ARCHITECT DON DAUGHERTY EXPLAINS HOW CLASSROOM WILL FIT IN SHOP ...to school board members and school administrators on tour Monday.

Water, trash costs major city concern

The rising price of purchasing water and getting rid of trash were the major topics of Monday's city council meeting.

Aldermen approved a resolution accepting a 26-percent increase in the price of treated water purchased from Wichita Falls.

And they heard a report on alternatives to disposing of trash, including the possibility of incineration.

Wichita Falls raised the rate of treated water effective May 1. While no rate increase is anticipated for residents of Iowa Park before the city's new fiscal year, which begins Oct. 1, the rate increase will be passed on to the two major bulk purchasers from the city, Wichita Valley Water Supply Corporation and Sereno Lago housing development.

Resolutions were approved for negotiating new rates from the two customers by the same 26 percent.

Various alternatives to handling the city's trash were explored in a letter from Mike Price, public works director, who was unable to be at the meeting because he was attending a landfill management licensing school in Canyon.

Price said he had discussed with cities who were contracting their sanitation work to private contractors, contracting to have the city's own landfill brought up to state requirements, doing the work with city employees, and going to incineration.

Of all the operations, Price said, "...although they're costly, I believe they are the answer to the future in sanitary waste."

Mayor Tim Hunter explained the city was under close watch by the state to adapt new standards at the local landfill, standards that will require very expensive preparation and operation.

But the main problem, he pointed out, was that more changes and greater costs of operating landfills are to come in the near future.

Administrator James Barrington and Price recently made a trip to East Texas communities using incinerators, to study their operations, costs and effectiveness.

Barrington said, "You wouldn't recognize the facility at the City of Center, if you didn't read the sign in front of the building. There was no smoke visible."

A continued study of alternatives to the present landfill operation will be made during the next few months, and a report of what the city plans to do must be made to the state this fall, Hunter said.

Aldermen, at the request of the Optimist Club, is considering the sale of the Recreational Activities Center building, it was reported at the Monday meeting.

Barrington said he had held a meeting with representatives of the RAC board, United Way and Optimists, to discuss the proposal.

The mayor suggested to the council that no action be taken until a public hearing could be held to receive public comment.

The hearing will be part of the council's next meeting, May 18.

Hunter said every member of the council had been personally contacted by a local citizen with a request the city spend money on the Friendly Door to improve it.

The mayor pointed out that the senior citizen facility was privately owned, by the Evening Lions Club, and therefore the general laws charter forbids such expenditures of public money.

Hunter appointed Aldermen Diane Robnett and Johnny Coker to work as a committee to look into an historical marker for the building, and any possible grants which could be used for the structure.

A public appearance request from James Moore to have a four-way stop sign installed at the intersection of Mary and Rita was considered by the council.

Moore said a lot of young families with children live in the neighborhood, and he felt traffic there was unsafe.

Police Chief Alan Sheffield said patrol units had checked the intersection, since Moore's letter of request was received, and only two vehicles were clocked at speeds above 30 miles per hour: 34 and 35.

Sheffield pointed out the traffic at the intersection has to slow down because of a deep drain area, and also that northbound traffic on Rita faces a dead end at Mary. He did not recommend a four-way stop.

Hunter told Moore more study would be given to the proposal, and action would be taken at the next council meeting.

An ordinance change was approved for licensing of electricians, raising the fee to the same as Wichita Falls and Burkburnett, and permitting use of insurance rather than bonding.

An on-going subject, purchasing of a tractor mower, was finally resolved when the council approved rejecting all bids following an agreement to contract for the mowing service.

Following a 23-minute executive meeting with the city attorney on a subject of "pending or contemplated litigation or settlement offers," Hunter said there would be no action.

He explained a property owner in the area of the alley in the 900 block of Van Horn had sought compensation for damage claimed.

"Work will proceed with paving our alley project as was originally intended," he said. The alley is between Van Horn and West Highway.

Also approved at the meeting was authorization for travel expenses to two meetings for members of the council and the administrator, and two resolutions.

One resolution recognized the 10th birthday of the Friendly Door, and the other the Chamber of Commerce and others who participated in this year's Clean-Up Week project.

Trustees tour campuses to study proposed needs

If the school board were to approve everything school administrators have on their "wish list," the maximum estimated cost would be \$2,303,210.

Those were the estimates given by architect Don Daugherty Tuesday night when trustees held a work session to look over facilities and see first-hand the areas of request.

The board also heard a proposal which could allegedly save some 30 percent of the utilities cost, by an energy management program.

Board members and administrators used a school bus to visit each of the campuses, as well as the vocational agriculture livestock area. The two-hour tour was followed by an informal meeting at the administration building where cost estimates were explained by Daugherty.

Supt. Glen Mitchell told the board he would have recommendations for setting priorities on work to be done at the next meeting.

Daugherty explained the figures presented were probably high, and added that many of the items listed could be altered for cost-cutting purposes and some requests could be delayed three to five years before they became immediate needs.

Basic needs for the 1987-88 year, according to Supt. Glen Mitchell, are a portable classroom for Kidwell Elementary, two portable classrooms for Bradford Elementary if the legislature does not amend its requirement for 22 pupils per teacher for the fourth grade, remodeling the blue building at junior high and creating a classroom in the general construction building at high school.

In his presentation to the board, Bill Spears of Wichita Falls said he felt confident his energy manage-

ment program could decrease the cost to Iowa Park schools 20 to 30 percent per year.

He said Wichita Falls decreased its average energy cost of \$95.01 per pupil to \$63.63 over the past four

years, even though airconditioning has been added.

Iowa Park's energy average is \$94.31 per pupil. A decrease of 20-30 percent would generate from \$150,000 to \$235,000 over a five-year period, trustees were told.

Spears said his program was under way at Lubbock, Conroe, Electra, Huntsville, Willis and Vernon schools, besides Wichita Falls.

Initial start-up, with consulting fees, surveys and equipment would be approximately \$23,000, and some \$4,200 each year after that, trustees were told.

REGULAR MEETING

Trustees will hold their regular meeting at 7:30 p.m. Tuesday in the administration building, when Supt. Mitchell will present his list of facility needs and set priorities.

The board will also consider a contract for energy management at that time, according to the agenda.

Also on the agenda, trustees will act on proposals for student transfers here next year, appoint delegates to the state school board convention, hear reports on taxes, transportation, cafeteria and enrollment, and accept resignations and employ new personnel.

Egging culprits known to police

Investigations into a rash of recent egging of automobiles in the northwest part of town has resulted in identification of an adult and three 13-year-old male juveniles.

Police talked Monday with the four, and are waiting to see if any formal complaints are lodged.

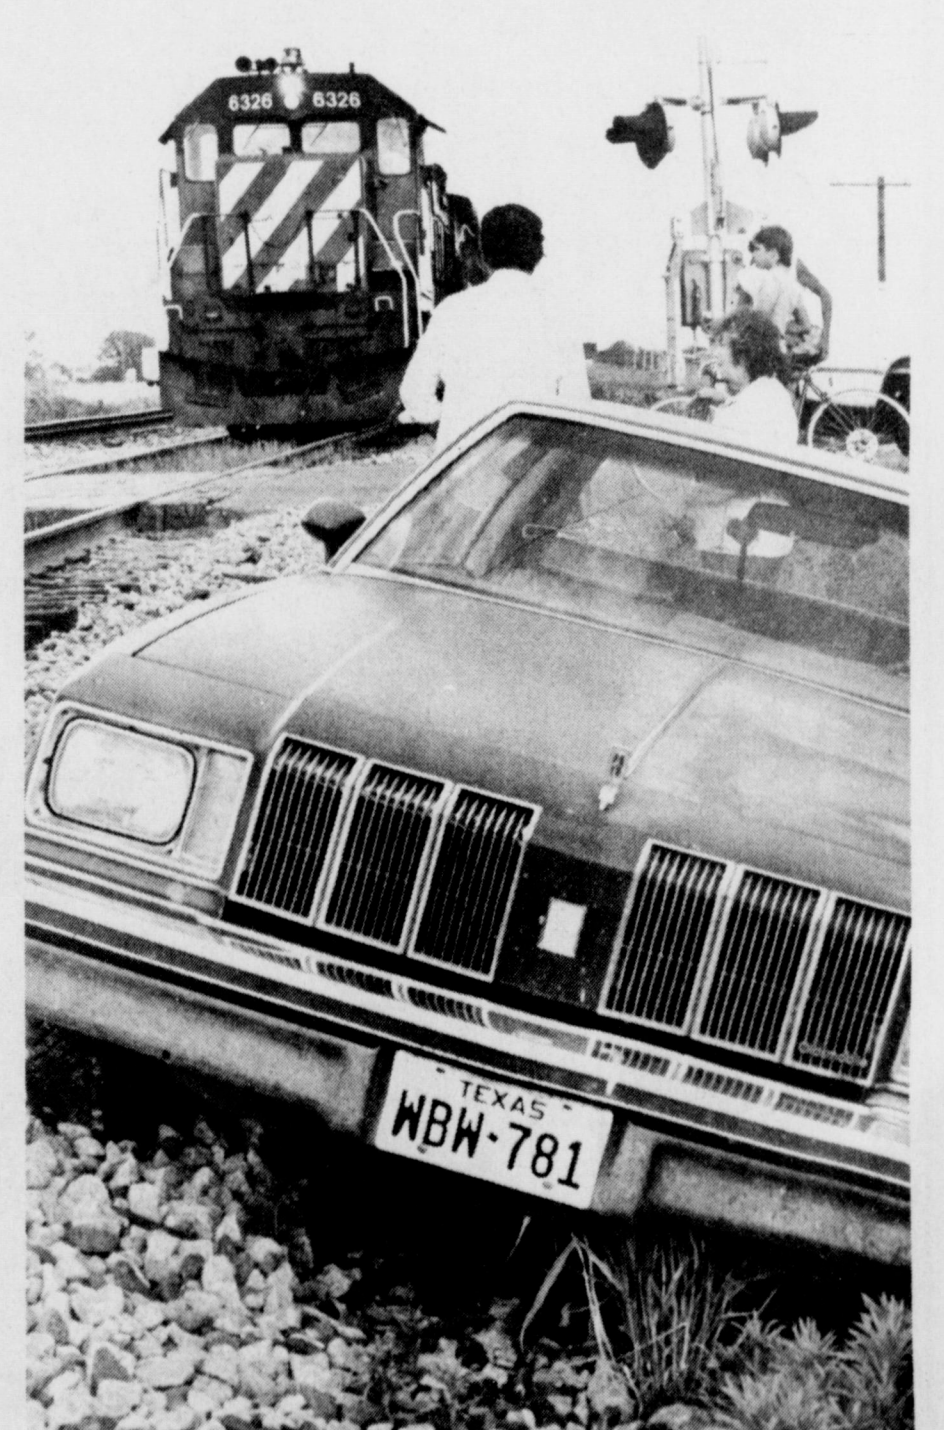

According to the police blotter, numerous vehicles were hit by eggs, but only two phone-in complaints were made and no formal complaints of owners was filed.

Following an early-morning chase of a vehicle from Johnson Road to Harmony on the Access Road, police made an arrest for public intoxication.

According to the blotter, police arrested James Earl Hand, 20, at 1:43 a.m. Tuesday on the intoxication charge.

NERVOUS ANTICIPATION - Kay Kinnett waits with police officer Tommy Adams while fireman extinguish a kitchen fire Friday morning at her 1303 Westridge home. Damage was extensive in the kitchen.

CLOSE CALL - Louis Glover Hopkins of Rt. 2, Iowa Park, avoided injury and her car was only slightly damaged when the vehicle was struck by a train Monday afternoon at the Bell Road crossing. The crossing arms began lowering as she approached the crossing. She explained the swerved to avoid hitting them, slid to a stop on the gravel, and seeing she would not have time to move the car out of the train's path, exited. Damage was restricted to the rear of the vehicle. She is shown talking with a Burlington investigator.

Does your subscription to the Leader expire this month? check the list on page 4.

Night BW has meeting

The Night BW of First Baptist Church met on the patio of Mrs. D.O. James Monday evening. Mrs. Terrel Silvers and Mrs. V.I. Woodfin were co-hostesses.

