Vol. 23, No. 1 IOWA PARK, WICHITA COUNTY, TEXAS 76367 Thursday, September 19, 1991

## United Way campaign is underway

Iowa Park's annual United Way fund campaign is off and running, following a kickoff luncheon held here Thursday.

The community's "seed" amount has already been set by employees of the Cryovac plant, according to Steve Smith, who is the plant's drive coordinator this year.

As a "pacesetter" business, the Cryovac donations and pledges have already been worked by Smith and his group of volunteers.

Employees pledged \$40,000, plus the company allocated an additional \$12,000, making Cryovac's contribution this year \$52,000.

Smith emphasized the amount was reached because employee participation increased from 66 percent to 74 percent, and the company increased its donation from last year by \$1,000.

The announcement brought a broad smile from Tommy Key, who this year is chairman of the Business and Industrial Committee, which has a goal of \$58,000.

Other division chairmen and their goals were announced by Larry Dutton, this year's community drive chairman.

They included: Enterprize, Myrna Robinson, \$2,200; Professional, Glenna Via and Karl Klaus, \$1,100; Public Service, Mike Grubbs, \$1,200, and Special Gifts, Laverne Owen, \$1,700.

The community's goal for 1991 is \$64,200, Dutton said.

Confidence was expressed at reaching the goal, when it was announced that for the first time, Iowa Park schools will offer payroll deductions to all its personnel.

LOCAL UW DRIVE CHAIRMAN LARRY DUTTON ... during kickoff luncheon Friday.

Guest speaker for the luncheon was former Iowa Parkan Ron Hill, who represents the Wichita Falls Boys Club. Iowa Park's two facilities that receive funding from the Greater Wichita Falls United Way are the Friendly Door and Iowa Park Recreational Activities Center.

## HAWKS vs. EAGLES

### Feathers to fly here Friday

Iowa Park's Hawks return to their home field Friday night, looking for their first win of the season as they take on the Decatur Eagles at 8 p.m.

The Mean Green, under new head coach Lucky Gamble, has suffered losses to Burkburnett, 24-7, and Abilene Wylie, 28-7. But in both games, the Hawks were competitive and gave up points in the final minutes of play that widened the point spread.

Decatur hasn't raised many eyebrows with their showings, however. They opened the season with a 21-0

decision over winless Northwest, and last week suffered a 53-7 humiliation at the hands of the Gainesville Leopards.

Decatur beat the Hawks 27-10 last year, as the Eagles won their third consecutive meeting with Iowa Park. However, in their previous 11 meetings Iowa Park still holds a 7-4 edge.

A mature team, the Eagles boast of 21 seniors and 19 juniors. And with that depth, they are able to almost completely platoon their offensive and defensive units.

The Eagles also have size, with 12

players over 200 pounds, including 6-4, 273-pound tackle Eddie Howerton.

Quarterback Sean Minor, one of those 200 pounders at 202, is considered by Hawk scouts as the team's best athlete. He has a strong arm and likes to run, they said. He is also one of the few offensive players that doubles on defense.

Linebacker Bryan Gasperson, a 211 junior, is rated as the Eagles' best defensive player.

## County precinct changes told

Citing reported shifts in population during the past decade, Wichita County Commissioners Court Tuesday night outlined a realignment plan for the county's commissioner precincts.

Precinct Three, represented by Gordon Griffith, has traditionally included Iowa Park. The precinct was changed to pick up an additional 4,000 residents, while reducing Precinct One by a similar amount.

The additional residents, which raised Precinct Three's total population to 29,304 and lowered Precinct One to 31,938, was accomplished by widening Three's boundaries in the southeastern part of Wichita Falls.

Precinct Three's share of the county's minority population was thus increased from 38.5 percent to 40.17. And at the same time, it elevated the precinct's total share of minorities residing in Wichita County to 48.5 percent.

All figures used for redistricting are based on the 1990 census. Equal population representation is mandated by the Voting Rights Act passed in 1965 by congress.

Precinct One now has 2,909 minority representation (9.1 percent); Precinct Two, 29,170 total population and 5,574 minority (19.1 percent), and Precinct Four 31,966 population, 3,998 minority (12.5 percent).

The county reportedly now has 122,378 total population, of which 24,251 are minorities, making up 19.8 percent.

Based on the 1980 census, the commissioner's court attempted to equalize population of each precinct. To do that, the three precincts that previously had not included any part of Wichita Falls, the highest-populated city in the county, gerrymandering was utilized.

Precinct Three was elongated to

the eastern part of that city by the court by taking in the width of the railroad which enters the city from the west.

Once the commissioners take final action on the redistricting plan, which was drawn by a consulting firm based in Waco, the plan will be forwarded to the Justice Department for approval.

Confirmation is expected within 60 days following receipt, according to Judge Nick Gibson.

Commenting on the possible reaction of the public, Justice of the Peace Arthur Bea Williams said after the hearing, "We have enough trouble trying to get people to vote when they're happy, let alone when they're upset. They (the federal government) may have created more a problem than they had."

Following the 6 p.m. hearing, which was held in the county courthouse, the commissioners held a second hearing at the Martin Luther King Center in the east side of Wichita Falls.

## \$1.02 TOTAL

### Trustees set tax rate

Iowa Park school trustees Thursday night approved the 1991-92 tax rate of \$1.02 per \$100 valuation.

The rate includes the 75-cents set by the County Education District, and \$27 cents local.

The local rate includes 18 cents for local maintenance and nine cents for debt retirement.

Setting of the rate came after three different votes were held to adopt the official budget, however.

The first motion on the budget was to approve the official budget, but include an additional \$40,000 for purchase of additional computers.

That failed when only two, Martha Dudley, who made the motion, and Sheri Kennedy, voted in favor.

The second motion, offered by Wendall House, was to adopt the budget, but omit purchase of a Suburban vehicle and putting the \$20,000 saved toward computer purchase.

It failed when the only yea votes were cast by House and Denny McCarthy.

A motion was then moved, and approved unanimously, to adopt the budget as presented.

Supt. Glen Mitchell had told the board, "If the tax rate were set at \$1.02, an additional \$87,684 would be generated. If \$40 were set aside for computers, there would be \$47,684 for proration. Our projected balance on Aug. 31, 1992 would be \$630,893."

Local and CED money is tied to collections, and whatever percentage of this year's taxes are collected during the year relates to how much money the school retains.

Mitchell said if collections are only 96 percent, and the local rate were set at only 25 cents (making an even \$1 rate), the district could lose as much as \$100,000 to the CED.

The superintendent also told the board he has learned the district can expect less money from the state than had originally been projected. That could be as much as \$35,000 lost, which was not included in the budget he proposed.

Before the board voted to set the rate at \$1.02, tax collector Allan Shewmake reminded them that next year's rollback would be affected by the local rate, and not the local plus CED rate.

The board approved contracts for two booster clubs to operate concession stands this year, including the Band Boosters for the football stadium and Athletic Boosters for the gymnasium.

Also approved were extracurricular activities, field trips, fund-raising activities and two student transfers.

Though a request from the FFA Booster Club be allowed to use the junior high gymnasium for a donkey basketball game as a fund raiser, the vote was not unanimous. McCarthy voted against the proposal.

And, as the school has allowed in the past, a proposal to allow the use of two school buses for an agriculture tour of the area by the Wichita County Young

Farmers was again approved.

The board must annually adopt a transportation cost per mile for regular and handicapped travel. This year the rates were set at \$1.09 and \$1.30, respectively.

Also during the transportation department report, Assistant Superintendent Robert Palmertold trustees, "We're

getting a large amount of worn out vehicles, that's what it amounts to."

He had provided a listing of all 31 vehicles owned by the district, including buses, pickups and cars, with a breakdown of their individual mileages.

Twenty three of the vehicles have more than 100,000 miles, and only eight

## Former students plan homecoming banquet

Reservations are being accepted for the 24th annual Ex-Student Association Homecoming Banquet, to be held Saturday, Sept. 28, in the school cafeteria.

Advance reservations for the banquet, received by Wednesday, Sept. 25, are \$8 per person. Tickets at the door will be \$10 each.

Reservations can be mailed to the Ex-Student Association, Box 614, Iowa

Park. Special invitations are being extended to graduates of classes of 1921, '31, '41, '51, '61, '71, '81 and '91.

Two class reunions already being planned are the Classes of '31 and '51.

Mrs. Josephine Patterson said the 60th reunion for her 1931 class will be from 1 to 5 p.m. that Saturday in the TU

Continued on page 4

## New stopping place for RC bloodmobile

When the Red River Red Cross Bloodmobile comes to Iowa Park Monday, it will be stopping at a new location for the first time.

Iowa Park Optimist Club, which has for several years sponsored the Bloodmobile visits here, recently acquired the former office building of Dr. Therman Reitz, at 811 West Highway.

