After arriving in this country, the men left Washington, D.C. and came to Stillwater, Okla., for a month of observation directed by the A & M college there. The Power of Memorial Day

by Dr. Norman Vincent Peale

I had the privilege of growing up in small Ohio communities in the early part of this century, and one of my most inspirational memories centers around Memorial Day and the old soldiers of the Civil War.

To me, Memorial Day was one of the most moving of all the national holidays. I was stirred by the speeches and martial music from the bandstand or cemetery on what we called "Decoration Day." There was something about the newness of life that the Spring had brought; soft sunshine falling on the fresh green grass of early summer, the misty hills in the distance, the sound of stirring national songs, and above all, the softly flapping flag in the gentle breeze as the speaker told us of our country, the deep devotion of its heroes, and recounted once more the stirring episodes of our heroic past.

And many a lazy summer afternoon, I sat on the coping around the old courthouse listening to the veterans of the Civil War tell of their experiences in the epic struggle between the States. A boy's imagination quickly sent him off behind long columns of blue or grey, and to him, such names as Antietam, The Wilderness, Shiloh, and Gettysburg became very real and meaningful.

Those old soldiers used to talk gratefully of Lincoln's insistence that those who had borne the heat of the battle and the burden of the struggle, the widow and the orphan, were to be given not charity, but their rightful due as the dependents of those brave men who had fought to preserve liberty and to keep the Union intact. It was regarded as a sacred duty of the nation, and the nation kept faith with its veterans.

In those days, as now, were many who had been disabled by the struggle. Their ability to compete in life had been reduced by wounds suffered in battle. Even as a boy I remember hearing how it seemed they were thought of only on such days as Memorial Day, when orators, fervent in their patriotism, remembered, if only for a day, the long continuing sacrifice made not by those who had died in battle, but by the disabled who were to live for many years following the great struggle.

The heroes of World War I and World War II and the Korean War are, of course, men who, with no concern for themselves, gave their lives that freedom might live. We can never do them adequate honor. And, we must never forget them. They died in their young life, forsaking the opportunities of the years that the rest of us might live and develop our highest hopes and dreams.

However, there are other living heroes who deprived themselves of either physical, emotional, or mental health for us and for their fellow countrymen. It would be as wrong for us to neglect or forget them as their buddies who today sleep on some Pacific Island or in a European cemetery. A hero dead or a hero maimed and disabled are both due our equal gratitude and our unceasing devotion.

We must never forget that the most effective way of honoring those who have died is to remember the living disabled, that their lives may be rich and full. They are a great asset to our country as the living embodiment of devotion to freedom. A country is recreant indeed which does not everlastingly keep alive grateful appreciation to those who suffered disability to perpetuate everything that we Americans hold dear.

There could be no better time than on Memorial Day to resolve that we shall gratefully support the honored men and women who have suffered disability from the wars of the United States.

(Written especially for the Disabled American Veterans, the Ideno-Tag organization)

WHY ADVERTISE ?

Chiropractic advertising is frequently a subject for discussion by people either uninformed about or prejudiced toward Chiropractic. Often these people question the ethics of this practice. It is true that most avenues of communication are closed to Chiropractic unless space is purchased by the Chiropractor. Case No. 1136, male, age 40, applied for the services of this office, seeking relief from headaches which bothered him for two years and had been constant during the past month. X-ray revealed the true CAUSE of this man's disease and corrective measures were started. This gentleman was a proof-reader of previous ads and thus was exposed, periodically to their message. The results in this case are ample justification for the continuance of Chiropractic advertising. This man was led to the correction of the CAUSE of his nagging headaches through Chiropractic advertising. Continuing the use of stop-gap treatment would have meant more months and years of pain and suffering.

TELEPHONE TALK

by Norman S. Stuckey, Manager

"SERVICE WAS NEVER BETTER"

Some time ago, we mailed out post cards to all our customers in Iowa Park. If you'll remember, we asked you in the post card what you DIDN'T like about your telephone service.

Maybe some of you were surprised that we would ask a question like that. But we meant it. We weren't asking for compliments. We did it to find out what you really thought about telephone service here.

When the cards came back with your answers, we were happy to see that most of you said, "Service is very good, well satisfied with it." And it was good hearing it from you, because we'll all admit that nobody knows more about your service than you do.

We also got a few complaints—thanks for telling us about them—and we tried to clear those up in a hurry so that everyone in Iowa Park would be satisfied with their telephone service.

Meanwhile, don't hesitate if something's bothering you right now about your telephone service. Just call the telephone company. We'd like to know about it—and we'll try to do something about it, too.

STOP THOSE HURRIED DASHES

Ever notice how you run for a ringing telephone because you're often in another part of the house? Then, when you get there, you're probably a little out of breath as you answer.

Our records show that the most popular spots for an extension with most people are the bedroom and kitchen. But don't forget the living room or the workshop—or anywhere, really, that's most convenient for you and your family.

To order an extension, just call the telephone company. The cost of an extension in your home is only \$1 a month, plus a one-time installation charge of \$1.75.

LONG DISTANCE VISIT

I was thinking just the other day that you can't drive a car from Iowa Park to Dallas for 65 cents. Yet you can visit there—by Long Distance—for just 65 cents.

That's the cost of a three-minute station-to-station call, after 6 p.m. and all day Sunday. Long Distance rates to anywhere are much less than you might think. So plan to visit regularly—by Long Distance. And when you call, remember to call by number—it's twice as fast.