Mrs. Silvers directed the business when it was voted to use the local food bank for the May outreach project, and members made monetary contributions. Mrs. Roy Smith discussed needs of the Wichita Falls State Hospital and it was voted to collect items during the next three months to send to the Volunteer Services at the hospital.

Mrs. E.T. Patterson had charge of the missionary prayer calendar.

Mrs. J.T. Parker led the program on "The Single Serve," taken from the Royal Service publication, which emphasized the contributions that single people make to Christian endeavors.

Topical discussions by Mmes. C.L. McKinnon, W.F. Booher, Riley Thompson, S.B. Reaves and Homer Blalock featured the work of Doug Kellum with the Indo-Chinese refugees in the Philippines and Yvonne Helton with the women in Guatemala.

Fifteen members and one guest, Mrs. O.S. McLemore, were present.

Shower fetes bride elect

HOLLIDAY - Miss Debbie Trainham, bride-elect of Terry Baker, was honored with a miscellaneous bridal shower Saturday at the home of Mrs. Mickey Shannon in Wichita Falls.

The co-hostesses were Mmes. Reta Lewis, Mary Carlton, Jean Cullar and Alison Smyers.

Decorations were governed by the bride-elect's chosen colors of rose and pink, and a hand crocheted cloth made by Mrs. Parker covered the serving table.

The couple will be married June 27 at the First Baptist Church in Holliday.

Cook of the Week

Most cooks have learned to capitalize on fresh fruits and vegetables when they are in season. For the most part, the consensus is that nothing can really substitute for the taste of fresh produce, and lettuce is one of the favorite vegetables eaten raw, particularly in salads and for sandwiches.

Mary Bragg (Mrs. Dean) Kirkpatrick uses a whole head of lettuce in her Caesar Salad recipe, one that she relies upon to supplement her casserole dishes that she prepares ahead of time and freezes.

Lettuce is a refreshing vegetable and is widely eaten, more than any salad plant. It has been on the human menu at least since 800 B.C. when the Assyrian herbal listed it among 250 plants grown in Babylon.

The kings of Persia had lettuce on their tables about 550 B.C., and it was also grown in Egypt. Lettuce seeds have been found in Egyptian tombs.

The first lettuce did not come from heads but put out leaves from a central stalk. The Romans taught it to form heads.

In the early years, lettuce was popular among the Romans, in China, France and England. Columbus himself is supposed to have introduced lettuce to the New World. Thomas Jefferson grew it and was fond of it. As a whole, Americans resisted the charm of it until after World War I, but today they are so devoted to it that it is one of the few foods whose consumption does not fall off when the price rises.

Mrs. Kirkpatrick, the former Mary Bragg of Henrietta, was graduated from Henrietta High School and from North Texas Univ. with a B.A. degree. A faculty member of the Iowa Park Junior High School where she teaches sixth grade reading, she is working toward a master's degree from Midwestern State Univ. She has taught at Denison, Henrietta, Farmersville, Archer City and here four years.

Her husband, Dean, is the defensive coordinator for the high

Mrs. Dean Kirkpatrick

school varsity football team. They have two children, Trey, eight years old, and Sean, 21 months old.

Mary is a member of the Methodist Church and TSTA and she enjoys reading.

CAESAR SALAD

- 1 clove garlic, mashed
- 1/2 cup salad oil
- 1 (2 oz.) can anchovies, optional
- 3-4 tomatoes, diced
- 1/4 cup lemon juice
- 1/2 cup Parmesan cheese, grated
- 1/4 cup blue cheese, crumbled
- 1/2 cup Worcestershire sauce
- 1 head lettuce
- 1 cup croutons
- 1 beaten egg
- 1/2 tsp. salt
- 1/2 tsp. pepper

Combine garlic and salad oil, let stand. Combine lettuce, tomatoes, croutons and anchovies. Strain oil-garlic mixture. Pour over vegetables. Combine remaining ingredients, beat well. Pour over salad, toss lightly. Garnish with sliced tomatoes. Yield: 6 servings.

WATERGATE SALAD

- 9 oz. carton Cool Whip
- 1 cup miniature marshmallows
- 1 small can crushed pineapple and juice
- 1 box (3 1/4-oz.) instant pistachio pudding mix

- 1/2 cup chopped pecans
- 9 oz. carton cottage cheese

Mix all ingredients together in one bowl and put in refrigerator. Chill one hour and serve.

FRUIT COBBLER

Use any type of fruit filling desired-2 cans.

- 1 cup sugar
- 1 tsp. cinnamon
- White cake mix
- 1/4 stick margarine

Preheat oven to 350 degrees. In a mixing bowl, mix 2 cans of fruit filling and 1 empty can full of water, 1/2 cup sugar and 1 tsp. cinnamon.

Lightly grease a 13x9x2 baking dish, sprinkle 1/2 cake mix on bottom of greased pan, alternate fruit mixture and cake mix, ending with cake mix as topping. Sprinkle remaining 1/2 cup sugar on top and dot with margarine. Use a knife to perforate holes throughout mixture. Bake at 350 degrees 30 to 45 minutes or until golden brown.

BAKED LASAGNA

- 1 pkg. lasagna noodles
- 1 1/2 lb. ground chuck
- 1 tsp. salt
- 1 tsp. celery salt
- 1 tsp. oregano
- 1/4 tsp. pepper
- 1 can tomatoes (medium size)
- 2-8 oz. cans tomato sauce
- 1 cup water
- 1/2 cup grated Parmesan cheese
- 1 cup cottage cheese, drained
- 1/2 pound Cheddar cheese
- 1/2 pound Mozzarella cheese
- 4 cloves garlic, chopped

Brown meat in heavy skillet, add water, salt, celery salt, oregano, pepper, garlic and cook over medium heat 8 minutes. Add tomatoes, tomato sauce, cottage cheese and simmer 20 minutes. Cook lasagna noodles in boiling water 10 minutes. Drain and cool enough for handling.

In medium casserole, put a layer of noodles, pour part of meat sauce, then add a layer of Mozzarella cheese.

Repeat this until all meat sauce mixture is gone, but always ending with meat sauce and cheese. Top with grated Parmesan and Cheddar cheese. Bake at 350 degrees 30 minutes. Serves 8.

MANICOTTI NOODLES

- 1 1/2 pound ground beef
- 1 cup chopped onion
- 1 cup chopped bell pepper
- 1 pkg. (6 oz.) Mozzarella cheese
- 1 box manicotti noodles
- 1 large jar zesty Ragù
- 1 tsp. salt
- 1/2 tsp. pepper
- 1 cup bread crumbs
- 1/2 cup milk
- 2 eggs, slightly beaten

Preheat oven to 350 degrees. Brown ground beef (add onion when almost done). Start noodles according to directions. Drain beef and onion grease. Add bell pepper, cheese, salt, pepper, bread crumbs, milk and eggs. Heat on medium, stir until cheese melts. Add 1/2 jar of Ragù.

When noodles are done, rinse with cold water; let noodles and meat mixture cool. Stuff noodles. Place in a greased pan. Add a little water to remaining Ragù and pour over noodles (try to completely cover noodles). Bake 25 to 35 minutes at 350 degrees.

Brandt initiated

Debbie Brandt of Iowa Park was among 25 initiates recently inducted into Midwestern State Univ. Mu Beta Chapter of Kappa Delta Pi.

Students accepted into the honor society are considered outstanding students in the field of education and must have a 3.25 grade point average.

Jayna Case of Iowa Park is president of the organization.

Jack Jordan - 412 Texas
Ginger Cave - 707 E. Park
Jenny Stone - 102 James

Look Who's New

Braden Cole, a seven pound, eight ounce son, was born to Mr. and Mrs. Brett Perry of Waukomis, Okla. April 30. Mrs. Perry is the former Deena Hefner of Iowa Park.

The grandparents are Mr. and Mrs. Lyl Perry of Waukomis and Mr. and Mrs. Elvin Hefner of Iowa Park. Great-grandparents are Mrs. Nellie Perry and Mr. and Mrs. Gale Johnson of Enid, Okla., Mr. and Mrs. Jim Taman of Ardmore, Okla. and Mr. and Mrs. Leon Hefner of Frederick, Okla.

Lunney, Fulfer exchange vows in ceremony Saturday evening

A large host of relatives and friends assembled at the Faith Baptist Church Saturday evening to witness the solemn recitation of marriage vows by Miss Cynthia Anne Lunney and Brian Neal Fulfer. The bride is the daughter of Rev. and Mrs. Richard D. Lunney and the groom is the son of Mr. and Mrs. W.H. "Sonny" Fulfer.

The double-ring ceremony was written and officiated by the bride's father. He was assisted by Johnny Huff at the beginning of the service during the time Rev. Lunney was escorting and presenting his daughter in marriage.

The registry table in the church foyer where Miss Tammy Holder of Altus, Okla. presided and greeted guests was covered with white satin featuring a tiered skirt and a ruffle of white lace and pearls around the top. It held a small basket of pink, blue and white silk poppies, daisies, lilies and stephanotis, a white pillar candle encircled with the same flowers, and a royal blue pen and book.

A candlelight setting for the wedding was provided by tall tapers and an abundant use of votive candles. The tapers burned in three crescent candelabra ornamented with palm greenery joined to form arches in the choir loft. Votive candles flickered in crystal cups on the choir rail and in the tree candelabra that flanked the white-cushioned prayer bench. All of the brass fixtures were trimmed with fresh palm greenery.

The unity candelabrum was a distinct part of the setting and represented in a special way the lasting and enduring qualities of the marriage vows.

The rails in front of the organ and piano hold large white wicker baskets overflowing with silk carnations, tulips, gladiola, roses and stephanotis in spring pastels.

Church windows were decorated with small baskets of flowers like those on the guest book table and white pillar candles. Royal blue satin bows centered with large white mums marked the pews where the parents and grandparents sat, and white satin bows decorated the

remaining pews in the church sanctuary.

As guests arrived for the wedding, they were inspired by the harp music presented by Mrs. Bob Turnipseed of Wichita Falls who played "Angelus," "Little Fountain" and "Path to the Sea." Miss Cindy Loveless played the flute with her as they presented "Green Sleeves," arranged especially for the two instruments, while the mothers of the couple lighted the candles on either side of the unity candle.

The bride's mother was escorted by Jeff Lunney and the groom's mother was escorted by Dale Haley and the groom's father.

The vocal music was provided by Mr. and Mrs. Craig Whisnand. He sang "Only the Beginning" for a prelude selection, "To Me" while the bride and groom were lighting the unity candle, and the sang the "Lord's Prayer" together during the ceremony. Miss Cindy Harper was the piano accompanist.

The processional "Trumpet Voluntary" and the recessional "Trumpet Tune and Air" were played by David Eakins, piccolo trumpeter, and Mrs. Billy Hacker, organist.

The bride entered the sanctuary with her father who walked with her to the altar, gave her in marriage, and took his place as minister to perform the ceremony.

On the day of her dreams, the bride wore a gown of her dreams designed by Demetrics for Sposaeuropa of shimmering white satin. It was fashioned with an exquisite Queen Anne neckline bordered with iridescents and tiny seed pearls. Lace appliques and seed pearls covered the entire bodice to the flattering basque waistline. The back of the bodice was of satin and netting covered with lovely lace appliques, and tiny covered buttons added the perfect touch.

The sleeves of the gown were puffed satin flowing into tapered sleeves beautifully adorned with lace appliques, iridescents and pearls reaching to form a point of lace over the back of the hand. The gracefully full skirt flowed into a semi-cathedral train bordered

MRS. BRIAN NEAL FULFER

with delicate lace appliques to match those scattered over the entire skirt.

Her matching hat covered with reembrodered lace and tiny seed pearls featured a dipped brim and fingertip length of ruffled netting at the back to complete the ensemble. She carried a full teardrop cascade of silk tulips, roses, baby carnations and lilies in spring colors complemented with English ivy.

She followed tradition by wearing two blue garters, one to keep and one for the groom to throw for "something blue." In her hair, she wore an ivory rose hair clasp that belonged to her maternal great-grandmother for "something old." Her bridal gown was "something new," and "something borrowed" was a strand of pearls and matching earrings, belonging to her mother. The bride also wore a penny in her shoe dated the year of her birth.

During the ceremony, she presented red roses to her mother and to the groom's mother at appropriate times.