That will be where the unit will be receiving donors, between 4 and 6:30 p.m.

Blood collections were cancelled in the area during the summer months, while the Red River Region merged with the Oklahoma Region in Tulsa.

During that period of time, the hospitals in the region received blood from other Red Cross regions.

"Now that our Red Cross Blood Center is back in operation, we are being asked to increase collections by 10 percent to bring the supply back up to normal," commented Ann Bowling, Red Cross spokesperson.

Iowa Park's goal is 25 units.

Walter Beeman, Optimist project chairman, said donors must be between the ages of 17 and 79, and generally in good health.

The Red River Region provides the blood used by 41 hospitals in a 34-county area. That requires the processing of 100 pints of blood daily.

Ninety-five percent of the American population will need blood at some time during their lifetime, yet only five percent of the population donates blood, the Red Cross says.

## Students survive wreck

Lorie Kasperek is expected to be released from a Wichita Falls hospital sometime this week, after suffering numerous injuries in a one-vehicle accident Thursday night on Watts Road.

The 14-year-old daughter of Mr. and Mrs. Jimmie Kasperek, who live on FM 369, reportedly received numerous head and internal injuries as well as a fractured ankle in the wreck.

John David Padgett, 16, was treated and released from the hospital. He is a junior at Iowa Park High School and Miss Kasperek a freshman.

About 8:30 p.m., the vehicle in which they were riding veered to the left

from its southerly direction on the paved country road, striking two trees and a pipe that anchors a fence corner post, and bounced back onto the roadway.

Miss Kasperek was held in the hospital's intensive care unit a couple of days, because medical personnel were concerned about a blow she received on her left temple.

Both were transported by ambulance to the Wichita Falls medical facility after emergency care by EMTs from the Iowa Park Volunteer Fire Dept.

The girl's mother was called out of a meeting of the school board to inform her of the accident.

COMMISSIONER GORDON GRIFFITH SHOWS MAP OF PRECINCT REALIGNMENTS ... during public hearing Monday evening in Wichita Falls.

**Holiday Decorating**

We are offering a class for decorating with Twist Paper Ribbon. The emphasis will be on Halloween, Thanksgiving and Christmas items, but what you learn can be used anytime of the year.

One of the projects will be Paper Ribbon Baskets. This is a "make and take" class so when you call the RAC to register you will receive a supply list.

The schedule is Thursdays, Oct. 10, Nov. 7 and Dec. 5, from 7 to 9 p.m. Tuition is \$15 for RAC members and \$20 for non-members.

**Holiday Cake Decorating**

Impress your family and friends! Learn the basics of cake decorating while you make Holiday Cakes. The instructor, Kathy Hicks, will show you how to make a cake decorated with a pumpkin the first class (we'll give it as a door prize).

The second class you will decorate a cake with a turkey design for Thanksgiving. The final class will be a cake decorated with Rudolph for Christmas. Pre-registration is a must so supplies can be ordered.

Mondays, Oct. 7, Nov. 4, and Dec. 2 from 7 to 9 p.m. Tuition: \$15 for RAC members and \$20 for non-members. A \$5 fee for supplies to decorate your cakes.

**Stop Smoking Class**

A class to help you stop smoking is tentatively planned Nov. 21. Watch this newspaper for details.

**We Need Toys!**

The RAC is asking for donations of good used toys, games, puzzles, etc. for the children's program. If you have a donation drop it by the RAC or call 592-4471 and someone will pick it up. Thanks for your help.

**New Classes Beginning**

Juggling begins Oct. 5 for four weeks.

Country and Western Dance begins Oct. 5 for six weeks.

Paint Class begins Sept. 30 for four weeks.

We still need four more participants for Bridge Lessons.

**Continuing Classes**

**Aerobics:** Tuesday and Wednesday from 8:15 to 9:15 p.m.  
Tuesday and Thursday from 3:45 until 4:45 p.m.  
Monday and Thursday from 6:30 until 7:30 p.m.

**Clogging:** Wednesday at 5:30 p.m. for beginners and 6:30 to 8:30 p.m. for all levels.

**Gymnastics:** Mondays

**Bridge:** There were three tables in play Monday afternoon. Frank Mayfield won high score and Carolyn McCullough, second high.

For more information call me at the RAC, 592-4471. If I am out of the office please leave a message so I can return your call. Great things are happening at the RAC. Join Us!

**In the Military**

**Rowe in Germany**

Pvt. Sean T. Rowe, an Army military police specialist, has arrived for duty with the 284th Military Police Company in Germany.

Rowe, a 1990 graduate of Iowa Park High School, is the son of Ron Rowe of Iowa Park and Mary Walls of Magazine, Ark.

**'Volunteers' topic of Philia program**

"Volunteers Helping Others" was theme of the September meeting of Philia Study Club at a salad supper in the home of Jean Johnson with Pat Raby as co-hostess.

Jan Banta of the Hospice organization in Wichita Falls presented an illustrated talk on the contributions made by its volunteers to those who are ill.

Candice McKee, president, conducted the business meeting. The meditation was presented by Stormy Mikkelsen, and pledge to the flag was led by Val Jones.

Helen Burrell directed the group in singing "Battle Hymn of the Republic," the club collect was led by Gayle Gafford, and Mrs. McKee gave the invocation before the meal.

Roll call was answered by 14 members who responded by relating exciting or unusual events during the summer.

**Kaufhold is elected FFA club president**

Bill Kaufhold was elected president of the FFA Booster Club during the organization's meeting Tuesday night.

Other officers elected were: Calvin Huff, vice president; Linda Taylor, secretary; Darlene Philips, treasurer, and Elaine Huff, reporter.

Besides discussing fund-raising projects to be held this year, the Vocational Agriculture teachers explained new rules governing student show animals now in effect.

Hot dogs were served to approximately 100 persons attending the meeting.

**Friendly Door MENU**

**Friday, Sept. 20**  
Lima beans and ham, carrot salad, cottage fries, cornbread, purple plums, milk.

**Monday, Sept. 23**  
Italian steak with spaghetti sauce and mozzarella cheese over spaghetti, Italian vegetables, corn, garlic bread, tapioca pudding, milk.

**Tuesday, Sept. 24**  
Roast beef with brown gravy, copper pennies, mashed potatoes, hot rolls, fried pie, milk.

**Wednesday, Sept. 25**  
Chicken fried steak with cream gravy, blackeyed peas, turnip greens, cornbread, strawberry cake, milk.

**Thursday, Sept. 26**  
Beef stew, okra, cornbread, snickerdoodles, sliced peaches, milk.

**Garden Club begins new year**

The Iowa Park Garden Club began the new club year Friday with a brunch at the home of Pam James. Assisting Mrs. James with the hostess duties were Gladys James, Maryanne Gilmore and Amy Conley.

A centerpiece arrangement in pastel colors of shasta daisies, carnations and tiny lilies, complimented the table covering of ecru lace over pink. The colors were repeated in a decorative cake and floral patterned plates.

To begin the activities, Bernice Compton gave the inspirational thought for the day, entitled "Where There Is Love."

During the business meeting that preceded the brunch, 19 members answered roll call by giving the highlight of their summer, and Lois Fagan was introduced as the guest of Stormy Mikkelsen.

It was announced that Harold and Mary Stucki, 1108 Lincoln, have the

Yard of the Month. Gladys James described the grounds as "just beautiful," and asked everyone to drive by.

A video, Jerry Baker's "All About Houseplants," was shown. It covered all phases of potting, tending and avoiding problems with plants in the home. The methods described were simple and easy to understand.

**FFA Boosters to feed cornbread and beans**

The FFA Booster Club will offer a bean and cornbread supper Friday night for fans planning to attend the Iowa Park and Decatur football game.

Service will begin at 6 p.m. in the Vo-Ag building.

Members are asked to bring cornbread and/or desserts.

**PLAN NOW TO ENTER!**

**Cholesterol and Your Health**

- Cholesterol is a soft, fatty substance that the body needs — in small amounts
- Cholesterol is made up of HDL's (High Density Lipoproteins) and LDL's (Low Density Lipoproteins.) When overall cholesterol levels are measured in the bloodstream, the percentage of HDL's and LDL's is now often determined.
- LDL's seem to promote cholesterol deposits on the artery walls. HDL's, however, help move cholesterol back to the liver.
- High blood cholesterol levels contribute greatly to the development of coronary heart disease — America's number one killer which claims approximately 550,000 lives every year.
- Millions of adults have cholesterol levels of 200 or higher, placing them at increased risk of heart disease and heart attack.
- Most people can lower cholesterol to less than 200, a "desirable" level, with diet and exercise. Make sure you carefully follow your doctor's instructions about any change in eating habits or exercise routine.
- Stop smoking.
- Lose weight if your doctor advises you to.
- If the above measures aren't adequate, your doctor may prescribe a prescription medication to help lower cholesterol levels.