Best Wishes, Seniors!

There are at least four reasons for congratulations at this time of year, when Iowa Park High School is finishing another term of school and graduating another crop of young men and women.

First, we want to congratulate the Class of 1956 for the fine way in which its members have conducted themselves throughout their school careers. The entire community is proud of them and happy to point them out as products of the school system and of the Iowa Park area.

Second, we congratulate the Iowa Park Independent School District: the Board of Trustees, the Superintendent, the Principals, the Teachers, the Bus Drivers, the Custodians and Cafeteria Personnel; on the fine way in which they have nurtured Iowa Park's most valuable product, its children. Each of you has had an important function to perform, and collectively you have achieved a marvelous success.

Third, we point with pride at the parents. With good training at home and whole-hearted co-operation with the schools, another successful term of school ends next week. Without such co-operation the school system would be handicapped and rendered ineffectual.

Finally, we congratulate ourselves on the fine community we have made and are making here. The spirit of our children is a reflection of the spirit of the community. The churches, the places and opportunities for recreation and entertainment, the family and community life — all are determining factors in the growth and development of character in our children. We have appraised those factors in Iowa Park, and find them wholesome!

We repeat — Congratulations, All!

"Planned-overs"...

the modern way to save cooking time with an Electric Food Freezer

You can save cooking time by storing "planned-overs," not just left-overs, in your Electric Food Freezer. By doubling or tripling your recipes and freezing the extra portion, you accumulate fresh, appetizing "planned-over" meals that can be served in just minutes . . . weeks, even months, later.

With two or three meals prepared from one cooking session, you can find time for other activities . . . avoid hurry-up, last-minute meal preparation. Even left-overs take on new importance . . . instead of using them up quickly

to avoid waste, you can freeze and store them for "planned" use later. An Electric Food Freezer streamlines your whole approach to meal planning, adds variety and zest to menus. Gone are the days of frequent marketing trips and three-meals-a-day cooking. No wonder so many modern homemakers say that "freezer living" is leisure living. Electric Food Freezers are available in either chest or upright models in a size that's just right for your kitchen space and food storage requirements . . . see them at your favorite appliance dealer's.

Class Prophecy

by Mary Reiston

I want to tell all of you a true story—something that happened to me. It all began on such a beautiful day! The girls were fairly making up songs of their own to sing; the sky was the prettiest shade of blue that I have ever seen, and I could not have felt better. In fact it was so nice and springy that I decided to leave my work and visit a friend who lived across the way.

It is always this way it seems to me: A person is walking along minding his own business doing just what he is supposed to do—then wham! Some car comes sweeping around the corner on a red light and knocks him down. That is exactly what happened to me. I had the strangest feeling afterwards. Everything suddenly grew hazy, then just as suddenly everything was bright once more.

I found myself looking up into the friendly face of a policeman. I removed myself from the ground and looked eye to eye with him. His face was so familiar that I could hardly believe my eyes. Was this a fellow classmate of mine? It couldn't be—but it was—Gordon Griffith. He didn't recognize me at first, but after he did, we stood and chatted for awhile. Gordon told me that the person in the hot rod would be quickly apprehended. I left him, thinking how good it was to see an old classmate after 15 years.

I walked across the street, but had not gone far when I saw a newspaper boy. Whistling, I paid him for a paper. I then started on my way still whistling. As I read, the headlines seemed to jump right from the paper and into my vision.

Small Town Girl, Miss Barbara Walker plans to be among those who will attempt to swim the English channel this coming year. Miss Walker, aged 32 has been training for this great event since 1907. She said, quote: It is the opportunity that I have always hoped and dreamed for. Unquote.

In the center of the front page I read The Luxury Liner sailed from France this morning, leaving behind between 20 and 30 grieving reporters. On this great ship was Johnnie Ralph Henry Brown, the multi-billionaire playboy. It is claimed that Mr. Brown owns 3/4 of Texas. Whether this is true or not can not easily be determined. We do know, however that Mr. Brown is all Texan, and that he is kept busy just visiting all of his oilwells.

Thumbing through this paper was fun. I turned to the society section, and noticed this item: The women's club will meet in the home of Mrs. Marvin Richter this week. Mrs. Richter is the president and most prominent member of the club.

I found the entertainment page to be most exciting. Mr. Bruce Hughes, who has just recently joined the Philharmonic Orchestra is the main soloist tonight. Mr. Hughes will play three instruments, the cornet, trombone and baritone horns. This paper is quite sure that a great crowd will attend the debut of this musical genius.

of MGM studios, and Mr. Boyd Smith of the Broadway stage, are starring in the new picture "Sons of Mexico." Critics have said that Miss Reed and Mr. Smith are sure to have a smash hit on their hands—box office net \$3,000,000. Miss Reed plays a Spanish senorita, and Mr. Smith plays Pablo, one of her father's most trusted friends, but he is actually the villain of the story.

I noticed that a new band was appearing at the Broadmoor hotel. Leader was Bobby MacManus. His band is said to be the hottest thing since Lawrence Welk and his orchestra, the paper said.

(Girls, watch out! This is a warning to all females. You had better watch your heart because a new crooner will certainly steal it from you, 15 years ago Elvis Presley was the heart stealer. Now he has gone out of style. Now—for only one night at the price of only 04.50—you can see the new crooner, Jerry Morgan. You've read it—Now do something about it. Get your tickets now!

