IOWA PARK TX 76367 112

City's appeal accepted on grant

The city of Iowa Park won its appeal to be ranked for a share of block grant money it seeks from the Texas Department of Community Affairs (TDCA).

Seeking a matching \$100,000 to upgrade water lines in the east and south parts of town, the city first received a high ranking, which was next lowered because of a misunderstanding how the money would be used.

Administrator James Barrington wrote an appeal to the Nortex Regional Planning Commission, which had done the earlier rankings, explaining the money would be used for "improvement and expansion" rather than "replacement and repairs."

Correspondence from Tom Merritt, director of Physical Planning for Nortex, dated July 16 informed all applicants of the latest revision in rankings as result of Barrington's

appeal. Iowa Park now ranks fifth, in a tie with Newcastle, among municipalities seeking block grant money.

While Newcastle has the same score, 444, as Iowa Park, Barrington points out that Iowa Park is matching the grant money, which should put the city in good standing when the TDCA makes its final decision.

Actually, Iowa Park is requesting \$135,475 in grants. Newcastle has requested \$175,000, to be "matched" with FHA money, for "Complete renovation of the old water treatment plant to produce approved drinking water and thus eliminate an existing threat to the health and safety of the people of Newcastle."

Archer City has top ranking among the municipalities, seeking \$218,650 for sewer system improvements. Next is Quanah, \$170,100, for sanitary sewer improvements, followed by Holliday's request for

\$100,000 for its sewer system improvements.

Petrolia is in fourth place among ranked communities, seeking \$156,145 for water system improvements.

The top five communities are seeking \$955,470, but only \$935,526 has been allocated for this region. Actually, 11 communities have applied for block grants, amounting to \$2,016,126. But part of that total is a request for \$454,520 from Electra for "areawide revitalization program" which does not qualify for such funding.

Barrington said the TDCA might completely realign the rankings of municipalities, or it could cut back on each request, or even put the money out as far as it would go.

He said the TDCA would probably make a final decision on which cities would receive block grants by late August.

ON VAN HORN

Block to be repaved

The Iowa Park city council Monday night accepted the lowest of three bids to repave the 800 block of Van Horn.

A bid from McGrath Brothers, the same firm that has done all the other concrete paving in Iowa Park in recent years, submitted a bid of \$35,284. High bid was more than \$11,000 above the low bid.

Dates for the work to be done have not yet been set, but Administrator James Barrington said all residents of the block would be notified, when alternate parking arrangements were required.

The curb and gutter already in place will be retained, but the asphalt paving, which has cost the city many times over its original paving value to repair, will be replaced with concrete.

The only other bid accepted during the meeting was to sell an excess police car. Four bids were received, and the highest, \$390 from David

Bolin, was accepted. This was the second time bids were sought for the vehicle. The city did not receive a bid after it was first advertised.

Aldermen approved all three ordinances proposed for consideration.

They included abandonment of 20 feet of the East Lafayette right of way in the 300 block; changing the fee structure for electrical permits, and the third a corrective measure of an earlier approved ordinance in which a tract was identified as "Original Townsite" rather than "Texas Addition."

A resolution was approved, authorizing payment of \$7,292 for a change order on the library. Most of the change is to carpet the upstairs of the Burnett home, rather than using throw rugs.

Aldermen were told the money paying for the change order more than expends the original \$20,000 in

"seed money" pledged several years ago by the council to assist the Friends of the Library in its building program.

Another resolution approved concerns two change orders on the city hall renovation project. Aldermen agreed to the proposal to soundproof the wall between the city secretary and billing clerk's offices, as well as replacing the secretary's exterior door with a window, in the front part of the building.

The council agreed to table action on a resolution to demolish an historic building at 105 W. Park, deciding to wait until the next meeting to see if someone would purchase the structure and preserve it.

The building has been condemned as hazardous. Located on the east side of the former Discount Food Store that burned last year, it has been empty several years.

After being told of a new piece of electronic equipment that could be used for meter reading which could be plugged into the city computer for billing purposes, council members asked Barrington to have more information on the equipment, as well as costs, at the next meeting for consideration.

The council also told Barrington it would like to hold a public hearing at the Aug. 12 meeting on a proposal to close East Valley Drive, the unpaved portion, to traffic.

Barrington told the council that if that area could be closed to traffic, it could be worked to carry water from the residential area more effectively, improving a flooding situation that often arises.

Aldermen also said they had no objections to a proposal that the police department's blessings be used for a "public service" booklet to be produced and advertising sold to finance it. Chief Bob Dean said the company would pay his department \$750 for the privilege, and the booklet would probably be on the subject of drug abuse.

IOWA PARK LEADER

25 Cents

Vol. 16, No. 45 IOWA PARK, WICHITA COUNTY, TEXAS 76367 THURSDAY, JULY 25, 1985

HOT BLAZE FOR FIREMEN - As if the temperature wasn't hot enough Friday afternoon, Iowa Park firemen had to use their bunker gear and air packs to fight a fire near Wichita Falls. Bob Evans is shown unloading his gear after taking his turn at the blaze. First thought to be toxic, firemen learned after the first of two hours of work that the

material, tape used to seal concrete cracks before being overlaid by asphalt paving, was harmless. Several other volunteer departments, as well as representatives from the Wichita Falls department assisted in the battle at Timmins-Anderson Corp.

GOOD EFFORT - Mrs. Lloyd Lowe may not show the best in bowling form, but she still made a good effort and appeared to enjoy herself, while joining others from The Friendly Door on an outing Friday to Wichita Falls. Unable to grip the ball with her right hand, as result of a stroke a few years ago, she uses the "two-hand delivery" with good results.

Street repair project slated; residents urged to cooperate

The most significant street improvement project to be carried out in Iowa Park in several years is

expected to get underway Tuesday, according to Mike Price, public works supervisor.

Persons residing on the streets to be worked are asked not to park on the streets the entire week, so work will not be hindered. Delays caused by someone parking on the streets when workers are ready to move there can be expensive, Price said.

- Streets to be seal coated include:
- Smith from Jackson west to city limits;
 - 100 block of West Lafayette;
 - 100-400 blocks East Lafayette;
 - 100-400 blocks East Pecan;
 - 100-300 blocks West Emerald;
 - 100-200 blocks East Emerald;
 - 500-900 blocks South Jackson;
 - 100-300 blocks West Diamond;
 - 100-400 blocks East Diamond;
 - 100-400 blocks North Penn;
 - 1500-1900 Johnson Road;
 - All of Wagonwheel;
 - All of Yucca;
 - All of Surrey;
 - 400-1000 blocks East Bank;
 - 400-1000 blocks East Washington;
 - 100 block South Atlantic;
 - 100-400 blocks North Atlantic;
 - 100-300 blocks West Jefferson; and
 - 100-400 blocks West Poe.

The streets named have been determined to be those most in need of seal coating, which will include an application of oil base tack and cover of rock chips.

Work will be done through a cooperative agreement with Wichita County. Commissioner Gordon Griffith has agreed to use county equipment and his trained personnel, with the city standing the cost for materials and all costs to the county.

Originally agreed about mid 1984, first work was to have been done last fall. However, county equipment was not available until weather turned cold, so the project was postponed.

Paper's telephone malfunctioned

To those who attempted to contact the Leader office by telephone Wednesday afternoon, and couldn't, we apologize.

The paper's telephone went dead shortly after the noon hour and was not repaired until later in the day.

Street dance set Saturday night

Iowa Park Volunteer Fire Department will hold its annual street dance from 8 p.m. until midnight Saturday in the 100 block of West Cash.

Free to the public, music for dancing will be provided by Jimmy

Via and the Country Pride.

Concession stands will be available.

Money from this year's event will be used to replace hand-held radios volunteers use to be notified when they are being called to an emergency.

Benefit ball game Friday night

A benefit softball game tomorrow night is expected to attract a lot of fans, those wanting to see the activity as well as those wanting to make loud comments about the playing.

The slow pitch event will begin at 8 p.m. at Burnett Field, and the opposing teams will be members of the Alumni Athletic Association and

one composed of firemen and policemen.

Proceeds from the concession stand and donations will go toward funding the Alumni Athletic Association's Bertha McDonald Scholarship.

It has been mutually agreed that both teams will have the same number of men and women playing at all times.

Two arrests are reported

Police arrested two persons during the past week, one on a warrant from Kerrville, and the other for possession of marijuana.