For more information on cholesterol and health — Ask your pharmacist.

# As I See It... By Bob Hamilton

I can't let this column pass without calling your attention to the fact that we are commencing our 23rd year of publication.

That's right, we've completed 22 full years since our first issue on Sept. 18, 1969.

Looking over that first issue, I found it interesting to note that we carried the advance story on the following night's Hawk football game.

It was against Decatur, the same club we will be hosting tomorrow.

Anyway, we want to thank you, our readers and advertisers, for your faith and loyalty over the years, and, again, pledge to work hard so that may continue in the future.

Speaking of Hawk football, I suggested to Coach Lucky Gamble this week that we not schedule any more games at Abilene Wylie.

It's neither the competition nor the distance that concerns me. The plain fact is, Wylie's facilities and accommodations for fans are the pits!

Those of you who made the trip know what I'm talking about. The parking lot is unpaved and standing in water. The walking area, even directly in front of the low-level visiting stands, are the same.

Leaving after the contest is my major concern. It's a situation that could cause major problems.

As visitors attempt to make their way to the only gate fans use, they must pass through not only the host team enroute from the field to the dressing room, but also a greater number of their supporters.

And I don't remember ever seeing a uniformed peace officer who might be able to break up any kind of problem that might develop.

I'll miss the great steaks we always have in Abilene on those trips, as well as visiting with Don Harrison, but I'm ready to play somewhere, almost anywhere, else except Wylie.

## Letters to Editor policy explained

The *Leader* receives numerous letters which cannot, for one reason or another, be published.

Letters will not be printed unless they are signed. A typed name will not do. And, for the sake of verification, the writer's telephone should be included.

Should the writer not wish his/her name printed, it will be omitted upon request. However, the letter will be kept on file to be read upon request.

Letters also must be free of libel. If not, they will not be published, because we will not edit their content.

Corrections will not be made if they change the message in any way, but will be edited to enhance their content.

In letters supporting political candidates or issues, the *Leader* reserves the right to limit their lengths.

We encourage your Letters to the Editor, and offer the paper as your forum for discussions of ideas and observations.

## Tax rate

Continued from page 1

have less.

Palmer has been proposing the board increase its replacement of older vehicles, especially buses. Five buses have less than 100,000, but four of those have 71,000 or more miles.

"We're behind (in replacing) on buses and utility type vehicles," he said.

No action was taken on any of the four school board policies that were proposed, as the meeting was considered as the "first reading." Action is expected at next month's meeting.

The policies include "Update 39", revised state and local sick leave, revised employee complaint, and vending machines.

Mitchell reported to the trustees that total enrollment is 11 pupils over the same date in 1990, with 1,941 students enrolled.

Broken down, there are 491 at Kidwell, a decrease of one; 468 at Bradford, down 24; 439 at junior high, up 17, and 543 at high school, up 19.

Mitchell, who mentioned the current enrollment is 167 greater than when he assumed the position as superintendent here, added that more students were enrolling last week.

Despite a prediction that the board meeting would last until very late hours, because of the length of the agenda, the president Jerry Reed called for an adjournment vote at 10:17 p.m., after starting half an hour later than usual, at 8.

## Hawks

Continued from page 1

The Hawks will be working hard to give runningback Chris Williams room to maneuver, as they did at Wylie when he recorded his first 100-yard game on the varsity. He finished with 106 on 19 carries.

Todd Pulley, who has suffered with a deep thigh bruise and held out of play against Burk Burnett other than as a kicker, returned to action Friday and picked up 33 important yards against the Bulldogs.

Pulley's return was even more important, since Johnny Duggins, the Hawks' leading gainer last season with 496 yards, didn't see action because of illness.

Both are expected to be ready for the Eagles.

Quarterback Robert Denton, despite suffering three interceptions at Wylie, is still a major problem for opponents' defenses. He's averaging 90 yards per contest with 13 completions of 37 attempts.

Despite giving up 52 points in their first two games, the Mean Green defense has allowed an average of only 156 yards rushing and 106 passing.

## News Briefs

### It's rained enough for a while

"Rain, rain go away. Come again some other day."

That old rhyme was being repeated all over this part of the country at presstime, but the forecast was for at least a little more yet to come.

As of 1:30 p.m. Wednesday, Iowa Park had received 1.4 in precipitation, bringing the week's total to 4.09 inches.

That, coupled with previous rains received in September, brought the

month's rainfall total to 5.63 inches, according to Virgil Woodfin.

While most all of the moisture had moved into the area from Mexico, yesterday's movement of a Canadian cold front from the north was blamed as the cause for the day's heavy downpour.

Temperatures dropped during the first hour to 56 degrees, by 1 p.m., but the wind chill factor was said to be down to 40 degrees.

### Open house slated at Kidwell

Parents of Kidwell Elementary students will have an opportunity to meet with their child's teacher during an open house next Tuesday evening at the school.

Hosted by the Kidwell PTA, the open house will be from 7 to 8:30 p.m. Parents are asked to go to their child's room first, and then meet later in the cafeteria.

### Only one arrest reported here

Unlike last week's report, Iowa Park police made only one arrest during the past week, instead of 11.

The lone arrest resulted from a report of a family disturbance Friday night in the 300 block of West Lafayette.

The end result was the arrest of Jerry Lee Fowler, 31, charged with public intoxication. He was released the following morning, according to the

police blotter.

A clerk at Allsup's early Monday morning told police one of three black females who were at the store made off with six or eight packages of cigarettes and some packages of beer nuts, without paying for the merchandise.

Police were unable to locate the vehicle in which they were riding. The complaint was filed at 3:45 a.m.

### Landfill hours to change

Hours the city's sanitary landfill will be open to the public could be changed when the city council meets Monday evening.

The meeting, to begin at 7 p.m., will be held in council chambers.

Aldermen offered changes other than those proposed by city staff at last week's meeting, and those changes could be incorporated in the new proposal.

The first proposal was to close the landfill to the public on Sundays and Mondays, and be open from 8 a.m. to 4 p.m. weekdays and 8 a.m. to 6 p.m. Saturdays.

Aldermen suggested a schedule that would have the landfill open both days of the weekend, and also closing later

on weekdays.

After receiving requests from two property owners for water service outside the city last week, both of which were approved, another request will be considered Monday.

Frank Smith has requested a public appearance, at which he also will seek service outside the city, according to the meeting agenda.

Administrator Gary Jones is to make a report on the proposed regional landfill, discuss the future of the old Recreational Activities Center building, and school involvement in lettering and school mascot on the Johnson Road elevated water tower.

## Worth Quoting

Wonder why that is?

All the tax rates have now been set by the newly created county education districts and by the local schools under the Robin Hood share-the-wealth monster created by the Texas legislature.

Yet, with the exception of a 25-cent reduction for the Lubbock taxpayers, we've not read of a single school district, rich or poor, that is not levying higher taxes this year than last.

We're wonderin' why...

If the Robin Hood plan is good for public education in Texas we're wondering why the share-the-wealth plan is not a two-way street.

Why does all the tax money have to flow to our big-city neighbors? Why can't some of it flow back to us?

For example, according to annual report of Sales & Marketing Management, the total effective buying income of residents of Andrews tallied about \$168 million for the reporting period of 1989.

Of that \$168 million, about \$60 million was spent locally and \$108 went to our big city neighbors who collected a sales tax of 7 and one-quarter cents on those sales.

Thus far this year, the sales tax has yielded Odessa \$6,014,516, Midland \$6,692,804, and Big Spring \$2,313,191. Thus far, the sales tax in Andrews has yielded our city \$529,926.

Well, if our legislators think the Robin Hood plan is the way to go, why not a county sales tax district? Why should Andrews citizens have to kick in \$7 million plus to fund city services in Odessa and Midland? Why not share it?

Why don't we put Andrews, Odessa, Midland, Kermit, Monahans, Crane, Big Lake, Big Spring and Fort Stockton in a special district and share-the-sales tax?

The litt'uns, up through August sales, would put into the pot about \$1.7 million. The big'uns, Odessa, Midland, Big Spring, would kick in roughly \$15 million.

And let's take that big old sales tax pot and distribute it back out to the people from whence it came on a per capita basis -- let's help old Robin Hood and really share the wealth in true democratic fashion?

If big mamma and our other state leaders are really interested in creating a new Texas, let's don our merry men capes and start dancing down the two-way street sharing the wealth -- both ways.

Aren't you wondering, too?

JAMES ROBERTS  
Andrews County News

Remember about 15 years ago when the chemical dioxin was labeled as one of the most virulent of all industrial carcinogens? Since the middle of the 1970s, billions of public and private dollars have been spent to clean dioxins from the environment.

