## INVITING THE UNDERTAKER-

On a 40 MPH highway drivers may commit mayhem in two ways: ① drive at 20 MPH ② drive at 80 MPH.

The horrible effects of automobile wrecks were graphically presented to the Noon Lions at their weekly luncheon. Program chairman Morris V. Jacks presented a film prepared by the Suicide Club.

The program consisted of film slides depicting the many causes of death on the highway. "Defensive driving" was advocated by the recorded explanations accompanying the slides. "Drivers of other vehicles probably are not drunk or crazy or exhausted or mad at the world," the sound track said, "but you don't know for sure if the other fellow in your vicinity is not so incapacitated. Defend yourself and your fellow passengers at all times and you won't get hurt."

"Getting angry is often the cause of disaster on the highway, and driving beyond the limits of your endurance is criminally dangerous. Especially hazardous is excessive speed after the sun goes down. Your car is out of control, no matter how carefully you are steering it, if you cannot stop within the range of your headlights," the voice dolefully reminded its listeners.

Nobody cheered and clapped during the presentation of this grim lesson, nobody laughed at the grisly remarks. But the program, we believe, served its purpose—that of wakening the driving adults to the importance of setting better examples for their soon-to-be-driving offspring.

Evening Lions had three informative programs Tuesday. Virgil Woodfin presided during the meeting and called on Elden Cole for the invocation. John Sibley, instructor of vocational agriculture in the local high school, reported the highlights of a recent trip to the national FFA convention in Kansas City.

Keith Swim reported on the new buildings being constructed for the school, gymnasium and band hall. Clifton Blakesbee and C. E. Onstott, manager and co-manager of the Caravan Sales for the Blind, of Ft. Worth, were guests. Blakesbee spoke to the group explaining the purpose of the Caravan Sales for the Blind, located at Ft. Worth and Houston.

Texas Lighthouse for the Blind was started in September 1953 with a small number of blind people taking part. It now helps to provide employment for about 400 blind men and women in Texas, working in lighthouses and workshops throughout the state.

Lions clubs are backing this organization by selling the merchandise made by these people. During 1955, \$200,000 worth of household items made by the blind were sold by Texas Lions. Of this sum, \$50,000 was retained by participating clubs to help finance their worthwhile projects in their own communities.

Evening Lions took part in this project last year when the club was only a few weeks old and they plan to do it again soon.

Mrs. James Elms and children Jim Ed and Karen, and Mrs. James Reese and son Jimmy Dan visited relatives in Arkansas last weekend.

Harvey Klinkerman sneaked one yard for the first Hawk TD and passed to Donald Dagherity for the bonus. Donnie Todd had the honor of escorting the ball a yard for the second quarter TD. On this occasion Klinkerman booted the point.

Scoring play in the third stanza was a Klinkerman 4-yard drive. Randal Pierce took a 10-yard pass from Klinkerman and raced another 36 yards for the final Hawk counter.

Munday's Moguls are to be homecoming opposition for the Hawks this Friday. Both teams are undefeated in conference play.

Mrs. Ella Huckaby of Hobart, Okla., visited Mr. and Mrs. George R. Huckaby last weekend.

Leonard Wayne Luckett of the army has just returned from duty in France and Germany. He is now visiting his parents Mr. and Mrs. Leonard Luckett.

Carol Thomas, popular high school senior, daughter of Mr. and Mrs. J. W. Thomas, represented Iowa Park as a princess to the queen of Oil Progress Week, Miss Vyvyan Morris of Burk Burnett.

Carol competed with senior girls from Wichita Falls, Electra, Burk and the Academy of Mary Immaculate of Wichita Falls for the queen's title.

The royal court was feted at a luncheon, rode in the parade and was honored at the OPW banquet. Princess Carol was escorted to the banquet by Douglas James, also a senior at IPHS. She was selected by classmates.

Carol was one of the top 10 seniors who were honored during Oil Progress Week with a tour and luncheon to several oil plants and leases.

