Color TV Sets — One A Minute

Expert hands and eyes give final adjustments and checks to big color television receivers as they roll off an assembly line in Bloomington, Ind., at the rate of one per minute. Another plant at Indianapolis also is geared to produce a color television set—completely tested, packed and ready for shipment to American homes—every 60 seconds.

More than \$5,000,000 were spent by RCA to convert the Bloomington facilities into the industry's first plant for the mass production of color receivers. During 1956, the company expects to manufacture and sell 200,000 color sets.

A further indication of color TV's growth is the increasing number of color shows being telecast by networks. NBC-TV, for example, now offers 40 hours of color programming each month and expects to double its schedule by the coming fall.

Arch Hughes Enters Mayor Race

Farm Records Are Important Aids To Planning

Farm records have been referred to by Miss Thelma Wirges, county home demonstration agent, as the eyes and ears of the farm business. They reflect how the business is doing and may prevent many costly management or expansion mistakes.

On the average farm the investment per worker totals \$15,000. Investments in land, machinery, livestock and other essentials make the present day farmer a capitalist of considerable means. His investments are often larger than those of many urban businesses. Our highly competitive commercial farming makes record keeping mandatory as a protection for our investments.

Too, records make the job of preparing the yearly income tax report much simpler, and can save money. Expense items which are not recorded are overlooked or forgotten at tax paying time, and for every \$5 item missed, the average taxpayer pays \$1.25 in taxes he doesn't owe. Even the cost of a good farm record book is deductible as an operating expense.

Farm families who have improved their farming operations have found records to be the key to their success. They take the guesswork out of their business.

Home demonstration club women are making the first step in taking the guesswork out of their farming business. They have had demonstrations on Family Planning and Spending, and on Important Records. The past week some 16 family economics leaders received training on Places for Keeping Records.

These leaders will give this demonstration to all home demonstration clubs and will be stressing the importance of having a convenient place for taking care of business. This often saves lots of time, money and mistakes.

Mrs. B. E. Rogers, food and nutrition demonstrator for the Valley View HDC, plans to work on the organization of her recipe file, which is surely an aid to good management of the home. She is also planning to work on giving gifts from the kitchen. Gifts from the kitchen are always appreciated and can be used in the home.

County extension agents visited Mrs. A. E. Bailey recently to help with shaping trees in her orchard. Mrs. Bailey is working on Farm and Home Development.

Farmers are advised to check their small grain and alfalfa closely for green bugs, yellow aphid and cutworms, as they are showing up in fields near Friberg, Punkin Center and Burkburnett, according to B. T. Hawes, county agent.

Now is a good time to plant cabbage, carrots, collards, lettuce, mustard, onions, English peas, Irish potatoes, radishes and turnips.

Mr. and Mrs. Charlie Coppock have as guests Mr. and Mrs. Lester Chanut of Grand Prairie.

Senior Play Set Friday, Mch. 16

The Senior class, under direction of Mrs. O. R. Owens and Mr. Tim Hughes, is preparing a play for patrons, faculty and other students of the local schools, to be presented the night of March 16 in the school auditorium.

It is to be a musical extravaganza with the accent on comedy and the latest hit tunes that all America is singing—"I'm Out to Be Wild and Woolly," "Old Mule" etc. Some of these are solos and thus the leading characters have been selected for their fine voices as well as for dramatic ability. Incidentally, there is no truth to the rumor that the Senior class has been butchering hogs during play practice.

Now that the filing deadline is past and the dust has settled, Iowa Park voters find themselves faced with the duty of choosing a mayor and three aldermen in the city election slated for Tuesday, April 3.

For mayor they have a choice between R. E. Van Horn, who has served the past four years, and Arch Hughes, owner of the Arch Hughes Construction company, who filed late Saturday morning.

Three aldermen are to be selected from the list of four filed for the jobs. H. R. Sullivan and Laverne L. Thompson are seeking re-election, while Frank F. Rauchscher and Dr. L. A. Crawford are seeking first terms.