Well, now it seems as if all that effort was, in the words of Dr. Vernon N. Houk, "an overreaction." He should know what he is talking about. Dr. Houk is the head of the environmental health program of the Centers for Disease Control.

He has been joined by the administrator of the Environmental Protection Agency, William K. Reilly, and issued a report on the dangers of dioxins. It seems that the chemical, under most circumstances, is no more dangerous than spending a week at the beach.

The World Health Organization reached a similar conclusion. It has adopted a new standard for acceptable dioxin exposure that is 1,600 higher than the one currently used by the EPA.

Houk said that the current standard "was based on the scientific information we had at the time. It turns out we were in error."

Gee, they just got it wrong. No damage, right?

Wrong!  
Over the past 15 years lives have literally been destroyed by the EPA using faulty standards. Companies have closed, people have lost their jobs, families have been shattered and even the entire city of Times Beach, Missouri has been turned into a ghost town.

The harm inflicted on the nation by EPA dioxin standards, now proved unnecessary, is enormous. That one small entry in a regulation book has diverted billions of dollars and millions of man hours from hundreds of worthwhile projects over the past decade and a half.

If the EPA could be so wrong on the threat that dioxin posed for the environment, what about the hundreds of other standards that are daily imposed across the nation?

A whole range of air and water standards were set using the same faulty risk analysis that banned dioxin in the middle 70s. If the dioxin standard is over exaggerated, then there is the real possibility that the other standards are also overly strict. If that is true, then industry and government have spent a large part of their resources protecting the faulty calculations of the EPA, not the environment.

Predictably, environmental groups and some scientists say that the dioxin findings are deliberately misleading. They claim the study results are a part of a conspiracy by big industrial interests to escape future costs of cleaning up operations.

That is what is so comforting about the Earth First environmentalists. They never let facts confuse the issue.

### Helpful Facts

The City of Iowa Park offers a \$250 reward for information leading to the arrest and conviction of any person committing arson within the city limits.

### Helpful Facts

Persons other than the property owner doing work on a residence must be a licensed building contractor, plumber, electrician, or heating and air conditioning contractor with the City of Iowa Park, and carry a performance bond.

## Banquet

Continued from page 1

Electric Reddy Room.

The Class of '51 will meet both in the afternoon and following the banquet, at the First United Methodist Church, according to Mrs. Wilma Spruiell.

Between Friday night's homecoming football game between Iowa Park and Clyde, and Saturday's annual banquet, the Chamber of Commerce will be sponsoring their annual Whoop-T-Do all day Saturday in the 100 block of East Cash.

Joni Carter Whitis, '72, is president this year of the Ex-Students Association; Lisa Shults Ezzell, '79, is first vice president; Judy Calloway Reid, '64, is second vice president; Patsy Rogers Cope, '47, treasurer; Lela Rogers Mercer, '45, secretary; Jo Ellis Patterson, '31, corresponding secretary, and Denise White Henderson, '75, reporter.

# Third generation artist enjoys many crafts

By Myrna Smith

For a young matron who grew up hating art, and refusing her mother's encouragement that she learn to paint, Laura Gillis is doing well in the art field.

The fact that she is a third generation artisan very likely has had an influence through the years.

With maternal grandparents, Ernest and Ardith Kneale of Graham, Mo., wood craftsmen, and her mother, Mary Ann McCustion of Vernon an artist and a teacher of art at Vernon Regional Junior College, Laura seems to have an inherent aptitude for a multiplicity of creative crafts.

Just in the last year Laura started painting pictures, after taking a couple of lessons from her mom.

She acquired a dislike (she thought) for art at an early age. She grew up in Vernon and her mother, who paints mostly southwest themes in watercolor, always selected Laura to hang her paintings for shows. "I hated it," she said, adding, "Mother tried her best to interest me in art, but I thought 'no way,' I will never be interested. I have changed my mind now, but I still prefer to do other things."

Laura and her mother do some of their arts and crafts together and exhibit their work at shows about 12 times a year under the name Southwest Designs.

In addition to these shows, Laura, her mother and her grandparents have a three-generation show of their various crafts on Thanksgiving weekend each year in Vernon.

Currently Laura is into making earrings, clip and posts, and dangles in different sizes, with matching berets and pins. These are done predominantly in the southwest or western motif, with some depicting Christmas themes.

She, her mother and her younger sister (when they can talk her into it) form an assembly line when they make the earrings.

Laura and her mother draw an outline of what they want to make on heavy 300-pound watercolor paper,

Laura Gillis

then cut them out, paint the details with water colors and cover them with acrylic.

They think up their own designs, or get ideas from people at the shows who ask for a certain kind. If they don't have that kind, they usually have some for the next show.

A bit of nostalgia was the start of Laura's crafts and her interest in exhibiting at shows around Texas.

She still has her first teddy bear and that gave her the incentive about four years ago to make stuffed teddy bears in all sizes and colors. She loves to sew and this also gave her an outlet for that penchant.

From that she made other stuffed animals, such as rabbits, which she dresses, reindeers, Mickey and Minnie Mouse and other characters. She also has made stuffed cactus, both large and small ones. When she gets tired of working on one thing, she starts another.

She and her mother are adding jackets to their many other show items. They have some that Laura makes from white polyester, then her mother paints designs on them with fabric dye and quilts around the design. They also make some quilted jackets that feature quilt pattern squares. They plan to do more clothes for the shows.

And Laura wants to get more into art in the future, now that she has become interested.

The McCustions moved to Vernon from Missouri in 1976. Laura graduated Vernon High School and received an associate degree in Science from Vernon Regional Junior College.

She had plans to go into the agricultural field, but then she met James and she lost interest in agriculture and her thoughts turned more to home-making.

The couple married six years ago in Vernon, later moving to Iowa Park. He works in sales and service at NACCO in Electra.

Laura makes all of hers and her husband's shirts and also makes the buttons for some of hers.

She does pen and ink and pencil line drawings. She did a large pencil drawing of a tank battery located north of Iowa Park for James as a Christmas gift, because it is like the ones he builds.

Laura works as typesetter and designer for Humphrey Printing Co., in Wichita Falls.

James and his wife share an interest in collecting. Whatever they see that they really like they begin collecting. Currently she has a good start on a collection of pitchers and he has begun a collection of steins. They have barely started on a collection of shuttles.

Their home also features decorative wooden pieces that her grandfather cuts out and her grandmother paints, and artwork by her mother, in addition to Laura's own handwork.

Mrs. McCustion and Laura will have three more shows to make this year, other than the one in Vernon at Thanksgiving.

The next will be the last of this month at the Mansion in Wichita

Falls, one in October at Waggoner National Bank in Vernon and the first weekend in November in Burkburnett.

BROWN-CAVETT  
**BACK & NECK CHIROPRACTIC**

Dr. Daniel Broom

## SCIATICA

Sciatica can be a severely painful condition. It is caused by irritation of the sciatic nerve, a nerve which runs from the lower back through the hip and down the leg. The sciatic nerve is the largest nerve in the body, as anyone who has had sciatica can attest. The most common cause of sciatica is pinching or irritation of the nerve in the lower spine. Slipping of a disc, subluxation or minor misalignment of spinal joint, bone spurs or combinations of all of these problems are the typical causes of sciatica nerve irritation.

Sciatica is one of the most common conditions for which back surgery is recommended. Back surgery however, is only successful about 60% of the time and has a fairly high risk of complications. More recent interest in nonsurgical treatments for sciatic nerve pain has caused several researchers to look at chiropractic manipulation as an alternative. Researchers at St. Thomas Hospital recently reported the results of their study for back and sciatic nerve pain in the *British Journal Of Rheumatology*. They found manipulation to be the single most effective treatment in the 513 patients studied.

In a similar study, researchers at the California College of Medicine at the University of California Irvine, also found manipulation to significantly improve clinical signs of sciatic nerve compression. Clearly, chiropractic manipulation is one of the most effective conservative treatments in those with sciatic nerve pain.

Chiropractic manipulation should be one of the first considerations in those with sciatica. It can prevent the need for spinal surgery in many patients. There are effective ways of dealing with pain in the body's largest nerve!

# Obituaries

## Hubert C. Willis

Services for Hubert C. Willis, 71, brother of Wanda Scobee of Iowa Park, were at 2 p.m. Wednesday at Coker Funeral Home in Jacksboro. Burial was in Restland Cemetery in Olney.

Willis was the former owner of Montgomery Ward Catalogue Store in Jacksboro and a former city police patrolman. He was a Baptist and a veteran.

Born June 20, 1920, in Young County, he was married to Joyce Howerton June 21, 1968 in Oklahoma.