Acting on a warrant from the Kerrville Sheriff's Office, officers Wednesday of last week took into custody William Lee Rumisek, 19, 105 W. Aldine, for revocation of probation on a charge of burglary of a building. He was released to Wichita County Sheriff's Office.

Police arrested Pamela Wynn Schraeder, 28, in the 200 block of East Highway at 2:24 a.m. Saturday, charging her with public intoxication and possession of less than two ounces of marijuana.

She was taken later that morning before Justice of the Peace Virgil Hill,

where a \$5,000 bond was placed on her. Prior to transporting her to the county jail, she posted a \$49 bond on the public intoxication charge.

Two burglaries and a theft were also reported to police.

Mrs. E.U. Frazier, 301 W. Crystal, told police Friday morning someone had removed her husband's billfold from his pants he had left hanging on a chair overnight.

Sometime between 8 and 9:15 p.m. Sunday, someone reportedly took approximately \$60 in coins from a soft drink machine at Carl Davis' laundrymat at 309 W. Bank. There was no sign of forced entry into the machine, according to the police blotter.

Mary Frazier last week reported four hub caps had been stolen.

Galyean, Jones nuptial vows exchanged Saturday

The altar decorations planned and set up at Faith Baptist Church in Wichita Falls for the Saturday evening wedding of Miss Patricia Ann Galyean and Chris Edward Jones presented beauty in a most impressive fashion.

Attention was immediately drawn to an arch with a bush of jade leaves at its base where the couple stood to recite their vows. Entwined with sprengeri and jade leaves, it was accented on the groom's side with a large cluster of white gladioli, white, purple and orchid daisies and white ribbon streamers, and a smaller cluster on the bride's side. The greenery on the arch was interspersed with flowers in the clusters. White tapers uplifted in seven-branched candelabra trimmed with greenery to match that on the arch shed soft illumination over the setting.

Two arrangements of white gladioli, purple and orchid daisies, baby's breath on pedestals banked with fern completed the design of altar decorations. The church pews were marked with sprengeri, white gladioli, purple and orchid daisies.

The double-ring ceremony was officiated by Rev. Terry Hitt, a Baptist minister, to unite the daughter of Mrs. Dottie D. Galyean of Wichita Falls, and the son of Mr. and Mrs. Joe E. Jones of Iowa Park.

The music for the wedding was furnished by Marsha Brown, pianist, and Mike Linder, vocalist, who sang "Love Is Commitment" before and "The Lord's Prayer" during the ceremony.

The bride was escorted and presented in marriage by her brother, Mickey Galyean. She chose a lovely gown of white organza embellished with Chantilly lace and seed pearls, especially suited for a summer wedding.

MRS. CHRIS EDWARD JONES

The gown was designed to capture the moment and flatter the bride in every way with a fitted bodice, a scoop neckline bordered in a deep lace ruffle that dipped in front. The lace was repeated in appliques and ruffles on the puffy, push-up sleeves. The

double-flounced skirt featured an attached train of chapel length.

The bride's two-tiered illusion veil fell to fingertip length from a bandeau headpiece covered with baby's breath. A perfect complement to the costume was the cascade bouquet of fresh white roses, ivy leaves and baby's breath with white ribbon steamers that she carried.

Mrs. Kenny Humpert participated in the wedding as matron of honor. She wore a perfect rose-colored gown of iridescent taffeta fashioned with a fitted bodice, scoop neckline encircled with a puffed drape, and A-line skirt. She wore a cluster of baby's breath in her hair, and carried a bouquet of fresh light and dark purple daisies, two-toned orchid carnations with cascades of orchid ribbons.

The bridesmaids, dressed identically like the matron of honor and wearing the same hair ornamentation, were Mrs. Stan Kimbell of Barneyville, Okla. and Miss Mary Kay Migl of Victoria. They carried bouquets consisting of orchid and purple daisies and baby's breath with white streamers.

The groom and the men who participated in the wedding wore black tuxedos with matching cummerbunds and bow ties and white shirts. The groom wore a boutonniere of a white rose, baby's breath and an ivy leaf. He was attended by Matthew Jones, his brother, as best man, Ray Emils and Dennis Dillard, the groomsmen, all of Wichita Falls. The ushers were Bob Galyean of Arlington and David Galyean of Birmingham, Ala., the bride's brothers.

The bride's mother wore a dusty rose chiffon tea length dress and the groom's mother wore a mauve voile tea length dress. Each wore a white ajaphet orchid for a complimentary touch.

The newlyweds, now on a wedding trip to Hawaii, will live in Wichita Falls when they return. The bride was graduated from Rider High School and the groom was graduated from Iowa Park High School. Both were graduated from Texas A&M Univ. She is employed by Hupp Thompson Co. and he is employed by Texaco.

The bride's mother was hostess for the wedding reception held in the Fellowship Hall of the church. She was assisted by Mrs. Mickey Galyean, who presided at the guest book, Mrs. Terry Hitt, Mrs. Dennis Schabram and Tracy Travis, who served refreshments.

The wedding book and white plume pen were placed on a table covered with a white draped taffeta cloth headed with a circle of grape ivy. The highlight of the table decorations was one of the couple's wedding gifts from Mrs. R.R. Dillard, a china vase hand-painted with roses in the bride's chosen colors, names of the couple and their wedding date. The vase held a bouquet of pom pon chrysanthemums and English ivy.

The refreshment table was draped with a white taffeta cloth which caught attention with garlands of grape ivy and large white lace bows

at each corner and in the center around the top.

The style of decorations featured a silver candelabrum centerpiece supporting an arrangement of white gladioli, mums, carnations, mauve pom pons and greenery, and white candles, a silver punch bowl, silver dish of pink double-wedding bell-shaped mints, white napkins marked with wedding bells and the names of the bride and groom and their wedding date, and the cake.

The flowery style of the three-tiered cake and the top made it appear like the magic of fairy tales. Only ingenuity and talent could have created such a perfect picture by using gum paste roses, bridal trumpets, petunias, forget me nots and stephanotis in the bride's colors.

The groom's parents hosted a dinner at Frontier Steak House in connection with rehearsal for the wedding.

Mrs. Mabel Jacobs of Ada, Okla., the groom's grandmother, was a special wedding guest. Others from out-of-town included Mrs. Sue Pipkin, Mr. and Mrs. Steve Pipkin from Corsicana, Mr. and Mrs. Kenneth and Ralph Cummings, Oklahoma City, Col. and Mrs. Maynard C. Hamilton, San Antonio.

Sorority fetes couple moving

Mr. and Mrs. Darrell Gunderson were honored at a buffet dinner served on the patio at the home of Mr. and Mrs. Luther Shaw Tuesday evening. Members of Epsilon Eta chapter of Epsilon Sigma Alpha were the hostesses.

Mrs. Gunderson, a six-year member of the chapter, and her husband will be moving to South Carolina in the near future. They were presented with a cake and a pair of ceramic ducks as farewell gifts.

Following the meal, games and swimming provided entertainment. Others present were Mrs. Bud Mercer; Messrs. and Mmes. David Parkey, Al Denton, Roy Johnson, Lonnie Fischer, Ronnie Berry and Marvin Robertson. Guests were Jeff Shaw and Mr. and Mrs. Bill Hrcirik of Wichita Falls.

Gossett explains plant expansions

Frank Gossett, manager of the Cryovac plant in Iowa Park, gave a talk and showed slides depicting the growth of the plant since it was built in 1975 for the Evening Lions Tuesday.

He said that the original plant had 150 employees and that the number had tripled with a pay roll of over \$10-million annually in 1985. He discussed the expansions in 1977, 1980, 1982, 1984, and the work that is being done at the present time.

COMPLETES TRAINING - Jonathan Neal Womble has completed basic and technical training after having enlisted Mar. 5 in the Army. After a few days furlough here next week, he will take his wife, Carolyn, and their son, Clifford, to his next station, Ft. Raily, Kan.

Downing assigned to Sheppard AFB

Airman David L. Downing, son of James H. and Wanda L. Downing of Wichita Falls, has been assigned to Sheppard Air Force Base, after completing Air Force basic training. During the six weeks at Lackland Air Force Base, the airman studied the Air Force mission, organization and customs and received special training in human relations. In addition, airmen who complete basic training earn credits toward an associate degree through the Community College of the Air Force. The airman will now receive specialized instruction in the aircraft maintenance field. His wife, Kathryn, is the daughter of Elgin T. and the late Thelma M. Pressler of 1202 Emma, Iowa Park. He is a 1979 graduate of Frankfort American High School, West Germany.

