the groom, won in the Toy Bowl, brass candelabra holding ice blue candles, ice blue napkins and trays of mints were other table decorations. Miss Pam Brown, Miss Katie Wallace and Miss Racheal Stephenson served at the table.

Other points of interest in the room included a table covered with blue velvet holding a bride and groom designed by Annie Lee, and the piano top appointed with a cylinder lamp in a ring of votive candles. Tables where guests were seated for refreshments were decorated with circles of blue chenille hearts.

The bride was graduated from Iowa Park High School and is a senior at Midwestern State Univ. The groom was graduated from Notre Dame High School and MSU. When they return from their Colorado trip, they will move to Denton where he will enter graduate school. The bride travelled in a two-piece white satin suit.

The groom's parents were hosts for the rehearsal dinner at the Wichita Club.

Mrs. Zora Baston of Golden, Colo., grandmother of the bride, Mrs. Helene Compton of Wichita Falls, Mr. and Mrs. Frank Houts of Alva, Okla. grandparents of the groom, were special wedding guests. Others from out-of-state, not previously mentioned, were Alan Stephenson of Claremore, Okla., Ronnie Estes of Del City, Okla., Mr. and Mrs. Bob Leeper of Norman, Okla., Craig White of Denver, Colo. and Craig Stephenson of Alva, Okla.

Shower fetes bride elect

A lingerie shower honoring Miss Kari Hamilton, bride-elect of Joe Tom Collins, was given recently in the home of Mrs. Jesse Flick. Assisting her with hostess duties were Miss Darla Flick and Mrs. Joe Rains.

CARD OF THANKS

How true it is that friends constitute one of earth's greatest treasures. We have certainly been made to appreciate our friends more since they have been so faithful in ministering to us during the death of our loved one. We cannot find words to express our appreciation for the love and concern shown for us through prayers, visits, flowers and food. Please know that we thank you from the depths of our hearts and pray God's blessings upon you.

The Family of Billy Gene House

Colors the honoree has chosen for her wedding were carried out in the decorations and refreshments. The serving table was draped with a burgundy cloth overlaid with white lace and the white sheet cake was accented with burgundy icing bells and "Best Wishes Kari & Joe Tom" written across the top in icing letters. Burgundy candles in silver holders and the crystal punch service completed the table setting.

The hostesses presented Miss Hamilton and her mother, Mrs. Bob Hamilton with corsages fashioned of burgundy silk roses, net and ribbon.

The honoree was assisted in opening her gifts by Mrs. Wayne Schroeder, her sister, who will be a matron of honor in her wedding.

The couple will exchange wedding vows at 7:30 Saturday evening at First Christian Church.

Lice expensive problem for cattlemen

By DAVID FINLEY
County Agent

It's the time of year when Wichita County's cattlemen need to put up their guard against a pest that annually pilfers pocketbooks to the tune of \$100-million nationally.

Lice are the culprits, and they begin to reproduce rapidly with the onset of cold weather. They will reach peak populations in late winter and early spring.

Ray Hicks, Iowa Park farmer-rancher, noted that lice will become a "seen" problem in about a month but are present now on his cattle. With recent bad weather, treatment has been delayed but in the near future, will be done.

Uncontrolled lice can soon infest a whole herd because with cold weather, cattle tend to bunch up more, and the pests can easily move from one animal to another. Heavy hair coats on animals during cold weather also afford protection for the parasites and allow increased

reproduction.

Costs to the cattlemen, both in control efforts and dramatic production losses, increase as lice populations build.

There are two types of lice - bloodsucking and biting - and both infest cattle. Sucking lice pierce the animal's skin and suck blood while biting lice feed on particles of hair, scale, scab, and skin discharges.

Lice infestations irritate animals, causing itching, scratching, and rubbing on fences or anything else available. This produces denuded areas, bruises, and lacerations on the affected animal. Heavily infested animals will have an unthrifty appearance and will suffer weight reduction, decreased milk production, and anemia.

Lice-infested animals may also be more subject to respiratory diseases such as pneumonia. Heavy lice infestations often stunt calves. Undernourished cattle of any age usually have the heaviest infestation.

Insecticide control of lice is not difficult to achieve but there are some problems. Most insecticides don't kill eggs; therefore, retreatment is required in two to three weeks to prevent another buildup. However, if the initial treatment comes late enough in the season, there may not be enough time for lice to build to economic levels again before warm spring weather.

Pour-ons labeled for lice are effective and considerably reduce the problem of cold stress associated with dips and sprays. Several pour-ons are available on the market. Among them are Warbex and Lysoff. Ray is using Lysoff this year. It contains Fenthion, which is an effective lice control chemical. It is mixed similarly to other pour-ons. That mixture is one

part chemical to eight parts water. With this solution, you use one fluid ounce per 100 pounds body weight. One can treat up to 288 head of 200 pound calves.

Use of nonsystemic dust applied by hand or in dustbags is used by a lot of cattlemen. But because of lack of penetration of heavy hair coats, dusts do not provide as effective lice control as dips or sprays.

The spot-on formulation of chlorpyrifos is a product that has been effective against lice. The product kills all stages of lice - eggs, nymphs, and adults. One application is adequate for season-long control if the entire herd is treated and no untreated animals are later introduced into the herd.

Only a small amount of chlorpyrifos is required, thus eliminating cold

stress from soaking animals with sprays and dips. The insecticide is not a grubicide, so it can be used anytime without fear of a host-parasite reaction. However, this product is not labeled for dairy animals, bulls over eight months, or purebred exotic breeds.

With these and all other chemicals, read and follow label directions closely.

A reminder from this newspaper and the Troopers of the Texas Department of Public Safety

UMW meets

Mrs. Charlie Lee, secretary of United Methodist Women, presided during a luncheon meeting held Tuesday at the church. She used Glenn Shelton's prayer, "A Prayer for Peace and Guidance in Our Time," to open the meeting.

Mrs. Lee presided during a brief business meeting when each business chairman gave a report. Mrs. Dave Springer asked for volunteers to work in the food bank each third Thursday.

Mrs. James Owens, program leader, brought the meditation, using for a theme "Leave Some Things Behind in the New Year," taken from Amy Bolding's book, "Fingertip Devotions."

Quoting the author, Mrs. Owens said that everyone must leave some things behind to have a happy new year, and that all should plan what they want to take with them. She gave seven things that people should definitely take with them, according to the author. These were: love for others, gratitude to God for his blessings; appreciation; forget the past and reach for better things; forget pain, grief and sorrow of failure; leave all bad habits behind; and make plans to serve God and to do for others.

The Mary Fellowship was responsible for table decorations done in January colors and designs. Twenty were present.

ACTIVITIES in Neighboring Communities

A seminar on personal development will be held 12:30-4:30 p.m. Jan. 12 at Sheppard AFB Officers Club ballroom. Sponsored by the Red River Chapter American Society of Military Comptrollers as a fund-raising project, Dr. Lerner Lloyd Howell will be the speaker. Enrollment is \$10 and reservations can be made by calling Ed Seyler, 851-6830 or Capt. Nancy Hornung, 851-6446.