Miss Thomas was runner-up for high school beauty in her freshman year and runner-up for junior high favorite as an eighth grader. A cheerleader, she also is editor of Hawks Nest, school yearbook, having been on the staff all four years.

Carol was a Blue Bird and a Camp Fire girl and attends the Baptist church.

## Heldt Home Is Destroyed by Night Fire

Iowa Park volunteer firemen answered a call Wednesday night to the W. C. Heldt home in the south part of town. Called too late to save the house and furnishings, the men fought the blaze about an hour. The Heldt family was not at home at the time of the fire.

Friends and neighbors of Iowa Park are busy securing clothing and needed household goods for the victims of this total loss. Rev. George Shropshire, pastor of Faith Baptist church, is serving as chairman. He is being assisted by other church members.

Many have donated to the family, and others may help by calling Orville Deary, Pat Kingcade, Mrs. J. T. Paris, Mrs. Hubert Tatom, or may leave the things at the Heldt temporary home, the Padgett house on South Atlantic.

Mr. and Mrs. Heldt have an 11-year-old daughter, Mary Lee.

## Reflections from the Bible

By Ray Marcum, Minister Iowa Park Church of Christ

As we live it matters not to many of us what we are called, but when it comes time for us to pass on into eternity, the worm changes and it matters a great deal. In the religious world, we are perfectly contented and happy to be called by other names than "Christian," names that cannot be found in the word of God, names that have been attached on to religious bodies by men. These are names that those of you who wear them are proud of the fact because you boast of same.

Considering these facts I sometimes wonder why we only want to be known as "Christians" when we have our bodies lowered into the grave. Could it be that it is because in the New Testament that the only name the followers of Jesus Christ are known by is "Christians"? Denominational names can only go as far as life goes in this world, then they are cast aside. Jesus prayed that we all be one in Him. Did I hear you say there is nothing in a name? Nothing but salvation of your own soul from the depth of everlasting hell! This can be achieved only in the name of Jesus Christ and His name alone. We plead with you to read your Bible, it reads the same as mine.

## SPOTLIGHT ON SPORTS

A strong passing attack coupled with a good running game paid off for Iowa Park last Friday as they gained a 26-12 victory over their hosts the Paducah Dragons.

Paducah managed a touchdown in the first and last periods, while the Hawks were scoring in each quarter.

Scoring for the Dragons was Jerry Boren, right half, who took the ball around end for four yards to paydirt in the first stanza. A Charlie Johnson aerial to Boren for 18 yards with a 25 yard run paid off with only 30 seconds remaining in the contest.

Harvey Klinkerman sneaked one yard for the first Hawk TD and passed to Donald Dagherity for the bonus. Donnie Todd had the honor of escorting the ball a yard for the second quarter TD. On this occasion Klinkerman booted the point.

Scoring play in the third stanza was a Klinkerman 4-yard drive. Randal Pierce took a 10-yard pass from Klinkerman and raced another 36 yards for the final Hawk counter.

Munday's Moguls are to be homecoming opposition for the Hawks this Friday. Both teams are undefeated in conference play.

Mrs. Ella Huckaby of Hobart, Okla., visited Mr. and Mrs. George R. Huckaby last weekend.

Leonard Wayne Luckett of the army has just returned from duty in France and Germany. He is now visiting his parents Mr. and Mrs. Leonard Luckett.

### United Fund Meets Local Needs

Many campaign workers in the United Fund drive have been asked the question "Is this Iowa Park's share of the United Fund announced in Wichita Falls?" Iowa Park's United Fund is for Iowa Park and has no connection with the other drives within the county.

North Texas district of Boy Scouts asks the Iowa Park Fund to contribute according to the population which is in the same ratio as the larger cities of the 17 county area which the district serves. The money sent to the District from Iowa Park is for payment of salaries, expenses in the office, and administration of Boy Scouts of this area.

Iowa Park has two troops and has one of the most advanced programs for Boy Scouts in the area. Camp Fire portion of the United Fund is determined by population also.

Red Cross has joined in the United Fund this year, and the money they ask for is in proportion to population also. Red Cross joined the UF drive so there would be only one solicitation of funds from the people each year.

