IOWA PARK LEADER ²⁵ CENTS

Vol. 17, No. 1 IOWA PARK, WICHITA COUNTY, TEXAS 76367 THURSDAY, SEPTEMBER 19, 1985

Eagles expected to be tougher than last year

If anyone is expecting to see another runaway Friday night as the Hawks had last year against Holliday, they might take another look at the situation.

First of all, it's another year and for all practical purposes, entirely new teams.

The two teams met for the first time in decades last year, both undefeated and with impressive scores against two opponents.

But the Hawks got the upper hand, went on to win 31-0, and finished out the season with a 7-2-1 record. The Eagles stumbled a few games following the stunning defeat, but bounced back and made a respectable 5-5 season out of it.

Now, tomorrow's setup is slightly different.

It's the Eagles who are coming into the game with the impressive scores once again, and looking stronger with each game the Big Red plays.

Iowa Park, on the other hand, has won only one of its two outings. The Hawks showed little offensive punch in their opener against Breckenridge, and the defense gave up 284 yards.

And though the Hawk coaching staff feels a little better about the defensive showing Friday against Burk Burnett, allowing the 'Dogs only 88 yards, they're still far from pleased with the offensive play of the Mean Green.

Former Hawk assistant coach Don Lucy, now the long-time head mentor of the Eagles, is a strong believer in defense. So a sputtering offense could have a dreary night with swarming

Eagles.

Both Lucy and Head Hawk David Baugh each have a little insight into how the other thinks. They have a couple of common denominators.

The first is the fact both worked as assistants under Tommy Watkins. Eventhough each has his own way of doing things, offensively and defensively, similarities always show up in plays and strategy.

The other denominator is Lucy's son, Barry, who is now an assistant with Baugh. His knowledge of how his

father thinks, both having lived with him as well as playing quarterback for the Eagles while in high school, can serve as a tool.

But that works both ways, because Papa Don knows how his son thinks.

Tomorrow's game, which is to start at 8 p.m., was originally to be played at Holliday, on a home-and-home basis. But because of the large crowd of interested fans on both sides, the schools decided it best to hold it in Hawk Stadium for adequate seating.

Cable TV work begins to offer more channels

Work is to get underway this week to both improve service provided by Iowa Park Cable TV, but also expand its offerings to 23 channels, according to Raymond Greenwood, manager.

To be done in sections of the city, work will require interruption of service for brief intervals. Some of the longer lasting interruptions will occur in very early morning hours, so the fewest people will be inconvenienced, Greenwood explained.

After the improvements are completed, Greenwood said there will be some confusion as to the numbers of the channels.

The meeting is to begin at 7 p.m. in council chambers.

A timetable for the closing of the public library and reopening in new facilities will be discussed. Hunter said the Tom Burnett Memorial Library will possibly be ready for

New stations to be added, one an extra charge like HBO, will be KJTL (Channel 18), Christian Broadcasting Network, Nickleodian, Nashville, Music TV, CNN and Disney, the extra fee station.

Cryovac personnel give UW drive big sendoff

The 1985 United Way fund-raising campaign was kicked off in Iowa Park Tuesday morning, with a royal sendoff by Cryovac employees.

Personnel at the plant located on West Magnolia have already pledged or donated \$30,855, according to Robert Palmer, this year's campaign chairman for Iowa Park.

Iowa Park's goal, increased this year by eight percent, is \$48,819. The Greater Wichita Falls United Way goal this year is \$1,893,240, which also reflects an eight percent increase. Dr. Louis Rodriguez, Midwestern State Univ. president, is campaign chairman.