Miss Amy Silvers served as maid of honor. Miss Kim Fulfer, sister of the groom, and Miss Lisa Maness were bridesmaids. Gowned identically, each wore a royal blue satin gown fashioned with sweetheart neckline, puffed sleeves, and a

large white satin bow at the back which was encircled by a satin belt.

They wore fresh baby's breath wreaths in their hair and carried white lace fans adorned with bouquets of spring flowers in the chosen pastel colors finished with royal blue and white ribbons.

Kristen Cooper, the flower girl, was attired in a dress identical in style to the attendants' gowns and wore a duplicate floral wreath in her hair. She carried a small basket filled with baby mums and daisies. The basket was trimmed with a royal blue bow and blue and white streamers in keeping with the bride's colors.

Ryan Huff, the ring bearer, wore a white formal tuxedo featuring short pants, satin-trimmed cutaway jacket, white ruffled shirt, white satin bow tie and cummerbund. He carried a white damask pillow trimmed with lace, tiny royal blue ribbon roses and streamers.

The words "with this ring I thee wed" were cross stitched in royal blue on the top of the pillow, and on the reverse side the names "Cindy and Brian" were done in cross stitch. Attached to the pillow were the bride's tiny gold baby ring, and a gold cross from a necklace that the bride's father gave to her mother on their wedding day.

The groom wore an all-white After Six tuxedo with tails, matching flairs, tie and cummerbund.

Homer Brown of Wichita falls, the best man, Lynn Fulfer, brother of the groom, and Jeff Sanders, the groomsmen, Jeff Lunney, Mike Lunney, brothers of the bride, and Dale Haley, the ushers, wore silver classic tuxedos with matching flairs, white quarter wing-tipped shirts, sapphire royal blue ties and cummerbunds.

All men wore blue carnations centered with white rosebuds for boutonnières.

The bride's mother wore a tea-length dress of blue Wedgewood georgette designed with double mock jacket with tapered sleeves. The groom's mother wore a tea-length royal blue sheath dress accented with ruffled at the hem, royal blue lace over blouse. They wore shoulder

corsages of spring flowers.

The attractively decorated Fellowship Hall of the church was the scene of the reception hosted by the bride's parents following the wedding.

Exquisite grace was accomplished in the design of the bride's table draped with white satin swagged with white double chiffon accented with large chiffon bows at the center front and corners.

The table's appeal was highlighted with the magnificent cake centerpiece of floral design. The four-tiered cake featured two sets of sugar pillars trimmed with lattice work, ornamental borders, and layers embellished with cascaded of sugar petunias, agapanthus, bridal trumpets, forget me nots in shades of blue and white with a slight touch of royal blue. The base of the cake was encircled with the sugar flowers in pastel hues.

The crowning touch was a hand-molded and painted porcelain vase based with small porcelain doves filled with light blue and white sugar flowers.

The cake was flanked with royal blue candles in crystal holders. A silver tray held mints in the shape of white wedding bells. The silver knife and cake server were engraved with the names of the bride and groom and their wedding date. The silver was seen again in a rose and lettering "Our Life, Our Beginning, Cindy and Brian, May 2, 1987" on the royal blue napkins.

A separate table draped like the bride's table held a large silver punch bowl and goblets engraved with names of the couple and their wedding date.

The bride's cake was served by Mrs. Don Beals of Iowa Park, Mrs. Dick Haas of Wichita Falls, Mrs. Claude Zachary of Cleburne, Mrs. Bob Smith of Euless, Mrs. Leon Dollins and Mrs. James Holder, both of Altus, Okla. Serving at the punch table were Mrs. Michael Kuehler and Mrs. Charles Haas of Wichita Falls, Mrs. Daryl Beals of Iowa Park and Miss Lori Hornell of Cleburne.

The groom's table was covered with a pleated burlap cloth. It held a

chocolate sheet cake covered in chocolate roses, a brass coffee service, knife and cake server and nut dish. Also on the table were a brass candelabrum entwined with English ivy with etched votive globes covering yellow candles, banked with yellow daisies and dried brown flowers. The beige napkins on the table were engraved like those on the bride's table.

Mrs. Jeff Lunney of Iowa Park, Mrs. Michael Lunney of Throckmorton, Mrs. Jimmie Kasperek of Iowa Park, Mrs. Janet Holder of Altus, Okla., and Miss Kari Holder of Stillwater, Okla. served at the groom's table. Other members of the house party were Mrs. Donald Potter and Mrs. Harrell Riggins.

The guest book table at the reception was covered with white lace caught up with royal blue bows. It held a brown leather and gold display frame of bridal portraits, book and pen.

The gift table was covered with white lace and held two wicker baskets with royal blue bows filled with rice bags. It also held a toss-away bouquet. The rice bags were passed out to guests by Lori Kasperek.

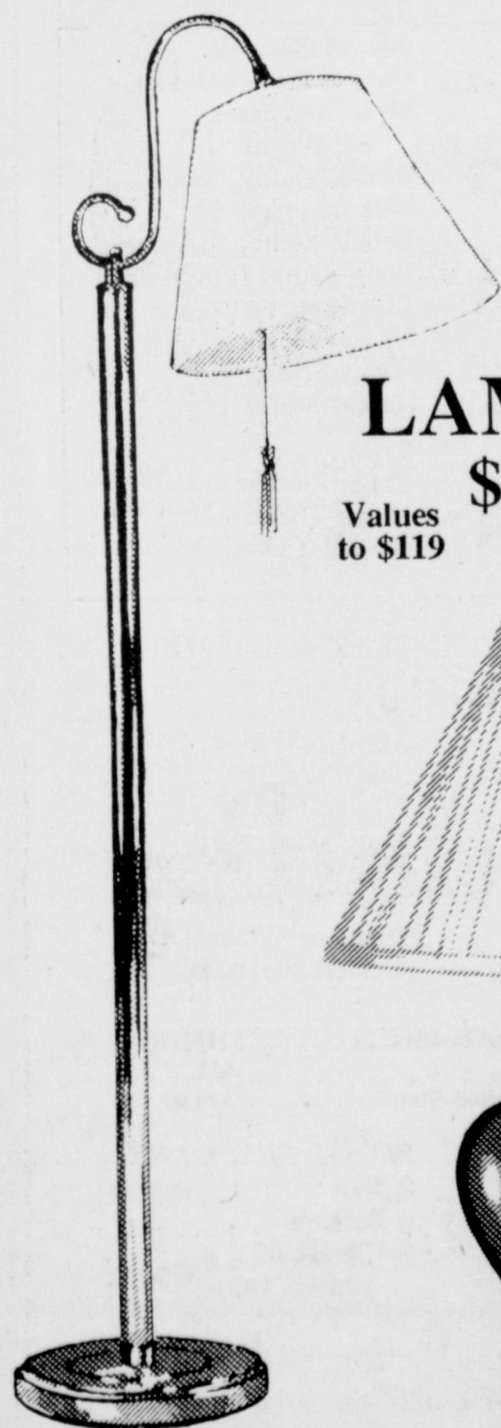

The groom's parents hosted a catered rehearsal dinner Friday evening at the church.

Following the reception, the bride and groom left for a wedding trip to Dallas, the bride travelling in a light blue denim dress with white lace collar. They will live in Iowa Park. She was graduated from Iowa Park High School, is taking courses at Vernon Regional Junior College, and is employed at Bethania Regional Health Care Center. He was graduated from Iowa Park High School and work for Production Machine and Tool Co.

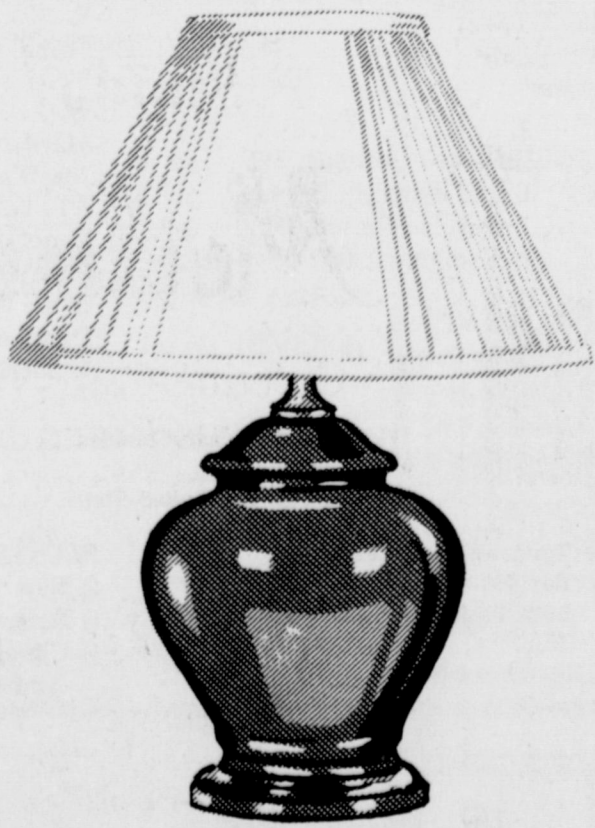

Special wedding guests were Mrs. Ruby Holder of Altus, Okla., Mrs. Hugh Lunney of Larimore, N.D., grandmothers of the bride, Mr. and Mrs. Neal Moore of Fort Worth, grandparents of the groom, Sister Agnes Veronica Lunney of Minneapolis, Minn., Mr. and Mrs. George Stephens of Fort Worth and Mrs. Helen Young of Kamay.

As I See It... By BOB HAMILTON

Good gosh, what happened to our water?

I haven't tasted that foul since I was forced to drink Paducah's gip water while on harvest in 1947.

It's stupid to feel you have to wear a gas mask to take a shower.

Any room with standing water, like a toilet bowl, smells worse than an old fashioned outhouse.

And if you make ice with the water, and put it in a drink, it's even worse!

I'd probably be in a better mood if I could have just one good cup of coffee in the morning. But I'd rather be in a foul mood without my morning coffee than feel like I'd just eaten a fresh salad at a roadside stand in Mexico.

City Administrator James Bar-

ington assures me the tasty liquid is definitely not being produced in our own water plant.

It's coming from Wichita Falls.

How appropriate.

The water hit our lines Monday, and that night, the council met Wichita Falls' demand to raise price to them to buy water (?) by 26 percent.

I suppose Wichitans are drinking the same stuff, but that doesn't make me feel any better about it.

Anyone in the sales business knows that if they give a customer a product less than desirable, they either take it back or make an adjustment on the price.

It's so bad, you can't even find a bottle of water at a grocery store.

Wichita Falls water people can give all the excuses they want, but if they were working for me, I'd fire

everyone in the department.

The only thing this situation is good for, is the soda pop people. Man, their business is booming.

Barrington said his people are putting some stuff in our ground storage tanks to try to kill the taste and smell, but our towers and lines are full of it, and there's no telling how long this will be with us.

The water quality is kinda like being sick: when everything is back to normal, we'll try to remember what it was like when it wasn't.

But I don't think I'll ever forget this week, the water, the taste, and my opinion of the Wichita Falls Water Department.

Municipal Court Records

Results of municipal court held here yesterday were:

- Darrell Ray Franklin, exhibition of acceleration, \$43;
- Roy Lee Hollis, expired license plate, \$49;
- David Wesley Ward, speeding, taking defensive driving course (DDC);
- James Lee Rivers, ran stop sign, DDC;
- Robert Atkins, violation ordinance prohibiting allowing dog to roam at large, \$50.

states that have no handgun carry laws or laws that allow arbitrary issuance, Brown said.

"A carry licensing system will not turn Texas into the Wild West as some handwringers have predicted. Law-abiding citizens who have been checked by the Texas Department of Public Safety, the licensing authority, by definition obey laws, including those that prohibit criminally using a firearm," Brown said.

"To assume that all or even some people would misuse their firearms if given a carry license is to ignore the basic fact that someone intent upon committing a criminal act is not deterred by additional laws. The Texas firearm carry law will return to the law-abiding citizens of our state the choice of whether to carry a handgun for self-protection, and force criminals to think twice about whether the next person they intend to rob just might be carrying a gun," Brown said.

Basically, I support Brown's opinion and favor passage of the law. I would, however, add another requirement before a handgun carry license is issued to an individual. Individuals should be required to pass a course teaching them the safe and responsible handling of firearms, and they should have to demonstrate their proficiency with the firearm they intend to carry.