USO portion of the drive is for operation of the 700 USO's in the state. Texas has more army and air force bases than any other state and there are over 700 USO centers near camps and bases in Texas. Iowa Park United Fund will send \$297 to the Central USO and the entire group will operate from this central fund.

Kid Baseball is a local institution which has a national affiliation but operates entirely on a local basis. Expenses will be met from money given here. Adult sponsorship and supervision are given by men working with this project.

Welfare contributions are deposited locally and there is a welfare board composed of Keith Swim, Miss Clara Lowrance and Rollins Woodal. This fund is used entirely in Iowa Park each year for local welfare needs.

Iowa Park has a total goal of \$4,600 and \$3,800 has been raised to date. The campaign has been going since Sept. 2 and will continue until the goal is reached.

Mrs. T. A. Uhrich is visiting her son George Uhrich and family at Trinidad.

### Doleful Senators Due Shock When Ike Wins, Fears Doc

One of the strongest Eisenhower men in our town is Doc Brown. Doc says he just can't put up with Stevenson's socialized medicine program; there are a lot of other things he doesn't like about Adlai, but that one is enough for him, he says. Doc is a pretty outspoken cuss, but he's a good doctor. At least, he's the best one in town, being the only one, and our people always call him when they get sick whether they like his politics or not.

The other day several of us were standing around in front of the post office, talking politics—some Eisenhower men and some for Stevenson—when Doc walked up looking glum. One of the Stevenson men said: "Hey, Doc, what's the trouble, did Ike just call you in some bad news?"

Doc Brown said no, he hadn't heard from Ike this week, but he was worried.

"Not about Ike, you understand," he told the Stevenson fellow. "Ike has got it made. Even the Stevenson people are beginning to admit that. Poor old Adlai isn't going to get any farther in this race than he could throw Kefauver's coonskin cap with the tail cut off."

"The ones I am worried about are these out-of-state senators who are coming down here to Texas to tell us how to vote. I sure feel sorry for those boys. It must be tough to face life with their attitude."

"To hear them tell it, this country is in a terrible shape. All the farmers are starving, all

### Pigskin Popular in Grade School

Some folk think football training should be started early, so the 6th grade team was organized last Monday under supervision of Miss Ethyle Kidwell, elementary principal. Donald Daugherty and Gerald Clements, regular Hawk squadmen, are serving as coaches.

Practicing each day are Samuel Archer, John Baird, Wendell Bean, Tommy Blackburn, Marty Colvin, Danny Frazier, Bill Gibbs, Jimmy Gillispie, Tommy Gregory, Kenneth Holloway, Royce Kimberlain, Garland Lehman, Scotty May, Tommy Nolen, Pat Pruett, Eddy Tigr, Don Wheelock.

And Douglas Beavers, David Brown, Martin Brubaker, Kenneth Caldwell, Dwight Cathey, Mike Davenport, Charles Findley, Alvin Gesler, Danny Hambrick Bill Lane, Melvin Lopas, Dennis Mitchell, Robert Pastusek, Richard Raushuber, Herschel Roach, Jerry Scheibal, Bill Shelton, Lawrence Shook, Gary Todd, Butch Vestal, Larry Whittaker, Glenn Williams.

#### SALLEE-MORGAN CIRCLE

Mrs. E. W. Sumrall taught the mission lesson on Japan, Wednesday afternoon when members of the Sallee-Morgan circle of the Baptist WMS met with Mrs. J. A. Berg.

Others present were Mmes. A. A. Birdwell, Ada Curry, Sam Ferguson, Nora Fields, I. L. Alvey, Mary Shaw, Carie McDonald Everett Sewell, George Roberts, and Tommy Reed.

Next week the circle will not have a meeting.

Lt. and Mrs. Travis N. Hines and daughter Jo visited relatives in Iowa Park last weekend. Hines is in the marines and is taking a special course at Ft. Sill, Okla., for two months. The family will reside in Lawton during that time.