The sports section included a picture of a football star. The face could not have been more familiar. It was Delos Whisenbunt. Delos was surrounded by not only the female fans, but the male part of the cheering section. The girls looked at him sorrowfully as tho' they were saying, "Too bad, he's taken."

I looked the newspaper under my arm. As I started around the corner, I saw only the tip end of a large cigar sticking out. I noticed a distinguished looking gentleman approaching me. Over his shoulder he had a large, professional looking camera, and on the leather case were the 4 letters: LIFE. Underneath was the name, Edwin Todd, Esquire. Wee, too, had a long chat. Edwin told me that he was going to Japan to cover some big story for Life magazine. He said that the last time he was in China he had seen Bonnie Callaway, who was now one of the leading missionaries in her field. Bonnie was working 24 hours a day, helping everyone who needed it. Edwin then asked me if I had seen J. D. Miller's life on the television program This Is Your Life. Edwin said that J. D. had been proclaimed the funniest performer since Phil Silvers. His salary was as high as \$1000 a week. I learned that one of my classmates was now a vocational agriculture teacher. The boys in his class thought highly of him. He was what you might call an agricultural genius. Yes, Eddie Whittenberg knew all there is to know about agriculture.

Edwin told me that Martha Eaton was the friendliest librarian that a person could find anywhere. "She knows where every book in that place is," he said. Edwin then remarked that one stewardess of the plane he was leaving on was none other than Mary Morgan.

Edwin then tilted his hat, put his cigar back in his mouth, and left, muttering all the while that he didn't want to miss his plane.

I felt something wet touch my arm. I looked up at the sky. The clouds were now gray and it had begun to rain. I then ducked into a store, the nearest to me—D. Sims and Company. I inquired about the owner. "Oh, you mean Mr. Sims, Mr. Durwood Sims. He has a large chain of these 5 and 10 stores. Why he's a tycoon." Later before I left the store, I heard her remarking to a customer, "Yes, we have a few paintings, but none of Larry Robinson's. But there is an exhibit of his at the art gallery. Around 25 paintings, I have heard."

A rainbow had appeared by the

time I left the store. I looked at my watch. It was now 10:30. I decided to cut across the park to save time. Well, as I was walking along, I saw a woman approaching me. It was Sue Evans. She was pushing a cart, which I soon discovered contained two girls—on each side of the proud mother walked a little boy. I asked Sue about Jerry Paul. She said Uncle Sam had called him back and that he was now an admiral. She showed me the check Jerry Paul had sent home to her and the children.

I asked if she had seen any of our former classmates.

Sue said that Joan Archer had her own television program—"The Domestic Housewife," a cooking and sewing class—Joan's own creation. Sue said that Joan was quite happy in her work. "Speaking of happiness," Sue remarked, "did you know that Joyce Stephenson is a model on the Big Payoff. But Joyce has always had just the perfect figure for being a model."

During our visit, Sue asked me if I had ever been to criminal court. She told me Lynn Hensley was a top lawyer and had lost only four cases out of 20. Lynn was always good at arguing about anything. This was really a fine way to earn money at the same time, I thought.

Sue left me, saying she had to go home and cook dinner. When I reached my friend's house we talked for awhile. She invited me to dinner, and I suggested eating in a restaurant close by. As we sat admiring the scenery, I overheard someone at the next table saying, "I have heard that Nina Lakey is in town. She's a famous skating star. I saw her do a perfect figure 8 one time. She is really terrific."

"You really should go to that gymnasium. You're getting flabby, my sweet," a woman at the next table was saying to her husband. "They say the owner David Sewell really knows how to make you lose weight. He has barbells, boxing gloves, and even a trapeze. One man lost 65 pounds there, so he could do something with you—surely."

"Well, dear, while I am there, you should go to the beauty shop. They say that Barbara Roberts and Billy Shook know the right style for any woman's hair—even yours." His wife quickly shut her mouth and didn't open it again. As my friend and I walked outside, I noticed a beautiful blonde acting strangely. She looked back before she started inside. I stopped, fascinated by this scene. Suddenly a man came around the corner. He wore dark glasses, but I quickly recognized him as Bill McMahon. I stopped him and asked him what he was doing. He looked at me strangely, then showed his credentials. I discovered he was a private detective and this woman's rich husband had hired him to follow her. Bill lifted his eyebrows and told me, "This is one job I don't mind doing," before he started after her again.

My friend remarked after his departure, "Have you ever seen a stranger man? Speaking of strange things—Have you heard of that agency for tall people? Thurman Payton, the owner finds tall boys for tall girls. But that's not all—he even provides a car which is twice as high as the usual car."

"There is also a barber shop down the street. The barber, John Wesley has hair down to his knees but it has been said that he is an excellent barber."

Danny Clark, young son of Mr. and Mrs. Ed Clark, who had surgery last week, has returned home from Baylor hospital in Dallas, and is reported greatly improved.

On our way back to my friend's house we passed an auction. The auctioneer, right before our very eyes, sold an antique love chair—scarcely worth \$5 for \$50. The auctioneer was none other than J. C. Bridges, but I was no longer surprised at anything.

Two doors down from the auction, I noticed a sign on the front of a building I had not noticed before: Laboratory—J. W. Geisert—Scientist. Jerry was always interested in science, even in the school room.

There was a huge building across from my friend's apartment—General Motors Inc. I heard that Sandra Fenner was the president of this corporation's private secretary and that she really knew her scotch and wouldn't surprise me if that girl didn't do 150 words a minute. She's also an excellent typist.