Other survivors include his wife; three sons, Charles of San Diego, Calif., Richard Bullard of Crowley and Billy Bullard of Jacksboro; four daughters, Sandra Kay Smith, of Bastrop, Sherry Rhodes of Bryson, Charlene Kimberlin of Wichita Falls, and Lori of Jacksboro; two other sisters, Elsie Lowder of Wichita Falls and Katy Koren of Grand Prairie, and six grandchildren.

## Ronald D. Woods

Memorial services for Ronald D. Woods (USAF Maj.Ret), 60, of Colorado Springs, Colo., former Iowa Park resident, were Tuesday at 10 a.m. in Evergreen Funeral Home Chapel in Colorado Springs with Rev. Jim Wince officiating.

Woods died Saturday in Colorado Springs.

Born Sept. 29, 1930 in Topeka, Kans., to Raymond A. and Dorothy H. Sloop Woods, he was married to the former Lucy Lee Dale on Dec. 18, 1951 in Iowa Park. She died in 1990.

Woods attended William and Mary University and served in the United States Air Force for 22 years,

retiring in 1970 with the rank of major.

For eight years he was a real estate agent with Remax in Colorado Springs. He was a member of ORBS at Peterson Air Force Base.

He is survived by a son, Tom Woods of Colorado Springs; one daughter, Julia McCarthy of Colorado Springs; his parents, Mr. and Mrs. Raymond Woods of Tillamook, Ore.; two sisters, Patricia Hartwig of Portland, Ore., and Sharon Rowland of Tacoma, Wash., and three grandchildren.

Memorials may be made to Pikes Peak Hospice, 622 S. Tejon St., Colorado Springs, Colo., 80903.

## SALT Shakers Class moves

The SALT (Single Adults Learning Together) Shakers Class, sponsored by Faith Baptist Church, is expanding and has moved from the church building to the SALT House, 410 S. Wall.

Located across the street from the church building, the house is the property of the Singles Department of Faith Baptist Church.

The class is non-denominational and singles from all adult age groups are invited to attend. Leaders are especially targeting single parents of small children.

Vern Day is currently teaching the class, assisted by his wife, Ruth.

In addition to a Bible study, the Christian fellowship for singles serves as a support group for parents who are raising their children alone. Those attending the class also are encouraged to share their problems, experiences and ideas.

The SALT Shakers meet each Sunday morning from 9:15 until

10:15, allowing time for those who wish to attend the church of their choice. A Sunday School class for children is available across the street at Faith Baptist Church.

## Card of Thanks

We want to express our appreciation for the many acts of kindness shown us while Clarence was in the hospital.

A special thank you to the Volunteer Fire Department of Iowa Park and their EMTs for the prompt response to help us.

Thank you all for the prayers, food, visits, cards and support.

Clarence and Ernie Mahler

## Card of Thanks

I want to thank all the ones who have been so kind and concerned for me. Words can't express how much I appreciate the calls, visits, flowers, gifts, cards and prayers for me.

Susan Swanson

THE CHURCH OF CHRIST EMPHASIZES RESTORATION AND NOT REFORMATION IN RELIGION  
There is a basic point of difference between restoration and reformation in religion. Even though Martin Luther was a valiant opponent of error in his day, he approached the problem from a faulty viewpoint. His desire was to reform Romanism. We are interested in restoring pristine Christianity. Our desire is to go beyond Rome and apostasy back to Jerusalem and the religion that started there about 30 A.D. One can read of this tremendous beginning in Acts chapter two.  
In this regard we are neither Catholic nor protestant - just simply Christians. The church of the Lord realizes that all error in religion will be purged out and all truth shall be honored when the Christianity of the first century is honored in life and teaching. There is no other safe appeal in the world today. Our interest is not in Wesley, Calvin, Luther, Alexander Campbell, or Joseph Smith, but in the everlasting gospel of the Son of God. In John 8:32 we are assured that "the truth shall make you free." Therefore, we emphasize the complete rejection of denominational ties and a wholehearted approval of that which Christ and his apostles revealed over 1900 years ago.  
In doing this we eliminate all the errors of "the Reformation" and current thought, while retaining only those practices of the early church. Surely you can see the wisdom in our emphasis. This approach gives honor to no man or movement. It pays homage only to the Christ. The impurities and false doctrines that have corrupted the centuries since the ascension of Jesus can all be erased by an honest, obedient effort to live in harmony with the teachings of our Redeemer in the New Testament.

Absolute open flow-2400 MCF/D.

**Masons slate public open house**

Iowa Park Masons will host their second-annual public open house from 2 to 4 p.m. Sunday, Sept. 22, according to Johnnie Brown, Master of the lodge.

The Lodge is located at 700 West Washington.

Iowa Park is joining 940 other lodges across Texas in holding a simultaneous state-wide public open house.

Brown said literature giving a brief explanation of more significant points of interest about the lodge room, including some of the more prominent symbols utilized in Masonry to teach Masonic philosophy, will be available.

Masons collectively donate over \$2 million a day and thousands of hours of service to worthy causes.

Masons do not solicit members, Brown emphasized, but "men of good character may ask to become members."

The first community award will be presented during the afternoon to a non-Mason who has contributed to the community, Brown added.

**Cubs seek new members**

The Fall Cub Scout Roundup will be held at 7 p.m. Monday, Sept. 23, at the First Christian Church.

Boys in the first through fifth grades are eligible for membership.

**IOWA PARK SCHOOL MENU**

**Tips On Dental Health**

**RICHARD CARVER, D.D.S.**

**FIXED BRIDGE**

A fixed bridge is an appliance made to replace a missing tooth or teeth. It is best to have the bridge made as soon as possible after the tooth has been lost.

The teeth on both sides of the space are prepared by the dentist to receive a crown. Impressions or imprints that are very accurate are then taken, a wax bite or other method is used to determine how long the teeth should be and how they will fit with the opposing teeth. Temporary crowns are then put on the teeth to protect them so the patient can go about their business until the bridge is ready to seat at the next visit.

The dentist will remove the temporary crowns, check for proper fit and make any adjustments that are necessary, then cement the bridge using a special dental cement.

Bridges can be made from solid dental gold, gold and porcelain or gold and acrylic. Nowadays much of the metal used is a special alloy that is less expensive than the gold.

The fixed bridge:

- \*replaces missing teeth
- \*prevents over-eruption of opposing teeth
- \*prevents drift and tilt of adjacent teeth
- \*helps prevent decay in abnormal
- \*helps retard the onset of periodontal diseases (bone destruction around the teeth.)

**ADD 'EM UP! MOVE 'EM OUT!**

Add Pro-Lix Plus to your feeding program today, and add up the profits at sale time.

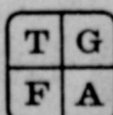

It's simple addition, really. Pro-Lix Plus adds protein, vitamins, fat, and chelated minerals to nutrient-poor forage, so your animals can reproduce more efficiently and grow

bigger and healthier, all year round. More calves—especially bigger, healthier ones—equal bigger, healthier profits.

Pro-Lix Plus is effective as a free-choice supplement, a top-dressing, or a ration balancer, so try some today—it's one investment that really adds up.

# It was one of those 'what if...' games

## Hawks suffer second loss of the season

Friday's 28-7 loss at Abilene Wylie was one of those "what if..." games.

What if ... the Hawks hadn't suffered three pass interceptions, two that led to Bulldog scores and another that killed a Hawk scoring opportunity?

What if ... Wylie hadn't been allowed to return a punt 82 yards for a score?

What if ... Iowa Park had picked up a first down on Wylie's eight yard line early in the fourth period?

As it turned out, Wylie handed the Hawks their second consecutive loss of the young season.

On paper, it was Iowa Park's game. The Hawks led almost every statistic, out-gaining their hosts in yardage and first downs, but also in turnovers. Wylie never gave up a fumble or interception.

Both teams scored on their first possessions of the ball, Wylie capping a 69-yard drive with a two-yard run, and Iowa Park driving 75 yards with Todd Pulley scoring on a 16-yard run around right end and then tying the score by kicking the extra point.

The Mean Green defense held the 'Dogs on their next possession, stopping their drive on Iowa Park's 15. And, following the first interception of the evening, held Wylie out of the end zone again.

Wylie punted, but three penalties on their next possession forced the Hawks to punt to the Iowa Park 46. The Bulldogs took

HAWKS HUSTLE TO BLOCK FOR THEIR BALL CARRIER

the lead on their next possession, scoring on a 38-yard pass play. And the Hawks kept the scoring spread down by sending Cody Witherspoon with a diving block of the extra point kick attempt. And the half ended 13-7.

The Hawks picked up a first down after receiving the second-half kickoff, but bogged down and were forced to punt from the 50 yard line. A Wylie player picked the ball off the ground at his own 18, broke through the line of defending Hawks, and raced untouched to the end zone. That was followed by a two-point conversion pass that made the score 21-7.