Cook of the Week

What makes us eat the way we do? Several factors contribute to the final answer. The way our parents shape our eating habits, the way our mothers and grandmothers cooked, for example. Mrs. W.W. Wright, the cook for this week, acknowledges her mother's influence in shaping her eating habits, and she shares her mother's recipes for Chess Pies with the readers today.

Of course, the ability to buy particular foods helps to determine people's eating habits, and certain religious observances, psychological and social influences help shape the food choices of some people.

In the 20th century, time is a crucial element that dictates the eating habits of some people, with most families having two working parents. This doesn't mean, however, that the majority of households in this country are suffering from bad eating habits because advanced technology and simple recipes have given cooks the upper hand.

Mrs. Wright's recipes today certainly indicate that she has prepared, and still prepares, well-balanced meals. She probably has shaped the eating habits of her family members and their families.

The former Katie Mann of Palo Pinto County, she and her husband who died in 1983, moved to this area in 1938 and into Iowa Park in 1969. She is co-owner with her son, Stanley Wright, in the W&W Welding and Machine business. She has another son, Douglas of Abilene, a daughter, Mrs. Ray McAlister of Wichita, Kansas, six grandchildren, and one great-grandchild.

Mrs. Wright is a member of the Tenth & Broad Church of Christ in Wichita Falls, and her main hobby is sewing.

Mrs. W.W. Wright

MOTHER'S CHESS PIES

- 3 eggs (slightly beaten)
- 3 cups sugar
- 1 cup butter
- 1 1/2 cups sweet milk
- 6 level tablespoons corn meal
- 2 teaspoons vanilla

Mix ingredients in order given. Pour into 2-eight inch unbaked pie shells. Bake at 350 degrees until set.

LAZY DAISY CAKE

- 2 eggs
- 1 cup flour
- 1 cup sugar
- 1 tsp. baking powder
- 1/2 cup boiling milk
- 3 tablespoons butter

Mix dry ingredients; bring milk and butter to boil and pour over dry ingredients; add eggs, mix well and pour into 9x9 pan. Bake at 350 degrees until firm.

TOPPING

- 1 cup brown sugar
- 3 tablespoons cream
- 4 tablespoons butter
- 1/2 cup coconut
- 1/2 cup nuts

Mix first three ingredients in saucepan, bring to a boil, then add coconut and nuts. Pour over cake and bake until brown. Cool in pan and cut in squares.

GOLDEN GLOW SALAD

- 1 pkg. orange jello
- 1 can crushed pineapple, drained
- 1 cup grated carrots

Mix jello according to directions, using the juice drained from pineapple as part of liquid. When partly set, stir in pineapple and carrots; pour in mold. Serve on lettuce with mayonnaise.

TUNA CASSEROLE

- 1 small pkg. egg noodles (cooked)
- 1 can tuna (flaked)
- 1 small onion, chopped
- 1 can cream of mushroom soup
- 1 tablespoon chopped pimientos
- Salt and pepper to taste

Mix all ingredients, pour in casserole and bake 45 minutes at 350 degrees.

CHICKEN AND RICE CASSEROLE

- 2 cups raw rice
- 2 cans cream of mushroom soup
- 1 cup chopped celery
- 1 pkg. Lipton's Onion Soup
- 2 chicken bouillon cubes, crumbled
- 1 small jar pimientos
- 3 cups water

1 fryer, cut in serving-size pieces. Mix all ingredients except fryer and pour in 9x13x2 pan. Lay chicken skin side up on mixture. Cover with foil and bake at 350 degrees 45 minutes. Remove foil and bake 15 minutes longer.

Grimes family reunion held

Mr. and Mrs. Harold Bartow hosted the Grimes family reunion Saturday and Sunday. Forty-two family members were served Saturday at a buffet supper held on the patio, and 61 were served Sunday.

Those attending from Dallas included: Mr. and Mrs. L.E. Billings, Jean Ballard, John Billings, Mr. and Mrs. Bobby Billings, Beth, Brenda and Belinda, John Travis. Those who

came from Vernon were Leah and Larry Dodson, Messrs. and Mmes. Clarence Grimes, Alben Lee, Chris and Jonathan, Gamble McCarthy and Sharon, L.C. Quisenberry and David Quisenberry.

Guests from Decatur were Alma Sharp, Mr. and Mrs. Paul Standley, Lela Standley and Pearl Pitts. Those attending the reunion from Northside were Mr. and Mrs. C.L. Brooks, Debbie, Darla, Deanna and Dianne.

Coming from Sydney were Mr. and Mrs. Joe Reno and Brandie Joe, Amy, Bobby Blankenship and Dameron Reno.

Others who attended the reunion were Reny Young from Chillicothe, Mr. and Mrs. Jay Standley from Ft. Worth, Gail Hale from Tyler, Linda Hopkins from Oklaunion, Bereatha Mae Johnson and Mr. and Mrs. Jimmy Blankenship and Nechole from Wichita Falls, Mr. and Mrs. Gary Dipprey, Misty, Shay and Lynn from Kamay; Bernice Rushing and Jeffrey Bartow, Iowa Park.

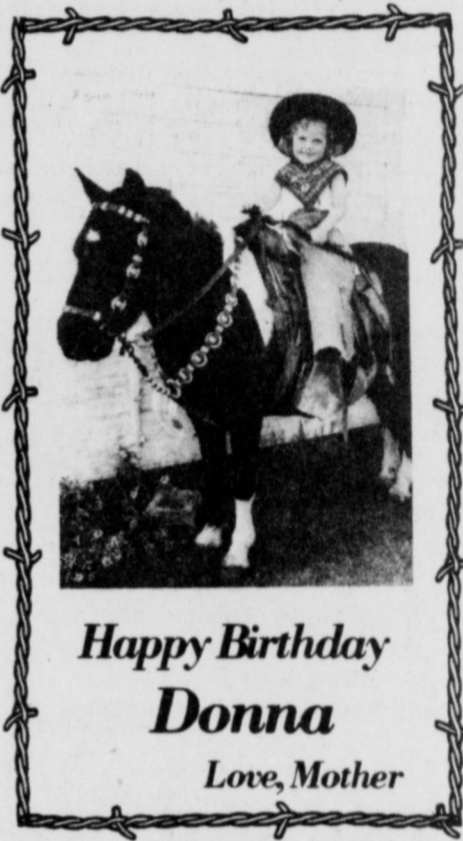

Trio recognized at A&M for grades

Three Iowa Park students attending Texas A&M Univ. were recognized for their grades during the spring semester, the school announced this week.

Rose Soell, senior animal science major, was named to the Dean's Honor Roll, while Robert C. Hausler II, junior civil engineering major, and Carla K. Wolf, senior educational curriculum and instruction major, were named "Distinguished Students."

Recipients of the Dean's Honor Roll must be registered for 15 semester hours and earn at least a 3.75 grade point ratio, out of a possible 4.0 during the most recent grading period.

"Distinguished Students" must be registered in the same semester hours, and earn at least a 3.25 grade point.

As I See It....

By BOB HAMILTON

Public schools are set to open in just a little over four weeks, and each Texas school district must have its budgets prepared about the same time. . . so it's temper, confusion, worry and hurry time.

What's all the problem, you ask? You are aware PL 72 went into effect a year ago, are you? Why should there be any confusion?

To make a long story short, school districts just this week (at least here) got their formula to determine how much state money will be received, so the local districts can figure their budgets.

Interpretations are just being received on such things as when and how long kindergarten students are to attend class, and not all the answers are readily available that are being asked.

And to fluster the tempers of school administrators and school board members even further, the governor and some of his hatchetmen are pointing accusing fingers. So it's name-calling time.

Let me give you an example of the latter statement.

A couple of weeks ago, lieutenant governor bill hobby (I failed to capitalize his name just to show my lack of respect) was in Brownwood, where he remarked that had school boards and administrators done their jobs over the years, House Bill 72 would not have been necessary. The quotation is from the Brownwood Bulletin.

Right away, that got Brownwood's board president, Tommy Butler, and Jim Lancaster, superintendent, on their hind legs because they figure if hobby made the statement in their town, it included them.