When Sandra left the building, I told her about seeing all of our former classmates. She remarked then that Norman Lee was professor at a girl's college. She also told me Doylene Morgan had been the only girl in a class of 100 geologists. "Imagine all of the fun she had. Now she has left town to hunt for ancient rocks," Sandra laughed.

After Sandra left, I said goodbye to my friend and started toward home. I heard someone calling my name. It was Gordon Griffith. He had hold of a man in an auto racing outfit. He had on goggles, but I recognized J. L. Skinner. "This is the scoundrel who knocked you down while ago. He is riding in the big race at Indianapolis. He says he was just practicing."

I started across the street. Before I knew it, a car came speeding around the corner and wham! Everything grew hazy again.

"Are you comfortable, Mary?" I recognized the voice of the registered nurse immediately. It was Clara Ann Verble. She looked very crisp in her clean white uniform. "What happened?" I asked groggily.

"You were hit by a car, but you will be all right."

"What time was that? I was hit twice, you know."

"Twice? Why, Mary. This happened about 9:00 this morning."

"Nine! But that couldn't be. What street was I on?"

"Fifth and Main."

"But I distinctly remembered the name of the street being Memory Lane. It was so realistic. I saw nearly all of our former classmates and what they are doing now. Everywhere I went, their names were being spoken."

"It was all a dream. Was there anything about what you were doing?"

"Yes, I passed a book store where two books I had written were on display. Titles of the books were 'Merlin Marlin, Private Eye' and 'The Life of an Eskimo.' It was only a dream—only a dream."

"If you don't believe my story, just remember that you begged me to tell it."

First Graders to Get Tryouts

A pre-school session will be held Monday, Tuesday and Wednesday of next week for all children who expect to start in the first grade here next fall, according to Miss Ethyle Kidwell, principal.

Each child is to bring 27 cents, a pencil, tablet, crayons and scissors.

Miss Kidwell asks the parents not to plan to stay with the students after they bring them to school. The children will be introduced to the various things they will be taught next fall. They will also be instructed in the way school lunches are served, and will be served their lunch.

Mrs. Alva Worthington and Mrs. Roy Smith, first grade teachers, will be assisting Miss Kidwell in this three day school.

Thursday at 1:00 a pre-school clinic will be held. If parents wish their own family physician to examine the student, they need not report for the check-up.

WSCS

The Power of Memorial Day

by Dr. Norman Vincent Peale

I had the privilege of growing up in small Ohio communities in the early part of this century, and one of my most inspirational memories centers around Memorial Day and the old soldiers of the Civil War.

To me, Memorial Day was one of the most moving of all the national holidays. I was stirred by the speeches and martial music from the bandstand or cemetery on what we called "Decoration Day." There was something about the newness of life that the Spring had brought; soft sunshine falling on the fresh green grass of early summer, the misty hills in the distance, the sound of stirring national songs, and above all, the softly flapping flag in the gentle breeze as the speaker told us of our country, the deep devotion of its heroes, and recounted once more the stirring episodes of our heroic past.

And many a lazy summer afternoon, I sat on the coping around the old courthouse listening to the veterans of the Civil War tell of their experiences in the epic struggle between the States. A boy's imagination quickly sent him off behind long columns of blue or grey, and to him, such names as Antietam, The Wilderness, Shiloh, and Gettysburg became very real and meaningful.

Those old soldiers used to talk gratefully of Lincoln's insistence that those who had borne the heat of the battle and the burden of the struggle, the widow and the orphan, were to be given not charity, but their rightful due as the dependents of those brave men who had fought to preserve liberty and to keep the Union intact. It was regarded as a sacred duty of the nation, and the nation kept faith with its veterans.

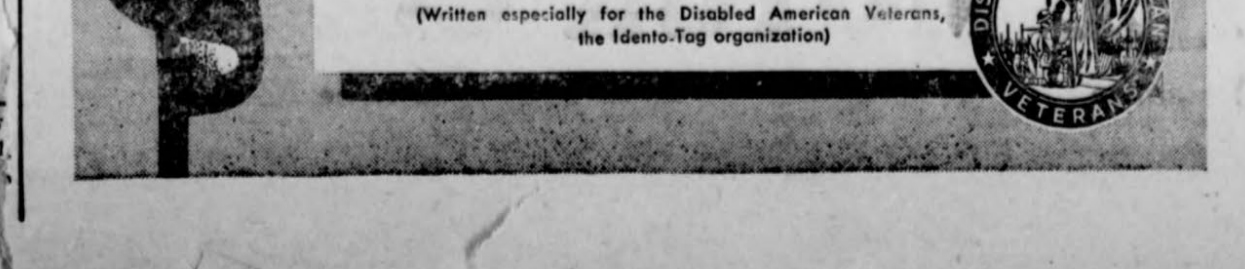

In those days, as now, were many who had been disabled by the struggle. Their ability to compete in life had been reduced by wounds suffered in battle. Even as a boy I remember hearing how it seemed they were thought of only on such days as Memorial Day, when orators, fervent in their patriotism, remembered, if only for a day, the long continuing sacrifice made not by those who had died in battle, but by the disabled who were to live for many years following the great struggle.

The heroes of World War I and World War II and the Korean War are, of course, men who, with no concern for themselves, gave their lives that freedom might live. We can never do them adequate honor. And, we must never forget them. They died in their young life, forsaking the opportunities of the years that the rest of us might live and develop our highest hopes and dreams.

