Seven Cross Plains Students Suspended For Spurning Flag

Seven students have been suspended from Cross Plains schools for the remainder of the 1942-43 term as a result of their refusal to salute the American flag, sing the Star Spangled Banner, or recite the oath of allegiance.

The expulsion order was issued at a special meeting of the board of trustees attended by parents of the students and several county officials. Parents of the children testified that saluting the flag was in conflict with their religious belief as members of the Jehovah Witnesses faith. Trustees instructed the parents to keep their children at home for the remainder of the school year unless they were willing to salute the flag, sing the national anthem, recite the oath of allegiance and otherwise join in all patriotic ceremonies.

Get Your Driver's License Before Nov. 1

In a last minute rush, 20,000 Texans a day are applying for drivers licenses, State Police Director Homer Garrison said today.

No old style licenses—the ones with two detachable segments—will be good after Nov. 1. The law provides that, unless the holders of these old licenses get their applications for renewal into the mail before midnight of Nov. 1, they will have to take an examination.

So many people have waited until near the deadline to file their application that "we are just about snowed under," Drivers License Chief J. B. Draper said. While the Drivers License Division is able to issue 10,000 renewals a day, it may be three or four weeks before late applicants get back their license.

Common Fire Hazard In Home

Marvin Hall, State Fire Insurance Commissioner, today predicted that Texas will suffer from increased fire dangers on the home front during the coming winter.

He fears the nationwide gasoline rationing, scheduled for late November will contribute indirectly to more fires at home.

"Because we will be stay-at-home folks this year instead of going out in the evening," he said, "a greater number of fire hazards may result because of our careless habits at home."

"A common fire hazard is frayed, broken or loose electric connections, wires, plug and appliances. If we are at home there will be more electric appliances in use, and more extension cords connected."

"By carefully checking all our electric connections, plugs and extensions we can eliminate many fire hazards now. This should be done today. Delay increases danger. Remove all extension cords from under rugs, chairs or other places where they can become damaged and create a short circuit that will start a fire. Don't take chances with make shift connections. The safest, cheapest and easiest method is to get a qualified electrician to make any necessary repairs."

"Carelessness in smoking and the use of matches is another common fire hazard at home. The day-to-day tragic record of deaths from burns caused by people going to sleep while smoking should make such a reminder needless."

"Our homes can be easily threatened by complete destruction, and the lives of our families endangered if we are careless enough to use matches as we prowl about closets, basements, attics or darkened rooms. Constant fire prevention will save the home front from its greatest enemy—fire."

Frank S. Roberts Announces For State Senator

Frank S. Roberts

Frank S. Roberts of Breckenridge today announced his candidacy for the Texas Senate from the 24th District to succeed John Lee Smith of Throckmorton, Democratic Nominee for Lieutenant-Governor, after Smith takes office in January.

Roberts, a member of the law firm of Roberts and O'Conner of Breckenridge is the son of a country doctor, worked his way through high school and college and taught school for a while. He said he is offering his services to the people as their Senator based upon public service experience. This dates back to the Spanish-American War, in which he served as a Rough Rider under Teddy Roosevelt.

As an appointee of Gov. W. Lee O'Daniel as a member of the State Board of Public Welfare, District Judge of the 22nd District while residing at Lockhart, director of the West Texas Chamber of Commerce, and delegate to the National Conventions in 1936 and 1940, both of which nominated President Franklin D. Roosevelt, Judge Roberts is known to many throughout this Senatorial District.

He bore the distinction of being one of the youngest in service in the Spanish-American War, the oldest man in the Officers' Training Camp at Leon Springs during World War 1, where Buford Jester, railroad commissioner nominee, was the youngest, and offered his services in the present war but could not be assigned because he was past 60. He served two and one-half years in World War 1, part of which was overseas.

He moved to Breckenridge following his discharge from service and there has served as President of the Breckenridge Chamber of Commerce, Commander of the American Legion Post and President of the Breckenridge Rotary Club.

In an interview at Breckenridge he said he felt he could serve effectively in the Senate during the war and in the after-war reconstruction for business and the returning soldier, in which he emphasized he feels the preservation of States' Rights will be of vital importance.