Former state representative Ben Sudderth of Blanket felt so impressed with hobby's comments that he took out a full page ad in the Bulletin, stating if hobby had done his job, "it would not have been necessary: (1) to pass a Five Billion Dollar tax bill in the Summer of 1984; (2) pass a Nine Hundred Million Dollar tax in the Spring of 1985 (Two Hundred

Seventy Five Million of which was put on college students); (3) for disorder and killings to become a regular occurrence in our prison system; (4) for literally hundreds of millions of dollars to have been wasted in Court litigation over our prison system; (5) or Lt. Governor Hobby's apartment in our State Capitol to have burned."

Unless I miss my guess, the public isn't going to forget those who voted for HB 72 and its tremendous, snowballing tax bill, when the next election is held. I believe those in the education business are going to help us be reminded.

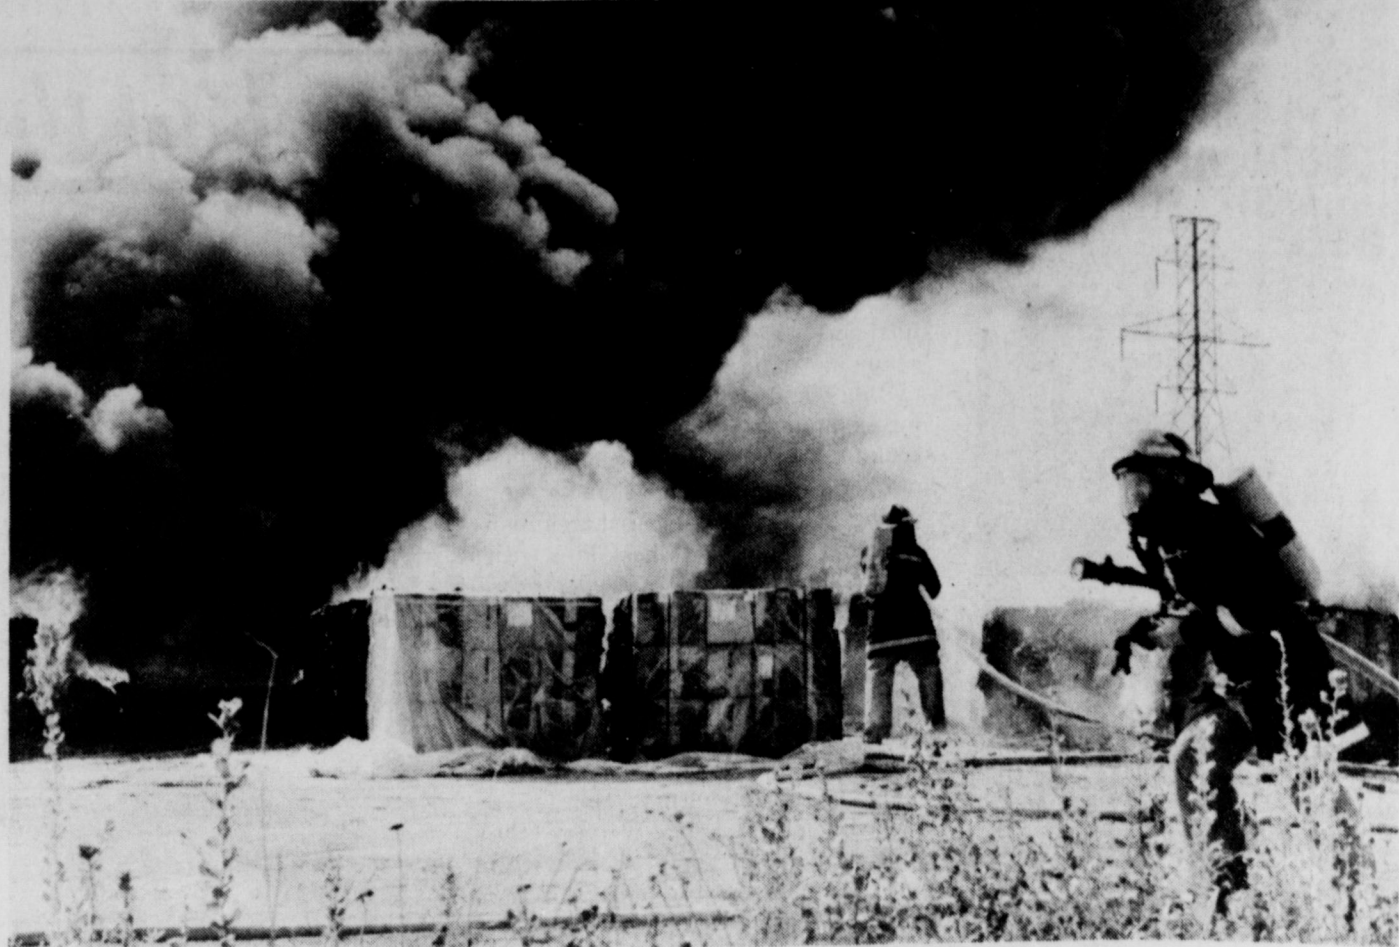

With that in mind, I'm wondering how safe Sen. Ray Farabee is, or if he will seek something other than a state office next time.

The Wichita Falls Democrat was a major supporter of HB 72, you might recall.

Also, I noted Orin Brewer's column in the Vernon paper recently, which pointed Farabee as being "one of the most prolific lawmakers in Texas history, carrying and passing into law some 70 measures per sessions the past two legislative sessions."