LEWIS SIMMONS
Clay County Leader

Worth Quoting

It's not uncommon for Texans to debate the confusing issue of when and where it's legal to possess a handgun. Having participated in many of the conversations, it is my observation that few people understand Texas law with regard to handguns. Private citizens are confused, judges are confused and law enforcement officers are confused. In fact, everyone is confused except the criminals who carry and use weapons in the commission of crimes with absolutely no regard for the law.

My experience has been that it largely depends on the law enforcement officer there on the scene as to whether the possessor of a handgun is cited for breaking the law. I submit that a goodly number of vehicles running up and down the highways have pistols poked under the seats and in their glove boxes and that a surprising number of people go about their business every day with firearms tucked away in their purses and waistbands.

It seems rather confusing to me why it's legal in Texas to carry a rifle or shotgun in the gunrack of a pickup truck, yet it's illegal to carry a pistol in the glove box. The average law-abiding Texan cannot legally carry a gun for self-protection.

A bill has been introduced into the Texas Legislature that proposes a system whereby individuals can be licensed to carry handguns. Sponsors of the bill are Senator Ken Armbrister and Rep. Ron Wilson.

They propose that an applicant for a carry license will have to be 21 years old, never have been convicted of a felony, not be a habitual user of drugs or alcohol and not be an illegal alien or an adjudicated mental incompetent. Applicants would have to undergo a criminal background check.

A carry license would be issued to those who qualify within 90 days of application, and those denied a license would be able to appeal the decision. Denials would be allowed only if an individual is ineligible based on objective criteria.

"A fair and reasonable licensing system will allow those law-abiding Texans who choose to carry a gun for self-defense to lawfully exercise that right and prevent criminals from obtaining a license," said Dr. James Brown, legislative director of the Texas State Rifle Association, former president of the Texas Gun Collectors Association and a member of the board of directors of the National Rifle Association.

Brown observed that criminals already are carrying concealed firearms in violation of the law. Allowing law-abiding citizens to arm themselves can only discourage criminals, who won't know if their intended victims can effectively fight back. Are handguns an effective means for self-defense? The answer is clearly yes.

Three separate surveys have shown that people use a handgun to stop a crime as many as 350,000 times a year. A U.S. Justice Department survey of incarcerated felons found that criminals try to find out if their potential victims are armed because they are more worried about confronting an armed victim than they are of running into the police.

In states that have equitable carry laws, crime rates are lower than in

Churches, city projects boost permits

Three church projects and another by the city have pushed Iowa Park's building permit total well past the half-million-dollar mark for the year.

Permits issued during April were for \$365,292, almost triple the sum of the first three months of 1987.

Heading the permit list was the Faith Baptist Church's new auditorium on South Wall. That permit, itself, was for \$260,000.

The third church project was for the First Christian Church, repairs, \$7,800.

Added to that was a new parsonage for Lakeview Church of God, \$54,220, and a \$5,500 pavillion now under construction by the city, in the park behind city hall.

Other permits issued in April were:

- J.A. Jacobi, 713 W. Clara, addition, \$2,016;
- Cecil Yoder, 613 Rebecca, addition, \$6,430;
- Gary Williamson, 407 W. Lafayette, addition, \$500;
- House Moving, Wall and Ruby, remove, no fee;
- Robert Horton, 1011 W. Cornelia, addition, \$2,880;
- Tom McGrath, 408 W. Texas, storm shelter, \$320;
- Gideon Swedberg, 707 W. Clara, siding, \$2,900;
- Carmen Lozipone, 1312 Sunset, addition, \$2,880;
- Donald R. Jones, 1217 W. Clara, siding, \$864;
- James Rinehart, 713 W. Coleman, alteration, \$5,000;
- Cecil Catlin, 900 E. Cash, repair, \$750;
- Helen Burrell, 802 Vogel, repair, \$500;
- Teresa Johnson, 110 W. Alameda, repair, \$1,500;

Thomas Cowart, 1017 Van Horn, addition, \$1,600;

Kevin Myers, 601 S. Park, addition, \$504;

David White, 310 E. Alameda, new garage, \$6,750;

A.A. Ohm, 401 E. Lafayette, addition, \$192;

Carl Kent, 1211 S. Wall, alteration, \$1,000;

Jack Jordan Sr., 412 W. Texas, repair, \$1,200;

Bob Auds, 710 W. Manes, repair, \$500;

Robert Goodknight, 604 W. Washington, addition, \$2,016.

Oklaunion plant plans open house

West Texas Utilities Co. will open its new coal-fired Oklaunion Power Station to the public Saturday, May 16, with an open house from 10 a.m. until 3 p.m.

"We're inviting everyone interested in seeing this new plant to come out and take a tour," said Glen D. Churchill of Abilene, president and chief executive officer of WTU.

"We've had many requests from people who've seen the plant from a distance and we know there are many others wanting a close-up view of one of the largest electric generating units in the state," Churchill said.

Both walking and riding tours will be available during the five-hour

open house period. Refreshments will be served and souvenirs will be handed out to all visitors, with special favors for children.

Plant Manager Chuck Adami said plenty of parking space will be available and that members of his staff will serve as tour guides.

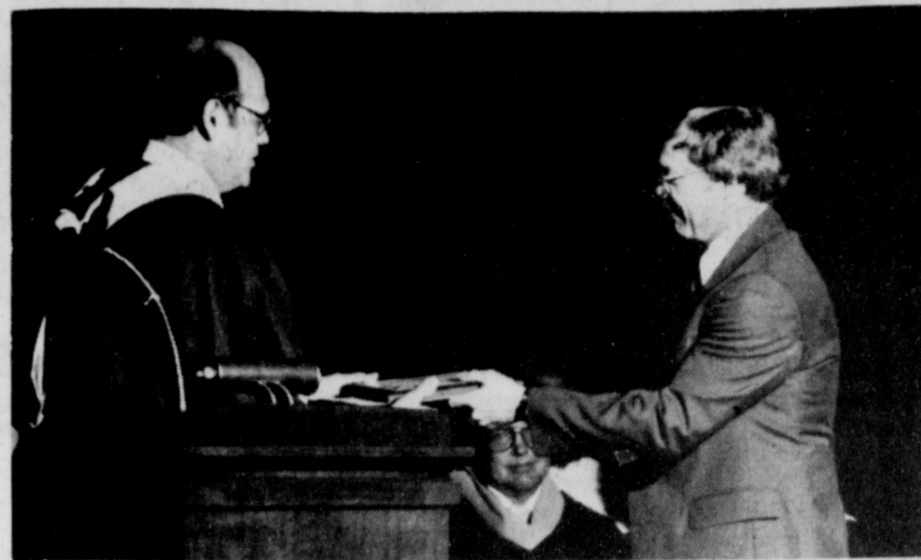

"We're proud of the plant and we're hoping for a large crowd on May 16," Adami said. He urged visitors to wear casual attire, including comfortable walking shoes.

Oklaunion Power Station is the largest in WTU's system and the first to burn coal as boiler fuel. The coal comes by train from Wyoming. The

plant is situated about eight miles southeast of Vernon and has become a landmark visible from all major highways in the area.

Construction began in May 1982 and the plant was completed and placed in service last December.

WTU, a member of the Central and South West System, owns 54 percent of the plant and is the operating company. The remaining ownership is shared by Public Service Co. of Oklahoma and Central Power and Light Co., both CSW companies; Oklahoma Municipal Power Authority and the City of Brownsville.

JOSEPH HIGGINS of 1307 Westridge was named Outstanding Mid-Management Student during the honors convocation program April 29 at Vernon Regional Junior College.

Pearson completes school

Airman John E. Pearson, son of David Pearson of Tryon, Okla., and Marlene Smith of Holliday, has graduated from the U.S. Air Force telecommunications systems control course at Keesler AFB, Miss.

Graduates of the 26-week course learned how to monitor and analyze the performance of radio and wire telecommunications circuits. They also earned credits toward an associate degree in applied science through the Community College of the Air Force.

Pearson, a 1982 graduate of Holliday High school, is married to the daughter of Mr. and Mrs. Jerry Allen, Rt. 3, Wichita Falls.

Tourism can improve economy

Prepared by the Institute for Communications Research, Texas Tech University.

Attracting tourists and diversified businesses and industries are the two most liked alternatives among the state's residents for improving the Texas economy.

And while Texans by a three-to-one margin also support attracting out-of-state investments in the Lone Star economy, they are reluctant to seek foreign investments.

Those "Texas Views" are the findings of a survey conducted by the Institute for Communications Research (ICR) at Texas Tech Univ. The mail and telephone survey of 387 Texas residents asked what steps should be taken to improve the state economy.

Survey options included attracting foreign investments, exploring overseas markets for agricultural products, attracting out-of-state investments, diversifying the state economy more, levying an oil import fee and increasing tourism. Participants were asked how strongly they agreed or disagreed with those options.

Though all options -- except attracting foreign investments -- received a nod of approval from a majority of the participants, increasing tourism was supported by 90.3 percent.

Diversifying the state economy -- the second most liked option -- drew a positive response from 82.5 percent of the respondents.

While 76.9 percent of those surveyed agreed the state should attract out-of-state investments, the desire for outside investments in the state stops at the U.S. border. Only 37.7 percent of the respondents agreed the state should attract foreign investments.

Though reluctant to have foreign

capital invested in the state, survey participants favored selling the state's agricultural products to foreign countries. Of the participants, 74.5 percent thought the state should explore overseas markets for its agricultural products.

Finally, 62 percent of the participants favored the imposition of an oil import fee to help the state economy.

Attracting tourism was favorably viewed by nine out of 10 respondents, though males were more likely than females by a 94 percent to 87.8 percent difference to favor the tourism option. Support of tourism generally increased with education as 80.1 percent of those with some high school favored it, compared with 97.5 percent of those with college degrees.

Whites were generally more supportive than blacks or Hispanics of increasing tourism. Some 92 percent of the whites favored the option, compared with 87 percent of the Hispanics and 69 percent of the blacks.

The need to diversify the state economy, which has long relied on oil and agriculture, was equally recognized by participants regardless of their length of residence in Texas. The diversification option was favored by 81 percent of those calling Texas home for less than 10 years and 83 percent of those who had lived in Texas more than 50 years. That closely followed the 82.5 percent total favoring diversification.

Support for diversification generally rose with income, 72.1 percent of those making less than \$10,000 supporting it, compared with 91.7 percent of those earning

more than \$50,000 annually.

The issue of outside investments in the state was polarized between the source of the capital. Out-of-state investment in Texas was favored by 76.9 percent and disfavored by 9.8 percent of the respondents with 13.3 percent unsure. Conversely, only 37.7 percent agreed with attracting foreign investments, compared with 38.6 percent who disagreed with 23.7 percent who were unsure.

While 74.5 percent of the respondents agreed the state should seek more overseas markets for agricultural products, males were more likely than females to favor this option. Some 86.8 percent of the men, but only 66.9 percent of the women favored exploring overseas markets.

Though it would have to be imposed by the federal government, an oil import fee was favored by the respondents, though not as much as other options. Some 62 percent of the respondents favored such a fee, compared with 15.1 percent who were opposed and 23 percent who were unsure.

The survey results for "Texas Views" were announced by ICR Director H.J. Hsia. The survey, conducted in the last quarter of 1986, has a margin of error of plus or minus 5 percent.

LOOK WHO'S NEW

A seven pound, five ounce daughter, Malorie Annette, was born to Mr. and Mrs. Lynn Fulfer of Iowa Park April 29.

She has a brother, Jeremy Lynn, 21 months old. Mrs. Fulfer is the former Teresa Smith.

Grandparents are Boyt Smith Jr. of Paris, Elaine Brisco and Mr. and Mrs. Sonny Fulfer all of Iowa Park. Great-grandparents are Mildred Moore and Bea Smith, both of Iowa Park and Mr. and Mrs. Neal Moore of Haltom City.

Summer in the PARK

Church group has indepth study about Asia

Mrs. Eldon Thompson, Christian Global Concerns chairperson of the First United Methodist Church, presented the spring study programs for UMW in two sessions. The basis for the study was "Spirit and Struggle in Southern Asia" by Barbara W. Chase and Martin L. Man.

Mrs. Thompson introduced the study with a question "Have you an answer for Asia?" She briefly told the history of five nations in Southern Asia, India, Bangladesh, Sri Lanka and Nepal.