He added: "I have never supported any man whose honesty and loyalty to the common good was questioned. I am 100 per cent for President Roosevelt and his program for winning the war, and the last ounce of our energy, the last penny of our wealth, and the full man power of the Nation should be drafted to defeat the enemy and hasten our victory. I would give a 24 hour service of supply to our boys who are now fighting and dying on the battle fields of the World for our liberty."

Cleve Callaway In Senate Race

CLEVE CALLAWAY

Callahan county friends of Cleve Callaway of Cross Plains, say that he is Senatorial timber, capable of reasoning from cause to effect, reliable, courageous and honorable. Cleve Callaway is an overseas veteran of World War One whose loyalty in this terrible crisis can be depended upon.

Cleve Callaway makes the following statement himself: I agree with the President when he said that the American people are far more aroused to the seriousness of the present times, and far more willing to sacrifice than Congress. The people are more familiar with the crimes being committed by John L. Lewis hijacking henchman in the name of Union Labor, than Congress and her investigators are. The people have in every precinct representatives that can give them first hand knowledge along that line. You people are familiar with how production in this country, on the farm, in the oil fields on the ranches, and in the political, is being sabotaged by the political mugwumps selling our very life blood to the pressure groups, for what they think is political gain.

I think the time has come to elect leaders who are responsible, and willing to accept the responsibility at all times for the condition of their country. We have got to elect men with iron down their backs, honesty in their souls, and patriotism in their hearts. Men who will tell the people the unvarnished truth about what is being done in his department of government even if it peels the hide off of his or his friend's backs. That I intend to do if elected to the State Senate.

Self serving public officials with a pocket full of ismic remedies; such as giving every soldier one hundred and sixty acres of land and a jeep after the war, or as one suggested forty acres and a mare mule to raise mules from: are about as necessary as a broken leg.

Lets get wise to ourselves. I believe with our governor; that we have got to quit wasting money in this state government, and leave that money in productive channels, what the hungry maw of the war Machine does not need. This is a war of production, and it is up to us people to do it, but we cannot do it if we are hamstrung by political pandering to pressure groups and organizations. There are plenty of Kaisers and Higganesses in this country if the government gives them a chance.

Lets fortify with Cleve Callaway in the Senate.

Howard C. Davison Enters Senate Race

HOWARD C. DAVISON

Howard C. Davidson of Fisher County, former member of the Texas House of Representatives, and who retired in 1938, in announcing his candidacy for State Senator for the unexpired term for the 24th Senatorial District said:

"Winning the War and cooperation of the State with the National Administration to help carry out its foreign policies is of first importance; the preservation of States Right; and NO NEW TAXES, except for the maintenance of essential governmental functions; the removing of statutory restrictions prohibiting the payment of Old Age Assistance from revenues already provided for that purpose; the strict control of insecticide, cotton and other crop insect poisons manufactured within the State and sold to farmers in an adulterated condition and being of no value to him as a poison; and a continuation of the same precedent breaking policies of the office of State Senator as while a member of the 44th and 45th House of Representatives--of going out into the district while the Legislature is in session and giving the taxpayers and voters an opportunity to discuss the problems of State that are pending before the Legislature at the only time that it will be of any benefit to discuss them--while the Legislature is in session."

I Give You Texas

By BOYCE HOUSE

To the man who killed my dog: Cherry, the little bird dog, almost without a fault, was killed by some man Tuesday night of last week while she was in her own back yard.

A better dispositioned dog never lived. She loved everyone and never thought of man as an enemy. Children could roll over her, pull her ears play with her as they pleased, and only desire was to make them happy and be happy herself.

It might have been that she was licking the man's hand when killed her. At least she would have done so had he offered it, for she only thought of man as a friend. In the field, she would have hunted birds all day for this man if he had invited her. He could have taken his own good time going to her when she found them, for regardless of the delay, she would have kept them until he arrived. She would even have found his dead birds, brought them to him and placed them in his hand.