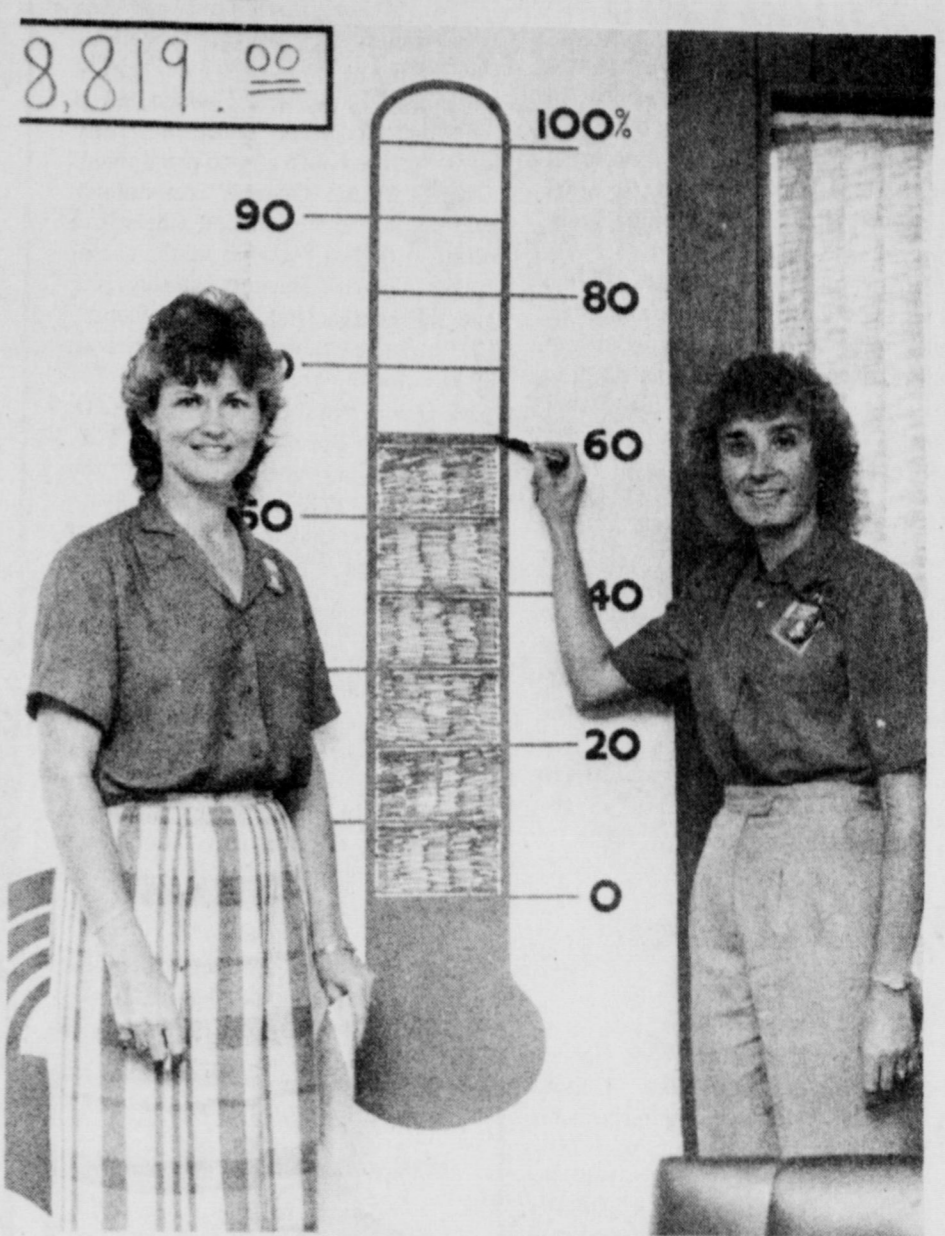

Major division chairmen for the Iowa Park campaign include: Joni Whitis, advanced gifts; Jacque Moffitt, major firms; Judy Brown, professional; Donnie Ickles, public employees, and Donna Chambers, metro chairman.

Some 25 other people have volunteered to assist the division leaders, and anyone else wishing to help can contact Dee Blackwell, Chamber of Commerce secretary, at 592-5441.

Iowa Park agencies receiving United Way funding include The Friendly Door, Iowa Park Recreational Activities Center, Camp Fire, Girl Scouts, Boy Scouts, Child Care, Children's Home and First Step, Inc.

First report by workers will be made Tuesday morning at the Chamber office. The second report is scheduled Oct. 8, and third Oct. 22. The general drive's victory luncheon is to be held Oct. 30 at the Hilton Inn.

Volunteers identified working with chairmen of the major divisions include: Teresa Martin and Jimmy Alsop, advance gifts; Marilyn Hale and Ken Davis, major firms; Don Decker and David Parkkey, profes-

GAIL THOMAS, CRYOVAC TRAINING SUPERINTENDENT, MARKS CHART ... while Chamber Secretary Dee Blackwell looks on.

sional; Lorna Klinkerman, Glenn Mitchell and Dee Blackwell, public employees; and on the metro team, Sheri Kennedy, Debbie Atchley, Rhonda Vergawuen, Kathy Ming, Mary Cooper, Susan Tigrett, Vickie Reed, Bob Dean, Ron Woods, Bob Aulds and Pat Raby.

Movement of library on agenda

Monday's city council meeting is expected to be much shorter than the Sept. 9 "marathon," according to Mayor Tim Hunter.

occupancy in early November, about 30 days early, and plans must be made now for the big move.

Administrator James Barrington is to make a report on the city's acquisition of the building across Wall Street from city hall, where plans are to clear the site for use as a parking lot.

Several items on the council's last meet on which action was delayed are expected to be on Monday's agenda.

One of them is an ordinance increasing fees for connections and re-connections of water and sewer service.

Another is a report on progress of laying a water and sewer line along North Victoria. The city is to share the estimated cost of \$25,000 with the Lakeview Church of God, it was decided at the last meeting.

Two petitions requesting abandonment of right of way are expected to

be considered. One is on West Diamond and the other is on South Victoria, between Jefferson and Ruby.

Administrator Barrington is also to report on a meeting scheduled Monday afternoon with Wichita Falls officials, relating with that city's announcement of intentions to raise Iowa Park's water purchase rate by some 40 percent.

News in Brief

Gale Lowrance to be honored

Gale Lowrance, oldest living graduate of Iowa Park High School, will be honored during this year's homecoming parade.

The event will be entitled Gale Lowrance Day, and theme of this year's parade will be "Roaring Twenties." A vintage automobile will

be used to transport Lowrance, the homecoming queen nominees and Supt. Glenn Mitchell, in the parade.

Floats are to be featured also in the parade, though the sponsors are accepting entries of old model vehicles. Anyone wishing to enter can contact Ray Sefcik at 592-9027 or 592-4715.

Iowa Park retains sales tax lead

Iowa Park shows no sign of relinquishing its leadership among Wichita County cities, in percentage of gain in sales tax collections for the year.

August's check of \$10,004.16 from the state comptroller's office brought the city's eight-month sum to \$105,106.11, a 14.99 percent gain over

the \$91,403 reported this time last year. The August 1984 check was \$8,682.25.

Elsewhere around the county, all cities are reporting gains over the same eight-month period of last year, but not as dramatic as Iowa Park's.

Burk Burnett has a 7.02 percent gain, Wichita Falls 4.87 percent and Electra 1.01 percent.

Turtle Trot entry training urged

Youngsters, through the third grade, are reminded it's time to seek out their entries and begin training them for the annual Turtle Trot.

The big race is always a part of the Whoop-T-Do, sponsored by the Chamber of Commerce, which will be held Oct. 5 this year.

One entry per contestant is the limit established in the Turtle Trot rules.

Plenty of entertainment planned for Whoop-T-Do

Entertainment will abound at this year's Whoop-T-Do, slated to unfold Oct. 5 in the 100 block of East Cash.

Directors of the Chamber of Commerce, which sponsors the annual event, heard reports concerning the entertainment during their monthly meeting Monday.