However, there are other living heroes who deprived themselves of either physical, emotional, or mental health for us and for their fellow countrymen. It would be as wrong for us to neglect or forget them as their buddies who today sleep on some Pacific Island or in a European cemetery. A hero dead or a hero maimed and disabled are both due our equal gratitude and our unceasing devotion.

We must never forget that the most effective way of honoring those who have died is to remember the living disabled, that their lives may be rich and full. They are a great asset to our country as the living embodiment of devotion to freedom. A country is recreant indeed which does not everlastingly keep alive grateful appreciation to those who suffered disability to perpetuate everything that we Americans hold dear.

There could be no better time than on Memorial Day to resolve that we shall gratefully support the honored men and women who have suffered disability from the wars of the United States.

(Written especially for the Disabled American Veterans, the Identio-Tog organization)

John Sibley, vocational agriculture instructor in Iowa Park High school, was among the group selected to receive awards given at the Vocational Agriculture Teachers association Saturday at the Area IV FFA leadership meeting held at Tarleton State college, Stephenville.

Five teachers were selected to receive honorary Lone Star Farmer degrees for their outstanding services. To be eligible for this degree a teacher must meet the following qualifications:

1. Must have taught five years, with three in the same school.
2. Participated in district, area and state FFA leadership and judging contests.
3. Sole adviser of one American or two State Farmers.
4. Good appearance.
5. Active member of the Vocational Agriculture Teachers association.
6. Courteous and helpful to all FFA and agriculture teachers.
7. Regular in attendance at district teachers meetings.

Mr. Sibley will receive his award at the state FFA convention in Dallas, July 25-27. It is the highest degree that can be conferred by the state FFA association.

Mr. Sibley was made honorary member at Colorado A & M of Alpha Tau Alpha, national fraternity for college students training to become agriculture teachers.

He is also an honorary member of the Lamar (Colo.) FFA chapter and of the local sheep and goat raisers association.

He is a member of the District Agricultural Workers council, the Farm and Ranch club, Evening Lions club, in which he serves on the agriculture committee.

He has been appointed publicity chairman of the Wichita District Vocational Agriculture Teachers association. He served on the junior livestock judging committee of the Texas-Oklahoma Fair.

Mr. Sibley assists with the poultry show and the Wichita County Farm Bureau's 4-H and FFA Project show.

Sibley has coached three judging teams that have gone to the state contests at College Station. One of his students Eddie Whittenberg, received an expense paid trip to Kansas City. Last fall he accompanied two students, Deryl James and Bob McManus to Kansas City for the national convention.

Two Iowa Park students, Eddie Whittenberg and Jerry Morgan, were awarded Lone Star degrees, highest student honor in FFA.

The local FFA is custodian of seven pieces of farm equipment owned by the Wilbarger-Wichita Soil Conservation district. They are rented to farmers and the FFA receives the rent money.

Mr. Sibley holds a BS degree from Texas A & M and MS from Colorado A & M. He has taught in Lamar (Colo.), and Sour Lake (Tex.) before coming to Iowa Park. The work here is conducted on a 12 months basis, and he assists the boys with their projects and attends various conferences during the summer months.

Mr. Sibley said this week: "Excellent co-operation of students, school officials and the people of this community has been a determining factor in my being selected for this honor."

Mr. Sibley is also active in the Methodist church. He is youth director in MYF and a Sunday School teacher in the youth division. A steward in the church, he has been chosen as a layman to attend annual conference in Dallas this month.

Spaniards Visit SC Work Unit

We had a nice visit this week with Jose Ma. Arviza of Madrid and Celestino Salvo of Zaragoza, two Spanish agriculturists and engineers in this country studying on the Point 4 program.

The visitors were to stay awhile here and be shown the workings of the Wilbarger-Wichita Soil Conservation district. Technicians with the Iowa Park work unit guided them in their studies.

Mrs. Arviza and Salvo have had engineering and agriculture training in the University of Madrid.

After arriving in this country, the men left Washington, D.C. and came to Stillwater, Okla., for a month of observation directed by the A & M college there. When they have studied here, at Vernon and at Quannah, one of the men will go to San Luis Obispo, Calif., and the other to Florida and Puerto Rico.

Reese to Direct Summer Games

Executive committee of United Church Women met recently and voted to employ Coach James Reese as director of the summer recreation program.

Beginning June 4 the program will be operated each afternoon from 1:30 to 6:00, Monday through Friday, ending August 23.

Using school facilities and playgrounds, games such as tennis, volleyball, basketball, badminton and horseshoes will be enjoyed.

Tournaments will be held at the close of the season.

One evening a week will be used for swimming if transportation can be provided.

She had made her home in Boyce several years before moving to Garrett in 1944.

She is survived by three sons, five daughters, three brothers, 37 grand- and 20 great-grandchildren.

It is nice to see Mrs. Nora Fields visiting and shopping around in town again after being confined to her home following surgery.

Mrs. Frankie Hendrick has as guests this week her parents Mr. and Mrs. J. A. Farr of Blair, Okla.

Mrs. Jesse McCullough underwent surgery this week in a Wichita Falls hospital.

Funeral services will be held in the Panhandle Methodist church Sunday afternoon at 2:30. Graveside services will be held in the Iowa Park cemetery Monday morning at 10:00.

She had several relatives here: Earle and Kelly Denny, brothers-in-law; Mmes. Oscar Lochridge, Bill Burnett, Jack Callon, Ida Tucker, sisters-in-law.