She said that the nations have a great deal in common and could very well be classed as "third world." All are poverty stricken but could be defined as "developing countries," and the majority of the people follow deep-rooted religions that shape their natural cultures, she stated. Regarding the Christian faith, Mrs. Thompson remarked that it is a small minority but is making significant contributions and influence.

The speaker observed that politically the five nations are now independent but continue to struggle

for full political, economic and military independence. She said that there were significant differences among the nations as to faith, location, size, culture and economy, and observed that Bangladesh is one of the poorest countries in the world.

"One wonders," Mrs. Thompson stated, "how both India and Sri Lanka could be among the first countries in the modern world to have women as prime ministers, yet allow women in these countries to remain in social changes that cannot be implemented until women's attitudes about themselves are transformed."

Mrs. Thompson continued to give glimpses of each nation as she unfolded the story about them, starting with India. She said that India with its diverse population of more than 760-million people is a country characterized by contradictions, yet it is one of the world's largest industrial powers. It is also the world's most popular democracy, but it has a complex caste system a thousand years old.

Continuing with India, she said that 150-million of her people are "outcasts" who suffer discrimination in almost every area of life, and that tension among different culture and religious groups often erupt. It is also the largest Moslem country in the world, 82 percent of its people are Hindus, and there are about 25 million Christians in the country.

Mrs. Thompson described Nepal as an official Hindu kingdom and a heavily populated nation. She said that the government is a constitutional monarchy, and once in almost complete isolation it is now opening the doors and borders seeking to become a progressive nation.

The third nation discussed was Pakistan with 65 percent living in rural areas but it is striving to improve its industrial capacity, the speaker said. It has a diverse population and in urban areas 25 percent of its people live in slums, and literacy among the women is no more than five percent.

Pakistan was once a part of India and the relationship between the two countries continues to be rocky. The constitution of Pakistan provides for religious freedom but the government identifies as Muslim. Pakistan has a great influence on Afghanistan refugees, but there is a question as to their leadership and ability to take care of themselves for decades to come, Mrs. Thompson said.

Bangladesh was once East Pakistan. An overcrowded nation, it struggles to maintain itself under the weight of national disasters. The customs of the people are firmly rooted in Hindu-Buddism social structures onto which Islam has been grafted.

Mrs. Thompson stated that Bangladesh is a Muslim country and restrictions are placed on Christians. For this reason, as well as the urgent relief needs, much of the Christian ministry has been in development. She told the UMW members that the United Methodist Committee on Relief has given assistance for such

programs, and that the Christian Workers Class of the local church gives regular support to the program.

Sri Lanka, once Ceylon, today is engulfed in the tragic results of a racial war arising from deep-rooted tensions between the Sinnales majority and the Tamil minority. Riots in recent years have resulted in killing hundreds of Tamil people and widespread destruction of property, the creation of large numbers of refugees and displaced persons. Repressive government actions have been imposed on the people, and Sri Lanka's story is one of the anguish of a divided nation.

The second spring study was an interesting and impressive interpretation of the three religions of the five nations of southern Asia by Rev. John Mollett. He said that of the three religions, Hinduism, Buddhism and Islam, the first is the oldest religion on the world.

He said that 320-million people profess Hinduism which is more of a philosophy than a religion. The doctrine of the wheel of life is one of the most distinguishing characteristics of Hinduism. Rev. Mollett said that Hinduism can be simplified by looking at three basic truths which they believe. They are: The Law of Identification, Karma, the law which fixes the consequences of people's actions, and reincarnation or recurring life.

In discussing Buddhism, the speaker reviewed the life of Buddha, a person who became a beggar for the sake of God. He said that the teachings of Buddha had a challenge that closely resembled the Christian's Great Commission found in Matthew: 18-20. He said of all the human beings who ever lived, Buddha is probably the one who was most like Jesus of Nazareth in his influence on history. One hundred fifty million people attest to their faith in this dominant religion in Southern Asia.

The third religion reviewed by Rev. Mollett was Islam with 450 million followers. The Koran (Mosem Bible) and the prophet Mohammed are Allah's trinity of faith and order for the people of Islam. At the heart of Islam is the

worship of God, and the Muslims believe that the God whom they worship is the same God worshipped by Christians and Jews.

He closed by asking the question again "Is there an answer for these five nations of southern Asia?"

Epsilon Eta plans banquet

Members of Epsilon Eta Chapter of Epsilon Sigma Alpha met Tuesday evening at the home of Mrs. Bruce Robertson in Wichita Falls.

Plans were made for the annual banquet which will be held May 22 at the Elks Club in Wichita Falls when husbands of members will be special guests.

Mrs. Bud Mercer presented the Founders Day program highlighted by special events of ESA through the years.

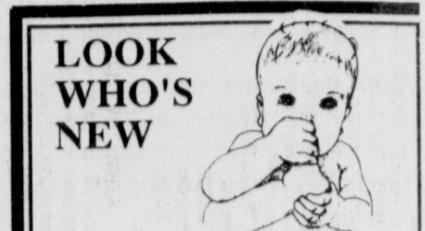

Senior citizen fun day set

The Fifth Annual Senior Adult Fun and Fitness Day will be held May 15-16 in Wichita Falls and at Sheppard AFB.

Falls Bowl will host bowling competition May 15, and all other events will be the following day at Sheppard.

Residents from the 12-county area served by Nortex Regional Planning Commission will participate.

Participants, and observers, will be encouraged to bring their own "brown bag" lunches. A variety of soft drinks, coffee and complimentary snacks will be provided by some local businesses.

A son, Ben Ray, was born to Mr. and Mrs. Mikel Bowling April 28 at the Wichita General Hospital.

He weighed seven pounds, six ounces and has a brother, Boon Fain, two and a half years old.

Grandparents are Mr. and Mrs. Ed Boon of Mineral Wells and Mr. and Mrs. Earnest Bowling of Holliday.

STUDENT HONORED - James Cowley (right), a senior majoring in agriculture education and agriculture business at East Texas State Univ., was recently recognized at the Thirty-Fifth Annual Honors Day Program. Cowley is shown being congratulated by ETSU President Dr. Jerry Morris. He was recognized for his selection to Who's Who Among American Colleges and Universities and participation in the Golden Leos service organization. He was also awarded the Golden Leos Outstanding Service Award; the Alpha Chi, Texas Lambda Chapter, Award of Excellence; Alpha Lambda Delta Certificate; and Alpha Lambda Delta Book Award. The 1983 graduate of Iowa Park High School is the son of Mr. and Mrs. Harold Cowley of Bogata.

Congratulations Senior Citizens

May God look down from heaven above and bless each of you with his wonderful love.

Finnell bills aid elderly

Rep. Charles Finnell announced his sponsorship of two pieces of House legislation that will assist many senior citizens.

House Bill 2583 exempts senior citizens in certain retirement facilities from sales taxes on meals and food products.

"This legislation will benefit those individuals in our communities who are on fixed incomes and are most seriously affected by taxes. I hope the passage of HB 2583 will bring relief to our retired senior citizens," Finnell, ranking member of the House Retirement and Aging Committee, said.

Finnell is also sponsoring a resolution to promote public awareness of Alzheimer's disease. He emphasized that Alzheimer's is often mistakenly termed a mental illness when, in fact, it is a degenerative physical disease.

"I hope citizens will recognize that victims of Alzheimer's need both our full support and our full understanding," Finnell said.

Foster Grandparent impressed with school

By LUCILE HOLM

Several months ago, Sheppard AFB and the Red Door (Wichita Falls) initiated a program for the Sheppard Child Care Center, the first such effort to be undertaken in the U.S. military.

The purpose of this program is to have participating Foster Grandparents visit the Center Friday morning of each week to get acquainted with the children, play with them, and observe their activities.

About 300 children are cared for, in the Center. Many are from single parent homes, or homes of working parents. Some have no grandparents.

Several senior citizens from Iowa Park are active in this program. We get smiles and hugs and kisses from the little ones, and find it to be a very rewarding experience. Myrna Robinson, Site Manager for the Friendly Door, takes us back and forth to the Child Care Center.

The children are well disciplined and are given the best care.

The most interesting thing we from Iowa Park have seen is classes of 3 and 5 year olds who have a lesson each day in Spanish. We have sat in on three of these sessions, which last approximately 15 minutes each.

Their teacher is Hilda I. Diaz from Puerto Rico. She grew up there and has spoken Spanish all her life, since childhood. She has been teaching three or four Spanish classes daily at the Center for the past three years.

When Hilda walks into the classroom, she greets the children in Spanish and they enthusiastically return her greeting in Spanish.

Sometimes she and the children sit in a circle on the floor. In one room, they sat in chairs while she stood in front of them. She then pointed to various charts and illustrations on the board and the children, without help from her, called out in Spanish, and in unison:

- The days of the week
 - The prime colors
 - The ABC's and
 - The numbers to twelve
- Then they sang a song in Spanish.

These children are predominantly white, with a few of ethnic origin. They are a good example of what knowledge can be imparted to preschoolers. They are fantastic, and so is their teacher.

Dyer on team

HOLLIDAY - Patricia Dyer was part of the Midwestern State Univ. Radiology Educational team that recently won third place at the educational tournament held in conjunction with the 1987 State Convention of the Texas Society of Radiologic Technologists in Houston.

Jeannie Kilgore, instructor of radiologic technology, was coach for the team.

BUY A NEW HEATING AND COOLING SYSTEM AT OUR EXPENSE.

It's not often a company encourages you to use less of its product. But if you buy Energy Action-approved heating and cooling equipment, you'll get more than encouragement. Because we'll pay you a cash rebate based on the efficiency rating of the unit you buy.

You see, high efficiency, Energy Action-approved central and room air conditioning systems, heat pumps and assist devices for electric water heaters help reduce the demand on our generating

systems. And the need to build new generating plants. Which not only means we save money, but you'll save, too, with lower monthly electric bills.

To find out more about the rebates and the savings, contact a recognized Energy Action contractor/dealer. Or call us for more information.

Energy Action saves money. And that's the best deal for both of us.

Weaver, Allen earn tickets to Austin

Scott Weaver and Lori Allen will be representing Iowa Park High at the state track meet May 15-16 in Austin.

Both were winners last week at the Region One meet in Odessa.

Weaver won the long jump with a leap of 22-9 1/2, well below his better jumps of the season but considered outstanding by Coach Barry Lucy, who explained high winds held down most distances and times Saturday.

Weaver, the only male from Dist. 6-AAA to qualify for the state meet this year, failed to qualify for the finals in either of the two other events he was entered.

In the high hurdles, he hit the second, stumbled, and wound up with a 14.9. And though he ran a 10.9 in the 100-meter dash, he also didn't make the finals.

Though Allen broke her own school record in the discus with a toss of 120-3, she was eight feet less than Ballenger's entry and placed second.

She threw the shot 35-11 1/2 in the preliminaries, but couldn't better it in the finals, and wound up in

fourth place. The winning toss was 38-2.

Jacksboro and Bridgeport each qualified one girl for the state meet.

Intermediate hurdler David Meissner was well on his way to a possible blue ribbon, but for some unexplainable reason, stumbled about five feet before his eighth hurdle and lost the lead he held.

Meissner wound up in fourth place with a 39.31 clocking, which still broke his school record of 39.5.

Distance runner Brad Huff didn't place in either the 1600-meter run (5:30) or the 3200 (12:11).

The Lady Hawks' 400-meter relay team placed fourth. Valeria Wariner, Stacy Boren, Angie Turner and Laurie Espinoza were clocked in 50.91.

The 800-meter relay team, Turner, Wariner, Shonna Weaver and Amy Payton, didn't make the finals, nor did Espinoza in the hurdles.

Hawks knock around Bulls

Post eighth consecutive baseball victory

The Hawks knocked Bridgeport in all but one inning Saturday, but went on to win, 10-5, and advance their Dist. 6-AAA standing to 2-0.

Though the game was scheduled Friday afternoon at Bridgeport, it was moved here the following day when only one of the two umpires showed up. (That was the third time in four trips there the same thing has happened to Iowa Park.)

Junior hurler Billy Kenyon had it his way in every inning except the fifth. He walked only three batters,

struck out 11, and gave up four hits.

But the only two errors by the Hawks came in the fifth, and opened the door for the Bulls to get back in the game after trailing 6-0.