The Shootists, a blackpowder group who stage an old west gunfight on the street and has appeared here twice before, will be invited to

perform once again. However a financial arrangement must be completed, it was pointed out. The Chamber put a limit of \$100 for the group to perform.

Monday's meeting was attended by 20 persons, said to be a record for the monthly event.

Directors voted to secure the services of the Texas A&M Extension Service to conduct a consumer survey on buying habits of local residents. Similar surveys were conducted

recently at Henrietta and Burk Burnett.

The Chamber's annual membership luncheon will be held Nov. 11 at the ASCS building. Adolph Janca, executive vice president of the West Texas Chamber of Commerce will be speaker. Election of officers for the coming year will also be held.

Following the luncheon, retail merchants will move across the street to the Texas Electric Reddy Room, where Phil Neighbors, also a WTCC

representative, will conduct a workshop.

Also on Monday's agenda, directors approved purchase of an advertisement in the Iowa Park High yearbook, and a request to permit the Wichita County 4-H leaders and 4-H council to hold their meetings in the Chamber building.

Dr. Erwin Soell, president, named Keith Aulds, Phil Welch and Harrel Sullivan to the nominating committee.

TOPS OF SALE - Fiesta Dinero, consigned by Beavers and Colliers of Dallas, brought the highest price at the sixth annual 2-J Paint Horse Farm production and consignment sale Saturday evening. The 1983 stallion was purchased for \$20,500 by Ann and Mark Bagby, second and third from right,

of Ojai, Calif. Sixty nine of the 98 head entered in the sale were sold, at an average price of \$3,122. Stanley Williamson, 2-J owner, said he thought the sale was excellent, especially "... in the times we're in now." The horse market is directly connected with agriculture and energy, he explained.

Weather Report

Weather reports are officially compiled for Iowa Park at the Texas Experiment Station, southeast of town.

Garden Club plans activities

Members of the Iowa Park Garden Club held a covered dish luncheon Friday at Texas Electric Reddy Room to start the new club year. Hostesses were Mmes. Frank Gossett, Jerry Reed and David Davis. Mrs. Charlie Lee presided during

Exercise topic of Philia Club

Beverly Bohannon, who has had experience as a physical education instructor, gave an invigorating aerobics program Monday evening at Texas Electric Reddy Room to start the new year for the Philia Study Club.

The program featured the theme "How to Get in Shape for Fall." Mrs. Bohannon stressed the importance of finding the right exercise to fit into one's personal lifestyle, stating that regardless of schedule it is necessary to incorporate some type of physical activity into one's life.

She reminded members that one could always walk even if he did not have time for a formal exercise program, and said that walking could be done in any season.

"Winter is coming; just layer your clothing and you can still enjoy the outdoors. You must walk at least three times a week for 15 minutes to gain maximum benefits," she emphasized.

Epsilon Eta to hold tea

Epsilon Eta chapter of Epsilon Sigma Alpha held the regular meeting Tuesday evening in the home of Mrs. Marvin Robertson, with Mrs. Lonnie Fischer serving as co-hostess.

For the program, Mrs. Al Denton gave "Taking a Cruise," and Mrs. Bud Mercer directed members in mentioning the outstanding traits of their sorority sisters.

Mrs. Fischer appointed committees for the special tea that will be given in honor of Whoop-T-Do King and Queen candidates and their parents at the Texas Electric Reddy Room.

the business. Mrs. Jerry Reed, chaplain, gave the "Thought for the Day," and members responded to roll call by telling of their activities for the summer.

Mrs. Jimmy Gilmore, vice president, reviewed programs and hostesses for the year and presented members with new yearbooks.

Mrs. Lee appointed Mrs. Michael Hodson chairman of the club's booth at the Whoop-T-Do and responsible for a car or float entry in the Homecoming Parade. The theme of the booth was announced as "Trash to Treasures," and Mrs. Hodson asked members to start gathering their items for the booth and to price them.

Mrs. W.A. George, community service chairman, showed Christmas ornaments that the club might use in 1986 at the Tom Burnett Library. She also suggested that the club furnish Christmas garlands for the stairway at the library this year.

A report was given by Mrs. D.O. James, Mrs. Roman Bartosh and Mrs. Avis Wilson, committee for the selection of the "Yard of the Month." It was voted that any former winner of the award was eligible to compete again after five years.

Mrs. China B. Smith presented the program on "What Makes a Good Club Member?"

Mrs. Lee announced that Bobby Illingsworth, husband of one of the club members, underwent a kidney transplant in Dallas recently and was responding satisfactorily. The kidney was donated by the family of a young man in Tyler who was killed in a motorcycle accident.

For the next meeting, members will meet at Texas Electric Reddy Room at 10 a.m. prior to making a

tour of the Bill Parker's greenhouse where he raises orchids.

Cook of the Week

One of the rewarding things about the Cook of the Week feature for the Leader personnel is that it provides an opportunity to meet new people, renew acquaintance with old friends, visit and chat with them for a few minutes. It also provides an incentive for us to delve into the history of foods.

Two of Jean (Mrs. B.L.) Starnes' recipes for this week show the adaptability of corn to other vegetables and meat. What is corn? One book on the history of foods says that "corn is very possibly not what you think it is; it depends on where you live." It further states that to one who lives in America it is maize; to those who live in England it is wheat; and oats to those who live in Scotland and Ireland.

The same source says that actually, all that corn basically means is grain, and each locality interprets it as standing for its own familiar cereal. It is of the maize family and one of the most popular vegetables in America.

It is believed that maize or corn crossed the Rio Grande from Honduras, Guatemala and from the adjoining area of Mexico. Kernels dated at 6600 B.C. have been found in caves in Old Mexico.

As soon as it arrived in America, it became a staple food of the Indians. It is reputed to have saved the first Virginians from starvation in their first winter when the Indians gave Captain John Smith 500 pounds of corn, and to have saved the first New Englanders from the same fate when Miles Standish found an Indian cache of corn and beans immediately after they landed. "A few grains of corn were thought as good as a feast," said Governor William Bradford of Plymouth.