Still within reach of getting back into the game, Wylie was unable to pickup a first down on the 'Dogs' next possession and called for a punt from their own 17. The snap was bobbled on the ground by the punter, and Witherspoon and Mark de la Rosa tackled him on the Wylie four yard line.

Chris Williams was unable to gain a yard on either of two runs. On third down, Robert Denton attempted a pass into the end zone on his left. It was intercepted and returned to the host team's 44.

On their next possession, the Hawks marched all the way from their 23 to the Wylie 10 where, on a fourth-and-two situa-

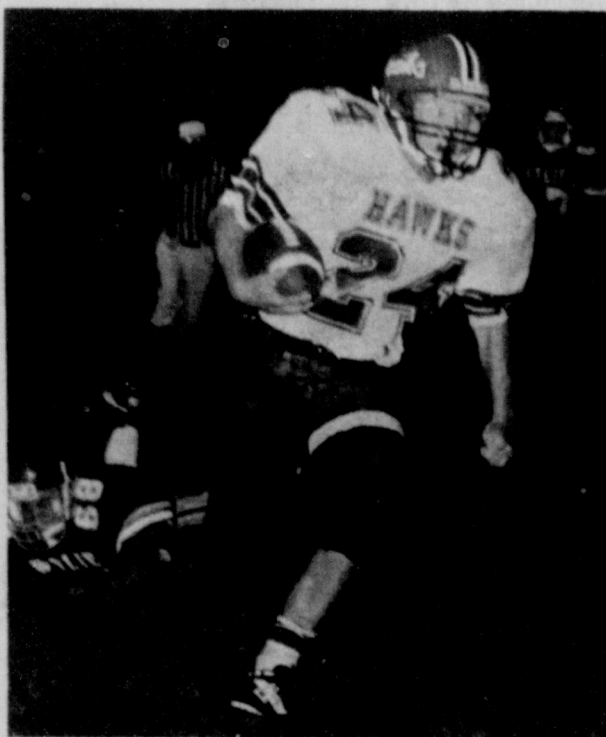

tion, Greg Steger appeared to have picked up a first down, but the officials ruled the ball down inches short at the eight.

The Hawks had one more shot at scoring before the end of the game. On two passes and a pair of runs, they advanced the ball from their own 43 to the Bulldogs' 10. But three pass attempts and a run failed, and the hosts took over at that point.

Wylie defenders chalked up their third interception with less than two minutes remaining in the game, and scored in three plays on a series that started from the Iowa Park 20, making the score 28-7.

Junior runningback Williams chalked up his first 100-yard game as a varsity Hawk. He picked up 106 yards on 19 carries. Johnny Duggins, who missed the game after being ill most of the week, had 110 last year against Wylie.

# Holiday schools to celebrate 100 years

Centennial homecoming activities for Holliday Independent School District will get underway Friday at 6 p.m. with registration in the school cafeteria at 6 p.m., according to Dan Owen, superintendent. A number of displays will be set up for viewing in the cafeteria.

Pre-game activities will begin Friday at 7:30 p.m. with special recognitions. Also at this time sweepstakes band winners will be recognized.

The Holliday band won sweepstakes in 1967, 68, 69, 72, 73, 74, 75, 76, 79, 1980s, 82, and 1990.

A release of balloons and kick-off time for the football game between the Holliday Eagles and Bowie Jackrabbits is scheduled for 8 p.m.

Planned half-time activities on the field includes recognition of ex-teachers, special guests, and the first District Football Championship in 1948. Other District Championships will be recognized for the years, 1956, 1968, 1970, 71, 73, 75, 77, 78, 79, 1981, 82.

Post-game activities will begin at 10 p.m. in the cafeteria when registration will continue and a reception will be held.

Saturday activities will begin at 10 a.m. with registration, displays and open house in all of the buildings. At 11:30 a.m. a special program will be held in the Erma Barton Auditorium.

Ex-students have planned class reunions and other social activities for Saturday afternoon.

Prior to 1892, the organization of the county school system was in Archer City under the jurisdiction of the county judge and a board of trustees. Archer, Clay and Young counties were under the same jurisdiction and small country schools were dotted across the area.

In 1892 Holliday built its own school, a one-room building. A professor was hired to teach a five-month term for \$250.

A tornado destroyed the original building in the early 1900s and was replaced by a two room, two story structure in 1910.

The first floor room was used for elementary students and the second floor was used for high school students.

By 1922, due to growth of the school district, a new building was

needed. A red brick building was erected and two years later other classrooms were added.

Because of additional growth, more room was needed by 1940. The tax income from the oil industry made it feasible to tear down the old building and construct a new one.

It was during this time that students from Geraldine, Mankins, and Dundee consolidated with Holliday school district. This consolidation made Holliday competitive in sports. However, in the mid 40s tragedy struck again and the school burned to the ground.

In 1946 the building that now houses elementary students was built. In 1963 more room was needed and additions included extra classrooms, a gymnasium and a cafeteria.

This building was named for W.S. Thomas who had attended the first one-room school, graduated from the two-room, two story building and while attending college helped build the red brick building. He also served as superintendent during the life of the other buildings.

In 1976 the present high school building was completed and included an auditorium and remodeling of the old two story building that would house grades one through eight.

Since 1978 the school has added other structures which include an agriculture building, a band hall and track.

In 1988 the middle school, housing sixth, seventh and eighth grades, and administrative offices was added. Also that year the kindergarten was

moved to the elementary building.

Only three superintendents have served the school in the last 57 years.

These include Thomas, 1935-1971, Ray Coe, 1971-1982, and Owen, since 1982.

**PUBLIC NOTICE**  
BRIEF EXPLANATORY STATEMENTS  
OF PROPOSED  
**CONSTITUTIONAL AMENDMENTS**  
SPECIAL ELECTION  
NOVEMBER 5, 1991

**PROPOSITION NO. 1  
ON THE BALLOT**

House Joint Resolution 114 proposes a constitutional amendment that would authorize home rule cities having a population of 5,000 or fewer inhabitants to amend their city charters by a majority vote of a city's qualified voters at an election held for that purpose. The amendment makes clear that home rule cities that have declined in population below the population required to initially adopt a charter may nevertheless continue to amend their charters.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment allowing home-rule cities with a population of 5,000 or less to amend their charters by popular vote."

**PROPOSITION NO. 2  
ON THE BALLOT**

House Joint Resolution 10 proposes a constitutional amendment that would allow the legislature to authorize the Texas Department of Transportation to expend money, from any source available, for the costs of the turnpikes, toll roads, or toll bridges of the Texas Turnpike Authority, provided that any monies expended from the state highway fund shall be repaid to the fund from tolls or other turnpike revenue.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment mandating the repayment to the Department of Transportation of monies expended to assist the Texas Turnpike Authority in the construction, maintenance, and operation of turnpikes, toll roads and toll bridges."

**PROPOSITION NO. 3  
ON THE BALLOT**

Senate Joint Resolution 26 proposes a constitutional amendment that would authorize the Veterans' Land Board to invest, as authorized by law, moneys of the Veterans' Land Fund which are not immediately committed to the payment of principal and interest on bonds issued by the Veterans' Land Board, the purchase of lands, or the payment of expenses. Investment of such moneys would no longer be restricted to investments in bonds or obligations of the United States. The proposed amendment would also authorize the Veterans' Land Board to invest, as authorized by law, moneys of the Veterans' Housing Assistance Fund which are not immediately committed to the payment of principal and interest on general obligation bonds issued by the Veterans' Land Board for the benefit of the Veterans' Housing Assistance Fund, the making of home mortgage loans, or the payment of expenses. Investment of such moneys would no longer be restricted to investments in bonds or obligations of the United States. The proposed amendment gives the legislature power to implement the amendment and to delegate such duties and authority to the Veterans' Land Board as it deems necessary.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment to authorize the legislature to further implement and enhance the administration of the veterans' housing assistance and land programs and to expand the investment authority of the Veterans' Land Board."

**PROPOSITION NO. 4  
ON THE BALLOT**

Senate Joint Resolution 4 proposes a constitutional amendment that would allow the legislature to authorize the issuance of a maximum of \$1.1 billion in general obligation bonds. The proceeds of the bonds are to be used to acquire, construct, or equip new prisons and substance abuse felony punishment facilities, mental health and mental retardation

institutions, and youth corrections institutions, to repair and renovate existing facilities of those institutions and to acquire, repair, or renovate other facilities for use as state prisons or substance abuse felony punishment facilities. The \$1.1 billion is in addition to the \$900 million currently authorized by the constitution to be expended on bond issues for facilities of correctional and mental health and mental retardation institutions. The bonds would constitute a general obligation of the state. The bonds and interest on the bonds would be paid from the first money coming into the state treasury that is not otherwise appropriated by the constitution, less any amount in a sinking fund at the end of the preceding fiscal year that is pledged to payment of the bonds or interest.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment authorizing the issuance of up to \$1.1 billion in general obligation bonds for acquiring, constructing, or equipping new prisons or other punishment facilities for convicted criminals, mental health and mental retardation institutions, and youth corrections institutions, for major repair or renovation of existing facilities of those institutions, and for the acquisition of, major repair to, or renovation of other facilities for use as state prisons or other punishment facilities."