Jim Nicholson, the catcher, carried the big bat for the green and white against Bridgeport, collecting three hits in his three official at-bats. Eric Whitman went two-for-three.

After they finally got Bridgeport back onto the field in the bottom of the fifth, the Hawks went on to score one run, and added three more in the sixth.

The win was not only Iowa Park's second against conference opponents, but more importantly it was the Hawks' eighth consecutive victory. They were only 2-8 before finding the winning road.

During the lean period, the Hawks couldn't put the wood on the ball. But once they got their eyes on the pitches, they've scored 96 runs on 84 hits in those last eight games.

Robert Adams leads the team with a .409 season batting average. He is .600 against district pitchers.

For the season, his "contact" hitting, which is connecting with a pitch to put the ball into play, is .928.

The most dramatic turn around at the plate has been by another senior, Eric Whitman. He, as well as Nicholson, is .666 in the district games.

But to indicate how improved his hitting is, he is now .404 for the season.

The other starters and their batting averages for the season are: Craig Rickman .333; Terry Sitgreaves .348; Mike Williams .250; Jeff Huff .279; Billy Kenyon .225, and Jimmy Duggins .142.

The starters are averaging .403 in the last eight games, and the bench, according to Coach Daryl Frazier, is .487.

Frazier pointed out that his freshman starting first baseman, Duggins, has a good "contact" average, .718.

Iowa Park's next scheduled game is 4 p.m. Friday at Bowie, the team the Hawks defeated 11-1 here last week. They are to play Bridgeport the following Friday.

Frazier said he is trying to get another practice game in between the final two district outings. He said Monday he was trying to coordinate a game at Weatherford Tuesday against Brownwood. If it's a "go," it'll be played at 4 p.m.

Bowerman region champ

Jenny Bowerman defeated the first, second and third seeded players in the Region One tennis tournament at Odessa last week, and thus may be the first Iowa Park High athlete to ever advance to the state tournament.

Competing Wednesday and Thursday at the Odessa College Tennis Center, Bowerman walked

through four opponents, losing only one match and forced into one tie-breaker, before handily defeating Jennifer Oliveras, the number one seed in the tourney, from Lampasas.

After disposing of Jennifer Hughes of Friona 6-1, 6-2 in the first round, she faced the number two seed, Brownfield's Charla Blay, a 6-0, 6-0 first-round winner.

Bowerman won the first match 7-5, but was forced into a tie-breaker at 7-6, and advanced with a 7-3 win.

The third-seeded player was next in Bowerman's path to her title. Kari Jones of Fabens won the first match 4-6, but the Iowa Parkan took over with a 6-4 win of her own, and then won the semifinal 6-3.

None of Oliveras' opponents had

pushed her to more than 6-3 until her semifinal match against Christy Freeman of Perryton. After winning 6-3, Freeman pushed Oliveras to a 7-5 decision.

Bowerman's deep return shots kept Oliveras off her pace and beyond the back line, and the Iowa Parkan took the championship in straight sets, 6-2, 6-1.

Former IPHS principal Bob Dawson said he was unaware of any local student, male or female, having ever advanced to the state tournament before Bowerman.

The girls' doubles team of Peni Lee and Elaine Elder, second-place winners in district, lost in the first round at region to a Sonora team, 6-1, 6-2.

Only one of the two boys' doubles teams made it out of the first round.

Mark Molsbee and Bill Chandler easily defeated a duo from Amarillo River Road, 6-1, 6-1, before losing 4-6, 7-6, 6-2 to the eventual champions from Marble Falls.

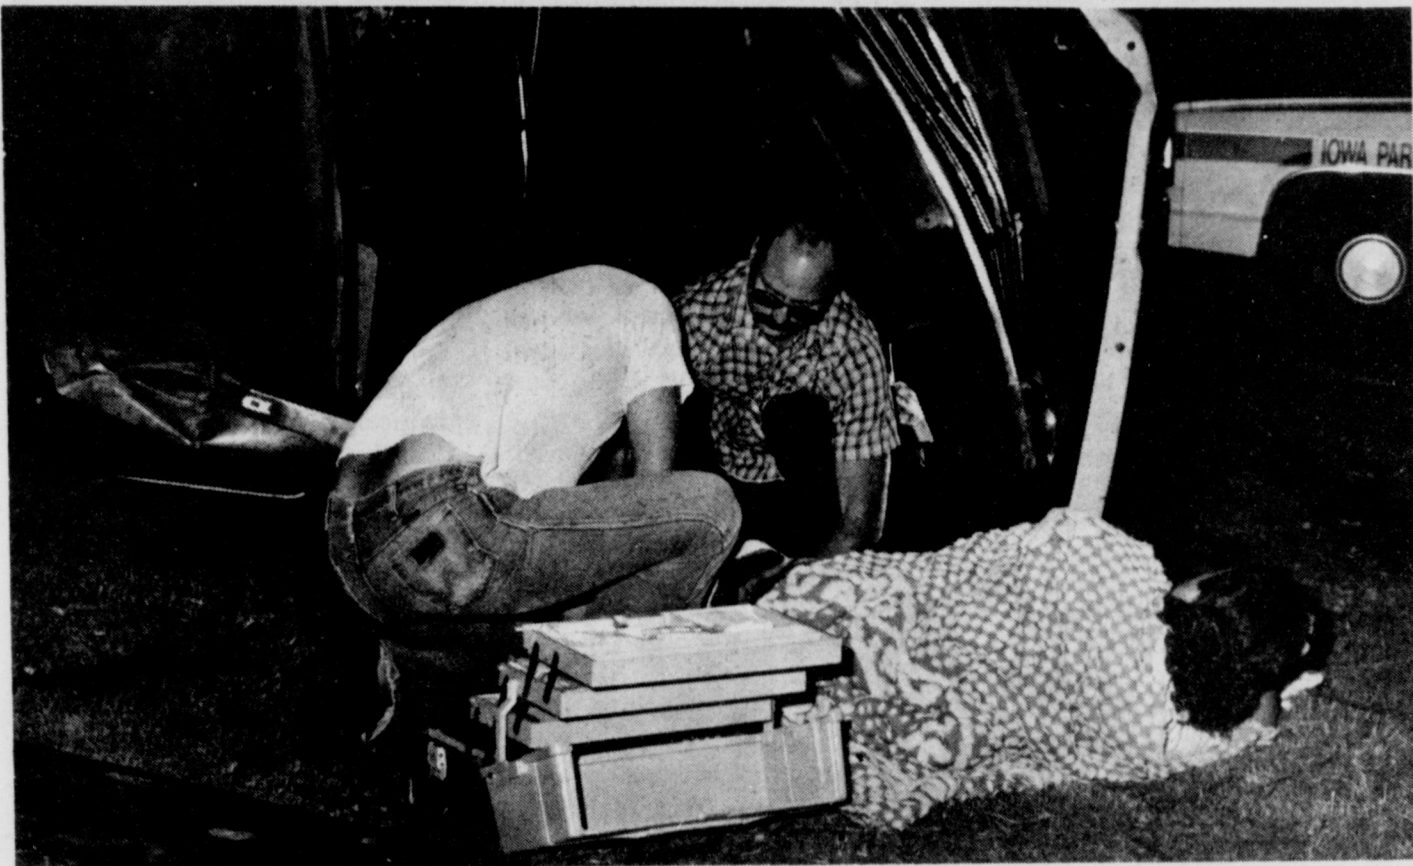

Matt Gerstner and Jeff Bartow lost 7-6, 6-0 in the first round to the team from Clint.

Iowa Park's boys' singles representative, Darryl Franklin, beat a player from Whitney 6-4, 6-2, before losing to the eventual regional champion, Mitchell Allen of Denver City, 6-2, 6-2.

Bowerman's first round in the state tournament at Austin will be the morning of May 15. Times and courts will be reported next week.

FIRST IOWA PARKAN HEADS TO STATE MEET
... Jenny Bowerman is regional champ.

MINOR INJURIES resulted from a one-vehicle accident about 2:30 a.m. Friday on FM 368 in the south part of town. Driver Earnest Shelton, 21, received minor injuries and his wife was unhurt, but their pickup was a total loss. Shelton, according to the accident report, was north bound when he lost control of the vehicle. It struck two mail boxes, a dumpster, and then flipped when it crashed into a utility pole. Cause of the accident was believed to be a broken tie rod.

Speed limit increased on Interstates

Following a public hearing required by Texas law, the State Highway and Public Transportation Commission voted Friday to increase the maximum speed limits on Texas' rural Interstate highways.

Pending action by Gov. Bill Clements, the increased speed limits will go into effect at 12:01 a.m., Saturday, May 9.

Raising the maximum speed limits on rural segments of Texas' Interstate highways brings into effect portions of Texas law that set speeds

prior to 1974, the year the national speed limit was reduced to 55 mph. Under that law, large trucks can travel at 60 mph during the day and 55 mph at night.

The new provisions will allow automobile motorists to drive 65 mph. These speeds do not apply to any roads other than rural Interstate highways.

After approving the new maximum speed limits, the highway commission informed the governor's office of its actions.

Under Texas law, the governor has seven days to sign a proclamation to implement the increase in maximum speed limits on Texas rural Interstate highways. The increase becomes effective when highway department crews post the new signs in rural Interstate highways on May 9.

Hale signs with MSU

Senior distance runner Brett Hale signed a letter of intent Saturday with Midwestern State Univ. to run cross country.

Hale, who has been bothered all season with injuries, said he was very pleased to have received an invitation from the university.

Half his full scholarship will be athletic and the other half academic, he said.

Hale is the son of Mr. and Mrs. Lee Hale.

News Briefs

Cemetery group to meet Sunday

The quarterly meeting of Highland Cemetery Association will be held at 2:30 p.m. Sunday at the First

Christian Church. Bill Gilmore will conduct the business.

Rains' yard is recognized

The Iowa Park Garden Club has placed the Yard of the Month sign for May at the home of Mr. and Mrs.

John Rains, 817 N. Park. The yard will be one considered for the Yard of the Year award.

Health Tips

-from Jerel Kerby

Upsetting Exercise Benefits

All the sweat and strain of exercise may be wasted if the exerciser routinely retires to the bar after a workout.

According to a study conducted by Kathleen Sobocinski at the Medical College of Wisconsin, the beneficial effects of exercise go down the drain when the participant imbibes more than two drinks a day.

Blood pressure readings for heavy drinking exercisers 2+/day) were the same as those of non-exercisers.

Light drinking exercisers 2 or less/day), however, had significantly lower blood pressure than non-exercisers.

Obituaries

Hubert Ray Pittman

Services for Hubert Ray Pittman, 71, who died Tuesday in a Wichita Falls hospital, will be at 2 p.m. today at the First Christian Church with Rollin Roberts officiating. Burial will be in Highland Cemetery under direction of Tanner-Aulds Funeral Home.

He was born Jan. 5, 1916, in Pine Level, N.C. and had lived in Iowa Park 20 years. He was past president of the board at First Christian Church where he was a trustee, deacon and elder. He was a retired insurance adjuster with General Adjusters Bureau where he worked 35 years.

He was a member of Wichita Falls Claimsmen's Club and was in the Army during World War II. He and Majil Lois Mullins were married on Jan. 23, 1946, in Richlands, Va.

He is survived by his wife; two sons, Jerry of Santa Clara, Calif., and Dale of Conroe; a sister, Mrs. Richard Jenkins of Baltimore; and two grandchildren.

Harold McCord

Services for Harold McCord, 78, were held Tuesday afternoon at the Church of Christ with Boyd Taylor of Garland officiating. Burial was in Highland Cemetery under direction of Tanner-Aulds Funeral Home.

He was born Jan. 11, 1909, in Baylor County, and was a retired service station operator. He and Edna Marie Sunday were married April 13, 1957 in Wichita Falls. He had been a resident of Iowa Park 20 years and was a member of the Church of Christ.

He is survived by his wife; two sons, James of Bowie and Dick of Corpus Christi; a daughter, Gale Vaden of Mineral Wells; a brother, Doyle of Wichita Falls; a sister, Pearl Rhame of Seymour; and a grandchild.

Willard C. Sellers

Services for Willard C. "Shorty" Sellers, 82, were held Tuesday at Owens and Brumley Funeral Home in Wichita Falls with Gil Peters, minister of the Holliday Church of

Christ, officiating. Burial was in the Holliday Cemetery.