Corn began to be widely cultivated in the U.S. after the Civil War, and since 1920 the numbers of different kinds of corn developed have been amazing. It is now very important to the economy of our nation which produces more than half of all corn harvested in the world.

It is a plant of immense versatility, a delicious food both on and off the cob. Today, canned sweet corn is America's favorite preserved vegetable and has outsold others since World War I.

Mr. and Mrs. Starnes moved to Iowa Park from Wichita Falls in April. They are the parents of Linda (Mrs. James) Rinehart of Iowa Park. They are Baptists and he works for Texas Electric in Wichita Falls.

Mrs. Starnes, a native of Jacksboro, was graduated from high school there. She enjoys sewing, gardening and ceramics. She and her husband had an interesting hobby for many years, that of buying old homes, restoring, and decorating them, then

Mrs. B.L. Starnes

selling them. They both enjoy travelling.

In addition to Mrs. Rinehart, they have two sons, Buck of Wichita Falls, Howard of Fort Worth, and another daughter, Shelly Starnes of Arlington. They also have four grandchildren.

VEGETABLE SALAD

- 1 can corn, drained
- 1 can green peas, drained
- 1 can green beans, drained

Marketplace missionaries

"Marketplace Missionaries" was the topic of the program given for a meeting of the Night BW of First Baptist Church Monday.

New Meter Connections

- Patrick Loftus - 1311 Sunset

- 1 cup chopped celery
- 1 cup chopped bell pepper
- 1 cup chopped onion
- Bring to a boil:
- 1 cup sugar
- 2/3 cup vinegar
- 1/4 cup oil
- Pour over vegetables and refrigerate overnight.

ANGEL SALAD

- 1 small can crushed pineapple
- 3/4 cup sugar
- Mix together and let come to a good boil. Set off stove. Soak 2 envelopes plain gelatin in 1 1/4 cup warm water and add to above mixture, and return to stove to boil. Set off stove and place in freezer until it starts to congeal.
- Whip 1 cup cream and add congealed mixture; add 1 cup grated Longhorn cheese and 1/2 cups chopped pecans. Place in container and refrigerate. Serve in squares.

EASY STEW

- Brown 1 lb. hamburger meat
- Add:
- Salt and pepper
- 1 can whole kernel corn, drained
- 1 can Ranch Style beans
- 1 can stewed tomatoes
- Let simmer 10 or so minutes on low heat, stirring occasionally.

Mrs. S.B. Reeves, the leader, explained that marketplace missionaries were those who accept the role and responsibility to witness and minister in a general lifestyle and in a specific involvement.

The topics discussed by Mrs. V.I. Woodfin and Mrs. J.T. Parker emphasized the work done by them in hospitals, homes, day care centers and apartments.

Mrs. Riley Thompson was in charge of the prayer period for missionaries on the birthday calendar.

During the business directed by Mrs. Roy Smith, Mrs. Glen Mitchell was recognized as a new member. It was voted to make a monetary gift to Wichita Falls State Hospital for the Silvers read a letter from Eltie Bell, a volunteer missionary from the church to Samoa.

BEN BARBOZA AND CAROL CRUSH

Announce engagement

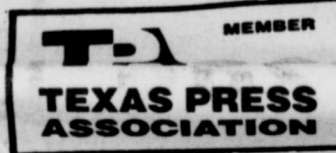

Mr. and Mrs. Erle Crush announce the engagement of their daughter, Carol, and Ben Barboza, son of Mr. and Mrs. Bento de Silva Barboza of Warren, R.I.

Miss Crush was graduated from Iowa Park High School and holds a masters degree in counseling from Midwestern State Univ. She is employed at the Wichita Falls State Hospital. Her fiance holds a bachelor's degree in criminology and is employed by the Department of Corrections at Huntsville.

The couple will be married Dec. 7.

ART, CRAFT SHOW OCT. 5 AT BURKBURNETT

Burkburnett annual fall arts and crafts show, slated Oct. 5, will feature 82 booths this year. Space and show information can be obtained by calling 569-1769 or 569-1794. Reservations can also be made for the Dec. 7 Christmas arts and crafts show.

Friendship Class elects officers

New officers and chairmen of the Friendship Class of First Baptist Church were elected during the monthly meeting held Tuesday.

The new slate includes: Mmes. O.S. McLemore, president; Elmer Singleton, vice president; Walter Scott, secretary; J.T. Parker, assistant secretary; D.H. Ford, corresponding secretary; C.L. Metz, treasurer; Homer Blalock, reporter.

The group captains elected were Helen Reed, Mmes. Leo Fletcher, Ruth Hill, Clay Davis, F.L. McCoy. Other chairmen named were Mmes. M.E. Goforth, bridge builders; E.T. Patterson, devotional and yearbook; D.O. James, program, C.L. McKinnon and Metz, outreach.

Mrs. Singleton reads "My Divestment" for the devotion, and Mrs. Lloyd Lowe and McCoy were in charge of recreation.

The hostesses were Mrs. V.I. Woodfin and Mrs. Goforth. Refreshments were served from tables covered and decorated in fall colors.

As I See It....

By BOB HAMILTON

Hardly anyone will notice the small type below the paper's name on the front page of this issue, stating "Vol. 17, No. 1."

It's understandable, because very few people ever pay any attention to that sort of thing.

But to us here at the Leader, and in particular Dolores and me, those abbreviated words and numbers mean a whole lot. They, in fact, let you know that this publication is beginning its 17th year in business.

Yessir, the evening of Sept. 16, 1969 was spent with our entire family all loaded in our old station wagon, tossing a copy of Vol. 1, No. 1 onto every yard in Iowa Park.

I mention this, after having reflected on the fact that there are only some 10 businesses of any sort still operating here under the same ownership as back in 1969, to let you know we appreciate your patronage and readership.