Mr. and Mrs. Harold Lewis and Debbie of Ardmore, Okla., visited over the weekend with his parents Mr. and Mrs. George Lewis.

### House in Scenic Setting Needs Walls of Windows

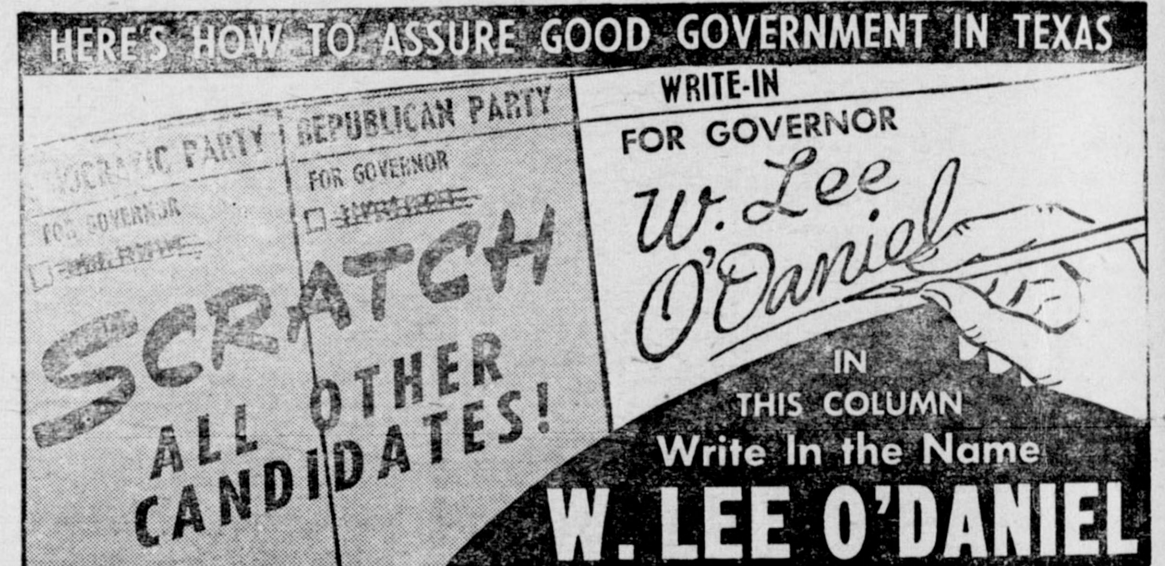

Regardless of the season, nature usually has a new "hit show" playing outside. Here the chill beauty of a fresh snowfall viewed through the rows of wood windows helps to make this kitchen-dining area seem even more warm and inviting.

When a house is located in a picturesque setting, it's little short of a crime to block the view from inside with a blank wall.

That's what professional architects and builders are saying these days, and they're backing up their opinions by installing more and more walls of windows, both in new homes and in houses being modernized. Walls of windows, besides bringing scenery into the house, also let more sunlight and air in and make the house look better from the outside.

Stock sash of ponderosa pine can be arranged into wide window areas in many ways. One of the most popular consists of two or three banks of fixed sash with awning or hopper windows here and there for ventilation.

Or, when maximum ventilation is desired, the entire "wall" can be made of awning or hopper windows. Another method is to use casement or sliding windows side by side. Generally, it's best to install factory-made sash rather than windows made by small local mills or by carpenters on the job. Factory-made windows are made of lumber which is selected for freedom from defects, scientifically dried, and treated with a water-repellent, preservative chemical.

## IN 5 MINUTES YOU CAN MAKE CREAMY FAILURE PROOF FUDGE

You can make fudge, America's favorite candy, that's failure proof and always creamy smooth in just five minutes with this simple recipe.  
In this Chocolate Mint Fudge it's the evaporated milk that gives the creamy smoothness which in old-fashioned fudge required long, vigorous beating. You'll get perfect results every time without using a candy thermometer or soft ball tests.  
Cold weather is traditionally the season for making candy at home. With this quick recipe you'll want to make Chocolate Mint Fudge often for family nibblers, for visitors and for holiday gifts. Remember, the most appreciated gift is often the one you make yourself.