W. J. Beasley Jr. and Charles L. Metz are holdover members of the city council. Fred Hays, a present alderman, did not file for re-election.

Only Miss Dosia S. Smith filed for the city secretary position she has held many years.

Next Monday night at Council meeting, the candidates will draw for places on the official ballot. The judge and clerks for the April 3 election will be named at this meeting.

Brooklyn Man to Conduct Revival at Church of God

Rev. V. B. Grassano of Brooklyn, N. Y., has been secured to bring the inspirational evangelistic messages for a revival at the Iowa Park Church of God, beginning next Sunday and continuing at least two weeks.

Mr. Grassano is reported to be a good preacher whose messages will interest young and old alike, according to Rev. L. C. Pennington, local pastor.

Prayers for the sick will be said at each service and special prayer for healings will be featured each Friday night.

Mr. Pennington and members of the local Church of God are inviting everybody in the community and area to attend these services.

Mr. and Mrs. Miles Hines of Lubbock visited their daughter and family Mr. and Mrs. John Mixon, Judy and Jerry, last weekend.

Mrs. Ramsey Buys Dora Shop

Mrs. A. L. Ramsey of Kamay has purchased Cora White's beauty shop in the Park hotel and is now operating the business under the name "Ruby's Beauty Shop."

Mrs. Ramsey has had a year's experience in beauty work and welcomes the women and girls of this area to come in and visit with her and get acquainted.

The Ramsey family live in Kamay and attend the Baptist church there.

Bradford Opens Larger Quarters With More Display Space

Sixty-one million registered motor vehicles and 72 million licensed drivers in the United States today are piling up mileage at the unprecedented rate of more than 560 billion miles a year, the Automobile Manufacturers Association reports.

This is an average of approximately 9,200 miles per vehicle, and 7,800 miles per driver.

Motor vehicle registrations and travel mileage on the nation's highways are due to increase more than 33 per cent by 1965.

Inadequate roads are costing U.S. motorists countless accidents and deaths—and some \$5 billion per year.

To correct road inadequacies, over \$100 billion will be needed for highway construction during the next 10 years.

Half of the anticipated traffic growth in the coming decade will be on the 40,000-mile Interstate Highway System.

Highway construction and maintenance costs per mile have doubled since 1941.

Taxes take 24 cents out of every dollar spent for the purchase of an automobile. Special automotive taxes paid by U.S. motorists in 1954 totaled \$6.2 billion.

California leads all states in automobile registration, with a 1954 total of 4,879,210. New York State is second with 3,893,980.

Newest Board Game Teaches How To Shop Thriftily At The Supermarket

GAMES THAT HELP THE YOUNGSTERS BRUSH UP on their 3R's are a popular source of recreation, when bad weather keeps the younger set indoors. Newest competitive fun maker in this category, the Campbell Kids Shopping game, provides basic training in budget wise shopping at the supermarket. Constructed around two sides of the game-board is an elevated ramp which gives a three dimensional effect to the shopping center below. Players move cars down the ramp to the supermarket parking lot, maneuver for parking space and fill the family's marketing needs for soups, pork and beans, spaghetti and other kitchen indispensables. There are four cars, four Campbell Kid playing pieces, shopping carts and 24 diecut products.

After a round of games, it's winning strategy for mother to let the young supermarket shoppers try their hands at preparing nutritious soup and sandwich menus. The junior grade cooks are sure to be enthusiastic eaters.

COFFEE: A Conversation Piece

Of all the groceries in daily American use, few have as legendary and romantic a background as coffee. Some of its colorful facts and traditions make conversation pieces almost as stimulating as the beverage itself.

One Arabian legend relates that coffee came into use when it "got the goats" of a herdsman named Kaldi. He reported to the abbot of a monastery that his flock went into a frolicsome dance after eating berries of a certain tree. When the cleric boiled the berries in water, he derived an exhilarating brew which helped his monks to stay awake during midnight prayers.

This monastic coffee ritual was the predecessor of the daily coffee break enjoyed by millions of American workers and housewives.