We've come a long way from that eight-page edition. But we are the first to recognize the fact that without our advertisers and subscribers, we would not exist today.

So, I just wanted to tell you all... Thank You!

I've never yet figured out why it is that those people who are employed as "public servants," that includes people who are paid with tax money, have come to expect annual salary increases or "cost of living" increases in some cases.

Apparently, those in public service are of the belief that those in the business world can and do simply increase their prices to increase their income.

This is not necessarily the case, in fact, in many cases, it is totally incorrect.

People in the business world, in general, increase their incomes by working harder, investing more, spending longer hours, taking greater risks or by using their creativities to make more money.

What brought all this up were the salary increases taken this month by everyone on the county payroll, thanks to our commissioners' court.

Members of that same court gave themselves a monthly increase of more than \$100. In fact, the \$1,546 increase each receives puts them up to \$32,458 annually. And the judge, who also sits on the court, got a \$1,796 monthly hike, getting him up to \$37,708.

At the same time the court is fighting off a big salary increase request by deputies of the sheriff's department, the court hiked the sheriff's salary by a whopping \$4,042, to \$36,500.

That last increase could come home to haunt members of the commissioners' court, because the deputies, who are now, for all practical purposes a union, are apparently going to force a referendum on their request for more pay.

But I'm not going to beat the drum for the deputies, even though there are a number of them who are my friends. I say this for two reasons.

First of all, I'm not about to support a union of any kind. Most especially teachers or law enforcement people.

Secondly, I think the deputies made a big mistake at the outset of their appeal for more pay when they wanted parity with the Wichita Falls

Police Department.

Because the Wichita Falls people want to pay their officers a particular pay scale does not necessarily mean deputies should get the same.

And the request for parity came at the same time Wichita Falls was advertising for police recruits. Certainly, if any deputies were qualified, and they should be because of training and knowledge of law, it would be easy to change jobs and get the kind of money they were seeking.

From what I know of our deputies and their work, they should receive good pay. I'm not sure I can determine what "good pay" would be for a deputy. But in most businesses, it's what the employer can afford.

As for this business of comparing one's salary with what someone else is getting, I've had a belly full of that. A lot of people are being overpaid on that basis, and a lot of budgets are being strained trying to meet the payroll.

Pay should be based on a person's worth and employer's ability, not on what someone in a similar position receives.

Juvenile girls arrested on shoplifting charges

Two arrests of juvenile shoplifters were made during the past few weeks by officers of the Iowa Park Police Department.

Both involving young females, the first was Saturday afternoon at Wal-Mart and the second was Tuesday afternoon at Allsup's.

After being taken to the police station and notification made with the county juvenile officer, the girls were released to guardians, according to the blotter.

Though no one was injured, Easy Shop Food Store, Johnson and Expressway, sustained heavy damage shortly before midnight Saturday when a car driven by Jerry Willis Firebaugh slammed into a wall.

Firebaugh explained to police his brakes failed. It was noted on the accident report he had neither insurance on his vehicle nor a drivers license.

Besides several rows of bricks at the south corner being dislodged, a large plateglass window was broken.

Jimmy Lee Davis, 40, was arrested Thursday on three outstanding

China to be Morris' 23rd foreign trip

Willie Franklin Morris of Iowa Park left Monday for Beijing, China, his 23rd trip to a foreign country.

Among the countries he has South America, Pakistan, Germany, France, Iraq, Guatemala, and Costa Rica, just to name a few.

Morris has been travelling to foreign countries as a service representative of Walker Neer Manufacturing for the past 17 years to supervise drilling operations.

As a 25-year employee of Walker Neer, he has worked as a combination driller and a mechanic.

All of the travelling, although he says it can be tiresome, has taught him a lesson in world affairs. He says "I never talk about religion or politics (to the natives). That's where you can get into trouble."

Only one time in his 17 years of travelling has he ever run into any kind of trouble. While in Pakistan, there was a cholera epidemic that he was not aware of. Since he had not had a cholera booster shot, plane officials wouldn't let him get off the plane until he was in New York.

San Jose, Costa Rica, made it to the top of his list as the nicest foreign country with the kindest people he had ever visited.

Morris and his wife, Lois, have lived in Iowa Park 11 years.

Class of '76 making plans

Representatives of the Class of '76 at Iowa Park High School are in the process of planning next year's 10-year reunion, and assistance from former classmates and their relatives is being requested in order to correspond with them, Mrs. Mark (Candy) Smith said.

Currently, addresses of 76 graduates are needed, she noted, and

graduates themselves can either call (817) 495-7165, or write Mark Smith, Rt. 2, Electra, TX 76360. Also, relatives of graduates should attempt to contact Smith to give a current mailing address for the classmate.

Coordinators of the reunion are hoping that all members of the class have made contact in order that plans can be finalized in advance.

I.R.A.	9.85%	10.450%

Don't be fooled.

If you're thinking about buying a satellite receiving dish for your home, don't let someone convince you that you'll be able to receive all premium cable television services for free.

Some premium services, like The Pleasure Channel and ONTV are already electronically scrambled by the people who produce the program service. In the next few months, Home Box Office (HBO) and Cinemax will begin scrambling their signals with highly sophisticated electronic encryption devices. Later in 1985, The Movie Channel and Showtime will scramble their signals.

This theft-prevention measure is not limited to premium services either. Some basic cable television services like ESPN, MTV and Cable News Network have announced plans to scramble their signals.

Don't let someone convince you that decoding or descrambling these signals can be accomplished with the addition of a cheap black box. As legal receivers of these satellite signals, we have had to purchase a special decoder for each encrypted channel we provide, and they're not cheap. And unauthorized reception of some satellite programming may violate federal law.