**PROPOSITION NO. 5  
ON THE BALLOT**

Senate Joint Resolution 39 proposes a constitutional amendment that would allow a county, junior college district, or municipality to exempt tangible personal property from ad valorem taxation if: (1) the property is acquired or brought into the state in an enterprise zone, (2) the property is assembled, stored, repaired, maintained, manufactured, processed, or fabricated in the enterprise zone, (3) the property is transported outside the state not later than 175 days after being acquired or brought into an enterprise zone, and (4) the person who acquired or brought the property into an enterprise zone is a qualified business. A county, junior college district, or municipality may exempt such property by entering into a written agreement with a qualified business that states the duration of the exemption and the terms on which the exemption is granted. Any action to exempt property must be taken before April 1 of the first year in which the property would otherwise be taxed. The term "enterprise zone" means an area that (1) has been designated as such by a state agency responsible for economic development, and (2) has pervasive poverty, unemployment, and economic distress. The term "qualified business" means a business that meets the qualification established by general law, and requires that the qualified business is actively engaged in a new business in the enterprise zone or is expanding a business that is already active in the enterprise zone. An enterprise zone is created to foster economic development in an area of pervasive poverty and unemployment.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment authorizing the exemption for ad valorem taxes of certain property in an enterprise zone."

**PROPOSITION NO. 6  
ON THE BALLOT**

Senate Joint Resolution 8 proposes a constitutional amendment that would establish a Texas Ethics Commission with the powers and duties provided by law. The commission would consist of eight appointed members selected as follows: two members of different political parties appointed by the governor from a list of at least ten names submitted by the members of the house of representatives from each major political party; two

members of different political parties appointed by the governor from a list of at least ten names submitted by the members of the senate from each major political party; two members of different political parties appointed by the speaker of the house of representatives from a list of at least ten names submitted by the members of the house from each major political party; and two members of different political parties appointed by the lieutenant governor from a list of at least ten names submitted by the members of the senate from each major political party. A major political party is a political party required by law to hold a primary. With the exception of the initial appointees, commission members would serve for four-year terms. A member who has served for one term and any part of a second term would not be eligible for reappointment. The commission would be authorized to recommend the salary of the members of the legislature and may recommend that the salary of the speaker of the house of representatives and the lieutenant governor be set at an amount higher than that of other members. If the commission recommends a change in salary, the voters would be authorized to accept or reject the salary change at the next general election for state and county officers. If the voters approve the recommended salary, that salary would take effect January 1 of the next odd-numbered year; if the voters reject the recommended salary, no change in salary would occur. The commission would set the per diem of the members of the legislature and of the lieutenant governor. The per diem could be raised or lowered biennially as necessary to pay members' costs, but could not exceed the amount allowed as of January 1 that year as a federal income tax deduction for living expenses incurred in a legislative day in connection with a member's business as a legislator, disregarding any federal income tax exception for legislators residing near the Capitol. The commission would have other powers and duties provided by the commission's enabling act (Senate Bill 1, 72nd Legislature, Regular Session). The amendment would also provide that an increase in the emoluments of the office of Lieutenant Governor would not make a legislator ineligible to serve in the office of Lieutenant Governor.

The proposed amendment will be described on the ballot as follows:

"The constitutional amendment creating the Texas Ethics Commission and authorizing the commission to recommend the salary for members of the legislature and the lieutenant governor, subject to voter approval, and to set the per diem for those officials, subject to a limit."

**PROPOSITION NO. 7  
ON THE BALLOT**

Senate Joint Resolution 6 proposes a constitutional amendment that would allow the board of trustees of each statewide public retirement system to invest the funds of the system in such manner as the board considers prudent. The board would no longer be limited to investing the funds of the system in securities.

The proposed amendment will be described on the ballot as follows:

"The constitutional amendment to allow the board of trustees of a statewide public retirement system to invest the funds of the system in a manner that the board considers prudent."

**PROPOSITION NO. 8  
ON THE BALLOT**

Senate Joint Resolution 21 proposes a constitutional amendment that would permit the legislature to create debt by or on behalf of the state if the legislature submitted the debt question to the voters of the state in the form of a proposition and a majority of those voting approved the proposition. The legislature may call the election, by joint resolution approved by at least two-thirds of the members of each house, during any regular session or during any special session if the subject of the proposition is included in the Governor's proclamation for that special session. A proposition must clearly describe the amount and purpose for which debt is to be created and must describe the source of payment for the debt. The amount of debt stated in the proposition may

not be exceeded and may not be renewed unless the right to exceed or renew is stated in the proposition. The legislature may enact laws necessary to implement the authority granted by a proposition. A law enacted in anticipation of the election on a proposition is valid if, by its terms, it is enacted subject to approval of the related proposition. State debt that is created following voter approval of a proposition and that is approved by the Attorney General is incontestable for any reason.

**PROPOSITION NO. 9  
ON THE BALLOT**

Senate Joint Resolution 11 proposes a constitutional amendment that would authorize the commissioner of the General Land Office to issue patents for certain public free school fund land for which there is not a valid transfer of title from either the State or the Republic of Texas to a private party. A patent is a document of title issued by the state. On application to the School Land Board, a person is entitled to receive a patent if: (1) the land is surveyed public free school fund land, (2) the land was not patentable under the law before the adoption of this proposed amendment, (3) the person acquired the land without knowledge of the title defect of the State of Texas or the Republic of Texas and held the land under color of title, the chain of which dates from at least January 1, 1941, (4) the person has a recorded deed on file in the county courthouse and, in conjunction with his predecessor in interest, has claimed the land for at least fifty years as of January 1, 1991, and (5) the person, in conjunction with his predecessor in interest, for at least 50 years has paid taxes on the land together with all interest and penalties associated with any delinquency. If the applicant is denied a patent, the applicant may file suit against the School Land Board in a district court in the county where the land is located within 60 days from the date of denial. The proposed amendment does not apply to beach land, submerged land, or islands, and may not be used to resolve a boundary dispute. The proposed amendment also does not apply to land found by a court to be state-owned or to land on which the state has given a mineral lease that is in effect when a patent is sought. A patent under this proposed amendment for land within five miles of mineral production shall reserve minerals to the state in the manner provided by law for reservations of minerals in sales to claimants of unsurveyed school land within five miles of production. An application for a patent under this proposed amendment must be filed with the School Land Board before January 1, 1993.

This proposed constitutional amendment is similar to the version of article VII, section 4A, that was in effect between 1981 and 1990. The main difference is that under the earlier version the applicant for a patent to land had to have a chain of title that dated back to at least as early as January 1, 1932.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment authorizing the commissioner of the General Land Office to issue patents for certain public free school fund land held in good faith under color of title for at least 50 years."

**PROPOSITION NO. 10  
ON THE BALLOT**

Senate Joint Resolution 15 proposes a constitutional amendment that would allow the legislature to pass general laws to exempt property owned by a nonprofit corporation organized to supply water or provide wastewater service from ad valorem taxation. A nonprofit corporation would be eligible for the exemption if its bylaws provide that

on dissolution, the assets remaining after the discharge of the corporation's indebtedness will be transferred to an entity providing water supply or wastewater service, or both, which is exempt from ad valorem taxation. The transferred assets must be property that is reasonably necessary for and used for water supply and wastewater services.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment authorizing the legislature to exempt from ad valorem taxes certain property of a nonprofit corporation that supplies water or provides wastewater service."

**PROPOSITION NO. 11  
ON THE BALLOT**

House Joint Resolution 8 proposes a constitutional amendment that would allow the legislature to pass laws to authorize the State of Texas to operate lotteries and to enter into a contract with one or more legal entities that will operate lotteries on behalf of the State of Texas.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment authorizing a state lottery."

**PROPOSITION NO. 12  
ON THE BALLOT**

Senate Joint Resolution 34 proposes a constitutional amendment that would increase the total amount of bonds that may be issued by the Texas Water Development Board to provide wholesale and retail water and wastewater facilities to economically distressed areas of the state. The proposed amendment increases the maximum principal amount of the bonds from 20 percent to 50 percent of the \$500 million amount authorized by article III, section 49-d-7, of the Texas Constitution. The proposed amendment would increase the maximum aggregate dollar amount of bonds that the Texas Water Development Board could issue from \$100 million to \$250 million.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment to increase from 20 percent to 50 percent the percentage of Texas water development bonds previously authorized by Texas voters that may be issued for economically distressed areas."