All she wanted in return was a little kindness--and that much she had learned to expect from all men, regardless of race, creed or color. Never once did she suspect that, when you called her to the fence (whoever you are), you were going to poke a gun in her face and fill her mouth and head full of shot. She only thought of a gun as something of joy, and the man behind it as the greatest friend in the world.

This little brown-eyed dog would have taken care of your babies (if you have babies) all day long, watching over them, romping with them giving them pure joy. Had you invited her, she would have asked nothing in return but the few scraps left from your table and the kindness of a human being.

Yes, that is the kind of a little dog you called to the fence in her own back yard and shot while she was unsuspecting--a little dog that I had refused \$300 for.

Man the next time you pick up a gun and look down its sights, I hope you will see a pair of soft brown eyes looking up into your face for kindness and expecting a pat on the head instead of a load of shot. The next time you go hunting and the birds get up in front of you I only hope you will see a little white and brown dog standing out there, rigid on point, her tail curled over her back, holding them for you,

as much as to say, "Here they are, boss, come on and get them when you are ready." And when your birds fall out in front, stand in your tracks and imagine a little dog making a dash for them, as much as to say, "Boss, you don't have to move; I'll bring them to you and place them in your hand or your game bag."

Yes, the next time you look down a gun barrel, see a pair of soft brown eyes that were as innocent and friendly as would be a baby's if it were holding out its chubby arms and asking to come to you--and then go ahead and pull the trigger.

Cherry (the little dog you called to the fence in her own back yard the yard in which she had been raised from puppyhood) was getting old. She didn't have many years ahead of her, but those years would have been filled with deeds of kindness to anyone who had been looking for such from a dumb animal, and yet could understand your wants and make hers known.

Whoever you are, you still have one spark of kindness that you should cultivate and let grow. You had the mercy to kill her instantly (even on grounds that were hers) instead of stooping so low as to use strychnine, which would have caused her hours, and maybe days, of suffering. For that much, you have my thanks.

It isn't probable that there is a future "happy hunting ground" for kind, little brown-eyed dogs like Cherry. But if there is, she is over there trying to get to go hunting, or romp with someone. If this is so, you need not look for her any more, man, for you are not going her way. (From E.A. Carlock's Paducah Post)

KEEP VALUABLE PAPERS

WHERE YOU CAN REACH THEM IN FIVE MINUTES
The coming year will be one of strain, uncertainty and confusion for everyone.

Don't add to these hazards by keeping valuable papers where they may be misplaced.

During times like these it's simply common sense to give them the protection of a safe deposit box. You have them at your finger tips the moment they're needed.

Notice to Subscribers To Baird Star

The coming of September brings our annual subscription campaign for NEW and RENEWAL Subscription.

We do not intend to raise our subscription price which is \$1.50 per year in Callahan County and \$2.00 per year outside of Callahan county and from now until January 1, 1943 will make our Annual Bargain Rate of \$1.00 in the county and \$1.50 outside the county for both new and renewals subscriptions.

Many weekly newspapers have raised their subscription rate to cope with the continued rise in prices of paper and other equipment necessary to publish a paper and The Star will be forced to discontinue the bargain rate on January 1, 1943. This will give our subscribers an opportunity to pay their subscription at our old bargain rate and we trust our subscribers will take advantage of this offer.

The Baird Star is the oldest newspaper in Callahan County, and one of the oldest in the State of Texas... we will celebrate our Fifty-Fifth Anniversary Dec. 8, 1942... and we have many subscribers on our list who have read The Star each week during this time.

It is our ambition and desire to give our readers a good weekly paper giving news from all parts of the county as much as possible.

We make this offer to subscribers who are in arrears two years, or more on Subscription: Pay \$2.50 and we will credit all past due on subscription and give credit for one year's subscription from date of expiration.

SPECIAL SUBSCRIPTION OFFER

We are making a special offer—Giving a coupon with each new, or renewal subscription paid. This coupon with 39 cents will give you an enlarged Velvo-Time Hand Colored Patriot in leatherette frame, postpaid. See Display in Star Office.