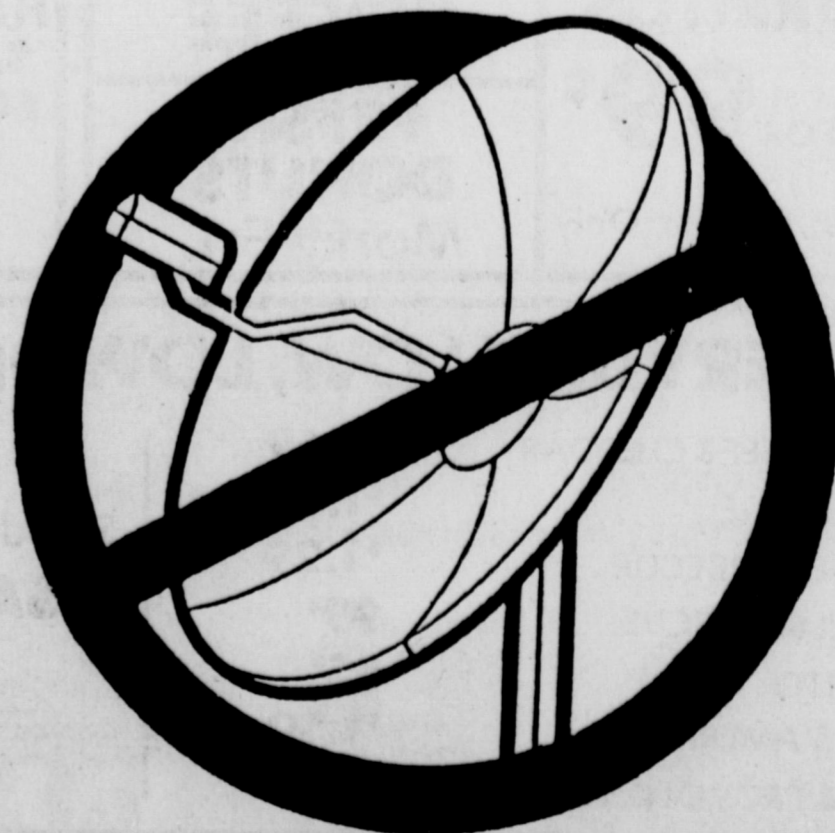

Someday, legal decoders will be available for home use. But no one knows when, and no one knows how much they will cost. We do know that those who get

them will have to pay a fee just as we do not.

With Cablevision though, you can get most of the signals you and your family want without the expense and inconvenience of having your own satellite dish or descrambling equipment. And if your cable malfunctions, it's repaired free, and usually within a matter of hours after you report the problem.

If you're considering buying a satellite dish, we urge you to ask the dealer some questions first. Don't get stuck with thousands of dollars of useless equipment.

UMW meets

Mrs. China B. Smith concluded the Bible study of "Imitators of God" by Letty M. Russell based on the book of Ephesians for the United Methodist Women Tuesday morning.

Using the fifth chapter of Ephesians read by Mrs. Tom Compton, Mrs. Smith gave the author's view of the importance of Paul's letters and the impact they have made in each generation. She said that although the writings of these letters by Paul himself is controversial, his influence is greatly felt in all of the writings and teachings of the book of Ephesians. "The fact remains, however, that the instructions which Paul has been given credit for are wise safeguards for a holy or whole life with God," she said.

In conclusion, the discussion was given over to the members to express their opinions of the author's statement that the book of Ephesians could be dangerous depending on the interpretation given.

It was brought out that today's

generation gives an interpretation which is a far cry from the age in which Paul lived. The role of women in today's world was given as a good example.

The study ended with the emphasis that there are many ways for people to be imitators of God today, one of the most important way being to live lives of love and concern and make of God's earth what he created mankind for.

Twenty one members were present.

Music Study Club resumes meetings

The Modern Music Study Club resumed activities for the new year Thursday evening at a salad supper held in the home of Mrs. D.D. Burrell with Mrs. B.G. House, the co-hostess. Fall centerpieces and napkins were table decorations.

Mrs. Kenneth Davis, president, explained the programs and activities for the new year. The hymn of the

month, "Hear My Prayer" was played by Mrs. John Rentschler, and Mrs. Michael Sargent led the members in singing it.

New pages were handed out for the yearbooks and a club songbook was chosen.

The next meeting will be held Oct. 10 at the home of Mrs. Sargent.

Flying in his plane, the Winnie Mae, Wiley Post completed the first round-the-world solo flight in 1933.

SERIES ON PROPOSED CHATER

Article 5 addresses administration

Article 5 of the proposed Home Rule charter addresses the administration of the day-to-day operations of the city. It further gives legal authority for certain offices and outlines the duties, responsibilities, and authorities of each of these jobs.

In January of 1976, the city council created the position of city administrator to provide professional, full-time oversight of the city's daily operations. Since the city has grown to be a \$2-million per year business, the council felt that more time and attention was needed than could be given by a Mayor with other job duties. The proposed charter confirms this administrative arrangement with the authorization of a city manager. The city manager is appointed by the council to an

indefinite term, and is responsible to the council. As chief administrative officer, it is the city manager's responsibility to oversee the city's personnel and operations.

The police department is the second administrative section addressed. The proposed charter establishes a police department and charges it with the responsibility of preserving the order. It creates the office of Police Chief and gives the incumbent authority to run the operations of the department within guidelines established by the council and city manager.

The office of city secretary is next established and charged with the responsibility of keeping all necessary and required records of the city. The city secretary is responsible for the city seal and its proper use.

A city court is the fourth office established by the charter. The judge is to be appointed by the council, and serves at the pleasure of the council.

The council is required to appoint a city attorney who shall represent the city in all legal matters and be the legal advisor of the city and its various departments.

As a final charter-authorized department, the fire department is created and ordered to be maintained. The positions of fire chief and fire marshal are created and stipulated; and authority is expressly given to maintain a volunteer fire department.

The planning and zoning commission is the only advisory board which is expressly required by the charter. A minimum of six members serving two-year terms are detailed with the order of business and coordination left to the council and commission.