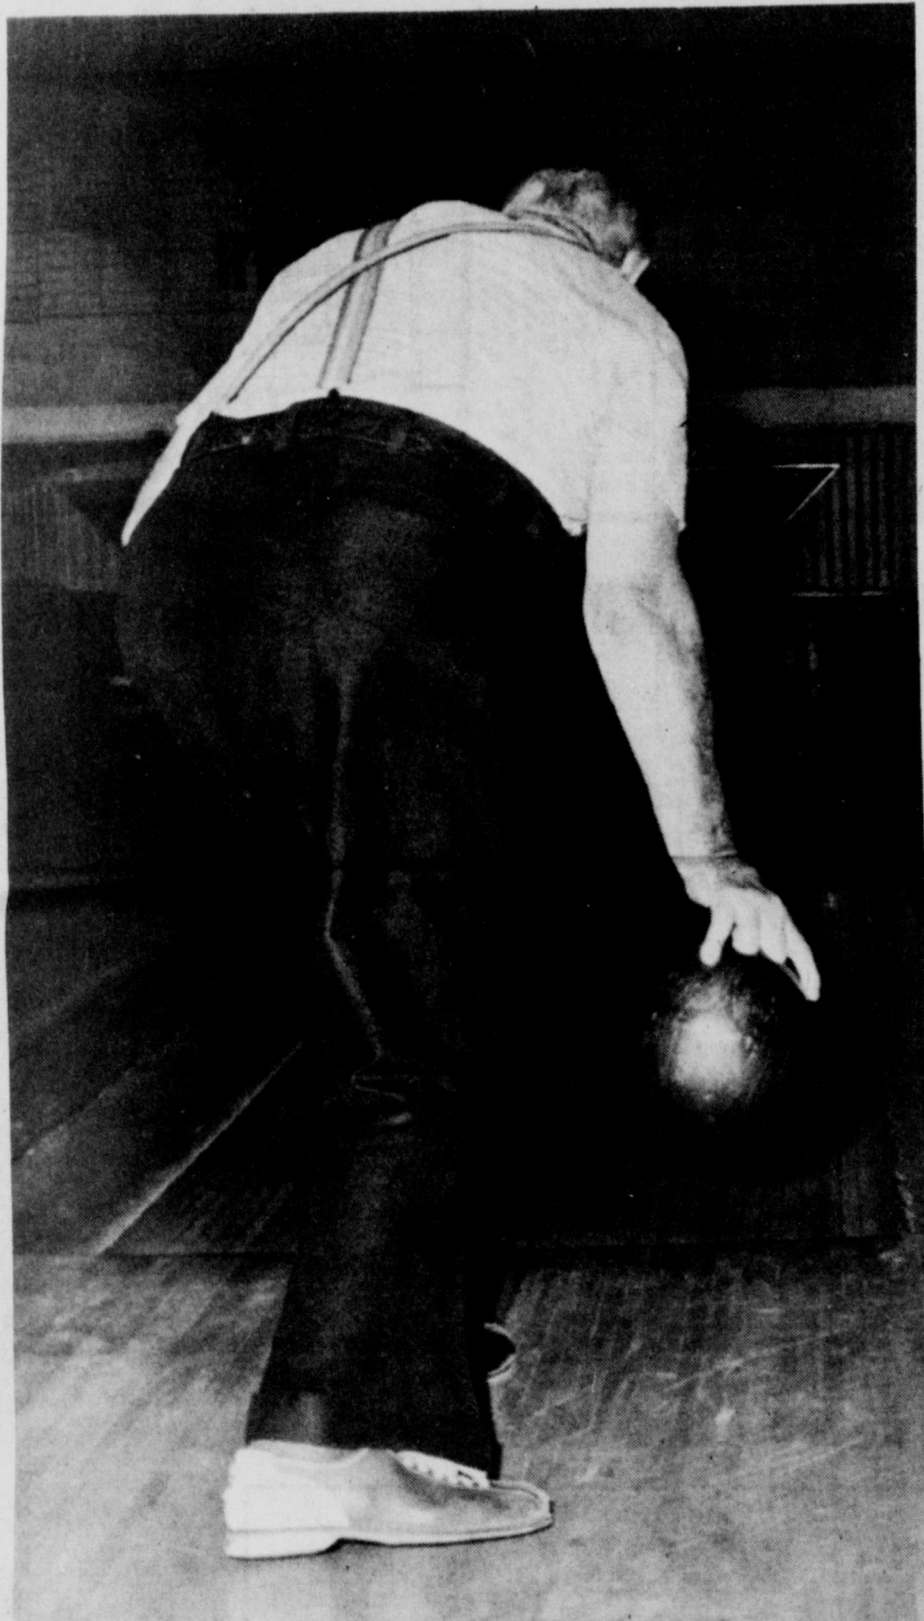

I'm already on record as expressing my belief that the number of new laws written by a legislator does not necessarily indicate what kind of a public representative one might be.

In fact, the fewer bills passed by any session of the legislature, the better the session.

LITTLE SAVED - Several thousands of dollars worth of material used in the resurfacing of US 287 went up in flames Friday afternoon at the Timmins-Anderson Corp. near Wichita Falls. Iowa Park and other volunteer fire

departments battled the fire more than two hours before bringing it under control with foam. Origin of the fire is unknown.

OLD TIME BOWLER - Among the large delegation of Friendly Door members who went to Wichita Falls Bowl Friday afternoon was 94-year-old E.E. Sargent. Though he didn't break 100 on the score sheet, one observer quipped "He has a hard time getting to the line, without his cane. And once he gets there, he can't hardly see the pins!"

Municipal Court Records

Results of municipal court held here yesterday were:

- Kevin Dale Meyers, speeding, \$70;
- Robin Rena Doan, speeding, \$61;
- Lewis Henry Rorabaugh, speeding, \$61;
- Thomas Gordon Campbell, speeding, \$40;
- William Cleveland Elledge, exhibition of acceleration, \$40;
- Robert Roland Jordan, speeding, \$42;
- Jaquita Williams Barnett, speeding, \$43;
- Mary Stewart Stewart, speeding, \$43;
- Kenneth Lafoy King, speeding, \$42;
- Pamela Wynn Schraeder, public intoxication, \$49.

Health Tips

— from Jerel Kerby

HALF OF FATAL CANCERS MAY BE PREVENTED SOMEDAY

Although it may never be possible to prevent all cancers, it is reasonable to expect that someday it will be possible to prevent at least half of fatal cancers, according to Dr. Richard Doll of the University of Oxford in England.

He stated that tobacco smoke probably accounts for 25-40% of all worldwide cancer deaths, not only from cancer of the lung, but also from cancer of the digestive tract, pancreas, and bladder.

These cancer deaths can be reduced or eliminated by smoking cessation. Increased consumption of fruit and fiber may reduce the incidence of gastrointestinal cancer, according to Dr. Doll. And a reduction of alcohol consumption and weight loss can also reduce the incidence of a variety of cancers.

Cancer Information Service keeps telephone busy

When the Cancer Information Service (CIS) opened its toll-free information line in 1975, its claim to be the public's link to cancer information was more a dream than reality. This July the service celebrates the receipt of its 100,000th information request—proof positive that the dream has been realized.

The CIS of The University of Texas M.D. Anderson Hospital and Tumor Institute in Houston is one of 17 such regional services that were established to provide the public with accurate information—in laymen's terms—about cancer causes, detection, diagnosis, treatment, rehabilitation and prevention.

Ten years and 100,000 calls later the CIS continues to respond to a broad range of queries.

"No two questions are ever alike," says Jo Ann Ward, director of the CIS.

"Whether it is a 69-year-old woman with breast cancer who wants to know more about various treatment methods for her disease, a young man who needs to be reassured that cancer is not contagious, or a teenager seeking tips on how to quit smoking, CIS phone counselors can help them all."

CIS phone counselors complete an extensive, 45-hour training course and are certified by the National Cancer Institute. These counselors have access to a library of cancer information materials and educational brochures and pamphlets. When necessary, CIS counselors can rely upon consultants from M.D. Anderson Hospital for answers to callers' more technical questions.

In addition, CIS phone counselors have sent more than 300,000 pamphlets and written materials to callers, hospitals and social service agencies throughout the state. In other instances, CIS counselors have relied upon their skills in psychosocial counseling to provide a sympathetic ear for callers who just want someone to talk to about their cancer concerns.

As the public has become more aware of cancer as a serious but sometimes preventable disease, Ward says, the CIS has experienced a tremendous increase in the number of calls received.

"During the first seven years of

operation, the CIS received 50,000 phone calls," says Ward. "The next 50,000 calls to the service were received during the past three years, which leaves little doubt as to the growing reliance upon the CIS as a source for up-to-date cancer information, particularly among patients and their family members, who represent more than half of the callers to the service."

Ward says the remainder of the calls are from people with symptoms, students, workers concerned about on-the-job exposure to chemicals, or health professionals seeking supplemental information for their patients or a consultation with an M.D. Anderson Hospital health professional.

In 1980 the CIS began to extend the phone service program by developing and sponsoring cancer education programs for smokers, certain minorities and rural Texans. All are groups that have been identified as at high risk for developing cancer.

Other CIS educational efforts include the sponsorship in 1984 of a statewide workshop on the prevention of the disease. The CIS brought together key administrators from city, state and private agencies to enlist their aid in reaching the public with information about cancer prevention. CIS staff also have developed bilingual public education materials on cancer topics.

It is estimated that there will be 47,000 new cases of cancer in Texas during 1985 and that number is expected to double by the year 2000, according to Dr. Charles A.

LeMaistre, UT Cancer Center president.

"If cancer is to be successfully managed during the upcoming decades, it will be necessary to provide the public with rapid, easy access to the kind of state-of-the-art cancer information that will motivate them to make lifestyle choices that could lead to a healthful future," says Dr. LeMaistre.

"The CIS has proved to be our most

successful tool in reaching thousands of people through the telephone service and via specific educational programs."

The toll-free service operates from 9 a.m. to 4:30 p.m., Monday through Friday, in English and Spanish. CIS phone numbers are 1-800-4-CANCER, in Texas or 792-3245, in Houston. No caller is required to give a name or an address unless requesting printed material.

Obituaries

Bennie E. Rogers

Services for Bennie E. Rogers, 71, were held Wednesday afternoon at Tanner-Aulds Funeral Home. Rev. Bob Bryan, pastor of the First United Methodist Church at Valley View, and Rev. Carl Kent, pastor of the First Baptist Church at Scotland, officiated. Burial was in Crestview Memorial Park in Wichita Falls.

He was born May 5, 1914, in Jack County, and had been a resident of Kamay since 1937. He was a member of the First United Methodist Church at Valley View. He was a retired oil field pumper. He and Ella Symank were married Dec. 23, 1934, in Megargel.

He is survived by his wife; two sons, Bennie W. of Kenai, Alaska, Ervin Leon "Tooter" of Recluse, Wyo.; a daughter, Shirley Cravens of Kamay; two brothers, Ed of Wichita Falls and Aubrey of Nocona; two sisters, Faye Lowery of San Antonio and Katie Kuhlman of Weatherford; eight grandchildren; and one great-grandchild.

officiating. Burial was in Wilbarger Memorial Park Cemetery.

He was born Jan. 27, 1909, in Wichita County and lived in the Elliott community all his life. He and Myrtrice Cooper were married Sept. 17, 1933, in Wichita Falls. He was a member of the First United Methodist Church in Vernon.