Last year Letha attended Iowa Park High School and lacked only one credit of completing her high school work in three years. She received a scholarship from the Church of God in Texas to Lee. During the past year she has completed her high school work and 28 semester hours in college.

She plans to enroll next fall in Lee and complete the junior college course.

WHY ADVERTISE ?

Chiropractic advertising is frequently a subject for discussion by people either uninformed about or prejudiced toward Chiropractic. Often these people question the ethics of this practice. It is true that most avenues of communication are closed to Chiropractic unless space is purchased by the Chiropractor. Case No. 1136, male, age 40, applied for the services of this office, seeking relief from headaches which bothered him for two years and had been constant during the past month. X-ray revealed the true CAUSE of this man's disease and corrective measures were started. This gentleman was a proof-reader of previous ads and thus was exposed, periodically to their message. The results in this case are ample justification for the continuance of Chiropractic advertising. This man was led to the correction of the CAUSE of his nagging headaches through Chiropractic advertising. Continuing the use of stop-gap treatment would have meant more months and years of pain and suffering.

STOP THOSE HURRIED DASHES

Ever notice how you run for a ringing telephone because you're often in another part of the house? Then, when you get there, you're probably a little out of breath as you answer.

Our records show that the most popular spots for an extension with most people are the bedroom and kitchen. But don't forget the living room or the workshop—or anywhere, really, that's most convenient for you and your family.

To order an extension, just call the telephone company. The cost of an extension in your home is only \$1 a month, plus a one-time installation charge of \$1.75.

LONG DISTANCE VISIT

I was thinking just the other day that you can't drive a car from Iowa Park to Dallas for 65 cents. Yet you can visit there—by Long Distance—for just 65 cents.

That's the cost of a three-minute station-to-station call, after 6 p.m. and all day Sunday. Long Distance rates to anywhere are much less than you might think. So plan to visit regularly—by Long Distance. And when you call, remember to call by number—it's twice as fast.

TELEPHONE TALK

by Norman S. Stuckey, Manager

"SERVICE WAS NEVER BETTER"

Some time ago, we mailed out post cards to all our customers in Iowa Park. If you'll remember, we asked you in the post card what you DIDN'T like about your telephone service.

Maybe some of you were surprised that we would ask a question like that. But we meant it. We weren't asking for compliments. We did it to find out what you really thought about telephone service here.

When the cards came back with your answers, we were happy to see that most of you said, "Service is very good, well satisfied with it." And it was good hearing it from you, because we'll all admit that nobody knows more about your service than you do.

We also got a few complaints—thanks for telling us about them—and we tried to clear those up in a hurry so that everyone in Iowa Park would be satisfied with their telephone service.

Meanwhile, don't hesitate if something's bothering you right now about your telephone service. Just call the telephone company. We'd like to know about it—and we'll try to do something about it, too.

Best Wishes, Seniors!

There are at least four reasons for congratulations at this time of year, when Iowa Park High School is finishing another term of school and graduating another crop of young men and women.

First, we want to congratulate the Class of 1956 for the fine way in which its members have conducted themselves throughout their school careers. The entire community is proud of them and happy to point them out as products of the school system and of the Iowa Park area.

Second, we congratulate the Iowa Park Independent School District: the Board of Trustees, the Superintendent, the Principals, the Teachers, the Bus Drivers, the Custodians and Cafeteria Personnel; on the fine way in which they have nurtured Iowa Park's most valuable product, its children. Each of you has had an important function to perform, and collectively you have achieved a marvelous success.

Third, we point with pride at the parents. With good training at home and whole-hearted co-operation with the schools, another successful term of school ends next week. Without such co-operation the school system would be handicapped and rendered ineffectual.

Finally, we congratulate ourselves on the fine community we have made and are making here. The spirit of our children is a reflection of the spirit of the community. The churches, the places and opportunities for recreation and entertainment, the family and community life — all are determining factors in the growth and development of character in our children. We have appraised those factors in Iowa Park, and find them wholesome!

We repeat — Congratulations, All!

"Planned-overs"...
the modern way to save cooking time with an Electric Food Freezer

You can save cooking time by storing "planned-overs," not just left-overs, in your Electric Food Freezer. By doubling or tripling your recipes and freezing the extra portion, you accumulate fresh, appetizing "planned-over" meals that can be served in just minutes . . . weeks, even months, later. With two or three meals prepared from one cooking session, you can find time for other activities . . . avoid hurry-up, last-minute meal preparation. Even left-overs take on new importance . . . instead of using them up quickly

to avoid waste, you can freeze and store them for "planned" use later. An Electric Food Freezer streamlines your whole approach to meal planning, adds variety and zest to menus. Gone are the days of frequent marketing trips and three-meals-a-day cooking. No wonder so many modern homemakers say that "freezer living" is leisure living. Electric Food Freezers are available in either chest or upright models in a size that's just right for your kitchen space and food storage requirements . . . see them at your favorite appliance dealer's.

CLYDE'S Market

Class Prophecy

by Mary Raiston

I want to tell all of you a true story—something that happened to me. It all began on such a beautiful day! The birds were fairly making up songs of their own to sing; the sky was the prettiest shade of blue that I have ever seen, and I could not have felt better. In fact it was so nice and springy that I decided to leave my work and visit a friend who lived across the way.