Finally, authority is given to the council to create, abolish, and/or consolidate any other departments that may be desirable or necessary to the normal transaction of business. These would include such departments as the landfill, parks, library, water and sewer operations, and the recreation center.

The fifth article of the proposed charter creates and authorizes the basic structure of the governmental operation while giving the council the discretion to make realistic changes as conditions demand. It guarantees that the council will retain control of the operation by setting policy and through selection of the city manager. It gives management authority to the salaried personnel who are charged by the council with executing the policies that have been established.

It is not the purpose of this series of articles to persuade people to vote for or against ratification, but rather to give information so that each voter may cast an informed and intelligent vote as he or she sees fit. Home Rule is intended to allow the people at home to decide what they want their government to be.

Questions are welcome. We will try to answer as many questions as possible over the coming weeks. They should be addressed to the **Iowa Park Leader** or to **City Hall, Attn: City Administrator**. Remember to vote Nov. 5!

The Eyes Of Texans

FACTS AND FALLACIES ABOUT NEARSIGHTEDNESS

Now that school has started once again, it might be a good idea to review a few facts about myopia or nearsightedness. For miscellaneous trivia buffs Myopia comes from a Greek word meaning to squint the eyes. It is too long for the power of the eye causing the rays of light from a distance object to focus in front of the retina making for a fuzzy image. On the other side of the coin, just about all myopes can see "20/20" at some near distance. Even tho it may be 2 inches from their nose. Myopia is a biological process caused by heredity and not by eyestrain as many folks think. It usually doesn't appear before age six and it usually gets worse as a child grows. Tho it usually stops or slows down after growth stops. The earlier a child gets myopia the worse the final amount will be. Glasses correct it but not cure it. Hard contacts can sometimes slow it down. A new "cure" is a Radial Keratotomy operation. We'll discuss this surgical procedure next time.

VITAMIN A AND CANCER

It is no longer news that deficiency of vitamin A is associated with a higher than normal incidence of lung cancer.

Also, for some time now, it has been known that by applying certain derivatives of vitamin A to the skin we can shrink lesions, such as melanoma [a light-induced pre-cancerous skin blemish].

Researchers, furthermore, have shown that leukemia cells growing in the laboratory can be changed back into normal human blood cells with a chemical made from vitamin A.

The big question, of course, is whether we should all be taking a vitamin A derivative every day to prevent cancer. Vitamin A itself, in doses greater than the recommended daily allowance has a toxic effect which outweighs the potential benefit.

Beta-carotene [the yellow pigment of carrots, and of some other vegetables and fruits], however, is a natural precursor of vitamin A that is said to be relatively harmless [except for infertility in women], even if enough of it is taken every day to stain the tissues.

For this reason, the *Lancet* [2:325, 1984] reports, 20,000 American doctors are taking large doses of beta-carotene in a trial to determine whether this will reduce cancer.

OVER THE TOP GOES SCOTT WEAVER, WHO HAD 86 YARDS AGAINST 'DOGS

DEFENSE:

Mean Green pulls Friday 13th horror on Bulldogs; wins 9-3

While a lot of movie writers have made a lot to do about the horrors of Friday the 13th, the Hawk defense last week made somewhat the same impression on the Burk Burnett Bulldogs.

Even the weather played a big part in the Mean Green victory, similar to how the screen writers use weather in their horror stories.

Burk's players, coaches and fans likely had a sleepless night after the game, thinking about the play of the Mean Green Defense that held the Class AAAA team to a net 88 yards, as well as being on the short end of the score, 9-3.

That defensive play was highlighted by two fumbles covered by tackle Kevin Haney, two pass interceptions by Stephen Biddy, a safety tackle by Shawn Price, and the punting of Robbie Wilson.

The victory was Iowa Park's sixth of the past 17 meetings between the two schools.

Just before the teams went onto the field for the pre-game coin toss, a threatening front hit the field. While the following rain and sprinkling presented no particular problem to the teams, a hard easterly wind kept play on the west half most of the evening.

That same wind played a big part in the strategy of the game.

For instance, Iowa Park won the coin toss, and opted to defend the east end and kick off to Burk. On the second play, a Burk player fumbled and the Hawks had possession on Haney's capture at the Hawk 44.

The drive stalled at the 11, however, and the first of Robert Adams' field goal attempts was missed.

After losing three yards on three plays after the kickoff, Burk attempted to punt, which resulted in a 13-yarder and gave the Hawks possession on the Bulldog 30.

Five plays later, a 20-yard pass from Ray Sefcik to Biddy was apparently good for a touchdown. But was called back when the Hawks were charged with having an illegal receiver downfield.

Adams attempted his second unsuccessful field goal, but again it was wide right.

Burk took over at the 'Dog 25, but two plays later, Haney had his second fumble recovery.

It took the Hawks only six plays to cover the 25 yards to the end zone this time, sending fullback Wilson over the final two yards.

Adams' kick for the extra point was good, making the score 7-0 with 1:57 remaining in the opening quarter.

Having the wind to their backs didn't help things much for the visitors. While they had runs of 15 and 22 yards, and another pass for 11 more yards, the Bulldogs were held to a net 30 yards offense the entire period.

Playing a big part in holding the 'Dogs were one of Biddy's interceptions, after Burk had driven to the Hawk 12, and a screen pass that resulted in a seven-yard loss when Price sniffed out the play and made a big open field tackle.

Yard-losing tackles were also recorded during the period by Danny Forman, Wayne Oltman, and Greg Feltman.

Late in the third quarter, the Bulldogs were able to drive from their own 36 to the Hawk 21. But a tackle by Haney set them back to the 25, from where Burk's fine kicker, Dwayne Browning easily split the uprights for a 42-yard, wind-aided field goal.

A 44-yard punt by Wilson was killed at the Burk two yard line by David Meissner, which led to the two-point safety in the fourth period.