He is survived by his wife; a son, Bill of Elliot; a daughter, Gayle Cleghorn of Iowa Park; four grandchildren; and a great-grandchild.

Lawrence Henry Werner

Services for Lawrence Henry Werner, 30, who died Saturday in San Diego, Calif., were held Wednesday at Hampton-Vaughan Funeral Home in Wichita Falls. Rev. Charles B. King, pastor of the Sacred Heart Catholic Church, officiated. Burial was in Crestview Memorial Park.

He was born Aug. 16, 1954, in Champaign, Ill. and had lived in Wichita Falls several years before moving to California a year ago. He was graduated from Rider High School and had served in the Marine Corps. He was a roofer.

Survivors include a son, Lon Dale of Graham; his father, Joe of Wichita Falls; his mother, Jean Ford of Wichita Falls; two sisters, Barbara Plemmons of Holliday and Sharon Richie of Lakeside City; two brothers, Joseph and Thomas, both of Wichita Falls.

Millard A. Gillis

Services for Millard A. Gillis, 76, were held Saturday at Sullivan Funeral Home in Vernon with Rev. Lee Crouch, pastor of First United Methodist Church, and Rev. Abe Cockrell, retired Methodist minister,

Area oil, gas report

Three new producers have been brought on line in the Wichita Regular Field, with Landrum West, Inc. as the operator.

The wells are designated as the Nos. 19-L, 20-L & 24-L Hugh Reilly, and are located four to five miles southwest of Burkburnett. The Nos. 19-L & 20-L wells are in the L.C. Denison Survey, A-55. The No. 24-L well is in the DR&K Survey, A-714.

The first two wells pumped oil at the combined rate of 88 barrels per day. They also made 144 barrels of water. The No. 24-L well pumped 122 barrels of oil, along with 19 barrels of water.

Total drilling depths were 1,700, 1,654, & 1,480 feet, respectively. The Nos. 19-L & 24-L wells will produce from perforations in the Thomas Sand Formation, ranging from 1,398 to 1,424 feet into the wellbore. The No. 20-L well will produce from an interval in the Upper Cisco Sand Formation, 756 to 768 feet into the hole.

Drillsite for the No. 19-L well is 2,825 feet from the south line and 3,480 feet from the east line of the lease, and 650 feet from the north line and 560 feet from the east line of the survey.

The No. 20-L well is located 3,245 feet from the south line and 155 feet from the east line of the lease, and 250 feet from the north line and 155 feet from the east line of the survey.

Location for the No. 24-L well is 400 feet from the north line and 2,190 feet from the east line of the lease, and 400 feet from the north line and 725 feet from the west line of the survey.

The Wichita Regular Field gained a new producer when Texaco Inc. completed the No. 251 J.W. Stringer one mile northwest of Electra.

The well indicated ability to pump 15 barrels of oil per day, along with 287 barrels of water. It was taken to a 2,000-ft. bottom and will produce from a set of perforations in the Cisco Sand Formation, 944 to 1,894 feet into the hole.

The operation is in a lease in the H&GN Survey, A-655.

The well is located 430 feet from the south line and 340 feet from the east line of the lease, and 430 feet from the south line and 2,400 feet from the east line of the survey.

At a location eight miles northeast of Wichita Falls, Thorn Oil Co. has finaled a new oil producer in the Wichita Regular Field.

The well is designated as the No. 5 Doyle-Alpha, pumping one barrel of oil per day, along with 25 barrels of water.

Location is in the G. Wheelwright Survey, A-320. Bottomed at 1,430 feet, the well will produce from perforations in the Cisco Sand Formation, 1,199 to 1,206 feet into the hole.

The well is situated 375 feet from the south line and 431 feet from the west line of the lease, and 375 feet from the south line and 1,900 feet from the east line of the survey.

A Wichita Falls-based operator has staked location for the No. 15 Preston, a developmental well to be located 3.5 miles southwest of Burkburnett in the Wichita Regular Field. With projected total depth of 1,700 feet, the well is in an 80-acre lease in the William Kepler Survey, A-170. The operator is DeFranco Operating Co.

The well is to be located 730 feet from the north line and 1,000 feet from the west line of the lease, and 568 feet from the south line and 1,000 feet from the west line of the survey.

A 2,000-ft. developmental well is planned by Hull Oil Co. of Wichita Falls at a drillsite six miles southeast of Electra. The location is in a 132-acre lease in the GC&SF Survey, A-772, Wichita Regular Field. Well's designation is the No. 6 J.&J. Waggoner "B".

Location will be 150 feet from the south line and 800 feet from the east line of the lease, and 1,650 feet from the north line and 2,850 feet from the most westerly west line of the survey.

Marcus Jordan of Wichita Falls has filed for permit to drill the No. 4 Goetze "A", a 1,700-ft. developmental well one-quarter mile south of Clara in the Wichita Regular Field. Location is in an 85-acre lease in the Quadrilla IRR Co. Survey, A-351.

Drillsite will be 750 feet from the north line and 1,200 feet from the east line of the lease, and 1,250 feet from the south line and 1,625 feet from the west line of the survey.

Landrum West, Inc. of Burkburnett has revealed plans to drill four developmental wells in the Wichita Regular Field. The wells carry permits for 1,990-ft. maximum depths, and are designated as the Nos. 1-W L.H. Lawler, 1-W Morris Unit, 1-W Sands Estate, & 1-W H.L. Sands. Drillsites are three miles southwest, four miles west, and four to 4.5 miles west-southwest of Burkburnett, respectively.

The wells will be drilled in the RRVL S/D Survey, Block 17, Block 35, & Block 32. The operator has 158, 163, 45, & 105 acres leased, respectively.

The Lawler well is to be located 1,230 feet from the north line and 700 feet from the west line of the lease and the survey.

Drillsite for the Morris Unit is 660 feet from the south line and 1,400 feet from the west line of the lease and the survey.

The Sands Estate well will be situated 600 feet from the south line and 150 feet from the west line of the lease and the survey.

Location of the Sands well is 1,060 feet from the north line and 600 feet from the east line of the lease and the survey.

Troy-Dell Enterprises of Wichita Falls is planning to drill two 800-ft. developmental wells in the Wichita Regular Field. Drillsites are four

miles east of Kamay in the SPRR Survey, A-265. The operator has nine & 38 acres leased. The wells are designated as the Nos. 1 & 1-A Trinity.

The No. 1 well will be located 150 feet from the north line and 150 feet from the west line of the lease, and 1,526 feet from the south line and 150 feet from the west line of the survey.

The No. 1-A well will be drilled 1,250 feet from the north line and 150 feet from the west line of the lease, and 1,526 feet from the south line and 465 feet from the west line of the survey.

Plug-and-abandon orders have been issued for the No. 8-L Hugh Reilly, a developmental venture of Landrum West Inc. in the Wichita Regular Field. Spudded May 22, the well had reached 1,700 feet total depth. Drillsite was four miles southwest of Burkburnett in the DR&K Survey, A-714.

The well was located 825 feet from the north line, and 1,065 feet from the east line of the lease and the survey.

The No. 3 W.T. Waggoner Estate "I" has been finaled by Spruiell Drilling Co., Inc.

It is a developmental well in the Wilbarger Regular Field, 11 miles south-southeast of Vernon. Drillsite is in a lease in the H&TC Survey, A-243.

Daily potential of 16 barrels of oil was posted with the Railroad Commission. The well went to a 3,407-ft. bottom, and will produce

from a set of perforations in the Cisco Sand Formation, 1,921 to 2,355 feet into the wellbore.

The well is located 520 feet from the south line and 440 feet from the east line of the lease, and 1,353 feet from the south line and 1,760 feet from the east line of the survey.

Two 2,000-ft. developmental wells are planned by Texaco Inc. of Midland at drillsites four miles east of Harrold, Wilbarger County. The locations are in a 114-acre lease in the M.M. McLaren Survey, Block 3. Wells' designations are the Nos. 23 & 24 Tate-Waggoner. They are to be located in the Wilbarger Regular Field.

The No. 23 well is to be located 150 feet from the south line and 730 feet from the west line of the lease, and 2,425 feet from the south line and 730 feet from the west line of the survey.

Drillsite for the No. 24 well is 640 feet from the north line and 150 feet from the east line of the lease, and 3,903 feet from the south line and 516 feet from the east line of the survey.