It is always this way it seems to me: A person is walking along minding his own business doing just what he is supposed to do—then whom! Some car comes swerving around the corner on a red light and knocks him down. That is exactly what happened to me. I had the strangest feeling afterwards. Everything suddenly grew hazy, then just as suddenly everything was bright once more.

I found myself looking up into the friendly face of a policeman. I removed myself from the ground and looked eye to eye with him. His face was so familiar that I could hardly believe my eyes. Was this a fellow classmate of mine? It couldn't be—but it was—Gordon Griffith. He didn't recognize me at first, but after he did, we stood and chatted for awhile. Gordon told me that the person in the hot rod would be quickly apprehended. I left him, thinking how good it was to see an old classmate after 15 years.

I walked across the street, but had not gone far when I saw a newspaper boy. Whistling, I paid him for a paper. I then started on my way still whistling. As I read, the headlines seemed to jump right from the paper and into my vision.

Small Town Girl, Miss Barbara Walker plans to be among those who will attempt to swim the English channel this coming year. Miss Walker, aged 32 has been training for this great event since 1967. She said, quote: It is the opportunity that I have always hoped and dreamed for. Unquote.

In the center of the front page I read: The Luxury Liner sailed from France this morning, leaving behind between 20 and 30 grieving reporters. On this great ship was Johnnie Ralph Henry Brown, the multi-billionaire playboy. It is claimed that Mr. Brown owns 3/4 of Texas. Whether this is true or not can not easily be determined. We do know, however that Mr. Brown is all Texan, and that he is kept busy just visiting all of his oilwells.

Thumbing through this paper was fun. I turned to the society section, and noticed this item: The women's club will meet in the home of Mrs. Marvin Richter this week. Mrs. Richter is the president and most prominent member of the club.

I found the entertainment page to be most exciting: Mr. Bruce Hughes, who has just recently joined the Philharmonic Orchestra is the main soloist tonight. Mr. Hughes will play three instruments, the cornet, trombone and baritone horns. This paper is quite sure that a great crowd will attend the debut of this musical genius.

of MGM studios, and Mr. Boyt Smith of the Broadway stage, are starring in the new picture "Sombrero de Mexico." Critics have said that Miss Reed and Mr. Smith are sure to have a smash hit on their hands—box office net \$3,000,000. Miss Reed plays a Spanish senorita, and Mr. Smith plays Pablo, one of her father's most trusted friends, but he is actually the villain of the story.

I noticed that a new band was appearing at the Broadmoor hotel. Leader was Bobby MacManus. His band is said to be the hottest thing since Lawrence Welk and his orchestra, the paper said.

Girls, watch out! This is a warning to all females. You had better watch your heart because a new crooner will certainly steal it from you. 15 years ago Elvis Presley was the heart stealer. Now he has gone out of style. Now—for only one night at the price of only 04.50—you can see the new crooner, Jerry Morgan. You've read it—Now do something about it. Get your tickets now!

The sports section included a picture of a football star. The face could not have been more familiar. It was Delos Whisenbunt. Delos was surrounded by not only the female fans, but the male part of the cheering section. The girls looked at him sorrowfully as though they were saying, "Too bad, he's taken."

I tucked the newspaper under my arm. As I started around the corner, I saw only the tip end of a large cigar sticking out. I noticed a distinguished looking gentleman approaching me. Over his shoulder he had a large, professional looking camera, and on the leather case were the 4 letters: LIFE. Underneath was the name, Edwin Todd, Esquire. Wee, too, had a long chat. Edwin told me that he was going to Japan to cover some big story for Life magazine. He said that the last time he was in China he had seen Bonnie Callaway, who was now one of the leading missionaries in her field. Bonnie was working 24 hours a day, helping everyone who needed it. Edwin then asked me if I had seen J. D. Miller's life on the television program This Is Your Life. Edwin said that J. D. had been proclaimed the funniest performer since Phil Silvers. His salary was as high as \$1000 a week. I learned that one of my classmates was now a vocational agriculture teacher. The boys in his class thought highly of him. He was what you might call an agricultural genius. Yes, Eddie Whittenberg knew all there is to know about agriculture.

Edwin told me that Martha Eaton was the friendliest librarian that a person could find anywhere. "She knows where every book in that place is," he said. Edwin then remarked that one stewardess of the plane he was leaving on was none other than Mary Morgan.

Edwin then tilted his hat, put his cigar back in his mouth, and left, muttering all the while that he didn't want to miss his plane.

I felt something wet touch my arm. I looked up at the sky. The clouds were now gray and it had begun to rain. I then ducked into a store, the nearest to me—D. Sims and Company. I inquired about the owner. "Oh, you mean Mr. Sims, Mr. Durwood Sims. He has a large chain of these 5 and 10 stores. Why he's a tycoon." Later before I left the store, I heard her remarking to a customer, "Yes, we have a few paintings, but none of Larry Robinson's. But there is an exhibit of his at the art gallery. Around 25 paintings, I have heard."

A rainbow had appeared by the

time I left the store. I looked at my watch. It was now 10:30. I decided to cut across the park to save time. Well, as I was walking along, I saw a woman approaching me. It was Sue Evans. She was pushing a carriage, which I soon discovered contained twin girls—on each side of the proud mother walked a little boy. I asked Sue about Jerry Paul. She said Uncle Sam had called him back and that he was now an admiral. She showed me the check Jerry Paul had sent home to her and the children.

I asked if she had seen any of our former classmates.