In a survey among plant managers, 82% credited coffee breaks with a reduction in worker fatigue and 62% said they increased productivity.

Coffee has also been a factor in adventure and espionage. The famed Polish spy, Franz Kolchitzky, who saved Vienna from besieging Turks, opened the first Viennese coffee house. As reward for his heroic exploits, including swimming the Danube several times to circumvent enemy lines, he was given sacks of green coffee abandoned by the fleeing Turks.

Today, you can find coffee houses in nearly every metropolis of Europe, many with their own history of famous patrons and epochal events. In England, Samuel Johnson established the Turk's Head coffee house which became a gathering place for artists and writers of his era. It is rumored that in the archives of the old Cafe Central in Herren-gasse there is an unpaid bill for

a cup of black coffee—charged to Trotsky.

In the U.S., Boston's Green Dragon coffee house was called "headquarters of the Revolution" by Daniel Webster, and the Merchants' House in New York was the scene of Washington's pre-inaugural reception. A forerunner of the Revolution itself—the Boston Tea Party—when colonists dressed as Indians dumped British tea into the harbor to protest taxes, accelerated coffee's popularity in this country. Today, Americans drink more than 300 million cups of coffee a day. In addition to its role in adventure, history and literature, coffee—or the lack of it—has been the point of issue in the courtroom. In Turkey, at one time, a husband's failure to provide coffee for his wife was legitimate grounds for divorce. In the affairs of the heart, Madame du Barry was among ladies who were wooed with gifts of coffee, and Bach's Coffee Cantata sings of a girl who insists on a marriage contract stating that she may have coffee whenever she wishes. Nowadays, it is its indispensability at socials.

To Napoleon, coffee was something that "gives me warmth, an

unusual force." To General Sherman, in his remarks on troop rations, it was "something to be carried along, even at the expense of bread." To the English clergyman and humorist Sydney Smith, it was "the intellectual beverage."

Name your favorite phase of history and research will show where coffee has played a part. And, considering its popularity in America today—our largest imported commodity—the beverage will undoubtedly continue to be part of the backdrop for memorable world events.

Members of Epsilon Sigma Alpha were entertained by the Al-Ku-La-Na Camp Fire group at their regular meeting Tuesday evening in the home of Mrs. Lavere Thompson.

Mrs. I. W. Corder, program leader for the evening, explained Camp Fire work and introduced Mrs. Burk Scott, leader of the Camp Fire unit. Mrs. Scott directed the group in an impressive candlelight ceremony. The girls sang the Camp Fire song accompanied at piano by Elaine Sawyer. Each girl lighted a candle and explained a craft. To conclude, the Law of Camp Fire was recited in unison.

Taking part were Sherye Compton, Paula Gilliland, Angela Scott, Suzy Short, Linda Robertson, Jo Cowden, Danno Reid and Betty Engledow.

ESA has sponsored the Camp Fire group the past four years.

Following the program Mrs. Rollin Roberts conducted a business session. Reports were heard from all standing committees. Members voted to make a cash donation to the state project fund. Money received from all Texas ESA chapters will go to purchase self-help equipment for polio victims.

Several Epsilon Eta members are planning to attend the state convention May 3-6 in Fort Worth. Raydean Brown was chosen favorite ESA'er to represent the local chapter at the district meeting here in April.

Hostesses Mrs. Thompson and Mrs. Roberts served refreshments featuring the St. Patrick Day theme.

Present were Meses. Alan Berry, John Clapp Jr., Jack Coleman, Raymond Cope, Bryan Farris, W. A. George, N. E. Guthrie Jr., Donald Hill, Jessie McCullough, I. W. Corder, Louis McCarthy, Glenn Miller, Malcolm Mills, Ted Overbey, Lee Perry, Ray Rutherford, Glenn Scott, Ray Watson, Burk Scott, Buck Voyles; Misses Ela Simmons, Raydean Brown and Essie Caldwell.