An 8,900-ft. wildcat well is planned by RRR Exploration, Inc. of Dallas in the W&NW Survey, A-1423, Hardeman County. Drillsite is six miles north of Chillicothe in a 494-acre lease. The well will be known as the No. 2 G. Haynes.

The well will be drilled 600 feet from the south line and 1,473 feet from the west line of the lease, and 600 feet from the south line and 2,522 feet from the east line of the survey.

REED FEED & SUPPLY
592-4118 209 S. Victoria

NEW 2157 2165 Superior grain yields with a good grazing bonus. Excellent straw strength, too!

Our researchers were impressed by the tremendous pasture production and grain yields from these new varieties during testing. And now that the varieties have stood the test of actual production on many farms under many conditions, the proof is in!

They grow off well and show strong resistance to SBMV, leaf rusts, fungal leaf blights, and the Hessian fly.

- **New 2157** gives you good, early grazing, then stays with you through the winter. And the grain yields are right up there with anything you care to compare it against. Cf. oose 2157 for dryland or limited water production.
- **New 2165** works with your irrigation program to make the most of all you put into the crop. Pasture comes on strong in the fall and grain yields are among the best you'll find, bar none.

See your Pioneer dealer right away. He'll show you yield results and interesting new facts about the advantages of pure seed.

Holliday elementary school supplies listed

School supplies for the 1985-86 school year at Holliday Elementary have been released by principal Carol Magee. Lists include supplies needed for students enrolled in Kindergarten through fifth grade in the Holliday Schools for the coming year. They are:

KINDERGARTEN - (If possible, provide your kindergarten student with a satchel or school bag to carry papers, notes and money. This is especially important if your child rides the bus). Please label items. Crayons (any size) Scissors (blunt point) Cigar or school box Plastic rest mat

School glue
Water colors
Box of tissues (200 count)
Two - No. 2 pencils

FIRST GRADE - (Please label your child's items)
Big Chief tablet
School glue
Two boxes of eight crayons
Eraser
Watercolors
Four - No. 2 pencils
Cigar or school box
Box of 24 crayons (no larger)
Small drinking glass
Scissors (sharp point)
Box of tissues (large)

Weekly Reader (to be ordered at school, please include \$2).

SECOND GRADE - (Include 50-cents for writing tablet, to be ordered by school to insure students have same writing pads).
Big Chief tablet (74 sheets each)
Four - No. 2 pencils (with their names on them)
Small plastic drinking glass (Mrs. Southard's class only)
Large box of tissues
Three-(three-hole) folders with two pockets
Steno notebook
Watercolors
Scissors
Two boxes of crayons (24 count)

School glue
Cigar or school box
Eraser
Ruler
Two spiral notebooks
Fine-tip magic markers (this is optional)
(Also, please include \$1.90 for year's subscription to Weekly Reader, if you wish your child to have it).

THIRD GRADE - (Please label child's things)
Two folders with pockets
Loose leaf notebook
Ruler with standard and metric markings
Tissues (large box)
Coloring book
Two - No. 2 pencils
School glue

Scissors
\$2.10 for Weekly Reader
Loose leaf notebook paper
Crayons (no more than 24)
Watercolors
School glue

FOURTH GRADE - (Please label everything)
Six - No. 2 pencils
Notebook paper (no college-ruled)
School glue (4 oz. size)
Eraser
Large box tissue (200 count)
Scissors
School or cigar box
Watercolors
Crayons (16 count)
Five folders with pockets and brads
Metric ruler
(Please don't send spiral notebooks, ink pens)

FIFTH GRADE - (Label everything)
Large box tissues
Map colors
Scissors (sharp pointed)
Crayons (at least 16)
Glue (regular, not school)
Eraser Mate pen (black or blue)
Pencils (No. 2 or 2 1/2 only)
Folders with pockets, two or three-hole (eight)
Ruler (12")
White paper (side holes, white only)
Protractor
Art box for scissors, glue, crayons, etc.
Spiral notebook (70-100 sheets, no small-ruled or college-ruled)
Fine-tipped black marker.

PHYSICAL EDUCATION GIRLS - White shirt, red shorts,

tennis shoes, white socks, deodorant.
BOYS - White shirt, red shorts, tennis shoes, white socks, deodorant. (All materials should be labelled with student's name and section).

Defending loop champ, Electra, gets TF nod

With the 1985 gridiron campaign just around the corner for high school teams in Texas, District 9-AA has been stamped as the conference with the team to beat - Electra - according to Dave Campbell's Texas Football Magazine.

For Holliday, however, TF Magazine sees another rebuilding year ahead, and has placed the traditionally-winning Big Red in fifth place, behind the Tigers, Henrietta, Olney and Jacksboro, in the preseason picks.

The magazine says this of Electra. "In Class AA football this season, no one stands as tall as 6-foot-4, 210-pound Charlie Lott. Unless it's 6-foot-4, 210-pound Trace Reed.

"Both stand for Electra. So it stands to reason that when the playoffs wind down to mid-December, the Tigers will still be standing.

"Lott's running and Reed's blocking talents would be exceptional in any season. In a conference that appears noticeably weaker than in recent years, they could be the edge Electra needs to dominate the proceedings in 1985."

Nineteen lettermen return for Electra this season, according to TF Magazine, with six offensive and seven defensive starters back from its Regional finalist year.

For the Eagles, TF states "Hoping to move up after a 5-5 season, the Holliday Eagles have four offensive

and five defensive starters returning. That inheritance includes all-state candidate QB Pat Parker (6-3, 185, 4.65 speed), who also handles the team's punting and kicking duties.

features tackle Kerry Wise and DE Alan Wilhelm."

Texas Football Magazine lists Seymour, Petrolia and Nocona as finishing below Holliday this season.

Other offensive threats include FB Larry Krob (6-0, 190), SE Les Dolberry (6-2, 180) and WB Garner Mahon. Tackle John McGill (6-5, 220) will anchor the line, which also

However, anyone watching District 9-AA football knows that anything can, and, probably will, happen this year. That includes a district upset over the Tigers.

Finnell named to STEP board

Rep. Charles Finnell was appointed this week a member of the advisory committee for the Senior Texans Employment Program (STEP).

The program provides job opportunities for senior citizens of low to moderate income in rural areas throughout Texas. STEP serves a majority of the counties in the 80th house district.

A longtime champion for the elderly, Finnell noted, "It's important for all of us to remember that 55 is the speed limit, not the age limit." Finnell attended the first statewide meeting of the advisory committee, held in Hunt this week.

Texas football figures Hawks as 'darkhorses'

Preseason pressure to win district is off the Hawks. At least, that's the way Dave Campbell's Texas Football Magazine has it figured in the fall edition that hit the newsstands this week.

To no one's surprise, Vernon is the preseason favorite to repeat as Dist. 5-AAA champ. The Lions not only have six defensive and three offensive regulars back from last year's 12-2-1 title club, but figure to be well over the enrollment limit for the classification. Vernon had almost 750 students last year.

Bowie and Springtown are expected to fight it out for the runner-up position this fall. The Porcupines edged the Hawks last year for that position.

How about the Hawks? "Iowa Park fits the darkhorse's role nicely," states the article.

"At Iowa Park, 15 lettermen are

back from a 7-2-1 team, including two offensive and three defensive holdovers. Safeties Ray Sefcik and Stephen Bidy rejoin NB Robert Adams (5-10, 210) on a defense that also can use tackles Kevin Haney (6-2, 220) and Kirk Martin (6-0, 170). Center George Blackwell and guard Shawn Price are veterans who'll block for RBs Scott Weaver and Danny Forman. LB Jeff Tucker (6-0, 200) is a tough customer as well," the author wrote.

Vernon ranks eighth in the preseason predictions for Class AAA, behind Hempstead, Post, Bandera, Waco Connally, Navasota, Littlefield and Columbus, but ahead of Alvarado and Port Isabel.

"Bowie's Jackrabbits, appropriately, are counting on improved team speed to boost their record over .500 after a 4-6 finish in 1984. Six two-way regulars return among a dozen lettermen," TF said.

About the other runner-up team it predicted, TF stated, "Springtown had only three returning starters last season, but they combined with a crop of talented newcomers to produce an 8-3 district runner-up. With 14 lettermen returning for 1985, including four offensive and five

defensive starters, Porcupine opponents could face a particularly sticky situation."

"Decatur will need a lot of help from its sophomore class to challenge for the 1985 playoffs, since only four starters and eight lettermen return from last season's 6-4 squad.