**PROPOSITION NO. 13  
ON THE BALLOT**

Senate Joint Resolution 2 proposes a constitutional amendment that would allow the legislature to pass general laws authorizing Texas Higher Education Coordinating Board or its successor to issue and sell up to \$300 million of general obligation bonds to finance education loans to students. The maximum net effective interest rate to be borne by the bonds would be set by law. The amendment would also authorize the legislature to provide for the investment of bond proceeds and to establish an interest and sinking fund to pay the bonds and provide for the investment of such fund. Bonds authorized under this amendment would be paid from the first money coming into the treasury in each fiscal year that is not otherwise appropriated by the constitution, less any amount in an interest and sinking fund established at the end of the preceding year that is pledged to the payment of the bonds or interests.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment providing for the issuance of general obligation bonds not to exceed \$300,000,000 to continue existing programs to provide educational loans to students, with repayments of student loans applied toward retirement of the bonds."

Estos son los informes explicatorios sobre las enmiendas propuestas a la constitución que aparecerán en la boleta el día 5 de noviembre de 1991. Si usted no ha recibido una copia de los informes en español, podrá obtener una gratis por llamar al 1/800/252/8683 o por escribir al Secretario de Estado, P.O. Box 12060, Austin, Texas 78711.

A reminder from this newspaper and the Troopers of the Texas Department of Public Safety

**SPORTS**  
Shorts

Friday the 13th wasn't a disappointment for the Iowa Park Hawks alone. Five of their opponents this season also suffered losses. They included: Burkburnett 35, Diamond Hill 13, Gainesville 43, Decatur 7, Snyder 14, Clyde 0, Childress 20, West Texas 13, Southlake Carroll 34, Graham 0, Henrietta 18, Bridgeport 7, Paris 42, Bowie 13, Breckenridge 6, Ballinger 2, Vernon 21, Wichita Falls High 0

ss ss ss ss ss

Bowie High is apparently experiencing a similar problem as did Iowa Park last season. When one player was knocked out for the season by an injury and three moved up to the varsity, the junior varsity schedule was cancelled for the season.

ss ss ss ss ss

Iowa Park Athletic Booster Club meets at 7 p.m. each Monday in the field house to view the previous Friday's varsity game film and hear comments from the coaching staff.

ss ss ss ss ss

Next week's homecoming bonfire is already being built at the RAC on Third Street, and wood, cardboard and tree limbs are welcomed. Donors are asked to not put any plastic or rubber items on the pile, however.

ss ss ss ss ss

Weather was blamed for poor playing conditions and the low, 6-2, score between Breckenridge and Ballinger Friday. The Buckaroos came out on top, despite the fact they had only two first downs (one of those on the 26-yard TD), to Ballinger's 13. The Bucks also were out-gained on the ground, 173-53. They gave up that two points on an intentional safety with 22 seconds remaining in the game.

ss ss ss ss ss

Bowie has some other problems having to do with athletics. It seems a water valve broke recently and leaked water from a storage tank onto the school's wooden gymnasium floor and will apparently require a total replacement.

**Helpful Facts**

# JV shuts out Quananah, 43-0

The Junior Varsity Hawks shut out Quananah here Thursday by a 43-0 margin, extending their season record to 2-0.

And though the Freshmen lost their second contest, 27-6 to Bowie, Coach Steve Stewart said their play was improved considerably over the opener.

Both clubs travel this afternoon to Decatur, where the Frosh are to kick off at 5:30 p.m., followed by the JV.

Don Ellis and Brent Brown had a field day against the Indian JV, as Ellis scored four touchdowns and a two-point conversion, while Brown scored one TD and racked up seven extra points.

Brown, on the first play from scrimmage, scored on a 60-yard pass from quarterback Tony Lozipone.

Still in the first period, Ellis ran an end sweep 20 yards to score, and then ran a two-point conversion.

Brown caught another Lozipone pass in the second period and scored, the play covering 65 yards. Ellis again ran for the two-pointer.

On the final play of the half, Ellis broke through the Indian defenders and raced 80 yards, and then kicked the extra point for a 29-0 lead.

Ellis added seven more points onto the scoreboard in the third, scoring on an option pitch from Brown on a play that covered 20 yards, and then kicking the extra point.

Stan Tigrett got into the scoring act in the fourth quarter, taking an option pitch into the end zone from the seven. Ellis again kicked the extra point.

Coach David Furman said Ellis and Jayson Maxwell were credited with quarterback sacks, Chris Eves and Michael Seigler covered Indian fumbles,

and Brown had an interception.

Jayson Young completed a touchdown pass to Jimmy Erskin for the only freshman touchdown.

**Helpful Facts**

Building permits are needed any time the property owner is covering square footage of the property and/or when repairs change the physical appearance of a structure. Minimum charge is \$10. Permits are available in the Public Works office at Iowa Park City Hall.

## Top 'O Texas Scoreboard

### IOWA PARK PEE WEES 20 BURKBURNETT PEE WEES 0

Troy Tatum scored two touchdowns and one extra point. Chas Wright scored one TD.

Outstanding offensively: quarterback, Todd Pulley; linemen, Brandon Griswell, Russell Duggins, Chas Simpson and Shane Dunn.

Outstanding defensively: Casey Evans and Mason Adams. Dustin Shiery and Wade Miser each covered a fumble and Chase Wright intercepted a pass (he also ran 26 plays for 147 yards)

### IOWA PARK MIDGETS 14 BURKBURNETT MIDGETS 0

Outstanding offensively: Brandon Brown ran 50 yards for a touchdown and Chad Wright ran 40 for another. Michael Swenson scored an extra point.

Linemen: Brandon McLemore, Bodie Yarbrough.

Outstanding defensively: Trace Beisch, Brad Green, Chad Parker. Justin Smith intercepted a pass and Brandon McLemore and Brad Green each recovered a fumble. Green ran 40 plays for 204 net yards.

## Cheerleaders' Point of View

The football team is ready for their first win Friday. They host the Decatur Eagles starting at 8:00. We are asking students to wear as much green as possible. We want the whole town here to cheer the guys on. **Good Luck Hawks!** See everyone there!

**STATE CAPITAL HIGHLIGHTS**  
By Lyndell Williams  
TEXAS PRESS ASSOCIATION

**AUSTIN** - East Texas state Rep. Billy Clemons announced he is a candidate to unseat indicted, five-term Texas House Speaker Gib Lewis when the new legislature convenes in 1993.

Clemons, a Democrat from Pollock, sharply criticized Lewis for stalling or killing bills without debate. "There is no democracy in the House," Clemons said, and he referred to Lewis' secretive calendars committee as "a secret killing machine." Clemons sits on that committee.

Lewis, who has yet to declare he will run for a sixth term as speaker, declined to comment on Clemons' bid.

Lewis was indicted by a grand jury in December on ethics charges and faces a pretrial hearing this month or early October.

He has denied the charges, but obviously his political future depends on the outcome of the indictment.

**Clemons, Maybe Others**  
Clemons did not reveal the names of lawmakers who support him against Lewis, perhaps to spare them retaliation.

Most Capitol observers believe Clemons' support is thin, but the symbolism of a member challenging Lewis fuels speculation that

the underground anti-Lewis movement is alive, maybe growing. State Rep. Dan Kubiak, who has challenged Lewis to change House rules, said "unless Lewis makes significant changes, he will face one or more opponents before it is all over."

Kubiak, D-Rockdale, said Lewis over his 10 years as speaker has forced rule changes which now allow a small clique to dominate their colleagues.

"Just as the Soviet dictatorship was dismantled, Lewis' small clique will be forced by Texas House members to install rules for fair play," Kubiak predicted.

**Richards, Bullock Hot**  
Gov. Ann Richards and Lt. Gov. Bob Bullock blasted federal proposals to cut Medicaid money to Texas.

The federal Office of Budget and Management wants to end special hospital tax programs used to increase the state's share of Medicaid matching funds.

"They are changing the rules in the middle of the game," Bullock charged. "We adopted the budget in good faith and now they want to jerk the rug out from under us."

**Private Prisons Clash**  
The chairman of the Texas Department of Criminal Justice, Selden Hale III, said private prisons built with funds raised by State Treasurer Kay Bailey Hutchison's husband are illegal.

Hutchison urges use of private prisons. Her husband, former lawmaker and state GOP chairman Ray Hutchison, was bond counsel for a private \$12.3 million prison construction project.

Hale, appointed this year by Gov. Ann Richards, said those prisons are substandard according to the Ruiz federal lawsuit criteria.

The treasurer responded that Hale is a "prison system bureaucrat. Anyone with common sense knows it's better to put criminals in a prison than release them to city streets."