Dorothy Abernathy, daughter of Mr. and Mrs. K. P. Abernathy, is expected to spend the weekend here with her parents. Miss Abernathy is a teacher at Austin college in Sherman.

Louann Gragg, daughter of Mrs. Carol Gragg, visited last week in Sherman with her aunt Miss Dorothy Abernathy.

Mrs. I. L. Alvey visited in Hobbs, N.M. last weekend. Her daughter Mrs. David Shoemaker and children Raymond Lee and Patsy Ann then returned home with her for a two weeks visit.

Thelma Wirges says...

If you're an average American you ate \$435 worth of food in 1955. And chances are you'll spend the same or more this year unless you plan carefully.

Eating out more than we used to, and buying more highly processed foods, accounts for the increase in family food costs in the past 10 years.

Here are some ways to cut food costs, suggested by Thelma Wirges, county home demonstration agent:

1. Buy the makings instead of ready cooked and ready mixed food—unless time is more important than money.
2. Grow some of your groceries in a garden. If you live on a farm, produce your meat and milk, poultry or eggs.
3. Freeze or can fresh vegetables and fruits for use when the price of fresh produce hits a seasonal high.
4. Prevent food waste. If you need more detailed suggestions for planning the food supply, planning meals, growing gardens, freezing and canning, contact your home demonstration agent.

Mrs. Charles Robertson of Comanche, Okla., and Mrs. Virginia Jackson of Duncan, Okla., visited Tuesday in Iowa Park. Mrs. Robertson recently moved with her husband and two children back to Comanche after living in Iowa Park about two years.

Soil Conservation

Grass seed will be in short supply according to Soil Conservation Service. Technicians for SCS are now checking supplies and the probable demand for such seed during 1956 through 1958.

Grasses that would most likely do well and produce seed are blue panic and KR bluestem and Blackwell switchgrass for irrigated land. We are now in the planting season, and farmers might do well to consider production of grass seed as a money crop for this area.

Ray Hirschi, farming 18 miles northwest of Iowa Park, is planning to save about 20 acres of blue panic for seed production. J. C. Porter is making plans to harvest KR bluestem seed from about 8 acres. Buford Whiteside of Electra will again harvest seed from his KR on a waterway.

Benefits of seeding grasses are: protective cover for the land to control erosion and increase organic content; increases water intake into the soil; provides high dollar returns per acre.

Seed will usually be produced during the second year on KR and switchgrass and first year on blue panic.

Dear Mr. Swim:

Many of the worthwhile contributions that athletics can make as one phase of the total educational program were in evidence.

Very sincerely yours

Farmers Union Evalyn Birkman To Wed Airman speaks

Wichita Valley Farmers Union, Local 101, met at the Community house on March 5 for their regular monthly business session.

President L. E. Lovell announced plans for chartered buses from Texas to attend the national Farmers Union convention in Denver, Colo., March 18-22. All interested members are urged to contact Lee for reservations as soon as possible.

John Staber reported on the February bus trip to Washington, D.C. To date 39 buses of 1,289 farmers representing Farmers Union have gone to Washington. These farmers have attended Senate and Congressional agricultural meetings to ask for 100 per cent parity and present a farm plan that would keep grassroots farmers on the land with sufficient income to operate.

John reported all the farmers were most kindly received by Senators and Congressmen, but were unable to contact Sec. of Agriculture Benson and were only granted 15 minutes by Undersecretary True D. Morse. He pled a previous engagement and although the FU men were in Washington four days Morse had no more time, even though this group represented every phase of agriculture, dairying and stock raising, and it seemed strange they were unable to discuss their problems with national agriculture representatives.

Miss Lehman, recreation chairman, announced a Canasta Party to be held in the Community house on March 20. All members are invited to attend.

Refreshments were served by Mrs. C. C. Morgan, Miss Mabel Nolend and L. J. Lane.

Mr. and Mrs. D. O. James visited in Odell and Vernon last Sunday. At Vernon they visited with Mr. and Mrs. Paul Peterson, formerly of Iowa Park.