However, the Eagles have a few experienced backs and some good prospects, so another winning season is a possibility."

About the team figured to finish in last place, TF stated, "Experience will be an ally at Bridgeport, where the Bulls hope to make amends for a

1-9 mark last year."

Holiday's Eagles figure to finish in fifth place among the tough teams of Dist. 9-AA. But that figures, because Texas Football predicts Electra to win it all in that classification, bringing another state football championship to Wichita County.

Base changes flight route

Aircraft traffic patterns for the 80th Flying Training Wing will change to allow for a more efficient use of fuel and training time, according to Sheppard AFB officials.

The new traffic pattern will shorten the ground tracking of the T-38 Talon jet-trainer aircraft overhead traffic and result in less overflight in Wichita Falls.

The existing ground track departs west from Sheppard, turns south immediately west of U.S. Highway 281, continues south, intersecting U.S. Highway 277 and turns southeast at Farm Road 369. From

F.M. 369 the pattern continues east to Kickapoo Airport where it turns northeast and intersects a line to Runway 33L at Sheppard.

The new pattern, shortened by five miles, will allow for a western departure from Sheppard until it intersects East Fork Pond Creek, west of U.S. Route 281. It will then turn south until it intersects U.S. Highway 82. The path will continue east along U.S. Route 82 and turn northeast at Farm Road 473. The path tracks northeasterly until it intersects a line from Runway 33L, at which time the pattern flies directly to Sheppard.

This flight path will also change the pattern north of Sheppard and may result in an occasional overflight in southern parts of Burkburnett.

Football players should get physicals

All athletes who plan to play football at Iowa Park High School and Junior High should start having their physicals taken as soon as possible, according to Athletic Director David Baugh.

Physical forms are available at the high school field house for those who plan to go elsewhere than Park Clinic. Forms are already available at Park Clinic, Baugh said.

Women sought for soccer team

Players are being sought to complete a second women's soccer team here this fall.

Any ladies interested in the sport can call either 592-5966 or 592-9807.

The women's league games are played Sundays in Wichita Falls. Last year was the first season for Iowa Park's initial team to compete.

In honor of our son's birthday.
He would have been seventeen July 26, 1985
We love him and we miss him so much.
Ed & Pat Mays

GERALD "Jerry" MAYS
"An IOWA-PARK-HAWK"

The Lord God of eternity - creator of all things
Just about seventeen years ago blessed Mr. and Mrs. Edgar Mays
By allowing them to share with him the love of a special baby boy
Who brought love and joy to their hearts in some many wonderful ways
The name they gave this special lad was Gerald "Jerry" Mays
And it made them so very proud that he always did his best
And as is always the case with extraordinary special people
He did not want to just be average, but better than the rest
Just as there would be no majestic mountains without valleys
There would be no challenge if it did not take extra effort to excel
And that's why Jerry gave a mighty effort in everything he did
He knew full well it took determination and hard work to prevail
So in his quest for excellence he reached the heights where eagles soar
Always giving an extra effort in all that he did each and every day
Knowing within his heart that getting to those lofty heights
Was not nearly as important as the way he lived his life along the way
So let not relatives - or friends and teammates hearts be saddened
For as Jerry ascends the stairway to heaven - his work on earth complete
He'll stand tall with his head held high as he hears the pearly gate
Being proud God chose him when on high he needed an "Angel Athlete"
And his hope would be that all his friends, relatives, and loved ones
Would search for truth and love in life, and shed not a single tear
For the world is full of so many beautiful, wonderfully exciting things
If one only takes the time to see, and touch, and love them without fear

by Noel Romines

Worth Quoting

A few days ago I traveled to Snyder to listen to a marketing expert. Charles Mouser is a nationally known specialist who deals with many phases of retailing, advertising and public relations. He deals with the entire scope of a community and believes in personal service when providing a product.

Mouser has some revolutionary ideas and motivates while he teaches the audience sales and service techniques. He comes off almost as if he were an evangelic preacher and drives his points home with fervor.

"The act of buying a product is not as simple as it may appear. It encompasses a full range of emotions by the consumer, and therefore, requires the merchant to perform on the same level of emotion," he said. Mouser continued, "We buy emotion. If you don't sell with emotion you can't make it in today's marketplace."

"People don't just buy a product, they buy the effects of the product. For example, people don't buy clothes, they buy brand entrances. Consumers don't buy shelters, they buy image and lifestyle."

The best way to reach those emotions associated with the way people buy, is to get people excited about buying a product or service. He offered dozens of tips to all types of retailers.

The first suggestion is flexibility and the ability to change. Mouser said, "As long as we're growing we're green, but as soon as we stop growing we start to rot."

"The greatest potential for growth comes through creating a customer-oriented atmosphere that will make shopping in a firm more fun than shopping elsewhere."

The most notable social change that retailers should consider is the increasing number of women in the work force. More than 80 percent of all women ages 23 to 44, and more than 55 percent of all women, are employed outside the home. Twenty-seven percent of all women are heads of households.

Mouser said, "These statistics have a profound effect on retailing. If a retailer is open during normal working hours, from 9 a.m. to 5 p.m., he or she is catering to the unemployed. Retailers must stay open until at least 8 o'clock to be successful in today's marketplace."

Retailers should consider three questions before creating their advertisements:

1. Why will anyone buy this product or service?
2. Why should the consumer want to buy it now, instead of later?
3. Why should consumers buy it from me, not someone else?

To consider these questions, Mouser said focusing on what customers will get out of having the product or service is the key - not what the retailer will get out of the sale.

In addition, he said "People buy with emotion and then justify the purchase all the way home with logic. We try to sell with logic instead of emotion and people just don't buy it."

Mouser said shopping is the last "Free entertainment" in this country. Retailers need to make shopping fun make it exciting again and make customers feel good.

He said small town merchants needed to promote an enthusiastic approach, offering hometown people specific reasons why they should stay in town to shop and not go to the big city. By incorporating effective advertising, attractive in-store displays and using a friendly approach while offering a fun atmosphere will help combat the lure of the big city.

By JERRY TIDWELL
Hood County News

I have been a citizen of Grand Saline for only 13 years but I hate to think of anything that might cast a shadow of doubt over the growth and continued development of our town.

Like it or not, however, the announced plans of a large new shopping mall in Canton does just that. Over the years, Grand Saline has lost much of its retail trade to such malls in Tyler and Dallas. One located only 13 miles away may well sound the death knell to many of our present business establishments!

Most of our folks still buy their groceries in town at Brookshires and Piggly Wiggly but it is a fact that the newer, larger, better-stocked Brookshires in Canton has taken some of our customers. What will yet another such supermarket take away?

As a very conservative guess, I'd say at least 50 percent of the clothes worn and furniture bought already comes from out of Grand Saline, mostly from Tyler and Dallas.

WalMart in Mineola pulls many shopping dollars out of Grand Saline and the new WalMart in Canton will increase that figure considerably.

I have heard the remark, and I'm sure many of you have, "If I wanted to live in a big town, I would have stayed in Dallas (or somewhere else)." That's okay I suppose, but do we want to live in a ghost town? A bedroom town with all our purchases made elsewhere and our residents working in other towns? A town where the only businesses are convenience stores and service stations?

We have set on our laurels up until now but perhaps... if we start now, we can salvage a part of the future growth of this area. Predictions are for continued population shift to the sunbelt states and our section is the target of much of that shift. Fortunately, more people will require more businesses so maybe it isn't too late to revive the survivors... if we go to work now!

By WOODY WOODALL
Grand Saline Sun

NOTICE

PUBLIC NOTICE

In accordance with directives issued by the Texas Education Agency, the Iowa Park Consolidated Independent School District must offer a pre-kindergarten class for disadvantaged and/or limited English proficient four-year-olds. This class must be offered if a minimum of fifteen children qualify according to the following criteria:

1. Four years old by September 1, 1985
2. Qualify for free or reduced lunches or have limited English Proficiency as determined by a proficiency test.
3. Have own transportation for class which will either be three hours in the morning or in the afternoon. (to be determined).
4. Must not have a handicapping condition that would qualify him/her for the Early Childhood program.

If you have a question concerning your child's eligibility, call Mr. Ron Woods at 592-4322 or the administration office at 592-4193. Applications may be picked up at the Kidwell Elementary office. They must be submitted by August 9, 1985 to determine whether there is a sufficient number of students eligible to establish one or more classes.