He was born June 15, 1904, in Birmingham, Ky., and had lived in Holliday since 1926. He was a Baptist.

Survivors include a daughter, Beatrice Holman of Seabrook; two sons, James and Cletus, both of Holliday; a brother, Hubert of Stanfield, Ariz.; eight grandchildren; and 16 great-grandchildren.

Olga Elizabeth Bernstein

Services for Olga Elizabeth Bernstein, 84, were held April 28 at the Trinity Lutheran Church in Albany with Rev. Wayne Schuler officiating. Burial was in the Lutheran Cemetery under direction of Godfrey Funeral Home.

She was born in Cisco and moved to Albany 66 years ago. She was preceded in death by her husband, Oswald, who died in 1950.

Survivors include six sons, Emmet of Iowa Park, Raymond of Leveland, A. Marvin of Townsend, Mass., Ernest and Antone of Albany and James of Austin; three brothers, Martin Ziehr of Crosbyton, Emmet and Edwin of Hereford; 17 grandchildren; and 19 great-grandchildren.

Martin Leon Coats

Services for Martin Leon Coats, 45, who died Sunday in an oil field accident, were held Tuesday at Totten-Day Funeral Home in Electra with Rev. Wayne Coats officiating. Burial was in Electra Memorial Park.

He was born Aug. 26, 1941, in Wichita Falls and had lived in the Electra area most of his life. He was a member of Hillside Baptist Church. Coats worked as a pumper for Mitchell Oil Co. He and Rosemarie Weyich were married Feb. 7, 1972, in West Germany.

Survivors include his wife; a son, James Robert of Kamay; two daughters, Tammy Kay and Manuela, both of Kamay; his parents, Mr. and Mrs. K.B. Coats of Electra; a brother, Dan of Electra; a sister, Linda Watson of Electra; and grandmothers, Eula Maness of Electra and Bessie McDonald of Mounds, Okla.

TEAMS test no obstacle for this year's seniors

If any of the 103 Iowa Park High School seniors don't graduate May 29, it won't be because of failure to pass the TEAMS (Texas Educational Assessment of Minimal Skills) test.

Herman Escue, IPHS counselor, said that all current seniors passed the test, a basic literacy exam that includes language arts and mathematics, during their junior year.

The passing of the TEAMS test for graduating seniors is a requirement of the 1984 state-wide education reform package, but this year's senior class is the first to be affected by the rule.

Beginning their junior year, students have four chances to pass the TEAMS test, given in October and May during that year and their senior year.

Escue commented that only 10 students, all juniors, had to retake the exam given Monday and Tuesday of this week.

He also said that students who fail the test the first time receive extensive help from the faculty to help them improve in weak areas and increase their chances of passing.

AREA OIL & GAS NEWS

Williams Petroleum completed the No. 30 Tidewater, a developmental well in the Wichita Regular Field. The well is located 2.5 miles southeast of Fowlkes in a 158-acre lease in the SA&MG Survey, A-430.

The operation indicated potential to pump 33 barrels of oil per day from the Permian Formation perforations at 894 to 906 feet into the wellbore. Total drilling depth was 1,999 feet, and the hole was plugged back to 1,010 feet.

Drillsite is 2,360 feet from the north line and 2,088 feet from the east line of the lease.

The same operator has given up on its efforts to make producers out of the No. 26 Tidewater and the No. 2 Burnett Oil, developmental tries in the Wichita Regular Field. Both wells were located 2.5 miles southeast of Fowlkes in 158 and 160-acre leases in the SA&MG Survey, A-430.

The Tidewater well was spudded Feb. 17 and bottomed dry at 1,982 feet. Location was 2,200 feet from the north line and 720 feet from the east line of the survey.

The Burnett Oil well was spudded March 2, and probed to a dry bottom at 1,050 feet. Location was 1,495 feet from the north line and 2,625 feet from the west line of the lease.

The Wichita Regular Field gained a producer when ARB Drilling completed the No. 17 Perkins & Cullum "A" six miles southeast of Kamay.

The well showed ability to pump 16 barrels of oil per day. It was taken to an 800-ft. bottom, and was plugged back to 765 feet. Production will be from a set of perforations in the Cisco Formation, 688 to 692 feet into the wellbore.

The operation is in a 200-acre lease in the Denton CSI Survey, A-417. Drillsite is 575 feet from the north line and 958 feet from the west line of the lease.

The No. 18 Preston, a 1,800-ft. developmental well, is scheduled to be drilled in the Wichita Regular Field. Defranco Operating of Wichita Falls is the operator. The well will be spudded in an 80-acre lease 3.5 miles southwest of Burkburnett in the William Kepler Survey, A-170.

The operation will be situated 800 feet from the south line and 625 feet from the west line of the survey.

West Landrum of Burkburnett has filed for permit to drill the No. 7-L Sue Mitchell, a 1,500-ft. developmental well four miles northeast of Kamay. Locations is in a 40-acre lease in Wichita County's K-M-A Field, CTRR Survey, A-52. Drillsite is 450 feet from the south line and 450 feet from the east line of the lease.

Two 1,300-ft. developmental wells are planned by Mack Knight of Wichita Falls at drillsites 4.5 miles south-southwest of Iowa Park. Well's designations are the Nos. 16 and 17 Roller. The locations are in a 326-acre lease in the D. Matthews Survey, A-671, and the MCK&W Survey, A-238, respectively. Drillsites are in the Wichita Regular Field.

The No. 16 well will be located 6,050 feet from the south line and 150 feet from the east line of the survey, and the No. 17 well will be drilled 1,850 feet from the south line and 100 feet from the east line of the survey.

Tri Core Oil & Gas of Irving has revealed plans to drill two 2,000-ft. developmental wells in the Tri Core Field, Wichita County. The operations will be located in a 79-acre lease in the Specht Colony Land S/D Survey, Blk. 19. The wells will be known as the Nos. 42 and 44 Dickinson. Drillsites are three miles north-northeast of Clara.

The No. 42 well will be located approximately 960 feet from the south line and 1,710 feet from the east line of the survey.

The No. 44 well is situated approximately 3,450 feet from the south line and 975 feet from the east line of the survey.

Detector Oil has hung the "dry hole" sign on the No. 1 Kempf, a wildcat well in Wilbarger County. Drillsite was two miles south of Farmers Valley in an 80-acre lease in the H&TC Survey, A-427. The well was spudded Jan. 20, 1986, and bottomed at 8,450 feet with no commercial potential.

Drillsite is 1,950 feet from the south line and 600 feet from the east line of the lease.

A Wichita Falls-based operator has staked location for the No. 1 Fowler, a wildcat well to be located three miles south of Medicine Mounds. With projected total depth

of 8,500 feet, the well will be drilled in a 300-acre lease in Hardeman County's TTRR Survey, A-1481. The operator is Paul DeCleva, Inc. Drillsite is 959 feet from the north line and 1,165 feet from the east line of the lease.

Geo Reef has cancelled plans to drill the No. 1 DWKL, a projected 9,300-ft. developmental well to have been located in the Red Dawg Field, Hardeman County. Drillsite was eight miles north-northwest of Chilli-cothe in a 385-acre lease in the W&NW Survey, A-1598.

First production data have been posted for a newly completed oil in the Wichita Regular Field, four miles south of Electra.

With Petroleum Land Services Inc. as the operator, the well is designated as the No. 1-C W.T. Waggoner Estate "X".

It pumped six barrels of 44-gravity crude plus 60 barrels of salt water daily on an open choke. It was drilled to an 1,839-ft. bottom and will produce from Megargel Formation perforations, 1,824 feet from the north line and 1,649 feet from the east line of the lease.

Monroe Well Service has abandoned a total of seven undrilled locations in the Wichita Regular Field from 2.5 to three miles northeast of Electra.

The aborted wells include the No. 1 MWS Bickley "D", the No. 10 GMK Bickley "A", the No. 8 GMK Bickley "A", the No. 34 SLA-Bickley, the No. 2 GMK Bickley "A", the No. 18 GMK Bickley "A", and the No. 19 GMK Bickley "A".

Monroe also abandoned the No. 7 Pierce Fordyce GMK in the Wichita Regular Field, 1.5 miles southeast of Electra.

MWC Corp. of Houston has filed for permit to conduct a re-entry operation at the No. 2 Foster "C" in the Wichita Regular Field, five miles southwest of the Clara community.

With total depth of 604 feet, the well is in a 16-acre lease in the SA&MG Survey A-273 Block 1. Location is 1640 feet from the north line and 448 feet from the east line of the block.

An undrilled location has been abandoned in the Wichita Regular

Field by F&J Drilling Co. The well had been designated as the No. 4-C Stephen Ramming. It was located about seven miles east-southeast of Burkburnett.

Total depth had been projected to 2,000.

Operating out of Iowa Park, Judy Rusk Burgess is preparing to make hole for a pair of 1,000-ft. developmental wells in the Young Regular Field. The wells will be known as the No. 1 E.P. Meredith and No. 1 Meredith "A". Both wells are in an 80-acre drilling unit in the TE&L Survey, about three miles south-southeast of Olney.

Wildcat drilling action is planned by BAM Production Inc. of Granbury in Wilbarger County, about two miles southeast of Doan. The well will be known as the No. 1 Colley Hubbard Jr. "A", with total depth projected to 5,900 feet.

The venture is in a 247-acre lease in the H&TC Survey A-465, 853 feet from the north line and 3,107 feet from the west line of the survey.

Fortson Oil has plugged and abandoned an ill-fated wildcat well in Hardeman County, about 6.5 miles southwest of Medicine Mounds. Fortson's No. 1 Ekern bottomed dry at total depth of 4,500 feet. It was situated 1678 feet from the south line and 94 feet from the west line of Section 360 Block A of the H&TC Survey A-1669.

A new producer was brought on line in the Wichita Regular Field, with Tri Core Oil & Gas as the operator.

Located three miles north of Clara, the well is in a 79-acre lease in the Specht Colony S/D Survey, blk. 19. It is designated as the No. 1-JM Dickinson.

The well indicated potential to pump 30 barrels of oil per day, plus 30 barrels of water. It bottomed at 1,888 feet, and was plugged back to 1,630 feet. Production will be from perforations in the Gunsight Sand Formation, 1,530 to 1,535 feet into the wellbore.

Drillsite is 3,980 feet from the south line and 1,100 feet from the east line of the lease.

FAMILY HEALTH NOTES

SUN WORSHIPERS - BEWARE!

People who bask in the sun nearly every day, bronzing their bodies, should seriously consider what their skin will look like twenty or thirty years in the future. It is very likely that the surface of one's body subjected to prolonged exposure to the sun's ultraviolet rays will be dry, leathery, thin and prematurely wrinkled. However, the more alarming factor to consider is skin cancer. Today there is evidence showing that too much exposure to the ultraviolet rays of the sun is the main cause of skin cancer. Also, melanoma, a highly malignant form of cancer, has been linked to over-exposure to the sun.

Exposing the skin to excessive ultraviolet radiation is anything but healthy. Since having a tan is the "in thing," there is little anyone can do to curb people's notions about the long-range effects of over-exposure to the sun. For many people, it's a matter of ego and that's a powerful force with which to deal.

Sunburn is simply a reaction of the skin to the ultraviolet rays of the sun. At first, the skin becomes red and hot with minor burns. With more severe burns blisters form. When these blisters rupture the possibilities of infection increase because bacteria are normally found on the skin. If this is the case, call and make an appointment to see your family physician.

After repeated exposure, the melanocyte cells (cells that put out the tanning pigment) become stimulated and produce melanin as a protective barrier; thus, you have a tan. Fair-skinned, light-haired people generally have less tolerance to the sun than those with darker skin; however, sooner or later, most everyone suffers skin damage.

Sun bathers should begin slowly when they start their tanning process. It is also important to use a proper sun screen. The person who pays no attention to the harmful rays of the sun is the one who will "pay the price" in later years with irreversible damage to the skin, not to mention the possibility of skin cancer.

NOTICE OF FILING OF PERMIT APPLICATION FOR MUNICIPAL SOLID WASTE SITE BELL PROCESSING, INC., has filed Application No. 1827 with the Texas Department of Health for a permit to operate a proposed Type IV municipal solid waste site (brush, construction-demolition waste and rubbish) located west of Wichita Falls, approximately 1.7 miles north of the junction of U.S. Highway 277 and FM Road 1634 and approximately 0.8 mile west of FM Road 1634, in Wichita County.