**FIVE-MINUTE CHOCOLATE MINT FUDGE**  
(MAKES ABOUT 2 POUNDS)

2 tablespoons butter	1 1/2 cups (about 16) diced marshmallows
2/3 cup (small can) undiluted evaporated milk	1 1/2 cups (1 1/2 6-ounce packages) semi-sweet chocolate chips
1-2/3 cups sugar	1/2 teaspoon peppermint extract
1/2 teaspoon salt	1/2 cup chopped nuts

Combine butter, evaporated milk, sugar and salt in 2 1/2 quart heavy saucepan over medium heat. Bring to a boil. Cook 4 to 5 minutes, stirring constantly. (Start timing when mixture starts to "bubble" around edges of pan.) Remove from heat. Stir in marshmallows, chocolate chips, peppermint extract and nuts. Stir vigorously for 1 minute or until marshmallows are completely melted and blended. Pour into 9-inch square butter pan and allow to cool. Cut into squares. Top each square with a colored mint wafer if you want to make the fudge extra festive.

## Chiropractic for the Mentally Ill

We hear and read, every day, about the various health problems confronting us (TB, Polio, Heart Disease, Cancer, etc.), but probably the greatest problem facing the people is mental illness. It is the writer's opinion that a solution for this problem will not be found until Chiropractic Science is available to the mentally ill in our eleemosynary institutions. This opinion is the result of experience in this office and the knowledge of the accomplishments of other Chiropractic institutions which devote their full time to the care of the mentally ill.

Case No. 1142, female, age 21, was brought to this office for help after being confined in a state institution for eighteen months. Her diagnosis was Schizophrenia, catatonic type.

After much difficulty, X-rays of her spine were made and the CAUSE of her disease was discovered. A correction of this CAUSE was begun, using Chiropractic procedure only.

Today, this girl has taken her place in society, is happily married and is able to care for her three children. A subsequent X-ray of her spine proved that a correction of the CAUSE of her mental illness had been accomplished.

Never before in history has anything built by man traveled so far in so short a time —by land or sea!

An announcement of decisive importance to anyone about to buy a new automobile

The most exhaustive endurance test ever given an automobile has just been completed by two stock '57 Fords—identical in every respect with cars now being offered by Ford Dealers.

Under the supervision of the United States Auto Club and the Federation Internationale de Automobile, each of these two '57 Fords traveled 50,000 miles in less than 20 days. Ford No. 1 averaged 108.16 mph for the entire run... Ford No. 2, over 107 mph. These averages include time for all pit stops.

In all, the '57 Ford smashed 458 national and international records.

This test was run on the Bonneville Salt Flats in Utah... it was the longest left turn in history.

A car, like a man, is known by its deeds, not words.

That is why, we at Ford, despite our confidence in our '57 cars, let their deeds of accomplishment speak for themselves.

Therefore, we engaged an independent engineering organization to test our '57 cars more thoroughly than any other cars have ever been tested before—in this country or abroad.

We provided them with '57 Fords—cars identical with those now offered by Ford Dealers. The rest we left up to them.

Here is what they did:

They took these cars to the Salt Flats at Bonneville, Utah.

Here, twelve of the world's greatest drivers took over.

In relays they drove these cars night and day for a distance greater than twice around the world... a distance equal to 5 years of normal driving.

Not in all history has a man-built machine traveled so far in so short a time—by land or sea!

But this was not a test of speed—but of endurance of the "Inner Ford." A trial to take the measure of Thunderbird Y-block V-8 power without qualification of any kind. A test of running gear—of brakes, of materials in body and chassis. Of steering and roadability, yes, and comfort, too!

A test, indeed, such as no other cars have ever undergone, let alone successfully concluded.

Surely they have told you, in decisive terms, that they are worth more when you buy... and when you sell!

Your Ford Dealer will gladly place at your disposal the new kind of Ford that means a new kind of value for your car-buying dollar—the greatest the world has ever seen.