Three plays netted only one yard. And it was then, the 'Dogs gave up an intentional safety in order to not attempt a punt from deep in their end zone against the hard wind.

Still in the game, trailing only 9-3, Burk tried one more drive to pull the

game out.

With 1:27 remaining, but starting from the Bulldog 20, the visitors picked up a first down and gained 18 yards on two plays.

But all hope was killed with 37 seconds remaining, when Biddy made his second pass interception.

Junior tailback Scott Weaver led all Hawk backs offensively, rolling up 86 yards on 23 carries. But most of that came in the first half, because he was held to minus yardage on six of his last seven carries.

The two Hawk fullbacks, Wilson and Randy Boutwell, accounted for 93 yards, 45 by Wilson and 48 by Boutwell.

Wilson's punting in the fourth quarter kept the Bulldogs with their backs against the goal line. Using the wind to his advantage, he had punts of 44, 46 and 63 yards.

Send your thoughts with special care.

Patience Eagles wear down Boyd, 28-6

Stonewall Bunch stingy with yards

Through much of the first half Friday night in Boyd, Holliday Eagle fans watched anxiously as the 'Jackets played tooth-and-nails football right alongside the Big Red, and the smell of potential upset was as real at that moment as the smell of rain from a storm brewing somewhere in the valleys of Wise County.

Ultimately, though, the Eagles patiently waded through tiring Boyd players and a barrage of timely yellow flags to overcome 28-6.

Much like the building storm to the east, Holliday built momentum of its own as the game progressed, finally unleashing its fury with a touchdown in the late stages of the first half, and continuing the assault into the final half with three unanswered touchdowns.

It was an impressive night for Holliday statistically, as the offense mounted 258 total yards and 14 first downs (including 57 passing yards!), while the Stonewall Bunch humbled Boyd's offense, giving away a meager five first downs and under a 100 yards total offense. The active referees made a game of it, too, almost beating Boyd's output with 80 yards of their own, 160 yards in 19 nearly unquestionable acts of justice.

THE GAME

Holliday received the kickoff facing

a very stiff easterly wind. Starting on their 20, the Eagles tallied their initial first down on two rushes minus a five-yard penalty. Tim O'Brien opened things up with a nine-yard run, a delay cost Holliday five, then fullback Larry Krob bulled for six and a first down. Three plays and three penalties (against Holliday) later, Pat Parker first encountered a too-eager Boyd rusher, who was called for roughing, and a five-yard Boyd penalty.

Back once again to punt, Parker spiraled a high punt towards midfield, but the force of the wind started the ball on a backwards trajectory on the way down, for a 28-yard effort, well below his average.

SO?

Well, it could have been, should have been, Holliday's first score of the contest on its next possession, after forcing the 'Jackets to turn the ball over on downs at the Eagle 33. One play, an O'Brien express-special for 67 yards, was called back on a clipping infraction, giving the Eagles and their fans a good indication of what almost always happens in 'Jacket Stadium when Holliday comes to town. A good looking over. From the guys in stripes.

A resulting letdown by the Big Red forced another punting situation. This

time, Parker's punt spiraled even higher than the first, eventually landing five yards from the line of scrimmage at the 38.

Boyd mounted its only scoring drive from that spot, taking nine plays and no penalties before Tracy Stringfellow broke loose from two yards out for the game's first score. Bull rider/head hunter Bobby Pautsky found a hole in the 'Jacket line on the point after conversion attempt, blocking both the ball and the kicker to keep the 'Jacket lead at 6-0.

Boyd's touchdown came in the first minute of the second period, and the teams traded possession of the ball for the next five minutes. Field position became an important factor at that time, as the Eagles drove from their 33 down to the Boyd one, before turning the ball over on downs. Much of the 66 yards in the drive was made up on one run by Krob for 64 yards to the three.

O'Brien was tackled behind the line for a three-yard loss on the next play, and two more subsequent rushes netted only five yards to the one.

Although Boyd now had the ball, it also had that terrible gust to contend with, and a punt from the five three plays later netted only 22 yards to the 'Jacket 27, setting up Holliday's first touchdown drive.

Parker ran for five on a keeper, followed by two runs by O'Brien for six and a first at the 16. From there, Parker rolled to his right, and landed a perfect strike to receiver Les Dolberry in the endzone to tie the game at 6-6. Parker split the uprights on the conversion to put the Big Red ahead 7-6 with just over five minutes left in the half.

Boyd gave Holliday possession shortly before intermission at its 33, and Garner Mahan's 13-yard run placed the ball at the 19, where O'Brien took over with two runs for another first down at the 'Jacket six.

With 19 seconds left, O'Brien was stopped for no gain, and time ran out on the Eagles before another play could be called.

SECOND HALF

Dolberry returned a Boyd punt across midfield to the 48 two minutes prior to the start of the fourth quarter, and the Eagles drove for another score, this one taking five plays, capped by Krob's 10-yard run. Parker hit the point after with eight seconds in the third period to extend the lead to 14-6.

Dolberry once again crossed midfield on a punt return to the 'Jacket 49 with just under six minutes left to play. A temporary setback of 15-yards by the refs was quickly countered with a 38-yard burst from sophomore David Hoepfner to the 28. Parker once again found Dolberry, this time for a 27-yard reception to the Boyd one, where O'Brien took it over for the score. The kick by Parker upped the score to 21-6 with four

minutes left.

Boyd experienced more frustration following the kickoff, as Bryan Box recovered a forced fumble at the 'Jacket 35. Jerry Berryman and Kyle Bedford traded runs, with Bedford breaking over on his second attempt for a 21-yard burst into the endzone, and the point after kick sealed the score at 28-6. Bedford's first rush was for 10 yards, giving him 31 yards on two carries for a 15.5-yard average.

O'Brien was the leading rusher in the contest with 52 yards in 15 carries, as the senior back performed with his best effort this season.