SHERIFF'S SALE THE STATE OF TEXAS County of Wichita

NOTICE IS HEREBY GIVEN That by virtue of a certain ORDER OF SALE issued out of the Honorable 78th District Court of Wichita County, on the 4th day of April 1987 by Dorsey Trapp, Clerk of said District Court for the sum of Two Hundred nineteen dollars and 36/100 -----DOLLARS plus 10% interest from date of judgment and costs of suit, under a certain judgment, in favor of Iowa Park Consolidated Ind. School Dist. in certain cause in said Court, No. 37,219B and styled Iowa Park Consolidated Independent School District, City of Iowa Park, and County of Wichita vs. J.A. Chappell and all unknown heirs of said property and placed in my hands for service, I Thomas J. Callahan as Sheriff of Wichita County, Texas, did, on the 27th day of April 1987 levy on certain Real Estate, situated in Wichita County, Texas, described as follows, to-wit:

Lot 1 and 2, Block 168 of the original town of Iowa Park, Wichita County, Texas. Recorded in Volume 1177, Page 529 in the deed records of Wichita County, and being more particularly described as 315 E. Crystal, Iowa Park, Texas. and levied upon as the property of J.A. Chappell, Et al and that on the first Tuesday in June 1987, the same being the 2nd day of said month, at the Court House door, of Wichita County, in the City of Wichita Falls, Texas, at 10 a.m. by virtue of said levy and said ORDER OF SALE I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said J.A. Chappell, Et Al.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Iowa Park Leader, a newspaper published in Wichita County.

Witness my hand, this 4th day of May 1987.

TEXAS GARDENER TIPS

Annual plants, the category to which almost all vegetables belong, are reproduced through seeds and your gardening success can depend greatly upon the care, handling and quality of those seeds.

Vegetable seeds vary widely in size; lettuce is one of the smallest with 25,000 seeds per ounce. At the other end of the spectrum is lima beans with 20 seeds per ounce. In between is the tomato with 11,000 seeds per ounce.

It's not surprising that their size makes many seeds difficult to handle. Some seeds, such as spearmint,

Basic Seed Facts Gardeners Should Know

oregano and petunia, are so small they look like grains of black pepper. One way to start these tiny seeds indoors is to place them in a salt shaker and sprinkle them lightly over the surface of a seed flat filled with potting soil. Then, use a screen wire sieve or flour sifter to cover the leaves with a light layer of soil.

Another way to plant tiny seeds is to mix them with fine sand. Then, in a seed flat make trenches that are 2 inches apart and 1/4 inch deep. Fill the trenches level-full with the seed/sand mixture. Then care for as you would any transplants.

When planting seeds directly outside, you may want to try a special direct seeding and thinning technique, which works especially well with lettuce. Before planting, mix 1/2 teaspoon of seeds with 1 cup of sand or potting soil for each linear foot of row. Make your plant-

ing trenches about 6 inches apart and 1/8 inch deep. Sow the sand-and-seed mixture over the area at the rate of 1 cup per 100 linear feet. Then cover the seed a half inch deep.

When sowing other seeds, be sure to plant them at the right depth. The minimum planting depth for vegetable seeds is about 1/2 inch deep, unless the seeds are very tiny. If you have sandy soil, plant seeds more deeply. As a general rule of thumb, seeds should be planted at a depth that is three times the greatest diameter of the particular seeds.

ZOO TRIP
DEADLINE: MAY 9! If you are planning to go on the zoo trip sponsored by the Tom Burnett Library to kick off the Summer Reading program, we need to know soon. Saturday, May 9, is the last day to sign up. I'd hate for the trip to be cancelled because people were not aware of the deadline. It is very urgent that you sign up now and spread the word. Also the medical release forms can be picked up at the library during library hours. Both the release form and the money must be turned in by May 9 unless other arrangements are made. I hope you will join us for this exciting trip to the OKLAHOMA CITY ZOO!

JAZZ BAND
The Iowa Park High School Jazz Band will be giving a final concert on May 19, at the Tom Burnett Memorial Library in the conference room (upstairs). Everyone is invited to attend this spectacular event which will be at 8:00 p.m. A reception will follow the concert.
The Jazz Band will also be performing the first program for Summer In The Park along with the Show Choir, on May 14, at 5:30 p.m. This event will be held downtown at the new pavillion.

WORLD OF RECORDS DAY
On June 4, citizens will be setting records for the first World of Records Day, a part of the Summer In The Park programs to be held at the pavillion downtown behind city hall. The rules for each event and an entry form can be picked up at the

Library. The entry form must be turned in by May 30 at city hall or the Tom Burnett Library.

Attend the Church of your choice

ORDINANCE NO: 57
AN ORDINANCE GRANTING TO LONE STAR GAS COMPANY, A DIVISION OF ENSERCH CORPORATION, A CORPORATION, ITS SUCCESSORS AND ASSIGNS, A FRANCHISE TO FURNISH AND SUPPLY GAS TO THE GENERAL PUBLIC IN THE TOWN OF PLEASANT VALLEY, WICHITA COUNTY, TEXAS, FOR THE TRANSPORTING, DELIVERY, SALE, AND DISTRIBUTION OF GAS IN, OUT OF, AND THROUGH SAID MUNICIPALITY FOR ALL PURPOSES; PROVIDING FOR THE PAYMENT OF A FEE OR CHARGE FOR THE USE OF THE STREETS, ALLEYS, AND PUBLIC WAYS; AND PROVIDING THAT IT SHALL BE IN LIEU OF OTHER FEES AND CHARGES, EXCEPTING AD VALORUM TAXES; AND REPEALING ALL PREVIOUS GAS FRANCHISE ORDINANCES.

BE IT ORDAINED BY THE BOARD OF ALDERMEN OF THE TOWN OF PLEASANT VALLEY, TEXAS:
SECTION 1. That the Town of Pleasant Valley, Texas, hereinafter called "Town," hereby grants to Lone Star Gas Company, a Division of ENSERCH CORPORATION, hereinafter called "Company," its successors and assigns, consent to use and occupy the present and future streets, alleys, highways, public places, public thoroughfares, and grounds of Town for the purpose of laying, maintaining, constructing, operating, and replacing therein and thereon pipelines and all other appurtenant equipment needed and necessary to deliver gas in, out of, and through said Town and to sell gas to persons, firms, and corporations, including all the general public, within the Town corporate limits, said consent being granted for a term of twenty-five (25) years from and after the date of the final passage and approval of this ordinance.

SECTION 2. Company shall lay, maintain, construct, operate, and replace its pipes, mains, laterals, and other equipment so as to interfere as little as possible with traffic and shall promptly clean up and restore to an approximate original condition, at its cost, all thoroughfares and other surfaces which it may disturb. The location of all mains, pipes, laterals, and other appurtenant equipment shall be fixed under the supervision of the Town or an authorized committee or agent appointed by said Town.

SECTION 3. When Company shall make or cause to be made excavations or shall place obstructions in any street, alley, or other public place, the public shall be protected by barriers and lights placed, erected, and maintained by Company; and in the event of injury to any person or damage to any property by reason of the construction, operation, or maintenance of the gas distributing plant or system of Company, Company shall indemnify and keep harmless Town from any and all liability in connection herewith. Company shall repair, clean up, and restore to an approximate original condition all streets and alleys disturbed during the construction and repair of its gas distributing system.

SECTION 4. In addition to the rates charged for gas supplied, Company may make and enforce reasonable charges, rules and regulations for service rendered in the conduct of its business including a charge for services rendered in the inauguration of natural gas service, and may require, before furnishing service, the execution of a contract therefor. Company shall have the right to contract with each customer with reference to the installation of, and payment for, any and all of the gas piping from the connection thereof with the Company's main in the streets or alleys to and throughout the consumer's premises. Company shall own, operate and maintain all service lines, which are defined as the supply lines extending from the Company's main to the Customer's meter where gas is measured by Company. The consumer shall own, operate, and maintain all yard lines and house piping. Yard lines are defined as the underground supply lines extending from the point of connection with Company's customer meter to the point of connection with consumer's house piping.

SECTION 5. Company shall not be required to extend mains on any street more than fifty (50) feet for any one consumer of gas.

SECTION 6. Company shall be entitled to require from each and every consumer of gas, before gas service is commenced, a deposit in an amount calculated pursuant to the Company's Quality of Service Rules as may be in effect during the term of this franchise. Said deposit shall be retained and refunded in accordance with such Quality of Service Rules and shall bear interest, as provided in Tex. Rev. Civ. Stat. Ann. Art. 1440a (Vernon Supp. 1987) as it may be amended from time to time. Company shall be entitled to apply said deposit, with accrued interest, to any indebtedness owed Company by the consumer making the deposit.

SECTION 7. The rights, privileges, and franchises granted by this ordinance are not to be considered exclusive,

and Town hereby expressly reserves the right to grant, at any time, like privileges, rights and franchises as it may see fit to any other person or corporation for the purpose of furnishing gas for light, heat, and power to and for Town and the inhabitants thereof.

SECTION 8. Company shall furnish reasonably adequate service to the public at reasonable rates and charges therefor; and Company shall maintain its property, equipment, and appliances in good order and condition.

SECTION 9. Company, its successors and assigns, agrees to pay and Town agrees to accept, on or before the 1st day of April, 1988, and on or before the same day of each succeeding year during the life of this franchise, the last payment being made on the 1st day of April, 2013, a sum of money which shall be equivalent to two percent (2%) of the gross receipts received by the Company from sale of gas to its domestic and commercial consumers within the corporate limits of said Town (expressly excluding, however, receipts derived from sales to industrial and governmental users in said Town) for the preceding calendar year, which annual payment shall be for the rights and privileges herein granted to Company, including expressly, without limitation, the right to use the streets, alleys, and public ways of said Town. And it is also expressly agreed that the aforesaid annual payment shall be in lieu of any and all other and additional occupation taxes, easement, and franchise taxes, or charges (whether levied as an ad valorem, special, or other character of tax or charge), in lieu of municipal license and inspection fees, street taxes, and street or alley rentals or charges, and all other and additional municipal taxes, charges, levies, fees, and rentals of whatsoever kind and character which Town may now impose or hereafter levy and collect, excepting only the usual general or special ad valorem taxes, which Town is authorized to levy and impose upon real and personal property. Should Town not have the legal power to agree that the payment of the foregoing sums of money shall be in lieu of taxes, licenses, fees, street or alley rentals or charges, easement or franchise taxes or charges aforesaid, then Town agrees that it will apply so much of said sums of money paid as may be necessary to satisfy Company's obligations, if any, to pay any such taxes, licenses, charges, fees, rentals, easement or franchise taxes or charges.

In order to determine the gross receipts received by Company from the sale of gas (expressly excluding the sale of gas to industrial and governmental consumers) within the corporate limits of Town, Company agrees that on the same date that payments are made, as provided in the preceding paragraph of this Section 9, it will file with the Town Clerk a sworn report showing the gross receipts received from the sale of gas to its domestic and commercial consumers within said corporate limits for the quarterly period preceding the date of payment. Town may, if it sees fit, have the books and records of Company examined by a representative of said Town to ascertain the correctness of the sworn reports agreed to be filed herein.

Receipts from sales to governmental users or consumers shall include all those receipts derived from the sale of gas to federal, state, county or city governments or branches and subdivisions thereof, school district, or other similar districts, it being the intention to include within the term "governmental users and consumers" all tax-supported institutions owned or operated directly or indirectly by said governments and branches or subdivisions thereof, such as schools, colleges, hospitals, eleemosynary institutions, army or training camps, airports, courthouse, city hall, and other institutions of like or similar kind and character.

"Industrial users or consumer," as herein used, are those generally and commonly classified as such by Company.

The payment herein provided shall be for the period January 1 to December 31 of the respective year that the payment is made.

SECTION 10. When this franchise ordinance shall have become effective, all previous ordinances of said City granting franchises for gas distribution purposes which were held by Company shall be automatically cancelled and annulled, and shall be of no further force and effect.

SECTION 11. Company shall file its written acceptance of this franchise ordinance within sixty (60) days after its final passage and approval by said Town.

PASSED AND APPROVED on this 1 the day May, A.D. 1987.