Sue said that Joan Archer had her own television program—"The Domestic Housewife," a cooking and sewing class—Joan's own creation. Sue said that Joan was quite happy in her work. "Speaking of happiness," Sue remarked, "did you know that Joyce Stephenson is a model on the Big Payoff. But Joyce has always had just the perfect figure for being a model."

During our visit, Sue asked me if I had ever been to criminal court. She told me Lynn Hensley was a top lawyer and had lost only four cases out of 20. Lynn was always good at arguing about anything. This was really a fine way to earn money at the same time, I thought.

Sue left me, saying she had to go home and cook dinner.

When I reached my friend's house we talked for awhile. She invited me to dinner, and I suggested eating in a restaurant close by. As we sat admiring the scenery, I overheard someone at the next table saying, "I have heard that Nina Lahey is in town. She's a famous skating star. I saw her do a perfect figure 8 one time. She is really terrific."

"You really should go to that gymnasium. You're getting flabby, my sweet," a woman at the next table was saying to her husband. "They say the owner David Sewell really knows how to make you lose weight. He has barbells, boxing gloves, and even a trapeze. So he could do something with you—surely."

"Well, dear. While I am there, you should go to the beauty shop. They say that Barbara Roberts and Billye Shook know the right style for any woman's hair—even yours." His wife quickly shut her mouth and didn't open it again.

As my friend and I walked outside, I noticed a beautiful blonde acting strangely. She looked back before she started inside. I stopped, fascinated by this scene. Suddenly a man came around the corner. He wore dark glasses, but I quickly recognized him as Bill McMahan. I stopped him and asked him what he was doing. He looked at me strangely, then showed his credentials. I discovered he was a private detective and this woman's rich husband had hired him to follow her. Bill lifted his eyebrows and told me, "This is one job—I don't mind doing," before he started after her again.

My friend remarked after his departure, "Have you ever seen a stranger man? Speaking of strange things—Have you heard of that agency for tall people? Thurman Payton, the owner finds tall boys for tall girls. But that's not all—he even provides a car which is twice as high as the usual car."

"There is also a barber shop down the street. The barber, John Wesley has hair down to his knees but it has been said that he is an excellent barber."

Danny Clark, young son of Mr. and Mrs. Ed Clark, who had surgery last week, has returned home from Baylor hospital in Dallas, and is reported greatly improved.

Good Luck, Seniors!

Just as you have depended on your parents and teachers to help you get ready for adult life, the community is depending on you to continue preparing yourselves to shoulder the load and help the next generation accomplish its fullest possibilities.

We know you will — and wish you God's speed in your efforts.

Frankie's Apparel

On our way back to my friend's house we passed an auction. The auctioneer, right before our very eyes, sold an antique love chair—scarcely worth \$5 for \$55. The auctioneer was none other than J. C. Bridges, but I was no longer surprised at anything.

Two doors down from the auction, I noticed a sign on the front of a building I had not noticed before: Laboratory—J. W. Geisert—Scientist. Jerry was always interested in science, even in the school room.

There was a huge building across from my friend's apartment—General Motors Inc. I heard that Sandra Fenner was the president of this corporation's private secretary and that she really knew her shorthand. Wouldn't surprise me if that girl didn't do 150 words a minute. She's also an excellent typist.

When Sandra left the building, I told her about seeing all of our former classmates. She remarked that Norman Lee was professor at a girl's college. She also told me Doyleene Morgan had been the only girl in a class of 100 geologists. "Imagine all of the fun she had. Now she has left town to hunt for ancient rocks," Sandra laughed.

After Sandra left, I said goodbye to my friend and started toward home. I heard someone calling my name. It was Gordon Griffith. He had hold of a man in an auto racing outfit. He had on goggles, but I recognized J. L. Skinner. "This is the scoundrel who knocked you down while ago. He is riding in the big race at Indianapolis. He says he was just practicing."

I started across the street. Before I knew it, a car came speeding around the corner and wham! Everything grew hazy again.

"Are you comfortable, Mary?" I recognized the voice of the registered nurse immediately. It was Clara Ann Verble. She looked very crisp in her clean white uniform. "What happened?" I asked groggily.

"You were hit by a car, but you will be all right."

"What time was that? I was hit twice, you know."

"Twice? Why, Mary. This happened about 9:00 this morning."

"Nine! But that couldn't be. What street was I on?"

"Fifth and Main."

"But I distinctly remembered the name of the street being Memory Lane. It was so realistic. I saw nearly all of our former classmates and what they are doing now. Everywhere I went, their names were being spoken."

"It was all a dream. Was there anything about what you were doing?"

"Yes, I passed a book store where two books I had written were on display. Titles of the books were 'Merlin Marlin, Private Eye' and 'The Life of an Eskimo.' It was only a dream—only a dream."

If you don't believe my story, just remember that you begged me to tell it.

First Graders to Get Tryouts

A pre-school session will be held Monday, Tuesday and Wednesday of next week for all children who expect to start in the first grade here next fall, according to Miss Ethyle Kidwell, principal.

Each child is to bring 27 cents, a pencil, tablet, crayons and scissors.

Miss Kidwell asks the parents not to plan to stay with the students after they bring them to school. The children will be introduced to the various things they will be taught next fall. They will also be instructed in the way school lunches are served, and will be served their lunch.

Mrs. Alva Worthington and Mrs. Roy Smith, first grade teachers, will be assisting Miss Kidwell in this three day school.

Thursday at 1:00 a pre-school clinic will be held. If parents wish their own family physician to examine the student, they need not report for the check-up.