In by-gone years we have not been persistent in collecting on subscriptions—but now we have no choice in the matter and will be compelled to discontinue subscriptions not paid, and we hope that our subscribers will appreciate our position and pay up their subscriptions.

Thanking all of You, we are,

Sincerely yours,
THE BAIRD STAR,
Eliza Gilliland, Editor-Publisher

Drivers License... Teachers Examination Notice

In the future, there will be a Driver's License Examiner in Baird, once each week, rather than twice each month. The time has not been changed, but is still Thursday, from 9 A. M. until 4 P. M.

Anyone who wishes to obtain operator's license for the first time, commercial operator's license, chauffeur's license, or have commercial operator's or chauffeur's license renewed must see the examiner in person. Driver's license may be renewed in the Sheriff's office.

There has been some question about which operator's license should be renewed. Any license that has not been renewed since last October, 1941, must be renewed before November 1. If you have sent in your application since that time, October 1941, your license is good for two years from the date stamped on the license. All old license are yellow in color and the new ones are pale green and cream.

Our men need tanks, ships and guns. The steel for these must be made from 50% scrap metal. But the Nation's steel mills don't have enough scrap on hand to last even 30 days more! Keep 'em running. Help build up a huge scrap stockpile—the bigger the better.

Go down into your basement—your storeroom. Climb up to the attic too. Look at the unused stuff you're sure to find, and realize how important these odds and ends can be.

Important to a kid half way around the world. Important to a blue-clad gob—to a flyer, racing to reach the target before some knifing Messerschmitt can find its mark.

That old metal means steel for these men. And steel means armor plate for safety—weapons and ships for Victory.

Without it they'll die. They're not afraid of that—but it's better to give a life for a cause than to be sacrificed by thoughtlessness. And it's better yet to live, knowing that the folks back home didn't let them down.

And we won't let them down! Monday starts our big scrap collection drive—and you're going to help make it a good one. Don't let up because you see a full junk yard or a brimming salvage depot. That's the way they've got to be to make sure the mills won't run out!

YOUR NEGLECT WILL COST SOME BRAVE BOY'S LIFE!

Watch this paper for details of the big scrap drive and what you must do to help NEWSPAPERS' UNITED SCRAP METAL DRIVE This space contributed by The Baird Star.

**What You Buy With
WAR BONDS**

Gas masks which came into use in warfare for the first time when the Germans used poison and mustard gas in World War I, are much improved today over those used then. The Chemical Warfare Branch of the War Department issues these gas masks to every man in the service. We are taking no chances.

The type pictured here is the "can" and "elephant nose" mask and costs about \$9.25 each. The headgear is transparent, made of material resembling cellophane and does not cloud with the breath. You can buy two of these gas masks with the purchase of an \$18.75 War Bond. We need thousands of them. Don't fail to give at least ten percent of your income every pay day for War Bonds. Buy them at your bank or postoffice, regularly.

**Texas Cuts Local Debt \$19
Per Capita in Past Decade**

Texas has reduced its state and local debt \$19 per capita since 1932, while the corresponding debt of the entire United States has been decreased only \$3 per capita, according to a statistical analysis issued by James C. Tucker, partner of Barcus, Kindred & Company of Austin, municipal bond specialists.

Between 1932 and 1940, Texas' gross state and local debt declined from \$134 per capita to \$115 per capita, Mr. Tucker's figures show. During the same period, similar debt for the United States as a whole decreased from \$157 to \$154 per capita.

Thus Texas' debt reduction record was nearly seven times greater than that of the entire country. The figures were 14.77 and 2.3 per cent, respectively.

Are you entitled to wear a target label button?

You can ONLY if you are investing at least ten percent of your income in War Bonds to do your part on the home front toward winning the War.

The target label button is a badge of patriotism, a badge of honor. You should feel proud to display it. The buttons are obtainable at your plant management, at the office of your local War Bond chairman, or at your Payroll Savings Window where you authorize your ten percent payroll deductions.

Enlist in the ten percent War Bond army and do your part to win the War.

Men are dying for the Four Freedoms. The least we can do here at home is to buy War Bonds—10% for War Bonds, every pay day.
